No. MC 117100 (Sub No. 2), filed June 19, 1958. Applicant: SAM ORGEL AND JULE ORGEL, doing business as ELIZABETH RUBBER WASTE, 248 First Street, Elizabeth, N. J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rubber* (crude, natural or synthetic) *reclaim rubber, scrap rubber and hard scrap-pulverized, plastic pellets or granules and powder, plastic scrap*, loose and in containers, between points in Essex, Union, Hudson, Bergen, Passaic, and Middlesex Counties, N. J., and New York, N. Y., on the one hand and, on the other, points in Connecticut, Massachusetts, Rhode Island, New York and Ohio.

NOTE: Applicant states that the above-described operations will be limited to a transportation service to be performed under a continuing contract or contracts with A. Schulman, Inc.

HEARING: September 9, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before examiner Leo W. Cunningham.

No. MC 117341, filed April 14, 1958. Applicant: W. R. WEBSTER AND W. D. WEBSTER, a Partnership, doing business as WEBSTER TANK TRUCK SERVICE, 12540 Los Nietos Road, Los Nietos, Calif. Applicant's attorney: Ivan McWhinney, 639 South Spring Street, Los Angeles 14, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt, road oil*, and *fuel oil*, in bulk, in tank vehicles, from points in Los Angeles County, Calif., to Ports of Entry in California and Arizona on the boundary between the United States and Mexico, and from Tucson, Ariz., to the Port of Entry on the boundary between the United States and Mexico at or near Nogales, Ariz.

HEARING: September 25, 1958, at the Federal Building, Los Angeles, Calif., before Joint Board No. 47, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 117438, filed June 5, 1958. Applicant: CLARENCE VERNON BOWLING, doing business as BUD'S MOBILE HOME MOVING, 8918 Castro Valley Boulevard, Castro Valley, Calif. Applicant's attorney: Bruce R. Geernaert, 100 Bush Street, San Francisco 4, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *House trailers*, designed to be drawn by passenger automobiles, in secondary movements, in truckaway service, between Castro Valley, Calif., on the one hand, and, on the other, points in California, Oregon, Washington, Nevada, Arizona, New Mexico, Texas, Oklahoma, Arkansas, Tennessee, Georgia, and Florida; and (2) *New house trailers*, designed to be drawn by passenger automobiles, in initial movements, in truckaway service, from Newton, Kans., and Tulsa, Okla., to San Leandro, Calif.

HEARING: September 5, 1958, in Room 226, Old Mint Building, Fifth and Mission Streets, San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 117456, filed June 16, 1958. Applicant: HARRY N. JONES AND DELMER A. PRITCHARD, doing business as MOBILE HOME MOVERS, 10429 Royal Ann Street, Oakland, Calif. Applicant's representative: Pete H. Dawson, 1261 Drake Avenue, Burlingame, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New and used house trailers*, in truckaway and driveaway service, between points in Alameda, Contra Costa, Marin, San Francisco, San Mateo, Santa Clara, Santa Cruz, and Solano Counties, Calif., on the one hand, and, on the other, points in Nevada, Oregon and Washington.

HEARING: September 5, 1958, in Room 226, Old Mint Building, Fifth and Mission Streets, San Francisco, Calif., before Examiner F. Roy Linn.

MOTOR CARRIERS OF PASSENGERS

No. MC 453 (Sub No. 13), filed June 11, 1958. Applicant: THE GRAY LINE, INC., 1010 Eye Street NW., Washington, D. C. Applicant's attorney: S. Harrison Kahn, 726-34 Investment Building, Washington, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage*, in special operations, during the racing season, between Washington, D. C., and the Baltimore Raceway, Baltimore, Md., from Washington, D. C., over the Washington-Baltimore Parkway to Baltimore, thence over city streets and U. S. Highway 40 to the Baltimore Raceway, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Maryland, Delaware, New Jersey, Pennsylvania, Virginia, and the District of Columbia.

HEARING: September 10, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Joint Board No. 120.

No. MC 89687 (Sub No. 6), filed May 28, 1958. Applicant: ALFRED L. RIDDLE, Doing business as RIDDLE SCENIC TOURS, 206 West Sixth Street, Los Angeles 14, Calif. Applicant's attorney: Arthur H. Glanz, 639 South Spring Street, Los Angeles 14, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, in special operations consisting of sightseeing or pleasure tours, (A) Remove the restriction against use of larger equipment than 7 passenger limousines in MC 89687. Also remove the seasonal restrictions presently contained in MC 89687 (Sub No. 5). Applicant seeks also to remove restrictions against the pick up or discharge of passengers at certain points en route, so that tour parties might, in connection with a tour to Death Valley National Monument, commence at one gateway and terminate at another gateway thus facilitating regular transcontinental or other common carrier travel connections. Applicant proposes to transport passengers and their baggage in special operations consisting of sightseeing and pleasure tours to Death Valley National Monument, where the tour begins at either Bakersfield, Barstow, or Baker, Calif., and ends at either of the following points: Bakersfield, Barstow, Baker, Lone Pine, Trona, Mojave, Calif., or Las Vegas, Nev. Applicant proposes to use the routes presently authorized in various combinations with the following additional connecting and service routes: (1) between Bakersfield, Calif., and Barstow, Calif., over U. S. Highway 466; (1A) between junction of U. S. Highway 466 and unnumbered road and the Borax Works near Boron, over unnumbered roads; (1AA) between junction of California Highway 127 and unnumbered highway near Shoshone, Calif., and Ashford Mill, via Salsberry Pass; (2) between Mojave, Calif., and Trona, Calif., from Mojave over U. S. Highway 6 to junction of unnumbered highway, thence over unnumbered highways to Trona, and return over the same route, serving the intermediate points of Inyokern, China Lake, and Ridgecrest; (3) between junction of U. S. Highway 395 and 466 at Beechers Corners and junction of California Highway 190 and Emigrant Canyon Highway (Emigrant Junction), over U. S. Highway 395 to Red Mountain, thence unnumbered highway through Trona to Emigrant Canyon; (3A) between Beechers Corners (junction U. S. Highway 395 and 466) and junction of U. S. Highways 395 and 6 near Brown, Calif., over U. S. Highway 395; (3B) between junction California Highway 190 and Panamint Valley Road and junction of Emigrant Canyon Highway and Panamint Valley Road over Panamint Valley Road.

NOTE: Applicant states that it seeks to provide tour parties originating in or destined to points in Northern California and the Pacific Northwest, a tour service to Death Valley through the Bakersfield gateway, making the approach to the valley from the east and south (Barstown and Baker). The various routes sought will be used in combination for various tours, and will afford a means of making circle tours of varying length following the sequence of history, and which routes make use of various historical wagon trail trails and alternates. Some tour parties desire to start their tour at one point and end at another point to facilitate on-travel. All service provided will contemplate a "package" tour to the points of interest in Death Valley National Monument. The service proposed will be performed only for a minimum of four adult fares. Applicant requests that a consolidated certificate be issued embracing the authority now held with that requested in the application.

HEARING: September 22, 1958, at the Federal Building, Los Angeles, Calif., before Joint Board No. 78, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

APPLICATION FOR BROKERAGE LICENSE

MOTOR CARRIERS OF PROPERTY

No. MC 12682, filed June 5, 1958. Applicant: JOHN E. BROPHY, 506 Oxford Road, Havertown, Pa. For a License (BMC 4) to engage in operations as a *broker* at Havertown, Pa., in arranging for the transportation by motor vehicle, in interstate or foreign commerce, of

household goods, as defined by the Commission, and *office equipment*, between points in Delaware, Montgomery, Chester, and Philadelphia Counties, Pa., on the one hand, and, on the other points in the United States.

HEARING: September 4, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before examiner Harold P. Boss.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

No. MC 30837 (Sub No. 236), filed June 24, 1958. Applicant: KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. Applicant's attorney: Paul F. Sullivan, Sundial House, 1821 Jefferson Place NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Freight carrying trailers, trailer* and *truck bodies, dollies with and without bodies*, set up or knocked down, from the site of the plant of Willys Motors, Inc., in Toledo, Ohio, to points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin, and Wyoming. Applicant is authorized to conduct operations throughout the United States.

No. MC 35628 (Sub No. 218), filed June 20, 1958. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation, 134 Grandville SW., Grand Rapids, Mich. Applicant's attorney: Leonard D. Verdier, Jr., 300 Michigan Trust Building, Grand Rapids 2, Mich. Authority sought to operate as a *common carrier* by motor vehicle, over alternate routes, transporting: *General commodities*, except Class A and B explosives, dangerous inflammables, household goods as defined by the Commisison and commodities in bulk, (1) between Lancaster, Pa., and Newark, N. J., from Lancaster over U. S. Highway 222 to Trexlertown, Pa., thence over Pennsylvania Highway 100 to junction U. S. Highway 22, thence over U. S. Highway 22 to Newark, and return over the same route, serving no intermediate points, and as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations between Breezewood and Philadelphia, Pa., and between Washington, D. C., and New York, N. Y., and (2) between Lancaster, Pa., and junction U. S. Highways 222 and 1, from Lancaster over Pennsylvania Highway 72 to junction U. S. Highway 222 at or near Wakefield, Pa., thence over U. S. Highway 222 to junction U. S. Highway 1, and return over the same route, serving no intermediate points, and serving junction U. S. Highways 222 and 1 for the purpose of joinder only, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations specified above. Applicant is authorized to conduct operations in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, West Virginia, Wisconsin, and the District of Columbia.

No. MC 55873, (Sub No. 29), filed June 24, 1958. Applicant: GREAT AMERICAN TRANSPORT, INC., 347 23d Street, Detroit 16, Mich. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Amoco Chemicals Company plant located approximately four miles southeast of the junction of U. S. Highway 6 and U. S. Highway 66, as an off-route point in connection with applicant's authorized regular route operations between Joliet, Ill., and Hammond, Ind., and between Joliet, Ill., and Aurora, Ill. Applicant is authorized to conduct operations in Illinois, Indiana, Michigan, and Ohio.

No. MC 66562 (Sub No. 1424) (AMENDMENT) filed June 3, 1958, published in the June 25, 1958, issue, on page 4661. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, Law Department, Railway Express Agency, Incorporated (same address as applicant). In letter dated June 20, 1958, applicant's attorney indicates the conditions to which this application is subject are (1) that the service to be performed by applicant shall be limited to that which is auxiliary to, or supplemental of, air or railway express service, and (2) shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt, covering, in addition to a motor carrier movement by said applicant, an immediately prior or immediately subsequent movement by air or rail.

No. MC 66562 (Sub No. 1425) (AMENDMENT), filed June 3, 1958, published in the June 25, 1958, issue, on page 4661. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, Law Department, Railway Express Agency, Incorporated (same address as applicant). In letter dated June 20, 1958, applicant's attorney indicates the conditions to which this application is subject are (1) that the service to be performed by applicant shall be limited to that which is auxiliary to, or supplemental of, air or railway express service, and (2) shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt, covering, in addition to a motor carrier movement by said applicant, an immediately prior or immediately subsequent movement by air or rail. Such further specific conditions as the Commission in the future may find it necessary to impose in order to restrict carrier's operations to service which is auxiliary to, or supplemental of, air or railway express service. That the authority granted herein, to the extent it authorizes the transportation of Class A and B explosives, shall be limited in point of time to a period expiring five years after September 5, 1957. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states interchange with rail and air express service will be made at Louisville and Fulton, Ky.

No. MC 66562 (Sub No. 1432), filed June 23, 1958. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, Law Department, Railway Express Agency, Incorporated, same address as above. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, moving in express service, serving Murray and Benton, Ky., as off-route points in connection with applicant's authorized regular route operations between Louisville, Ky., and Fulton, Ky.: from Louisville over U. S. Highway 31W to Elizabethtown, Ky., thence over U. S. Highway 62 to Paducah, Ky., and thence over U. S. Highway 45 to Fulton, and return over the same route, serving specified intermediate points, as reflected in Certificate No. MC 66562 Sub No. 1316, subject to RESTRICTIONS set forth therein as follows: The service to be performed by carrier shall be limited to service which is auxiliary to, or supplemental of, air or railway express service. Shipments transported by carrier shall be limited to those moving on a through bill of lading or express receipt covering, in addition to the motor carrier movement by carrier, an immediately prior or immediately subsequent movement by air or rail. Such further specific conditions as the Commission in the future may find it necessary to impose in order to restrict carrier's operations to service which is auxiliary to, or supplemental of, air or railway express service. That the authority granted herein, to the extent it authorizes the transportation of Class A and B explosives, shall be limited in point of time to a period expiring five years after September 5, 1957. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states interchange with rail and air express service will be made at Louisville and Fulton, Ky.

No. MC 69785 (Sub No. 3), filed June 23, 1958. Applicant: F. CLIFFORD DAVIS AND CELINDA V. DAVIS, doing business as C. F. DAVIS TRANSPORTATION COMPANY, North Main Street, Danielson, Conn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Norwick, Conn., to Westerly, R. I. Applicant is authorized to transport similar commodities in Connecticut, Massachusetts, and Rhode Island.

No. MC 88845 (Sub No. 5), filed June 24, 1958. Applicant: PARCEL DELIVERY SERVICE, INC., 287 Mount Pleasant Avenue, Newark, N. J. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Exposed film or processed film, replacement film, packing material, envelopes* and *labels* for use in shipping exposed film, between Fairlawn, N. J., and points in Rockland County, N. Y. Applicant is authorized to conduct operations in New Jersey and New York.

NOTE: A proceeding has been instituted under section 212 (c) of the Interstate Commerce Act to determine whether applicant's status is that of a contract or common carrier, assigned Docket No. MC 88845 (Sub No. 4).

No. MC 92983 (Sub No. 300), filed June 23, 1958. Applicant: ELDON MILLER, INC., 330 East Washington Street, Iowa City, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paints, resins, varnishes*, and *ingredients* thereof, in bulk, in tank vehicles, from points in the Kansas City, Mo., Commercial Zone, as defined by the Commission, to points in Montana, Nebraska, North Dakota, South Dakota, and Wyoming. Applicant is authorized to conduct operations in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, Wyoming, and the District of Columbia.

No. MC 110525 (Sub No. 360), filed June 24, 1958. Applicant: CHEMICAL TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. Applicant's attorneys: Gerald L. Phelps and Leonard A. Jaskiewicz, Munsey Building, Washington 4, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Black chassis paint*, in bulk, in tank vehicles, from Pittsburgh, Pa., to Buffalo, N. Y. Applicant is authorized to conduct operations in Alabama, Arkansas, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

No. MC 112721 (Sub No. 2), filed June 23, 1958. Applicant: G. P. DECKER, P. O. Box 654, Moab, Utah. Applicant's attorney: Bartly G. McDonough, 10 Executive Building, 455 East Fourth South, Salt Lake City 11, Utah. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Uranium, vanadium and copper-bearing ores*, and *empty containers or other such incidental facilities* used in transporting the above-specified commodities, between points within a 225-mile radius of Monticello, Utah, including Monticello. Applicant is authorized to transport the above-specified commodities from points within 175 miles of Monticello, Utah, except points located on the Navajo Indian Reservation in Arizona and Utah, to White Canyon, Green River and Monticello, Utah, Naturita, Uravan, and Durango, Colo., and Shiprock, N. Mex.

No. MC 113681 (Sub No. 14), filed June 30, 1958. Applicant: BAKERY PRODUCTS DELIVERY, INC., 404 West Putnam Avenue, Greenwich, Conn. Applicant's attorney: Reubin Kamisky, 410 Asylum Street, Hartford 3, Conn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products*, except frozen bakery products, under individual contracts or agreements with persons, as defined in Section 203 (a) of the Interstate Commerce Act, the business of which is the sale of bread, cakes and pastries, from the Bronx, N. Y., to Providence, R. I., Boston and Westfield, Mass., and Washington, D. C., and *stale, refused, damaged, rejected* and *nonsaleable shipments* of the above-described commodities, and *empty containers or other such incidental facilities* (not specified) used in transporting the above commodities on return. Applicant is authorized to conduct operations in New York, Connecticut, Rhode Island, Massachusetts, New Jersey, Delaware, Maryland, Pennsylvania, and the District of Columbia.

NOTE: A proceeding has been instituted under section 212 (c) to determine whether applicant's status is that of a contract or common carrier in No. MC 113681 (Sub No. 12).

No. MC 116325 (Sub No. 1), filed June 26, 1958. Applicant: BYRON L. LANG, Jackson, Mo. Applicant's representative: A. A. Marshall, 305 Buder Building, St. Louis 1, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wooden pallets, pallet bins, lumber, skids* and *crating*, from the plant site of the Lutesville Pallet Company, Inc., located two miles south of Lutesville, Mo., to points in Illinois, Iowa and Minnesota.

No. MC 117478, filed June 25, 1958. Applicant: DICK D. SPERRY, P. O. Box 468, Charles City, Iowa. Applicant's attorneys: Grover Hoff, Suite 901 Ridgely Building, Springfield, Ill., and Mack Stephenson, 208 East Adams, Springfield, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* and *tractor parts*, between Charles City, Iowa, on the one hand, and, on the other, points in that part of Illinois on and north of a line beginning at the Illinois-Missouri State line near Alton, Ill., and extending along Illinois Highway 140 to junction U. S. Highway 40, thence along U. S. Highway 40 to the Illinois-Indiana State line. Applicant holds contract carrier authority in Permit No. MC 60465 to perform the above transportation service and by this application seeks to convert from contract to common carrier.

PETITION

No. MC 89723 (Sub No. 4), PETITION FOR MODIFICATION OF CERTIFICATE, dated June 17, 1958, MISSOURI PACIFIC FREIGHT TRANSPORT COMPANY, a CORPORATON, 1218 Olive Street, St. Louis 3, Mo. Petitioner's attorneys: Toll R. Ware and Walter G. Treanor, 2008 Missouri Pacific Building, St. Louis 3, Mo. Missouri Pacific Freight Transport Company, petitioner, in its Certificate No. MC 89723 Sub 4 dated July 5, 1957, under condition 3, which reads in part as follows: "No shipment shall be transported by carrier as a common carrier by motor vehicle (a) between any of the following points, or through or to or from more than one of said points: *Longview*, Palestine, Austin, San Antonio, Laredo, Fort Worth, Waco, Houston, *Hearne-Valley Junction* (to be considered as a single key point) or Odem, Texas * * *", seeks modification thereof by the elimination of the key points of Longview and Hearne-Valley Junction, Tex. In support of its petition, petitioner states, (1) the key points proposed to be lifted were among those imposed by the Commission effective July 21, 1944, at which time the volume of rail less-carload traffic partially justified operation of some merchandise box cars to the key points of Longview and Hearne-Valley Junction and such points were used as breakbulk points between cars and petitioner's trucks. During the past 13 years rail less-carload traffic has steadily declined so that at the present time these two points can no longer be justified as rail breakbulk points for merchandise cars; (2) Petitioner makes no attack upon the adequacy of existing independent common carrier truck service within the territory involved but is attempting to eliminate a serious waste of transportation on the part of the Missouri Pacific Railroad by permitting the discontinuation of large numbers of lightly-loaded box cars and by more complete utilization of petitioner's presently operated truck equipment; and (3) wherefore, petitioner respectfully petitions the Commission to eliminate Longview and Hearne-Valley Junction, Texas, as key points.

APPLICATIONS UNDER 212 (c) CONVERSION PROCEEDINGS

No. MC 105 (Sub No. 2), FIRST NATIONAL BANK OF ELKHART, ADMINISTRATOR OF THE ESTATE OF LEROY E. FOWLER (Elkhart, Ind.).

No. MC 210 (Sub No. 3), ERVIN G. FRAEMBS, doing business as ROTH TRUCK SERVICE (Chester, Ill.).

No. MC 1351 (Sub No. 6), MORRIS HASKELL, doing business as M. HASKELL (Palmer, Mass.).

No. MC 2310 (Sub No. 1), GARY WAREHOUSE COMPANY, INC. (Gary, Ind.).

No. MC 15808 (Sub. No. 21), GIRTON BROS., INC. (Brazil, Ind.).

No. MC 29674 (Sub No. 1), GEORGE L. PLACE (Putnam, Conn.).

No. MC 47693 (Sub No. 9), JOHN R. CALLAHAN, doing business as CALLAHAN TRANSPORTATION (Pittsburgh, Pa.).

No. MC 48844 (Sub No. 5), MALDWYN JAMES, doing business as JAMES TRANSFER (St. Paul, Minn.).

No. MC 53321 (Sub No. 3), RAU CARTAGE, INC. (Monroe, Mich.).

No. MC 76180 (Sub No. 7), CLARENCE OLIVER ASHFORTH, doing business as CLARENCE O. ASHFORTH (Waltham, Mass.).

No. MC 109176 (Sub No. 1), VINCENT J. COSTA, doing business as COSMAR FLORIST DELIVERY SERVICE (Union, N. J.).

No. MC 109467 (Sub No. 3), SHAW WAREHOUSE COMPANY (Birmingham, Ala.).

On January 3, 1958, the Commission, division 1, instituted the above-numbered proceedings, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as de-

fined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carriers, as of August 22, 1957, and it has been determined that, at this time, the carriers' operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered January 3, 1958, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 2787 (Sub No. 7), GEORGE E. WHITTAKER, doing business as WHITTAKER TRUCKING COMPANY (Toledo, Ohio).

No. MC 112633 (Sub No. 1), DELIVERY SERVICE, INC. (Providence, R. I.).

No. MC 113856 (Sub No. 1), ANTHONY P. MARTINE, doing business as BERNMARTS EXPRESS (Wilmington, Del.).

No. MC 114046 (Sub No. 5), LEONARD WEST (Iron Mountain, Mich.).

No. MC 115353 (Sub No. 3), LOUIS J. KENNEDY (Kearny, N. J.).

On January 24, 1958, the Commission, division 1, instituted the above-numbered proceedings, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carriers, as of August 22, 1957, and it has been determined that, at this time, the carriers' operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered January 24, 1958, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 10397 (Sub No. 3), FRED STOCK, INC. (Maplewood, N. J.).

On December 13, 1957, the Commission, division 1, instituted the above-numbered proceeding, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carrier should be revoked and in lieu thereof, a certificate of public convenience and necessity issued. Said proceeding was instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondent might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carrier, as of August 22, 1957, and it has been determined that, at this time, the carrier's operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Order of the Commission, division 1, dated June 3, 1958, vacate and set aside the order of the Commission, division 1, entered December 13, 1957, instituting the above-numbered proceeding. Said order discontinuing the proceeding shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceeding should not be discontinued.

No. MC 18037 (Sub No. 4), CHAS. LEVY CIRCULATING CO., A CORPORATION (Chicago, Ill.).

No. MC 39368 (Sub No. 1), PACKARD MOTOR TRUCK TRANSPORTATION, INC. OF NEW JERSEY (South Amboy, N. J.).

No. MC 108911 (Sub No. 4), GARDNER AND MUHLEMAN, INC. (New Martinsville, W. Va.).

No. MC 110333 (Sub No. 3), GARRISON ELEVATOR COMPANY, INC. (New Albany, Ind.).

No. MC 112184 (Sub No. 9), TEL MANFREDI MOTOR TRANSIT COMPANY (Newberry, Ohio).

No. MC 115504 (Sub No. 5), KENISON TRUCKING, INC. (Salt Lake City, Utah).

On January 2, 1958, the Commission, division 1, instituted the above-numbered proceedings on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered January 22, 1958, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 27089 (Sub No. 2), CHIWAUKEE TRUCK LINES, INC. (Chicago, Ill.).

No. MC 29698 (Sub No. 14), LESTER FELLOWS CO. (Jersey City, N. J.).

No. MC 50552 (Sub No. 4), STANLEY PANEK, doing business as STANLEY'S PETROLEUM TRANSPORT (New Bedford, Mass.).

No. MC 61747 (Sub No. 2), GRANT A. KNUDSEN, doing business as "K" TRUCKING COMPANY (Batavia, Ohio).

No. MC 109491 (Sub No. 1), ROLLIN C. ARNOLD, doing business as GREGORY EXPRESS (Elmira, N. Y.).

No. MC 109558 (Sub No. 1), SOPHIA LANE AND HATTIE KAPLAN, doing business as STATE FILM SERVICE, (New York, N. Y.).

No. MC 109654 (Sub No. 5), GREEN MOTOR LINES, INCORPORATED, (Richmond, Va.).

On January 22, 1958, the Commission, division 1, instituted the above-numbered proceedings, on its own inititative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carriers, as of August 22, 1957, and it has been determined that, at this time, the carriers' operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered January 22, 1958, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 55893 (Sub No. 2), CLAIR H. PENROD, doing business as PENROD TRUCKING SERVICE (Lansing, Mich.).

No. MC 82044 (Sub No. 1), STAR WEST CARTAGE COMPANY, INC. (Chicago, Ill.).

No. MC 84268 (Sub No. 1), JEFFERSON PARK WAREHOUSE COMPANY, INC. (Chicago, Ill.).

No. MC 93109 (Sub No. 1), TACME FILM SERVICE, INC. (New York, N. Y.).

No. MC 93110 (Sub No. 1), ROCKLAND FILM SERVICE, INC. (New York, N. Y.).

No. MC 93111 (Sub No. 1), PALISADE FILM DELIVERY CORP. (New York, N. Y.).

On January 23, 1958, the Commission, division 1, instituted the above-numbered proceedings, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carriers, as of August 22, 1957, and it has been determined that, at this time, the carriers' operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered January 23, 1958, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 62423 (Sub No. 3), JAMES A. LEWERS, doing business as LEWERS TRANSPORTATION CO. (North Providence, R. I.).

No. MC 71883 (Sub No. 5), A. G. JACKSON (Jamestown, N. Y.).

On December 18, 1957, the Commission, division 1, instituted the above-numbered proceedings, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carriers should be revoked and in lieu thereof, certificates of public convenience and necessity issued. Said proceedings were instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondents might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carriers as of August 22, 1957, and it has been determined that, at this time, the carriers' operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Orders of the Commission, division 1, dated June 3, 1958, vacate and set aside the orders of the Commission, division 1, entered December 18, 1957, instituting the above-numbered proceedings. Said orders discontinuing the proceedings shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceedings should not be discontinued.

No. MC 107527 (Sub No. 37), POST TRANSPORTATION COMPANY, A CORPORATION (Los Angeles, Calif.).

On February 14, 1958, the Commission, division 1, instituted the above-numbered proceeding, on its own initiative, under section 212 (c) of the Interstate Commerce Act, to determine whether the outstanding permits held by the above-named carrier should be revoked and in lieu thereof, a certificate of public convenience and necessity issued. Said proceeding was instituted for the reason that there was ground to believe that the operations conducted pursuant to the outstanding contract-carrier authority of the above-named respondent might not be those of a contract carrier as defined in section 203 (a) (15) of the act, as amended August 22, 1957, and might be those of a common carrier.

Additional consideration has been given to the operations conducted pursuant to the permits issued to the above-named carrier, as of August 22, 1957, and it has been determined that, at this time, the carrier's operations are in conformance with the definition of a contract carrier as set forth in section 203 (a) (15) of the act, as amended.

Order of the Commission, division 1, dated June 3, 1958, vacate and set aside the order of the Commission, division 1, entered February 14, 1958, instituting the above-numbered proceeding. Said order discontinuing the proceeding shall become effective 30 days from the date of this publication unless within that period any proper party in interest show cause why the proceeding should not be discontinued.

Applications for Certificates or Permits Which Are To Be Processed Concurrently With Applications Under Section 5, Governed by Special Rule 1.240 to the Extent Applicable

MOTOR CARRIERS OF PROPERTY

No. MC 107906 (Sub No. 14), filed June 30, 1958. Applicant: TRANSPORT MOTOR EXPRESS, INC., Meyer Road, P. O. Box 958, Fort Wayne, Ind. Applicant's attorney: John E. Lesow, 3737 North Meridian Street, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities*, (1) Between South Bend and Indianapolis, Ind., via State Highway No. 31, serving all intermediate points. [Notice 43]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 3, 1958.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with no service at intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Special Rules Revised, 1957 (49 CFR 211.1 (c) (8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1 (d) (4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1 (e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC–40235 (Deviation No. 2), I. R. C. & D. MOTOR FREIGHT, INC., P. O. Box 305, Richmond, Ind., filed June 23, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over three deviation routes, (A) between Dayton, Ohio, and Richmond, Ind., as follows: from Dayton over Ohio Highway 49 to junction U. S. Highway 40, thence over U. S. Highway 40 to junction U. S. Highway 35, thence over U. S. Highway 35 to Richmond; (B) between Cincinnati, Ohio, and Indianapolis, Ind. as follows: from Cincinnati over U. S. Highway 52 to junction Indiana Highway 46, thence over Indiana Highway 46 to junction U. S. Highway 421, thence over U. S. Highway 421 to Indianapolis; and (C) between Connersville, Ind., and Indianapolis, Ind., as follows: from Connersville over Indiana Highway 44 to junction U. S. Highway 52, thence over U. S. Highway 52 to Indianapolis; and return over the same routes, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent routes: between Dayton, Ohio, and Richmond, Ind., over U. S. Highway 35; between Cincinnati, Ohio, and Indianapolis, Ind., over U. S. Highway 52; and between Connersville, Ind., and Indiana, Ind., as follows: from Connersville, over Indiana Highway 1 to junction U. S. Highway 40, thence over U. S. Highway 40 to Indianapolis.

No. MC–72300 (Deviation No. 1), AMERICAN CARLOADING CORPORATION, 111 North Fourth Street, St. Louis 2, Mo., filed June 26, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between St. Louis, Mo., and Detroit, Mich., as follows: from St. Louis over U. S. Highway 40 to Indianapolis, Ind., thence over Indiana Highway 37 to Ft. Wayne, Ind., thence over U. S. Highway 24 to Toledo, Ohio, thence over U. S. Highway 25 to Detroit, and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent routes: from St. Louis, Mo., over U. S. Highway 66 to Chicago, Ill.; and from Detroit, Mich., over U. S. Highway 112 to Mottville, Mich., thence over U. S. Highway 131 to the Michigan-Indiana State line, thence over Indiana Highway 15 to junction Indiana Highway 120, thence over Indiana Highway 120 to Elkhart, Ind., and thence over U. S. Highway 20 to Chicago, Ill.; and return over the same routes.

No. MC–106051 (Deviation No. 1), OLD COLONY TRANSPORTATION CO., INC., 56 Prospect Street, New Bedford, Mass., filed June 27, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between the Eastern Terminus of the Massachusetts Turnpike at Weston, Mass., and West Stockbridge, Mass., as follows: from the Eastern Terminus of the Massachusetts Turnpike over the Massachusetts Turnpike and access routes to West Stockbridge and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Albany, N. Y., and Boston, Mass. over U. S. Highway 20.

No. MC–108473 (Deviation No. 1), ST. JOHNSBURY TRUCKING CO., INC., 38 Main Street, St. Johnsbury, Vt., filed June 26, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route,

between the Eastern Terminus of the Massachusetts Turnpike at Weston, Mass., and Springfield, Mass., as follows: from the Eastern Terminus of the Massachusetts Turnpike over the Massachusetts Turnpike and access routes to Springfield and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Boston, Mass., and Springfield, Mass., over the following pertinent route: from Boston over Massachusetts Highway 9 to Worcester, Mass., thence over Massachusetts Highway 12 to junction U. S. Highway 20, and thence over U. S. Highway 20 to Springfield.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

JULY 3, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34799: *Substituted service—Rail for motor, F. E. C. Ry. Co. et al.* Filed by Southern Motor Carriers Rate Conference, Agent (No. 8), for interested carriers. Rates on freight loaded in or on highway trailers and transported on railroad flat cars, in substituted service between Jacksonville (Bowden Yards), Fla., and Miami, Fla., on traffic originating at or destined to points on applicant motor carriers beyond the named substitution points.

Grounds for relief: Motor truck competition.

Tariff: Supplement 1 to Southern Motor Carriers Rate Conference, Agent, tariff I. C. C. No. 32.

FSA No. 34800: *Watermelons from and to points in the south.* Filed by O. W. South, Jr., Agent (SFA No. A3688), for interested rail carriers. Rates on watermelons, in bulk, in refrigerator cars between points in southern territory, including Ohio and Mississippi River crossings, between points in southern territory, including Ohio and Mississippi River crossings, on the one hand, and points in Virginia and Washington, D. C., on the other, and from points in southern territory to St. Louis, Mo., and points in Illinois and Indiana, all as named or described in the application.

Grounds for relief: Short-line distance formula, grouping, special rate treatment for relief lines, and operation through higher-rated intermediate territories.

Tariffs: Supplement 53 to Southern Freight Association tariff I. C. C. 1613. Supplement 11 to Illinois Freight Association tariff I. C. C. 899. Supplement 39 to Trunk Line-Central Territory Railroads tariff I. C. C. 4796.

FSA No. 34801: *Scrap iron or steel—Southern points to Eagle City, Ohio.* Filed by O. W. South, Jr., Agent (SFA No. A3691) for interested rail carriers. Rates on scrap iron or steel, carloads from specified points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee to Eagle City, Ohio.

Grounds for relief: Short-line distance formula, and grouping.

Tariff: Supplement 2 to Southern Freight Association tariff I. C. C. No. S-14.

By the Commission.

VOLUME 23 NUMBER 134

Washington, Thursday, July 10, 1958

TITLE 3—THE PRESIDENT

PROCLAMATION 3250

INDEPENDENCE DAY, 1958

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS of all the days in the year, the primary one to us—as a Nation—is the 4th of July, the anniversary of the signing of our Declaration of Independence; and

WHEREAS on this day we renew our allegiance to the Union, to the principles of self-government, and to the spirit of freedom which is the source of its strength, deeply aware that in many quarters of the globe this freedom is now threatened as never before; and

WHEREAS the freedom of mankind is indivisible and our land must play a central part in defending and developing the wellsprings of freedom, not only for ourselves, but for our friends and allies; and

WHEREAS this is the year which marks the hundredth anniversary of the birth of Theodore Roosevelt, a champion of the highest ideals of American citizenship; and

WHEREAS by a joint resolution approved July 3, 1958 (S. J. Res. 159) the Congress authorized and requested the President to proclaim July 4, 1958 as a day of rededication to the responsibilities of free citizenship:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, confident that July 4th will be observed as an occasion for traditional ceremony and civic festivities, call upon the people of the United States to observe this day as the beginning of a national year of dedication to the goals of free men. Let us use our liberty with honor and purpose, sharing it with our fellow citizens and, as free and responsible Americans, building a just and peaceful world for our children here at home and for our neighbors around the world.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this third day of July in the year of our Lord nineteen hundred and [SEAL] fifty-eight, and of the Independence of the United States of America the one hundred and eighty-second.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

PROCLAMATION 3251

MODIFYING THE IMPORT QUOTA ON LONG-STAPLE COTTON

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS on September 5, 1939, the President, under the authority of section 22 of the Agricultural Adjustment Act, as amended (7 U. S. C. 624), issued a proclamation (No. 2351; 3 CFR, Cum. Supp., p. 113) limiting the quantities of certain cotton and cotton waste which might be entered, or withdrawn from warehouse, for consumption, which proclamation was suspended in part or modified by proclamations of December 19, 1940 (No. 2450; 3 CFR, Cum. Supp., p. 205), March 31, 1942 (No. 2544; 3 CFR, Cum. Supp., p. 294), June 29, 1942 (No. 2560; 3 CFR, Cum. Supp., p. 308), February 1, 1947 (No. 2715; 3 CFR, 1943–48, Comp., p. 102), June 9, 1947 (No. 2734; 3 CFR, 1943–48, Comp., p. 116), July 20, 1948 (No. 2800; 3 CFR, 1943–48, Comp., p. 217), September 3, 1949 (No. 2856; 3 CFR, 1949 Supp., p. 45), October 4, 1950 (No. 2905; 3 CFR, 1950 Supp., p. 57), October 12, 1950 (No. 2907; 3 CFR, 1950 Supp., p. 61), June 29, 1951 (No. 2934; 3 CFR, 1951 Supp., p. 35), and June 29, 1956 (No. 3145; 3 CFR, 1956 Supp., p. 34); and

WHEREAS under the proclamation of September 5, 1939, as suspended in part and modified, the quantity of cotton hav-

ing a staple of 1⅛ inches or more in length which may be entered, or withdrawn from warehouse, for consumption in any year beginning August 1 may not exceed 45,656,420 pounds; and

WHEREAS, pursuant to subsection (d) of section 22 of the Agricultural Adjustment Act, the United States Tariff Commission has made a supplemental investigation to determine whether changed circumstances require the further modification of the proclamation of September 5, 1939, to carry out the purposes of the said section 22; and

WHEREAS the Commission has transmitted to me a report of its findings and recommendations made in connection with its supplemental investigation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby find and proclaim, on the basis of the supplemental investigation and report of the United States Tariff Commission, that changed circumstances require the further modification, as hereinafter provided, of the said proclamation of September 5, 1939, in order to carry out the purposes of section 22 of the Agricultural Adjustment Act, as amended. Accordingly, under the authority vested in me by such section, I hereby further modify the said proclamation of September 5, 1939, so that of the total quantity of 45,656,420 pounds of cotton having a staple of 1⅛ inches or more in length which may be entered, or withdrawn from warehouse, for consumption during the year beginning August 1, 1958, and in any subsequent year beginning August 1, not more than 39,590,778 pounds shall consist of cotton having a staple of 1⅜ inches or more in length, and not more than 6,065,642 pounds shall consist of cotton having a staple of 1⅛ inches or more but less than 1⅜ inches in length: *Provided*, that of such 6,065,642 pounds, not more than 1,500,000 pounds shall consist of harsh or rough cotton (except cotton of perished staple, grabbots, and cotton pickings), white in color and having a staple of 1$^{5}/_{32}$ inches or more in length, and not more than 4,565,642 pounds shall consist of other cotton.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this seventh day of July in the year of our Lord nineteen hundred and fifty-eight and of the Independence of the United States of America the one hundred and eighty-third.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

PART 15—RULES AND REGULATIONS FOR ADMINISTERING FOREST HIGHWAYS

APPORTIONMENT

Section 15.2 (b) of the rules and regulations for administering forest highways, published and effective November 8, 1957, is hereby amended, effective upon publication in the FEDERAL REGISTER, by substituting a comma for the period at the end thereof and adding immediately thereafter the following: "except that the amounts authorized to be appropriated for forest highways under section 3 (a) of the Federal-Aid Highway Act of 1958 (72 Stat. 89), for the fiscal years ending June 30, 1959, June 30, 1960, and June 30, 1961, shall be apportioned for expenditure in each State, Alaska and Puerto Rico in the same percentage as the amounts apportioned for expenditure in each State, Alaska and Puerto Rico from funds authorized for forest highways for the fiscal year ending June 30, 1958."

(Sec. 6, 54 Stat. 869, as amended; 23 U. S. C. 23b. Interprets or applies sec. 23, 42 Stat. 288, as amended, sec. 2, 49 Stat. 1520, as amended; 23 U. S. C. 23, 23a)

Recommended:

CLARE HENDEE,
Acting Chief, Forest Service,
Department of Agriculture.

B. D. TALLAMY,
Federal Highway Administrator,
Bureau of Public Roads.

Approved:

TRUE D. MORSE,
Acting Secretary of Agriculture.

SINCLAIR WEEKS,
Secretary of Commerce.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 32]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

TAKE-OFF AND LANDING WEATHER MINIMUMS

Sections 40.405 and 40.406 of the Civil Air Regulations prescribe the weather minimums for instrument approach procedures and VFR and IFR take-offs and landings. This supplement interprets these regulations with respect to the weather reports which will control in determining whether such weather conditions exist at any given time.

Since the material concerning § 40.405 is published as an interpretation and not as a rule, the notice of proposed rule-making published in 21 F. R. 684 on January 31, 1956, is hereby withdrawn.

This supplement also revokes the rule contained in § 40.406-1 and republishes that material as an interpretation applying to § 40.406.

1. A new § 40.405–1 is added to read as follows:

§ 40.405–1 *VFR takeoff and landing minimums (CAA interpretations which apply to § 40.405).*—(a) *General.* The ceiling and visibility contained in the main body of the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau will control for VFR takeoffs and landings on all runways of an airport, except as provided in paragraph (b) of this section.

(b) *Runway visibility.* Whenever the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau, including an aural report from the control tower, contains a visibility value specified as runway visibility for a particular runway of an airport, such visibility will control for takeoffs and landings on that runway.[1]

2. Section 40.406–1, effective December 15, 1955, is hereby revoked, and a new § 40.406–1 is added to read as follows:

§ 40.406–1 *IFR takeoff and landing, and instrument approach procedure, weather minimums (CAA interpretations which apply to § 40.406).*—(a) *General.* The ceiling and visibility contained in the main body of the latest weather report furnished by the U. S. Weather Bureau or a source approved by the Weather Bureau will control for instrument approach procedures and landings and takeoffs for all runways of an airport, except as provided in paragraph (b) of this section.

(b) *Runway visibility.* Whenever the latest weather report furnished by the U. S. Weather Bureau or a source ap-

[1] Information respecting the official runway visibility observations reported by the control tower operator may be obtained from the Office of the U. S. Weather Bureau for the airport concerned. Such office maintains a continuous graph recording of the runway visibility shown on the visibility meter in the control tower.

proved by the Weather Bureau, including an aural report from the control tower, contains a visibility value specified as runway visibility for a particular runway of an airport, such visibility will control for straight-in instrument approaches, landings, and takeoffs for that runway.[1]

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This supplement shall become effective August 15, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 1, 1958.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 14]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES

TSO-C52, AIRCRAFT FLIGHT DIRECTOR

Minimum performance standards for aircraft flight director instruments which are to be used in civil aircraft of the United States are defined in the new regulation § 514.51 (TSO-C52).

Section 514.51 appeared as a notice of proposed rule making in 23 F. R. 2973 on May 2, 1958. All interested persons have been afforded an opportunity to submit written views, data, or argument. No comments were received.

Section 514.51 is added under Subpart B of this part to read as follows:

§ 514.51 *Aircraft flight director—TSO-C52*—(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for aircraft flight director instruments which specifically are required to be approved for use in civil aircraft of the United States. Aircraft flight director instruments to be eligible for installation in civil aircraft shall meet the standards set forth in SAE Aeronautical Standard AS-420, "Flight Directors", dated December 15, 1954.[2]

(b) *Data requirements.* One copy each of the manufacturer's operating instructions, schematic diagrams, and installation procedures shall be furnished the Chief, Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C., with the statement of conformance.

(c) *Effective date.* July 15, 1958.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 2, 1958.

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.14 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended by changing all before "Newhall, Calif., radio range station;" to read: "From the Los Angeles, Calif., nondirectional radio beacon via the intersection of a 260° True bearing from the Los Angeles nondirectional radio beacon and the southwest course of the Camarillo, Calif., radio range; Camarillo, Calif., radio range station, except that the portions of this civil airway which lie within the geographic limits of, and between the designated altitudes of, the Point Mugu restricted area (R-100) and the established altitudes of the Point Mugu warning area (W-289) shall not be used by aircraft during the time of designation of this restricted area and this warning area unless prior approval is obtained from the Civil Aeronautics Administration Air Traffic Control; Newhall, Calif., radio range station;" by changing the name "Zuni, N. Mex., radio range station" to read: "El Moro, N. Mex., radio range station", and by changing the words which read: "excluding the portion which overlaps Albuquerque restricted area R-313;" to read: "excluding the portion which lies within the geographic limits of, and between the designated altitudes of, the Albuquerque restricted area (R-313) during the restricted area's time of designation:".

2. Section 600.108 *Amber civil airway No. 8 (Los Angeles, Calif., to Ellensburg, Wash.)* is amended by changing the words which read: "a line bearing 309° True from the San Francisco Gap, Calif., nondirectional radio beacon" to read: "a line bearing 296° True from the San Francisco Gap, Calif., nondirectional radio beacon".

3. Section 600.115 is added to read:

§ 600.115 *Amber civil airway No. 15 (United States-Canadian Border to Annette Island, Alaska).* The airspace over United States territory from the Ethelda Bay, British Columbia, Canada, nondirectional radio beacon to the Annette Island, Alaska, radio range station.

4. Section 600.211 is amended by changing the caption to read: "*Red civil airway No. 11 (Tulsa, Okla., to Boston, Mass.)* and by deleting the portion which reads: "From the intersection of the northeast course of the Gage, Okla., radio range and a line bearing 314° True from the Enid, Okla., Vance AFB nondirectional beacon via the Enid, Okla., Vance AFB nondirectional radio beacon to the intersection of a line bearing 139° True from the Vance AFB nondirectional radio beacon and the north course of the Oklahoma City, Okla., radio range."

5. Section 600.212 is amended by changing the caption to read: "*Red civil airway No. 12 (Joliet, Ill., to Detroit, Mich.)*" and by deleting the portion which reads: "That airspace over United States territory from the Windsor, Ontario, Canada, radio range station to the Erie, Pa., radio range station."

6. Section 600.257 is amended to read:

§ 600.257 *Red civil airway No. 57 (Akron, Ohio, to Youngstown, Ohio).* From the Akron, Ohio, radio range station to the Youngstown, Ohio, radio range station.

7. Section 600.277 is amended by changing the caption to read: "*Red civil airway No. 77 (Richmond, Va., to Atlantic City, N. J.)* and by changing all before Tappahannock, Va., radio range station to read: "From the Richmond, Va., radio range station via the Tappahannock, Va., radio range station;".

8. Section 600.670 is amended by changing the caption to read: "*Blue civil airway No. 70 (Waco, Tex., to Ardmore, Okla.)* and by changing the portion which reads: "Mineral Wells, Tex., nondirectional radio beacon; Ardmore, Okla., nondirectional radio beacon to the Tulsa, Okla., radio range station." to read: "Mineral Wells, Tex., nondirectional radio beacon to the Ardmore, Okla., nondirectional radio beacon."

9. Section 600.672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.)* is revoked.

10. Section 600.6002 *VOR civil airway No. 2 (Seattle, Wash., to Boston, Mass.)* is amended by changing the portion which reads: "Bozeman, Mont., omnirange station; intersection of the Bozeman omnirange 157° True and the Livingston omnirange 262° True radials; Livingston, Mont., omnirange station;" to read: "Bozeman, Mont., omnirange station; intersection of the Bozeman omnirange 157° and the Livingston omnirange 261° radials; Livingston, Mont., omnirange station;".

11. Section 600.6003 *VOR civil airway No. 3 (Key West, Fla., to Presque Isle, Maine)* is amended by changing the portion which reads: "Florence, S. C., omnirange station, including an east alternate; intersection of the Florence omnirange 054° and the Raleigh omnirange 198° radials; Raleigh, N. C., omnirange station, including a west alternate from the Florence omnirange station to the Raleigh omnirange station via the intersection of the Florence omnirange 060° and the Raleigh omnirange 232° radials; point of intersection of the Raleigh omnirange 008° True and the South Boston, Va., omnirange 081° True radials; Flat Rock, Va., omnirange station;" to read: "Florence, S. C., omnirange station, including an east alternate; intersection of the Florence omnirange 006° and the Raleigh omnirange 220° radials; Raleigh, N. C., omnirange station, including an east alternate via the intersection of the Florence omnirange 060° and the Raleigh omnirange 185° radials; intersection of the Raleigh omnirange 016° and the Flat Rock omnirange 214° radials; Flat Rock, Va., omnirange station;".

12. Section 600.6007 *VOR civil airway No. 7 (Miami, Fla., to Green Bay, Wis.)* is amended by changing the portion which reads: "Tallahassee, Fla., omnirange station; intersection of the Tallahassee omnirange 267° and the Marianna omnirange 118° radials; Marianna, Fla., omnirange station, including a west alternate from the Cross City omnirange station to the Marianna omnirange station via the intersection of the Cross City omnirange 267° and the Marianna omnirange 141° radials;" to read: "Tallahassee, Fla., omnirange station; intersection of the Tallahassee omnirange 267° and the Marianna omnirange 141° radials; Marianna, Fla., omnirange station, including a west alternate from the Cross City omnirange station to the Marianna omnirange station via the intersection of the Cross City omnirange 287° and the Marianna omnirange 141° radials;".

13. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended by changing all before "Dodge City, Kans., omnirange station;" to read: "From the Pueblo, Colo., omnirange station via the Lamar, Colo., omnirange station; Garden City, Kans., VORTAC, including a north alternate; Dodge City, Kans., omnirange station;".

14. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing the portion which reads: "Albuquerque, N. Mex., omnirange station, including a south alternate from the Zuni omnirange station to the Albuquerque omnirange station via the intersection of the Zuni omnirange 111° True and the Albuquerque omnirange 254° True radials; Otto, N. Mex., omnirange station;" to read: "Albuquerque, N. Mex., omnirange station, including a south alternate from the Zuni omnirange station to the Albuquerque omnirange station via the point of intersection of the Zuni omnirange direct radial to the La Joya, N. Mex., omnirange with the Albuquerque omnirange 254° radial; Otto, N. Mex., omnirange station;".

15. Section 600.6022 *VOR civil airway No. 22 (New Orleans, La., to Jacksonville, Fla.)* is amended by changing the portion which reads: "Marianna, Fla., omnirange station, intersection of the Marianna omnirange 118° and the Tallahassee omnirange 267° radials; Tallahassee, Fla., omnirange station; to the Jacksonville, Fla., omnirange station, including a north alternate from the Marianna omnirange station to the Jacksonville omnirange station via the point of intersection of the Marianna omnirange 093° and the Albany, Ga., omnirange 152° radials and the point of intersection of the Valdosta, Ga., omnirange 233° and the Cross City omnirange 333° radials." to read: "Marianna, Fla., omnirange station; intersection of the Marianna omnirange 141° and the Tallahassee omnirange 267° radials; Tallahassee, Fla., omnirange station; to the Jacksonville, Fla., omnirange station, including a north alternate from the Marianna omnirange station to the Jacksonville omnirange station via the point of intersection of the Marianna omnirange 092° and the Albany, Ga., omnirange 152° radials and the point of intersection of the Valdosta, Ga., omnirange 233° and the Cross City, Fla., omnirange 333° radials."

16. Section 600.6035 *VOR civil airway No. 35 (Key West, Fla., to Syracuse, N. Y.)* is amended by changing the portion which reads: "Philipsburg, Pa., omnirange station; Elmira, N. Y., omnirange station;" to read: "Philipsburg, Pa., omnirange station; Stonyfork, Pa., omnirange station; Elmira, N. Y., omnirange station;".

17. Section 600.6040 is amended to read:

§ 600.6040 *VOR civil airway No. 40 (Bergholz, Ohio, to Johnstown, Pa.).* From the point of intersection of the Pittsburgh, Pa., omnirange 291° and the Youngstown, Ohio, omnirange 195° radials via the Imperial, Pa., omnirange station; to the point of intersection of the Pittsburgh, Pa., omnirange 067° and the Johnstown, Pa., omnirange 290° radials.

18. Section 600.6041 is amended to read:

§ 600.6041 *VOR civil airway No. 41 (Pittsburgh, Pa., to Youngstown, Ohio).* From the Pittsburgh, Pa., omnirange station via the Imperial, Pa., omnirange station; intersection of the Imperial 326° and the Youngstown, Ohio, 180° radials; to the Youngstown, Ohio, omnirange station.

19. Section 600.6042 is amended to read:

§ 600.6042 *VOR civil airway No. 42 (Flint, Mich., to Washington, D. C.).* That airspace over the United States territory from the point of intersection of the Lansing, Mich., omnirange 068° and the Salem, Mich., omnirange 342° radials via the Windsor, Ont., omnirange station; Cleveland, Ohio, omnirange station; the point of intersection of the Youngstown omnirange 233° and the Cleveland omnirange 116° radials; Imperial, Pa., omnirange station; Pittsburgh, Pa., omnirange station; Johnstown, Pa., omnirange station; Martinsburg, W. Va., omnirange station; to the Washington, D. C., terminal omnirange station.

20. Section 600.6045 *VOR civil airway No. 45 (New Bern, N. C., to Saginaw, Mich.)* is amended by changing all before "Pulaski, Va., omnirange station;" to read: "From the New Bern, N. C., omnirange station via the intersection of the New Bern omnirange 297° and the Raleigh omnirange 121° radials; Raleigh, N. C., omnirange station; Greensboro, N. C., omnirange station, including an east alternate via the intersection of the Raleigh omnirange 305° and the Greensboro omnirange 051° radials and also a west alternate via the intersection of the Raleigh omnirange 240° and the Greensboro omnirange 122° radials; Pulaski, Va., omnirange station;".

21. Section 600.6072 *VOR civil airway No. 72 (Troy, N. Y., to Albany, N. Y.)* is amended by changing the portion which reads: "Bradford, Pa., omnirange station; Elmira, N. Y., omnirange station;" to read: "Bradford, Pa., omnirange station; point of intersection of the Bradford omnirange 078° radial with the Stonyfork, Pa., omnirange direct radial to the Wellsville, N. Y., omnirange station; Elmira, N. Y., omnirange station;".

22. Section 600.6074 *VOR civil airway No. 74 (Hugo, Colo., to Pine Bluff, Ark.)* is amended by changing the portion which reads: "From the Hugo, Colo., omnirange station via the Garden City, Kans., omnirange station;" to read: "From the Hugo, Colo., omnirange station via the intersection of the Hugo omnirange 112° and the Garden City VORTAC 296° radials; Garden City, Kans., VORTAC;".

23. Section 600.6084 is amended by changing the caption to read: § 600.6084 *VOR civil airway No. 84 (Shabbona, Ill., to Syracuse, N. Y.)* and by changing the portion which reads: "to the Buffalo, N. Y., omnirange station." to read: "Buffalo, N. Y., omnirange station; Geneseo, N. Y., omnirange station; the point of intersection of the Rochester, N. Y., omnirange 130° and the Elmira, N. Y., omnirange 354° radials; Syracuse, N. Y., omnirange station."

24. Section 600.6095 is amended to read:

§ 600.6095 *VOR civil airway No. 95 (Phoenix, Ariz., to Winslow, Ariz.).* From the Phoenix, Ariz., omnirange station via the intersection of the Phoenix omnirange 004° and the Winslow omnirange 224° radials; to the Winslow, Ariz., omnirange station.

25. Section 600.6103 is amended by changing the caption to read: "*VOR civil airway No. 103 (Greensboro, N. C., to Windsor, Ont.)* and by changing the portion which reads: "to the Cleveland, Ohio, omnirange station." to read: "Cleveland, Ohio, omnirange station; point of intersection of the Carleton, Mich., omnirange 097° and the Windsor omnirange 121° radials; to the Windsor, Ont., omnirange station."

26. Section 600.6116 *VOR civil airway No. 116 (Kansas City, Mo., to New York, N. Y.)* is amended by changing all after "Bradford, Pa., omnirange station;" to read: "Bradford, Pa., omnirange station; Stonyfork, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; to the point of intersection of the Wilkes-Barre-Scranton omnirange 117° and the Wilton, Conn., omnirange 240° radials."

27. Section 600.6119 is amended to read:

§ 600.6119 *VOR civil airway No. 119 (Huntington, W. Va., to Rochester, N. Y.).* From the Huntington, W. Va., nondirectional radio beacon via the Henderson, W. Va., omnirange station; Parkersburg, W. Va., omnirange station; Wheeling, W. Va., omnirange station; Imperial, Pa., omnirange station; Fitzgerald, Pa., omnirange station; Bradford, Pa., omnirange station; Wellsville, N. Y., omnirange station; Geneseo, N. Y., omnirange station; to the Rochester, N. Y., omnirange station.

28. Section 600.6126 *VOR civil airway No. 126 (Chicago, Ill., to New York, N. Y.)* is amended by changing all after "Bradford, Pa., omnirange station;" to read: "Bradford, Pa., omnirange station; Stonyfork, Pa., omnirange station;

Wilkes-Barre-Scranton, Pa., omnirange station; Huguenot, N. Y., omnirange station; to the point of intersection of the Huguenot omnirange 114° and the Wilton, Conn., omnirange 240° radials."

29. Section 600.6127 is amended to read:

§ 600.6127 *VOR civil airway No. 127 (Livingston, Mont., to Helena, Mont.).* From the Livingston, Mont., omnirange station via the intersection of the Livingston omnirange 323° and the Helena, Mont., omnirange 119° radials to the Helena, Mont., omnirange station.

30. Section 600.6133 *VOR civil airway No. 133 (Charlotte, N. C., to Traverse City, Mich.)* is amended by changing the portion which reads: "Mansfield, Ohio, omnirange station; intersection of the Mansfield omnirange 345° True and the Salem omnirange 140° True radials; Salem, Mich., omnirange station;" to read: "Mansfield, Ohio, omnirange station; Sandusky, Ohio, omnirange station; intersection of the Waterville, Ohio, omnirange 058° and the Salem omnirange 140° radials; Salem, Mich., omnirange station;".

31. Section 600.6135 is amended to read:

§ 600.6135 *VOR civil airway No. 135 (Yuma, Ariz., to Tonopah, Nev.).* From the Yuma, Ariz., omnirange station via the Blythe, Calif., omnirange station; Needles, Calif., omnirange station; to the Las Vegas, Nev., omnirange station. From the point of intersection of the Tonopah omnirange 198° radial with the Coaldale, Nev., omnirange direct radial to Beatty, Nev., omnirange; to the Tonopah, Nev., omnirange station.

32. Section 600.6138 is amended to read:

§ 600.6138 *VOR civil airway No. 138 (Rock River, Wyo., to Fort Dodge, Iowa).* From the Rock River, Wyo., omnirange station via the Cheyenne, Wyo., omnirange station, including a north alternate via the intersection of the Rock River omnirange 108° and the Cheyenne omnirange 320° radials; to the Sidney, Nebr., omnirange station, including a south alternate. From the Grand Island, Nebr., omnirange station via the intersection of the Grand Island omnirange 099° and the Lincoln VORTAC 267° radials; Lincoln, Nebr., VORTAC; Neola, Iowa, omnirange station; to the Fort Dodge, Iowa, omnirange station.

33. Section 600.6143 is amended to read:

§ 600.6143 *VOR civil airway No. 143 (Charlotte, N. C., to Washington, D. C.).* From the Charlotte, N. C., omnirange station via the Greensboro, N. C., omnirange station, including a west alternate via the intersection of the Charlotte omnirange 005° and the Greensboro omnirange 238° radials; Lynchburg, Va., omnirange station; Montebello, Va., omnirange station. From the Front Royal, Va., omnirange station to the point of intersection of the Martinsburg, W. Va., omnirange direct radial to the Washington, D. C., terminal omnirange station and the Herndon, Va., omnirange direct radial to the Harrisburg, Pa., omnirange station.

34. Section 600.6147 *VOR civil airway No. 147 (Philadelphia, Pa., to Rochester, N. Y.)* is amended by changing all after "Elmira, N. Y., omhirange station;" to read: "Elmira, N. Y., omnirange station; Geneseo, N. Y., omnirange station; Rochester, N. Y., omnirange station."

35. Section 600.6164 *VOR civil airway No. 164 (Buffalo, N. Y., to New York, N. Y.)* is amended by changing all before "Williamsport, Pa., omnirange station;" to read: "From the Buffalo, N. Y., omnirange station via the Wellsville, N. Y., omnirange station; Stonyfork, Pa., omnirange station; Williamsport, Pa., omnirange station;".

36. Section 600.6174 is amended to read:

§ 600.6174 *VOR civil airway No. 174 (Vichy, Mo., to Washington, D. C.).* From the Vichy, Mo., omnirange station via the intersection of the Vichy omnirange 069° and the Troy omnirange 246° radials; Troy, Ill., omnirange station; Bible Grove, Ill., omnirange station; Scotland, Ind., omnirange station; Louisville, Ky., omnirange station; York, Ky., omnirange station; Henderson, W. Va., omnirange station; Elkins, W. Va., omnirange station; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° and the Washington terminal omnirange 245° radials; to the Washington, D. C., terminal omnirange station.

37. Section 600.6190 is amended to read:

§ 600.6190 *VOR civil airway No. 190 (Phoenix, Ariz., to Evansville, Ind.).* From the Phoenix, Ariz., omnirange station via the St. Johns, Ariz., omnirange station; Grants, N. Mex., omnirange; intersection of the Grants omnirange 067° and the Santa Fe omnirange 253° radials; Santa Fe, N. Mex., omnirange station; Las Vegas, N. Mex., omnirange station; Dalhart, Tex., omnirange station; Gage, Okla., omnirange station; intersection of the Gage omnirange 059° and the Ponca City omnirange 280° radials; Ponca City, Okla., omnirange station; intersection of the Ponca City omnirange 076° and the Springfield omnirange 261° radials; Springfield, Mo., omnirange station; Farmington, Mo., omnirange station; to the Evansville, Ind., omnirange station.

38. Section 600.6194 *VOR civil airway No. 194 (Lafayette, La., to Norfolk, Va.)* is amended by changing the portion which reads: "Charlotte, N. C., omnirange station; Raleigh, N. C., omnirange station; Rocky Mount, N. C., omnirange station, including a south alternate via the intersection of the Raleigh omnirange 116° and the Rocky Mount omnirange 237° radials; Cofield, N. C., omnirange station;" to read: "Charlotte, N. C., omnirange station; intersection of the Charlotte omnirange 067° and the Raleigh omnirange 240° radials; Raleigh, N. C., omnirange station; Rocky Mount, N. C., omnirange station, including a south alternate via the intersection of the Raleigh omnirange 121° and the Rocky Mount omnirange 237° radials; Cofield, N. C., omnirange station;".

39. Section 600.6214 is amended to read:

§ 600.6214 *VOR civil airway No. 214 (Troy, Ill., to Wheeling, W. Va.).* From the Troy, Ill., omnirange station via the Bible Grove, Ill., omnirange station; Lewis, Ind., omnirange station; Shelbyville, Ind., omnirange station; point of intersection of the Cincinnati, Ohio, omnirange 004° and the Dayton, Ohio, omnirange 209° radials. From the Columbus, Ohio, Port Columbus Airport ILS localizer via the Zanesville, Ohio, omnirange station; point of intersection of the Parkersburg, W. Va., omnirange 006° and the Wheeling omnirange 252° radials; to the Wheeling, W. Va., omnirange station.

40. Section 600.6222 is amended by changing the caption to read: *"VOR civil airway No. 222 (El Paso, Tex., to Gordonsville, Va.)* and by changing all after "Hickory, N. C., omnirange station;" to read: "Hickory, N. C., omnirange station; Lynchburg, Va., omnirange station; Gordonsville, Va., omnirange station."

41. Section 600.6232 is amended to read:

§ 600.6232 *VOR civil airway No. 232 (Cleveland, Ohio, to Stroudsburg, Pa.).* From the point of intersection of the Cleveland, Ohio, omnirange direct radial to the Jefferson, Ohio, omnirange station with the Chadron omnirange 300° radial via the Chadron, Ohio, omnirange station; Fitzgerald, Pa., omnirange station; Milton, Pa., omnirange station; to the Stroudsburg, Pa., omnirange station.

42. Section 600.6244 is amended to read:

§ 600.6244 *VOR civil airway No. 244 (Oakland, Calif., to Hanksville, Utah).* From the Oakland, Calif., omnirange station via the intersection of the Oakland omnirange 078° and the Modesto omnirange 312° radials; Modesto, Calif., omnirange station; Coaldale, Nev., omnirange station; Tonopah, Nev., omnirange station; Milford, Utah, omnirange station; to the Hanksville, Utah, omnirange station.

43. Section 600.6250 is amended to read:

§ 600.6250 *VOR civil airway No. 250 (Imperial, Pa., to Fitzgerald, Pa.).* From the Imperial, Pa., omnirange station via the Ellwood City, Pa., omnirange station, intersection of the Ellwood City omnirange 054° and the Fitzgerald omnirange 240° radials; to the Fitzgerald, Pa., omnirange station.

44. Section 600.6252 is amended to read:

§ 600.6252 *VOR civil airway No. 252 (Buffalo, N. Y., to New York, N. Y.).* From the Buffalo, N. Y., omnirange station via the Geneseo, N. Y., omnirange station; Watkins Glen, N. Y., omnirange station; Binghamton, N. Y., omnirange station; point of intersection of the Binghamton omnirange 130° radial with the Wilkes-Barre-Scranton, Pa., omnirange direct radial to the point of intersection of the De Lancey, N. Y., omnirange 289° radial with the Binghamton, N. Y., omnirange direct radial to the Rockdale, N. Y., omnirange station; Huguenot, N. Y., omnirange station; to the point of intersection of the Wilkes-Barre-Scranton, Pa., 117° and the Wilton, Conn., omnirange 240° radials.

45. Section 600.6260 is amended to read:

§ 600.6260 *VOR civil airway No. 260 (Charlotte, N. C., to Richmond, Va.).* From the Charleston, W. Va., omnirange station via the Rainelle, W. Va., omnirange station; Roanoke, Va., terminal omnirange station; Lynchburg, Va., omnirange station; Flat Rock, Va., omnirange station to the Richmond, Va., radio range station.

46. Section 600.6297 is added to read:

§ 600.6297 *VOR civil airway No. 297 (Mansfield, Ohio, to Carleton, Mich.).* From the Mansfield, Ohio, omnirange station via the Sandusky, Ohio, omnirange; point of intersection of the Waterville, Ohio, omnirange 058° and the Salem, Mich., omnirange 140° radials; intersection of the Carleton omnirange 117° and the Salem omnirange 140° radials; to the Carleton, Mich., omnirange station.

47. Section 600.6421 is amended to read:

§ 600.6421 *VOR civil airway No. 421 (Truth or Consequences, N. Mex., to Farmington, N. Mex.).* From the Truth or Consequences, N. Mex., omnirange station via the St. Johns, Ariz., omnirange station; Zuni, N. Mex., omnirange station; to the Farmington, N. Mex., omnirange station.

48. Section 600.6614 *VOR civil airway No. 1514 (San Francisco, Calif., to New York, N. Y.)* is amended by changing the portion which reads: "to the Modesto, Calif., omnirange station." to read: "Modesto, Calif., omnirange station; Coaldale, Nev., omnirange station; Tonopah, Nev., omnirange station; Milford, Utah, omnirange station; to the Hanksville, Utah, omnirange station."

49. Section 600.6616 *VOR civil airway No. 1516 (San Francisco, Calif., to Washington, D. C.)* is amended by changing the portion which reads: "York, Ky., omnirange station; Elkins, W. Va., omnirange station;" to read: "York, Ky., omnirange station; Henderson, W. Va., omnirange station; Elkins, W. Va., omnirange station;".

50. Section 600.6620 *VOR civil airway No. 1520 (Los Angeles, Calif., to Washington, D. C.)* is amended by changing the portion which reads: "to the Prescott, Ariz., omnirange station. From the Texico, N. Mex., omnirange station via the Childress, Tex., omnirange station;" to read: "Prescott, Ariz., omnirange station; St. Johns, Ariz., omnirange station; La Joya, N. Mex., omnirange station; Corona, N. Mex., omnirange station; the intersection of the Corona omnirange 080° and the Texico, N. Mex., omnirange 274° radials; Texico, N. Mex., omnirange station; Childress, Tex., omnirange station;" and by adding two last sentences to read: "The portion of this airway which lies within the geographic limits of, and between the designated altitudes of, the Melrose Restricted Area (R–529) is excluded during this restricted area's designated time of use. The portion of this airway below 15,000 feet mean sea level, between the Corona, N. Mex., omnirange station and the Texico, N. Mex., omnirange station shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control, between sunrise and sunset."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 31, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 1, 1958.

[F. R. Doc. 58–5239; Filed, July 9, 1958; 8:45 a. m.]

[Amdt. 12]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.115 is added to read:

§ 601.115 *Amber civil airway No. 15 control areas (United States-Canadian Border to Annette Island, Alaska).* All of Amber civil airway No. 15.

2. Section 601.211 is amended by changing the caption to read: *"Red civil airway No. 11 control areas (Tulsa, Okla., to Boston, Mass.)."*

3. Section 601.212 is amended to read:

§ 601.212 *Red civil airway No. 12 control areas (Joliet, Ill., to Detroit, Mich.).* All of Red civil airway No. 12.

4. Section 601.257 is amended to read:

§ 601.257 *Red civil airway No. 57 control areas (Akron, Ohio, to Youngstown, Ohio).* All of Red civil airway No. 57.

5. Section 601.277 is amended by changing the caption to read: *"Red civil airway No. 77 control areas (Richmond, Va., to Atlantic City, N. J.)."*

6. Section 601.670 is amended by changing the caption to read: *"Blue civil airway No. 70 control areas (Waco, Tex., to Ardmore, Okla.)."*

7. Section 601.672 *Blue civil airway No. 72 control areas (Enid, Okla., to Wichita, Kans.)* is revoked.

8. Section 601.1076 *Control area extension (Pheonix, Ariz.)* is amended by adding the following portion to present control area extension: "the airspace northeast of Phoenix lying within a 25-mile radius of the Phoenix omnirange station bounded on the west by VOR civil airway No. 95 and on the southeast by VOR civil airway No. 190."

9. Section 601.1080 *control area extension (Louisville, Ky.)* is amended by deleting the words which read: "excluding danger areas," and by adding the following sentence to the control area extension: "The portion of this control area extension which lies within the geographic limits of, and between the designated altitudes of, the Fort Knox restricted area R–64 is excluded during the restricted area's time of designation."

10. Section 601.1182 is amended to read:

§ 601.1182 *Control area extension (Enid, Okla.).* The airspace in the vicinity of Vance AFB, Enid, Okla., bounded on the north by VOR civil airway No. 190, on the east by Blue civil airway No. 5, on the south by VOR civil airway No. 140 and Red civil airway No. 59, and on the west by longitude 98°30'00".

11. Section 601.1204 *Control area extension (Zuni, N. Mex.)* is revoked.

12. Section 601.1204 is added to read:

§ 601.1204 *Control area extension (El Morro, N. Mex.).* Within 5 miles either side of the south course of the El Morro radio range extending from the radio range station to a point 25 miles south.

13. Section 601.1216 *Control area extension (New Orleans, La.)* is amended by changing the words which read: "bounded on the north by a direct line from the Belle Chasse, La., nondirectional radio beacon" to read: "bounded on the north by a direct line from the Navy New Orleans nondirectional radio beacon".

14. Section 601.1235 *Control area extension (West Palm Beach, Fla.)* is amended by changing the words which read: "below 2,000 feet" to read: "below 1,000 feet".

15. Section 601.1257 *Control area extension (Goshen, Ind.)* is amended by changing the words which read: "on the northeast by Red civil airway No. 57," to read: "on the northeast by VOR civil airway No. 30,"

16. Section 601.1279 is amended to read:

§ 601.1279 *Control area extension (Rapid City, S. Dak.).* The airspace within a 25–mile radius of the Rapid City radio range station lying in the northwest and northeast quadrants of the radio range; the airspace southeast of Rapid City lying within a 55–nautical mile radius of the Rapid City omnirange station bounded on the north by VOR civil airway No. 26 and on the west by VOR civil airway No. 89 excluding the portion which lies within the geographic limits of, and between the designated altitudes of, the Scenic restricted area (R–190) during the restricted area's time of designation.

17. Section 601.1291 is amended to read:

§ 601.1291 *Control area extension (Garden City, Kans.).* The airspace lying within a 25-mile radius of the New

Garden City Municipal Airport, Garden City, Kans.

18. Section 601.1431 *Control area extension (Bozeman, Mont.)* is revoked.

19. Section 601.1984 *Five mile radius zones* is amended by deleting the following airport: Lynchburg, Va.: Preston Glenn Airport.

20. Section 601.2050 is amended to read:

§ 601.2050 *Garden City, Kans., control zone.* Within a 5-mile radius of the New Garden City Municipal Airport, within 2 miles either side of the north course of the Garden City radio range extending from the radio range to a point 12 miles north, within 2 miles either side of a line bearing 144° True extending from the radio range station to the airport, and within 2 miles either side of the 005°, 024°, 121°, 167°, 253° and 322° True radials of the Garden City omnirange extending to points 12 miles from the omnirange station.

21. Section 601.2258 is amended to read:

§ 601.2258 *Wichita Falls, Tex., control zone.* Within a 5-mile radius of Shepherd AFB, Witchita Falls, Tex., within 2 miles either side of the southeast course of the Wichita Falls radio range extending from the radio range station to the Jolly fan marker, and within 2 miles either side of the Wichita Falls omnirange 274° True radial extending from the 5-mile radius zone to a point 10 miles west of the omnirange station.

22. Section 601.2426 is added to read:

§ 601.2426 *Lynchburg, Va., control zone.* Within a 5-mile radius of Preston Glenn Airport, Lynchburg, Va., within 2 miles either side of the 21° and 201° True radials of the Lynchburg omnirange extending from the 5-mile radius zone to a point 10 miles southwest of the omnirange station, and within 2 miles either side of the southeast course of the Lynchburg radio range extending from the radio range station to a point 10 miles southeast of the Oak Grove fan marker.

23. Section 601.2427 is added to read:

§ 61.2427 *Champaign, Ill., control zone.* Within a 5-mile radius of University of Illinois Field, Champaign, Ill., and within 2 miles either side of the 120°, 199°, 238° and 347° True radials of the Champaign omnirange extending from the omnirange station to points 12 miles southeast, south, southwest and north of the omnirange station.

24. Section 601.2428 is added to read:

§ 601.2428 *Butler, Pa., control zone.* Within a 3-mile radius centered on the Butler Airport and within 2 miles either side of the 083° and 263° True radials of the Butler omnirange extending from the 3-mile radius zone to a point 12 miles west of the omnirange station.

25. Section 601.2429 is added to read:

§ 601.2429 *Vandalia, Ill., control zone.* Within a 3-mile radius centered on Vandalia Airport and within 2 miles either side of the 003° and 183° True radials of the Vandalia omnirange extending from the 3-mile radius zone to points 12 miles north and 20 miles south of the omnirange station.

26. Section 601.2430 is added to read:

§ 601.2430 *Emporia, Kans., control zone.* Within a 3-mile radius centered on the Emporia Airport and within 2 miles either side of the 134° True radial of the Emporia omnirange extending from the 3-mile radius zone to a point 12 miles southeast of the omnirange station.

27. Section 601.2431 is added to read:

§ 601.2431 *Russell, Kans., control zone.* Within a 3-mile radius centered on Russell Airport and within 2 miles either side of the 007° True radial of the Russell omnirange extending from the 3-mile radius zone to a point 12 miles north of the omnirange station.

28. Section 601.2432 is added to read:

§ 601.2432 *Lamoni, Iowa, control zone.* Within a 3-mile radius centered on Lamoni Airport and within 2 miles either side of the 166° True radial of the Lamoni omnirange extending from the 3-mile radius zone to a point 12 miles south of the omnirange station.

29. Section 601.2433 is added to read:

§ 601.2433 *Philip, S. Dak., control zone.* Within a 3-mile radius centered on Philip Airport and within 2 miles either side of the 278° True radial of the Philip omnirange extending from the 3-mile radius zone to a point 12 miles west of the omnirange station.

30. Section 601.2434 is added to read:

§ 601.2434 *Sidney, Nebr., control zone.* Within a 3-mile radius centered on Sidney Airport and within 2 miles either side of the 079° and 259° True radials of the Sidney omnirange extending from the 3-mile radius zone to a point 12 miles west of the omnirange station.

31. Section 601.4014 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended by changing the name "Zuni, N. Mex., radio range station;" to read: "El Morro, N. Mex., radio range station;".

32. Section 601.4108 *Amber civil airway No. 8 (Los Angeles, Calif., to Ellensburg, Wash.)* is amended by changing the reporting point which reads: "the intersection of the southwest course of the Travis AFB, Calif., radio range and a line bearing 309° True from the San Francisco Gap, Calif., nondirectional radio beacon;" to read: "the intersection of the southwest course of the Travis AFB, Calif., radio range with a line bearing 296° True from the San Francisco Gap, Calif., nondirectional radio beacon and the 303° True radial of the San Francisco terminal omnirange."

33. Section 601.4115 is added to read:

§ 601.4115 *Amber civil airway No. 15 (United States-Canadian Border to Annette Island, Alaska).* No reporting point designation.

34. Section 601.4211 is amended by changing the caption to read: "*Red civil airway No. 11 (Tulsa, Okla., to Boston, Mass.).*"

35. Section 601.4212 is amended by changing the caption to read: "*Red civil airway No. 12 (Joliet, Ill., to Detroit, Mich.).*" and by revoking the reporting point which reads: "Erie, Pa., radio range station."

36. Section 601.4257 is amended to read:

§ 601.4257 *Red civil airway No. 57 (Akron, Ohio, to Youngstown, Ohio).* No reporting point designation.

37. Section 601.4277 is amended by changing the caption to read: "*Red civil airway No. 77 (Richmond, Va., to Atlantic City, N. J.).*"

38. Section 601.4642 is amended to read:

§ 601.4642 *Blue civil airway No. 42 (Goshen, Ind., to Saginaw, Mich.).* Battle Creek, Mich., radio range station.

39. Section 601.4670 is amended by changing the caption to read: "*Blue civil airway No. 70 (Waco, Tex., to Ardmore, Okla.).*"

40. Section 601.4672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.)* is revoked.

41. Section 601.4101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska)*, is amended after "Fresno, Calif., radio range station;" by adding the following reporting point: "the intersection of the northwest course of the Fresno, Calif., radio range and the northeast course of the Castle AFB radio range, Merced, Calif.;".

42. Section 601.6003 is amended to read:

§ 601.6003 *VOR civil airway No. 3 control areas (Key West, Fla., to Presque Isle, Maine).* All of VOR civil airway No. 3 including east alternates and a west alternate, but excluding all the airspace between the main airway and its east alternate extending from Florence, S. C., omnirange station to the Raleigh, N. C., omnirange station.

43. Section 601.6040 is amended to read:

§ 601.6040 *VOR civil airway No. 40 (Bergholz, Ohio, to Johnstown, Pa.).* All of VOR civil airway No. 40.

44. Section 601.6084 is amended to read:

§ 601.6084 *VOR civil airway No. 84 control areas (Shabbona, Ill., to Syracuse, N. Y.).* All of VOR civil airway No. 84.

45. Section 601.6103 is amended to read:

§ 601.6103 *VOR civil airway No. 103 control areas (Greensboro, N. C., to Windsor, Ontario).* All of VOR civil airway No. 103.

46. Section 601.6119 is amended to read:

§ 601.6119 *VOR civil airway No. 119 control areas (Huntington, W. Va., to Rochester, N. Y.).* All of VOR civil airway No. 119.

47. Section 601.6135 is amended to read:

§ 601.6135 *VOR civil airway No. 135 control areas (Yuma, Ariz., to Tonopah, Nev.).* All of VOR civil airway No. 135.

48. Section 601.6190 is amended to read:

§ 601.6190 *VOR civil airway No. 190 control areas (Phoenix, Ariz., to Grants, N. Mex.).* All of VOR civil airway No. 190.

49. Section 601.6214 is amended to read:

§ 601.6214 *VOR civil airway No. 214 control areas (Troy, Ill., to Wheeling, W. Va.).* All of VOR civil airway No. 214.

50. Section 601.6222 is amended to read:

§ 601.6222 *VOR civil airway No. 222 control areas (El Paso, Tex., to Gordonsville, Va.).* All of VOR civil airway No. 222.

51. Section 601.6232 is amended to read:

§ 601.6232 *VOR civil airway No. 232 control areas (Cleveland, Ohio, to Stroudsburg, Pa.).* All of VOR civil airway No. 232.

52. Section 601.6244 is amended to read:

§ 601.6244 *VOR civil airway No. 244 control areas (Oakland, Calif., to Hanksville, Utah).* All of VOR civil airway No. 244.

53. Section 601.6250 is amended to read:

§ 601.6250 *VOR civil airway No. 250 control areas (Imperial, Pa., to Fitzgerald, Pa.).* All of VOR civil airway No. 250.

54. Section 601.6252 is amended to read:

§ 601.6252 *VOR civil airway No. 252 control areas (Buffalo, N. Y., to New York, N. Y.).* All of VOR civil airway No. 252.

55. Section 601.6260 is amended to read:

§ 601.6260 *VOR civil airway No. 260 control areas (Charlotte, N. C., to Richmond, Va.).* All of VOR civil airway No. 260.

56. Section 601.6297 is added to read:

§ 601.6297 *VOR civil airway No. 297 control areas (Mansfield, Ohio, to Carleton, Mich.).* All of VOR civil airway No. 297.

57. Section 601.6421 is amended to read:

§ 601.6421 *VOR civil airway No. 421 control areas (Truth or Consequences, N. Mex., to Farmington, N. Mex.).* All of VOR civil airway No. 421.

58. Section 601.7001 *VOR domestic reporting points* is amended by changing the following reporting points to read:

Belle Glade Intersection: The intersection of the Miami, Fla., omnirange 344° T and the Vero Beach, Fla., omnirange 191° T radials.

Farina Intersection: The intersection of the Vandalia, Ill., omnirange 136° T and the Bible Grove, Ill., omnirange 261° T radials.

Moncure Intersection: The intersection of the Raleigh, N. C., omnirange 220° T and the Greensboro, N. C., omnirange 122° T radials.

Palestine Intersection: The intersection of the Imperial, Pa., omnirange 326° T and the Wheeling, W. Va., omnirange 003° T radials.

Pinehurst Intersection: The intersection of the Raleigh, N. C., omnirange 220° T and the Florence, S. C., omnirange 008° T radials.

Power Point Intersection: The intersection of the Imperial, Pa., omnirange 305° T and the Youngstown, Ohio, omnirange 186° T radials.

and by adding the following reporting point:

Goffs, Calif., omnirange station.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. July 31, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 1, 1958.

[F. R. Doc. 58-5240; Filed, July 9, 1958; 8:46 a. m.]

[Amdt. 227]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.19, the Fort Gordon (formerly Camp Gordon), Georgia, area (R-124) amended on November 15, 1955 in 20 F. R. 8470, is further amended by changing the "Time of designation" column to read: "0700 to 1900 daily."

2. In § 608.26, the Camp Clairborne, Louisiana, area (R-431) amended on February 2, 1954 in 19 F. R. 549, is further amended by changing the "Designated altitudes" column to read: "30,000 feet mean sea level," by changing the "Time of designation" column to read: "0600 to 1800 local time only during VFR weather conditions," and by changing the heading of the "Using agency" column to read: "Controlling agency" and that agency to read: "Commander, England AFB, Louisiana."

3. In § 608.32, the Black Creek, Mississippi, area (R-451) amended on May 25, 1955, in 20 F. R. 3651, is further amended by changing the heading of the "Time of use" column to read: "Time of designation" and that time to read: "0600-2300, daily, January through August, annually" and by changing the "Controlling agency" column to read: "Air National Guard, Jackson, Mississippi."

4. In § 608.32, the Gulfport, Mississippi, area (R-452) amended on August 18, 1955, in 20 F. R. 6008, is further amended by changing the "Designated altitudes" column to read: "50,000 feet mean sea level," by changing the "Time of designation" column to read: "Continuous" and by changing the heading of the "Using agency" column to read: "Controlling agency" and that agency to read: "Commander of Air National Guard Training Site, Gulfport Municipal Airport, Gulfport, Mississippi."

5. In § 608.39, the Guadalupe Mountains, New Mexico, area (R-212) amended on April 12, 1956, in 21 F. R. 2373, is further amended by changing the "Description by geographical coordinates" column to read: "Beginning at latitude 32°18'00", longitude 104°55'00"; thence to latitude 32°06'45", longitude 104°55'00"; thence to latitude 32°06'45", longitude 105°25'30"; thence to latitude 32°13'30", longitude 105°25'30"; thence to latitude 32°18'00", longitude 105°20'00"; thence to point of beginning."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on July 28, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 1, 1958.

[F. R. Doc. 58-5241; Filed, July 9, 1958; 8:46 a. m.]

[Amdt. 77]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Section 609.3 (d) *Explanation of terms,* was incorrectly republished in the Revision of Part 609 on July 12, 1957 (22 F. R. 5201) by the omission of the word "radials" and the insertion of the word "distances" in lieu of "headings." This amendment corrects these errors.

Inasmuch as this amendment is corrective in nature and imposes no additional burden on any person, compliance with the notice, procedure, and effective date provisions of the Administrative Procedure Act is unnecessary and not required.

Section 609.3 (d) is amended to read as follows:

§ 609.3 *Explanation of terms.* • • •

(d) "Courses," "bearings," "headings," and "radials" are stated in degrees magnetic.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 1, 1958.

[F. R. Doc. 58-5242; Filed, July 9, 1958; 8:46 a. m.]

[Amdt. 78]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedures appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (L/MFR, ADF, VOR, TerVOR, VOR/DME, ILS, or RADAR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low or medium frequency range procedures prescribed in § 609.100 (a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Birmingham VOR	BHM-LFR	Direct	2000	T-dn	300-1	300-1	*200-½
Eden FM	BHM-LFR	Direct	2600	C-dn	800-1	900-1	800-1½
				A-dn	1000-2	1000-2	1000-2

*200-½ authorized Rny 23 only.
Procedure turn W side N crs, 358 Outbnd, 178 Inbnd, 2500' within 10 mi.
Minimum altitude over facility on final approach crs, 2000'.
Crs and distance, facility to airport, 178—2.6.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 2.6 mi, climb to 2600' on S crs BHM-LFR within 20 mi.
AIR CARRIER NOTE: No reduction in minimums authorized.
MAJOR CHANGE: Deletes any reference to Bradford FM.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 90—TABLE OF CHARGES AT THE MINTS AND ASSAY OFFICES OF THE UNITED STATES [1]

The Bureau of the Mint finds that it is necessary, because of increased costs of labor and material, to revise its Table of Charges for various services performed by the Mint. It also finds that notice and public procedure thereon is impracticable, unnecessary and contrary to the public interest because such revisions are required by statutes (R. S. 3524, as amended (31 U. S. C. 332); R. S. 3546 (31 U. S. C. 360)) which require the Director of the Mint, with the concurrence of the Secretary of the Treasury, to fix mint charges so as to equal but not exceed, in their judgment, the actual average cost to each mint and assay office of the material, labor, wastage, and use of machinery employed. Accordingly, Part 90, Chapter I, Title 31 of the Code of Federal Regulations of the United States of America, is hereby revised to read as follows:

Sec.
90.1 Melting charge.
90.2 Eligibility, withdrawal and rejection of deposits.
90.3 Parting and refining charge.
90.4 Bar charges.
90.5 Assays of gold or silver bullion or jewelry free from platinum groups metals.
90.6 Assays of plated and filled goods (over 800 base metal) and white gold free from platinum group metals.
90.7 Assays of ores.
90.8 Assaying and stamping charges.
90.9 General provision.

AUTHORITY: §§ 90.1 to 90.9 issued under R. S. 3524, as amended, R. S. 3546; 31 U. S. C. 332, 360.

§ 90.1 *Melting charge.* (a) On each deposit of bullion a melting charge of $3.00 shall be imposed for the first 1,000 gross troy ounces or fraction thereof, and 30 cents additional for each 100 ounces or fraction thereof in excess of 1,000 ounces, computed on the after-melting weight: *Provided*; That no melting charge shall be imposed on deposits consisting of uncurrent United States coin or unmutilated stamped United States mint bars; on silver bullion free from gold, of the fineness of 999 thousandths or over when received in conformity with official regulations for monetary purposes and when a satisfactory assay can be obtained without melting; or on newly mined domestic silver bullion free from gold, received under the authorization of 31 U. S. C. 316c, 316d. Deposits of newly mined domestic silver bullion containing not less than ¼ thousandths of gold shall be subject to the same melting charges as gold deposits; such charges as may exceed the value of the gold in the deposit shall be waived.

(b) When the melting loss exceeds 15 percent, an additional charge of $1.80 for each deposit shall be imposed when the deposit weighs 100 gross troy ounces or less; on deposits weighing over 100 ounces the charge shall be $1.80 for the first 100 ounces and 55 cents for each 100 ounces or fraction in excess of 100 ounces. Such additional charge shall be computed on the before melting weight of the deposit.

(c) On each deposit containing white gold alloys, as determined by the assayer, an extra melting charge of $1.80 for each 100 gross troy ounces or fraction thereof shall be imposed. Such additional charge shall be computed on the before melting weight of the deposit.

(d) Deposits which fail to give concordant assays and those requiring an excessive amount of treatment, shall, at the discretion of the officer in charge of the Mint institution, be subject to an additional charge equal to the cost to the Government for additional fuel, labor, and materials used in melting and treatment, as well as in remelting and retreatment, if necessary, by the deposit melter. Impure deposits which fail to give concordant assays on dip samples from the second melting shall be rejected, subject to the provisions of § 90.2. The expenses incurred in treatment shall be collected. When such costs are assessed the charge set forth in paragraph (b) of this section shall not be made.

§ 90.2 *Eligibility, withdrawal and rejection of deposits.* (a) A gold deposit must contain one troy ounce of fine gold, at least 100 parts of gold in 1,000, and not less than 200 parts of gold or gold and silver combined in 1,000. If the deposit fails to meet these requirements or if the report of the assayer indicates it to be unsuitable for mint operations, it shall not be purchased. Deposits are not accepted in Washington, D. C.

(b) Gold, contained in deposits of silver eligible for receipt at a mint for return in bar form, may be purchased by the mints: Such deposits, however, must contain not less than 600 parts of silver in 1,000 and not more than 99 parts of gold in 1,000.

(c) If otherwise permissible,[2] deposits may be withdrawn by depositors at any time before payment is tendered therefor, and thereafter at the option of the officer in charge of the mint or assay office, subject to payment in cash of such charges for melting, etc., as have been incurred up to the time of withdrawal.

(d) Rejected deposits are subject to payment in cash of such charges as have been incurred up to time of rejection and should be returned to the depositor unless the metal may not be received by the depositor.[2] If the depositor may not receive the metal, the deposit will be held for delivery at his request and for his account, and by authorization of the Director of the Mint, to a person authorized to receive such metal.

§ 90.3 *Parting and refining charge (rate per gross troy ounces or fraction).*

CLASS A—BULLION CONTAINING GOLD

Base content (thousandths)	Gold content (thousandths)		
	Up to 250	250¼ to 500	500¼ to 949¾
	Cents	*Cents*	*Cents*
Up to 80	2	4	9
Over 80 to 160	3	5	10
Over 160 to 250	5	8	12
Over 250 to 350	8	10	14
Over 350 to 450	10	12	16
Over 450 to 550	12	14	18
Over 550 to 650	14	16	------
Over 650 to 750	16	18	------
Over 750	18	------	------
Base content disregarded	(1)	(1)	4
Base content disregarded	(2)	(2)	0

[1] Gold content 950 to 994¾.
[2] Gold content 995 and over.

CLASS B—SILVER BULLION FREE FROM GOLD

(Received for exchange for silver bars, under R. S. 3546 (31 U. S. C. 360); purchased under the Silver Purchase Act (31 U. S. C. 311a, 316b, 405a, 448–448e, 734a, 734b), or purchased for subsidiary silver coinage under R. S. 3526 (31 U. S. C. 335))

Silver content:	*Charge (cents)*
500 thousandths or less	9
500½ to 850 thousandths	7
850½ to 998¾ thousandths	2

CLASS C—MISCELLANEOUS

Upon gold bullion from 899 to 917 thousandths fine, having but one precious metal present and having base content of good copper, including foreign coins and domestic mutilated or uncurrent coin, a refining charge will be imposed only when payment is to be made in fine bars, in which case a charge of 10 cents per gross ounce, or fraction, will be imposed. Domestic gold coins will be received only in accordance with the provisions of § 92.1 of this chapter.

No refining charge will be imposed on domestic mutilated or uncurrent silver coin received in accordance with Part 100 of this chapter.

No refining charge will be imposed on newly mined domestic silver bullion free from gold. Deposits of newly mined domestic silver bullion containing not less than ¼ thousandths of gold shall be subject to the same refining charges as gold deposits; such charges as may exceed, after deduction of the melting charge, the value of the gold in the deposit, shall be waived.

When bullion contains less than one-fourth thousandth of gold or less than 8 thousandths of silver, the gold or silver content respectively shall not be reported for the benefit of the depositor.

[2] See § 90.9.

Gold coin containing 8 thousandths or over of silver acquires the status of bullion as regards charges and is subject to the appropriate charge for refining.

§ 90.4 *Bar charges.*—(a) *Charges on gold bars issued in exchange for gold bullion.*[2] (1) When payment in gold bars is requested without specification as to size, no bar charge will be imposed; except that when fine gold bullion of 0.995 or higher fineness is deposited in exchange for Government-stamped bars, a bar charge of 7 cents per $100 value of bars issued will be made; and with the further exception that when fineness of 999.9 is requested and available, a charge of 19 cents per $100 value of bars issued will be made.

(2) When special size bars are requested and are available, the bar charges will be:

	Rate per $100 value (cents)
Bar sizes (gross troy ounces):	
Large, over 50 ounces	7
Medium, 25 to 50 ounces	9
Small, below 25 but not less than 15 ounces	11
Special, below 15 but not less than 5 ounces	13

(b) *Charges on silver bars (0.999 or higher fineness) issued in exchange for silver bullion.*[2] No bar charges are imposed except when special size bars are requested and are available, in which case the bar charges will be:

	Rate per gross troy ounce (cents)
Bar sizes:	
Not less than 500 ounces	¼
Between 125 and 500 ounces	½
125 ounces or less	1

No charge will be imposed on 1,000 ounce bars.

(c) *Charges on gold bars sold.*[2] (1) Gold bars may be sold only in lots of not less than 25 fine troy ounces and only when of a fineness of 899 thousandths or above.

(2) No bar charge will be imposed on any gold bars of a fineness below 999 thousandths when particular sizes or finenesses are not requested.

(3) The following bar charges will be made for bars of a fineness of 999 thousandths or above, for bars of particular fineness, and for bars of particular sizes, when any of such bars are requested and available:

Fineness (thousandths)	Bar sizes (gross troy ounces)	Rates per $100 value
		Cents
999 and above, but below 999.9; also below 999 when particular sizes or finenesses are requested.	Large, over 50 ounces	7
	Medium, 25 to 50 ounces	9
	Small, below 25 ounces but not less than 15 ounces	11
	Special, below 15 but not less than 5 ounces	13
999.9	Any size	19

(d) *Charges on silver bars sold.* No bar charges are imposed on 1,000 ounce silver bars, sold in accordance with 31 U. S. C. 316d, and the Regulations issued thereunder. (Section 92.20 of this chapter.)

§ 90.5 *Assays of gold or silver bullion or jewelry free from platinum group metals.*

	Charge
Gold	$3.00
Silver	6.00
Gold and Silver (same sample)	10.00

An extra charge of $3.00 for each assay of gold or silver will be imposed when the sample contains any of the platinum group metals.

§ 90.6 *Assays of plated and filled goods (over 800 base metal) and white gold free from platinum group metals.*

	Charge
Gold	$7.00
Silver	7.00

An extra charge of $3.00 for each assay of gold or silver will be imposed when the sample contains any of the platinum group metals.

§ 90.7 *Assays of ores.* Assays of ores will be made at the United States Mint at Denver, Colorado. The charge for each metal determined will be:

	Charge
Gold	$2.50
Silver	2.50
Gold and Silver (same sample)	4.00
Lead	4.50
Zinc	4.50
Copper	4.00

§ 90.8 *Assaying and stamping charges.*[2] On bullion deposited for the purpose of receiving the Government assay and stamp the melting and assay charges above specified shall be imposed.

§ 90.9 *General provision.*[2] Nothing in this part provided shall be applied in a manner inconsistent with, or deemed to amend, modify, or repeal, any acts, orders, proclamations, regulations, or instructions, relating to gold or silver.

This revision shall become effective August 1, 1958.

[SEAL]

W. H. BRETT,
Director of the Mint.

Approved:

LAURENCE B. ROBBINS,
Acting Secretary of the Treasury.

[F. R. Doc. 58–5276; Filed, July 9, 1958; 8:51 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 22—SECOND CLASS

The proposed amendments to § 22.4 published in the FEDERAL REGISTER of May 9, 1958, at page 3103 (23 F. R. 3103) are hereby adopted as regulations of the Post Office Department, as set forth below.

[1] Sections 54.44 and 54.52 of this chapter set forth the purchase and sale price of gold purchased and sold to the United States Mints and Assay Office under Subparts F and G of the Gold Regulations (§§ 54.35, 54.44 54.51, 54.52 of this chapter). The one-fourth of one percent charge referred to therein shall be in addition to all other mint charges in connection with purchases or sales of gold by the United States.

[1] Coinage mints are located at Philadelphia, Pa.; San Francisco, Calif.; and Denver, Colo. A United States Assay Office is located at New York, N. Y. No deposits are accepted at the Office of the Director of the Mint in Washington, D. C.

In § 22.4 *What may be mailed at second-class rates* amend paragraph (i) to read as follows:

(i) *Advertisements.* All advertisements in periodicals must be permanently attached. Page numbers are not required in periodicals, but when numbers are not carried on pages of advertisements and the other pages carry numbers, whole numbers in sequence must be allowed for the pages of advertisements. When pages of advertisements carry page numbers, the other pages must also be numbered, and the advertisement page numbers must be either whole numbers in sequence with the numbers on the other pages or the whole number of the last preceding page with alphabetical suffixes in sequence beginning with the letter "A." Independent publications may not be inserted in periodicals as advertisements. The physical make-up of advertisements may include such features as the following:

(1) Different advertisements may occupy the same space in different copies of the same issue.

(2) Pages of advertisements may not be smaller than ⅛ of the size of the regular pages when they include coupons or application or order forms occupying one-half or less of the page as permitted by paragraph (h) (3) (v) of this section.

(3) Advertisements larger than the regular pages may be prepared for folding out horizontally, vertically, or both.

(4) Advertisements may be die-cut or deckle-edged.

(5) Multiple page advertisements may be prepared for detachment as permitted by paragraph (h) (3) (i) and may be held together by staples or other means separate from and in addition to the regular binding of the periodical.

(6) Advertisements may be printed upon sheets of paper, cellophane, foil and other similar material.

(7) Advertisements may include statements that they are printed on the product or by means of the product of the advertiser.

NOTE: The corresponding Postal Manual section is 132.49.

(R. S. 161, 396, as amended; secs. 12, 14, 20 Stat. 359, as amended, sec. 1, 37 Stat. 550, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 225, 226, 229)

[SEAL] HERBERT B. WARBURTON, *General Counsel.*

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.34, Amdt. 2]

PART 814—ALLOTMENT OF SUGAR QUOTAS

DOMESTIC BEET SUGAR AREA, 1958

Basis and purpose. This amendment is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of further amending Sugar Regulation 814.34 (22 F. R. 11027, 23 F. R. 4611) which established allotments of the 1958 sugar quota for the Domestic Beet Sugar Area totaling 2,184,484 short tons, raw value.

This amendment is necessary to allot the larger quota for the area established by Sugar Regulation 811, Amendment 5 (23 F. R. 4597) which established the 1958 quota for the Domestic Beet Sugar Area of 2,227,558 short tons, raw value, a quantity 43,074 short tons, raw value, more than previously allotted.

Findings heretofore made by the Secretary in the course of this proceeding (23 F. R. 4611) provide for the revision of this order without further notice or hearing for the purpose of adjusting allotments to take account of any change in the quota for the area resulting from any change in sugar requirements for the continental United States and the proration of any deficit in the quota for another supply area, and allotments set forth herein have been established in accordance with such findings.

Effective date. Allotments established in this order are larger than the allotments established in S. R. 814.34, Amendment 1 (23 F. R. 4611). To afford adequate opportunities to plan and to accomplish marketings of the additional quantities of sugar in an orderly manner, it is imperative that this order be effective as soon as possible. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective when published in the FEDERAL REGISTER.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act: It is hereby ordered, That paragraph (a) of § 814.34 as amended, be further amended to read as follows:

§ 814.34 *Allotment of the 1958 sugar quota for the Domestic Beet Sugar Area*—(a) *Allotments.* The 1958 sugar quota for the Domestic Beet Sugar Area of 2,227,558 short tons, raw value, is hereby allotted to the following processors in the quantities which appear opposite their respective names:

Processor	Allotments	
	Short tons, raw value	Equivalent in hundredweight refined beet sugar
Amalgamated Sugar Co., The	291,977	5,457,514
American Crystal Sugar Co	293,075	5,478,037
Buckeye Sugars, Inc	10,269	191,944
Franklin County Sugar Co	11,244	210,168
Great Western Sugar Co., The	543,981	10,167,969
Holly Sugar Corp	356,914	6,671,290
Layton Sugar Co	12,429	232,318
Menominee Sugar Co	13,930	260,374
Michigan Sugar Co	74,013	1,383,421
Monitor Sugar Div., Robt. Cage Coal Co	33,769	631,196
National Sugar Manufacturing Co., The	6,820	127,477
Northern Ohio Sugar Co	30,710	574,019
Spreckels Sugar Co	247,924	4,634,093
Union Sugar Div., of Cons. Foods Corp	83,476	1,560,299
Utah-Idaho Sugar Co	217,027	4,056,579
Any other person	0	0
Total	2,227,558	41,636,598

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies secs. 205, 209, 61 Stat. 932, as amended, 928; 7 U. S. C. 1115, 1119)

Done at Washington, D. C., this 7th day of July 1958.

[SEAL] LAWRENCE MYERS, *Director, Sugar Division, Commodity Stabilization Service.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Fresh Pea Order 1—1958]

PART 910—VEGETABLES GROWN IN CERTAIN DESIGNATED COUNTIES IN COLORADO

LIMITATION OF SHIPMENTS

Section 2 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 602), authorizes no action which has for its purpose the maintenance of prices to farmers above the level which it is declared to be the policy of Congress to establish. Section 2 of the act, however, authorizes the Secretary of Agriculture to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements for fresh peas in interstate commerce as will effectuate orderly marketing of such fresh peas as will be in the public interest.

§ 910.328 *Fresh Pea Order 1—1958*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 67, as amended, and Order No. 10, as amended, (7 CFR Part 910), regulating the handling of peas and cauliflower grown in certain designated counties in Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601, et seq.), and upon the basis of the recommendation and information submitted by the Fresh Pea Marketing Committee, established pursuant to said marketing agreement, as amended, and order, as amended, and upon other available information, it is hereby found that (i) the average price for such peas to producers thereof during the period July 11, 1958, through September 15, 1958, may exceed the parity price to producers of such peas, and (ii) the limitation of shipments, pursuant to § 910.52 (b) of said marketing agreement, as amended, and order, as amended, as hereinafter provided, will establish and maintain minimum standards of quality and maturity for such peas as will effectuate such orderly marketing of Colorado fresh peas as will be in the public interest and will, thereby, tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by regulating the shipment of fresh peas, in the manner set forth in this section, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances for any such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period July 11, 1958, through September 15, 1958, no handler shall handle any fresh peas grown in Alamosa, Rio Grande, Conejos, Costilla, Mineral, and Saguache Counties in the State of Colorado that do not at least meet the requirements of the U. S. No. 1 grade, and are of a minimum pod length of three (3) inches.

(2) The terms used in this section shall have the same meaning as when used in said marketing agreement, as amended, and order, as amended, and "U. S. No. 1" used in this section shall have the same meaning assigned to that term in the United States Standards for Fresh Peas (§§ 51.1375–51.1387 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 7, 1958.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division.*

[F. R. Doc. 58-5272; Filed, July 9, 1958; 8:51 a. m.]

[Cauliflower Order 1—1958]

PART 910—VEGETABLES GROWN IN CERTAIN DESIGNATED COUNTIES IN COLORADO

LIMITATION OF SHIPMENTS

Section 2 of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 602), authorizes no action which has for its purpose the maintenance of prices to farmers above the level which it is declared to be the policy of Congress to establish. Section 2 of the act, however, authorizes the Secretary of Agriculture to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements for cauliflower in interstate commerce as will effectuate orderly marketing of such cauliflower as will be in the public interest.

§ 910.329 *Cauliflower Order 1—1958*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 67, as amended, and Order No. 10, as amended (7 CFR Part 910), regulating the handling of peas and cauliflower grown in certain designated counties in Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Cauliflower Marketing Committee, established pursuant to said marketing agreement, as amended, and order, as amended, and upon other available information, it is hereby found that (i) the average price for such cauliflower to producers thereof during the period July 11, 1958, through October 14, 1958, may exceed the parity price to producers of such cauliflower, and (ii) the limitation of shipments, pursuant to § 910.52 (b) of said marketing agreement, as amended, and order, as amended, as hereinafter provided, will establish and maintain minimum standards of quality and maturity for such cauliflower as will be in the public interest and will thereby tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest than would otherwise prevail will be promoted by regulating the shipment of cauliflower, in the manner set forth in this section, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances for any such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period July 11, 1958, through October 14, 1958, no handler shall handle any cauliflower grown in Alamosa, Rio Grande, Conejos, Costilla, Mineral, and Saguache Counties in the State of Colorado that does not meet the requirements of the U. S. No. 1, or better grade, four (4) inches or larger diameter.

(2) The terms used in this section shall have the same meaning as when used in said marketing agreement, as amended, and order, as amended, and "U. S. No. 1" and "diameter" used in this section shall have the same meanings assigned to these terms in the United States Standards for Cauliflower (§§ 51.540–51.549 of this title), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 7, 1958.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division.*

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1959

The soil and water resources of the farm and ranch lands of our Nation must be protected and conserved. This is essential in order that farms and ranches will continue to have the capacity to produce sufficient food and other raw materials to meet the future needs of the Nation.

All the people of this Nation, not the farmers and ranchers alone, have a stake in, and a part of the responsibility for protecting and conserving, our farm and ranch lands. Recognizing this, the Congress appropriates funds to share with farmers and ranchers the cost of carrying out needed soil and water conservation measures. The Agricultural Conservation Program is a means of making this Federal cost-sharing available to farmers and ranchers.

INTRODUCTION

Sec.
1101.1000 Introduction.

GENERAL PROGRAM PRINCIPLES

1101.1001 General program principles.

DISTRIBUTION OF FUNDS

1101.1002 State funds.
1101.1003 County funds.

STATE AND COUNTY AGRICULTURAL CONSERVATION PROGRAMS

1101.1004 Agencies to participate in development of State programs.
1101.1005 Agencies to participate in development of county programs.
1101.1006 Selection of practices.
1101.1007 Adaptation of practices.
1101.1008 Practice specifications.
1101.1009 Use of liming materials and commercial fertilizers for vegetative cover.
1101.1010 Responsibility for technical phases of practices.
1101.1011 Rates of cost-sharing.
1101.1012 Items of cost on which rates of cost-sharing may be based.
1101.1013 State handbooks, bulletins, instructions, and forms.

APPROVAL OF CONSERVATION PRACTICES ON INDIVIDUAL FARMS OR RANCHES

1101.1014 Opportunity for requesting cost-sharing.
1101.1015 Prior request for cost-sharing.
1101.1016 Method and extent of approval.
1101.1017 Initial establishment or installation of practices.
1101.1018 Repair, upkeep, and maintenance of practices.
1101.1019 Pooling agreements.

PRACTICE COMPLETION REQUIREMENTS

1101.1022 Completion of practices.
1101.1023 Practices substantially completed during program year.
1101.1024 Practices requiring more than one program year for completion.
1101.1025 Practices involving the establishment or improvement of vegetative cover.
1101.1026 Failure to meet minimum requirements.

FEDERAL COST-SHARES

1101.1027 Conservation materials and services.

Sec.
1101.1028 Practices carried out with State or Federal aid.
1101.1029 Division of Federal cost-shares.
1101.1030 Increase in small Federal cost-shares.
1101.1031 Maximum Federal cost-share limitation.
1101.1032 Persons eligible to file application for payment of Federal cost-shares.
1101.1033 Time and manner of filing application and required information.
1101.1034 Appeals.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

1101.1035 Compliance with regulatory measures.
1101.1036 Maintenance of practices.
1101.1037 Practices defeating purposes of programs.
1101.1038 Depriving others of Federal cost-share.
1101.1039 Filing of false claims.
1101.1040 Misuse of purchase orders.
1101.1041 Federal cost-shares not subject to claims.
1101.1042 Assignments.

DEFINITIONS

1101.1045 Definitions.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

1101.1046 Authority.
1101.1047 Availability of funds.
1101.1048 Applicability.

CONSERVATION PRACTICES

CONSERVATION PRACTICES WITH ENDURING BENEFITS; WHERE PROPERLY APPLIED AND MAINTAINED

Practices Primarily for Establishment of Permanent Protective Cover

1101.1049 Practice A–1: Initial establishment of a permanent vegetative cover in orchards and vineyards for control of erosion.
1101.1050 Practice A–2: Initial establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.
1101.1051 Practice A–3: Establishment of additional acreages of vegetative cover in crop rotation to retard erosion and to improve soil structure, permeability, or water-holding capacity.
1101.1052 Practice A–4: Initial treatment of farmland to permit the use of legumes and grasses for soil improvement and protection.
1101.1053 Practice A–5: Initial establishment of contour stripcropping to protect soil from wind or water erosion.
1101.1054 Practice A–6: Initial establishment of field stripcropping to protect soil from wind or water erosion.
1101.1055 Practice A–7: Initial establishment of a stand of trees or shrubs on farmland for purposes other than the prevention of wind or water erosion.
1101.1056 Practice A–8: Initial establishment of a stand of trees or shrubs on farmland to prevent wind or water erosion.

Practices Primarily for Improvement and Protection of Established Vegetative Cover

1101.1057 Practice B–1: Improvement of an established vegetative cover for soil or watershed protection.
1101.1058 Practice B–2: Improvement of vegetative cover on rangeland by artificial reseeding or deferred grazing.
1101.1059 Practice B–3: Controlling competitive shrubs to permit growth of adequate desirable vegetative cover for soil protection on range or pasture land.
1101.1060 Practice B–4: Furrowing, chiseling, ripping, scarifying, pitting, or listing noncrop grazing land to prevent soil loss, retard runoff, and improve water penetration.
1101.1061 Practice B–5: Constructing wells for livestock water as a means of protecting vegetative cover.
1101.1062 Practice B–6: Developing springs or seeps for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.
1101.1063 Practice B–7: Constructing or sealing dams, pits, or ponds as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.
1101.1064 Practice B–8: Installing pipelines for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.
1101.1065 Practice B–9: Constructing permanent fences as a means of protecting vegetative cover.
1101.1066 Practice B–10: Improvement of a stand of forest trees on farmland.

Practices Primarily for the Conservation and Disposal of Water

1101.1068 Practice C–1: Initial establishment of permanent sod waterways to dispose of excess water without causing erosion.
1101.1069 Practice C–2: Initial establishment of permanent vegetation as protection against erosion.
1101.1070 Practice C–3: Initial establishment of orchards, vineyards, bush fruits, strawberries, or perennial vegetables on the contour to prevent erosion.
1101.1071 Practice C–4: Constructing terraces to detain or control the flow of water and check soil erosion.
1101.1072 Practice C–5: Constructing diversion terraces, ditches, or dikes to intercept runoff and divert excess water to protected outlets.
1101.1073 Practice C–6: Constructing erosion control, detention, or sediment retention dams, pits, or ponds to prevent or heal gullying or to retard or reduce runoff of water.
1101.1074 Practice C–7: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.
1101.1075 Practice C–8: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.
1101.1076 Practice C–9: Constructing permanent open drainage systems to dispose of excess water.
1101.1077 Practice C–10: Installing underground drainage systems to dispose of excess water.
1101.1078 Practice C–11: Shaping or land grading to permit effective surface drainage.
1101.1079 Practice C–12: Reorganizing irrigation systems to conserve water and prevent erosion.
1101.1080 Practice C–13: Leveling land for more efficient use of irrigation water and to prevent erosion.
1101.1081 Practice C–14: Constructing or lining dams, pits, or ponds for irrigation water.
1101.1082 Practice C–15: Lining irrigation ditches to prevent erosion and loss of water by seepage.
1101.1083 Practice C–16: Constructing spreader ditches or dikes to divert and spread water to prevent erosion, to permit beneficial use of runoff, or to replenish ground water supply.

CONSERVATION PRACTICES WITH BENEFITS OF LIMITED DURATION; GENERALLY REQUIRING PERIODIC REPETITION

Practices Primarily for Establishing Temporary Protective Vegetative Cover

1101.1085 Practice D–1: Establishment of vegetative cover for winter protection from erosion.
1101.1086 Practice D–2: Establishment of vegetative cover for summer portection from erosion.
1101.1087 Practice D–3: Establishment of vegetative cover for green manure and for protection from erosion.
1101.1088 Practice D–4: Establishment of vegetative cover to protect cropland throughout the 1959 crop year.

Practices Primarily for the Temporary Protection of Soil From Wind and Water Erosion

1101.1090 Practice E–1: Stubble mulching to improve soil permeability and to protect soil from wind and water erosion.
1101.1091 Practice E–2: Initial establishment of contour farming operations on nonterraced land to protect soil from wind or water erosion.
1101.1092 Practice E–3: Wind erosion control operations in serious wind erosion areas.

CONSERVATION PRACTICES WITH LIMITED AREA APPLICABILITY

Practices To Meet Special County Conservation Needs

1101.1094 Practice F–1: Special conservation practices.
1101.1095 Practice F–2: County conservation practices.
1101.1096 Practice F–3: Practice to meet new conservation problems.

AUTHORITY: §§ 1101.1000 to 1101.1099 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs 7–17, 49 Stat. 1148, as amended, 72 Stat. 192; 16 U. S. C. 590g–590q.

INTRODUCTION

§ 1101.1000 *Introduction.* (a) Through the 1959 Agricultural Conservation Program (referred to in this subpart as the "1959 program") administered by the Department of Agriculture, the Federal Government will share with farmers and ranchers in the continental United States the cost of carrying out approved soil and water conservation practices in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made.

(b) Information with respect to the several practices for which costs will be shared when carried out on a particular farm or ranch, and the exact specifications and rates of cost-sharing for such practices, may be obtained from the county committee for the county in which the farm or ranch is located or from the State commitee.

GENERAL PROGRAM PRINCIPLES

§ 1101.1001 *General program principles.* The 1959 National Agricultural Conservation Program has been developed and is to be carried out on the basis of the following general principles:

(a) The national program contains broad authorities to help meet the varied soil and water conservation problems of the Nation. State and county committees and participating agencies shall design a program for each State and county. Such programs should include any additional limitations and restrictions necessary for the maximum conservation accomplishment in the area. The programs should be confined to the soil and water conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit in the State or county.

(b) The State and county programs should be designed to encourage those soil and water conservation practices which provide the most enduring conservation benefits practicably attainable in 1959 on the lands where they are to be applied.

(c) Costs will be shared with a farmer or rancher only on satisfactorily performed soil and water conservation practices for which Federal cost-sharing was requested by the farmer or rancher before the conservation work was begun.

(d) Costs should be shared only on soil and water conservation practices which it is believed farmers or ranchers would not carry out to the needed extent without program assistance. In no event should costs be shared on practices except those which are over and above those farmers or ranchers would be compelled to perform in order to secure a crop.

(e) The rates of cost-sharing in a county or State are to be the minimum required to result in substantially increased performance of needed soil and water conservation practices within the limits prescribed in the national program.

(f) The purpose of the program is to help achieve additional conservation on land now in agricultural production rather than to bring more land into agricultural production. The program is not applicable to the development of new or additional farmland by measures such as drainage, irrigation, and land clearing. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

(g) If the Federal Government shares the cost of the initial application of soil and water conservation practices which farmers and ranchers otherwise would not perform but which are essential to sound soil and water conservation, the farmers and ranchers should assume responsibility for the upkeep and maintenance of those practices through their life spans. The State and county programs shall specify the life spans of practice A–4 and practice B–1, and other practices for which the measures involved might be used in connection with normal maintenance. State groups may specify life spans for other practices if needed to facilitate the administration of the program. Cost-shares are not applicable, after they are initially utilized, to undertake a practice during its normal life span unless the practice has failed to serve for its normal life span due to conditions beyond the control of the farm or ranch operator.

DISTRIBUTION OF FUNDS

§ 1101.1002 *State funds.* Funds available for conservation practices will be distributed among States on the basis of conservation needs, but the proportion allocated for use in any State shall not be reduced more than 15 percent from its proportionate 1958 distribution.

§ 1101.1003 *County funds.* The State committee will allocate the funds available for conservation practices among the counties within the State consistent with the needs for enduring conservation in the counties within the State and will give particular consideration to the furtherance of watershed conservation programs sponsored by local people and organizations.

STATE AND COUNTY AGRICULTURAL CONSERVATION PROGRAMS

§ 1101.1004 *Agencies to participate in development of State programs.* (a) A State agricultural conservation program (referred to in this subpart as "State program") shall be developed in each State in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made. The program shall be developed by the State ACP Development Group, which shall consist of the State committee (including the State Director of Extension), the State Conservationist of the Soil Conservation Service, and the Forest Service official having jurisdiction of farm forestry in the State. The President of the Land-Grant College and the State Director of the Farmers Home Administration shall be invited to designate representatives to counsel with the group in the formulation of the State program. The chairman of the State committee shall invite representatives of the State Soil Conservation Committee (Board or Commission), the State Agricultural Extension Service, and other State and Federal agricultural agencies, and may invite others with conservation interests, to participate in the deliberations on the State program.

(b) The program for the State shall be that recommended by the State ACP Development Group and approved by the Administrator, ACPS, after obtaining the recommendations of the Soil Conservation Service and the Forest Service.

§ 1101.1005 *Agencies to participate in development of county programs.* (a) A county agricultural conservation program (referred to in this subpart as "county program") shall be developed in each county in accordance with the provisions of the State program and such modifications thereof as may be made. The county program shall be developed by the County ACP Development Group, which shall consist of the county committee, the designated representative of the Soil Conservation Service in the county, and the Federal Forest Service representative having jurisdiction of farm forestry in the county. The County ACP Development Group, working with the community committeemen, the governing body of the Soil Conservation District, the farm forestry representatives of the State, the County Agricultural Extension Agent for the county (if he is not included in the foregoing group as ex officio member of the county committee), the County Supervisor of the Farmers Home Administration, and others with conservation interests, shall develop recommendations for the county program.

(b) The program for the county then shall be formulated by the County ACP Development Group in consultation with the governing body of the Soil Conservation District on the overall conservation problems in the county and, especially on the work plans of the Soil Conservation District and of the Federal agencies involved to assure the most effective use of the available technical assistance and funds for cost-sharing. The program as formulated shall be recommended to the State committee for approval by the State ACP Development Group. The program for the county shall be that recommended by the county ACP Development Group and approved by the State ACP Development Group: *Provided, however,* That notwithstanding other provisions of the 1959 national or State program, no change shall be made in the 1959 program for the county which will have the effect of restricting eligibility requirements or cost-sharing on practices included in either the 1957 or 1958 program for the county, unless such change shall have been recommended by the county committee and approved by the State committee. The program recommendation shall be signed by the chairman of the county committee, the Soil Conservation Service technician, and the Forest Service representative where present in the county, and shall state that the program was developed in consultation with the governing body of the Soil Conservation District, if any, or shall state that the governing body was invited to participate in developing the program but did not accept.

§ 1101.1006 *Selection of practices.* Practices to be included in the State Program or in the county program shall be only those practices for which cost-sharing is essential to permit accomplishment of needed conservation work which would not otherwise be carried out.

§ 1101.1007 *Adaptation of practices.* (a) The practices included in the State program must meet all conditions and requirements of the national program. Additional conditions and requirements may be included where necessary for effective use in meeting the conservation problems in the State.

(b) The practices included in the county program must meet all conditions and requirements of the State program. Additional conditions and requirements may be included where necessary for effective use in meeting the conservation problems in the county.

§ 1101.1008 *Practice specifications.* (a) Minimum specifications which practices must meet to be eligible for Federal cost-sharing shall be set forth in the State handbook or in the county program, or be incorporated therein by specific reference to a standard publication or other written document containing such specifications.

(b) For practices involving the establishment or improvement of vegetative cover, the specifications shall include, where appropriate, liming, fertilization, and seeding rates, eligible seeds and mixtures, seeding dates, requirements for cultural operations and inoculation, and other steps essential to the successful establishment or improvement of the vegetative cover. Eligible seeds and mixtures shall include a legume or legumes where recommended for inclusion by the State Experiment Station or the State Extension Service. For mechanical or construction type practices, the specifications shall include, where appropriate, the types and sizes of material, installation or construction requirements, and other steps essential to the proper functioning of the structure. For other practices, the specifications shall include those steps essential to the successful performance of the practice.

(c) Practice specifications shall provide minimum performance requirements which will qualify the practice for cost-sharing and, where applicable, may also provide maximum limits of performance which will be eligible for cost-sharing. The minimum performance requirements established for a practice shall represent those levels of performance which are necessary to assure a satisfactory practice. The maximum limits of performance for cost-sharing established for a practice shall represent those levels of performance which are needed in order for the practice to be most effective in meeting the conservation problem and which are not in excess of levels for which cost-sharing can be justified.

§ 1101.1009 *Use of liming materials and commercial fertilizers for vegetative cover.* (a) For practices which authorize Federal cost-sharing for applications of liming materials and commercial fertilizers, the minimum application, and maximum application where applicable, on which cost-sharing is authorized shall, in each case, be determined on the basis of a current soil test: *Provided, however,* That if the State ACP Development Group determines that available facilities are not adequate to permit the desired use of these practices under the program, it shall authorize, to the extent necessary, an alternative basis for determination by the county committee of such applications. Such alternative basis shall be such as to insure beneficial use of Federal cost-sharing approved and shall be formulated by the State ACP Development Group in full consultation with the representatives of the State and Federal agencies participating in the development of the State program.

(b) The application of liming materials contained in commercial fertilizers, rock phosphate, or basic slag will not qualify for Federal cost-sharing. The application of manure will not qualify for Federal cost-sharing; however, manure may be used, where applicable, to meet all or a part of the fertilizer requirement for a practice.

§ 1101.1010 *Responsibility for technical phases of practices.* (a) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1101.1056, 1101.1063, and 1101.1071 to 1101.1083. This responsibility shall include (1) a finding that the practice is needed and practicable on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance. For the practice contained in § 1101.1068, the Soil Conservation Service is responsible (1) for determining that the practice is needed and practicable on the farm, and (2) for necessary site selection, other preliminary work, and layout work of the practice. For the practices contained in §§ 1101.1062, 1101.1064, and 1101.1070, the Soil Conservation Service is responsible for determining that the practice is needed and practicable on the farm. In addition, upon agreement of the State committee and the State Conservationist of the Soil Conservation Service, responsibility for all or part of the unassigned technical phases of these or other practices may be assigned to the Soil Conservation Service for all counties in the State or for specified counties. The State Conservationist of the Soil Conservation Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities. These assigned responsibilities will not apply in counties with respect to which the Administrator, ACPS, and the Administrator, SCS, agree that it would not be administratively practicable for the Soil Conservation Service to discharge these responsibilities. In such counties, these responsibilities shall be assumed by the county committees. The Soil Conservation Service will utilize to the full extent available resources of the State forestry agencies in carrying out its assigned responsibilities for the practice contained in § 1101.1056.

(b) The Forest Service is responsible for the technical phases of the practices contained in §§ 1101.1055 and 1101.1066. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through State and county committees, determining performance in meeting these specifications. The Forest Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities, but services of State forestry agencies will be utilized to the full extent such services are available.

§ 1101.1011 *Rates of cost-sharing.* (a) The maximum Federal cost-share for each practice shall be the percentage of the average cost of performing the practice considered necessary to obtain the needed performance of the practice, but which will be such that the farmer or rancher will make a substantial contribution to the cost of performing the practice. Rates of cost-sharing shall not be in excess of 50 percent of the average cost of performing the practices, except that:

(1) For the practices contained in §§ 1101.1053 to 1101.1056, 1101.1066, 1101.1068, 1101.1069, 1101.1071 to 1101.1074, and 1101.1083, which have long lasting conservation benefits and from which the returns to the farmer or rancher are remote, the State ACP Development Group may establish rates of cost-sharing in excess of 50 percent of the average cost of performing the practices.

(2) Upon justification by the State ACP Development Group and approval of the Administrator, ACPS, rates of cost-sharing in excess of 50 percent of the average cost of performing the practices may be established for other practices having long lasting conservation benefits and from which the returns to the farmer or rancher are remote.

(3) Upon justification by the State and County ACP Development Groups, the Administrator, ACPS, may approve a rate of cost-sharing for one or more additional practices in a county in excess of 50 percent of the average cost of performing the practice, but only if the increased rate of cost-sharing is essential to introduce a greatly needed new conservation practice into the county or to bring about a greatly needed increase in the extent to which the practice otherwise would be carried out.

(b) For the purpose of establishing rates of cost-sharing, the average cost of performing a practice may be the average cost for a State, a county, a part of a county, or a farm or ranch, as determined by the State committee.

(c) The rates of cost-sharing for practices included in the county program may be lower than the rates approved for general use in the State.

§ 1101.1012 *Items of cost on which rates of cost-sharing may be based.* Except as otherwise provided by the wording of the practices or elsewhere in this subpart, the cost of any direct and significant factor in the performance of a practice may be considered in establishing the rate of cost-sharing for the practice.

§ 1101.1013 *State handbooks, bulletins, instructions, and forms.* The Administrator, ACPS, is authorized to prepare and issue State handbooks, bulletins, instructions, and forms required in administering the 1959 program. Copies of State handbooks, bulletins, instructions, and forms containing detailed information with respect to the 1959 program as it applies to specific States, counties, areas, and farms and ranches will be available in the office of the State committee and the office of the county committee. Persons wishing to participate in the program should obtain from the State committee or county committee all information needed in order to comply with all provisions of the program.

APPROVAL OF CONSERVATION PRACTICES ON INDIVIDUAL FARMS OR RANCHES

§ 1101.1014 *Opportunity for requesting cost-sharing.* Each farmer or rancher shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance on his farm or ranch. The county committee, taking into consideration the farmer's or rancher's request and any conservation plan developed by the farmer or rancher with the assistance of any State or Federal agency, shall direct the available funds for cost-sharing to those farms and ranches and to those practices where cost-sharing is considered most essential to the accomplishment of the basic conservation objective of the Department—the use of each acre of agricultural land within its capabilities and the treatment of each acre in accordance with its needs for protection and improvement.

§ 1101.1015 *Prior request for cost-sharing.* Costs will be shared only for those practices, or components of practices, for which cost-sharing is requested by the farmer or rancher before performance thereof is started, except that for the practices contained in §§ 1101.1002 and 1101.1096, the Administrator, ACPS, may authorize the acceptance of requests for cost-sharing filed within a reasonable period after performance thereof is started, such period to be stated in the practice wording. For practices for which (a) approval was given under the 1958 Agricultural Conservation Program, (b) performance was started but not completed during the 1958 program year, and (c) the county committee believes the extension of the approval to the 1959 program is justified under the 1959 program regulations and provisions, the filing of the request for cost-sharing under the 1958 program may be regarded as meeting the requirement of the 1959 program that a request for cost-sharing be filed before performance of the practice is started.

§ 1101.1016 *Method and extent of approval.* The county committee, in accordance with a method approved by the State committee, will determine the extent to which Federal funds will be made available to share the cost of each approved practice on each farm or ranch, taking into consideration the county allocation, the conservation problems in the county and of the individual farm or ranch, and the conservation work for which requested Federal cost-sharing is considered by the county committee as most needed in 1959. The method approved shall provide for the issuance of notices of approval showing for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the Federal cost-share for the performance of that number of units of the practice. To the extent practicable, notices of approved practices shall be issued before performance of the practices is started. No practice may be approved for cost-sharing except as authorized by the national, State, or county program, or in accordance with procedures incorporated therein. Available funds for cost-sharing shall not be allocated on a farm or acreage-quota basis, but shall be directed to the accomplishment of the most enduring conservation benefits attainable.

§ 1101.1017 *Initial establishment or installation of practices.* Federal cost-sharing may be authorized under the 1959 program only for the initial establishment or installation of the practices contained in this subpart. The initial establishment or installation of a practice, for the purposes of the 1959 program, shall be deemed to include the replacement, enlargement, or restoration of practices for which cost-sharing has been allowed since the 1953 program if the practice has served for its normal life span, or if all of the following conditions exist:

(a) Replacement, enlargement, or restoration of the practice is needed to meet the conservation problem.

(b) The failure of the original practice was not due to the lack of proper maintenance by the current operator.

(c) The county committee believes that the replacement, enlargement, or restoration of the practice merits consideration under the program to an equal extent with other practices for which cost-sharing has not been allowed under a previous program.

§ 1101.1018 *Repair, upkeep, and maintenance of practices.* Federal cost-sharing is not authorized for repairs or for normal upkeep or maintenance of any practice.

§ 1101.1019 *Pooling agreements.* Farmers or ranchers in any local area may agree in writing, with the approval of the county committee, to perform designated amounts of practices which, by conserving or improving the agricultural resources of the community will solve a mutual conservation problem on the farms or ranches of the participants. For purposes of eligibility for cost-sharing, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms or ranches of the persons who performed the practices.

PRACTICE COMPLETION REQUIREMENTS

§ 1101.1022 *Completion of practices.* Federal cost-sharing for the practices contained in this subpart is conditioned upon the performance of the practices in accordance with all applicable specifications and program provisions. Except as provided in §§ 1101.1023 to 1101.1025, practices must be completed during the program year in order to be eligible for cost-sharing.

§ 1101.1023 *Practices substantially completed during program year.* Approved practices may be deemed, for purposes of payment of cost-shares, to have been carried out during the 1959 program year, if the county committee determines that they are substantially completed by the end of the program year. However, no cost-shares for such practices shall be paid until they have been completed in accordance with all applicable specifications and program provisions, except as provided in § 1101.1024.

§ 1101.1024 *Practices requiring more than one program year for completion.* Cost-shares approved under the 1959 program will not be considered as earned until all components of the approved practices are completed in accordance with all applicable specifications and program provisions. Cost-shares for completed components may be paid only after the practice is substantially completed, and only on the condition that the farmer or rancher will complete the remaining components of the practice within the time prescribed by the county committee which will afford the farmer or rancher a fair and reasonable opportunity to complete them, unless prevented from doing so for reasons beyond his control and regardless of whether cost-sharing therefor is offered, or refund the cost-shares paid to him. If an approved practice is not substantially completed by the end of the 1959 program year, the practice may be considered for reapproval under the 1960 program.

§ 1101.1025 *Practices involving the establishment or improvement of vegetative cover.* Costs for practices involving the establishment or improvement of vegetative cover, including trees, may be shared even though a good stand is not established, if the county committee determines, in accordance with standards approved by the State committee, that the practice was carried out in a manner which would normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the farm or ranch operator. The county committee may require as a condition of cost-sharing in such cases that the area be reseeded or replanted, or that other needed protective measures be carried out. Cost-sharing in such cases may be approved also for repeat applications of measures previously carried out or for additional eligible measures. Cost-sharing for such measures shall be approved to the extent such measures are needed to assure a good stand even though less than that required by the applicable practice wording for initial approvals.

§ 1101.1026 *Failure to meet minimum requirements.* Notwithstanding other provisions of the 1959 program, costs may be shared for practices treating with the establishment or improvement of vegetative cover for the performance actually rendered even though the minimum requirements with regard to seedbed preparation, the rate of seeding, or the application of liming materials or commercial fertilizers are not met, if the farmer or rancher establishes to the satisfaction of the county committee and the State committee or its designee (a) that he made every reasonable effort to meet the minimum requirements, and (b) that the practice as performed adequately meets the conservation problem.

FEDERAL COST-SHARES

§ 1101.1027 *Conservation materials and services*—(a) *Availability.* (1) Part or all of the Federal cost-share for an approved practice may be in the form of conservation materials or services furnished through the program for use in carrying out the practice. Materials or services may not be furnished to persons who are indebted to the Federal Government, as indicated by the register of indebtedness maintained in the office of the county committee, except in those cases where the agency to which the debt is owed waives its rights to set-off in order to permit the furnishing of materials and services.

(2) Title to any material furnished through the program shall vest in the Federal Government until the material is applied or planted, or all charges for the material are satisfied.

(b) *Cost to farmer or rancher.* The farmer or rancher will pay that part of the cost of the material or service, as established under instructions issued by the Administrator, ACPS, which is in excess of the Federal cost-share attributable to the use of the material or service or, upon request by the farmer or rancher and approval by the county committee, the farmer or rancher will pay that part of the cost of the material or service which is in excess of the farmer's or rancher's Federal cost-share for all components of the practice which will likely be completed during the program year. The Federal cost-share increase on the amount of the Federal cost-share so determined may be advanced as a credit against that part of the cost of the material or service required to be paid by the farmer or rancher.

(c) *Discharge of responsibility for materials and services.* (1) The person to whom a material or service is furnished under the 1959 program will be relieved of responsibility for the material or service upon determination by the county committee that the material or service was used for the purpose for which it was furnished and that any other components of the practice, on which the amount of the Federal cost-share advance toward the cost of the material or service was determined, have been carried out in accordance with all applicable specifications and program provisions. If the person uses any material or service for any purpose other than that for which it was furnished, he shall be indebted to the Federal Government for that part of the cost of the material or service borne by the Federal Government and shall pay such amount to the Treasurer of the United States direct or by withholdings from Federal cost-shares otherwise due him under the program.

(2) Any person to whom materials are furnished shall be responsible to the Federal Government for any damage to the materials, unless he shows that the damage was caused by circumstances beyond his control. If materials are abandoned or not used during the program year, they may, in accordance with instructions issued by the Administrator, ACPS, be transferred to another person or otherwise disposed of at the expense of the person who abandoned or failed to use the material, or be retained by the person for use in a subsequent program year.

§ 1101.1028 *Practices carried out with State or Federal aid.* The total extent of any practice performed shall be reduced for the purpose of computing cost-shares by the percentage of the total cost of the items of performance on which costs are shared which the county committee determines was furnished by a State or Federal agency. Materials or services furnished through the 1959 program, materials or services furnished by any agency of a State to another agency of the same State, or materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 1101.1029 *Division of Federal cost-shares*—(a) *Federal cost-shares.* The Federal cost-share attributable to the use of conservation materials or services shall be credited to the person to whom the materials or services are furnished. Other Federal cost-shares shall be credited to the person who carried out the practices by which such other Federal cost-shares are earned. If more than one person contributed to the carrying out of such practices, the Federal cost-share shall be divided among such persons in the proportion that the county committee determines they contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the county committee that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance.* In case of death, incompetency, or disappearance of any person, any Federal share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended (Part 1108 of this chapter).

§ 1101.1030 *Increase in small Federal cost-shares.* The sum of the Federal cost-shares computed for any person with respect to any farm or ranch under the Agricultural Conservation Program and the Naval Stores Conservation Program shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may, in such manner and at such time as is consistent with such legislation, discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of cost-share computed:	Increase in cost-share
$1 to $1.99	$0.40
$2 to $2.99	.80
$3 to $3.99	1.20
$4 to $4.99	1.60
$5 to $5.99	2.00
$6 to $6.99	2.40
$7 to $7.99	2.80
$8 to $8.99	3.20
$9 to $9.99	3.60
$10 to $10.99	4.00
$11 to $11.99	4.40
$12 to $12.99	4.80
$13 to $13.99	5.20
$14 to $14.99	5.60
$15 to $15.99	6.00
$16 to $16.99	6.40
$17 to $17.99	6.80
$18 to $18.99	7.20
$19 to $19.99	7.60
$20 to $20.99	8.00
$21 to $21.99	8.20
$22 to $22.99	8.40
$23 to $23.99	8.60
$24 to $24.99	8.80
$25 to $25.99	9.00
$26 to $26.99	9.20
$27 to $27.99	9.40
$28 to $28.99	9.60
$29 to $29.99	9.80
$30 to $30.99	10.00
$31 to $31.99	10.20
$32 to $32.99	10.40
$33 to $33.99	10.60
$34 to $34.99	10.80
$35 to $35.99	11.00
$36 to $36.99	11.20
$37 to $37.99	11.40
$38 to $38.99	11.60
$39 to $39.99	11.80
$40 to $40.99	12.00
$41 to $41.99	12.10
$42 to $42.99	12.20
$43 to $43.99	12.30
$44 to $44.99	12.40
$45 to $45.99	12.50
$46 to $46.99	12.60
$47 to $47.99	12.70
$48 to $48.99	12.80
$49 to $49.99	12.90
$50 to $50.99	13.00
$51 to $51.99	13.10
$52 to $52.99	13.20
$53 to $53.99	13.30
$54 to $54.99	13.40
$55 to $55.99	13.50
$56 to $56.99	13.60
$57 to $57.99	13.70
$58 to $58.99	13.80
$59 to $59.99	13.90
$60 to $185.99	14.00
$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 1101.1031 *Maximum Federal cost-share limitation.* (a) The total of all Federal cost-shares under the 1959 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) for approved practices which are not carried out under pooling agreements shall not exceed the sum of $2,500, and for all approved practices, including those carried out under pooling agreements, shall not exceed the sum of $10,000.

(b) All or any part of any Federal cost-share which otherwise would be due any person under the 1959 program may be withheld, or required to be refunded, if he has adopted, or participated in

adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

§ 1101.1032 *Persons eligible to file application for payment of Federal cost-shares.* Any person who, as landlord, tenant, or sharecropper on a farm or ranch, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1101.1033 *Time and manner of filing application and required information.* (a) It shall be the responsibility of persons participating in the program to submit to the county office forms and information needed to establish the extent of the performance of approved conservation practices and compliance with applicable program provisions. Time limits with regard to the submission of such forms and information shall be established where necessary for efficient administration of the program. Such time limits shall afford a full and fair opportunity to those eligible to file the forms or information within the period prescribed. At least 2 weeks' notice to the public shall be given of any general time limit prescribed. Such notice shall be given by mailing notice to the office of each county committee and making copies available to the press. Other means of notification, including radio announcements and individual notices to persons affected, shall be used to the extent practicable. Notice of time limits which are applicable to individual persons, such as time limits for reporting performance of approved practices, shall be issued in writing to the persons affected. Exceptions to time limits may be made in cases where failure to submit required forms and information within the applicable time limits is due to reasons beyond the control of the farmer or rancher.

(b) Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the county office by December 31, 1960, or such earlier date as is prescribed by the Administrator, ACPS. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the applicable time limit.

§ 1101.1034 *Appeals.* Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee or State committee in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-shares with respect to the farm or ranch. The county committee or State committee shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the person is dissatisfied with the decision of the county committee, he may, within 15 days after the decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the State committee, he may, within 15 days after its decision is forwarded to or made available to him, request the Administrator, ACPS, to review the decision of the State committee. The decision of the Administrator, ACPS, shall be final. Written notice of any decision rendered under this section by the county or State committee shall also be issued to each other landlord, tenant, or sharecropper on the farm or ranch who may be adversely affected by the decision.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1101.1035 *Compliance with regulatory measures.* Persons who carry out conservation practices under the 1959 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The persons with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

§ 1101.1036 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm or ranch under the 1959 program will be subject to the condition that the person with whom the costs are shared will maintain such practices throughout their normal life spans in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1101.1037 *Practices defeating purposes of programs.* If the county committee finds, with the concurrence of the State committee, that any person has adopted or participated in any practice during the 1959 program year which tends to defeat the purposes of the 1959 or any previous program, including, but not limited to, failure to maintain, in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1959 program.

§ 1101.1038 *Depriving others of Federal cost-share.* If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1959 program.

§ 1101.1039 *Filing of false claims.* If the State committee finds that any person has knowingly filed claim for payment of the Federal cost-share under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-share under the 1959 program and shall refund all amounts that may have been paid to him under the 1959 program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1101.1040 *Misuse of purchase orders.* If the State committee finds that any person has knowingly used a purchase order issued to him for conservation materials or services for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such person shall not be eligible for any Federal cost-share under the 1959 program and shall refund all amounts that may have been paid to him under the 1959 program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1101.1041 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1101.1042, and except for indebtedness to the United States subject to setoff under orders issued by the Secretary (Part 13, Subtitle A, of this title)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1101.1042 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1959 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1959, including the carrying out of soil and water conservation practices. No assignment will be recognized unless it is made in writing on Form ACP-69 and in accordance with the regulations issued by the Secretary (Part 1110 of this chapter).

DEFINITIONS

§ 1101.1045 *Definitions.* For the purposes of the 1959 program:

(a) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(b) "Administrator, ACPS," means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means any one of the continental United States.

(d) "State committee" means the persons in a State designated by the Secretary as the Agricultural Stabilization and Conservation State committee under sec-

tion 8 (b) of the Soil Conservation and Domestic Allotment Act, as amended.

(e) "County" means parish or county.

(f) "County committee" means the persons elected within a county as the county committee pursuant to regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees under section 8 (b) of the Soil Conservation and Domestic Allotment Act, as amended.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise, or other legal entity (and, wherever applicable, a State, a political subdivision of a State, or any agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm or ranch.

(h) "Farm" or "ranch" means that area of land considered as a farm under the current definition of farm applicable to marketing quota and acreage allotment programs (Part 718 of this title).

(i) "Cropland" means that land considered as cropland under the current definition of cropland applicable to marketing quota and acreage allotment programs (Part 718 of this title).

(j) "Program year" means the period, designated in the State handbook, during which conservation practices, or components thereof, must be carried out to be eligible for cost-sharing. The program year may begin on or after July 1, 1958, and end not later than December 31, 1959.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1101.1046 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q), and the Department of Agriculture and Farm Credit Administration Appropriation Act, 1959, and is contingent upon legislative authority to the Secretary to exercise after December 31, 1958, the powers now conferred on him by section 8 of the act.

§ 1101.1047 *Availability of funds.* (a) The provisions of the 1959 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1959 program will not be available for paying Federal cost-shares for which applications are filed in the county office after December 31, 1960.

§ 1101.1048 *Applicability.* (a) The provisions of the 1959 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) noncropland owned by the United States which was acquired or reserved for conservation purposes, or which is to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior, except as indicated in paragraph (b) (7) of this section; (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it; and (4) farms outside the continental United States.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by a State or political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator, ACPS; (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it; (6) Indian lands, except that where grazing operations are carried out on Indian lands administered by the Department of the Interior, such lands are within the scope of the program only if covered by a written agreement approved by the Department of the Interior giving the operator an interest in the grazing and forage growing on the land and a right to occupy the land in order to carry out the grazing operations; and (7) noncropland owned by the United States for performance by private persons of conservation practices which directly conserve or benefit nearby or adjoining privately owned lands of such persons who maintain and use such federally owned noncropland under agreement with the Federal agency having jurisdiction thereof.

CONSERVATION PRACTICES

CONSERVATION PRACTICES WITH ENDURING BENEFITS; WHERE PROPERLY APPLIED AND MAINTAINED

Practices Primarily for Establishment of Permanent Protective Cover

§ 1101.1049 *Practice A–1: Initial establishment of a permanent vegetative cover in orchards and vineyards for control of erosion.* Volunteer stands and acreages cut for hay are not eligible for cost-sharing.

§ 1101.1050 *Practice A–2: Initial establishment of a permanent vegetative cover for soil protection or as a needed land-use adjustment.* This practice is applicable only to land which should be established in permanent vegetative cover for protection against wind or water erosion, and to cropland which, as a part of a needed land-use adjustment, is being shifted to permanent protective vegetative cover other than as a part of a regular crop rotation. This practice is not applicable to land occupied by a merchantable stand of timber or pulpwood, or to land which, if cleared, would be suitable for continued production of cultivated crops. Federal cost-sharing may be approved for constructing fences where fences are necessary to protect the seeded area and only for the extent necessary to fence that area. Federal cost-sharing for fences shall be limited to permanent fences, excluding boundary and road fences.

§ 1101.1051 *Practice A–3: Establishment of additional acreages of vegetative cover in crop rotation to retard erosion and to improve soil structure, permeability, or water-holding capacity.* This practice is applicable only to land which needs such cover to retard erosion or to improve soil struoture, permeability, or water-holding capacity. Federal cost-sharing will be limited to that acreage which the county committee determines represents a desirable increase over what woud be the normal plantings of eligible crops on the farm in 1949 under the normal crop rotation for the farm. In making this determination, consideration should be given to the need for this practice on cropland which the farmer or rancher intends to divert from the production of crops for which allotments are established for the farm for 1959.

§ 1101.1052 *Practice A–4: Initial treatment of farmland to permit the use of legumes and grasses for soil improvement and protection.* This practice is applicable only to farmland devoted in 1959 to legumes (other than vegetable or truck crops, soybeans, mungbeans, and peanuts) or perennial grasses, and to farmland which the county committee determines will be devoted to such eligible uses in 1960. Federal cost-sharing will be limited to the application of liming materials, rock phosphate, and gypsum or other sulphur-bearing materials. Other forms of phosphate materials are eligible for cost-sharing under other practices involving the establishment or improvement of vegetative cover. Cost-shares paid or advanced for materials applied under this practice will not be considered as earned unless the land is devoted to eligible grasses and legumes at the time the materials are applied or is seeded to eligible grasses and legumes in 1959 or 1960, unless the farmer is prevented from seeding the eligible grasses and legumes within such period because of conditions beyond his control.

§ 1101.1053 *Practice A–5: Initial establishment of contour stripcropping to protect soil from wind or water erosion.* All cultural operations must be performed as nearly as practicable on the contour. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective contour stripcropping system.

§ 1101.1054 *Practice A–6: Initial establishment of field stripcropping to protect soil from wind or water erosion.* The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective field stripcropping system.

§ 1101.1055 *Practice A–7: Initial establishment of a stand of trees or shrubs on farmland for purposes other than the prevention of wind or water erosion.* No Federal cost-sharing will be allowed for planting orchard trees, or for plantings for ornamental purposes. If shrubs are used, those that benefit wildlife should be given preference wherever practicable. Plantings must be protected from fire and grazing. Federal cost-sharing may be authorized for clearing land occupied largely by scrubby brush of no economic value to permit planting of desirable tree species. Technical assistance must be utilized to determine the suitability of the land for clearing and the measures necessary to prevent erosion. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the planted area from grazing, excluding boundary and road fences.

§ 1101.1056 *Practice A–8: Initial establishment of a stand of trees or shrubs on farmland to prevent wind or water erosion.* Prevention of wind or water erosion on farmland is defined as (a) windbreaks, (b) shelterbelts, (c) gully stabilization, and (d) stabilization of streambanks. The use of this practice should include considerations of enhancement to wildlife habitat. No Federal cost-sharing will be allowed for planting orchard trees, or for plantings for ornamental purposes. Plantings must be protected from fire and grazing. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the planted area from grazing, excluding boundary and road fences.

Practices Primarily for Improvement and Protection of Established Vegetative Cover

§ 1101.1057 *Practice B–1: Improvement of an established vegetative cover for soil or watershed protection.* This practice is applicable only to land in permanent vegetative cover which needs more than normal maintenance measures in order to provide adequate soil or watershed protection. The improvement measures approved for cost-sharing shall be those which will extend materially the life of the vegetative cover. Federal cost-sharing may not be approved for normal maintenance measures such as annual topdressings with fertilizer or other mineral elements. This practice is not applicable to land on which the needed improvement measures will constitute complete reestablishment of the vegetative cover.

§ 1101.1058 *Practice B–2: Improvement of vegetative cover on rangeland by artificial reseeding or deferred grazing.* No Federal cost-sharing will be allowed if it is determined that any area seeded is grazed before the stand is well established or that any rangeland in the unit is overgrazed.

§ 1101.1059 *Practice B–3: Controlling competitive shrubs to permit growth of adequate desirable vegetative cover for soil protection on range or pasture land.* On areas where it is determined that the control of competitive shrubs will reduce the vegetative cover to such an extent as to induce erosion, the practice will not be approved unless followed by seeding or other approved erosion control measures.

§ 1101.1060 *Practice B–4: Furrowing, chiseling, ripping, scarifying, pitting, or listing noncrop grazing land to prevent soil loss, retard runoff, and improve water penetration.* The operation must be performed as nearly as practicable on the contour.

§ 1101.1061 *Practice B–5: Constructing wells for livestock water as a means of protecting vegetative cover.* The wells must be at locations which will bring about the desired protection of vegetative cover through proper distribution of grazing or better grassland management. Adequate storage facilities must be provided. Pumping equipment must be installed, except for artesian wells. No Federal cost-sharing will be allowed for wells constructed primarily for the use of headquarters, or for costs other than for constructing or deepening wells and for water storage facilities.

§ 1101.1062 *Practice B–6: Developing springs or seeps for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.* The springs or seeps must be at locations which will bring about the desired protection of vegetative cover through proper distribution of grazing or better grassland management or make practicable the utilization of the land for vegetative cover.

§ 1101.1063 *Practice B–7: Constructing or sealing dams, pits, or ponds as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.* The dams, pits, or ponds must be at locations which will bring about the desired protection of vegetative cover through proper distribution of grazing or better grassland management or make practicable the utilization of the land for vegetative cover.

§ 1101.1064 *Practice B–8: Installing pipelines for livestock water as a means of protecting vegetative cover or to make practicable the utilization of the land for vegetative cover.* The pipelines must deliver water to locations which will bring about the desired protection of vegetative cover through proper distribution of grazing or better grassland management or make practicable the utilization of the land for vegetative cover.

§ 1101.1065 *Practice B–9: Constructing permanent fences as a means of protecting vegetative cover.* This practice may be approved only where fencing will contribute to better distribution of livestock and seasonal use of the forage. Fences between pasture and other land will not qualify for cost-sharing.

§ 1101.1066 *Practice B–10: Improvement of a stand of forest trees on farmland.* Federal cost-sharing may be allowed for any of the following measures: (a) Thinning, (b) pruning crop trees, (c) release of desirable tree seedlings by removing or killing competing and undesirable vegetation, (d) site preparation for natural reseeding, (e) fencing, and (f) erosion control measures on logging roads and trails. The area must be protected from fire. Where seedlings are present or needed, the area must be protected from grazing. Federal cost-sharing for site preparation will be limited to areas which have a sufficient number of desirable seed trees for natural reseeding, which will not restock unless brush, dense litter, and other material on the forest soil is broken up or removed so that soil is exposed, and on which the seed trees will be left until the area is restocked. Technical assistance shall be utilized, if available; otherwise the practice must be carried out in accordance with approved technical forestry standards. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the area from grazing, excluding boundary and road fences.

Practices Primarily for the Conservation and Disposal of Water

§ 1101.1068 *Practice C–1: Initial establishment of permanent sod waterways to dispose of excess water without causing erosion.*

§ 1101.1069 *Practice C–2: Initial establishment of permanent vegetation as protection against erosion.* Federal cost-sharing will be limited to the establishment of permanent vegetation on gullies, dams, dikes, levees, ditchbanks, farm roadsides, filter strips, and field borders. Consideration should be given to choice of plants favorable to wildlife.

§ 1101.1070 *Practice C–3: Initial establishment of orchards, vineyards, bush fruits, strawberries, or perennial vegetables on the contour to prevent erosion.* All cultural operations must be performed as nearly as practicable on the contour.

§ 1101.1071 *Practice C–4: Constructing terraces to detain or control the flow of water and check soil erosion.* Necessary protective outlets or waterways must be provided. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective terrace system. Costs of construction may include necessary leveling and filling to permit installation of an effective system.

§ 1101.1072 *Practice C–5: Constructing diversion terraces, ditches, or dikes to intercept runoff and divert excess water to protected outlets.* Necessary protective outlets or waterways must be provided. Federal cost-sharing may be authorized for removing stone walls or

hedgerows where such removal is necessary to the establishment of an effective terrace system. Costs of construction may include necessary leveling and filling to permit installation of an effective system.

§ 1101.1073 *Practice C–6: Constructing erosion control, detention, or sediment retention dams, pits, or ponds to prevent or heal gullying or to retard or reduce runoff of water.*

§ 1101.1074 *Practice C–7: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.*

§ 1101.1075 *Practice C–8: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.* This practice shall not be approved in cases where there is any likelihood that it will create an erosion or flood hazard to other adjacent land, or where its primary purpose is to bring new land into agricultural production.

§ 1101.1076 *Practice C–9: Constructing permanent open drainage systems to dispose of excess water.* Federal cost-sharing may be authorized for clearing the necessary minimum width right-of-way. Federal cost-sharing may be authorized for the spreading of spoil banks where this is necessary for the effective utilization of the drainage system. No Federal cost-sharing will be allowed for ditches, the primary purpose of which is to bring new land into agricultural production. This practice is not applicable to land other than that devoted to the production of cultivated crops or crops normally seeded to hay or pasture during at least 2 of the 5 years preceding that in which the practice is applied; provided, however, that upon a showing by a farmer applicant for this practice that the land on which the practice is to be applied was in cultivated crops, tame hay, or seeded pasture 2 years out of 10 years preceding the application applied for, he may be allowed cost-shares as to such land. The installation of this practice on eligible land shall not be ineligible for cost-shares because its use results in incidental drainage on ineligible land. No Federal cost-shares are allowable for cleaning a ditch, installing crossing structures, or for other structures primarily for the convenience of the farm operator. In the installation of drainage systems, due consideration shall be given to the maintenance of wildlife habitat.

§ 1101.1077 *Practice C–10: Installing underground drainage systems to dispose of excess water.* No Federal cost-sharing will be allowed for systems, the primary purpose of which is to bring new land into agricultural production. This practice is not applicable to land other than that devoted to the production of cultivated crops or crops normally seeded to hay or pasture during at least 2 of the 5 years preceding that in which the practice is applied; provided, however, that upon a showing by a farmer applicant for this practice that the land on which the practice is to be applied was in cultivated crops, tame hay, or seeded pasture 2 years out of 10 years preceding the application applied for, he may be allowed cost-shares as to such land. The installation of this practice on eligible land shall not be ineligible for cost-shares because its use results in incidental drainage on ineligible land. In the installation of drainage systems, due consideration shall be given to the maintenance of wildlife habitat.

§ 1101.1078 *Practice C–11: Shaping or land grading to permit effective surface drainage.* No Federal cost-sharing will be allowed for any shaping or grading which is performed through farming operations in connection with land preparation for planting or cultivation of crops. No Federal cost-sharing will be allowed for shaping or land grading on land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years.

§ 1101.1079 *Practice C–12: Reorganizing irrigation systems to conserve water and prevent erosion.* The practice must be carried out in accordance with a reorganization plan approved by the responsible technician. No Federal cost-sharing will be allowed for cleaning a ditch, or for structures installed for crossings, or for other structures primarily for the convenience of the farm operator, or for portable pipe. No Federal cost-sharing will be allowed for reorganizing an irrigation system if the primary purpose for the reorganization is to bring additional land under irrigation, or for reorganizing a system which was not in use during at least 2 of the last 5 years.

§ 1101.1080 *Practice C–13: Leveling land for more efficient use of irrigation water and to prevent erosion.* No Federal cost-sharing will be allowed for floating or restoration of grade; however, the leveling operation may be completed over a period of more than one program year on a component basis where the size of cuts and fills is such that a heavy leveling operation will be needed following settlement of the original fills. No Federal cost-sharing will be allowed for leveling land if the primary purpose of the leveling is to bring into agricultural production land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years. The leveling must be carried out in accordance with a plan approved by the responsible technician.

§ 1101.1081 *Practice C–14: Constructing or lining dams, pits, or ponds for irrigation water.* The purpose of this practice is to conserve agricultural water or to provide water necessary for the conservation of soil resources. No Federal cost-sharing will be allowed for constructing or lining dams, pits, or ponds, the primary purpose of which is to bring into agricultural production land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years.

§ 1101.1082 *Practice C–15: Lining irrigation ditches to prevent erosion and loss of water by seepage.* This practice is limited to ditches that are properly located and constructed as a part of an existing irrigation system.

§ 1101.1083 *Practice C–16: Constructing spreader ditches or dikes to divert and spread water to prevent erosion, to permit beneficial use of runoff, or to replenish ground water supply.*

CONSERVATION PRACTICES WITH BENEFITS OF LIMITED DURATION, GENERALLY REQUIRING PERIODIC REPETITION

Practices Primarily for Establishing Temporary Protective Vegetative Cover

§ 1101.1085 *Practice D–1: Establishment of vegetative cover for winter protection from erosion.* A good stand and good growth must be obtained in sufficient time to protect the area in the fall and winter of 1958 or 1959 and must be maintained on the land to a date specified in the county program. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed, except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

§ 1101.1086 *Practice D–2: Establishment of vegetative cover for summer protection from erosion.* A good stand and good growth must be obtained and left on the land or turned under. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed, except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the cover crop.

§ 1101.1087 *Practice D–3: Establishment of vegetative cover for green manure and for protection from erosion.* Federal cost-sharing will be limited to acreages of biennial or perennial legumes or perennial grasses, or mixtures of such legumes with adapted grasses, seeded during the 1959 program year. A good stand and good growth must be obtained. Pasturing consistent with good management may be permitted, but none of the growth may be harvested for hay or seed, except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area. Volunteer stands will not qualify for cost-sharing. The Federal cost-share for this practice shall not be in excess of 50 percent of the average cost of seed and fertilizer. The quantity of fertilizer, if any, on which costs are shared shall be only that quantity needed for successful establishment of the green manure or cover crop.

§ 1101.1088 *Practice D–4: Establishment of vegetative cover to protect cropland throughout the 1959 crop year.* This practice is applicable only to cropland which is being shifted for the entire 1959 crop year from crop production to green manure or cover crops. Eligible seedings may consist of single seedings or successive seedings of grasses, legumes, small grains, or other crops which will provide adequate soil protection for the required period. Where annuals alone are used, at least two successive seedings must be made. Pasturing consistent with good management may be permitted. No crop may be harvested for seed in 1959. No annual crop seeded in the fall of 1959 may be harvested for seed in 1960 if such seeding is one of the two required seedings of such annual crops. No crop may be harvested for hay or silage in 1959, and no annual crop seeded in the fall of 1959 may be harvested for hay or silage in 1960 if such seeding is one of the two required seedings of such annual crops, except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area. One of the two required seedings of annuals may be a volunteer seeding which provides adequate soil protection, but no Federal cost-sharing may be allowed for the volunteer seeding.

Practices Primarily for the Temporary Protection of Soil From Wind and Water Erosion

§ 1101.1090 *Practice E–1: Stubble mulching to improve soil permeability and to protect soil from wind and water erosion.* Tillage operations must be such as to leave sufficient crop or weed residue on the surface or mixed in the upper part of the soil to provide protection against wind and water erosion.

§ 1101.1091 *Practice E–2: Initial establishment of contour farming operations on nonterraced land to protect soil from wind or water erosion.* All cultural operations must be performed as nearly as practicable on the contour. The crop stubble or crop residue must be left standing over winter, or a winter cover crop established, or necessary protective tillage operations carried out, on acreage devoted to row crops. This practice is not applicable on any acreage for which Federal cost-sharing is approved under § 1101.1053. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective contour farming system.

§ 1101.1092 *Practice E–3: Wind erosion control operations in serious wind erosion areas.* Applicable only in areas where the Administrator, ACPS, upon the recommendation of the State ACP Development Group, determines there is a serious wind erosion problem for 1959. Eligible operations shall be confined to those having the most enduring benefits practicably attainable under existing conditions.

CONSERVATION PRACTICES WITH LIMITED AREA APPLICABILITY

Practices To Meet Special County Conservation Needs

§ 1101.1094 *Practice F–1: Special conservation practices.* Consistent with the principles set forth in § 1101.1001, the county committee and designated representatives of the Soil Conservation Service and the Forest Service at the county level may recommend, and the State committee and designated representatives of the Soil Conservation Service and the Forest Service at the State level may approve, for use in a county, practices included in this subpart for which there is need locally on a substantial number of farms but which are not selected for use in the State. Such approval shall be subject to review by the Administrator, ACPS, as to compliance with the provisions contained in this subpart.

§ 1101.1095 *Practice F–2: County conservation practices.* Consistent with the principles set forth in § 1101.1001, the Administrator, ACPS, may approve for use in a county, practices which are not included in this subpart which are needed to meet particular conservation problems in the county. Such approval may be given only upon the recommendation of the State and county committees and designated representatives of the Soil Conservation Service and the Forest Service at both the county and State levels, and upon their finding (a) that the conservation problem exists on a substantial number of farms in the county, (b) that the practices contained in this subpart will not provide adequate treatment of the problem, (c) that the proposed practice will adequately meet the problem, (d) that the proposed practice would not be performed without Federal cost-sharing, (e) that the offering of Federal cost-sharing for the proposed practice is justified as within the scope of national conservation objectives, (f) that adequate facilities, including technical services, will be available to permit the practice to be carried out effectively, and (g) that treatment of the problem cannot be safely delayed until a subsequent program.

Done at Washington, D. C., this 3d day of July 1958.

[SEAL] E. L. PETERSON,
Assistant Secretary.

[F. R. Doc. 58–5270; Filed, July 9, 1958; 8:51 a. m.]

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1958 C. C. C. Grain Price Support Bulletin 1, Amdt. 1]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—GENERAL PROVISIONS 1958-CROP PRICE SUPORT PROGRAMS FOR GRAINS AND RELATED COMMODITIES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service (23 F. R. 2663) and containing regulations of a general nature with respect to price support programs for certain grains and other commodities produced in 1958 are amended as follows:

1. Section 421.3006 (a) is amended to provide that the approval of storage structures by the county committee shall be under the supervision and direction of the State committee so that the amended paragraph reads as follows:

§ 421.3006 *Approved storage.* • • •

(a) *Farm storage.* Approved farm storage shall consist of storage struc-

tures located on or off the farm (excluding public warehouses), which are determined by the county committee under the supervision and direction of the State committee to be so located and of such substantial and permanent construction as to afford safe storage of the commodity.

2. Section 421.3009 (a) is amended by adding "for each warehouse receipt" to footnote 2 of the service charge table so that the subparagraph with the amended footnote 2 reads as follows:

§ 421.3009 *Service charges.* (a) Producers shall pay the following service charges on the quantity of the commodity placed under loan or specified in the purchase agreement. In the case of loans, the service charges shall be collected from the proceeds of the loan at the time the loan is disbursed except for prepayment of such minimum service charges as may be required under paragraph (b) of this section. In the case of purchase agreements, the service charges shall be collected at the time the purchase agreement form (Commodity Purchase Form 1) is completed. Such service charges shall be computed at the rates shown in column (2) of the following table for commodities the quantity of which is determined on the basis of bushels, and at the rates shown in column (3) for commodities the quantity of which is determined on the basis of 100 pounds. An additional service charge shall be paid on any additional quantity delivered to and accepted by CCC under a farm-storage loan or not redeemed in the case of an identity-preserved warehouse-storage loan.

Method of price support	Service charges		
	Per bushel	Per 100 pounds	Minimum charges
(1)	(2)	(3)	(4)
	Cents	*Cents*	
Farm-storage loans	1	2	[1] $3.00
Warehouse-storage loans	½	[2] 1	[2] 1.50
Purchase agreements	½	1	1.50

[1] With respect to rice, State committees are authorized to require payment of $5.00 for each lot sampled.
[2] With respect to rice, the service charge for warehouse-storage loans shall be 2 cents per 100 pounds with a minimum charge of $3.00 for each warehouse receipt.

3. Section 421.3020 is amended to delete Chicago and add Evanston to the list of CSS commodity offices so that the amended section reads as follows:

§ 421.3020 *CSS commodity offices.* The CSS commodity offices and the areas served by them are shown below:

Evanston, Illinois, 2201 Howard Street: Connecticut, Delaware, Illinois (except for rice), Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

Dallas 1, Texas, 500 South Ervay Street: Alabama, Arkansas, Florida, Georgia, Illinois (for rice only), Louisiana, Mississippi, Missouri (for rice only), New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas.

Kansas City 11, Missouri, 560 Westport Road: Colorado, Kansas, Missouri (except for rice), Nebraska, Wyoming.

Minneapolis 8, Minnesota, 1006 West Lake Street: Minnesota, Montana, North Dakota, South Dakota, Wisconsin.

Portland 5, Oregon, 1218 Southwest Washington Street: Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 301, 401, 63 Stat. 1051, 66 Stat. 758, 70 Stat. 188, 15 U. S. C. 714c; 7 U. S. C. 1441, 1447, 1421)

Issued this 3d day of July 1958.

[SEAL] WALTER C. BERGER,
Executive Vice President,
Commodity Credit Corporation.

[F. R. Doc. 58-5275; Filed, July 9, 1958; 8:51 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6895]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MASTER FURRIERS, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Comparative; exaggerated as regular and customary; sales below cost. Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur products labeling act. Subpart—*Misbranding or mislabeling:* § 13.1280 *Price.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; Sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Master Furriers, Inc. (Baltimore, Md.), et al., Docket 6895, June 10, 1958]

In the Matter of Master Furriers, Inc., a Corporation, and Ernest E. Marx, Erwin C. Bein and Sally Marx, Individually and as Officers of Said Corporation; Frank-Cunningham Stores Corporation, a Corporation, Trading as L. Frank Company, and I. David Israel, Harry Israel, Oscar Israel, Oscar Balamut and Martin Israel, Individually and as Officers of Said Corporation; M. J. Swartz, an Individual

This proceeding was heard by a hearing examiner on the complaint of the Commission charging furriers doing business in Baltimore and New York City with violating the Fur Products Labeling Act by representing that fictitious prices on labels affixed to fur products were the regular retail selling prices; by failing to comply with invoicing requirements; by advertising in newspapers which represented falsely that fur products were being sold "below cost" and were reduced from regular prices which were in fact fictitious, and which used comparative prices and percentage saving claims not based on usual retail prices; and by failing to keep adequate records as a basis for such pricing claims.

Following acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on June 10 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent, Master Furriers, Inc., a corporation, and its officers, and respondents Ernest E. Marx and Erwin C. Bein, individually and as officers of said corporation, and respondent M. J. Swartz, an individual, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the introduction into commerce or the sale advertising, offering for sale, transportation or distribution, of fur products, in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped or received in commerce as "commerce", "fur" and "fur products" are defined in the Fur Products Labeling Act do forwith cease and desist from:

A. Misbranding fur products by:

1. Representing on labels affixed to fur products, or in any other manner, that certain amounts are the regular and usual prices of fur products when such amounts are in excess of the prices at which respondents usually and customarily sell such products in the recent regular course of their business.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur products as set forth in the Fur Products Name Guide and as prescribed under the Rules and Regulations.

(b) That the fur product contains or is composed of used fur, when such is the fact.

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact.

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact.

(e) The name and address of the person issuing such invoice.

(f) The name of the country of origin of any imported furs contained in the fur product.

(g) The item number or mark assigned to a fur product.

2. Setting forth information required under section 5 (b) (1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement or notice which is intended to aid, promote or assist, directly or indirectly in the sale or offering for sale of fur products, and which:

1. Represents, directly or by implication:

(a) That retail prices of fur products are reduced or that fur products are being sold "below cost" or "below wholesale cost", when such is not the fact.

(b) That respondent's regular price of any fur product is any amount which is in excess of the price at which respondents have regularly or customarily sold fur products of similar grade and quality in the recent course of their business.

2. Makes use of comparative prices or percentage savings claims in advertisements unless such compared prices or percentage savings claims are based upon the current market value of the fur product or unless a bona fide price at a designated time is stated.

3. Makes pricing claims and representations of the types referred to in paragraphs C 1 (a) and (b) and C 2 hereof, unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims or representations are based as required by Rule 44 (e) of the rules and regulations.

It is further ordered, That the complaint herein be dismissed as to respondent Sally Marx.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Master Furriers, Inc., a corporation, and Ernest E. Marx and Erwin C. Bein, individually and as officers of said corporation, and M. J. Swartz, an individual, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 10, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1673]

[Anchorage 027871]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF DEPARTMENT OF THE ARMY FOR MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws, and reserved for use of the Department of the Army for military purposes:

SEWARD MERIDIAN

T. 14 N., R. 2 W.,
Sec. 9, that part lying south and east of the Alaska Railroad right-of-way;
Sec. 10, that part lying south and east of the Alaska Railroad right-of-way and south of Eagle River;
Sec. 11, that part of the W½ lying south and west of Eagle River;
Sec. 16, that part lying east of the Alaska Railroad right-of-way;
Sec. 17, that part lying east of the Alaska Railroad right-of-way;
Sec. 19, lot 6, S½NE¼, SE¼NW¼, NE¼SW¼, SE¼, those parts lying south and east of the Alaska Railroad right-of-way.

The areas described aggregate approximately 1,401 acres.

ROGER ERNST,
Assistant Secretary of the Interior.

JULY 2, 1958.

[F. R. Doc. 58-5249; Filed, July 9, 1958; 8:46 a. m.]

[Public Land Order 1674]

[79482]

UTAH

PARTIALLY REVOKING THE EXECUTIVE ORDER OF APRIL 17, 1926, CREATING PUBLIC WATER RESERVE NO. 107

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive Order of April 17, 1926, creating Public Water Reserve No. 107, is hereby revoked so far as it affects the following-described lands:

SALT LAKE MERIDIAN

T. 13 N., R. 18 W.,
Sec. 8, NW¼SE¼.

The area described contains 40 acres.

2. The lands are rough and mountainous in character, and are located in Utah Grazing District No. 1.

3. No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on August 8, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on November 7, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on November 7, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

5. The lands have been open to applications and offers under the mineral leasing laws, and to location for metalliferous minerals. They will be open to application for nonmetalliferous minerals under the United States mining laws beginning at 10:00 a. m. on November 7, 1958.

6. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Salt Lake City, Utah.

ROGER ERNST,
Assistant Secretary of the Interior.

PROPOSED RULE MAKING

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 170]

[Ex Parte No. MC-37]

COMMERCIAL ZONES AND TERMINAL AREAS

PROPOSED REVISION OF DEFINITION OF BOUNDARY OF ALBUQUERQUE, N. MEX., COMMERCIAL ZONE

JULY 2, 1958.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given that, for the purpose of including additional points and areas, which by reason of industrial and other developments and growth have become a part thereof, within the defined limits of the zone which is adjacent to and commercially a part of Albuquerque, N. Mex., within the meaning of section 203 (b) (8) of the Interstate Commerce Act, the Interstate Commerce Commission, informed by experience and by an informal investigation, proposes to modify and redefine, as hereinafter indicated, the limits of the zone adjacent to and commercially a part of Albuquerque, N. Mex., heretofore determined by the application of the population-mileage formula prescribed in Commercial Zones and Terminal Areas, 46 M. C. C. 665, 49 CFR 170.16, and to revise description of such zone limits to read as follows:

(a) The municipality of Albuquerque, N. Mex., itself.

(b) All points within a line drawn five miles beyond the corporate limits of Albuquerque, N. Mex.

(c) All municipalities any part of which is within the limits of the boundary defined in (b) above.

(d) All of any municipality wholly surrounded, or so surrounded except for a water boundary, by the city of Albuquerque or by any municipality included under the terms of (c) above.

No oral hearing is contemplated, by anyone wishing to make representations in favor of, or against, the above-proposed revision of the defined boundary of the Albuquerque, N. Mex., commercial zone may do so by the submission of written data, views, or arguments. An original and five copies of such data, views, or arguments shall be filed with the Commission on or before August 11, 1958.

Notice to the general public of the action herein taken shall be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Federal Register Division.

By the Commission, Division 1.

[SEAL] HAROLD D. MCCOY, *Secretary.*

[F. R. Doc. 58-5255; Filed, July 9, 1958; 8:48 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 171]

LEASING OF INDIAN TRIBAL LANDS FOR MINERALS OTHER THAN OIL AND GAS

LEASES TO BE MADE BY TRIBES

Notice is hereby given of intention to amend 25 CFR Part 171.2, to read as set forth below. The purpose of this amendment is to provide that leases for minerals other than oil and gas on Indian tribal lands shall be advertised for bids in the same manner as oil and gas leases unless the Commissioner grants permission to the tribal authorities to negotiate a lease. The amendment also outlines procedures for negotiation.

All interested persons are hereby given the opportunity to submit in writing views, data, and arguments concerning the proposed addition, to the Commissioner of Indian Affairs, Department of the Interior, Washington 25, D. C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

ROGER ERNST, *Assistant Secretary of the Interior.*

JULY 2, 1958.

1. Section 171.2 is amended to read as follows:

§ 171.2 *Leases to be made by tribes.* Indian tribes, bands or groups may, with the approval of the Secretary of the Interior or his authorized representative, lease their land for mining purposes. No oil and gas lease shall be approved unless it has first been offered at an advertised sale in accordance with § 171.3. Leases for minerals other than oil and gas shall be advertised for bids as prescribed in § 171.3 unless the Commissioner grants to the Indian owners written permission to negotiate for a lease. Negotiated leases, accompanied by proper bond and other supporting papers, shall be filed with the Superintendent of the appropriate Indian Agency within 30 days after such permission shall have been granted by the Commissioner to negotiate the lease. The appropriate Area Director is authorized in proper cases to grant a reasonable extension of this period prior to its expiration. The right is reserved to the Secretary of the Interior to direct that negotiated leases be rejected and that they be advertised for bids. All leases shall be approved by the Secretary of the Interior or his duly authorized representative.

[F. R. Doc. 58-5252; Filed, July 9, 1958; 8:47 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 3]

[Docket No. 6741]

CLEAR CHANNEL BROADCASTING IN THE STANDARD BROADCAST BAND

ORDER EXTENDING TIME FOR FILING COMMENTS

1. The Commission has before it for consideration petitioners filed June 17 and 19, 1958, by Westinghouse Broadcasting Company, Inc., and by CBS Radio, a division of Columbia Broadcasting System, Inc., requesting the Commission to extend the time for filing comments in the above-entitled proceeding from July 15, 1958, to September 15, 1958.

2. On April 15, 1958, the Commission issued a Further Notice of Proposed Rule Making in this proceeding. The subject petitioners are licensees of clear channel stations on the frequencies 780, 880, 1020, 1030, 1100, and 1120 kc. They assert that they intend to file comments in response to the said Notice, and state that complete engineering studies will be made of each of the frequencies now assigned to their respective clear channel stations. Petitioners contend that additional time is needed to complete these engineering studies and to prepare written comments based thereon. They assert that an additional two months or until September 15, 1958, are needed to complete this work.

3. The Commission is of the view that the requested two month extension would unduly delay the expeditious consideration and disposition of this proceeding but that a one month extension of time for filing comments is warranted and would serve the public interest, convenience and necessity.

4. In view of the foregoing: *It is ordered*, That the aforementioned June 17 and 19, 1958, petitions of Westinghouse Broadcasting Company, Inc. and of CBS Radio, a division of Columbia Broadcasting System, Inc., are granted in part and are denied in part; that the time for filing comments in the above-entitled proceeding is extended from July 15, 1958, to August 15, 1958; and that the time for filing reply comments is extended from August 29, 1958, to September 29, 1958.

Adopted: June 27, 1958.

Released: June 30, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 58-5262; Filed, July 9, 1958; 8:50 a. m.]

[47 CFR Part 3]

[Docket No. 12076]

TABLE OF ASSIGNMENTS, TELEVISION BROADCAST STATIONS

ORDER EXTENDING TIME FOR FILING REPLIES TO OPPOSITIONS

In the matter of amendment of § 3.606, Table of Assignments, Television Broadcast Stations. (Erie, Pennsylvania; Akron-Cleveland, Ohio; Clarksburg and Weston, West Virginia; Flint-Saginaw-Bay City, Michigan.)

1. The Commission has before it for consideration a motion, filed July 1, 1958, by Summit Radio Corporation for an extension of time to file its reply to the oppositions of Dispatch, Inc., W. S. Butterfield Theatres, Inc., and Trebit Corporation to Summit Radio Corporation's Petition for Reconsideration in the above-entitled matter. Movant asks that the date for filing its reply be extended from July 2, 1958, to July 9, 1958.

2. In support of this request, Summit Radio Corporation asserts that in view of the number of issues in this proceeding, together with the fact that counsel for Summit Radio will be away from his office, a brief extension of time for filing its reply is needed.

3. The Commission is of the view that the public interest, convenience, and necessity would be served by extending the time for filing replies to oppositions to the Summit Radio Corporation Petition for Reconsideration in this proceeding.

4. In view of the foregoing: *It is ordered*, That the motion of Summit Radio Corporation for extension of time to file replies is granted and that the time for filing replies to oppositions to the aforesaid Petition for Reconsideration in the above-entitled proceeding is extended from July 2, 1958, to July 9, 1958.

Adopted: July 3, 1958.

Released: July 7, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 58-5263; Filed, July 9, 1958; 8:50 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

REVOCATION OF AIR NAVIGATION SITE WITHDRAWAL NO. 5

JULY 3, 1958.

1. By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214) and pursuant to section 2.5 of Bureau of Land Management Delegation of Authority, Order No. 541 of April 21, 1954 (19 F. R. 2473) as amended, it is ordered as follows:

The order of the Regional Administrator of January 18, 1954 (19 F. R. 432) reserving the following-described lands near McGrath, Alaska, as Air Navigation Site Withdrawal No. 3, as amended by order of February 10, 1954 (19 F. R. 961) and changed to Air Navigation Site No. 4, and as further amended by undated order in 19 F. R. 2027 (issue of April 8, 1954) to describe Air Navigation Site Withdrawal No. 5, is hereby revoked.

FAREWELL LANDING

Beginning at a point which bears N. 4°38' E., 415 feet and N. 75°30' W., 111 feet from the northwest corner of the 20' by 50' C. A. A. building used as a mess hall, said point of beginning located at approximately longitude 154°51' W. and latitude 62°59' N., and marked by a ½" iron pipe; thence by metes and bounds,

East, 500 feet;
South, 965 feet;
West, 500 feet to a point marked by a 2" square hub;
West, 76 feet to a point on the east bank of the Kuskokwim River;
Northerly on a meander line of the east bank of the Kuskokwim River to a point which bears west from the point of beginning;
East, 30 feet to the point of beginning.

Containing 12.25 acres, more or less.

2. Subject land is located on the east bank (left limit) of the Kuskokwim River at Farewell Landing approximately 52 miles up river from McGrath. The lands are generally level in this area and the subject tract is easily accessible from the river. The tract has tundra cover of which about half has been stripped during occupancy of the Civil Aeronautics Administration. Scattered spruce ranging from 1" to 24" in diameter are found in the general area and the edge of the timber reaches to within 200 feet of the northern part of the tract.

3. In accordance with section 202 (b) of the act of July 28, 1956 (70 Stat. 709; 711; 712) and subject to the requirements of the act, the Territory of Alaska shall be entitled, for a period of 90 days from July 3, 1958 to a preferred right of selection of the land, except as against prior existing valid rights or as against equitable claims subject to allowance and confirmation, for use in connection with the mental health program of the Territory.

4. Subject to any valid existing rights and the requirements of applicable law, the lands described in paragraph 1 hereof, are hereby opened to settlement and to filing of such applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Subject to the application and claims described in paragraph 3 above and b (1) below, the lands, beginning at 10:00 a. m. on October 2, 1958, will be subject to settlement under the Homestead and Alaska Home Site Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284, as amended). Beginning 10:00 a. m. on December 31, 1958, any remaining lands will be subject to settlement under these laws by other qualified persons.

b. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on July 3, 1958. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having preference rights conferred by existing laws or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Small Tract Laws by qualified veterans of World War II or of the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on October 2, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications after that hour and before 10:00 a. m. December 31, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on December 31, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

c. The lands will be open to location under the United States mining laws, in the absence of the filing of an application by the Territory as described in paragraph 3 of this order, beginning at 10:00 a. m. on December 31, 1958.

Persons claiming veterans' preference rights under paragraph b (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon statutory preference or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may

be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

5. Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

RICHARD L. QUINTUS,
Fairbanks Operations Supervisor.

NEVADA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 2, 1958.

The Corps of Engineers on behalf of the Department of the Air Force has filed an application, Serial No. Nevada 035794, for the withdrawal of the lands described below, from all forms of appropriation, including the mining and mineral leasing laws. The land in T. 18 S., R. 62 E. is presently withdrawn from all forms of appropriation under the public land laws, except mining and mineral leasing, as a part of the Desert Game Range. The applicant desires the land for a gunnery range in connection with Nellis Air Force Base.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 1551, Reno, Nevada.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 18 S., R. 62 E.,
Secs. 13 to 17, inclusive;
Secs. 20 to 29, inclusive;
Secs. 32 to 36, inclusive.
T. 19 S., R. 62 E.,
Secs. 1 to 5, inclusive;
Secs. 8 to 11, inclusive;
Sec. 12, W½;
Secs. 16 and 17.
T. 18 S., R. 63 E.,
Sec. 18, W½E½, E½W½, Lots 1 to 4, inclusive;
Sec. 19, W½E½, E½W½, Lots 1 to 4, inclusive;
Sec. 30, W½NE¼, NW¼SE¼, E½W½, Lots 1 to 4, inclusive;
Sec. 31, E½NW¼, NE¼SW¼, Lots 1 to 4, inclusive.

The area described contains 21,513.56 acres more or less.

W. REED ROBERTS,
Acting State Supervisor.

[F. R. Doc. 58-5246; Filed, July 9, 1958; 8:45 a. m.]

NEVADA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 1, 1958.

General Services Administration has filed an application, Serial No. Nevada 024104, for the withdrawal of the lands described below, from all forms of appropriation, including the mining and mineral leasing laws. The land is presently withdrawn from all forms of appropriation under the public land laws, other than mining and mineral leasing, as a part of the Nevada National Forest. The applicant desires the land for administrative purposes to protect a millsite previously withdrawn under Public Land Order 27, dated August 12, 1942.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 1551, Reno, Nevada.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 12 N., R. 36 E.,
Sec. 34, N½NW¼SW¼.

The area described contains 20 acres more or less.

W. REED ROBERTS,
Acting State Supervisor.

[F. R. Doc. 58-5247; Filed, July 9, 1958; 8:46 a. m.]

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 2, 1958.

The Dept. of Agriculture, U. S. Forest Service has filed an application, Serial No. Idaho 08927, for the withdrawal of the lands described below, from location and entry under the General Mining Laws, subject to existing valid claims. The applicant desires the land for recreation areas and public camp grounds.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

SELWAY RIVER STREAMSIDE RECREATIONAL ZONE

A strip of land 200 feet wide on the northerly side of the Selway River contiguous to and beginning at the mean high water mark and a strip of land 100 feet wide on the southerly side of the Selway River contiguous to and beginning at the mean high water mark, extending east of the confluence of the Lochsa and Selway Rivers to the boundary of the Selway-Bitterroot Primitive Area, through the following described subdivisions or so much of said widths as may be situated within said subdivisions, comprising an area of 760 acres of national forest land more or less:

[Evanston-022404]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JULY 2, 1958.

1. In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976) the following described land has been reconveyed to the United States:

SIXTH PRINCIPAL MERIDIAN, WYOMING
T. 19 N., R. 105 W.,
Sec. 22, Lot 21.

The area described contains 4.68 acres of public land.

2. All minerals in the above described land, both leasable and locatable, have been reserved by the grantor.

3. The tract is located north of Rock Spring, Wyoming, on the west side of Killpecker Creek. Soil is a brown sandy loam, supporting desert shrub vegetation in a sparse stand. Access is by service road from Rock Springs.

4. No application for these lands will be allowed under the homestead desert land, small tract or any other non-mineral public law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

5. Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications and selections in accordance with the following:

a. Applications and selections under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, presented prior to 10:00 a. m. on August 7, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on November 6, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public land laws, other than those coming under paragraphs (1) and (2) above presented prior to 10:00 a. m. on November 6, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

6. Persons claiming veterans preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

7. Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Post Office Box 929, Cheyenne, Wyoming.

EUGENE L. SCHMIDT,
Lands and Minerals Officer.

[Docket Nos. 12432 etc; FCC 58M-699]

WILSON BROADCASTING CORP. ET AL.

ORDER CONTINUING HEARING

In re Applications of Wilson Broadcasting Corporation, New Bedford, Massachusette, Docket No. 12432, File No. BPCT-2232; E. Anthony & Sons, Inc., New Bedford, Massachusetts, Docket No. 12433, File No. BPCT-2233; Eastern States Broadcasting Corp., New Bedford, Massachusetts, Docket No. 12434, File No. BPCT-2252; New England Television Company, Inc., New Bedford, Massachusetts, Docket No. 12435, File No. BPCT-2425; for construction permits for New Television Broadcast Stations (Channel 6).

The Hearing Examiner has under consideration: (1) a petition for leave to file amendment, together with the amendment, filed June 6, 1958, on behalf of Eastern States Broadcasting Corp. (hereinafter referred to as Eastern States; (2) an opposition to the petition filed June 12, 1958, on behalf of Wilson Broadcasting Corporation; (3) the statements made in oral argument by counsel for all parties on June 17, 1958; (4) a memorandum in suport of the petition filed June 24, 1958, on behalf of Eastern States; (5) a memorandum in opposition filed June 24, 1958, on behalf of E. Anthony & Sons, Inc. (hereinafter referred to as Anthony); and (6) the procedural facts shown by the Docket Record herein.[1]

The amendment seeks to show that Charles W. Steadman has severed his relationships with Eastern States and that consequent changes were made in the corporate organization. Briefly, Mr. Steadman was general counsel, secretary, a director, a stockholder, and a stock subscriber in the corporation; he was a 10 percent owner. Petitioner states that after this proceeding was designated for hearing (by Commission order released May 19, 1958) a disagreement between Mr. Steadman and others in the corporation relating to attorney fees and the conduct of the case led to Mr. Steadman's resignation and withdrawal. The amendment would alter the corporate structure by: (1) eliminating all references to Mr. Steadman; (2) showing that an existing stockholder, John S. Ashley, has become secretary; (3) increasing the stock subscription of Paul E. Thurlow from 4,410 to 6,860 shares (from 15.55 percent to 21 percent); (4) increasing from 5,400 to 7,450 shares (16.55 percent) the stock reserved for employees; (5) correcting in minor respects errors of calculation pertaining to the interests of two other stock subscribers; and (6) showing that Alfred Morton has become a director of the corporation. The amendment includes a biographical statement concerning Mr. Morton who was not previously connected with Eastern States, and who appears to have had a substantial amount of experience in radio and television broadcasting.

Petitioner contends that it has met the requirements of § 1.311 (b) of the Commission's Rules which provides that an amendment to an application after designation for hearing "will be granted only for good cause shown." An element of good cause is diligence, and it is clear that petitioner has sought to amend with reasonable promptness after Mr. Steadman's resignation. It is pointed out that the hearing has not been commenced and will not begin until after August of 1958, and it is urged that progress of the proceeding will not be disrupted by the amendment. Petitioner argues that no disadvantage to the competing applicants would result, and, in any event, the accomplished fact of Mr. Steadman's resignation necessitated changes in the corporate structure of the nature here proposed. It is claimed that the reorganization was made largely "within the family", and that "the act which precipitated the changes herein was beyond Eastern States' control."

The competing applicants contend that the amendment should not be allowed because it might change substantially, and to the disadvantage of competing applicants, the competitive case to be presented by Eastern States. It is pointed out that petitioner's application and other applications have been on file for many months and that the inevitability of a comparative hearing was apparent to petitioner for a long time prior to the order of designation—a period of time in which amendment by petitioner could have been effected as a matter of right. It is urged that the disagreement between petitioner and Mr. Steadman was an internal matter for which responsibility attaches to Eastern States, and that it should not now be permitted to augment its potential showing: of increased stock ownership by Mr. Thurlow; of increased employee stock participating potential; of a substituted occupant of the secretary's position; and of a so recently added director with broadcast experience and possible local residence ties.

After weighing the holdings of the Commission in Pioneer Broadcasters, Inc., 8 RR 648, in the affirmed ruling in The Toledo Blade Company, 10 RR 1221, and in the other cases cited by the parties, it is the considered opinion of the Hearing Examiner that petitioner has failed to allege and show good cause for allowing the proposed amendment. The disagreement within the corporation that led to Mr. Steadman's resignation and the fact of his withdrawal do not constitute sufficient reasons for permitting this applicant to change its competitive position by the individual replacements and stock realignments here proposed. The other applicants are in fairness entitled to proceed to hearing in competition with the applicant as constituted at the time the order of designation was issued unless persuasive reasons require otherwise, i.e., unless good cause justifies an altered and possibly improved comparative position for the petitioner. Facts amounting to good cause are not here shown.

It is ordered, This 30th day of June, 1958, that the petition for leave to file amendment be and it is hereby denied, and the amendment tendered with said petition is rejected; and

It is further ordered, That the hearing in this proceeding which is now scheduled to be commenced on July 22, 1958, is continued until such time as may be fixed by subsequent order.

Released: July 1, 1958.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3614]

TRANS CONTINENTAL INDUSTRIES, INC.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 3d day of July A. D. 1958.

In the matter of trading on the American Stock Exchange and the Detroit Stock Exchange in the common stock, $1 par value of Trans Continental Industries, Inc., File No. 1-3614.

The common stock, $1 par value of Trans Continental Industries, Inc., being listed and registered on the American Stock Exchange and the Detroit Stock Exchange, national securities exchanges; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchanges and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule 240.15c2-2 (17 CFR 240.15c2-2) thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange.

It is ordered; Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934 that trading in said security on the American Stock Exchange and the Detroit Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, July 6, 1958, to July 15, 1958, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-15399]

SOHIO PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 3, 1958.

Sohio Petroleum Company (Sohio) on June 6, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Natural Gas Pipeline Company of America.
Rate schedule designation: Supplement No. 3 to Sohio's FPC Gas Rate Schedule No. 37.
Effective date: July 10, 1958 (effective date is the effective date proposed by Sohio).

In support of the proposed periodic rate increase, Sohio refers to the contract price provisions and states that the price was arrived at by arm's-length negotiation and does not exceed the current commodity value of the gas.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the

[1] Filed as part of the original document.

[1] A written opposition to the petition was filed June 16, 1958, on behalf of Anthony; it is not considered, having been filed beyond the time limit fixed by § 1.43 of the Commission's Rules, but consideration is given to opposing arguments made on the record on behalf of Anthony, New England Television Company, Inc., and Bureau.

Commission enter upon a hearing concerning the lawfulness of the said proposed change and that Supplement No. 3 to Sohio's FPC Gas Rate Schedule No. 37 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 3 to Sohio's FPC Gas Rate Schedule No. 37.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commisisoner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-15398]

BILLY BRIDEWELL ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 3, 1958.

Billy Bridewell (Operator) et al. (Bridewell), on June 5, 1958, tendered for filing a proposed change in his presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated May 1, 1958.

Purchaser: Cities Service Gas Company.

Rate schedule designation: Supplement No. 1 to Bridewell's FPC Gas Rate Schedule No. 3.

Effective date: July 31, 1958 (effective date is the effective date proposed by Bridewell).

In support of the proposed periodic rate increase, Bridewell states that the increased price is a matter of contractual obligation under a contract resulting from bona fide arm's-length negotiations and that such schedules of periodic price escalations are common in long-term gas sales contracts. Bridewell states additionally that the proposed price is just and reasonable and to deny same would be inequitable, unfair and confiscatory, and would deprive him of property without due process of law.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Bridewell's FPC Gas Rate Schedule No. 3 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Bridewell's FPC Gas Rate Schedule No. 3.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 31, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JULY 7, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34802: *Clay between points in southwest and border points.* Filed by Southwestern Freight Bureau, Agent (SWFB No. B-7319), for interested rail carriers. Rates on granulated or pulverized clay, carloads between points in the Southwest, between points in southwestern territory, on the one hand, and Paducah, Ky., on the other, and between points in southwestern territory, on the one hand, and points in gateways territory in Alabama, Louisiana (east of the Mississippi River), Kentucky, Mississippi, and Tennessee, on the other.

Grounds for relief: Short-line distance formula and grouping.

Tariff: Supplement 291 to Southwestern Lines Tariff I. C. C. 4020.

FSA No. 34803: *Fine coal—Southern Railway mines to points in Carolina territory.* Filed by Southern Railway Company, Agent (No. 135-A), for interested rail carriers. Rates on fine coal, carloads from mines on the Southern Railway and its short-line connections in eastern Tennessee, southwestern Kentucky, and southwestern Virginia to points in North Carolina and South Carolina, also to Augusta, Ga., and points in Georgia on the Charleston and Western Carolina Railway intermediate to Augusta.

Grounds for relief: Competition of natural gas, oil, etc.

Tariff: Supplement 47 to Southern Railway Company's tariff I. C. C. A-11352.

FSA No. 34804: *Molasses residuum—New Orleans, La., to southwestern and western trunk line territories.* Filed by Southwestern Freight Bureau, Agent (SWFB No. B-7321), for interested rail carriers. Rates on distillery molasses residuum (residuum from molasses distillation), dry, carloads from New Orleans, La., to specified points in Arkansas, Colorado, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming.

Grounds for relief: Market competition and short-line distance formulas.

Tariffs: Southwestern Lines Freight Tariff I. C. C. 4292.

FSA No. 34805: *Animal or poultry feed—New Orleans, La., to southwestern and western trunk line territories.* Filed by Southwestern Freight Bureau, Agent (SWFB No. B-7322), for interested rail carriers. Rates on prepared animal or poultry feed, noibn, carloads from New Orleans, La., to specified points in Arkansas, Colorado, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming.

Grounds for relief: Market competition and short-line distance formulas.

Tariff: Southwestern Lines Freight Tariff I. C. C. 4292.

FSA No. 34806: *Cheese—Fulton and Leitchfield, Ky., to southern territory.* Filed by O. W. South, Jr., Agent (SPA No. A3692), for interested rail carriers. Rates on cheese, including cheese foods and related articles, carloads from Fulton and Leitchfield, Ky., to points in southern territory.

Grounds for relief: Short-line distance formula, grouping, special rate treatment for relief lines.

Tariff: Supplement 29 to Southern Freight Association tariff I. C. C. 1537.

By the Commission.

Subchapter D—Regulations Under Soil Bank Act

[Amdt. 10]

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

The regulations governing the 1958 acreage reserve part of the Soil Bank Program, 22 F. R. 6397, as amended and supplemented, are hereby further amended as follows:

1. Section 485.310 (b) (1) is amended by deleting the next to last sentence and substituting therefor the following: "The producer shall notify the county office, by the date(s) entered on the notice of excess acreage, that he has disposed of any excess acreage or, in the case of tobacco, that he intends to dispose of such excess. The county committee, or the county office manager on behalf of the county committee, may waive notification upon finding that the excess acreage was in fact disposed of prior to the disposition date or, in the case of tobacco, upon submission of proof satisfactory to them that the producer was prevented from complying with the notification requirement because of conditions beyond his control. The producer shall, except in the case of wheat, pay the cost of determining the adjusted acreage."

2. Section 485.322 is amended by changing the heading "*Release and reapportionment of acreage allotments*" to read "*Release, reapportionment, and transfer of acreage allotments*" and by adding at the end thereof the following:

(c) *Transfer of acreage allotments for cotton.* If all or part of the allotment for cotton is transferred from a farm pursuant to the provisions of Public Law 85-456, 85th Cong., 2d sess. (June 11, 1958), any 1958 acreage reserve agreement for cotton in effect on such farm shall be deemed terminated. The operator of such farm may, within 15 days after the date of notice of such termination by the county committee, file a new acreage reserve agreement for cotton, signed by all the producers who signed the original agreement, on the basis of the allotment remaining on the farm after the transfer. The area designated as the acreage reserve under the new agreement may include all or part of the acreage designated under the original agreement or other acreage eligible for designation under the regulations but in no event shall the number of acres designated as acreage reserve under the new agreement exceed the number of acres so designated under the original agreement.

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812)

Issued at Washington, D. C., this 7th day of July 1958.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 12, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient; and this amendment relieves restriction on the handling of Duarte plums grown in California.

It is, therefore, ordered as follows:

The provisions in paragraph (b) of § 936.594 (Plum Order 12; 23 F. R. 4692) are hereby amended to read as follows:

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 11, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship from any shipping point during any day any package or container of Duarte plums unless such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and, except to the extent otherwise permitted under this paragraph,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, sixty-six and two-thirds (66⅔) percent, by count, of the plums measure not less than one and thirteen-sixteenths ($1\frac{13}{16}$) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than fifty (50) percent, by count, of plums which measure less than one and thirteen-sixteenths ($1\frac{13}{16}$) inches in diameter, if the average percentage of such smaller sized plums in all containers in such lot does not exceed thirty-three and one-third (33⅓) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than the size prescribed in subparagraph (1) of this paragraph if said quantity does not exceed twenty (20) percent of the number of the same type of packages or containers of plums shipped by such shipper which meet the size requirement of said subparagraph (1) of this paragraph and all such smaller plums meet the following applicable requirements:

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, seventy-five (75) percent, by count, of the plums measure not less than one and ten-sixteenths ($1\frac{10}{16}$) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than thirty-seven and one-half (37½) percent, by count, of plums which measure less than one and thirteen-sixteenths ($1\frac{13}{16}$) inches in diameter, if the average percentage of such smaller sized plums in all containers in such lot does not exceed twenty-five (25) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7½-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than the size prescribed in subparagraph (1) of this paragraph, the quantity of such undershipment may be shipped by such shipper only from such shipping point during the next 2 succeeding calendar days: *Provided*, That, shipment is also made on the particular calendar day by such shipper of the full quantity of such smaller sized plums such shipper is authorized to ship on such day under subparagraph (2) of this paragraph.

(4) When used in this section, "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of Section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in Section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7½-row standard pack" shall mean that the top layer of pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "8½-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this regulation. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Plum Order 12; or (2) as releasing or extinguishing any violation of Plum Order 12 which has occurred or which, prior to the effective time of the provisions hereof, may occur.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 9, 1958, to be effective on and after 12:01 a. m., P. s. t., July 11, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 959—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES, CALIFORNIA, AND IN ALL COUNTIES IN OREGON, EXCEPT MALHEUR COUNTY

LIMITATION OF SHIPMENTS

§ 959.316 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 114, as amended, and Order No. 59, as amended (7 CFR Part 959), regulating the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon, except Malheur County, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Oregon-California Potato Committee, established pursuant to said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and that good cause exists for not postponing the effective date of this section until 30 days or any other period beyond the date specified (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

(b) *Order.* (1) Except as otherwise provided in this section, during the period from July 15, 1958, through June 30, 1959, no handler shall ship (i) any potatoes of the round varieties (including, but not limited to Kennebec, Irish Cobbler, Bliss Triumph, and Pontiac varieties), unless such potatoes meet the requirements of the U. S. No. 2, or better, grade, 1⅞ inches minimum diameter, or (ii) any potatoes of the long varieties (including, but not limited to White Rose, Russet Burbank, and Early Gem varieties), unless such potatoes meet the requirements of the U. S. No. 2, or better grade, 2 inches minimum diameter or 4 ounces minimum weight.

(2) Except as otherwise provided in this section, during the period from July 15, 1958, through June 30, 1959, no handler shall ship potatoes of any variety if such potatoes are more than "moderately skinned." During such period any handler may ship not to exceed a total of 100 hundredweight of each variety of such potatoes every seven days without regard to the aforesaid skinning requirements if prior to such handling the handler reports to the Oregon-California Potato Committee the name and address of the producer of such potatoes, and each such shipment is handled as an identifiable entity.

(3) Pursuant to § 959.53, each handler may ship up to, but not to exceed, five hundredweight per day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any portion of a shipment of over five hundredweight.

(4) Except as otherwise provided in this section, the limitations set forth in subparagraphs (1) and (2) of this paragraph shall not be applicable to shipments of potatoes for any of the following purposes: (i) grading or storing within the district where grown; (ii) certified see potatoes; (iii) export; (iv) canning or freezing; (v) dehydration or manufacture or conversion into starch, flour, or alcohol; (vi) charity; (vii) potato shipping (viii) livestock feed within the district where grown, except that potatoes grown in District No. 2 or District No. 4 may be shipped for livestock feed within, or to, such districts for such purpose.

(5) During the period July 15, 1958, through June 30, 1959 no handler shall ship (i) potatoes for export which do not meet the requirements of the U. S. No. 1, or better, grade, 1½ inches minimum diameter, or (ii) potatoes for dehydration or manufacture or conversion into starch, flour, or alcohol unless such potatoes are of a size not smaller than 1½ inches in diameter and at least 85 percent of the potatoes grade not less than U. S. No. 1.

(6) (i) Potatoes which fail to meet applicable grade and size requirements of this section because of damage from shriveling or sprouting caused by the conditioning of the potatoes for potato chipping may be shipped for use for potato chipping;

(ii) Potatoes which by clipping second growth could be made to meet the aforesaid applicable grade and size requirements may be shipped for use for potato chipping without such clipping; and

(iii) Potatoes which have been conditioned for use for potato chipping and from which both ends are clipped or from which more than one-fourth of the potato has been cut away if in such cases the remaining portion weighs 6 ounces or more, may be shipped for use for potato chipping if such potatoes otherwise meet the applicable grade requirements.

(7) Each handler making shipments of potatoes authorized pursuant to subparagraph (4) of this paragraph shall, with respect to such shipments other than those for grading or storing and for livestock feed: (i) File an application for a Certificate of Privilege pursuant to §§ 959.130 and 959.131; (ii) pay the required assessments pursuant to § 959.61; (iii) have such shipments (except shipments of certified seed potatoes) inspected pursuant to § 959.60; and (iv) for each such shipment (except shipments of certified seed potatoes) furnish a record of shipment applicable thereto to the committee. Each application to ship potatoes for export, for canning or freezing, for dehydration or manufacture or conversion into starch, flour, or alcohol, for charity, or for potato chipping, shall be accompanied by a copy of the applicable bill of lading and the applicant handler's certification and the buyer's certification that the potatoes to be shipped are to be used for the purpose stated in the application. Each handler agrees, in his application to make shipments for canning or freezing, or for dehydration or manufacture or conversion into starch, flour, or alcohol, or for potato chipping, to bill each such shipment directly to the applicable processor and, if a particular shipment is not so billed, to furnish copies of the bill of lading and related diversion orders covering such shipment.

(8) Pursuant to § 959.60 (b), the inspection requirements of § 959.60 applicable to the handling of regraded, resorted, or repacked potatoes are suspended during the effective time of this section with respect to any such potatoes which prior to the regrading, resorting, or repacking thereof, were inspected pursuant to § 959.60 (a) and the inspection certificate is valid at the time of handling such regraded, resorted, or repacked potatoes.

(9) For the purpose of operation under this part and except as otherwise provided in this subparagraph, each required inspection certificate is hereby determined, pursuant to § 959.60 (c), to be valid for a period not to exceed 14 days following completion of inspection as shown on the certificate. The period of validity of an inspection certificate covering inspected and certified potatoes that are stored in refrigerated storage within 14 days of the inspection shall be the entire period such potatoes remain in such storage.

(10) Except as otherwise provided, the various terms, grades, and sizes referred to in this section shall have the same meaning as when used in the United States Standards for Potatoes (§§ 51.1540 to 51.1556 of this title; 23 F. R. 8141) including the tolerances set forth therein; and all other terms used in this section shall have the same meaning as when used in said marketing agreement, as amended, and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 8, 1958.

Director,
Fruit and Vegetable Division.

[F. R. Doc. 58-5312; Filed, July 10, 1958; 8:52 a. m.]

PART 993—HANDLING OF DRIED PRUNES PRODUCED IN CALIFORNIA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR Part 993; 22 F. R. 8254), regulating the handling of dried prunes produced in California, hereinafter referred to collectively as the "order," issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), the Prune Administrative Committee (established pursuant to the order) held its initial marketing policy meeting on June 17, 1958. At that meeting, the committee formulated and adopted a marketing policy for the crop year beginning August 1, 1958; and such policy was submitted to the Secretary. At the time of the submission to the Secretary, the committee unanimously requested that the provisions in § 993.42 requiring it to hold another meeting not later than July 12 in connection with the marketing policy previously formulated and adopted for the crop year beginning August 1, 1958, be suspended temporarily and that no such meeting be held in July 1958.

At the initial marketing policy meeting, the committee: (1) Estimated that the 1958 production of California prunes would be well below average; (2) estimated that the total available supply of prunes in the 1958–59 crop year (1958 production plus carrying on August 1, 1958, from prior production) would be considerably less than normal market requirements and carryout for the 1958–59 crop year, and (3) recommended that the provisions of § 993.50 of the order be invoked for said crop year. The provisions of § 993.50 may be invoked if the Secretary finds prior to or at any time during a particular crop year that the seasonal average price to producers for prunes for that crop year will be in excess of the price level contemplated by the provisions of section 2 (1) of the act. Section 993.50 provides, among other things, for the application of prescribed minimum standards as to grade to the handling of prunes and prohibits the shipment or other final disposition of any lot of consumer packages of prunes unless the average count of the prunes contained in such lot is 100 or less per pound.

The prospective prune supply and price situation for the 1958–59 crop year indicates conditions which would require the provisions of § 993.50 to be invoked. In the light of such situation and since the Department's views do not differ from those of the committee with respect to the marketing policy which should be followed for the ensuing crop year, there appears to be no need for the committee to hold the second policy meeting in July 1958 to reconsider the marketing policy already adopted. The failure to hold such a meeting should not, however, preclude the committee from operating in accordance with the provisions of § 993.44 in the event it determines in future months that the marketing policy should be modified or changed. Further, holding the second meeting would entail considerable expense to the industry.

On the basis of the foregoing, it is hereby found that the provisions of the order applicable to second marketing policy meetings and related matters will not tend to effectuate the declared policy of the act during the period of suspension as hereinafter provided; and such provisions should be suspended for the stated period.

Sections 993.42 and 993.43 and 993.59 (a) (1) of the order require, inter alia, that a second policy meeting be held by the committee, not later than July 12 of any crop year, to reconsider the marketing policy is previously formulated and adopted for the ensuing crop year and related maters, that the Secretary notify the committee of his tentative views regarding such marketing policy and related matters, that the committee consider such tentative views at the second meeting, and that the committee submit to the Secretary as promptly as practicable after the conclusion of such second meeting, a report showing any revisions or changes that it desires to make in such marketing policy and related matters.

It is, therefore, ordered, That, the respective provisions in the second and third sentences of § 993.42, in the second sentence of § 993.43, and in the third, fourth, and fifth sentence in § 993.59 (a) (1) be, and the same hereby are, suspended until August 1, 1958.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective time of this suspension order for 30 days after its publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.), in that: (1) The provisions involved in the suspension action require the Secretary to submit to the committee his tentative views on the marketing policy that was formulated and adopted by the committee for the 1958–59 crop year, and related matters, and the committee to hold a second meeting before July 12 to consider such policy, matters, and tentative views, but a very short period of time remains within which this suspension can be made effective; (2) the committee has already formulated and adopted the marketing policy for the 1958–59 crop year and given notice thereof to producers, dehydrators, and handlers, as provided in the order; (3) the Department's views on the marketing policy which should be followed in the ensuing crop year do not differ from those of the committee; (4) no new relevant data or information appears to be currently available for consideration by the Secretary or the committee which may warrant a modification or change in the adopted marketing policy; (5) the committee may consider any modification or change in the marketing policy at any time hereafter in the manner prescribed in § 993.44; and (6) public participation in connection with the suspension action could accomplish no useful purpose.

Terms used herein shall have the same meaning as when used in the order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 7, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] DON PAARLBERG,
Assistant Secretary.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 103]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—SWINE DISEASES SPREAD THROUGH RAW GARBAGE

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the Act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the Act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the Act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (9 CFR, 1957 Supp., 76.27; 23 F. R. 794, 1855, 2589, 3850), which quarantines certain areas because of vesicular exanthema, a contagious, infectious, and communicable disease of swine, is hereby further amended in the following respects:

1. A new subdivision (x) is added to subparagraph (3) of paragraph (d), relating to Camden County in New Jersey, to read:

(x) Block 275, Lot 3, in Winslow Township, owned and operated by Randall Pierce.

2. New subdivisions (lxxxvi), (lxxxvii), and (lxxxviii), are added to subparagraph (5) of paragraph (d) relating to Gloucester County in New Jersey, to read:

(lxxxvi) Block 233, Lot 39, Plate 21, in Deptford Township, owned by Cathren Lokaj and operated by John Teasdale;

(lxxxvii) Block 387, Lot 37A, Plate 30, in Deptford Township, owned and operated by Harry Cockran;

(lxxxviii) Block 176, Lot 18C, Plate 30, in Monroe Township, owned and operated by Emery Kennedy.

3. Subparagraph (9) of paragraph (d), relating to Monmouth County in New Jersey, is deleted.

4. Subparagraph (10) of paragraph (d), relating to Morris County in New Jersey, is deleted.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment releases areas in New Jersey, heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1957 Supp., Part 76, Subpart B as amended, will not apply to such areas. However, the restrictions pertaining to

such movement from nonquarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under Section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 8th day of July 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 12]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATION; LOVELOCK, NEV., TO UNITED STATES-CANADIAN BORDER

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Division, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

Section 600.6635 is added to read:

§ 600.6635 *VOR civil airway No. 1535 (Lovelock, Nev., to United States-Canadian Border).* From the Lovelock, Nev., omnirange station via the Sod House, Nev., omnirange station; Rome, Oreg., omnirange station; Boise, Idaho, omnirange station; Missoula, Mont., omnirange station; Cut Bank, Mont., omnirange station; to the United States-Canadian Border via the Cut Bank omnirange direct radial to the Swift Current, Sask., radio range station.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. July 31, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

JULY 7, 1958.

[F. R. Doc. 58–5290; Filed, July 10, 1958; 8:45 a. m.]

[Amdt. 13]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

ALTERATION; LOVELOCK, NEV., TO UNITED STATES-CANADIAN BORDER

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Division, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

Section 601.6635 is added to read:

§ 601.6635 *VOR civil airway No. 1535 control areas (Lovelock, Nev., to United States-Canadian Border).* All of VOR civil airway No. 1535.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. July 31, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6949]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

PIPER BRACE SALES CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service;* § 13.280 *Unique nature or advantages.* Subpart—*Disparaging competitors and their products*—Competitors' products: § 13.1000 *Performance;* § 13.1010 *Qualities or properties.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret and apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Piper Brace Sales Corporation et al., Kansas City, Mo., Docket 6949, June 10, 1958]

In the Matter of Piper Brace Sales Corporation, a Corporation, and Henry G. Nelkin, Anne R. Nelkin, Nedwyn R. Nelkin, Cecil Nelkin, and Marie H. Dinger, Individually and as Officers of Said Corporation, and Eugene Goldstein, Individually and as a Stockholder of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging sellers in Kansas City, Mo., with misrepresenting in advertisements in newspapers the qualities and unique nature of their trusses or hernia supports and disparaging competitive products.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on June 10 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That Respondents Piper Brace Sales Corporation, and its officers, and Henry G. Nelkin and Nedwyn R. Nelkin, individually and as officers of said corporation, and Eugene Goldstein, individually and as a stockholder of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of devices designated as Rupture-Easer, Rupture-Gard, and PiPeer Golden Crown Truss, or any product or device of substantially similar construction or design; whether sold under the same names or any other name or names, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or by implication:

(a) That the rupture cannot "come out" while an individual is wearing said devices;

(b) That the devices are the most effective trusses or hernia supports devised;

(c) That the devices operate upon a different principle from other trusses in common use, that is, the principle of closing the opening of the inguinal canal by means of external pressure; or that the control of rupture upon such principle is new;

(d) That competitive devices are old-fashioned, outmoded, torturing, or binding, or otherwise inferior to said devices;

2. Disseminating, or causing to be disseminated, any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said devices, which advertisement contains any of the representations prohibited in Paragraph 1 hereof;

3. Placing in the hands of wholesalers, or retailers or others, a means and instrumentality by and through which they may deceive and mislead the purchasing public concerning said devices in the respects set out in Paragraph 1 above.

It is further ordered, That the complaint herein, insofar as it relates to respondents Anne R. Nelkin, Cecil Nelkin, and Marie H. Dinger, be, and the same hereby is, dismissed without prejudice to the right of the Commission to take such action in the future as the facts may then warrant.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to the following allegation of Paragraph Seven (a) thereof: "The pad on such devices can slip * * *".

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That Respondents Piper Brace Sales Corporation, a corporation, and Henry G. Nelkin and Nedwyn R. Nelkin, individually and as officers of said corporation, and Eugene Goldstein, individually and as a stockholder of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 10, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58–5287; Filed, July 10, 1958; 8:47 a. m.]

[Docket 7054]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

GOLDMAN JEWELRY CO. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Exaggerated as regular and customary; usual as reduced, special, etc.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Goldman Jewelry Company et al., Kansas City, Mo., Docket 7054, June 10, 1958]

In the Matter of Goldman Jewelry Company, a Corporation, and Fred Goldman, Sr., and George L. Goldman, Individually and as Officers of Said Corporation, and Fred Goldman, Jr., and Richard A. Goldman, Individually

This proceeding was heard by a hearing examiner on the complaint of the Commission charging sellers of jewelry and other merchandise in Kansas City, Mo., with representing falsely in advertisements in newspapers and otherwise that their commodities such as bone china cups and saucers, binoculars, and lap robes were being offered at reduced prices.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on June 10 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That Respondent Goldman Jewelry Company, a corporation, and its officers; and Respondents Fred Goldman, Sr., and George L. Goldman, individually and as officers of said corporation, and Fred Goldman, Jr., and Richard A. Goldman, individually, and Respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of commodities in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that the regular prices of Respondents' commodities are any amounts in excess of the prices at which such commodities have been sold by Respondents in their recent regular course of business;

2. Representing, directly or by implication, that any savings are afforded from Respondents' regular prices unless the amount for which they are offered constitutes a reduction from the price at which said commodities had been sold by Respondents in their recent regular course of business.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents named in the caption hereof shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 10, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

CARL M. STEPHAN ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.30 *Composition of goods:* Fur Products Labeling Act; § 13.73 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.130 *Manufacture or preparation:* Fur Products Labeling Act; § 13.235 *Source or origin:* Place: *Foreign, in general.* Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1212 *Formal regulatory and statutory requirements:* Fur Products Labeling Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Carl M. Stephan et al. trading as The Fashion, San Antonio, Tex., Docket 6956, June 11, 1958]

In the Matter of Carl M. Stephan, Earl Marcus, Gladys Stephan, Murray Marcus, Carol Marcus and Janet Marcus, Individually and as Copartners, Trading as The Fashion

This proceeding was heard by a hearing examiner on the complaint of the Commission charging furriers in San Antonio, Tex., with violating the Fur Products Labeling Act by failing to comply with the labeling, invoicing, and advertising requirements, and specifically by advertising in newspapers which failed to disclose the names of animals producing the furs in certain products or the country of origin, or that some products contained artificially colored or cheap or waste fur.

After acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on June 11 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Carl M. Stephan, Earl Marcus, Gladys Stephan, Murray Marcus, Carol Marcus and Janet Marcus, individually and as co-partners, trading as The Fashion or under any other trade name or names, and respondents' representatives, agents, and employees, directly or indirectly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the offering for sale, sale, advertising, transportation or distribution of fur products which have been made in whole or in part of fur which had been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations.

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported it for distribution in commerce;

(f) The name of the country of origin of any imported furs used in the fur product;

(g) The item numbers or mark assigned to a fur product.

2. Setting forth on labels affixed to fur products:

(a) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information.

(b) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed, or artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur when such is a fact;

(e) The name and address of the person issuing such invoices;

(f) The name of the country of origin of any imported furs contained in the fur product;

(g) The item number or mark assigned to a fur product.

C. Falsely or deceptively advertising fur products through the use of any notice, advertisement, representation or public announcement, which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products and which:

1. Fails to disclose the name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

2. Fails to disclose that fur products contain or are composed of bleached, dyed, or otherwise artificially colored fur when such is a fact;

3. Fails to disclose that fur products are composed in whole or in substantial part, of paws, tails, bellies, or waste fur, when such is the fact;

4. Fails to disclose the name of the country of origin of the imported furs contained in fur products;

5. Fails to set forth all the information required under section 5 (a) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in type of equal size and conspicuousness and in close proximity with each other.

By "Decision of the Commission and Order", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: June 11, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

Subchapter G—Miscellaneous Rules

PART 765—RULES APPLICABLE TO THE PUBLIC

REGULATIONS FOR PEARL HARBOR, HAWAII

Scope and purpose. Section 765.6 is revised to substitute the Commander, U. S. Naval Base, Pearl Harbor, Territory of Hawaii, for the Commander, Pearl Harbor Naval Shipyard, as the officer responsible for insuring security and for governing the navigation, movements, and anchorage of vessels in the waters of Pearl Harbor and its entrance channel.

Section 765.6 is revised to read as follows:

§ 765.6 *Regulations for Pearl Harbor, Hawaii.* The Commander, U. S. Naval Base, Pearl Harbor, Territory of Hawaii, is responsible for prescribing and enforcing such rules and regulations as may be necessary for insuring security and for governing the navigation, movements, and anchorage of vessels in the waters of Pearl Harbor and in the entrance channel thereto. (37 Stat. 341, sec. 1; 62 Stat. 799; 33 U. S. C. 475; 18 U. S. C. 2152, E. O. 8143, 4 F. R. 2179, 3 CFR, 1943 Cum. Supp., p. 504.)

(Sec. 6011, 70A Stat. 375; 10 U. S. C. 6011)

Dated: July 3, 1958.

By direction of the Secretary of the Navy.

[SEAL] CHESTER WARD, *Rear Admiral, U. S. Navy, Judge Advocate General of the Navy.*

[F. R. Doc. 58-5292; Filed, July 10, 1958; 8:48 a. m.]

TITLE 42—PUBLIC HEALTH

Chapter III—Saint Elizabeths Hospital, Department of Health, Education, and Welfare

PART 304—VOLUNTARY PATIENTS

TRIAL VISIT STATUS

Notice of proposed rule making having been published in the FEDERAL REGISTER on April 26, 1958 (23 F. R. 2816) and no public suggestions or coments having been received the amendment to this part set out below is hereby adopted. Such amendment shall become effective immediately upon publication, it having been determined that maximum benefit would accrue to this class of patient by the prompt initiation of the longer trial visit program and that the efficient administration of the over-all voluntary patient program would be promoted by an early effective date.

Section 304.3 (a) is amended to read as follows:

(a) A voluntary patient may leave the Hospital in trial visit status for a period not exceeding six months upon approval of the Superintendent and may be permitted to return as a voluntary patient within that period on the basis of the original certification.

(62 Stat. 572)

[SEAL] WINFRED OVERHOLSER, *Superintendent, Saint Elizabeths Hospital.*

Approved: July 3, 1958.

M. B. FOLSOM, *Secretary of Health, Education, and Welfare.*

[F. R. Doc. 58-5283; Filed, July 10, 1958; 8:46 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 104—BRISTOL BAY AREA

NAKNEK-KVICHAK DISTRICT; ADDITIONAL FISHING TIME

JULY 10, 1958.

Basis and purpose: On the basis of field observations indicating a marked improvement in the Naknek-Kvichak red salmon runs, it has been determined that some additional fishing time can be permitted.

Therefore, paragraph (a) of § 104.9, as amended July 7, 1958, is further amended to permit fishing in the Naknek-Kvichak district from 9 a. m. July 10 to 9 a. m. July 11, 1958.

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

If full utilization of the red salmon runs in the Naknek-Kvichak district is to be realized, immediate action is necessary. Therefore, notice and public procedure on this amendment is neither practicable nor in the public interest and this amendment shall become effective immediately upon publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.).

A. W. ANDERSON, *Acting Director, Bureau of Commercial Fisheries.*

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 16]

[Docket No. 12161; FCC 58-638]

LAND TRANSPORTATION RADIO SERVICES

COOPERATIVE USE OF FACILITIES

In the matter of amendment of Part 16, rules governing the Land Transportation Radio Services to amend and clarify the permissible scope of cooperative use of facilities in these services.

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. On September 5, 1957, the Commission adopted a notice of proposed rule making in the above-entitled matter which was released on September 10, 1957, and published in the September 13, 1957, issue of the FEDERAL REGISTER (22 F. R. 7342). The time allowed for the submission of comments in this matter has expired.

3. Comments were received in this proceeding from the Association of American Railroads; the American Trucking Associations, Inc.; the American Taxicab Association, Inc.; and the American Automobile Association, Inc. A review of those comments indicates that there is a possibility of confusion as to the application of the proposal to the various services, because of the terminology employed in the rule amendments proposed. Accordingly, the Commission has reconsidered its original proposal in this matter, has concluded that some changes should be made therein and, as a result, is hereby revising its original proposal both for the purpose of added clarity and to make substantive changes therein.

4. As revised herewith, for the purpose of revising and clarifying the permissible scope of cooperative use of facilities in these services, the proposed amendment to § 16.3 is intended, first, to provide a clear description of what is to be considered the rendition of a private radiocommunication service and to exclude therefrom the installation, by a licensee, of his mobile units in the vehicles of other persons performing certain services under contract for the station licensee, as now permitted in the Railroad Radio Service and as proposed to be permitted in the Automobile Emergency Radio Service, and secondly, to prescribe the conditions under which a private radiocommunication service to other persons may be rendered by a licensee in the Land Transportation Radio Services. The three methods of such rendition of a base-mobile private radiocommunication service which are proposed to be permitted are separately considered, as follows:

(a) When base-station service is to be provided by a base station licensee to the mobile units of another licensee. In this case, advance approval by the Commission will not be required.

(b) When both base-station service and mobile units are to be provided by the same licensee to a person who is separately engaged in appropriate transportation activities but is not necessarily a licensee. In this case, each person to receive such service must be approved by the Commission in advance.

(c) Where base-station service and/or mobile units are to be provided by a licensee which is a non-profit corporation or association organized for the purpose of providing that service to persons who are engaged in appropriate land transportation activities. In this case, also, each person to receive such service must have been approved in advance by the Commission.

5. The revised proposed amendments, which are set forth in detail below, are issued under the authority of sections 4 (i) and 303 of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, and any person desiring to support this proposal may file with the Commission on or before August 1, 1958, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last date for filing original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.54 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: July 2, 1958.

Released: July 8, 1958.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

1. Amend § 16.3 to read as follows:

§ 16.3 *Arrangements for cooperative use of facilities.* For the purposes of this part, the use of facilities licensed under this part for the transmission or reception of any communication which relates solely to the conduct of the activity or activities of a person other than the licensee of those facilities is defined as the rendition of a private radiocommunication service to such other person by the licensee. The installation and use of mobile units, operated under the licensee's station authorization, in the vehicles of other persons furnishing the licensee, under contract, services or facilities within the purview of the established scope of the service in which the station is authorized, in accordance with the provisions of §§ 16.357 and 16.506, shall not be considered the rendition of a private radiocommunication service when the communications involved relate solely to the furnishing of such services or facilities to the licensee. Except for emergency communications, or except for authorized communications relating to civil defense, any rendition of a private radiocommunication service by a station in the Land Transportation Radio Services shall be governed by the following:

(a) The licensee of a base station may render a private radiocommunication service to the licensee(s) of a mobile station or stations in the Land Transportation Radio Services, without specific advance approval by the Commission, upon satisfaction of the following conditions:

(1) The frequency upon which the base station is operated shall be one which would be available for assignment to base stations for use in connection with all of the transportation activities involved.

(2) The rendition of the radio communication service shall be on a cost-sharing or no-charge basis, in accordance with the provisions of paragraph (e) of this section.

(3) The licensee of the base station shall maintain exclusive control over the operation of the base station; however, he may provide dispatch points (but not control points) for the use of the licensee of the mobile station.

(4) Except upon specific authorization by the Commission, the licensee of a base station shall not serve a greater number of mobile units of any other person than the number of mobile units of the licensee served by the same base station.

(b) The licensee of a base station may install mobile units, operated under an authorization held by him, in the vehicles of other persons who are separately engaged in transportation activities and may render a private radiocommunication service to the vehicles in which those mobile units are installed only upon specific advance approval by the Commission with respect to every person to whom such radiocommunication service is to be rendered and upon satisfaction of the following additional conditions:

(1) The frequency or frequencies upon which the base and mobile station(s) are operated shall be one(s) which would be available for assignment to base and mobile stations, respectively, for use in conection with all of the transportation activities involved.

(2) The rendition of the radiocommunication service shall be on a cost-sharing or no-charge basis, in accordance with the provisions of paragraph (e) of this section.

(3) The licensee of the base and mobile station(s) shall maintain exclusive control over the operation of the base

and mobile station(s); however, he may provide dispatch points (but not control points) for the use of the persons receiving the radiocommunication service. In order to maintain such control, each person in whose vehicles the mobile units of the licensee are proposed to be installed shall enter into a written agreement verifying that the licensee has the sole right of control of the mobile radio units, that the vehicle operators shall operate the radio units subject to the orders and instructions of the base station operator and that the licensee shall at all times have such access to and control of the mobile equipment as will enable him to carry out his responsibilities under the license. A copy of the agreement with vehicle owners required hereby shall be kept with the station records and held available for inspection by Commission representatives but need not be submitted to the Commission unless specifically requested in a particular case.

(4) Except upon specific authorization by the Commission, the licensee of a base station shall not serve a greater number of mobile units of any other person than the number of mobile units of the licensee served by the same base station.

(c) A licensee authorized under the provisions of the various subparts of this part which make eligible in certain of these services a non-profit corporation or association organized for the purpose of furnishing a private radiocommunication service to persons engaged in the respective activities may render that communication service only upon specific advance approval by the Commission with respect to every person to whom such radiocommunication service is to be rendered and upon satisfaction of the following additional conditions:

(1) The frequency or frequencies upon which the base and mobile station(s) are operated shall be one(s) which would be available for use in connection with all of the transportation activities involved.

(2) The rendition of the radiocommunication service shall be on a cost-sharing or no-charge basis, in accordance with the provisions of paragraph (e) of this section.

(3) The licensee of the base and mobile station(s) shall maintain exclusive control over the operation of the base and mobile station(s) involved; however, he may provide dispatch points for the use of persons receiving the radiocommunication service. Control points may be provided only upon receiving the prior approval of the Commission in each case.

(d) Authority may be granted for the licensee of an operational fixed station or stations in one of the Land Transportation Radio Services to render a private radiocommunication service to specific other persons engaged in transportation activities, when the frequency or frequencies upon which such operational fixed station(s) are operated are ones which are available for assignment to operational fixed stations for use in connection with all of the transportation activities involved; however, such authority will be granted only on an individual and case-by-case basis at the discretion of the Commission pending further development of its microwave program. The rendition of such radiocommunication service, when authorized, shall be on a cost-sharing or no-charge basis, in accordance with the provisions of paragraph (e) of this section and each person who is to receive such radiocommunication service shall be named in the station authorization.

(e) All arrangements for the rendition of a private radiocommunication service in accordance with the provisions of the preceding paragraphs of this section shall be either on a no-charge basis or on a non-profit, cost-sharing basis pursuant to a written contract between the parties concerned. Such contract shall clearly establish that the licensee has full access to and exclusive control over the radio equipment operated under the authority of the license held by him; and that contributions to capital and operating expenses are accepted only on a cost-sharing, non-profit basis, said costs to be prorated on an equitable basis among all persons who are parties to the arrangement. Records which reflect the cost of the service and its non-profit, cost-sharing nature shall be maintained by the base (or fixed) station licensee and held available for inspection by Commission representatives.

(f) In order to comply with the requirement of specific advance approval contained in paragraphs (b), (c) and (d) of this section, a licensee proposing to render a private radiocommunication service to any other person (other than to render base station service to the licensee of a mobile station) shall make application for authority to render that service with respect to each base or fixed station involved, naming each person who is to receive service and including a description of the kind and extent of the transportation activity in which each is engaged. When the radiocommunication service is to be rendered on a regular basis, the requests for such authority shall be made on FCC Form 400, however, if the service is to be rendered on an irregular or temporary basis, the request may be in the manner provided for in § 16.53 of this part. Upon approval of the request, the Commission will designate the persons to whom service may be rendered on the station authorization or in the special temporary authority which shall be kept with the station records.

2. Amend § 16.53 (f) to read as follows:

(f) Lists of those persons to whom the applicant proposes to provide a private radiocommunication service, when prior advance approval with respect to those persons is required in accordance with the provisions of § 16.3, together with a description of the kind and extent of the transportation activity in which each is engaged.

3. Amend § 16.251 (a) (5) to read as follows:

(5) A non-profit corporation or association organized for the purpose of furnishing a radiocommunication service on a cost-sharing basis to persons all of whom are actually engaged in activities set forth in subparagraphs (1) to (4) of this paragraph: *Provided*, That the frequency on which such operation is proposed is available for assignment for use by base stations or mobile stations in connection with all such transportation activities.

4. Amend paragraph (b) of § 16.307 to read as follows:

(b) In addition to the provisions of § 16.3, a licensee of a base station in this service may install mobile units licensed to him in the vehicles of other persons furnishing to the licensee, under contract, a facility or service within the purview of paragraph (a) of this section: *Provided*, That the communications involved are exclusively in connection with such facility or service: *And provided further*, That in each case the licensee and such other person shall comply with the agreement requirements set forth in § 16.3 (b) (3).

5. Amend Subpart K, Automobile Emergency Radio Service, by the addition of the following new section:

§ 16.560 *Contract road service vehicles.* In addition to the provisions of § 16.3, an association of owners of private automobiles which is licensed of a base station and associated mobile units in this service may install mobile units operated under its license in the vehicles of other persons furnishing a private emergency road service to its members pursuant to a contract with the association: *Provided*, That the communications involved are exclusively in connection with such service: *And provided further*, That in each case the licensee and such other person shall comply with the agreement requirements set forth in § 16.3 (b) (3).

[F. R. Doc. 58-5306; Filed, July 10, 1958; 8:51 a. m.]

[47 CFR Part 16]

[Docket No. 12282; FCC 58-637]

LAND TRANSPORTATION RADIO SERVICE

LOCATION OF BASE STATIONS IN TAXICAB RADIO SERVICE

In the matter of amendment of Subpart I, Taxicab Radio Service, of Part 16, to require that Base Stations in that service shall be located within the area where their associated mobile units may legally pick up and discharge passengers.

1. The Commission has under consideration a notice of proposed rule making adopted January 3, 1958, in the above-entitled matter published in the FEDERAL REGISTER of January 10, 1958 (23 F. R. 192) and comments filed relative thereto. The purpose of the proposed amendment was to avoid those cases of unnecessary interference in the Taxicab Radio Service which might be caused by the operation of Base Stations located outside of areas served by their associated mobile units and therefore operate with more power or greater antenna height than would otherwise be necessary.

2. No comments in support of the proposal were received. The National Association of Taxicab Owners, Inc. filed comments to the proposal, with which the Commission concurs, indicating that if the rule changes are adopted in the form proposed, the administration thereof might require Commission determination of matters that are more properly under the jurisdiction of municipalities or other local regulatory bodies. In addition, the general purpose of the proposal may be accomplished, to a large extent, within the framework of the existing though more general rules governing power limitations and selection of frequencies.

3. In view of the foregoing and pursuant to sections 4 (i) and 303 of the Communications Act of 1934, as amended: *It is ordered*, That the Notice of Proposed Rule Making in Docket No. 12282 in the above-entitled matter be withdrawn and the proceedings in this Docket terminated.

Adopted: July 2, 1958.

Released: July 8, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[49 CFR Part 207]

[Ex Parte No. MC-43]

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

EXTENSION OF TIME FOR FILING STATEMENTS

Upon consideration of the record in the above-entitled proceeding, and request of the Regular Common Carrier Conference of the American Trucking Associations, Inc., for an extension of time within which to file statements in response to the notice of rule making dated June 2, 1958; and good cause appearing therefor;

It is ordered, That the time within which such written statements may be filed, be, and it is hereby extended to September 15, 1958. Such written statements shall consist of an original signed copy and 14 copies thereof, and shall conform with the Commission's general rules of practice.

Dated at Washington, D. C., this 3d day of July A. D. 1958.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[Amdt. 3]

REGIONAL ADMINISTRATORS

DELEGATION OF AUTHORITY REGARDING COMPLIANCE WITH AIRPORT OPERATION AGREEMENTS

The purpose of this amendment is to delegate certain final authority to release the obligation of an airport grantee or sponsor to maintain landing area facilities.

Pursuant to authority under Department of Commerce Department Order 86 (21 F. R. 7027), the Delegation of Authority Regarding Compliance with Airport Operation Agreements published in the FEDERAL REGISTER on April 12, 1956 (21 F. R. 2392), as amended on March 13, 1957, in 22 F. R. 1616 and on September 12, 1957 in 22 F. R. 7291, is further amended by adding a new paragraph 46 to read as follows:

46 *Landing area facilities; reduction of maintenance obligation.* Each Regional Administrator is hereby delegated authority to release an airport sponsor or grantee from the obligation to maintain any runway, taxiway, apron, ramp, or warm-up pad or portion thereof, when he determines there is not any present or foreseeable future civil aviation need for the facility and that the remaining facilities are capable of serving the present and anticipated civil needs of the area.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

POST OFFICE DEPARTMENT

ORGANIZATION AND ADMINISTRATION

MISCELLANEOUS AMENDMENTS

Federal Register Document 58-4353, appearing on pages 4010 to 4018, inclusive, of the issue for June 7, 1958, is amended as follows to include the postal field organization:

a. In the table of contents insert the following:

PART 814—RELATIONSHIPS AND CHANNELS OF COMMUNICATION

814.1 Formal Channels.
814.2 Abbreviated Channels.
814.3 Formal Channels: Headquarters and Field.
814.4 Functional Channels: Headquarters and Field.

PART 815—REGIONAL ABBREVIATIONS AND NUMERICAL DESIGNATIONS

PART 825—SERVICES OFFICERS

825.1 Field Services Officer.
825.2 Mobile Services Officer.

b. In the text, insert the following immediately preceeding "Subchapter [illegible] Organization Statements":

PART 814—RELATIONSHIPS AND CHANNELS OF COMMUNICATION

814.1—FORMAL CHANNELS

A communication sent to a level of higher authority shall ordinarily proceed through each successive point of higher authority without bypassing any. In the same manner an instruction, delegation of authority, or any other communication from a higher level of authority to a lesser level should also proceed through each point. This principle must be followed if each officer who is responsible for an area of activity is to be kept informed of what is going on. An officer who is accountable for any activity must be given an opportunity to pass judgment on matters under his jurisdiction.

814.2—ABBREVIATED CHANNELS

.21 The formal channels of communication need not be followed when routine information is being transmitted. There must, however, be a prior determination by the responsible officials, in line of command, that they may be routinely bypassed on a specific matter or category of matters as a routine procedure for the future.

.22 A superior officer may sometimes bypass subordinate levels of authority when he desires specific information or when he wishes a specific task done. As a matter of good management, this should ordinarily not be done, unless on specific matters of any nature there is an emergency or question of time expedience. When economy of operation or other good reason justifies the bypassing of points of authority on a continuing basis, an understanding must be established with all parties.

.23 Channels of communication should not be shortcut on matters requiring discretion or policy determination.

.24 Any officer who is bypassed in accordance with these principles must, however, be kept informed. This may be done orally or by carbon copy, as the situation may require. The information notification must be transmitted without any delay to the officer concerned.

.25 Ordinary business may be conducted across bureau and office lines by "opposite numbers" each acting within the scope of his responsibility. This timesaving practice should be followed routinely on nonpolicy transactions, unless a specific transaction or a category of transactions is reserved for a higher official. Direct communication between opposite numbers is also encouraged during informal, developmental phases of interbureau or interoffice policy, program, and procedural planning. In such cases, the persons involved must not commit their principals without prior consultation.

814.3—FORMAL CHANNELS: HEADQUARTERS AND FIELD

.31 General authority and responsibility for field operations is vested in the Assistant Postmaster General, Bureau of Operations, who directly supervises the Regional Operations Director, evaluates his performance, and is his general point of contact with the Department. The formal and official channel of communication and authority from the Post Office Department in Washington to any regional management official, other than postal inspectors in charge, is from the Assistant Postmaster General, Bureau of Operations, to the appropriate Regional Operations Director. However, the Assistant Postmasters General, the General Counsel, the Chief Postal Inspector, and the Director of the Office of Research and Engineering will communicate directly with Regional Operations Directors on all matters on which they represent and act for the Postmaster General and will provide professional and technical leadership for the field activities in the areas of their responsibilities.

.32 The formal channel to a postmaster or to the head of any postal transportation service installation is through the Regional Operations Director.

.33 Formal communications from the field to Washington headquarters shall be through the same channels, in reverse, except that the Regional Operations Director should ordinarily address his own communications to the Assistant Postmaster General, Bureau of Operations.

814.4—FUNCTIONAL CHANNELS: HEADQUARTERS AND FIELD

.41 The formal lines of authority and communication governing the relationship of the Washington headquarters to the field establishment are necessary if the responsible officials are to be held administratively accountable. As a matter of practical operation, however, it is essential that abbreviated channels of communication be authorized in order to bring the several bureaus in Washington in close contact with their functional counterparts in the region. This is to provide direct technical guidance to regional officials.

.42 The Postmaster General relies on the heads of the various bureaus and offices to formulate the directives and guidances for the Regional Operations Directors and their staffs. Certain of these will be issued over the signature of the Postmaster General or the Deputy Postmaster General. As a matter of delegation at national headquarters, most communications from Washington will be issued over the signatures of the various bureau heads, covering matters within their jurisdiction. In any such case, the communication will have the same effect as though it were sent to the Regional Operations Director by the Postmaster General or his Deputy. In either event, the Regional Operations Director shall be responsible for performance.

.43 Functional staff officers may communicate directly with the corresponding functional bureau or staff office in headquarters. In addition, where specifically authorized in the Department's instructions, they may also directly contact supporting headquarters offices, such as General Counsel, Chief Postal Inspector, Research and Engineering, and Public Relations, on matters of a technical nature not requiring administrative judgment of the Regional Operations Director.

.44 Routine operating reports ordinarily will be sent directly to the respective bureaus and offices for analysis and consideration. The Regional Operations Director will make such additional reports direct to the Assistant Postmaster General, Bureau of Operations, as are required or as he may deem appropriate.

.45 There should be close liaison between the regional officials and the Inspection Service which, as an independent arm of the Postmaster General, does not come under the jurisdiction of the Regional Operations Director. The Inspection Service may be requested to make findings of fact and give recommendations on postal matters.

PART 815—REGIONAL ABBREVIATIONS AND NUMERICAL DESIGNATIONS

The following are the official abbreviations and numerical designations of the fifteen regions of the Post Office Department. They should be used, respectively, when abbreviations or numbers are employed to identify the regions. This does not permit the substitution of abbreviations or numbers in formal reports where names of regions should be used.

Region	Abbreviation	Number
Boston	BOS	1
New York	NY	2
Philadelphia	PHI	3
Cincinnati	CIN	4
Washington	WDC	5
Atlanta	ATL	6
Chicago	CHI	7
St. Louis	STL	8
Minneapolis	MIN	9
Wichita	WIC	10
Dallas	DAL	11
San Francisco	SF	12
Memphis	MEM	13
Denver	DEN	14
Portland	POR	15

NOTE: The official abbreviation for the word "region" will be RGN.

c. Part 824—Regional Organization, is amended to read as follows:

PART 824—REGIONAL OPERATIONS DIRECTOR

824.1 Assistant to Director.
824.2 Postal Installations Manager.
824.3 Distribution and Traffic Manager.
824.4 Controller.
824.5 Vehicle Manager.
824.6 Real Estate Manager.
824.7 Personnel Manager.
824.8 Engineer.

PART 824—REGIONAL OPERATIONS DIRECTOR

a. Directs and takes final action with respect to all aspects of postal management, operations, transportation, finance, engineering, equipment, supply, and facilities and personnel within his region except with respect to the work of the postal inspection service, internal auditors, the mail equipment shops, mail bag repair centers and depositories, supply centers, cartography section, postal equipment technicians, examiners of equipment and supplies, and the money order center, except as to specific matters reserved to the Postmaster General and to the bureaus and offices of the national headquarters.

b. Exercises direct supervision over all officers and employees within his region except as provided in 824a.

824.1—ASSISTANT TO DIRECTOR

Assists the Regional Operations Director in his responsibilities for maintenance of liaison with the general public, principal mail users, Members of Congress, other Federal agencies, local authorities and others; directs regional information activities and programs for the promotion of public cooperation.

824.2—POSTAL INSTALLATIONS MANAGER

a. Advises the Regional Operations Director on total program, organization and complement of all postal installations in the region, and general management of postal installations in the region; acts for the Regional Operations Director in his absence or at his direction.

b. Directs the execution of policies and procedures for:

(1) Organization and operation of postal installations.

(2) Collection and delivery of mail by city and rural carriers.

(3) Utilization of field service personnel in accordance with performance standards.

(4) Determination of space, equipment, and supply adequacy and availability.

(5) Utilization of vehicles in collection and delivery services.

824.3—DISTRIBUTION AND TRAFFIC MANAGER

a. Assists the Regional Operations Director in the general direction of all mail transportation activities within the region.

b. Directs intraregion transportation.

c. Executes policies for the utilization of transportation services; directs the operation of mobile distribution units; eliminates duplication between Government-owned and highway contract vehicles and services.

d. Maintains liaison with carriers; negotiates with common carriers for transportation of mail; and analyzes carrier claims, cites irregularities, and assesses fines.

e. Directs the distribution of mail; coordinates the routing of preferential and bulk mail.

f. Supervises the scheduling and utilization of all motor vehicle service within the region; determines type of vehicle service best suited to particular needs.

g. Develops distribution schemes; programs scheme examinations.

824.4—CONTROLLER

a. Advises and assists the Regional Operations Director in the general direction of all financial matters within the region.

b. Compiles and prepares the regional budget and maintains accounting records related to the control of funds; develops regional targets.

c. Evaluates and interprets operating conditions disclosed by accounting reports.

d. Makes unit cost studies and makes recommendations as a basis for effecting cost reductions.

e. Assures the security of funds, revenues, and assets.

f. Compiles accounting cost analyses, financial, and statistical reports for use in headquarters and regional decision-making.

g. Maintains general and cost ledgers for regional accounts; settles postmaster accounts; processes employee accounts; processes transportation payment claims.

h. Carries out regional disbursing functions.

i. Adjudicates and settles tort claims under $100 and postmasters' claims for unavoidable losses by fire, burglary, or casualty of $25 and under, in accordance with policies and standards prescribed by the General Counsel.

j. Adjudicates and settles postmasters' claims of $25 and under for physical losses and losses by improper payment, other than those covered in 824.4i, in accordance with policies and standards prescribed by the Assistant Postmaster General, Bureau of Finance.

k. Authorizes post office cash reserves and bank accounts up to $50,000.

l. Approves the payment of postal savings accounts of deceased or incompetent depositors to other than the depositor.

m. Designates and revokes post offices as postal savings depositories, United States savings bond issuing agents, and United States savings stamp offices.

n. Pays unclaimed postal savings accounts on application of depositor.

o. Administers lockbox rental matters other than misuse cases.

p. Determines extent of employee liability for loss of funds and stamps.

q. Designates assistant disbursing officers.

r. Designates new depository banks; establishes maximum and minimum balances; analyzes bank charges for depositories maintaining postal funds of under $50,000.

824.5—VEHICLE MANAGER

a. Advises and assists the Regional Operations Director in the general direction of the maintenance and repair of Government-owned vehicles and the procurement of vehicles for hire.

b. Advises the Regional Operations Director and members of his staff on technical personnel complements at vehicle maintenance facilities, and qualifications for technical personnel.

c. Advises the Regional Operations Director and members of his staff on establishment, management, and retention of vehicle maintenance facilities.

d. Administers departmental policy regarding procurement and disposal of vehicles.

e. Allocates Government-operated vehicles, on request, of the size and type to meet postal needs, as prescribed by operating staff.

f. Directs surveys to determine vehicle facility layouts and vehicle equipment requirements and makes appropriate recommendations.

g. Provides staff assistance in the automotive engineering and motor vehicle equipment specialist fields.

h. Directs surveys and initiates action to implement improvements in the garaging, repair, and maintenance of Government-owned vehicles.

i. Supervises the execution of policies and procedures for:

(1) The procurement of parts and supplies for the vehicle service.

(2) The repair and maintenance services in Government-operated vehicle maintenance facilities and maintenance service performed under contract by commercial garages.

824.6—REAL ESTATE MANAGER

a. Plans, organizes, directs and supervises the operation of the real property management program in the region. Supervises field work for that part of the real property management program directed by the Assistant Postmaster General, Bureau of Facilities.

b. Negotiates, commits, revises, executes, and terminates agreements for real estate facilities used by the Post Office Department under leases or rental agreements or through agreements with other Government agencies for space in Government-owned buildings.

c. Acquires control of real property through assignable options, approves for advertising purposes, and assigns such options to the successful bidder.

d. Prepares bidding documents including site and floor plans, elevations, and final construction requirements for leased postal facilities.

e. Plans and authorizes physical space assignments for other Federal agencies in Post Office Department operated Government-owned buildings.

f. Analyzes the buildings management program, including development and recommendation of standards for custodial operations.

g. Analyzes and administers the programs governing fuel and utilities consumption, communications services, and other building services.

h. Takes necessary action on deferred maintenance in all postal space and negotiates with General Services Administration or lessors for corrective measures.

i. Recommends to General Services Administration alterations, structural changes, and deferred maintenance to nonpostal space in Government-owned buildings operated by the Post Office Department.

j. Authorizes placement of vending stands, other than Post Office Department-owned, in post office lobbies.

824.7—PERSONNEL MANAGER

Assists the Regional Operations Director in the direction of all personnel management functions in the region, including recruitment, selection, and placement of personnel; training activities; labor relations; safety and health programs; classification of positions; awards and efficiency rating systems; review and disposition of disciplinary action; and liaison with the Civil Service Commission in the region.

824.8—ENGINEER

a. Serves as a principal staff adviser to and assists the Regional Operations Director, and other members of the Director's staff, on all engineering matters including the following responsibilities:

b. Analyzes regional postal operations to identify areas for reducing costs by installation of new or modified equipment, better utilization of space, improved work flow, and develops regional programs for their achievement.

c. Conducts regional facilities studies, recommends location and functional design; develops and recommends space layout and mechanization for new, and related modification to existing, postal facilities.

d. Inspects all completed leased structures, including alterations and improvements, to determine compliance with plans, specifications, and other standards; coordinates with regional General Services Administration employees on matters involving Government-owned buildings; and, based on these activities, makes recommendations for action.

e. Supervises the installation of production measurement, work simplification, carrier-vehicle, and related programs.

d. New Part 825—Services Officers, is added to Subchapter 820—Organization Statements, to read as follows:

PART 825—SERVICES OFFICERS

825.1—FIELD SERVICES OFFICERS

a. Takes action to improve mail service within the geographic area assigned to him.

b. Expedites the mail in transit within, emanating from, or entering his area.

c. Reviews service activities of all postal installations and contract operators, including star route and mail messengers, to assure effective operation.

d. Plans, develops, and revises methods and schedules for movement and distribution of mail within work area.

e. Acts as advisor to postal installation heads on all postal matters concerned with the efficient economical operation of their respective offices.

f. Serves as general representative of the Regional Operations Director; interprets regulations; and carries out such other specific assignments as are given him by the Regional Operations Director.

825.2—MOBILE SERVICES OFFICER

a. Responsible for: (1) transportation of mail on railway post offices, highway post offices, and closed pouch trains; (2) proper utilization of manpower, (3) proper utilization of space.

b. Exercises supervision over and is responsible for the efficient operations of these organizations which are engaged in the distribution and movement of mail.

c. Directs the supervisors in charge of the crews and determines the organization of the crews for each run, basing it on the volume of mail handled; makes changes in the organizations.

d. Participates with regional staff in line organization meetings.

e. Determines schemes examination requirements for each position in each crew; makes selections for all supervisory promotions; investigates and initiates disciplinary actions.

f. Determines the amount of space needed for each run, based on volume of mail carried.

g. Ascertains service irregularities occurring on railway post offices and highway post offices and takes appropriate action in each case.

h. Makes a continuous review of the distribution practices and procedures followed by railway post offices and highway post offices in order to expedite the distribution and movement of mail; recommends to the regional staff for approval changes in the distribution and routing patterns; coordinates with the field services officer the distribution and movement of mail between the railway post offices and highway post offices and the postal installations and of star and mail messenger routes.

(R. S. 161, 396, as amended; sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

[SEAL] HERBERT B. WARBURTON,
General Counsel.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

JULY 1958 MONTHLY SALES LIST

Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F. R. 6669) and subject to the conditions stated therein, the commodities listed below are available for sale in the quantities stated and on the price basis set forth. The Commodity Credit Corporation will entertain offers from prospective buyers for the purchase of any such commodity.

Available interest rates on sales made in July under the Export Credit Sales Announcement GSM 1 are as follows:

For periods up to and including 6 months, 1¾ percent per annum.

For periods over 6 months up to and including 18 months, 2¼ percent per annum.

For periods over 18 months up to and including 36 months, 2¾ percent per annum.

The Commodity Credit Corporation reserves the right, before making any sale, to define or limit export areas. Announcements containing the contractual terms and conditions of sale for the respective commodities will be furnished upon request. For ready reference a number of these announcements are identified by code number in the following list.

Commodity Credit Corporation also reserves the right to amend, from time to time, any of its announcements, which amendments shall be applicable to and be made a part of the sales contracts thereafter and entered into.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered promptly upon appearance by public notice issued by the appropriate CSS Commodity Offices and therefore generally they do not appear in the Monthly Sales List.

JULY 1958 MONTHLY SALES LIST

NOTICE TO BUYERS

On sales for which the buyer is required to submit proof to CCC of exportation, the buyer (1) shall be regularly engaged in the business of buying or selling commodities and, for this purpose, shall maintain a bona fide business office in the United States, its territories, or possessions and therein have a person, principal or resident agent, upon whom service of judicial process may be had, and (2) shall submit a financial statement, bank advice, surety bond or other evidence of financial responsibility as may be required by CCC.

Commodity	Sales price or method of sale
Dairy products	All sales are under LD-26. All sales are in carlots only. As many as 3 buyers may participate in purchasing a single carlot.
Butter	Domestic price: For unrestricted use price is "in store"[1] at storage locations of products. For restricted use price is on the basis of delivery f. o. b. cars at point of use named in offer. CCC will convert to "in store" price as provided in LD-26. Export prices are on the basis of delivery f. a. s. vessel or at buyer's option f. o. b. cars point of export. If delivery is to be "in store" CCC will convert to "in store" price as provided in LD-26. Submission of offers: For products in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington, submit offers to the Portland CSS Commodity Office. For products in other States and the District of Columbia, submit offers to the Cincinnati CSS Commodity Office. Domestic, unrestricted use: 68 cents per pound, New York, New Jersey, Pennsylvania, New England and other States bordering the Atlantic Ocean and Gulf of Mexico. 67¾ cents per pound, Washington, Oregon, and California. All other States, 67 cents per pound. Domestic, restricted use: For use as an extender for cocoa butter in the manufacture of chocolate and in such a manner as will not displace other dairy products from use in the manufacture of chocolate or in the manufacture of other products made from chocolate, 39 cents per pound. Export, unrestricted use: 39 cents per pound.
Nonfat dry milk, spray, roller (as available)	Domestic, unrestricted use: Spray process, U. S. Extra Grade; in barrels and drums, 16.25 cents per pound; in bags, 15.40 cents per pound. Roller process, U. S. Extra Grade; in barrels and drums, 14.25 cents per pound; in bags, 13.40 cents per pound. Domestic, restricted use (animal and poultry feed): In barrels, drums, or bags, 10.65 cents per pound. Export, unrestricted use: Spray or roller process, U. S. Extra Grade; in barrels and drums, 9.9 cents per pound; in bags, 9.05 cents per pound.
Cheddar cheese, cheddar, flats, twins, and rindless blocks (standard moisture basis).	Domestic: 39.5 cents per pound, for New York, New Jersey, Pennsylvania, New England, and other States bordering the Atlantic and Pacific and Gulf of Mexico. All other States, 38.5 cents per pound. Export: 22 cents per pound. Cheese prices are subject to usual adjustments for moisture content.
Cotton, upland	Domestic: Competitive bid and under the terms and conditions of Announcement NO-C-5, Revision I, but not less than the higher of (1) 105 percent of the current support price plus reasonable carrying charges, or (2) the domestic market price as determined by CCC. Export: Competitive bid and under the terms and conditions of Announcement CN-EX-4 and NO-C-9, as amended, and Announcement CN-EX-5 and NO-C-11.
Cotton, extra long staple	Domestic: Competitive bid and under the terms and conditions of Announcement NO-C-6, as amended, and NO-C-10, as amended, but not less than the higher of (1) 105 percent of the current support price plus reasonable carrying charges, or (2) the domestic market price as determined by CCC. Export: Competitive bid and under the terms and conditions of Announcement CN-EX-4, and NO-C-9, as amended, and NO-C-10, as amended. Catalogs for Upland and Extra Long Staple cotton showing quantities, qualities, and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office.
Peanuts	Domestic (for crushing) or export: Competitive bid basis for limited quantities announced by Peanut Cooperative Associations under CCC Peanut Announcement 1, as amended. Domestic, unrestricted use: Shelled (1956 crop in cold storage): Market price but not less than the 1956 applicable loan rate for type and grade basis in store point of origin, plus 5 percent, adjusted for milling, storage, and other charges. Example of minimum price at point of storage: Virginias, U. S. Grade, Extra large kernels, 26.90 cents per pound; Virginias, U. S. Grade, Medium, 25.40 cents per pound; S. E. Runner, U. S. Grade No. 1, 24.40 cents per pound. Available Dallas CSS Commodity Office.
Wheat, bulk	Domestic: Commercial wheat-producing area: Market price, basis in store,[2] but not less than the 1958 applicable loan rate, plus (1) 16 cents per bushel if received by truck or (2) 11 cents per bushel if received by rail or barge. Examples of the foregoing minimum per bushel (ex-rail or barge): Chicago, No. 1 RW, $2.26; Minneapolis, No. 1 DNS, $2.31; Kansas City, No. 1 HW, $2.26. Noncommercial wheat-producing area: Market price, basis in store,[2] but not less than 133 percent of applicable 1958 county loan rate plus (1) 16 cents per bushel if received by truck, or (2) 11 cents per bushel if received by rail or barge. If delivery is outside the area of production, applicable freight will be added to the above. Export (as wheat): Under Announcement GR-261 revised, as amended for application to certain barter contracts and specially approved credit sales only at prices determined daily, and under Announcement GR-212 revised, amended, for specific offerings as announced. Disposals under Payment-in-Kind program under Announcement GR-345. Available Dallas, Evanston, Minneapolis, Kansas City, and Portland CSS Commodity Offices for domestic or export sale, except under GR-345 at Dallas and Evanston, and Portland when announced.
Corn, bulk	Domestic: Commercial corn-producing area: Market price, basis in store,[2] but not less than the 1957 applicable loan rate for corn produced in compliance with 1957 acreage allotments plus: (1) a markup of 22 cents per bushel for corn in storage at point of production, (2) a markup of 24 cents per bushel and the rail freight (including transportation tax) from point of production to the present point of storage for corn in storage at other than point of production. Examples of the foregoing minimum price per bushel for No. 2 yellow corn, 13.3 percent moisture and 1.4 percent foreign material including average paid-in freight from Woodford County, Ill., to Chicago and Redwood County, Minn., to Minneapolis, respectively: Chicago, $1.82¾; Minneapolis, $1.77¼. Noncommercial corn-producing area: Market price, basis in store,[2] but not less than 110 percent of the applicable 1957 loan rate plus markups as above. Available Evanston, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices. Nonstorable corn, unrestricted use (as available): At other than bin sites, through the above offices. At bin sites, through ASC county offices. Export: Under Announcement GR-212 revised, amended, for application to barter contracts and approved credit sales, and under Announcement GR-368, for Feed Grain Payment-in-Kind program.

See footnotes at end of table.

JULY 1958 MONTHLY SALES LIST—Continued

Commodity	Sales price or method of sale
Rice, rough	Domestic, unrestricted: Market price but not less than the 1958 applicable loan rate plus 5 percent, plus 61 cents per hundredweight basis in store. Price and quantities available by varieties may be obtained from Dallas CSS Commodity Office or from Portland CSS Commodity Office for Pearl and Calrose.
Dry edible beans (bagged) (as available).	Export, For export as milled rice. Competitive bid as announced by Dallas CSS Commodity Office. FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 12310, etc.; FCC 58M-719]

ENTERTAINMENT SERVICE, INC., ET AL.

ORDER CONTINUING HEARING

In re applications of Entertainment Service, Inc., Solvay, New York, Docket No. 12310, File No. BP-10868; Joseph A. Marturano and Philip S. Marturano, d/b as Rome Community Broadcasting Company, Rome, New York, Docket No. 12311, File No. BP-11262; James A. McKechnie, North Syracuse, New York, Docket No. 12312, File No. BP-11329; for construction permits.

The Hearing Examiner having under consideration a motion filed on July 3, 1958, by counsel for Entertainment Service, Inc., one of the applicants, requesting that the schedule of dates for exchange of direct affirmative case, further prehearing conference, and commencement of hearing previously fixed, be continued indefinitely; and,

It appearing, that counsel for the other parties, including the Broadcast Bureau, have informally agreed to the immediate grant of the motion, and good cause has also been shown for its grant;

It is ordered, This 3d day of July 1958, that the motion be and the same is hereby granted; and, accordingly, the dates for exchange of direct affirmative case, the further prehearing conference and commencement of the hearing are continued to dates to be fixed in a subsequent order.

Released: July 7, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 58-5308; Filed, July 10, 1958; 8:51 a. m.]

[Docket Nos. 12510, 12511; FCC 58-627]

ROBERT S. PLIMPTON AND SEAWAY BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re Applications of Robert S. Plimpton, Norfolk, New York, Docket No. 12510, File No. BP-11467; Seaway Broadcasting Co., Inc., Massena, New York, Docket No. 12511, File No. BP-12026; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 2d day of July 1958;

The Commission having under consideration the above-captioned applications of Robert S. Plimpton and Seaway Broadcasting Co., Inc. for construction permits for new standard broadcast stations to operate on 1050 kilocycles with a power of 1 kilowatt, daytime only, at Norfolk and Massena, New York, respectively;

It appearing that, except as indicated by the issues specified below, both applicants are legally, technically, financially, and otherwise qualified to construct and operate their proposed stations but that operation of both stations would result in mutually destructive interference; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applicants were advised by letter dated June 5, 1958 of the aforegoing deficiency and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that timely replies were received from both applicants; and

It further appearing that on June 12, 1958, Seaway Broadcasting Co., Inc. amended its application to specify a new antenna site; and that it has not been determined yet whether the antenna system as proposed would constitute a hazard to air navigation; and

It further appearing that the Commission, after consideration of the foregoing, is of the opinion that a hearing on the instant applicants is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the instant proposals, and the availability of other primary service to such areas and populations.

2. To determine whether the antenna system proposed by Seaway Broadcasting Co., Inc. would be a hazard to air navigation.

3. To determine, in the light of the nature of the respective operations proposed and of the areas and populations to be served, together with the other evidence adduced under issue 1, supra, whether considerations with respect to section 307 (b) of the Communications Act of 1934, as amended, are applicable to the above-entitled proceeding, and, if so, whether a choice between the applications hereon can be reasonably based thereon and, if so, whether a grant to either applicant would provide the more fair, efficient and equitable distribution of service to the communities involved.

4. To determine on a comparative basis, in the event that pursuant to the foregoing issue it is determined that 307 (b) considerations are inapplicable, which of the instant proposals would better serve the public interest, convenience and necessity in the light of the evidence adduced under the issues herein and the record made with respect to the significant differences between the two applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate the proposed standard broadcast station.

(b) The proposal of each with respect to the management and operation of the proposed station.

(c) The programming services proposed in each of said applications.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the instant proposals should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the instant applicants pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order; and

It is further ordered, That the issues in this proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give assurance that the proposals set forth in the application will be effectuated.

Released: July 8, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 58-5309; Filed, July 10, 1958; 8:52 a. m.]

[Docket Nos. 12512, 12513; FCC 58-629]

BALTIMORE BROADCASTING CORP. AND COMMERCIAL RADIO INSTITUTE, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Baltimore Broadcasting Corporation, Baltimore, Maryland, Docket No. 12512, File No. BPH-2384; Commercial Radio Institute, Inc., Baltimore, Maryland, Docket No. 12513, File No. BPH-2415; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1958;

The Commission having under consideration the above-captioned applications of the Baltimore Broadcasting Corporation and the Commercial Radio Institute, Inc., for construction permits for new Class B FM broadcast stations to operate on 93.1 megacycles, Channel No. 226, in Baltimore, Maryland;

It appearing, that both of the applicants are legally, technically, financially and otherwise qualified to operate their proposed stations, but that the operations of both stations as proposed would result in mutually destructive interference, and it has not yet been determined if the proposed antenna structure of the Commercial Radio Institute, Inc., would constitute a hazard to air navigation; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated April 29, 1958, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing, that both applicants replied, indicating that they would appear at a hearing on their applications; and

It further appearing, that the Commission, after consideration of the above is of the opinion that a hearing on these applications is necessary; and

It further appearing that the Baltimore Broadcasting Corporation, licensee of standard broadcast Station WCBM, Baltimore, Maryland, proposes to mount the FM antenna on the No. 2 tower of the directional antenna system of Station WCBM; and

It further appearing, that the Commercial Radio Institute, Inc., proposes an RCA, Type No. BTF-5B, 5-kw transmitter which has not been type accepted by the Commission;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate its proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

2. To determine whether the antenna structure proposed by the Commercial Radio Institute, Inc., would constitute a hazard to air navigation.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.140 (c) of the Commission's rules, in person or by an attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That in the event of a grant of the application of the Baltimore Broadcasting Corporation the construction permit shall contain a condition requiring that Station WCBM request permission from the Commission to determine power of WCBM by the indirect method; that during the installation period of the FM antenna WCBM shall maintain the directional antenna system as closely as possible to values appearing in the license; and that upon completion of the installation WCBM shall submit sufficient data to show that the directional antenna pattern remains substantially unchanged, but if there is any change in the antenna or common point resistance, WCBM shall submit Forms 302 to report the change.

It is further ordered, That in the event of a grant of the application of the Commercial Radio Institute, Inc., the construction permit shall contain a condition requiring the submission of sufficient data in accordance with § 3.250 of the Commission's rules for type acceptance of the transmitter.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon a sufficient allegation of facts in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: July 8, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 58-5310; Filed, July 10, 1958; 8:52 a. m.]

[Docket No. 12517; FCC 58-636]

FM BROADCAST STATIONS

NOTICE OF INQUIRY REGARDING SPECIFIED NON-BROADCAST ACTIVITIES ON A MULTIPLEX BASIS

In the matter of inquiry into amendment of Parts 2, 3, and 4 of the Commission's rules and regulations and the Standards of Good Engineering Practice concerning FM Broadcast Stations to permit FM Broadcast Stations to engage in specified non-broadcast activities on a multiplex basis.

1. On March 16, 1955, the Commission adopted a Report and Order (Docket 10832) amending certain of its rules and regulations to permit FM broadcast stations to engage in specialized non-broadcast activities on a simplex and/or multiplex basis. In that Report and Order, the Commission set forth its view that functional music operations are not broadcasting within the meaning of section 3 (o) of the Act but should be authorized as "an adjunct to the FM broadcast operation" so that the latter may draw financial sustenance from them. To that end, the Commission permitted FM licensees to obtain Subsidiary Communications Authorizations (SCA) to engage in certain types of activities, typified by the functional music operation, on a simplex basis during the time not devoted to the required minimum of 36 hours of FM broadcasting, or on a multiplex basis at any time.

2. The Commission's Order confined the subsidiary or secondary authorizations to limited types of non-broadcast services. These were described as involving specialized programming consisting of news, music, time, weather, etc. The Report and Order stated as follows: "The revisions here adopted are novel ones: We feel it best to proceed slowly. As presently set up, the SCA is limited to transmissions similar to those conducted under present functional music operations. We believe it desirable at the inception of this service that the character of the specialized operation not run completely counter to that of a broadcast operation. In reaching this result we want to make it clear that should the need be shown, we may permit wider use of the SCA at some later date—perhaps on a multiplex basis or only after the passage of the one-year period. For the present, however, we adhere to the limitation set out in the Notice."

3. Since the implementation of the provision for Subsidiary Communications Authorizations, interest in other uses of multiplexing on FM broadcast stations has steadily grown. Many of the proposed uses contemplate additional sources of revenue for the licensees of FM broadcast stations. Some view multiplexing as an economical means of obtaining a specialized radio communications service. The users run the gamut from price quotations for super markets, slow-scan video transmission of advertisements, and stock market reports to doctor paging services and traffic light control. Stereophonic broadcasting has been proposed both as an improved aural broadcasting system and as a type of subsidiary communications similar to that which may now be offered on a subscription basis.

4. The Commission is of the opinion that the question of additional uses of multiplexing on FM broadcast stations to provide various forms of communication should be reexamined at this time to determine, in light of our experience over the past three years, whether such additional uses are feasible, appropriate, and should be permitted in the FM broadcast band. Before deciding upon the most appropriate Commission action to resolve this problem (i.e., by the institution of rule-making or by some other procedure), we believe that it would be appropriate and useful to afford all interested parties an opportunity to submit such data and views as they feel should be taken into account.

5. Written comments may be filed on or before September 2, 1958, in an original and 14 copies. Authorization for the institution of this proceeding is found in section 403 of the Communications Act of 1934, as amended. Data and views are desired, in particular, on the following issues:

(a) What limitation, if any, should the Commission impose upon the types of subsidiary communications which an FM station may provide?

(b) Should an FM station be permitted to use subsidiary communications for relay purposes?

(c) Should the number of subsidiary communications channels employed by a single FM broadcast station be limited, and, if so, what should be the limit?

(d) To what extent, if any, should subsidiary communications be permitted to affect the quality of the broadcast channel?

(e) Should specific sub-channel frequencies be allocated for subsidiary purposes? What quality and performance standards should be applied to the sub-channels?

(f) Should an FM broadcast station be permitted to transmit subsidiary communications at times when it is not providing a broadcast service on its main channel?

(g) To what extent should we permit a license holder to enter into contracts or arrangements with other parties to provide program material for subsidiary communications or to lease the rights to the multiplex channels?

Adopted: July 2, 1958.

Released: July 8, 1958.

ATOMIC ENERGY COMMISSION

[Docket No. 50-98]

UNIVERSITY OF DELAWARE

NOTICE OF ISSUANCE OF FACILITY LICENSE

Please take notice that no request for a formal hearing having been filed following the filing of notice of the proposed action with the Federal Register Division on June 17, 1958, the Atomic Energy Commission has issued License R-43 authorizing the University of Delaware to acquire, possess and operate on its campus in Newark, Delaware, a 100-milliwatt nuclear reactor which has been designated by the manufacturer as Model AGN-201, Serial No. 113. Notice of the proposed action was published in the FEDERAL REGISTER on June 18, 1958, 23 F. R. 4387.

Dated at Germantown, Md., this 3d day of July 1958.

For the Atomic Energy Commission.

E. R. PRICE,
Acting Director, Division of Licensing and Regulation.

FEDERAL POWER COMMISSION

[Docket No. G-12361]

ALABAMA-TENNESSEE NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

JULY 7, 1958.

Take notice that on April 8, 1957, Alabama-Tennessee Natural Gas Company (Applicant), a Delaware corporation, having its principal place of business in Florence, Alabama, filed in Docket No. G-12361, an application, pursuant to section 7 (c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities as follows:

(1) Approximately 5.64 miles of 10-inch transmission pipeline looping its existing 6-inch mainline between Decatur and Huntsville, Alabama.

(2) A 350 horsepower compressor unit to be installed on the main system in Limestone County, Alabama.

(3) Approximately 0.8 of a mile of 6-inch lateral pipeline and a measuring station, to deliver up to 1500 Mcf of natural gas per day to the Ford Motor Company aluminum die casting plant near Muscle Shoals, Alabama.

The estimated cost of the proposed facilities is $318,000, which costs are to be financed partly by a bank loan, partly by an advance from the customer, Ford Motor Company, and from company funds; all as more fully described in the application on file with the Commission and open to public inspection.

Applicant represents that the proposed facilities are necessary to enable it to meet the immediate future requirements of its customers engaged in the resale of natural gas to domestic, commercial and industrial customers and a new industrial plant.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on August 11, 1958 at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings, pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before July 18, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-5284; Filed, July 10, 1958; 8:46 a. m.]

[Docket No. G-13254]

JOSEPH I. O'NEILL, JR.

ORDER AMENDING ORDER FIXING DATE OF HEARING

JULY 7, 1958.

By order issued on June 3, 1958, in the above-entitled proceeding published in the FEDERAL REGISTER on June 7, 1958 (23 F. R. 4019-4020) a hearing was scheduled in the said proceeding for 10:00 a. m., e. d. s. t., on July 10, 1958, as provided for in paragraph (A) thereof.

The Commission finds: Paragraph (A) of the said order issued on June 3, 1958 and published as above stated should be amended to provide as follows:

Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 10, 1958 at 9:30 a. m. e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

The Commission orders: Paragraph (A) of the order fixing date of hearing in the above entitled proceeding is hereby amended to read as stated in the above finding.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-5285; Filed, July 10, 1958; 8:46 a. m.]

[Project No. 2245]

HARRISON COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION NO. 89

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JULY 7, 1958.

Public notice is hereby given that Harrison County Rural Electric Membership Corporation No. 89, of Corydon, Indiana, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for a preliminary permit for proposed water-power Project No. 2245 to be located on the Ohio River at the proposed U. S. Government Navigation Dam and Lock above Cannelton, Indiana, in Perry County, Indiana, affecting navigable waters of the United States. The proposed project would consist of a powerhouse located at the Indiana end of the Cannelton Dam with an ultimate installed capacity of 80,000 kw.

No construction is authorized under a preliminary permit. A permit, if issued, merely gives permittee, during the period of the permit, the right to priority of application for license while the permittee undertakes the necessary studies and examinations, including the preparation of maps and plans, in order to determine the economic feasibility of the proposed project, the means of securing the necessary financial arrangements for construction, the market for the project power, and all other information necessary for inclusion in an application for license, should one be filed.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is August 15, 1958.

The application is on file with the Commission for public inspection.

SAINT LAWRENCE SEAWAY DEVELOPMENT CORPORATION

RULES FOR CONDUCT OF HEARING

1. The Administrator will personally conduct the Hearing.

2. Any interested person, or business entity, may appear directly, by attorney or other representative, as a witness or participant at the Hearing, or may submit written facts or argument.

3. Persons or business entities desiring to participate in the Hearing must file an Entry of Appearance, at least seven calendar days before the date scheduled for Hearing with the General Counsel of the Corporation. No special form for the Entry of Appearance is required and it may be made by letter or telegram. The Entry of Appearance will give the name and address of the person appearing, the name and address of the person or business entity to be represented, the name and address of the witnesses to be offered (if other than the person making the appearance) and, a brief summary (in 10 legible copies) of the material to be presented and the argument to be made. The summary is for the purpose of scheduling witnesses on the same subject so that they may appear, as nearly as practicable, at the same time, and to form a basis for questioning by the Administrator or the General Counsel to the extent that they deem such questioning necessary to make an adequate record for decision. The summary will also be used as a basis on which the General Counsel may suggest to interested parties that the proposed testimony is being duplicated or cumulative.

4. Persons or business entities who desire to be heard may file a written statement, but those who do not desire to be present in person or by their own representative may submit to the General Counsel of the Corporation in writing (in 10 legible copies), seven calendar days before the scheduled Hearing date, the material or argument which they desire to have presented and the General Counsel will introduce it into the record for them. Such material or argument is subject to rejection by the Administrator, on the recommendation of the General Counsel, if it is held to be scurrilous or defamatory, irrelevant or immaterial.

5. The names of the proposed witnesses and the summary of their proposed evidence should be submitted to the General Counsel of the Corporation within the time limit set out above and plainly marked "Brief Summary on the Rules of Measurement and Toll Hearings" pursuant to paragraph 3 of these Hearing Rules. The written statements, to be presented pursuant to paragraph 4 of these Hearing Rules, should be submitted to the General Counsel of the Corporation within the time limit set out above and plainly marked "Statement of Evidence and Views for Rules of Measurement and Toll Hearings." Supplementary statements or arguments filed after the hearing pursuant to paragraph 11 of the Hearing Rules shall be filed with the General Counsel of the Corporation within the time limit set out and should be plainly marked "Supplementary Statement or Argument for Rules of Measurement and Toll Hearings."

6. The facts and arguments which are relevant and material to the actual Hearing issues will be admitted into the record by the Administrator. Rulings on relevancy and materiality will be made during the Hearing as required by the Administrator. No evidence or argument will be received on proposed amendments to United States statutes.

7. The Administrator will at the beginning of the Hearing recognize the Corporation's General Counsel who will:

(a) Offer for the record the recommendations and report of the United States Toll Committee and such other evidence as seems necessary or desirable for the purpose of making an adequate record on which decisions may be reached in respect to proposed tolls and germaine matters contained in the tolls committee report.

(b) Offer for the record such written statements as are determined to be proper under these rules as requested by persons or business entities requesting him to do so, and who are not present in person or by their own representative;

(c) Ask such other questions as suggested by the Administrator, or other persons, as appears necessary to complete the record; and

(d) Call the witnesses on a previously prepared schedule.

8. The Administrator will not recognize a right on the part of any participant to cross-examine other participants or witnesses but any person or business entity who has properly filed a timely Entry of Appearance may submit to the General Counsel questions he desires asked of particular witnesses. The Administrator or the General Counsel will ask such of those questions as appear desirable in their discretion.

9. The General Counsel may call witnesses, and in his discretion, may call upon persons who served as members of the United States Toll Committee to explain or augment such parts of their recommendations and report as may seem appropriate in the light of facts submitted or arguments made during the Hearing.

10. The Administrator may recess the Hearing from day to day and otherwise, as he deems expedient. Subject to the exigencies of the Hearing, he will endeavor to commence each day's Hearing at 10:00 a. m., recess at noon from 12:00 p. m. and adjourn for the day at 4:30 p. m.

11. Supplementary statements or arguments (in 10 legible copies) may be filed with the General Counsel of the Corporation within fifteen days after the close of the Hearing by any person who either submitted written statements or made oral presentations at the Hearing. Such material or argument is subject to rejection by the Administrator in whole or in part on the recommendation of the General Counsel, if it is held to be irrelevant or immaterial. Such statements which are not rejected will be made a part of the record of Hearing.

12. A transcript of the Hearing will be made for the use of the Corporation; participants and others may make arrangements with the General Counsel for copies. A charge will be made for the transcript.

LEWIS G. CASTLE, *Administrator.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1160]

AMERICAN-SOUTH AFRICAN INVESTMENT TRUST, LTD.

NOTICE OF APPLICATION BY INVESTMENT COMPANY ORGANIZED IN THE UNION OF SOUTH AFRICA FOR ORDER PERMITTING ITS REGISTRATION AND SALE OF ITS SECURITIES IN THE UNITED STATES AND ORDER FOR HEARING THEREON

JULY 3, 1958.

Notice is hereby given that American-South African Investment Trust, Ltd. ("Applicant"), an investment company chartered under The Companies Act of 1926 of the Union of South Africa ("South Africa"), has filed an application, under section 7 (d) of the Investment Company Act of 1940 (the "act") seeking an order of the Commission permitting Applicant to register as an investment company under the act and to make a public offering of its securities in the United States.

Section 7 (d) of the act, among other things, prohibits a foreign investment company from selling its securities to the public through the mails or any means or instrumentalities of interstate commerce unless the Commission, upon application, issues a conditional or unconditional order permitting such company to register under the act and to make a public offering of its securities in the United States. To issue such an order the Commission must find that, by reason of special circumstances or arrangements, it is both legally and practically feasible effectively to enforce the provisions of the act against such company and that the issuance of such order is otherwise consistent with the public interest and the protection of investors.

Applicant has been organized for the purpose of engaging in business as a closed-end diversified management investment company investing, in the main, in the securities of South African companies engaged in gold mining and related activities. Applicant may also invest, to a limited extent, in gold bullion.

The presently authorized capital stock of Applicant consists of one hundred shares of £10 par value. All shares have equal voting rights and will entitle the holder to one vote in the election of directors and all other matters. Applicant contemplates making a public offering in the United States of its common stock, through an underwriting group managed by Dillon Read & Co., Inc., to obtain at least $30,000,000 for its investment purposes.

Applicant has made undertakings and agreements which together with the provisions of the Applicant's Memorandum of Association ("charter") and Articles of Association ("by laws"), The South African Companies Act of 1926 and its common law, are submitted by the Applicant as special circumstances and arrangements justifying the entry of the requested order. Applicant alleges that, in addition to the undertakings and agreements provided for by Rule N-7D-1 applicable to Canadian investment companies, it has provided other undertakings and agreements in the protection of investors and as further assurance of the enforceability of the act against the Applicant.

The Applicant's charter and by-laws taken together contain, in substance and effect, the substantive provisions of the act applicable to closed-end investment companies, which provisions the Applicant has agreed may be enforced as a matter of contract right in the United States and South Africa by Applicant's shareholders.

Applicant's by-laws also contain, among other things, provisions summarized as follows: (1) That all of its securities and cash, other than cash in an amount not in excess of $75,000, will be maintained in the custody of a bank in the United States; (2) that not less than 60 percent of Applicant's directors must be citizens and residents of the United States; (3) that not less than a majority of Applicant's executive officers, including the Chairman of the Board, must be citizens and residents of the United States; (4) that Applicant will retain an independent public accountant with a permanent office and place of business in the United States; (5) that Applicant's investment adviser will maintain its books and records relating to Applicant, or duplicate copies thereof, in the United States; (6) that Applicant's principal underwriter will be a resident and citizen of the United States or a corporation organized under the laws of a state of the United States and having its principal place of business therein; and (7) that Applicant will maintain the original or duplicate copies of all its books and records at the office of its custodian or other office located within the United States.

Applicant has undertaken and agreed in its application, among other things, (i) that its charter and by-laws will not be changed in any manner inconsistent with act or the rules and regulations thereunder or the undertakings and agreements contained in the instant application without permission of the Commission; (ii) that Applicant's present and future officers, directors, investment advisers, principal underwriters and custodian will enter into agreements to comply with the act, Applicant's charter, by-laws, and undertakings and agreements contained in the instant application insofar as applicable to such persons and to do nothing inconsistent with such undertakings and agreements; (iii) that the aforesaid agreements as well as those of Applicant shall enure to the benefit of Applicant's shareholders as parties and beneficiaries; (iv) Applicant's custodian will maintain a list of the affiliated persons of Applicant, its officers, directors and investment adviser, and will not consummate any otherwise prohibited transaction with such persons unless specifically permitted by order of this Commission; (v) all of Applicant's shareholders meetings will be held in the United States, and Applicant will maintain in the United States a transfer agent and registrar, (vi) Applicant will apply to the New York Stock Exchange for listing of its shares; and (vii) that breach of the aforesaid agreements or violation of the act by any of the contracting parties will permit revocation of the requested order and the liquidation and distribution of Applicant's assets.

Other agreements and undertakings contained in the application are designed to facilitate the judicial enforcement of the act by the Commission or Applicant's shareholders in appropriate courts of the United States or South Africa. To that end each of the contracting parties who are not citizens and residents of the United States will appoint, irrevocably, an agent within the United States for service of process. To ensure the applicability of the act to purchases and sales of portfolio securities not made on established securities exchanges, Applicant has agreed that its custodian will consummate such transactions only in the United States and that the mails or means of interstate commerce will be employed.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the application pursuant to sections 7 (d);

It is ordered, Pursuant to section 40 (a) of the act, that a hearing on the aforesaid application under the applicable provisions of the act and of the rules of the Commission thereunder be held on the 23d day of July 1958, at 10:00 a. m., in the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At such time the Hearing Room Clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in the proceedings is directed to file with the Secretary of the Commission his application as provided by Rule XVII of the Commission's rules of practice, on or before the date provided in the rule setting forth any issues of law or fact which he desires to controvert or any additional issues which he deems raised by this notice and order or by such application.

It is further ordered, That Sidney Feiler, or any officer or officers of the Commission, designated by it for that purpose, shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the application and that upon the basis thereof the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether, in light of the provisions of Applicant's charter, by-laws, agreements and undertakings, the South African Companies Act of 1926 and the South African common law, there exist such special circumstances or arrangements, as to make it legally and practically feasible effectively to enforce the act against Applicant.

(2) Whether entry of the requested order is consistent with the public interest and the protection of investors in light of the stated special circumstances and proposed special arrangements.

(3) Whether it is necessary or appropriate in the public interest and the protection of investors to attach terms and conditions to the requested order and, if so, the nature of such terms and conditions.

It is further ordered, That at the aforesaid hearing attention be given to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by registered mail to Applicant, that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER, and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the mailing list for releases.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

"SHELL" TRANSPORT AND TRADING CO., LTD.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

JULY 7, 1958.

In the matter of application by the Pacific Coast Stock Exchange for unlisted trading privileges in the "Shell" Transport and Trading Company, Ltd., New York shares; File No. 7-1927.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before July 18, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

[Standard Practice Letter No. 4]

PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

COMPUTATION OF AVAILABLE CAPACITY

The Uniform System of Accounts and Reports requires that each air carrier file with the Civil Aeronautics Board a detailed statement of its present methods and any subsequent changes thereto in computing available ton-miles and available seat-miles for each aircraft type operated. The primary objective of the foregoing provision is to ensure comparability of the capacity data reported by the several carriers.

Statements initially filed by the carriers in accordance with the foregoing requirement have varied considerably as to scope and detail, resulting in difficulty of interpretation and causing burden to both the carriers and Board staff in preparing and using the statements. Therefore, under date of May 22, 1957, certain standard practices and a standard format, directed toward simplifying the presentation of the required statement, were circulated to the industry for comment. After careful review of the comments submitted and further consideration of the needs of the Board in this matter, the proposed standard practices and format are hereby revised (a) to exclude free baggage in computing passenger compartment capacity and (b) to limit filing of the form to one sample for each aircraft type where Form 41 data are based upon actual capacity for each individual hop rather than upon standards reflecting average conditions for the aircraft type.

As provided in the system of accounts, the computation of available seat-miles should be based upon direct airport-to-airport mileage between points served and the number of installed seats including lounge seats less any seats not available because of safety restrictions or priority mail loads. Similarly, the computation of available ton-miles should be based upon airport-to-airport mileage and the capacity available to traffic.

The over-all capacity of aircraft, for computing available seat-miles and available ton-miles, is controlled by the lower of (1) the capacity computed under the weight basis or (2) the capacity computed under the space basis as illustrated by the attached format. The average lift potential of the aircraft, giving effect to operating limitations, is reflected by the weight basis computation, whereas the space basis computation reflects limitations upon the average lift potential due to configuration, traffic density and available cubic space.

For these purposes the standards prescribed in the manual or otherwise approved for passenger and free baggage weight should be used. Individual carrier standards may be used for the number of installed seats, aircraft lift potential, cargo density, etc., provided that the standards are based upon representative experience, that separate standards are developed, as appropriate, for different classes of traffic and types of aircraft, and that the manner of determining each standard is fully explained in statements filed in conformance with § 241.22 (d) (10) (section 22.4 of the manual).

The objective of the attached format is to express on a uniform basis the average characteristics of each aircraft type used by the several carriers. Standards may be adopted to reflect operations for an entire year, part of a year, trip direction or other refinement. However, the data need be provided for only one representative sample of such refinement and the other seasonal or directional standards listed in such manner as to reveal the scope of variation in available seats and tons for the aircraft type. Where standard capacities are not used, the data should be provided for a representative illustration of one inter-airport hop for each aircraft type and each aircraft seating arrangement.

Therefore, pursuant to duly delegated authority as set forth in Public Notice 12, (23 F. R. 2946) effective May 1, 1958, the information indicated in the attached format[1] shall be presented as a matter of standard practice, to comply with the requirements of § 241.22 (d) (10) (section 22.4 of the manual) calling for statements on methods of computing

[Amdt. 79]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedures appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (L/MFR, ADF, VOR, TerVOR, VOR/DME, ILS, or RADAR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low or medium frequency range procedures prescribed in § 609.100 (a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine more than 65 knots
					65 knots or less	More than 65 knots	
PROCEDURE CANCELLED, EFFECTIVE 16 JUNE 1958.

5. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 144]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.444 *Valencia Orange Regulation 144*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 10, 1958.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., July 20, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 646,800 cartons;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 11, 1958.

[SEAL] FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-5413; Filed, July 11, 1958; 11:19 a. m.]

[Plum Order 18]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.601 *Plum Order 18*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 8, 1958.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship any package or container of Diamond plums unless such plums grade at least U. S. No. 1; and,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, seventy-five (75) percent, by count, of the plums measure not less than one and ten-sixteenth ($1^{10}/_{16}$) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than thirty-seven and one-half ($37\frac{1}{2}$) percent, by count, of plums which measure less than one and ten-sixteenth ($1^{10}/_{16}$) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed twenty-five (25) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a $7\frac{1}{2}$-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520–1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "$7\frac{1}{2}$-row standard pack" shall mean that the top layer of the pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "$8\frac{1}{2}$-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Plum Order 19]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.602 *Plum Order 19*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was

hold, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 8, 1958.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship from any shipping point during any day any package or container of Late Santa Rosa plums unless such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and, except to the extent otherwise permitted under this paragraph,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, sixty-six and two-thirds (66⅔) percent, by count, of the plums measure not less than one and thirteen-sixteenth ($1^{13}/_{16}$) inches in diameter: *Provided,* That, individual containers in any lot may contain not more than fifty (50) percent, by count, of plums which measure less than one and thirteen-sixteenth ($1^{13}/_{16}$) inches in diameter, if the average percentage of such smaller sized plums in all containers in such lot does not exceed thirty-three and one-third (33⅓) percent: *And provided further,* That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) During each day of the aforesaid period, any shipper may ship from any shipping point a quantity of such plums, by number of packages or containers, which are of a size smaller than the size prescribed in subparagraph (1) of this paragraph if said quantity does not exceed thirty-three and one-third (33⅓) percent of the number of the same type of packages or containers of plums shipped by such shipper which meet the size requirement of said subparagraph (1) of this paragraph and all such smaller plums meet the following applicable requirements:

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 5 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, seventy-five (75) percent, by count, of the plums measure not less than one and ten-sixteenth ($1^{1}/_{16}$) inches in diameter: *Provided,* That, individual containers in any lot may contain not more than thirty-seven and one-half (37½) percent, by count, of plums which measure less than one and ten-sixteenth ($1^{1}/_{16}$) inches in diameter, if the average percentage of such smaller sized plums in all containers in such lot does not exceed twenty-five (25) percent: *And provided further,* That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7½-row standard pack, they shall be deemed to meet the minimum requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(3) If any shipper, during any day of the aforesaid period, ships from any shipping point less than the maximum allowable quantity of such plums that may be of a size smaller than the size prescribed in subparagraph (1) of this paragraph, the quantity of such undershipment may be shipped by such shipper only from such shipping point during the next 2 succeeding calendar days: *Provided,* That, shipment is also made on the particular calendar day by such shipper of the full quantity of such smaller sized plums such shipper is authorized to ship on such day under subparagraph (2) of this paragraph.

(4) When used in this section, "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520–1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7½-row standard pack" shall mean that the top layer of the pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "8½-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(5) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[Plum Order 20]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.503 *Plum Order 20*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this

section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 8, 1958.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship any package or container of Late Tragedy plums unless such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade: *Provided*, That, gum spots which do not cause serious damage shall not be considered as a grade defect with respect to such grade; and

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 6 x 6 standard pack;

(ii) If the plums are packed in any container other than a standard basket, sixty-six and two-thirds (66⅔) percent, by count, of the plums measure not less than one and six-sixteenth (1 6/16) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than fifty (50) percent, by count, of plums which measure less than one and six-sixteenth (1 6/16) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed thirty-three and one-third (33⅓) percent; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "U. S. No. 1," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520–1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.604 *Plum Order 21*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 8, 1958.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship any package or container of Kelsey plums unles such plums grade at least U. S. No. 1 with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade; and,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 4 standard pack;

(ii) If the plums are packed in any container other than a standard basket, seventy-five (75) percent, by count, of the plums measure not less than two (2) inches in diameter: *Provided*, That, individual containers in any lot may contain not more than thirty-seven and one-half (37½) percent, by count, of plums which measure less than two (2) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed twenty-five (25) percent: *And provided further*, That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 6-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided*, That, a total of not more than five (5) percent, by count, of the

plums in the package or container may fail to meet this requirement.

(2) When used in this section "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520–1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7½-row standard pack" shall mean that the top layer of the pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "8½-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[Plum Order 22]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.605 *Plum Order 22*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 8, 1958.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., November 1, 1958, no shipper shall ship any package or container of Laroda plums unless such plums grade at least U. S. No. 1; and,

(i) If the plums are packed in a standard basket, they are of a size not smaller than a size that will pack a 4 x 5 standard pack;

(ii) If the plums are packed in any container other than a standard basket, sixty-six and two-thirds (66⅔) percent, by count, of the plums measure not less than one and thirteen-sixteenths (1 13/16) inches in diameter: *Provided,* That, individual containers in any lot may contain not more than fifty (50) percent, by count, of plums which measure less than one and thirteen-sixteenths (1 13/16) inches in diameter, if the average percent of such smaller sized plums in all containers in such lot does not exceed thirty-three and one-third (33⅓) percent: *And provided further,* That, if the plums are packed in a special plum box and are of a size not smaller than a size that will pack a 7-row standard pack, they shall be deemed to meet the minimum size requirements of this subparagraph; and

(iii) The diameters of the smallest and largest plums in the package or container do not vary more than one-fourth inch: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "U. S. No. 1," "fairly uniform in size," "serious damage," and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520–1537 of this title; 23 F. R. 3509); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "special plum box" shall mean the special plum box set forth in section 828.15 of the Agricultural Code of California; "6-row standard pack" shall mean that the top layer of the pack contains 39 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7-row standard pack" shall mean that the top layer of the pack contains 52 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "7½-row standard pack" shall mean that the top layer of the pack contains 56 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in the remainder of the pack; "8½-row standard pack" shall mean that the top layer of the pack contains 72 plums which are fairly uniform in size and the plums in the top layer are not superior in size to those in

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that ship-

ments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[Lemon Regulation 747]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

§ 953.854 *Lemon Regulation 747*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 9, 1958.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 13, 1958, and ending at 12:01 a. m., P. s. t., July 20, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 372,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated July 10, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lime Order 6, Amdt. 1]

PART 1001—LIMES GROWN IN FLORIDA

QUALITY AND SIZE REGULATION

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 101, as amended (7 CFR Part 1001; 22 F. R. 2526), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 14, [illegible]. Shipments of designated varieties of Florida limes are currently subject to quality regulation pursuant to Lime Order 6 (§ 1001.306; 23 F. R. 4252) and, unless sooner modified or terminated, will continue to be so regulated until April 30, 1959; determinations as to the need for, and extent of, continued regulation of Florida lime shipments must await the development of the crop and the availability of information on the demand for such fruit; the recommendation and supporting information for regulation of lime shipments subsequent to July 14, 1958, and in the manner herein provided, were promptly submitted to the Department after an open meeting of the Florida Lime Administrative Committee on July 8, 1958, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were given an opportunity to submit their views at this meeting; the provisions of this amendment are identical with the aforesaid recommendation of the committee, and information concerning such provisions has been disseminated among handlers of Florida limes; it is necessary, in order to effectuate the declared policy of the act, to make this amendment effective as hereinafter set forth; and compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

It is, therefore, ordered, That the provisions of paragraph (b) of § 1001.306 (Lime Order 6; 23 F. R. 4252) are hereby amended as follows:

1. Amend subparagraph (1) (ii) to read as follows:

(ii) Any limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties), grown in the production area, which do not grade at least U. S. Combination, Turning;

2. Amend subparagraph (2) to read as follows:

(2) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Persian (Tahiti) Limes (§§ 51.1000-51.1016 of this title; 23 F. R. 4446).

Effective time. The provisions of this amendment shall become effective at 12:01 a. m., e. s. t., July 14, 1958.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[Public Land Order 1665]
[Anchorage 014664]

ALASKA

PARTIALLY REVOKING PUBLIC LAND ORDER NO. 903 OF JULY 3, 1953, WHICH RESERVED CERTAIN PUBLIC LANDS AS AIR NAVIGATION SITE WITHDRAWAL NO. 261

Correction

In Federal Register Document 58-[illegible], published at page 4810 of the issue for Saturday, June 28, 1958, the seventh line of the land description should read:

South, 4,485.5 feet to parallel 59°32' N.,

[Public Land Order 1675]

[74459]

[Reservoir Site Restoration No. 27 (Power Site Cancellation No. 118)]

CALIFORNIA

PARTIALLY REVOKING THE EXECUTIVE ORDER OF JUNE 8, 1926, CREATING RESERVOIR SITE RESERVE NO. 17

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. [illegible] of May 26, 1952, it is ordered as follows:

1. The Executive order of June 8, 1926, creating Reservoir Site Reserve No. 17 (Pacific Slope Basins), is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 1 S., R. 14 E.,
Sec. 15, S½SW¼;
Sec. 17, NW¼NE¼, SE¼NW¼, SW¼ and W½SE¼;
Sec. 20, W½NE¼, NW¼, NE¼SW¼ and SE¼;
Sec. 21, N½NE¼, W½SW¼, SE¼SW¼ and S½SE¼;
Sec. 22, W½NE¼, SE¼NE¼, NW¼, NE¼SW¼ and S½SW¼;
Sec. 23, Lots 12, 13, 14, 15, and 16;
Sec. 26, N½ Lot 1, Lots 2, 3, 4, 6, 7, 10, and E½ Lot 11;
Sec. 27, W½NE¼, E½NW¼ and W½SE¼;
Sec. 34, NW¼NE¼.

The areas described, including both public and non-public lands, aggregate 1,280.64 acres.

2. The Director of the Geological Survey on March 18, 1957 (22 F. R. 1993), cancelled the Departmental order of March 8, 1932, creating Power Site Classification No. 266 so far as it affects the lands described in paragraph 1 of this order.

3. The following-described lands, aggregating 160 acres are patented:

T. 1 S., R. 14 E.,
Sec. 15, SW¼SW¼;
Sec. 21, NE¼NE¼;
Sec. 22, W½NW¼.

4. The lands released by this order are located in southwestern Tuolumne vegetation consists of scrub oak, chamise, toyon, and various annual grasses.

5. No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

6. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(i) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(ii) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on August 8, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on November 7, 1958, will be governed by the time of filing.

(iii) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (i) and (ii) above, presented prior to 10:00 a. m. on November 7, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

7. The restored lands have been open to application and offers under the mineral leasing laws. They have been open to location under the United States mining laws pursuant to the provisions of the Act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621).

8. The restored lands shall be subject until 10:00 a. m. on October 2, 1958, to application by the State of California under any statute or regulation applicable thereto.

9. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior.

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

Subchapter C—Regulations Affecting Subsidized Vessels and Operators

[General Order 22, Revised, Amdt. 3]

PART 282—UNIFORM SYSTEM OF ACCOUNTS FOR OPERATING-DIFFERENTIAL SUBSIDY CONTRACTORS

RESCISSION OF MISCELLANEOUS AMENDMENTS

The miscellaneous amendments to Part 282 appearing in the FEDERAL REGISTER issue of July 2, 1958 (23 F. R. 5039) are hereby rescinded.

[SEAL] CLARENCE G. MORSE,
Maritime Administrator.

[F. R. Doc. 58-5331; Filed, July 11, 1958; 8:49 a. m.]

[General Order 31, Revised]

PART 286—ESTABLISHMENT AND MAINTENANCE OF THE STATUTORY CAPITAL AND SPECIAL RESERVE FUNDS AND DETERMINATION OF "CAPITAL NECESSARILY EMPLOYED IN THE BUSINESS" AND "NET EARNINGS"

Effective as of January 1, 1958, Part 286 is hereby revised to read as follows:

Sec.
286.1 Order.
286.2 Creation and maintenance of statutory reserve funds.
286.3 Capital necessarily employed in the business.
286.4 Net earnings.
286.5 Preliminary compliance with reserve and recapture requirements.
286.6 Explanations and reservations.

AUTHORITY: §§ 286.1 to 286.6 issued under sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114. Interpret or apply sec. 207, 49 Stat. 2005, as amended; 46 U. S. C. 1177.

§ 286.1 *Order.* Pursuant to the Merchant Marine Act, 1936, as amended, particularly section 607 (d) thereof, the Maritime Administration hereby adopts §§ 286.1–286.6 for the establishment and maintenance of the statutory Capital and Special Reserve Funds, including the making of tentative deposits in the said funds in advance of completion of accounting between the Maritime Administration and the other party to an Operating-Differential Subsidy Agreement (therein referred to as the operator) for the year or other accounting period involved; and the determination of "capital necessarily employed in the business" and "net earnings" for the purposes of applying the reserve and recapture provisions of Operating-Differential Subsidy Agreements, under the act (therein sometimes referred to as the agreement), to the extent that such rules and regulations are not in conflict with the provisions of the said agreements.

§ 286.2 *Creation and maintenance of statutory reserve funds*—(a) *Application of operator and authoritative orders.* (1) At or before the time of the first deposit required to be made therein, the operator shall select, and make written application to the Maritime Administrator for approval of, the depository or depositories with whom it proposes to establish and maintain the Capital Reserve Fund and Special Reserve Fund.

(2) When such depository or depositories have been so designated and approved, the Maritime Administrator will adopt an appropriate order authorizing the establishment of the reserve fund involved, setting forth the conditions and restrictions under which it is to be maintained and with respect to withdrawals therefrom, and designating those authorized to execute, on behalf of the Maritime Administrator, instruments of withdrawal therefrom.

(3) A certified copy of such order will be furnished the depository for its guidance in honoring instruments of withdrawal and acting upon other instructions regarding the fund. The operator also will be furnished a certified copy of such order, promptly upon receipt of which, its Board of Directors shall adopt an appropriate resolution with respect to the fund in conformity with the action of the Maritime Administrator, and a certified copy thereof shall be furnished the Maritime Administrator for his records.

(b) *Amounts required to be deposited and authorized to be withdrawn*—(1) *Mandatory deposits.* (i) Mandatory deposits (i. e., deposits which are required to be made in the statutory reserve funds, either by the provisions of the act or of the agreement or by direction of the Maritime Administrator under the authority of the act or of the agreement) shall be made by the operator at the times and in the amounts so required without prior application to the Maritime Administrator and, when based upon preliminary or tentative calculations, shall be subject to adjustment upon the completion of final accounting for the year or other accounting period involved.

(ii) The amount of income earned on investments (including interest on bank deposits) in the statutory reserve funds which, pursuant to the provisions of the act and of the agreement, is required to be deposited in the statutory reserve funds, shall be deducted (to the extent allocated to subsidized operations under the other sections of this part) only for the purpose of determining the amount, if any, of the "net earnings" of the operator in excess of ten (10) per centum per annum on the operator's "capital necessarily employed" (remaining after deducting any other payments made from such "net earnings" into the Capital Reserve Fund) which, pursuant to the provisions of the act and of the agreement, is required to be deposited in the Special Reserve Fund.

(2) *Voluntary deposits and transfers.* Voluntary deposits (i. e., deposits which, under the provisions of the act and of the agreement, the operator may be permitted to make in the statutory reserve funds, but which are not mandatory) and transfers from the Special Reserve Fund to the Capital Reserve Fund, or from such statutory reserve funds to the general funds of the operator, shall be made only upon written application to, and receipt of written approval thereof from, the Maritime Administrator. Such application shall include a full statement of facts as to the desirability or necessity of making the deposit or transfer and, when required, shall be supported by adequate financial data.

(3) *Withdrawals.* Withdrawals from the statutory reserve funds (including transfers between the funds) shall be made only at the times and in the amounts authorized by the provisions of the act or of the agreement or by the Maritime Administrator under the authority of the act or of the agreement. Checks, drafts, or other instruments of withdrawal, after having been executed by the operator, shall be forwarded to the Maritime Administrator at Washington with appropriate explanation of the purposes of the proposed withdrawal, including properly certified invoices or other supporting papers. Such instruments of withdrawal, after countersignature on behalf of the Maritime Administrator, will be forwarded to the payees or returned to the operator, as the operator requests. Transfers between accounts in the same depository and for the same statutory reserve fund shall not be deemed withdrawals for the purpose of this paragraph.

(4) *Constructive deposits and withdrawals.* Except where specifically provided for in other general orders, no transaction shall be treated as a constructive deposit into, or a constructive withdrawal from, the statutory reserve funds, without the prior written consent of the Maritime Administrator. Adjustments of tentative deposits will be treated as provided in paragraph (f) of this section and such are not deemed to be constructive deposits or withdrawals.

(5) *Reporting requirements.* (i) The operator shall promptly notify the Comptroller, Maritime Administration, Washington 25, D. C., of all deposits into the statutory reserve funds, giving full details with respect thereto.

(ii) The detail of activities in the statutory reserve funds shall be reported by the operator to the appropriate District Comptroller of the Maritime Administration at such times and in such form as prescribed by the Comptroller.

(c) *Investment of statutory reserve funds in securities.* (1) The Maritime Administrator hereby approves the deposit of marketable interest-bearing direct obligations of the United States or obligations fully guaranteed as to principal and interest by the United States in the Capital Reserve Fund or Special Reserve Fund in lieu of cash and the purchase of such obligations with cash on deposit in the said funds: *Provided however,* That in no event shall an operator, without prior written approval of the Maritime Administrator, purchase, with moneys on deposit in the statutory reserve funds, evidences of indebtedness which are guaranteed by the United States pursuant to Title XI of the Merchant Marine Act, 1936, as amended.

(2) Subject to the further limitations prescribed in the applicable provisions of the act and the agreement, the operator shall make written application to the Maritime Administrator in all instances involving the deposit of any other securities in the Capital Reserve Fund or Special Reserve Fund in lieu of cash or the purchase thereof with (and to replace) cash on deposit in such funds, the transfer of securities from the Special Reserve Fund to the Capital Reserve Fund, or vice versa, and the replacement of securities on deposit in such funds with cash or securities from the general funds of the operator. The operator shall not consummate any such transaction until the written consent of the Maritime Administrator shall have been received. The application shall describe fully the securities and explain the desirability of the transaction and shall include a statement of the availability of cash in the statutory reserve funds in excess of sums required to meet maturing obligations or other demands to be liquidated with amounts on deposit in such funds. Every approval by the Maritime Administrator of an application from an operator for permission to deposit securities other than marketable interest-bearing direct obligations of the United States or obligations fully guaranteed as to principal and interest by the United States in the statutory reserve funds in lieu of cash, or to purchase such securities with cash on deposit in the said funds, shall be conditioned upon agreement by the operator to dispose of such securities forthwith upon subsequent request by the Maritime Administrator.

(3) Immediately upon the purchase of any securities for deposit in the statutory reserve funds, the operator shall advise the Maritime Administrator, giving the date of purchase, a description of the securities, and the price paid therefor (net, brokerage and other charges, and gross).

(4) Income earned on investments held in either the Capital Reserve Fund

or Special Reserve Fund shall be deposited when received in the Capital Reserve Fund: *Provided*, That upon receipt of the first interest payment following the purchase of securities for deposit in the Special Reserve Fund, the amount, if any, of accrued interest which was included in the cost of the securities (and, therefore, does not constitute an earning) shall be retained in the Special Reserve Fund, and the balance thereof, if any, shall be deposited in the Capital Reserve Fund.

(5) Interest paid by a depository or depositories on the cash balance (including time deposits) in the Capital Reserve Fund or Special Reserve Fund shall be retained in the fund with respect to which such interest payment is made.

(d) *Valuation of securities in statutory reserve funds.* The bases for valuation of securities in transactions involving the statutory reserve funds shall be as follows:

(1) Securities deposited in the statutory reserve funds in lieu of cash or in exchange for securities then on deposit in such funds shall be valued at market at the time of such deposit, unless otherwise determined by the Maritime Administrator.

(2) Securities transferred from the Special Reserve Fund to the Capital Reserve Fund, or vice versa, shall (subject to adjustment for accrued interest) be valued at the same amount as when deposited in the fund from which they are transferred, unless the Maritime Administrator in approving such transfer shall determine otherwise.

(3) The net proceeds derived from the disposal of securities on deposit in either of the statutory reserve funds shall be retained in the reserve fund from which such securities are withdrawn, except that with respect to securities in the Special Reserve Fund purchased at a discount and disposed of at a profit, so much of such profit as represents the difference between the cost and the par or face value thereof shall be deemed to be interest and shall be deposited in the Capital Reserve Fund.

(4) If securities on deposit in either of the statutory reserve funds are replaced by cash or securities from the general funds of the operator, the amount of cash or the value of securities to be deposited in such reserve fund, in lieu thereof, shall be the equivalent of the amount at which such replaced securities were valued at the time of their deposit in said fund (with adjustment on account of accrued interest), or the market value thereof at the time of withdrawal, whichever is the higher.

(5) For the purposes of this part, the market value of securities shall be determined in the following manner:

(i) With respect to transactions involving the purchase of securities with cash on deposit in the statutory reserve funds or the sale of securities on deposit therein, market value shall be the gross price paid or the net price received after proper brokerage and transfer taxes; if any, and adjusted for accrued interest: *Provided*, That if such securities are purchased or sold otherwise than upon a registered exchange, the price shall be within the range of transactions on the exchange on the date of such purchase or sale, or if there were no such transactions, then the market value thereof shall be determined by the Maritime Administrator on such basis as he may deem to be fair and reasonable in each individual case.

(ii) Where no actual purchase or sale is involved, such as the initial deposit of securities in the statutory reserve funds in lieu of cash or the replacement of securities on deposit therein by cash from the general funds of the operator, the last published sales price thereof on the day the transfer was made shall be deemed to be the market value thereof, or if no such sales were made, the market value thereof shall be determined by the Maritime Administrator on such basis as he may deem to be fair and reasonable in each individual case.

(e) *Time deposits.* Deposits in the statutory reserve funds not invested in securities may be placed in time deposits when, in the judgment of the Maritime Administrator and the operator, it is desirable and feasible so to do. No such time deposits requiring withdrawal notice of more than thirty (30) days shall be made, however, until the written consent of the Maritime Administrator first shall have been obtained.

(f) *Adjustment of tentative deposits.* (1) When the amount deposited in the Capital Reserve Fund or the Special Reserve Fund, based on preliminary or tentative calculations, is less than the amount required to be deposited therein, as determined upon the completion of final accounting for the year or other accounting period involved, the deficiency shall be cured promptly by the operator.

(2) When the amount deposited in the Capital Reserve Fund or the Special Reserve Fund, based on preliminary or tentative calculations, exceeds the amount required to be deposited therein, as determined upon the completion of final accounting for the year or other accounting period involved, adjustment thereof shall be accomplished by deducting such over-deposit from amounts subsequently required to be deposited in the fund involved: *Provided*, That to the extent such over-deposits in the Special Reserve Fund are sufficient to cure under-deposits in the Capital Reserve Fund, the adjustment, with the prior written approval of the Maritime Administrator, may be accomplished by transfer from the former to the latter.

§ 286.3 *Capital necessarily employed in the business*—(a) *Fundamental basis.* (1) "Capital necessarily employed in the business" or "capital investment necessarily employed in the operation of the subsidized vessels, services, routes, and lines" (such terms hereinafter being referred to as "capital employed") shall be determined upon the basis of the net worth reported by the operator in its balance sheet as at the end of the month preceding the effective date of the agreement (or in the last previous balance sheet deemed by the Maritime Administrator to present fairly the financial position of the operator, but adjusted to take into account subsequent changes in net worth and such other changes as the Maritime Administrator may deem essential to a proper determination of "capital employed" as at the end of such month), and as at each succeeding December 31 during the effective period of the agreement, adjusted as hereinafter provided. For the purpose of this determination, net worth shall be as stated in the operator's balance sheet, prepared in accordance with the Uniform System of Accounts for Operating-Differential Subsidy Contractors, as adopted by the Maritime Administrator in Part 282 of this chapter. Net worth shall be deemed to include capital stock, capital surplus, and earned surplus: *Provided*, That capital stock subscribed but not issued as at the date of this determination, or any part thereof, shall be deemed to be so included only from the date on which, and to the extent that, payments are made on account of such subscriptions. The net worth of the operator shall be adjusted to recognize the excess or deficiency of the underlying book value of wholly-owned subsidiary companies as compared with the investment of the operator therein, provided such companies, with the prior written approval of the Maritime Administrator, perform services or supply facilities coming within the purview of section 803 of the Merchant Marine Act, 1936, as amended, or the Subsidy Agreement of the operator. Net worth, as thus stated, shall be further adjusted in such manner as the Maritime Administrator may determine to be fair and reasonable, including the elimination of appreciation, adequate statement of the liabilities, and such other adjustments as are consistent with sound accounting principles. In the computation of net worth, goodwill and other intangibles not actually acquired for cash or for a consideration determined by the Maritime Administrator to be the equivalent thereof and stock held in treasury shall be excluded, and in instances where, in the judgment of the Maritime Administrator, goodwill and other intangibles were acquired improvidently or at an excessive price, the amount thereof shall be excluded also, or reduced, as the Maritime Administrator may determine.

(2) In determining "capital employed" based on the net worth of the operator, certain limitations shall be applied as follows:

LIMITATION (1)

CAPITAL RESERVE FUND

Interest Accruals for Deposit in Statutory [Capital] Reserve Funds

The excess, if any, of the sum of the balances in the Capital Reserve Fund and Interest Accruals for Deposit in Statutory [Capital] Reserve Funds accounts (as said accounts are hereinafter defined and after interim adjustments thereof are made as provided under paragraph (d) of this section) over the sum of (i) and (ii) as set forth below shall be deemed to be Capital Held in Reserve, and shall not be taken into account in determining "capital employed".

(i) The total depreciation, computed in accordance with Part 284 of this chapter, deposited or accrued for deposit in the Capital Reserve Fund on the vessels assigned under the Operating-Differential Subsidy Agree-

ment at the beginning of the year or other accounting period with respect to which the determination is made.

(ii) The amount in the Capital Reserve Fund determined by the Maritime Administrator as being committed by the operator to complete the equity payments (that is, the cost of vessel designs and plans, other capitalizable items, and the sum of progress payments to be made by the operator during the period of construction or reconstruction) (after deduction of any trade-in allowance otherwise allowed for "capital employed") of the operator's cost of a vessel, or vessels, covered by a construction, reconstruction, or Construction-Differential Subsidy Agreement, which vessel(s) is (are) to be assigned under an Operating-Differential Subsidy Agreement.

For the purpose of applying this limitation, the aggregate of the balances in the Capital Reserve Fund and Interest Accruals for Deposit in Statutory [Capital] Reserve Funds accounts, as of the date of the balance sheet on which the determination of "capital employed" is based, shall include only the following:

The sum of—

(a) The actual amount on deposit (including securities valued as provided under applicable regulations) in the Capital Reserve Fund of the operator;

(b) The balance of account entitled Interest Accruals for Deposit in Statutory [Capital] Reserve Funds;

(c) All other accrued deposits (except voluntary deposits) into the Capital Reserve Fund as follows:

(1) Accrued depreciation on vessels required to be deposited,

(2) Proceeds from sale or loss of vessels and other amounts which, upon collection, are required to be deposited.

(d) Approved transfers from the Special Reserve Fund;

(e) Less—amounts reflected in the balance sheet (other than Mortgage Notes—Vessels) which are payable from the Capital Reserve Fund and which are excluded from Working Capital for the purpose of determining "capital employed."

LIMITATION (2)

SPECIAL RESERVE FUND

Deferred Operating-Differential Subsidy Receivable Less: Recapturable Profits—Maritime Administration

The excess, if any, of the sum of the balances in the Special Reserve Fund and Deferred Operating-Differential Subsidy Receivable account, less the balance in the Recapturable Profits—Maritime Administration account (as hereinafter defined and after interim adjustments provided under paragraph (d) of this section) over five (5) percent of "capital employed," computed without regard to the Special Reserve Fund and related accounts as determined in accordance with this Limitation as at the last day of the recapture period immediately preceding the recapture period current on the effective date of this part and as at the last day of each consecutively succeeding recapture period shall be deemed to be Capital Held in Reserve, and shall not be taken into account in determining "capital employed"; except that during the initial recapture period of the first of one or more Operating-Differential Subsidy Agreements, if consecutive and without interval, the sum of the balances in the Special Reserve Fund account and Deferred Operating-Differential Subsidy Receivable account, less the balance in Recapturable Profits—Maritime Administration account, shall be deemed to be Capital Held in Reserve and shall not be taken into account in determining "capital employed."

For the purpose of applying this limitation, the balance in the Special Reserve Fund and related accounts listed below, including accruals, as of the balance sheet date on which the determination of "capital employed" is based, shall include only the following:

(a) Actual amount on deposit (including securities valued as provided under applicable regulations) in the Special Reserve Fund of the operator;

(b) All accrued mandatory deposits into the Special Reserve Fund;

(c) Less—Approved transfers to the Capital Reserve Fund;

(d) Deferred Operating-Differential Subsidy Receivable;

(e) Less—Recapturable Profits—Maritime Administration.

LIMITATION (3)

ADJUSTED WORKING CAPITAL

The excess, if any, of the balance of "Adjusted Working Capital" of the operator and its wholly-owned subsidiary companies as of the balance sheet date, after interim adjustments thereof, as provided in paragraph (d) of this section, and allocated to subsidized operations as provided in paragraph (e) of this section, over "Limitation of Adjusted Working Capital" in subsidized operations, as defined in Limitation (4), shall be deemed to be "Capital Held in Reserve" in the business and shall not be taken into account in determining "capital employed."

For the purpose of applying this Limitation, "Adjusted Working Capital" shall include only the following accounts defined in Part 282 of this chapter:

Accounts	
100–199 (369)	Current assets (less reserves and provision for accrued deposits in statutory reserve funds other than voluntary deposits, which shall not be accrued for deposit).
200	Unterminated voyage expense.
375–389	Deferred charges (to operations) and prepaid expenses.
Less:	
400–534	Current liabilities (excluding mortgage notes—vessels, and other liabilities payable from statutory reserve funds).
495	Advance ticket sales and deposits.
500	Unterminated voyage revenue.

The provision for accrued deposits into the statutory reserve funds referred to in Accounts 100–199 hereinabove shall include, but is not limited to, the following:

(i) Accrued depreciation on vessels required to be deposited into the Capital Reserve Fund;

(ii) Proceeds from sale or loss of vessels and other amounts which, upon collection, are required to be deposited into the Capital Reserve Fund;

(iii) All accrued mandatory deposits into the Special Reserve Fund.

LIMITATION (4)

LIMITATION OF ADJUSTED WORKING CAPITAL

Adjusted Working Capital as determined under Limitation (3) shall be allowed as "capital employed" to the extent of the Total Average Voyage Expenses employed in subsidized operations determined as follows:

Average Voyage Expenses shall be determined on the basis of the actual expenses of operating and maintaining the subsidized vessels (excluding lay-up expenses) for a period represented by the average length of time of all round voyages (excluding lay-up periods) calculated separately for each subsidized service (line). For the purposes of this Limitation, the term "line" shall be deemed to mean those described in Part I of the Operating-Differential Subsidy Agreement, or in instances where the routes or services described therein are not designated as "lines," then the trade routes referred to in Part I of the Subsidy Agreement shall for such purposes be deemed to be "lines": *Provided,* That in any event passenger services shall be deemed to be separate and distinct from freight services: *And provided further,* That in instances where unsubsidized vessels are operated in subsidized services and are subject to the reserve and recapture provisions of the Agreement, they shall not be considered as a separate category but shall be included with the subsidized vessels for the service involved.

This determination shall be made in the following manner:

First: By dividing the sum of such expenses for the accounting period involved applicable to the subsidized vessels in each such service (line) by the aggregate number of days (excluding "lay-up" days) consumed in all voyages of such vessels in each such service (line) terminating during such period;

Second: By multiplying the quotient thus obtained by the number of days (excluding "lay-up" days) in the average voyage in each such service (line); and

Third: By multiplying the resulting product by the quotient of the total number of days (excluding "lay-up" days) consumed in voyages of subsidized vessels in each such service (line) terminating during the accounting period divided by the number of calendar days within the accounting period.

The expense of operating and maintaining the subsidized vessels shall include overhead (Accounts 900–955 less Accounts 670 and 895) allocated to subsidized operations under § 286.4 and total Operating Expense—Terminated Voyages (Accounts 701–799 in Part 282 of this chapter). For the purpose of this Limitation (4), if, in any instance, the average subsidized voyage in any subsidized service (line), as determined above, is of less than ninety (90) days' duration, the expense of hull and machinery insurance (Account 755) and P & I insurance (Account [illegible]) shall be determined to be that for a period of ninety (90) days: *Provided,* That such allowance for insurance expense shall not, in the aggregate, exceed the total actual insurance expense for the accounting period. Expenses used for this purpose shall be those included in the annual accounting for each calendar year, filed under Part 282 of this chapter, and shall not be adjusted thereafter.

LIMITATION (5)

ACCOUNTS REPRESENTING THE REMAINDER OF ADJUSTED NET WORTH

Those accounts representing the remainder of adjusted net worth of the operator, and which have not been provided for in the calculation of "capital employed" under Limitations (1) through (4) of this section and paragraph (c) of this section shall be included in "capital employed" to the extent to which they are allocable to subsidized operations as provided under paragraph (c) of this section, subject to final acceptance or rejection by the Maritime Administrator.

(b) *Valuation of capital assets.* Subsidized and unsubsidized vessels when included in "capital employed" shall be valued in accordance with Part 284 of this chapter, and other capital assets shall be valued at cost, including betterments and reconditioning costs, to the operator or to any former owner who at any time previous to the acquisition of such assets by the operator was a subsidiary, holding, affiliate, or associate company of the operator (referred to as a "related company"), whichever is the lower, less depreciation: *Provided,* That the cost of acquisition of any assets acquired in exchange for capital shares or other securities of the operator from other than a "related company" shall not be in excess of the fair value of such property at the date of acquisition. Ex-

as provided for costs of reconstructing and reconditioning in paragraph (d) (6) of this section, no adjustment shall be made in the computation of "capital employed" for the increase in equity in vessels represented by betterments or liquidation of mortgage indebtedness applicable thereto, or for the decrease in such equity represented by the accrual of depreciation, for the year or other accounting period during which such betterments are made, indebtedness is liquidated, or depreciation accrues.

(c) *Allocation of vessel equity.* (1) The equity of the operator in vessels (meaning the depreciated value thereof as determined in accordance with Part 284 of this chapter, less the outstanding balance of any mortgage obligations covering such vessels, including such proportion of any blanket mortgage obligations as the Maritime Administrator may determine to be applicable thereto) shall be included in "capital employed" only during the period of operation or maintenance thereof under the agreement.

(2) In the event that any of the subsidized vessels is withdrawn from operation in the subsidized service for part of any fiscal period, a corresponding reduction shall be made in the calculation of "capital employed" on the basis of the relation that the number of days during which such vessel is so withdrawn bears to the total number of days in the year or other accounting period involved. In instances where an unsubsidized vessel owned by the operator is operated in its subsidized service, unless otherwise stipulated by the Maritime Administrator in connection with his written approval of the operations of such vessel in the subsidized service, the equity of the operator in such vessel (meaning the depreciated value thereof as determined in accordance with Part 284 of this chapter, less the outstanding balance of any mortgage obligations covering such vessel, including such proportion of any blanket mortgage obligations as the Maritime Administrator may determine to be applicable thereto) shall be included ratably in the calculation of "capital employed" on the basis of the relation that the number of days during which such vessel is so operated bears to the total number of days in the year or other accounting period involved. To the extent applicable to vessel equities, Part 281 of this chapter shall be controlling.

(d) *Interim additions and deductions required by this paragraph shall be applicable only to individual items of $100,000 or more).* (1) Additions to capital, such as cash realized from the sale of stock, paid in surplus, etc., and withdrawals of capital, if and to the extent that such additions and withdrawals involve assets taken into account in the determinations of "capital employed" pursuant to the other provisions of this section, shall, subject to the limitations set forth in paragraph (a) of this section, be included or deducted, as the case may be, in the computation of "capital employed," pro rata, on the basis of the proportion of such additions or withdrawals represented by the relation that the number of days from the date thereof to the end of the year or other accounting period involved bears to the total number of days within such period, this proportion to be allocated to or between "capital employed" in subsidized and in unsubsidized operations in the manner hereinafter prescribed.

(2) No interim adjustments shall be made for capital gains and capital losses (except those resulting from the acquisition, loss, sale, or other disposition of vessels) and earnings (or losses) during any accounting period, but they shall be included in the computation of "capital employed" only from the end of the year or other accounting period in which realized (or sustained). Dividends paid out of earnings that have not been included in "capital employed" shall not be deducted from "capital employed." Dividends shall be deemed to have been paid from surplus at the beginning of the year or other accounting period involved, unless the Board of Directors shall declare the dividends to be payable out of the current year's earnings.

(3) If, during the accounting period, the operator increases his indebtedness and the consideration received therefor is not allowable under this section as an element of "capital employed," there shall be an interim adjustment on account of the net decrease, if any, in "capital employed" resulting from such increase in indebtedness to be applied against the appropriate asset(s) if the indebtedness is secured by such asset(s) or against Limitation of Adjusted Working Capital if not secured. If, during the accounting period, the operator decreases his indebtedness and the funds used therefor have not been allowed under this section as an element of "capital employed," there shall be an interim adjustment on account of the net increase, if any, in "capital employed" resulting from such decrease in indebtedness to be applied against the appropriate asset(s) if the indebtedness is secured by such asset(s), or against Adjusted Working Capital if not secured. Indebtedness, for the purpose of this section, means any indebtedness secured by any asset(s) or any unsecured indebtedness other than routine trade indebtedness incurred in the ordinary conduct of business.

(4) The equity of the operator, determined in the manner prescribed in Part 284 of this chapter, in vessels acquired and in vessels sold, lost through marine disaster, or otherwise disposed of, during the year or other accounting period involved shall be included in the computation of "capital employed," pro rata, on the basis of the proportion of such equity represented by the relation that the number of days of operation in the subsidized service under the agreement bears to the total number of days in such period. Simultaneously, the consideration paid or received for such vessels (including receivables for gross trade-in allowances, and for claims from insurance underwriters on account of loss thereof, but subject to adjustment to an amount not in excess of final net settlements) shall be treated, for the purpose of determining "capital employed," in the same manner as is hereinbefore prescribed with respect to additions to, and withdrawals of, capital. In those instances in which a vessel is acquired for operation in the subsidized services and there is an interim period of reconstruction, shifting, waiting for schedule, or other reasonable interim period prior to and related to the entrance of the vessel in subsidized service between the date of acquisition and the date of commencement of operation or maintenance of the vessel under the agreement, the equity in such a vessel will be included in "capital employed" from date of acquisition, and cost of reconstruction and other capitalized costs shall be included from date of completion.

(5) That portion, if any, of the balance on deposit, or accrued for deposit, in the statutory Capital or Special Reserve Fund which has been deemed to be "Capital Held in Reserve" pursuant to the provisions of Limitations (1) and (2) of paragraph (a) (2) of this section and which is subsequently determined by the Maritime Administrator as being committed by the operator to complete the equity payments (that is, the cost of vessel designs and plans, other capitalizable items, and the sum of progress payments to be made by the operator during the period of construction or reconstruction) (after deduction of any trade-in allowance otherwise allowed for "capital employed") of the operator's cost of a vessel or vessels with respect to which a construction or reconstruction contract requiring operation in the subsidized service is executed by the operator during the year or other accounting period with respect to which determination of "capital employed" is made, shall be included, pro rata, in the computation of "capital employed." This computation shall be on the basis of the proportion of such part represented by the relation that the number of days from the date of the execution of such contract to the end of the year or other accounting period involved bears to the total number of days within such period: *Provided, however,* That in so far as the Special Reserve Fund is concerned, this paragraph shall be applicable only to amounts transferred, with the prior written approval of the Maritime Administrator, to the Capital Reserve Fund for such purposes from the date of such transfer.

(6) The costs of reconstructing or reconditioning a subsidized vessel shall be included in vessel's equity for the purpose of "capital employed" from the first day of the month following completion of such work. A corresponding reduction, calculated from date of adjustment to the end of the accounting period, shall be made to "capital employed" allowed elsewhere for the period, to the extent that interim adjustments for reconstruction or reconditioning costs otherwise would result in a duplicate allowance.

(e) *Allocation between subsidized and unsubsidized activities.* In instances where the operator engages in any other activities, in addition to the operation of the subsidized vessels, except extensive non-shipping operations (with respect to which the determination of the net as-

sets allocable thereto shall be accorded special consideration and shall be on such bases as the Maritime Administrator may determine to be fair and reasonable), the allocation of "capital employed" (other than the equity in vessels, which is hereinbefore disposed of in paragraph (c) of this section), subject to such exceptions as the Maritime Administrator shall determine to be essential to the production of a fair and reasonable result, generally shall be made as follows:

(1) Assets (and liabilities) employed exclusively in the operation of the subsidized vessels and services incident thereto, such as deposits in the statutory Capital and Special Reserve Funds, net vessel trade-in allowance granted for construction of new subsidized vessel(s), collateral posted with the Maritime Administration in lieu of the performance bond required under the agreement, and progress payments on vessels under construction to replace the subsidized vessels or augment the subsidized service, shall be allocated entirely to subsidized operations in the computation of "capital employed." Assets (and liabilities) allocated to subsidized operations as in this subparagraph provided shall be subject to the limitation relative to such assets (and liabilities) as provided in paragraph (a) of this section.

(2) Assets (and liabilities) not employed in the operation of the subsidized vessels and services incident thereto, as determined by the Maritime Administrator, including investments in, advances and loans to, and moneys on deposit with "related companies," together with debt applicable thereto, shall be allocated entirely to unsubsidized operations in the computation of "capital employed," except in instances where wholly owned subsidiary companies perform services or supply facilities coming within the purview of section 803 of the act or the Subsidy Agreement of the operator, in which instances the underlying book value of such wholly owned subsidiary companies shall be allocated between subsidized and unsubsidized operations on such basis as the Maritime Administrator shall determine to be fair and reasonable in each individual case. The "Adjusted Working Capital" of the wholly owned subsidiary companies which is included in the underlying book value of such companies, to the extent allocated to subsidized operations as provided in this paragraph shall be combined with the operator's "Adjusted Working Capital" (paragraph (a) (2), Limitation (3)).

(3) The acquisition cost of inventories of spares earmarked for specific vessels and not interchangeable, shall be allocated in the same manner as the vessels aboard which they are to be used. The acquisition cost of spares not earmarked for specific vessels, but which are interchangeable between other vessels of the fleet of the operator, shall be prorated between subsidized and unsubsidized operations on the basis of the relation that the number of subsidized and unsubsidized vessels of the type for which such spares are earmarked separately bears to the total of such type of vessels.

(4) "Capital employed" shall not include borrowed capital in any form. The indebtedness resulting from any such borrowing which is due and payable after one year shall be applied against the appropriate asset(s) if such indebtedness is secured by such asset(s), or against "Adjusted Working Capital" if not secured. Indebtedness, for the purposes of this subparagraph, means any indebtedness secured by any asset(s) or any unsecured indebtedness other than routine trade indebtedness incurred in the ordinary conduct of business.

(5) After the allocation of the operator's equity in the vessels, inventories of vessels' spares, and net assets directly and entirely allocable to subsidized or unsubsidized operations (the latter to include net assets allocable to nonshipping operations), the remainder of the adjusted net worth of the operator shall be allocated between subsidized and unsubsidized operations on the basis of the relation that the "Vessel Operating and Maintenance Expenses" incurred in subsidized and unsubsidized operations, separately (including a ratable proportion of such expenses on voyages in progress either (i) at the commencement and termination of each recapture period or (ii) at the beginning and ending of each annual accounting period, commencing with the accounting period current with the publication of this provision, at the irrevocable election of the operator, to be made known to the Maritime Administrator in writing within 180 days after the issuance of this order and within 180 days after the end of the first year in each recapture period thereafter), bears to the total of such expenses incurred in both subsidized and unsubsidized operations. (The term "Vessel Operating and Maintenance Expenses," as used herein, means those expenses proper for inclusion in Account 700—Operating Expense—Terminated Voyages, excepting Account 760—Charter Hire, in Account 800—Inactive Vessels Expense, excepting Account 826—Charter Hire, as defined in the Uniform System of Accounts for Operating-Differential Subsidy Contractors, as adopted by the Maritime Administrator in Part 282 of this chapter. "Vessel Operating and Maintenance Expenses" used for this purpose shall be those included in the annual accounting for each calendar year, filed under Part 292 of this chapter, and shall not be adjusted thereafter.) The amount so allocated to subsidized operations shall be deemed to be the proportion of such net assets to be included in "capital employed," subject to the limitations prescribed in paragraph (a) (2) of this section.

(6) In instances where two or more Operating-Differential Subsidy Agreements are concurrently in effect between the United States and the operator for all or part of any year or other accounting period, the allocation of "capital employed" as between operations under each of such agreements shall be made, if necessary, on the same basis as is prescribed in this section for allocation between subsidized and unsubsidized activities.

(7) In no event shall there be a duplication of allowances or exclusions for any item of "capital employed" under this section.

§ 286.4 *Net earnings—(a) Fundamental basis.* The net profit of the operator and its wholly-owned subsidiaries on its subsidized vessels and services incident thereto (hereinafter referred to as "net earnings") shall be determined by deducting from "gross income," as hereinafter defined for the purpose of this part only; operating expense—terminated voyages (including bar and slop chest losses and those resulting from advance and prepaid beyond transactions), inactive vessels expense, contributions to pools, expense of terminal operations, expense of cargo handling operations, expense of tug and lighter operations (less interdepartmental credits for services and facilities), administrative and general expense, management and operating commissions, advertising, amortization—leasehold, depreciation—shipping property and equipment, interest expense, amortization of deferred charges, doubtful notes and accounts receivable, miscellaneous deductions from income, taxes (including taxes based upon the portion of the earnings of the subsidized vessels and services incident thereto which is not required to be deposited in the statutory reserve funds, but not including taxes on earnings withdrawn from the statutory reserve funds and paid into the general funds of the operator, or distributed as dividends or bonuses, upon termination of the agreement or at the end of any recapture period as provided therein), and other charges which customarily are made in accordance with sound accounting practice in determining "net earnings" as the Maritime Administrator may determine to be fair and reasonable: *Provided*, That no such deduction shall be made on account of:

(1) Expenditures made or which the Maritime Administrator finds should have been made to place the subsidized vessels in good running order, condition, and repair, sufficiently tackled, appareled, furnished and equipped at the commencement of the first voyage of each such vessel under the agreement: *Provided*, That with respect to newly acquired vessels, which have been constructed, purchased, reconstructed, or reactivated for operation in the subsidized service, (i) the necessary, reasonable and proper expenses (other than capitalized expenditures), all as determined by the Maritime Administrator, applicable to the period between the delivery date of any such vessel to the operator and the commencement of the first voyage under Subsidy Agreement, (ii) depreciation computed in accordance with Part 284 of this chapter, and applicable to any such vessel between the date title passes to the owner and the commencement of the first subsidized voyage, and (iii) the interest on purchase mortgages and progress payments, to the extent not capitalizable as determined by the Maritime Administrator, applicable to any such vessel for the period from date title passes, in case of acquisition, and date work commences, in case of new construction or reconstruction, and the commencement of the first sub-

sidized voyage shall be deducted from subsidized earnings of the recapture period during which accrued or incurred.

(2) Expenses incurred in violation of the act or of the agreement or on account of any obligation resulting from any action taken in violation of the act or of the agreement, or

(3) Expenses found by the Maritime Administrator to have been clearly improvident, unnecessary, or excessive.

In so far as vessels are concerned, depreciation shall be computed in accordance with Part 284 of this chapter.

(b) *Definition of "gross income."* "Gross income" shall include operating revenue—terminated voyages (including bar and slop chest profits and those resulting from advance and prepaid beyond transactions), operating-differential subsidy, collections from pools, revenue from terminal operations, revenue from cargo handling operations, revenue from tug and lighter operations, revenue from other shipping operations, agency fees, commissions and brokerage earned, interest income (including, but not limited to, interest earned on cash or securities on deposit in the Capital and Special Reserve Funds), dividend income, and such other items of income as the Maritime Administrator may determine are properly includable.

(c) *Allocation between subsidized and unsubsidized activities.* Where the operator engages in any other activities in addition to the operation of the subsidized vessels, except extensive nonshipping operations (with respect to which the determination of the "net earnings" allocable thereto shall be accorded special consideration and shall be on such basis as the Maritime Administrator may determine to be fair and reasonable), the allocation of "net earnings," subject to such exceptions as the Maritime Administrator shall determine to be essential to the production of a fair and reasonable result, shall be made as follows:

(1) Operating revenue—terminated voyages and operating expense—terminated voyages (as detailed in Part 282 of this chapter, Accounts 600 and 700), shall be allocated directly to the subsidized and unsubsidized operations in which such revenues were earned and expenses were incurred: *Provided*, That, in instances where, pursuant to applicable provisions of the agreement and/or Part 281 of this chapter, the operating results of unsubsidized voyages are to be taken into account in determining "net earnings" for the purposes of the reserve and recapture provisions of the agreement, such results shall be allocated directly to the subsidized operations.

(2) Collections from pools and contributions to pools shall be allocated directly to the subsidized or unsubsidized operations in which such revenues were earned or expenses were incurred.

(3) Additional charter hire shall be allocated directly to subsidized or unsubsidized operations when practicable. In instances where both subsidized and unsubsidized operations occur under a single bareboat charter contract, additional charter hire shall be allocated directly to subsidized or unsubsidized operations on the basis of a separate computation of the additional charter hire liability for each operation: *Provided, however*, That in no event shall the additional charter hire so allocated to subsidized operations exceed the total additional charter hire paid or payable for the period involved.

(4) Inactive vessels expense, as approved in accordance with Part 281 of this chapter, necessarily and properly incurred in the maintenance of subsidized vessels shall be allocated directly to subsidized operations, and inactive vessels expense of unsubsidized vessels shall be allocated directly to unsubsidized operations, unless, and except as, otherwise specifically provided by agreement between the Maritime Administrator and the operator.

(5) Operating-differential subsidy accrued in accordance with the provisions of the agreement shall be allocated directly to subsidized operations.

(6) (i) The Uniform System of Accounts for Operating-Differential Subsidy Contractors, as adopted by the Maritime Administrator in Part 282 of this chapter, provides that Account 890—Interdepartmental credits for services and facilities, shall be credited with "agreed amounts" concurrently charged to Account 200—Unterminated voyage expense, or Account 700, Operating expense—terminated voyages, representing services performed and facilities furnished by the carrier for its owned or operated vessels, the expenses for which are included in the following accounts (among others):

Account 855—Expense of terminal operations.

Account 865—Expense of cargo handling operations.

Account 875—Expense of tug and lighter operations.

Account 885—Expense of other shipping operations.

(ii) Where the operator maintains such services or facilities and they are used by the subsidized vessels and if it is impracticable to determine the actual cost of such use, the operator shall charge in the operating expense accounts of such vessels fair and reasonable amounts for the use of such services or facilities (but at not in excess of (*a*) the "going rates" for the services or facilities at the ports involved, or (*b*) the rates at which such services or facilities could be obtained from independent suppliers, or (c) the rates charged all other vessels using them), and similar charges shall be made in the accounts of all other vessels operated by the operator.

(iii) Where the sum of the credits derived from the use of such services or facilities by vessels owned, or chartered from others, by the operator exceeds the gross revenues (Accounts 645, 650, 655 and 660) derived from the use of such services or facilities by other vessels,

(*a*) The expense of maintaining such services or facilities shall be allocated between subsidized and unsubsidized operations on the basis of the relation that the credits so derived from the vessels engaged in each such operation bears to the total of the credits derived from the furnishing of such services or facilities, except that revenues derived from the furnishing of such services or facilities to vessels neither owned nor chartered from others, by the operator shall not be included in the above calculation, but shall be prorated between subsidized and unsubsidized operations in the same manner as is the expense of maintaining such services or facilities as thus determined, and

(*b*) The amounts credited to Account 890 shall be allocated directly to subsidized and unsubsidized operations on the same basis as are the corresponding charges to the vessel operating expense accounts.

(iv) Conversely, where the sum of the credits derived from the use of such services or facilities by vessels owned, or chartered from others, by the operator is less than the gross revenues (Accounts 645, 650, 655 and 660) derived from the use of such services or facilities by other vessels,

(*a*) The amounts credited to Account 890 corresponding to charges in the operating expense accounts of the subsidized vessels shall be allocated directly to the operation of such subsidized vessels and the amounts credited (*1*) to that account corresponding to charges in the accounts of unsubsidized vessels owned, or chartered from others, by the operator, and (2) to the revenue accounts corresponding to charges against others for the use of such services or facilities, shall be allocated to unsubsidized operations, and

(*b*) The expense of maintaining such services or facilities shall be allocated between subsidized and unsubsidized operations on the basis of the relation that the revenues or credits so derived from the vessels engaged in each such operation bears to the total of the revenues and credits derived from the furnishing of such services or facilities.

(7) Depreciation expense shall be allocated between subsidized and unsubsidized operations on the same relative bases as the equities of the operator in the properties involved are allocated in the determination of "capital employed," excepting that depreciation on office furniture, fixtures and equipment shall be allocated between subsidized and unsubsidized operations on the same relative basis as are Administrative and General Expenses, pursuant to subparagraph (9) of this paragraph: *Provided*, That a common basis shall be used for valuation of the property (Part 284 of this chapter, insofar as vessels are concerned).

(8) Interest income and dividend income shall be allocated between subsidized and unsubsidized operations (which latter for these purposes shall be deemed to include Capital Held in Reserve) on the same basis as the value of the investments and securities from which such income is derived is allocated in the determination of "capital employed." With respect to investments in wholly-owned subsidiaries performing services or supplying facilities coming within the purview of section 803 of the act, dividend income from such subsidiaries shall be eliminated.

(9) (i) Where direct allocations are impracticable and where the amounts of individual items applicable to Accounts 900–944, otherwise directly allocable are less than $10,000, and except as otherwise provided in this section, income and expense properly recorded in the accounts listed hereunder, in accordance with the Uniform System of Accounts for Operating-Differential Subsidy Contractors, prescribed by the Maritime Administrator in Part 282 of this chapter, shall be allocated between subsidized and unsubsidized operations on the basis of the relation that the total Vessel Operating and Maintenance Expenses incurred in both subsidized and unsubsidized operations bears to such expenses incurred in subsidized and unsubsidized operations, separately (including a ratable proportion of such expenses on voyages in progress, either (i) at the commencement and termination of each recapture period, or (ii) at the beginning and ending of each annual accounting period, commencing with the accounting period current with the publication of this part, at the irrevocable election of the operator to be made known to the Maritime Administrator in writing within 180 days after the issuance of this order and within 180 days after the end of the first year in each recapture period thereafter):

Account 670—Agency fees, commissions, and brokerage earned, excepting compensation earned under NSA Order No. 47 (AGE 4) which shall be allocated as provided in section 9 (b) thereof.

Account 690—Miscellaneous other income.

Account 895—Credits from branch house operations.

Account 900—Administrative and general expense (but no compensation for personal services in excess of $25,000 per annum paid to a director, officer, or employee by the operator, its affiliates, subsidiary, or associates, shall be taken into account).

Account 945—Management and operating commissions.

Account 955—Taxes—miscellaneous.

Account 970—Amortization of deferred charges, excepting Account 973—Amortization; organization and preoperating expense with respect to the allocation of which a separate determination will be made by the Maritime Administrator in each instance.

Account 975—Doubtful notes and accounts receivable.

Account 979—Miscellaneous deductions from income.

(ii) The term "Vessel Operating and Maintenance Expenses," as used in this section, means those expenses proper for inclusion in Account 700—Operating expense—terminated voyages, excepting Account 760—Charter hire, and in Account 800—Inactive vessels expense, excepting Account 826—Charter hire, as defined in the Uniform System of Accounts for Operating-Differential Subsidy Contractors, as adopted by the Maritime Administrator in Part 282 of this chapter. The ratable proportion of such expenses on voyages in progress, previously referred to in this subparagraph, means that proportion of such expenses on each such voyage represented by the relation that the number of days of each falling within the accounting period involved bears to the total days in each such voyage. The expenses on which such calculation shall be based shall be those charged to income of the year involved with respect to voyages in progress at the commencement of such year and those charged to income of the succeeding year with respect to voyages in progress at the end of the year involved. "Vessel Operating and Maintenance Expenses" used for this purpose shall be those included in the annual accounting for each calendar year, filed under Part 292 of this chapter, and shall not be adjusted thereafter.

(10) Advertising expense shall be allocated between subsidized and unsubsidized operations on the following bases:

(i) Expenses of advertising freight services shall be allocated on the basis of the relation that freight revenues (Accounts 601 and 605) earned in the operation of subsidized vessels and in other operations of the operator, separately, bears to the total of such revenue derived from all operations of the operator.

(ii) Expenses of advertising passenger services and advertising expenses which are not susceptible to direct allocation as between those attributable to freight services and those attributable to passenger services shall be allocated among the various operations on the basis of the relation that the passenger revenues (Accounts 608 and 612) earned in each operation bears to the total of such revenues derived from all operations of the operator. (Passenger services as used in this part refer to vessels and accommodations for carrying in excess of twelve passengers.)

(11) Interest expense shall be allocated between subsidized and unsubsidized operations on the same relative basis as the liabilities with respect to which such expense is incurred are allocated in the determination of "capital employed."

(12) Federal taxes on income (subject to adjustment as finally determined by the Internal Revenue Service) shall be allocated between subsidized and unsubsidized operations on the basis of the net taxable income for each separate category with appropriate adjustments for foreign tax credits, capital gains or losses, dividends received deductions, net operating loss deductions, and other comparable items, subject, however, to the limitation prescribed in § 286.5 (b) (4). Where the operator's income is included in a consolidated return, the total Federal income taxes (before foreign tax credits and excluding taxes on capital gains, both of which shall be directly allocated) shall be distributed in proportion to the net taxable income, excluding capital gains or losses, to those companies which reported net taxable income for inclusion in the consolidated return for the purpose of determining the portion of the total Federal income tax which shall be allocated to the operator.

(13) Where two or more agreements are concurrently in effect between the United States and the operator for all or part of any year or other accounting period, the allocation of "net earnings" as between operations under each of such agreements, if required, shall be made on the same basis as is prescribed herein for allocation between subsidized and unsubsidized activities.

(d) *Management or operating agreements.* Where operators act as managing or operating agents for other persons or concerns, or vice versa, the amount of the management and operating commissions to be collected or paid, as the case may be, for such services, the division of "Overhead Expenses" between the operator and such other person or concern, shall be on such basis as the Maritime Administrator shall specify in approval of the arrangement.

(e) *Capital gains and capital losses.* "Net earnings" for the purposes of computations hereunder shall be adjusted so as to exclude capital gains and capital losses.

(f) *Income and expenses resulting from excluded assets.* Except where otherwise agreed between the Maritime Administrator and the operator, income from, and expenses attributable to, assets excluded in the computation of "capital employed" likewise shall be excluded in the computation of "net earnings": *Provided*, That the provisions of this paragraph shall not be applicable to chartered vessels, the profit (or loss) from the operations of which shall be allocated as the Maritime Administrator requires.

To the extent that Capital Reserve Fund and Special Reserve Fund (as computed under § 286.3 (a) (2), Limitations (1) and (2)) are excluded in the computation of "capital employed" income resulting from investments of such funds shall be proportionately excluded from earnings from subsidized operations. To the extent, if any, that Adjusted Working Capital employed in subsidized operations (as computed under § 286.3 (a) (2), Limitation (3)) exceeds the Total Average Voyage Expenses of subsidized operations (as computed under section 286.3 (a) (2), Limitation (4)) and, therefore is not includable in "capital employed," the excess should be regarded as being composed proportionately of the various assets and liabilities comprising Working Capital in the relation, percentagewise, that such excess bears to the net total of such assets and liabilities. Where items of income and expense are required hereunder to be allocated on the same basis as are the corresponding assets and liabilities involved, the proportion of such income and expense corresponding, percentagewise, to the proportion of the assets and liabilities included in the excess of the Adjusted Working Capital over the Total Average Voyage Expenses should be allocated to unsubsidized operations.

(g) *Profits from services or facilities furnished by "related companies."* (1) In determining "net earnings," any and all profits resulting from performing services or supplying facilities to the subsidized vessels of the operator, by persons subject to the provisions of section 803 of the act, which are required to be accounted for and paid over to the operator under said section, shall be taken into account.

(2) In instances where a wholly-owned subsidiary performs services or supplies facilities to subsidized vessels not coming under the provisions of section 803 of the act, but authorized under the Subsidy Agreement of the operator, and where the underlying book value

of such subsidiary has been taken into "capital employed" pursuant to the provisions of § 286.3, for the purpose of determining "net earnings" any and all profits or losses resulting from such subsidized operations also shall be taken into account, subject to the limitation contained in the Operating-Differential Subsidy Agreement.

(3) Settlement required under section 803 of the act or the agreement shall be accomplished by combining such earnings or losses with those of the parent company, provided that the Maritime Administrator reserves the right to require settlement in cash when, in his judgment, such settlement is justified.

(4) Where "related companies" of an operator perform services or supply facilities to the subsidized vessels of the operator which are subject to the provisions of section 803 of the act or the Subsidy Agreement of the operator, and further, where such "related companies" charge the subsidized vessels for such services or facilities on the basis of rates not in excess of the rates charged all other vessels using them, the corresponding expense of maintaining such facilities shall be determined, where necessary, and allocated between subsidized and unsubsidized operations on the following bases:

(i) With respect to "related companies" (other than wholly-owned subsidiaries), the expense of maintaining such facilities shall be allocated between subsidized and unsubsidized operations on the basis of the relation that the income so derived from the vessels engaged in each such operation bears to the total income derived from the furnishing of such facilities.

(ii) With respect to wholly-owned subsidiaries, income and expenses shall be allocated in the same manner as are the revenues, interdepartmental credits and expenses with respect to services and facilities when furnished by the operator as prescribed in paragraph (c) (5) of this section.

§ 286.5 *Preliminary compliance with reserve and recapture requirements*—(a) *Tentative deposits in statutory reserve funds and recording of excess profits.* Not later than ninety (90) days, or within such additional time as the Maritime Administrator may grant, after the end of each accounting year (except as otherwise required by the act or the agreement), the operator shall deposit in the Capital Reserve Fund and in the Special Reserve Fund the amounts required to be deposited therein with respect to such accounting year, pursuant to the provisions of the Operating-Differential Subsidy Agreement, based on the requirements of section 607 of the act: *Provided, however,* That in the event of any dividend being paid out of earnings of prior years or the current year, all deposits representing accrued depreciation and excess profits, if any, for those periods shall be made into the Capital Reserve Fund and Special Reserve Fund, either concurrently with the payment of such dividend or prior thereto, based upon the calculations, tentative or otherwise, upon which the operator's action in declaring the dividend was predicated. The amounts of such deposits shall be calculated in accordance with the rules and regulations for determining "capital employed," as prescribed in § 286.2 and "net earnings" as prescribed in § 286.4. Where audited financial and operating statements are unavailable, tentative calculations should be prepared for this purpose. If the operator establishes, to the satisfaction of the Maritime Administrator, that its available Working Capital would be seriously impaired or depleted by making any such deposit, the Maritime Administrator in his discretion may postpone, under such conditions as he may prescribe, the making of part or all of such deposit, provided that the amount so postponed shall not exceed the amount of the unpaid operating-differential subsidy for the period to which deposit applies.

(b) *Calculation of provision for Federal income tax.* For the purpose of these preliminary calculations:

(1) Where the "net earnings" from subsidized operations, before provision for Federal income tax, exceed 10 percent of the "capital employed," provision for Federal income tax may (except as otherwise provided in subparagraph (2) of this paragraph) be computed by dividing the amount equivalent to 10 percent of such capital by the difference between 100 percent and the effective rate of the estimated average income tax thereon, and multiplying the quotient by the effective rate of the estimated average income tax; e. g.,

Hypothesis:

(i) 10 percent of "capital employed"	$1,000,000
(ii) Illustrative rate of the estimated average income tax on above—52 percent.	
(iii) Difference between 100 percent and illustrative rate of the estimated average income tax—48 percent.	
(iv) "Net earnings," before provision for Federal income tax	3,000,000

Computation of tax:

(i) $1,000,000 ÷ (iii) 0.48 = $2,083,333 × (ii) 0.52 = $1,083,333.

Distribution of earnings:

"Net earnings," before provision for Federal income tax	$3,000,000
Less: Provision for Federal income tax	1,083,333
"Net earnings," after provision for Federal income tax	1,916,667
10 percent of "capital employed"	1,000,000
Excess earnings	916,667

(2) Where the "net earnings" from subsidized operations, before provision for Federal income tax, exceed 10 percent of "capital employed," by an amount less than the provision for Federal income tax, calculated as provided in subparagraph (1) of this paragraph, and where the "net earnings" from subsidized operations, before provision for Federal income tax, are not in excess of 10 percent of "capital employed," provision for Federal income tax may be deducted, in the determination of "net earnings" from subsidized operations, in an amount computed by applying the income tax rates to the amount of such "net earnings" before provision for Federal income tax.

(3) Calculations of provision for Federal income tax as herein provided (inapplicable to any earnings otherwise available for distribution to stockholders with respect to which Federal income taxes are deferred by reason of such earnings being deposited in the Capital or Special Reserve Fund) shall be subject to adjustment upon final determination, by the Internal Revenue Service, of the amount of such tax assessable upon the "net earnings" of the operator for the year or other accounting period involved.

(4) The provision for Federal income tax deducted in the determination of "net earnings" from subsidized operations shall not exceed the total of such tax reported in the income tax return or assessed, as the case may be, upon the total taxable income of the operator for the year or other accounting period involved: *Provided,* That any tax adjustments resulting from adjustments of taxable income or expense which may be related to a prior year or accounting period, and to the extent allocable to subsidized operations, shall be treated in the same manner as other adjustments of subsidized income or expense as authorized in Part 292 of this chapter.

(c) *Statements required by the Maritime Administration.* Promptly upon the completion of its calculation of the tentative amounts required to be deposited in the statutory reserve funds and of the amount of excess profits, if any, subject to recapture by the Maritime Administration, the operator shall submit to the appropriate District Comptroller of the Maritime Administration a statement, in quadruplicate, reflecting the operator's preliminary calculation of "capital employed," amounts required to be deposited in the Capital Reserve Fund and in the Special Reserve Fund, and excess profits, if any, subject to recapture by the Maritime Administration, and, also in quadruplicate, its balance sheet as at the beginning of the year or other accounting period involved, and its income sheet for such period, showing the allocation of "net earnings" as between subsidized and unsubsidized operations.

(1) The statement reflecting the operator's preliminary calculation of "capital necessarily employed," etc., shall be certified by a duly authorized officer of the operator to the following effect:

This statement correctly sets forth, to the best of my knowledge and belief, the "capital necessarily employed in the business" of the subsidized vessels and services incident thereto, the amounts of the deposits required to be made in the Capital Reserve Fund and

in the Special Reserve Fund, and the amount of excess profits subject to recapture by the Maritime Administration for the above stated period, pursuant to the provisions of the Operating-Differential Subsidy Agreement dated _____, and in accordance with the rules and regulations prescribed in General Order 31, Revised, of the Maritime Administrator, based on the records of the undersigned operator at this date.

_____
(Name of operator)

_____
(Title)

_____
(Date)

(2) The balance sheet shall be certified by a duly authorized officer of the operator to the following effect:

This balance sheet, to the best of my knowledge and belief, fairly presents the financial position of the undersigned operator as at the above date, as reflected in its books of account with which I am familiar, maintained in accordance with the Uniform System of Accounts for Operating-Differential Subsidy Contractors, prescribed by the Maritime Administrator in General Order 22, Revised, at this date.

_____
(Name of operator)

_____
(Title)

_____
(Date)

(3) The income sheet shall be certified by a duly authorized officer of the operator to the following effect:

This income sheet, to the best of my knowledge and belief, correctly states the operating results of the undersigned operator for the above period, as reflected in its books of account with which I am familiar, maintained in accordance with the Uniform System of Accounts for Operating-Differential Subsidy Contractors, prescribed by the Maritime Administrator in General Order 22, Revised, at this date.

_____
(Name of operator)

_____
(Title)

_____
(Date)

(4) The statements prescribed in this paragraph shall be prepared substantially in the form of those included among the illustrative examples supplied by the Comptroller, Maritime Administration, pursuant to Part 292 of this chapter.

§ 286.6 *Explanations and reservations.* (a) The account classifications included in this part are those described in the Uniform System of Accounts for Operating-Differential Subsidy Contractors in Part 282 of this chapter.

(b) Where, in the preceding sections hereof, reference is made to a particular part, such reference is to such part as amended, supplemented, or revised at the time of the transaction involved.

(c) The term "subsidized vessels" shall include the vessels listed in the Operating-Differential Subsidy Agreement and any other vessel for any period with respect to which its operating results are required, by the applicable provisions of the said agreement or Part 281 of this chapter, to be taken into account under the reserve fund and recapture provisions thereof.

(d) The preliminary or tentative deposits in the statutory reserve funds and calculations of excess profits subject to recapture by the Maritime Administration provided for in § 286.5 are subject to adjustment upon the approval by the Maritime Administrator of final accounting for each year or other accounting period involved.

(e) The establishment of the rules and regulations prescribed in §§ 286.1 to 286.5 is without prejudice to the right of the Maritime Administrator to determine or the operator to submit for consideration of the Maritime Administrator the employment of other bases for allocation and calculation in any instance where, upon the completion of any annual or final accounting, the results produced by the application of such rules and regulations create unreasonable results, in the judgment of the Maritime Administrator.

(f) If the rules and regulations prescribed in §§ 286.1 to 286.5 should conflict with the provisions of any applicable statute or of the Operating-Differential Subsidy Agreement, such provisions shall govern.

(g) Nothing in this part contained shall be construed as a waiver of any requirement that the consent of the Maritime Administrator be obtained with respect to any transaction, nor as a waiver of any other right reserved to the Maritime Administrator by the Act or under the Operating-Differential Subsidy Agreement.

The reporting requirements contained in this part have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Since this revision was drawn in collaboration with interested members of the affected industry over a considerable period of time, with the understanding that this revision was to be applicable to all subsidy accountings filed under Part 292 of this chapter for the calendar year 1958 and thereafter; since a hearing was held on May 6, 1958, for the purpose of resolving items unresolved as of such date; since the Maritime Administrator on May 20, 1958, issued his conclusions with respect to such unresolved items and granted all subsidized operators until July 3, 1958, to submit additional comments, if any, concerning this revision, for the Maritime Administrator's consideration; and such comments as were received not having introduced any factors not previously given consideration to; this revision is effective as of January 1, 1958.

Dated: July 8, 1958.

[SEAL] CLARENCE G. MORSE,
Maritime Administrator.

[General Order 71, Amdt. 2]

PART 291—DEFINITION OF CAPITAL NECESSARILY EMPLOYED IN THE BUSINESS

APPLICABILITY OF DEFINITION

Part 291 is amended by adding the following new paragraph at the end thereof:

Effective as of January 1, 1958, the definition in this part shall not be applicable with respect to capital necessarily employed determinations required to be made for accounting periods commencing on or after said date, but shall be superseded by the definition contained in Part 286 of this chapter.

(Sec. 607, 49 Stat. 2005, as amended; 46 U. S. C. 1177)

Dated: July 7, 1958.

[SEAL] CLARENCE G. MORSE,
Maritime Administrator.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

[Docket No. AO-71-A-36]

MILK IN NEW YORK-NEW JERSEY MILK MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Belmont-Plaza Hotel, New York City, beginning at 10:00 a. m., on July 22, 1958, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the New York-New Jersey marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the New York State Cheese Manufacturers' Association, Inc.:

Proposal No. 1. Amend § 927.43 by (1) deleting therefrom the following: "there shall be credited to the handler receiving the milk from producers, four cents per pound of butterfat in such milk in the months of March through June, and three cents per pound of butterfat

in such milk in the months of July through February" and (2) substituting therefor the following: "There shall be credited to the handler receiving the milk from producers, five cents per pound of butterfat in such milk in the months of January through July and four cents per pound of butterfat in such milk in the months of August through December."

Proposed by the Pollio Dairy Products Corporation and the Fiorlat Dairy Products Corporation:

Proposal No. 2. Eliminate § 927.40 (e) (3).

Proposal No. 3. Amend § 927.43 to provide a butter-cheese adjustment of four cents per pound of butterfat in each of the twelve months of the year.

Proposed by Eastern Milk Producers Cooperative Association, Inc.:

Proposal No. 4. Amend § 927.40 (e) (3) by deleting the table contained therein and substituting the following:

Month to which price is applicable:	*Amount*
January	$0.10
February	.10
March	.08
April	.08
May	.05
June	.05
July	.18
August	.28
September	.28
October	.23
November	.18
December	.10

Proposed by Dairymen's League Cooperative Association, Inc.; Metropolitan Cooperative Milk Producers Bargaining Agency, Inc.; and Mutual Federation of Independent Cooperatives, Inc.:

Proposal No. 5. Amend § 927.43 by adding after "February" and immediately preceding the proviso the following: "Except that said three cents shall not apply in any month when the percentage of Class I–A plus I–B plus Class II utilization exceeds __[1] percent, and when the total amount of Class III milk for such month is less than __[2] million pounds."

Proposed by Milk Dealers Association of Metropolitan New York, Inc. and Sealtest Sheffield Farms Division of National Dairy Products Corporation:

Proposal No. 6. Amend § 927.43 by eliminating the butter-cheese adjustment of three cents per pound of butterfat during the months of August, September, October and November.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 7. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 205 East 42d Street, New York 17, N. Y., or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 9th day of July 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58–5324; Filed, July 11, 1958; 8:47 a. m.]

NOTICES

DEPARTMENT OF JUSTICE

Office of Alien Property

[Dissolution Order No. 120]

KALIO, INC.

Whereas, by virtue of the issuance of Vesting Order No. 2079, dated September 2, 1943 (8 F. R. 13937), and Vesting Order No. 6128, dated April 1, 1948 (11 F. R. 3619), and other actions taken under the Trading With the Enemy Act, as amended, the Attorney General of the United States (hereinafter referred to as "Attorney General"), successor to the Alien Property Custodian, is the owner of all of the issued and outstanding capital stock of Kalio, Inc. (hereinafter sometimes referred to as the "Company"), a New York corporation;

Whereas, a Certificate of Dissolution of the Company was issued by the Secretary of State of the State of New York on October 17, 1956, certifying to the dissolution of the Company, and said Certificate was duly published in accordance with the statutes of the State of New York; and

Whereas, the Company has been substantially liquidated.

Now, therefore, under the authority of the Trading With the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the known assets of the Company as of June 20, 1958, consist of

(a) Cash in the amount of $3,517.70, and

(b) Certain claims heretofore filed by the Company and currently pending before the Office of Alien Property with respect to property vested in the Attorney General pursuant to the Trading With the Enemy Act, as amended, and

(c) Rights and interests in and to certain United States and foreign letters patent, and

(d) Rights and interests in, to and under certain contracts relating, among other things, to the licensing of patents and inventions;

2. Finding that the Company has no known liabilities other than possible liabilities for taxes, if any, accrued or to be accrued prior to the final liquidation of its assets; and

3. Having determined that it is in the national interest of the United States that the Company be dissolved, that its affairs be wound up and that its assets be distributed;

hereby orders, that the officers and directors of the Company (and their successors, or any of them) wind up the affairs of Kalio, Inc. and distribute the assets of the Company coming into their possession, as follows:

I. They shall first pay all current expenses and necessary charges, if any, in effecting the dissolution of the Company and the winding up of its affairs;

II. They shall then pay all known federal, state and local taxes or fees, if any, owed by or accrued against the Company;

III. They shall then transfer, assign, convey and deliver to the Attorney General all remaining assets or property of the Company of whatsoever kind or nature (including any after-discovered assets or property, and all claims or causes of action of whatsoever kind or nature) as a liquidating distribution of assets to the sole stockholder; and

further orders, that nothing herein set forth shall be construed as prejudicing the rights under the Trading With the Enemy Act, as amended, of any person who may have a claim against the Company to file such claim with the Attorney General against any assets or property received by the Attorney General hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person; *Provided further,* That any such claim against said Company shall be filed with or presented to the Attorney General within the time and in the form and manner prescribed for such claims by the Trading With the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and

further orders, that all actions taken and acts done by the officers and directors of the Company pursuant to this Order and the directions contained herein, shall be deemed to have been taken and done in reliance on and pursuant to section 5 (b) (2) of the Trading With the Enemy Act, as amended (50 U. S. C. App. 5), and the aquittance and exculpation provided therein.

Executed in Washington, D. C., on July 8, 1958.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

[F. R. Doc. 58–5300; Filed, July 11, 1958; 8:45 a. m.]

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Dept. Circ. 570, Rev. Apr. 20, 1943, 1958; Supp. 188]

CASCADE INSURANCE CO.

SURETY COMPANIES ACCEPTABLE ON FEDERAL BONDS

JULY 3, 1958.

A Certificate of Authority has been issued by the Secretary of the Treasury

[1] A percentage figure within the range of 70–80 percent.

[2] A figure within the range of 200–250 million pounds.

to the following company under the act of Congress approved July 30, 1947, 6 U. S. C., sec. 6–13, as an acceptable surety on Federal Bonds. An underwriting limitation of $79,000.00 has been established for the company. Further details as to the extent and localities with respect to which the company is acceptable as surety on Federal bonds will appear in the next issue of Treasury Department Form 356, copies of which, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Surety Bonds Branch, Washington, 25, D. C.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case 227, Supp. Order]

RICHARD FLESCHNER IMPORT-EXPORT

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of the application of the Agent-in-Charge, Investigation Staff, for an order vacating and setting aside the conditional restoration of export privileges to Richard Fleschner, doing business as Richard Fleschner Import-Export of Berlin-Wilmersdorf, Western Germany, as set forth in Parts III (A) and IV of the order of April 15, 1957, Case No. 227, 22 F. R. 2717, April 18, 1957, against Richard Fleschner, et ano.; Case No. 227, Supplemental Order.

The respondent, Richard Fleschner, heretofore by order dated April 15, 1957, published April 18, 1957, 22 F. R. 2717, having been denied export privileges for the duration of export controls, and said denial having been qualified as to him by a conditional restoration of export privileges on June 26, 1957, the condition for such restoration having been that, so long as export controls are in effect, he shall comply with all requirements of the Export Control Act of 1949, as amended, and all regulations, licenses, and orders issued thereunder, and the said order having provided further that, in the event of a breach of such condition, the Director, Office of Export Supply, might summarily, and without notice to the respondent, at such time as he shall determine that such breach has occurred, issue a supplemental order revoking such restoration of export privileges, and,

After reviewing an application made by the Agent-in-Charge, Investigation Staff, Bureau of Foreign Commerce, for an order revoking such conditional restoration of export privileges, the evidence presented to the Compliance Commissioner in support thereof, the report of the Compliance Commissioner and his recommendation, and

It now having been determined by me that the respondent has knowingly violated § 381.5 of the Export Regulations in that:

(1) He sought to obtain the exportation from the United States of (a) a Model C Tournatractor with logging winch and designated engine, valued at $32,662 and (b) two Caterpillar D8 tractors and separate parts, valued in the aggregate at $69,573.46;

(2) In connection with his attempt to obtain such exportation, he caused and induced an exporter in the United States to submit two applications for validated licenses authorizing the exportation of the said equipment to him;

(3) In support of said applications and with knowledge that the representations being made by him were relevant and material to the determination whether the licenses sought should be granted, he represented to the Bureau of Foreign Commerce that the buyer and ultimate consignee in Poland of the equipment for which the export license applications had been filed was a particularly named Agency in Poland;

(4) The said Agency had not agreed to purchase the said equipment from him and it, in fact, was not the buyer and ultimate consignee thereof;

from which I have concluded that Richard Fleschner, the respondent herein, did knowingly falsely represent to the Bureau of Foreign Commerce that an Agency in Poland was the buyer and ultimate consignee of said equipment when, in fact, it was not such buyer and ultimate consignee and that such conduct on his part was in violation of § 381.5 of the Export Regulations.

And, it being necessary to achieve effective enforcement of the Export Control Act of 1949, as amended; *It is hereby ordered*:

Part III (A) of the said order of April 15, 1957, be and the same hereby is revoked, and the respondent, Richard Fleschner, be and he hereby is denied all export privileges so long as export controls shall be in effect, all as in the said order of April 15, 1957, provided, except as the same has been amended hereby: *And it is further ordered*:

The respondent, at any time following the issuance of this order, may file with the Compliance Commissioner (Bureau of Foreign Commerce, FC 2680, Washington 25, D. C.) a written request for a hearing at which he will be given every opportunity to present such evidence or proof as he may have to demonstrate that the Agency named by him was in fact the buyer of said equipment.

Dated: July 9, 1958.

JOHN C. BORTON,
Director,
Office of Export Supply.

Maritime Administration

TRADE ROUTE NO. 2, U. S. ATLANTIC/WEST COAST SOUTH AMERICA

NOTICE OF TENTATIVE CONCLUSIONS AND DETERMINATIONS REGARDING THE ESSENTIALITY AND UNITED STATES FLAG SERVICE REQUIREMENTS

Notice is hereby given that on July 1, 1958, the Maritime Administrator, acting pursuant to section 211 of the Merchant Marine Act, 1936, as amended, found and determined the essentiality and United States flag service requirements of United States foreign Trade Route No. 2, and in accordance with his action of July 27, 1956 ordered that the following tentative conclusions and determinations reached by the Maritime Administrator with respect to said trade route be published in the FEDERAL REGISTER:

1. Trade Route No. 2, as described below, is reaffirmed as an essential foreign trade route of the United States: Trade Route No. 2—U. S. Atlantic/West Coast South America between United States Atlantic ports (Maine-East Coast Florida to but not including Key West) and ports on the West Coast of South America (Pacific Coast Colombia, Ecuador, Peru and Chile).

2. Requirements for United States flag operations on Trade Route No. 2 are approximately weekly sailings with C-2 type combination passenger-cargo vessels. Approximately four sailings per month with C-2 or equivalent freight vessels are also required with approximately one-half of the freighter sailings serving primarily ports on the Pacific Coast of Colombia, Ecuador and Peru and the remainder serving primarily ports in Peru and Chile.

3. The present C-2 type freight ships and C-2 type combination passenger-cargo ships operated on the route, which are equipped with adequate deep tank space and with substantial refrigerated space, are suitable for service to the full range of United States and foreign ports on Trade Route No. 2. Replacement ships required in the near-term future will need to be superior in speed and provide substantially more total refrigerated space and dry cargo capacity than the present ships. Prior to replacement of the present combination ships, passenger requirements will need to be re-evaluated.

Any person, firm or corporation having any interest in the foregoing who desires to offer comments and views or request a hearing thereon, should submit same in writing to the Chief, Office of Government Aid, Maritime Administration, Department of Commerce, Washington 25, D. C., by close of business on July 28, 1958. In the event a hearing is requested, a statement must be included giving the reasons therefor. Any hearing thereby afforded will be before an Examiner on an informal basis only. The Maritime Administrator will consider these comments and views and take such action with respect thereto as in his discretion he deems warranted.

Dated: July 8, 1958.

By order of the Maritime Administrator.

[SEAL] JAMES L. PIMPER,
Secretary.

[F. R. Doc. 58-5332; Filed, July 11, 1958; 8:49 a. m.]

Office of the Secretary

ADMINISTRATOR OF CIVIL AERONAUTICS

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS FOR PROCUREMENT OF FRESH OR PERISHABLE FOODS

Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 5 of 1950 and in accordance with a delegation dated June 17, 1958 from the Administrator, General Services Administration, to the Secretary of Commerce on the above subject, the Administrator of Civil Aeronautics is hereby authorized to negotiate without advertising under section 302 (c) (8) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, contracts for the procurement of fresh and perishable foods for the Civil Aeronautics Administration commissaries on Wake and Canton Islands.

The authority above delegated may be redelegated to such officers or employees of the Civil Aeronautics Administration as the Administrator of Civil Aeronautics deems necessary and shall be exercised in accordance with applicable limitations and requirements in the Act, particularly sections 304, 305, and 307, and in accordance with policies, procedures and controls prescribed by the General Services Administration.

The authority delegated herein shall not extend beyond December 31, 1959.

Dated: July 7, 1958.

[SEAL] SINCLAIR WEEKS,
Secretary of Commerce.

[F. R. Doc. 58-5325; Filed, July 11, 1958; 8:47 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-15407]

RUTTER AND WILBANKS BROTHERS ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 8, 1958.

Rutter and Wilbanks Brothers (Operator) et al. (Rutter and Wilbanks) on June 10, 1958, tendered for filing a proposed change in their effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 6, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 9 to Rutter and Wilbanks' FPC Gas Rate Schedule No. 2.

Effective date: July 11, 1958. (Effective date is the first day after expiration of the required thirty days' notice.)

In support of the proposed favored-nation rate increase, Rutter and Wilbanks state that the contract provisions including the provision for the subject increase were arrived at by arm's-length bargaining; that the increased price is fair and reasonable and necessary to compensate seller for increased costs of exploration and production and to provide an adequate return on investment.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 9 to Rutter and Wilbanks' FPC Gas Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 9 to Rutter and Wilbanks' FPC Gas Rate Schedule No. 2.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 11, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5321; Filed, July 11, 1958; 8:46 a. m.]

[Docket No. G-15408]

COSDEN PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 8, 1958.

Cosden Petroleum Corporation (Cosden) on June 9, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 6, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 5 to Cosden's FPC Gas Rate Schedule No. 3.

Effective date: July 10, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, Cosden merely states that the increase is provided for by the contract escalator clause and is necessary to offset declining production and increasing costs and to prevent premature abandonment of the wells.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 5 to Cosden's FPC Gas Rate Schedule No. 3 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 5 to Cosden's FPC Gas Rate Schedule No. 3.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5322; Filed, July 11, 1958; 8:46 a. m.]

[Docket No. G-15409]

CONTINENTAL OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

JULY 8, 1958.

Continental Oil Company (Continental) on June 12, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 109.

Effective date: July 13, 1958 (effective date is the effective date proposed by Continental).

In support of the proposed favored-nation rate increase, Continental refers to El Paso Natural Gas Company's favored-nation letter and cites arm's-length bargaining and states that the contract was executed on the assumption that a fair rate of return could be realized thereunder and denial of the increased price would be discriminatory.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change and that Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 109 be suspended and the use thereof deferred as hereinafter ordered.

The Commisson orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 109.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 13, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[Docket Nos. 12514-12516; FCC 58-634]

NORTHWEST VIDEO ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Thomas B. Friedman and Dawkins Espy db/as Northwest Video, Eugene, Oregon, Docket No. 12514, File No. BPCT-2429; Liberty Television, Inc., Eugene, Oregon, Docket No. 12515, File No. BPCT-2436; KEED Incorporated, Eugene, Oregon, Docket No. 12516, File No. BPCT-2457; for construction permits for new television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of July 1958;

The Commission having under consideration the above-captioned applications, each requesting a permit to operate on Channel 9 in Eugene, Oregon; and

It appearing, that the above-captioned applications are mutually exclusive in that operation by all of the applicants, as proposed, would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters that their applications are mutually exclusive, of the necessity for a hearing, and were advised of all objections to their applications, and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-captioned applications, the amendments thereto, and the replies to the above letters, the Commission finds that pursuant to section 309 (b) of the Communications Act of 1934, as amended, a hearing is necessary; that Liberty Television, Inc. is legally, technically, financially and otherwise qualified to construct, own and operate the proposed television broadcast station; that KEED, Inc. is legally and financially qualified to construct, own and operate the proposed television broadcast station, and is technically so qualified except with respect to issues "1 and 2" below; and that Thomas B. Friedman and Dawkins Espy db/as Northwest Video are legally qualified to construct, own and operate the proposed television broadcast station and are technically so qualified except as to issue "4" below;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-captioned applications of Thomas B. Friedman and Dawkins Espy db/as Northwest Video (a joint venture), Liberty Television, Inc. and KEED, Incorporated are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order upon the following issues:

1. To determine, in view of the apparent inconsistencies contained in the application, the location of the main studio proposed by KEED, Inc., and, whether, if located outside of Eugene, a waiver of section 3.613 (a) of the rules would be justified.

2. To determine whether the antenna system and site proposed by KEED, Inc., would constitute a hazard to air navigation.

3. To determine whether Thomas B. Friedman and Dawkins Espy db/as Northwest Video are financially qualified to construct, own and operate the proposed television broadcast station.

4. To determine whether the antenna system and site proposed by Thomas B. Friedman and Dawkins Espy db/as Northwest Video, would constitute a hazard to air navigation.

5. To determine on a comparative basis which of the operations proposed in the above-captioned applications would best serve the public interest, convenience and necessity in light of the record made with respect to the significant differences among the applicants as to:

(a) The background and experience of each having a bearing on its ability to own and operate the proposed television broadcast station.

(b) The proposals of each with respect to the management and operation of the proposed television broadcast stations.

(c) The programming service proposed in each of the above-captioned applications.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, upon his own motion or upon petition properly filed by a party to the proceeding and upon a sufficient allegation of facts in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicants will give reasonable assurance that the proposals set forth in the applications will be effectuated.

It is further ordered, That to avail themselves of the opportunity to be heard, Thomas B. Friedman and Dawkins Espy db/as Northwest Video, Liberty Television, Inc., and KEED, Incorporated, pursuant to § 1.140 (c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: July 8, 1958.

INTERSTATE COMMERCE COMMISSION

[Notice 1]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 9, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR 179) appear below.

As provided in the Commission's rules § 179.2 (f), any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 61353. By order of July 2, 1958, The Transfer Board approved the transfer to Glenn Medearis and Naomi Medearis, a Partnership, doing business as Mid-Kansas Truck Lines, Gardner, Kansas, of Certificate in No. MC 111642 Sub 1, issued June 30, 1952, to Paul Stone, doing business as Stone Truck Line, Ottawa, Kansas, authorizing the transportation of general commodities, with certain exceptions, over regular routes, between Ottawa, Kans., and Kansas City, Mo., and the transportation of certain specified commodities, over irregular routes, between specified points in Kansas and Missouri. John E. Jandera, 641 Harrison Street, Topeka, Kansas, for applicants.

No. MC-FC 61345. By order of July 3, 1958, The Transfer Board approved the transfer to Nance and Collums, Inc., Brookhaven, Miss., of certificates in Nos. MC 116300 and MC 116300 Sub 1, issued June 12, 1957, and October 18, 1957, respectively, to John L. Nance and Kenneth Collums, a partnership, doing business as Nance and Collums, Brookhaven, Miss., authorizing the transportation of: *Salt*, from points in Louisiana (except New Orleans, Gretna, and Destrehan), to points in Mississippi and Alabama; and *Treated poles, treated piling*, and *treated timber*, from Fernwood, Miss., to points in Arkansas, Illinois, Indiana, Louisiana, Missouri, and Tennessee.

Phineas Stevens, 900 Milner Building, Jackson, Miss., for applicants.

No. MC-FC 61253. By order of July 2, 1958, The Commission, Division 4, approved the transfer to Briggs Transportation Co., Inc., Trenton, N. J., of a portion of certificate No. MC 11727, issued September 19, 1957, to Star Transport Co., a Corporation, Riverside, N. J., authorizing the transportation of *general commodities*, with certain exceptions, over a regular route, between Trenton, N. J., and Highstown, N. J., and specified intermediate and off-route points; and between points in Hunterdon, Mercer, and Warren Counties, N. J., on the one hand, and, on the other, specified points in Rhode Island, New York, Pennsylvania, Massachusetts, and Connecticut. The grant of authority is conditioned upon revocation of [illegible] duplicate operating rights of transferee.

Jacob Polin, 314 Old Lancaster Road, Merion, Pa. (P. O. Box 317, Bala-Cynwyd, Pa.), for applicants.

[SEAL] HAROLD D. McCOY,
Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 493 (23 F. R. 200) and Administrative Order No. 507 (23 F. R. 2720), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Carwood Manufacturing Co., Winder, Ga.; effective 6-28-58 to 6-27-59 (men's and boys' cotton work pants and work shirts).

Feldt Manufacturing Co., Inc., Stamford, Texas; effective 6-25-58 to 6-24-59 (men's and ladies' western shirts).

Kent Uniforms, Inc., Burkesville, Ky.; effective 6-30-58 to 6-29-59 (replacement certificate) (nurses' and waitresses' uniforms).

Lawrence Manufacturing Co., Inc., Walnut Ridge, Ark.; effective 6-24-58 to 6-23-59 (ladies' dresses).

Sweet-Orr and Co., Inc., 68 First Street, SW., Pulaski, Va.; effective 6-24-58 to 6-23-59 (men's and boys' pants).

Williamson-Dickie Manufacturing Co., Bainbridge, Ga.; effective 6-27-58 to 6-26-59 (men's and boys' cotton work pants).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Apparel Manufacturing Corp., Mebane, N. C.; effective 6-26-58 to 6-25-59; 10 learners (children's dresses).

Columbus Manufacturing Co., Tabor City, N. C.; effective 6-24-58 to 6-23-59; 10 learners (boys' shirts).

Moree Garment Corp., Elloree, S. C.; effective 6-26-58 to 6-25-59; 10 learners (ladies' pajamas and gowns).

Gross Galesburg Co., North Main Street, Charlton, Iowa; effective 6-25-58 to 6-24-59; 10 learners (work shirts, pants).

K. & W. Manufacturing Co., Inc., 875 Hickory Street, Peckville, Pa.; effective 6-26-58 to 6-25-59; 10 learners (women's blouses).

West Union Garment Co., Inc., West Union, W. Va.; effective 7-11-58 to 7-10-59; 10 learners (brassieres, sun halters).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Brookside Industries, Inc., Reidsville, N. C.; effective 6-26-58 to 12-18-58; 20 learners (supplemental certificate) (men's shirts).

Devonshire Frocks, Inc., River Street, Franklin, N. H.; effective 6-30-58 to 12-29-58; 20 learners (women's dresses).

Kent Uniforms, Inc., Burkesville, Ky.; effective 6-30-58 to 12-29-58; 25 learners (nurses' and waitresses' uniforms).

The Raleigh Corp., Raleigh, Miss.; effective 6-23-58 to 12-22-58; 50 learners (ladies' dungarees and slacks).

Williamson-Dickie Manufacturing Co., McAllen, Texas; effective 6-26-58 to 12-25-58; 40 learners (work pants).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.65, as amended).

The Boss Manufacturing Co., Oneida, Tenn.; effective 6-27-58 to 12-26-58; 25 learners for plant expansion purposes (work gloves).

William E. Seal & Co., East North Street, Millersburg, Pa.; effective 6-27-58 to 6-26-59; two learners for normal labor turnover purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.43, as amended).

Billie-Ray Hosiery Co., Inc., Route 40, North East, Md.; effective 6-26-58 to 6-25-59; five learners for normal labor turnover purposes (hosiery reclamation from mill waste).

Parkdale Hosiery Mill, Catawba, N. C.; effective 6-27-58 to 6-26-59; three learners for normal labor turnover purposes (seamless).

Sussex Hosiery Mills, Inc., P. O. Box 1377, Concord, N. C.; effective 7-8-58 to 7-7-59; five learners for normal labor turnover purposes (seamless).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Alabama Textile Product Corp., Crestview, Fla.; effective 7-9-58 to 7-8-59; five percent of the total number of factory production workers in the production of men's shorts (men's shorts).

J. H. Rohrer Textile Co., Inc., New Ringgold, Pa.; effective 6-30-58 to 6-29-59; five learners for normal labor turnover purposes (men's, boys', women's and children's cotton knit underwear).

Wolverine Knitting Mills, 120 North Jackson Street, Bay City, Mich.; effective 7-1-58 to 6-30-59; five percent of the total number of factory production workers for normal labor turnover purposes (men's, women's and children's underwear, sleeping wear).

Wonderknit Corp., East Virginia St., Galax, Va.; effective 6-23-58 to 6-22-59; five percent of the total number of factory production workers for normal labor turnover purposes (knitted outerwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated.

Garva Company, 28 Prolongacion Celis Aguilera, Caguas, P. R.; effective 6-9-58 to 12-8-58; authorizing the employment of 10 learners for plant expansion purposes in the occupations of, circle and straight cutting, and glass forming by heating, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (glass cutting and shaping).

The Alberto Moreno Wire Works, Inc., Km. 18.9 Rio Piedras-Caguas Rd., P. O. Box 10611, Caparra Heights, P. R.; effective 6-10-58 to 12-9-58; authorizing the employment of 10 learners for plant expansion purposes in the occupations of, wire weaving, shear operators, crimping and punch operators, and framing mechanics, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (wire guards, screens, partitions and railings).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 527 of the regulations issued thereunder (29 CFR Part 527) a special certificate authorizing the employment of student-workers at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act has been issued to the firm listed below. Effective and expiration dates, occupations, wage rates, number or proportion of student-workers as learners, and learning periods for the certificate issued under Part 527 are as indicated below.

Regulations Applicable to the Employment of Student-Workers (29 CFR 527.1 to 527.9).

Emmanuel Missionary College, Berrien Springs, Mich.; effective 6-30-58 to 8-31-58; authorizing the employment of 25 student-workers in the bookbindery industry in the occupations of bookbinder, bindery worker, and related skilled and semiskilled occupations, each for a learning period of 600 hours at the rates of 80 cents an hour for the first 300 hours and 85 cents an hour for the remaining 300 hours (supplemental certificate).

This student-worker certificate was issued upon the applicant's representations and supporting material fulfilling the statutory requirements for the issuance of such certificate, as interpreted and applied by Part 527.

Signed at Washington, D. C., this 2d day of July 1958.

MILTON BROOKE,
Authorized Representative of the Administrator.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 23 F. R. 3485, containing the specific requirements for the 1958-crop wheat price support program are hereby amended as follows:

1. Section 421.3043 (a) (3) (i) is amended to include Port Arthur, Tex., so that as amended it reads as follows:

(3) (i) Notwithstanding the foregoing provisions of this paragraph, the support rate for wheat shipped by rail or water and stored at any of the following terminal markets and for which neither registered freight bills nor registered freight certificates are presented to guaranteed outbound movement at the minimum proportional domestic interstate freight rate, shall be equal to the applicable terminal rate:

Los Angeles, San Francisco, Stockton, and Oakland, Calif.
New Orleans, La.
Baltimore, Md.
Duluth, Minn.

1. Section 421.3383 (a) (1) is amended by adding the following to the list of terminal markets and basic support rates per bushel:

Port Arthur, Tex. $1.42

2. Section 421.3383 (a) (6) (i) is amended to include Port Arthur, Tex., so that as amended it reads as follows:

(6) (i) Notwithstanding the foregoing provisions of this paragraph the support rate for rye shipped by rail or water and stored at any of the following terminal markets for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate shall be equal to the applicable terminal rate:

Los Angeles, Stockton, and San Francisco, Calif.
Baltimore, Md.
Duluth, Minn.
Portland and Astoria, Oreg.
Albany and New York, N. Y.
Philadelphia, Pa.
Galveston, Houston, and Port Arthur, Tex.
Norfolk, Va.
Seattle, Longview, Tacoma, and Vancouver, Wash.
Superior, Wis.

3. Section 421.3383 (a) (6) (ii) is amended to provide a deduction from the terminal rate for rye received by truck at Port Arthur, Tex., so that as amended it reads as follows:

(ii) Notwithstanding the foregoing provisions of this paragraph the support rate for rye received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph shall be determined by making a deduction from the terminal rate as follows:

Terminal:	*Amount of deduction (cents per bushel)*
Los Angeles, Stockton, and San Francisco, Calif.; Duluth, Minn.; Portland and Astoria, Oreg.; Seattle, Longview, Tacoma, and Vancouver, Wash.; Superior, Wis.	4½
Baltimore, Md.; Philadelphia, Pa.; Galveston, Houston, and Port Arthur, Tex.; Norfolk, Va.; Albany and New York, N. Y.	6

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054; 15 U. S. C. 714c; 7 U. S. C. 1447, 1421)

Issued this 10th day of July 1959.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President,
Commodity Credit Corporation.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter III—Foreign and Territorial Compensation

[Dept. Reg. 108.367]

PART 301—ADDITIONAL COMPENSATION AND CREDIT GRANTED CERTAIN EMPLOYEES OF FEDERAL GOVERNMENT SERVING OUTSIDE UNITED STATES

SUBPART E—UNHEALTHFUL POSTS

Pursuant to section 853 of the Foreign Service Act of 1946, as amended, and section 503 of Executive Order 10261 dated June 27, 1951, as amended, the following changes in the list of unhealthful places in § 301.61 established by Executive Order No. 5644 of June 8, 1931, as amended by the second paragraph of Executive Order No. 6942 of January 8, 1935, Executive Order No. 7062 of June 5, 1935, Executive Order No. 10000 of September 16, 1948, as amended, and Departmental Regulations 108.149 of March 13, 1952; 108.224 of June 1, 1954; 108.295 of August 15, 1956; and 108.322 of July 5, 1957 are made:

1. The following places are designated as unhealthful, effective as of January 1, 1942:

Abidjan, Ivory Coast.
Kampala, Uganda.

2. The designation of Florianopolis, Brazil, and Iskenderun, Turkey, as unhealthful is cancelled, effective as of the signature date of this regulation. The cancellation of this designation shall not affect any credit which has accrued for service at Florianopolis and Iskenderun prior to the date of his regulation.

(Secs. 303, 443, 853, 60 Stat. 1002, 1006, 1024; sec. 207, 62 Stat. 194, 1205; 22 U. S. C. 843, 888, 1093, 5 U. S. C. 118h)

For the Secretary of State.

W. K. SCOTT,
Assistant Secretary.

JULY 3, 1958.

[Dept. Reg. 108.366]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

DESIGNATION OF DIFFERENTIAL POSTS

Section 325.11 *Designation of differential posts,* is amended as follows, effective on the dates indicated:

1. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (a) is amended by the deletion of the following:

Eleuthera Island, British West Indies.
Grand Bahama Island, British West Indies.
Grand Cayman, British West Indies.
Grand Turk Island, British West Indies.
Izatnagar, India.
Little Carter Cay, British West Indies.
Mayaguana Island, British West Indies.
San Salvador Island, British West Indies.

2. Effective as of the beginning of the first pay period following July 12, 1958,

paragraph (b) is amended by the deletion of the following:

India, all posts except Anand, Bangalore, Bhopal, Bombay, Calcutta, Chandigarh, Gwalior, Hazaribagh, Hyderabad, Izatnagar, Jodhpur, Lucknow, Ludhiana, Madras, Nabha, Nagpur, New Delhi, Pipri, Poona, Rajkot, Simla, Sindri, Trivandrum, Udaipur, and Vellore.

Iran, all posts except Ahwaz, Dezful, Isfahan, Kerman, Khaneh, Shiraz, and Tehran.

3. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (c) is amended by the deletion of the following:

Bandung, Indonesia.

4. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (d) is amended by the deletion of the following:

Antigua Island, British West Indies.
Kuala Lumpur, Malaya.

5. Effective as of the beginning of the first pay period following April 5, 1958, paragraph (a) is amended by the addition of the following:

Semarang, Indonesia.

6. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (a) is amended by the addition of the following:

Eleuthera Island, Bahamas.
Grand Bahama Island, Bahamas.
Grand Cayman, T. W. I.
Grand Turk Island, T. W. I.
Izatnagar-Bareilly, India.
Little Carter Cay, Bahamas.
Mayaguana Island, Bahamas.
Sanandaj, Iran.
San Salvador Island, Bahamas.

7. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (b) is amended by the addition of the following:

Bandung, Indonesia.
India, all posts except Anand, Bangalore, Bhopal, Bombay, Calcutta, Chandigarh, Gwalior, Hazaribagh, Hyderabad, Izatnagar-Bareilly, Jodhpur, Lucknow, Ludhiana, Madras, Nabha, Nagpur, New Delhi, Pipri, Poona, Rajkot, Simla, Sindri, Trivandrum, Udaipur, and Vellore.

Iran, all posts except Ahwaz, Dezful, Isfahan, Kerman, Khaneh, Sanandaj, Shiraz, and Tehran.

8. Effective as of June 11, 1958, paragraph (d) is amended by the addition of the following:

Beirut, Lebanon.
Tall Amara, Lebanon.
Terbol, Lebanon.

9. Effective as of the beginning of the first pay period following July 12, 1958, paragraph (d) is amended by the addition of the following:

Antigua Island, T.W.I.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453, 3 CFR, 1948 Supp.)

For the Secretary of State.

W. K. SCOTT,
Assistant Secretary.

JULY 2, 1958.

[F. R. Doc. 58-5373; Filed, July 14, 1958; 8:51 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter C—Drugs

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

ANIMAL FEED CONTAINING ANTIBIOTIC DRUGS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045), the general regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR, 1957 Supp., 146.26) are amended by adding to paragraph (b) of § 146.26 *Animal feed containing penicillin* • • • the following new subparagraph (40) as follows:

(40) It is intended for use as an aid in maintaining or increasing egg production, hatchability of eggs, reduction of the effects of stress, prevention of early mortality of chicks, and reduction of the effects of diseases when due to organisms that are sensitive to bacitracin, for the stimulation of appetite, and for improving feed efficiency as related to egg production; its labeling bears adequate directions and warnings for such use; and it contains, per ton of feed, the equivalent of 50 grams of bacitracin when fed during the first 4 to 6 weeks of egg production, and not less than the equivalent of 10 grams of bacitracin when fed during the remainder of the laying period; except that if it is intended for use to increase egg hatchability or prevention of early mortality of chicks or for use in the presence of disease outbreaks or during periods of stress it shall contain the equivalent of 100 grams of bacitracin per ton of feed, and its labeling shall include a statement that at this level it shall be fed for not more than 15 days.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it relaxes existing requirements, and since it would be against public interest to delay providing for the amendment herein set forth.

I further find that animal feed containing antibiotic drugs and conforming with the conditions prescribed in this order need not comply with the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act in order to ensure their safety and efficacy.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies secs. 502, 507, 52 Stat. 1051, 59 Stat. 463 as amended; 21 U. S. C. 352, 357)

Dated: July 3, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 58-5349; Filed, July 14, 1958; 8:45 a. m.]

TITLE 7—AGRICULTURE

Chapter II—Agricultural Marketing Service (School Lunch Programs), Department of Agriculture

PART 210—REGULATIONS AND PROCEDURE

APPENDIX—APPORTIONMENT OF FOOD ASSISTANCE FUNDS PURSUANT TO NATIONAL SCHOOL LUNCH ACT, AS AMENDED, FISCAL YEAR 1959

Pursuant to section 4 of the National School Lunch Act, as amended (42 U. S. C. 1751–1760), food assistance funds available for the fiscal year ending June 30, 1959 are apportioned among the States as follows:

State	Total	State agency	Withheld for private schools
Alabama	$2,885,351	$2,799,880	[illegible]
Alaska	61,776	61,776	
Arizona	677,505	626,308	[illegible]
Arkansas	1,794,518	1,758,356	[illegible]
California	4,991,042	4,991,042	
Colorado	848,709	775,890	[illegible]
Connecticut	735,116	735,116	
Delaware	132,837	107,322	[illegible]
District of Columbia	237,538	237,538	
Florida	1,984,123	1,886,690	[illegible]
Georgia	2,938,179	2,938,179	
Guam	61,888	82,280	[illegible]
Hawaii	336,483	272,623	[illegible]
Idaho	433,752	418,367	[illegible]
Illinois	3,555,630	3,555,630	
Indiana	2,212,423	2,212,423	
Iowa	1,604,575	1,426,832	[illegible]
Kansas	1,185,528	1,185,528	
Kentucky	2,479,810	2,479,810	
Louisiana	2,296,841	2,296,841	
Maine	545,576	460,409	[illegible]
Maryland	1,292,045	1,073,653	[illegible]
Massachusetts	1,904,386	1,904,386

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

Part 718—Determination of Acreage and Performance

Miscellaneous Amendments

The amendments herein are issued pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301 et seq.), the Sugar Act of 1948, as amended (7 U. S. C. 1100 et seq.), the Agricultural Act of 1949, as amended (7 U. S. C. 1441 et seq.), and the Soil Bank Act (7 U. S. C. 1801 et seq.). These amendments include provisions relative to: (1) The definition of "cropland"; (2) the definition of "farm"; (3) the determination and recording of acreages for tobacco and tobacco acreage reserve; (4) variances authorized with respect to the determined acreage of tobacco; and (5) the publication of State ASC committee determinations pursuant to § 718.15 (a), as amended, for the States of Arizona, Arkansas, and Mississippi.

Since farmers are now engaged in 1958 farming operations, it is imperative that notice of these amendments be given as soon as possible. Accordingly, it is hereby found that compliance with the notice, public procedure, and effective date provisions of the Administrative Procedure Act (5 U. S. C. 1003) is impracticable and contrary to the public interest and that these amendments shall become effective upon publication in the Federal Register.

1. Section 718.2 (e) is amended to read as follows:

(e) "Cropland" means land which the county committee determines: (1) Was tilled in at least one of the five calendar years immediately preceding the crop year for which the determination is being made; or (2) was established in permanent vegetative cover within the five calendar years immediately preceding the crop year for which the determination is being made and was classified as cropland at the time of establishment; or (3) has been tilled but at the time of determination is in an established crop rotation pattern recognized in the community. Land planted to vineyards, orchards, or other trees which was classified as cropland at the time of planting shall retain the cropland classification only for the year of planting, except that portions of the land area within an orchard or vineyard not devoted to trees or vines shall be classified as cropland if such land area meets the requirements of the first sentence of this paragraph. Insofar as the acreage of cropland on the farm enters into the determination of the farm acreage allotment, the cropland acreage on the farm shall not be deemed to be decreased during the period of any contract entered into pursuant to the conservation reserve program under the Soil Bank Act or any agreement entered into under the Great Plains conservation program by reason of the establishment and maintenance of vegetative cover or water storage facilities or other soil, water, wildlife, or forest-conserving uses under such contract or agreement.

2. Section 718.2 (i) is amended to read as follows:

(i) "Farm";

(1) *Farms constituted under prior regulations.* The term "farm" means land which has been properly constituted and identified as a farm under regulations issued pursuant to the Agricultural Adjustment Act of 1938, as amended, or the Soil Bank Act, as amended, and such land shall continue to constitute a farm for all programs to which the regulations in this part may apply until reconstituted as required under subparagraph (4) of this paragraph.

(2) *Farms constituted for the first time or reconstituted hereafter.* With respect to the constitution and identification of land as a farm for the first time or the reconstitution of farms made hereafter, the term "farm" shall mean all adjoining or nearby and easily accessible farm, wood, or range land under the same ownership which is operated by one person and all additional farm, wood, or range land under different ownership operated by such person which the county committee determines is nearby and easily accessible, is approximately equally productive, and for the past two years has been operated by such person and which will be so operated during the current year, or which has been operated by such person for one year with proof satisfactory to the county committee that it will be operated by such person for at least two more years. Notwithstanding the foregoing definition of "farm" in this subparagraph:

(i) Fields and subdivisions of fields which are part of a farm shall remain a part of such farm when operated under a short term agreement by another operator, unless and until such fields or subdivisions of fields may be properly constituted as a separate farm or part of another farm under this section.

(ii) Land for which one or more landlord(s) refuse(s) to sign a conservation reserve contract and which is a part of a multiple-ownership farm may be constituted as a separate farm provided some eligible land in the balance of such multiple-ownership farm is covered by a conservation reserve contract.

(iii) Where part of a farm is owned by the Federal Government and the federal agency handling the leasing of such land has leased such land under a lease restricting the production of price-supported commodities in excess supply, the farm shall be reconstituted so that such government-owned land is a separate farm. Such government-owned land, or other land as may be acquired by the Federal Government and leased to producers under such restrictive leases, shall not be combined with privately-owned land or with other government-owned land not under restrictive lease.

(iv) Where a conservation reserve contract has been entered into under the conservation reserve program regulations (6 CFR Part 485) pursuant to which the entire eligible land on the farm is designated as conservation reserve, the farm as constituted at the time all the eligible land becomes so designated shall not be combined with other land (as long as all of the eligible land in the farm is under contract) unless the conservation reserve contract is modified to include in the conservation reserve all eligible land of such other land.

(3) *Location of farm for administrative purposes.* A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(4) *Required reconstitutions.* A reconstitution of a farm either by division or by combination shall be required whenever:

(i) A change has occurred in the operation of the land after the last constitution or reconstitution and as a result of such change the farm does not meet the requirements of the definition set forth in paragraph (i) (2) of this section; or

(ii) The farm was not properly constituted under the applicable regulations in effect at the time of the last constitution or reconstitution; or

(iii) A reconstitution is required to meet the provisions of paragraph (i) (2) (ii) or (iii) of this section.

3. Section 718.9 (a) is amended to read as follows:

(a) *Tobacco and tobacco acreage reserve.* Each field or subdivision computed will be recorded in acres and hundredths of acres, dropping all thousandths, except where the field or subdivision being measured is less than one-hundredth (0.01) acre in which case the computations shall be carried to five decimal places and the acreage recorded in acres and thousandths. The total farm acreage of the acreage reserve and each kind of tobacco shall be the sum of the field and subdivision acreages of each kind of tobacco and shall be recorded in acres and hundredths of acres.

4. Section 718.10, as amended, is further amended by the addition of a paragraph at the end thereof to read as follows:

In case of tobacco, if the acreage determined for the farm does not exceed the tobacco allotment by more than the smaller of (a) 2 percent of such allotment or (b) nine-hundredths (0.09) acre, the farm tobacco allotment shall be considered as the tobacco acreage for the farm for that year and the farm operator shall be so notified. If the determined tobacco acreage for the farm exceeds this amount, the tobacco acreage as actually determined shall be the tobacco acreage for the farm for all program purposes.

5. In § 718.15 (b), the Table of Sections Affected by Determinations of State Committees Pursuant to § 718.15 (a), is amended for the States of Arizona, Arkansas, and Mississippi to read as follows:

TABLE OF SECTIONS AFFECTED BY DETERMINATIONS OF STATE COMMITTEES PURSUANT TO § 718.15 (a)

State	718.2 (1)	718.5 (f) (1)	718.5 (f) (2)	718.5 (g)	718.5 (a)	718.12 (a-2)	718.12 (b-1)	718.12 (b-2)
Arizona		0.1 A.	0.1 A. Minimum width 0.2 chain.		0.1 A. All destroyed acreage must be in one plot or be made up of entire field(s) plus 1 plot. The plot to be destroyed must be an area of regular shape with no more than 4 sides and with at least 1 side bordering on the edge of the field. If the area to be destroyed is a narrow strip extending out into the field from either a side or an end of the field, such strip must be at least four normal rows in width to qualify under the above requirements.			
Arkansas		0.5 A. Areas planted to rice on which the rice was destroyed in the construction of contour levees (dikes) shall not be eligible for deduction on the initial check of performance.			0.5 A. Areas on which rice was completely destroyed in the construction of contour levees (dikes) may be considered as acreage disposed of to adjust to the farm allotment provided the area in each levee (dike) meets the 0.5 A. minimum area requirement.			
Mississippi		0.1 A. Minimum width 0.2 chain.	0.1 A. Dikes in rice fields not planted to rice and irrigation dikes in cotton fields shall be eligible in the same manner as terraces provided they are 0.1 chain in width and the total area in any one field is not less than 0.1 A.		Minimum area in a single plot 0.5 A. except (1) when the total to be destroyed is 0.5 A. or less, the entire acreage destroyed must be in one plot; (2) when the acreage to be destroyed is more than 0.5 A., only one plot destroyed may be less than 0.5 A.; (3) all of any field or subdivision planted to cotton may be disposed of to come within the allotment regardless of size or number; (4) the area included in cotton and rice irrigation dikes where crops are destroyed may be combined and deducted provided: (a) the dikes are not less than 0.1 chain in width, and (2) the combined area in dikes for any one field is not less than 0.1 A. Minimum width for (1) and (2) above 0.2 chain.			

(Secs. 374, 375, 52 Stat. 65, as amended, 66, as amended, sec. 403, 61 Stat. 932, sec. 401, 63 Stat. 1054, as amended, sec. 124, 70 Stat. 198; 7 U. S. C. 1374, 1375, 1421, 1153, 1812)

Done at Washington, D. C., this 9th day of July 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-5369; Filed, July 14, 1958; 8:50 a. m.]

723.1013 Extent of calculations and rule of fractions.
723.1014 Instructions and forms.
723.1015 Applicability of §§ 723.1011 to 723.1028.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

723.1016 Determination of 1959 preliminary acreage allotments for old farms.
723.1017 1959 old farm tobacco acreage allotments.
723.1018 Adjustment of acreage allotments for old farms, corrections of errors made in acreage allotments for old farms, and allotments for overlooked old farms.
723.1019 Reduction of acreage allotment for violation of the marketing quota regulations for prior marketing year.
723.1020 Reallocation of allotments released from farms removed from agricultural production or shifted from production of cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco to production of shade-grown cigar-leaf (type 61) wrapper tobacco.
723.1021 Farms divided or combined.
723.1022 Determination of normal yields for farms.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

723.1023 Determination of acreage allotments for new farms.
723.1024 Time for filing application.
723.1025 Determination of normal yields for new farms.

MISCELLANEOUS

723.1026 Determination of acreage allotments and normal yields for farms returned to agricultural production or shifted from production of shade-grown cigar-leaf (type 61) wrapper tobacco to production of cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco.
723.1027 Approval of determinations made under §§ 723.1011 to 723.1026, and notices of farm acreage allotments.
723.1028 Application for review.

AUTHORITY: §§ 723.1011 to 723.1028 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, 47, as amended, 63, 69 Stat. 684; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 723.1011 *Basis and purpose.* The regulations contained in §§ 723.1011 to 723.1028 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1959 farm acreage allotments and normal yields for cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco. The purpose of the regulations in §§ 723.1011 to 723.1028 is to provide the procedure for allocating, on an acreage basis, the national marketing quota for cigar-binder (types 51 and 52) tobacco and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco for the 1959–60 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 723.1011 to 723.1028, public notice (23 F. R. 2429) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 723.1011 to 723.1028 which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 723.1012 *Definitions.* As used in §§ 723.1011 to 723.1028, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) The definitions of the following terms as set forth in Part 719 of this chapter shall apply in §§ 723.1011 to 723.1028: "combination", "community committee", "county committee", "State committee", "county", "county office manager", "cropland", "Department", "Deputy Administrator", "division", "farm", "operator", "person", "producer", "reconstitution", "Secretary", "Soil Bank Contract", "State administrative officer", and "subdivision".

(b) "Director" means the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(c) "New farm" means a farm on which tobacco will be harvested in 1959 for the first time since 1953. If in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is a new farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage with the meaning of "harvested acreage" as provided in paragraph (c) of § 723.1016.

(d) "Old farm" means a farm on which tobacco was harvested in one or more of the five years 1954 through 1958. If in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is an old farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in paragraph (c) of § 723.1016.

(e) "Community cropland factor" means that percentage determined by dividing the total cropland for all old farms in the community in 1958 into the total of the 1958 tobacco acreage allotment for such old farms: *Provided*, That (1) if it is determined that the cropland factors for all communities in the county are substantially the same, the county committee, with the approval of the State committee, may consider the entire county as one community, and (2) if there is only one farm in the county on which tobacco is grown, the community cropland factors of the nearest community in which tobacco is grown shall be used in determining the acreage indicated by cropland.

(f) "Acreage indicated by cropland" means that acreage determined by multiplying the number of acres of cropland in the farm by the community cropland factor.

(g) "Tobacco" means:

(1) Type 42 tobacco, that type of cigar-leaf tobacco commonly known as Gebhardt, Ohio Seedleaf, or Ohio Broadleaf, produced principally in the Miami Valley section of Ohio and extending into Indiana;

(2) Type 43 tobacco, that type of cigar-leaf tobacco commonly known as Zimmer, Spanish, or Zimmer Spanish, produced principally in the Miami Valley section of Ohio and extending into Indiana;

(3) Type 44 tobacco, that type of cigar-leaf tobacco commonly known as Dutch, Shoestring Dutch, or Little Dutch, produced principally in the Miami Valley section of Ohio;

(4) Type 51 tobacco, that type of cigar-leaf tobacco commonly known as Connecticut Valley Broadleaf or Connecticut Broadleaf, produced primarily in the Valley area of Connecticut;

(5) Type 52 tobacco, that type of cigar-leaf tobacco commonly known as Connecticut Valley Havana Seed, or Havana Seed of Connecticut and Massachusetts, produced primarily in the Connecticut Valley area of Massachusetts and Connecticut;

(6) Type 53 tobacco, that type of cigar-leaf tobacco commonly known as York State Tobacco, or Havana Seed of New York and Pennsylvania, produced principally in the Big Flats section of New York, extending into Pennsylvania and in the Onondaga section of New York State;

(7) Type 54 tobacco, that type of cigar-leaf tobacco commonly known as southern Wisconsin cigar-leaf or southern Wisconsin binder type, produced principally south and east of the Wisconsin River; or

(8) Type 55 tobacco, that type of cigar-leaf tobacco commonly known as Northern Wisconsin cigar-leaf or Northern Wisconsin binder type, produced principally north and west of the Wisconsin River, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture, or all such types of tobacco as indicated by the context. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco. The term "tobacco" shall include all leaves harvested, including trash.

§ 723.1013 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-hundredth acre. The rule of fractions will be to round upward fractions of more than five-thousandths and to round downward fractions of five-thousandths or less (i. e., 0.0050 would be 0.00 and 0.0051 would be 0.01).

§ 723.1014 *Instructions and forms.* The director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions for internal management as are necessary for carrying out §§ 723.1011 to 723.1028. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator for Production Adjustment, Commodity Stabilization Service.

§ 723.1015 *Applicability of §§ 723.1011 to 723.1028.* Sections 723.1011 to 723.1028 govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1959.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 723.1016 *Determination of 1959 preliminary acreage allotments for old farms.* (a) The 1959 preliminary acreage allotment for an old tobacco farm shall be the 1958 farm acreage allotment established for such farm, except that where a quantity of tobacco produced on a farm prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty has been reduced because the 1958 acreage allotment for such farm was not fully harvested, and the allotments for such farm for the three years 1956–58 were underharvested to the extent provided in paragraph (c) of this section, the 1959 preliminary acreage allotment for such farm shall be determined subject to the provisions of paragraph (c) of this section, if applicable.

(b) For the purpose of determining, under the provisions of paragraph (a) of this section, a 1959 preliminary acreage allotment for an old farm equal to the 1958 farm acreage allotment for such farm, the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment determined for such farm prior to reduction, if any, because of a violation of the tobacco marketing quota regulations for a prior marketing year; and for the purpose of determining a 1959 preliminary acreage allotment for an old farm under the provisions of paragraph (c) of this section, the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment established for such farm after any such reduction.

(c) The provisions of this paragraph shall be applied, if applicable, in the case of an old farm, only where a quantity of tobacco produced thereon prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty was reduced because the 1958 allotment was not fully harvested and acreage allotments were underharvested as provided in this paragraph. If the harvested acreage (as that term is explained in subparagraphs (1), (2) and (3) of this paragraph) of cigar-binder or cigar-filler and binder tobacco on such old farm in each of the three years 1956–58 was less than 75 percent of the farm acreage allotment for each of such respective years, the 1959 preliminary allotment for such farm shall be the larger of the largest acreage of tobacco harvested on the farm in any one of such three years, or the average acreage of tobacco harvested on the farm in the five years 1954–58: *Provided*, That any such 1959 preliminary allotment shall not exceed the 1958 farm acreage allotment or be less than 0.01 acre.

(1) For the purpose of this paragraph, the 1958 harvested acreage shall have the meaning and include the acreage as provided in § 723.816 (b) (tobacco marketing quota regulations for the 1957–58 marketing year (21 F. R. 7202)); the 1957 harvested acreage shall have the meaning and include the acreage as provided in § 723.916 (c) (tobacco marketing quota regulations for the 1958–59 marketing year (22 F. R. 4351, 8127; 23 F. R. 135, 638)); and the 1958 harvested acreage shall include the acreage on the farm applicable to the kind of tobacco involved which is determined as provided in subparagraphs (2) and (3) of this paragraph to be devoted or diverted in 1958 to participation in the acreage reserve program or conservation reserve program.

(2) The tobacco acreage devoted in 1958 to the acreage reserve program shall be the smallest of (i) the acreage reserve entered on the agreement, (ii) the measured acreage reserve, or (iii) the 1958 allotment minus the actual acreage devoted in 1958 to tobacco.

(3) The acreage diverted from allotment crops in 1958 to the conservation reserve program shall be the smallest of (i) the acreage determined to be in the conservation reserve at the regular rate, (ii) the reduction in soil bank base crops from the farm's soil bank base, or (iii) the amount by which the sum of all acreage allotments for the farm for crops for which there was a reduction in the quantity of excess commodity stored pursuant to the regulations to postpone or avoid payment of penalty because the 1958 allotments were not fully planted, or as to tobacco was not fully harvested, exceeds the sum of the acreage actually devoted to such allotment crops and the acreage reserve, if any, credited under subparagraph (2) of this paragraph to such crops. The crops involved will share pro rata in the acreage so determined on the basis of the respective reductions made in such crops. Such respective reductions will be the amount by which the 1958 allotment exceeds the sum of the acreage actually devoted to the crop and the acreage devoted to the acreage reserve.

(d) Notwithstanding the foregoing provisions of this section, no 1959 preliminary allotment or 1959 farm tobacco acreage allotment shall be determined for any farm that the county and State committee determine has been retired from agricultural production: *Provided*, That this paragraph shall not preclude the determination of a preliminary acreage allotment for an old farm returned to agricultural production, or for a farm for which an acreage allotment may be determined under the provisions of § 723.1020.

§ 723.1017 *1959 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 723.1016 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms, correction of errors, and for allotments for overlooked old farms pursuant to § 723.1018 shall not exceed the State acreage allotment.

§ 723.1018 *Adjustment of acreage allotments for old farms, correction of errors, and allotments for overlooked old farms.* Notwithstanding the limitations contained in § 723.1016, the individual 1959 farm acreage allotment heretofore established for an old farm may be increased if the county committee justifies such increase to the satisfaction of the State committee or its representative as being necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available in the State for increasing allotments as above described under this section, correction of errors, and providing acreage allotments for overlooked farms shall not exceed in the case of cigar-binder (types 51 and 52) tobacco one percent of the total acreage allotted to all farms in the State for the production of such kind of tobacco for the 1958–59 marketing year, and shall not exceed in the case of cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco 4 percent of the total acreage allotted to all farms in the State for the production of such kind of tobacco for the 1958–59 marketing year.

§ 723.1019 *Reductions of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* (a) If tobacco was marketed or was permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm for the 1958–59 or a prior marketing year which in fact was produced on a different farm, the 1959 acreage allotments established for both such farms shall be reduced, as provided in this section, except that such reduction for any such farm shall not be made if the county and State committees determine that no person connected with such farm caused, aided, or acquiesced in such marketing.

(b) The operator or any producer on the farm shall have furnished complete and accurate proof of the disposition of all tobacco produced on the farm in 1958 or a prior year and in the event of failure to furnish such proof, the 1959 acreage allotment for the farm shall be reduced as provided in this section.

(c) If any producer has filed, or aided or acquiesced in the filing of, any false report with respect to the acreage of tobacco grown on the farm in 1958 or a prior year, the 1959 acreage allotment for the farm shall be reduced as provided in this section.

(d) If in the calendar year 1958 more than one crop of tobacco was grown from (1) the same tobacco plants, or (2 different tobacco plants, and is harvested for marketing from the same acreage of a farm, the acreage allotment next established for such farm shall be reduced by an amount equivalent to the acreage from which more than one crop of tobacco was so grown and harvested. In case the allotment is transferred through a State pool to another farm under § 723.1020 before the allotment reduction can be made effective on the farm on which the tobacco was grown, the allotment first established for the farm to which it is so transferred shall be reduced as described above in this paragraph.

(e) Any reduction made with respect to a farm's 1959 acreage allotment for any of the reasons heretofore provided in this section shall be made no later than May 1, 1959. If the reduction cannot be made by such dates, the reduction shall be made with respect to the acreage allotment next established for the farm but no later than by a corresponding date to be specified in a subsequent year: *Provided, however*, That no reduction shall be made under this section in the 1959 acreage allotment for any farm for a violation described in paragraph (a), (b), (c), or (d) of this section if the acreage allotment for such farm for any prior year was reduced on account of the same violation.

(f) The amount of reduction in the 1959 allotment for a violation described in paragraph (a), (b), or (c) of this section shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota, the amount of reduction shall be 100 percent. The quantity of tobacco determined by the county committee to have been falsely identified, or produced on acreage falsely omitted from an acreage report as filed, or for which the county committee determines that proof of disposition has not been furnished, shall be considered as the amount of tobacco involved in the violation. If the actual quantity of tobacco falsely identified, or produced on acreage falsely omitted from an acreage report, or for which proof of disposition has not been furnished is known, such quantity shall be determined by the county committee to be the amount of tobacco involved in the violation. If the actual quantity of tobacco produced on acreage falsely omitted from an acreage report or for which proof of disposition has not been furnished is not known, the county committee shall determine such quantity in the following manner, and if the actual total production of tobacco on the farm is not known, the county committee shall determine such total production and the farm marketing quota in the following manner. The yield per acre and the total production of tobacco on the farm shall be determined by taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided*, That the determination of the total production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The yield per acre and the total production of tobacco for the farm as so determined by the county committee shall be deemed to be the actual yield per acre and the actual total production of tobacco for the farm. The actual yield per acre of tobacco on the farm as so determined by the county committee multiplied by the farm acreage allotment shall be deemed to be the actual production of the acreage allotment and the farm marketing quota. Where the actual quantity of tobacco for which proof of disposition has not been furnished is not known, such quantity shall be determined by the county committee to be the quantity of tobacco remaining after deducting from the total production of tobacco on the farm determined as aforesaid, the quantity of tobacco for which proof of disposition has been furnished. Where the actual quantity of tobacco produced on acreage falsely omitted from an acreage report is not known, such quantity shall be determined by the county committee to be the quantity resulting from multiplying the yield per acre for the farm determined as aforesaid by the acreage falsely omitted from the acreage report as filed.

(g) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied as heretofore provided in this section to that portion of the allotment for which a reduction is required under paragraph (a), (b), (c) or (d) of this section.

(h) If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied as heretofore provided in this section to the allotments for the divided farms required to be reduced under paragraph (a) (b), (c) or (d) of this section.

(i) Producers of tobacco in the 1958–59 marketing year shall submit proof of disposition of tobacco and records and reports relative to the provisions of this section as set forth in § 723.952 of this part (Marketing Quota Regulations, 1958–59 marketing year, 1026 (Cigar-Binder and Cigar-Filler and Binder—58)–1).

§ 723.1020 *Reallocation of allotments released from farms removed from agricultural production or shifted from production of cigar-binder (types 51 and 52) tobacco or cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco to production of shade-grown cigar-leaf (type 61) wrapper tobacco.* (a) The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm. The provisions of this paragraph shall not be applicable so long as (1) there is any marketing quota penalty due and unpaid with respect to the marketing of tobacco from the farm acquired by the Federal, State, or other agency; (2) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm, or due to a false acreage report.

(b) The allotment determined or which would have been determined for any land which has been used for the production of cigar-binder (types 51 and 52) tobacco or cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco but which will be used in 1959 for the production of cigar wrapper (type 61) tobacco shall be placed in a State pool and shall be available to the State committee to establish allotments pursuant to § 723.1026 (b).

§ 723.1021 *Farms divided or combined.* Allotments for farms reconstituted for 1959 shall be determined in accordance with Part 719 of this chapter.

§ 723.1022 *Determination of normal yields for old farms.* The county committee will determine a normal yield for each farm for which a 1959 tobacco acreage allotment was established by first obtaining the average of the two highest yields for such farms in the three years 1951, 1953, and 1954, or if tobacco was grown in less than two of such years the yield for the one year will be used in lieu of the average yield of two years. If in any case the preliminary yield so obtained exceeds 125 percent or is less than 80 percent of the county check yield (to be ascertained as hereinafter provided), such preliminary yield shall be adjusted to the applicable percentage, and any preliminary yield may be also adjusted for drought, flood or other abnormal conditions affecting the yield, but the yield so adjusted shall not exceed 125 percent or be less than 80 percent of the county check yield. If the total production extension for all farms in the county in 1956 obtained by multiplying the 1956 acreage allotment for each farm by the preliminary yield so computed for such farm varies more than one percent from the total production extension obtained by multiplying the county check yield by the total of all allotted tobacco acreage in the county for 1956, the preliminary yield for each farm will then be factored to the extent required to eliminate any variance. Subject to the approval of the State committee, the yields may be further factored to provide a yield for each farm in the county that is not more than 125 percent or less than 80 percent of the county check yield. The yield for the farm thus determined shall be the normal yield for the farm: *Provided*, That if the farm has been reconstituted since 1950, the normal yield for such farm shall be determined by the county committee by appraisal taking into consideration available yield data for the land involved and yields established as heretofore provided in this section for similar farms in the community. The State committees or their representatives are authorized to make changes or require changes to be made in farm preliminary normal yields per acre which are necessary to result in a normal yield that is determined in accordance with this section, whether or not a producer questions or appeals the normal yield as determined for the farm to the State committee; however, such changes shall not be permitted to result in a weighted yield per acre for all farms in the county that is in excess of 102 percent of the county check yield. The county check yield shall be determined by the Deputy Administrator on the basis of the average of the two highest yields in the county in the three years 1951, 1953, and 1954, adjusted where necessary so as to conform with and, except for factoring, to not exceed 125 percent or be less than 80 percent of the State check yield; such State check yield to be determined by the Deputy Administrator on the basis of the average of the two highest yields in the State in the three years 1951, 1953, and 1954, but not to exceed 125 percent or be less than 80 percent of the average of the two high year averages of all States which grow the type of tobacco indicated in each of the following groups: (a) Types 51–52, (b) Types 42–44, and (c) Types 54 and 55.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 723.1023 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 723.1020, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm, taking into consideration the past tobacco experience of the farm operator, the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the average of acreage allotments established for two or more but not to exceed five old farms in the community which are similar with respect to land, labor and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco: *And provided further*, That if the acreage planted to tobacco on a new tobacco farm is less than the tobacco acreage allotment otherwise established for the farm pursuant to this section, such allotment shall be automatically reduced to the acreage planted to tobacco on the farm.

(b) Notwithstanding any other provisions of this section, a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience in the kind of tobacco for which an allotment is requested and such experience shall consist of the preparation of the plant bed and extend through preparation of the tobacco for market: *Provided*, That production of tobacco on a farm in 1955, 1956, 1957, or 1958 for which in accordance with applicable law and regulations no 1955, 1956, 1957, or 1958 tobacco acreage allotment respectively was determined shall not be deemed such experience for any producer.

(2) The farm covered by the application shall be the only farm owned or operated by the farm operator for which a cigar-binder (types 51 and 52) tobacco, or cigar-filler and binder (types 42, 43,

44, 53, 54, and 55) tobacco acreage allotment is established for the 1959–60 marketing year.

(3) The farm or any portion thereof shall not have been a part of another farm during any of the five years 1954–58 for which an old farm tobacco acreage allotment was determined, except that this provision shall not of itself make a farm ineligible for a new farm allotment (i) if it is the same farm or a portion of the same farm for which an old farm allotment was cancelled since 1953 due to no tobacco being produced thereon for five years, or (ii) if it was a portion of an old farm during any of the years 1954–58 and at time of division of the farm contained cropland but received no part of the allotment due (a) to division of the allotment on a contribution basis, or (b) to agreement and approval of all interested parties as provided in regulations governing divisions and combinations of allotments.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1959 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quotas into State acreage allotments.

§ 723.1024 *Time for filing application.* An application for a new farm allotment shall be filed with the ASC county office not later than March 11, 1959, unless the farm operator was discharged from the armed services subsequent to December 31, 1958, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 723.1025 *Determination of normal yields for new farms.* The normal yield for a new farm shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 723.1022 for similar farms in the community.

MISCELLANEOUS

§ 723.1026 *Determination of acreage allotments and normal yields for farms returned to agricultural production or shifted from production of shade-grown cigar-leaf (type 61) wrapper tobacco to production of cigar-binder (types 51 and 52) tobacco or cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco.* (a) Notwithstanding the foregoing provisions of §§ 723.1011 to 723.1025, the acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production in 1959 or which was returned to agricultural production in 1958 too late for the 1958 allotment to be established, shall be determined by one of the following methods:

(1) If the land is acquired by the original owner within five years from the date of acquisition by a Federal, State or other agency having the right of eminent domain, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established as the 1959 allotment for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, or if more than five years have elapsed since the date of acquisition by a Federal, State, or other agency having the right of eminent domain, the farm returned to agricultural production shall be regarded as a new farm.

(b) Notwithstanding the foregoing provisions of §§ 723.1011 to 723.1025, an allotment may be established by the county and State committees for a farm which in 1958 was producing shade-grown cigar-leaf (type 61) wrapper tobacco but on which cigar-binder (types 51 and 52) tobacco or cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco will be produced in 1959. The acreage used for such purpose will be limited to that placed in the State pool pursuant to § 723.1020 (b). Any allotment established pursuant to this paragraph shall, to the extent of available acreage in such pool, be determined by the county and State committees so as to be fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. Allotments established pursuant to this paragraph are eligible for consideration for adjustments under § 723.1018.

(c) The normal yield for any such farm under paragraph (a) or (b) of this section shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 723.1022 for similar farms in the community.

§ 723.1027 *Approval of determinations made under §§ 723.1011 to 723.1026, and notices of farm acreage allotments.* (a) All farm acreage allotments and yields shall be determined by the county committee of the county in which the farm is located and shall be reviewed by or on behalf of the State committee and the State committee may revise or require revision of any determinations made under §§ 723.1011 to 723.1026. All acreage allotments and yields shall be approved by or on behalf of the State committee and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by or on behalf of the State committee.

(b) An official notice of the farm acreage allotment and marketing quota shall be mailed to the operator of each farm shown by the records of the county committee to be entitled to an allotment. The notice to the operator of the farm shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which the allotment is established. All such notices shall bear the actual or facsimile signature of a member of the county committee. The facsimile signature may be affixed by the county committeemen or an employee of the county office. Insofar as practical all allotment notices shall be mailed in time to be received prior to the date of any tobacco marketing quota referendum. A copy of such notice, containing thereon the date of mailing, shall be maintained for not less than 30 days in a conspicuous place in the county office and shall thereafter be kept available for public inspection in the office of the county committee. A copy of such notice certified as true and correct shall be furnished without charge to any person interested in the farm in respect to which the allotment is established.

(c) If the records of the county committee indicate that the allotment established for any farm may be changed because of (1) a violation of the marketing quota regulations for a prior marketing year, (2) removal of the farm from agricultural production, (3) division of the farm, or (4) combination of the farm, no notice of such allotment shall be mailed until the proper allotment is determined for the farm by the county committee with the approval of the State committee: *Provided,* That the notice of allotment for any farm shall, insofar as practicable, be mailed no later than May 1, 1959.

(d) If the county committee determines with the approval of the State administrative officer that the official written notice of the farm acreage allotment issued for any farm erroneously stated the acreage allotment to be larger than the correct allotment, and the county committee also determines that the error was not so gross as to place the operator on notice thereof, and that the operator, relying upon such notice and acting in good faith, planted an acreage of tobacco in excess of the correct farm acreage allotment, the acreage allotment shown on the erroneous notice shall be deemed to be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year, provided the acreage of tobacco harvested from the farm is not in excess of the acreage shown on the erroneous notice. In the event the acreage of tobacco harvested exceeds the farm acreage allotment shown on the erroneous notice, the acreage allotment for the farm as correctly determined and shown on a revised notice of farm acreage allotment and marketing quota shall be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year.

§ 723.1028 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application in writing with the ASC county office to have such allotment reviewed by a review committee. The proceedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at ASC county office.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 9th day of July 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

AUTHORITY: §§ 723.871 to 723.888 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, as amended, 47, as amended, 63, 69 Stat. 684; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 723.871 *Basis and purpose.* The regulations contained in §§ 723.871 to 723.888 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1959 farm acreage allotments and normal yields for cigar-filler tobacco. The purpose of the regulations in §§ 723.871 to 723.888 is to provide the procedure for allocating, on an acreage basis, the State marketing quota for cigar-filler tobacco for the 1959–60 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 723.871 to 723.888, public notice (23 F. R. 2429) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 723.871 to 723.888, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 723.872 *Definitions.* As used in §§ 723.871 to 723.888, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) The definitions of the following terms as set forth in Part 719 of this chapter shall apply in §§ 723.871 to 723.888: "Combination", "community committee", "county committee", "State committee", "county", "county office manager", "cropland", "Department", "Deputy Administrator", "division", "farm", "operator", "person", "producer", "reconstitution", "Secretary", "soil bank contract", "State administrative officer", and "subdivision".

(b) "Director" means the Director, or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(c) "New farm" means a farm on which tobacco will be harvested in 1959 for the first time since 1953. If in accordance with applicable law and regulations, no 1955 or 1956 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955 or 1956, respectively, shall not be considered as harvested acreage in determining whether the farm is a new farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in § 723.876.

(d) "Old farm" means a farm on which tobacco was harvested in one or more of the five years 1954 through 1958. If in accordance with applicable law and regulations, no 1955 or 1956 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955 or 1956, respectively, shall not be considered as harvested acreage in determining whether the farm is an old farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in § 723.876.

(e) "Community cropland factor" means that percentage determined by dividing the total cropland for all old farms in the community in 1958 into the total of the 1958 tobacco acreage allotment for such old farms: *Provided,* That (1) if it is determined that the cropland factors for all communities in the county are substantially the same, the county committee, with the approval of the State committee, may consider the entire county as one community, and (2) if there is only one farm in the county on which tobacco is grown, the community cropland factors of the nearest community in which tobacco is grown shall be used in determining the acreage indicated by cropland.

(f) "Acreage indicated by cropland" means that acreage determined by multiplying the number of acres of cropland in the farm by the community cropland factor.

(g) "Tobacco" means cigar-filler tobacco, type 41, that type of cigar-leaf tobacco commonly known as Pennsylvania Seedleaf, Pennsylvania Broadleaf, Pennsylvania filler type, or Lancaster and York County filler type, and produced principally in Lancaster County, Pennsylvania, and the adjoining counties, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco. The term "tobacco" shall include all leaves harvested including trash.

§ 723.873 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-hundredth acre. The rule of fractions will be to round upward fractions of more than five-thousandths and to round downward fractions of five-thousandths or less (i. e., 0.0050 would be 0.00 and 0.0051 would be 0.01).

§ 723.874 *Instructions and forms.* The Director, Tobacco Division, Commodity Stabilization Service, shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions for internal

ing out §§ 723.871 to 723.888. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator for Production Adjustment of the Commodity Stabilization Service.

§ 723.875 *Applicability of §§ 723.871 to 723.888.* Sections 723.871 to 723.888 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1959. The applicability of §§ 723.871 to 723.888 is contingent upon the proclamation of national marketing quotas for cigar-filler tobacco for the three marketing years beginning October 1, 1959, by the Secretary of Agriculture, and the approval thereof by growers voting in a referendum pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

HARVESTED ACREAGE, ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 723.876 *Determination of harvested tobacco acreage for old farms.* The county committee shall determine from the best available data the acreage of tobacco harvested on each old tobacco farm for each of the years 1954–58. Data for making such determinations shall be taken from county office records, producers' sales records, producers' reports, and estimates of other persons having knowledge of tobacco produced on the farm. In determining the harvested acreage for any year, due allowance shall be made for drought, flood, hail, other abnormal weather conditions and plant bed and other diseases. The harvested acreage for 1955 and 1956 on a farm which is in excess of the tobacco acreage allotment for such farm shall not be considered as harvested acreage. Also, the 1956 harvested acreage shall be considered to equal the 1956 allotment if the farm owner or operator notified the county committee not later than August 1, 1956, that he desired to preserve such allotment. If a conservation reserve contract was in effect on the farm in 1956, the harvested acreage for 1956 shall include the acreage by which the 1956 allotment was underharvested, not to exceed the acreage in the conservation reserve contract.

§ 723.877 *Determination of 1959 preliminary acreage allotments for old farms.* (a) The preliminary acreage allotment for an old farm shall be the largest of the following:

(1) The average acreage of tobacco harvested on the farm in the five years 1954–58, except that if the five-year average is in excess of the three-year, 1956–58 average, it shall be reduced to the larger of such three-year average or 50 percent of the five-year average;

(2) 80 percent of the average acreage of tobacco harvested on the farm in the past three years 1956–58, or

(3) 45 percent of the acreage of tobacco harvested on the farm in 1958: *Provided*, That the preliminary acreage allotment for any old farm shall not be less than 0.01 acre.

age allotment. The preliminary allotments calculated for all old farms in the State pursuant to § 723.877 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms pursuant to § 723.879 shall not exceed the State acreage allotment: *Provided*, That if the acreage allotment so determined for any farm (except farms operated, controlled, or directed by a person who also operates, controls, or directs another farm on which tobacco is produced) is less than that acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco, then such acreage allotment shall be increased to the smaller of (a) 120 percent thereof, or (b) that acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco: *And provided further*, That if in the calendar year 1958 more than one crop of tobacco was grown from (1) the same tobacco plants, or (2) different tobacco plants, and is harvested for marketing from the same acreage of a farm, the 1959 acreage allotment established for such farm shall be reduced by an amount equivalent to the acreage from which more than one crop of tobacco was so grown and harvested; in case the allotment is transferred through a State pool to another farm under § 723.880 before the allotment reduction can be made effective on the farm on which the tobacco was grown, the allotment first established for the farm to which it is so transferred shall be reduced as provided herein, or in case the farm is divided or combined with other land before the allotment reduction can be made effective on the farm on which the tobacco was grown, the allotments for the divided farms or the allotment for the combined farm shall be reduced as provided herein.

§ 723.879 *Adjustment of acreage allotments for old farms.* Notwithstanding the limitations contained in § 723.878, the farm acreage allotment for an old farm may be increased if the community and county committees find (with approval of the State committee) that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail and other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section shall not exceed two percent of the 1959 State acreage allotment.

§ 723.880 *Reallocation of allotments released from farms removed from agricultural production.* The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency have placed in the State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. In any year during the five years 1954–58 in which tobacco was not harvested from the farm due to such acquisition the harvested acreage shall be considered to be equal to the sum of the acreages of tobacco harvested from the farm during the five years 1954–58 divided by the number of years tobacco was harvested from the farm in 1954–58. Upon application to the county committee within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

§ 723.881 *Farms divided or combined.* Allotments for farms reconstituted for 1959 shall be determined in accordance with Part 719 of this chapter.

§ 723.882 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the years 1946–57 for which data are available; (b) the soil and other physical factors affecting the production of tobacco on the farm; and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 723.883 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 723.880, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm, taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the average of the allotments established for two or more but not more than five old farms in the community which are similar with respect to land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco: *And provided further*, That if the acreage planted to tobacco on a new tobacco farm is less than the tobacco acreage allotment otherwise established for the farm pursuant to this section, such allotment shall be automatically reduced to the acreage planted to tobacco on the farm.

violations of this section, a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience in cigar-filler (type 41) tobacco and such experience shall consist of the preparation of the plant bed and extend through preparation of the tobacco for market: *Provided*, That production of tobacco on a farm in 1955 or 1956 for which in accordance with applicable law and regulations no 1955 or 1956 tobacco acreage allotment, respectively, was determined shall not be deemed such experience for any producer.

(2) The farm covered by the application shall be the only farm owned or operated by the farm operator for which a cigar-filler (type 41) tobacco acreage allotment is established for the 1959–60 marketing year.

(3) The farm or any portion thereof shall not have been a part of another farm during any of the years 1954–56 for which an old farm tobacco acreage allotment was determined, except that this provision shall not of itself make a farm ineligible for a new farm allotment (i) if it is the same farm or a portion of the same farm for which an old farm allotment was cancelled since 1953 due to no tobacco being produced thereon for five years, or (ii) if it was a portion of an old farm during any of the years 1954–56 and at time of division of the farm contained cropland but received no part of the allotment due (*a*) to division of the allotment on a contribution basis, or (*b*) to agreement and approval of all interested parties as provided in regulations governing divisions and combinations of allotments.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1959 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quotas into State acreage allotments.

§ 723.884 *Time for filing application.* An application for a new farm allotment shall be filed with the ASC county office not later than March 11, 1959, unless the farm operator was discharged from the armed services subsequent to December 31, 1958, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 723.885 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre which the county committee determines is normal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 723.886 *Determination of acreage allotments and normal yields for farms*

Notwithstanding the foregoing provisions of §§ 723.871 to 723.885, the preliminary acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned, within five years from the date of such acquisition, to agricultural production shall be determined as provided in § 723.880. If no tobacco was harvested on the farm during the five years 1954–58 the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§ 723.887 *Approval of determinations made under §§ 723.871 to 723.886.* (a) All allotments and yields shall be reviewed by or on behalf of the State committee and the State committee may revise or require revision of any determinations made under §§ 723.871 to 723.886. All acreage allotments and yields shall be approved by or on behalf of the State committee, and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by or on behalf of the State committee.

(b) An official notice of the farm acreage allotment and marketing quota shall be mailed to the operator of each farm shown by the records of the county committee to be entitled to an allotment. The notice to the operator of the farm shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which the allotment is established. All such notices shall bear the actual or facsimile signature of a member of the county committee. The facsimile signature may be affixed by the county committeemen or an employee of the county office. Insofar as practical all allotment notices shall be mailed in time to be received prior to the date of any tobacco marketing quota referendum. A copy of such notice, containing thereon the date of mailing, shall be maintained for not less than 30 days in a conspicuous place in the county office and shall thereafter be kept available for public inspection in the office of the county committee. A copy of such notice certified as true and correct shall be furnished without charge to any person interested in the farm in respect to which the allotment is established.

(c) If the records of the county committee indicate that the allotment established for any farm may be changed because of (1) removal of the farm from agricultural production, (2) division of the farm, or (3) combination of the farm, no notice of such allotment shall be mailed until the proper allotment is determined for the farm by the county committee with the approval of the State committee: *Provided*, That the notice of allotment for any farm shall, insofar as practicable, be mailed no later than May 1, 1959.

mines with the approval of the State administrative officer that the official written notice of the farm acreage allotment issued for any farm erroneously stated the acreage allotment to be larger than the correct allotment, and the county committee also determines that the error was not so gross as to place the operator on notice thereof, and that the operator, relying upon such notice and acting in good faith, planted an acreage of tobacco in excess of the correct farm acreage allotment, the acreage allotment shown on the erroneous notice shall be deemed to be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year, provided the acreage of tobacco harvested from the farm is not in excess of the acreage shown on the erroneous notice. In the event the acreage of tobacco harvested exceeds the farm acreage allotment shown on the erroneous notice, the acreage allotment for the farm as correctly determined and shown on a revised notice of farm acreage allotment and marketing quota shall be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year.

§ 723.888 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the ASC county office to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at the ASC county office.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 9th day of July 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

AUTHORITY: §§ 725.1011 to 725.1028 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, as amended, 47, as amended, 63, as amended, 66 Stat. 597, as amended, Pub. Law No. 85-92; 7 U. S. C. 1301, 1313, 1315, 1363.

GENERAL

§ 725.1011 *Basis and purpose.* (a) The regulations contained in §§ 725.1011 to 725.1028 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1959 farm acreage allotments and normal yields for burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco. The purpose of the regulations in §§ 725.1011 to 725.1028 is to provide the procedure for allocating, on an acreage basis, the national marketing quota for burley flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1959–60 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 725.1011 to 725.1028, public notice (23 F. R. 2429) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 725.1011 to 725.1028, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

(b) In order that State and county committees may prepare and mail notices of farm acreage allotments for burley, flue-cured, and Virginia sun-cured tobacco as early as possible prior to the referenda to be held with respect to such kinds of tobacco, it is essential that the regulations in §§ 725.1011 to 725.1028, inclusive, be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provisions of the Administrative Procedure Act is impracticable and contrary to the public interest, and such regulations shall be effective upon filing of this document with the Director, Division of the Federal Register.

§ 725.1012 *Definitions.* As used in §§ 725.1011 to 725.1028, and in all instructions, forms, and documents in connection therewith the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) The definitions of the following terms as set forth in Part 719 of this chapter shall apply in §§ 725.1011 to 725.1028: "combination", "community committee", "county committee", "State committee", "county", "county office manager", "cropland", "Department", "Deputy Administrator", "division", "farm", "operator", "person", "producer", "reconstitution", "Secretary", "Soil Bank Contract", "State administrative officer", and "subdivision".

(b) "Director" means the Director, or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(c) "New farm" means a farm on which tobacco will be harvested in 1959 for the first time since 1953. If in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is a new farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in paragraph (c) of § 725.1016.

(d) "Old farm" means a farm on which tobacco was harvested in one or more of the five years 1954 through 1958. If in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is an old farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in paragraph (c) of § 725.1016.

(e) "Community cropland factor" means that percentage determined by dividing the total cropland for all old farms in the community in 1958 into the total of the 1958 tobacco acreage allotment for such old farms: *Provided*, That (1) if it is determined that the cropland factors for all communities in the county are substantially the same, the county committee, with the approval of the State committee, may consider the entire county as one community, and (2) if there is only one farm in the county on which tobacco is grown, the community cropland factors of the nearest community in which tobacco is grown shall be used in determining the acreage indicated by cropland.

(f) "Acreage indicated by cropland" means that acreage determined by multiplying the number of acres of cropland in the farm by the community cropland factor.

(g) "Tobacco" means:

(1) Burley tobacco type 31; flue-cured tobacco types 11, 12, 13, and 14; fire-cured tobacco type 21, fire-cured tobacco types 22, 23, and 24; dark air-cured tobacco types 35 and 36; or Virginia sun-cured tobacco type 37, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture, or all, as indicated by the context.

(2) Any tobacco that has the same characteristics, and corresponding qualities, colors, and lengths as either burley, flue-cured, fire-cured type 21, fire-cured types 22, 23 and 24, dark air-cured or Virginia sun-cured tobacco shall be considered respectively either burley, flue-cured, fire-cured type 21, fire-cured types 22, 23, and 24, dark air-cured or Virginia sun-cured tobacco regardless of any factors of historical or geographical nature which cannot be determined by examination of the tobacco.

§ 725.1013 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-hundredth acre. The rule of fractions will be to round upward fractions of more than five-thousands and to round downward fractions of five-thousandths or less (i. e., 0.0050 would be 0.00 and 0.0051 would be 0.01).

§ 725.1014 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by and the instructions shall be issued by, the Deputy Administrator for Production Adjustment of the Commodity Stabilization Service.

§ 725.1015 *Applicability of §§ 725.1011 to 725.1028.* Sections 725.1011 to 725.1028 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1959, in the case of burley, fire-cured, dark air-cured, and Virginia sun-cured tobacco, and July 1, 1959, in the case of flue-cured tobacco. However, the applicability of §§ 725.1011 to 725.1028, in the case of burley, flue-cured and Virginia sun-cured tobacco, is contingent upon the proclamation of national marketing quotas for such kinds of tobacco for the three marketing years beginning October 1, 1959, by the Secretary of Agri-

culture and approval thereof by growers voting in referenda pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 725.1016 *Determination of 1959 preliminary acreage allotments for old farms.* (a) The 1959 preliminary acreage allotment for an old tobacco farm shall be the 1958 farm acreage allotment established for such farm, except that where a quantity of tobacco produced on a farm prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty has been reduced because of the 1958 acreage allotment for such farm was not fully harvested, and the allotments for such farm for the three years 1956–58 (five years 1954–58 for burley tobacco) were underharvested to the extent provided in paragraph (c) of this section, the 1959 preliminary acreage allotment for such farm shall be determined subject to the provisions of paragraph (c) of this section, if applicable.

(b) For the purpose of determining, under the provisions of paragraph (a) of this section, a 1959 preliminary acreage allotment for an old farm equal to the 1958 farm acreage allotment for such farm, the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment determined for such farm prior to reduction, if any, because of a violation of the tobacco marketing quota regulations for a prior marketing year; and for the purpose of determining a 1959 preliminary acreage allotment for an old farm under the provisions of paragraph (c) of this section the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment established for such farm after any such reduction.

(c) The provisions of this paragraph shall be applied, if applicable, in the case of an old farm, only where a quantity of tobacco produced thereon prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty was reduced because the 1958 allotment was not fully harvested, and acreage allotments were underharvested as provided in this paragraph. If the harvested acreage (as that term is explained in subparagraphs (1), (2) and (3) of this paragraph) of flue-cured, fire-cured, dark air-cured or Virginia sun-cured tobacco on such old farm in each of the three years 1956–58 was less than 75 percent of the farm acreage allotment for each of such respective years, the 1959 preliminary allotment for such farm shall be the larger of the largest acreage of tobacco harvested on the farm in any one of such three years, or the average acreage of tobacco harvested on the farm in the five years 1954–58: *Provided*, That any such 1959 preliminary allotment shall not exceed the 1958 farm acreage allotment or be less than 0.01 acre. If the harvested acreage (as that term is explained in subparagraphs (1), (2) and (3) of this paragraph) of burley tobacco on an old farm subject to this paragraph in each of the five years 1954–58 was less than 50 percent of the farm acreage allotment for each of such respective years, the 1959 preliminary allotment for such farm shall be the largest acreage of tobacco harvested on the farm in any one of such five years, but not less than 0.01 acre.

(1) For the purposes of this paragraph, the 1956 harvested acreage shall have the meaning and include the acreage as provided in § 725.816 (c) (tobacco marketing quota regulations for the 1957–58 marketing year (21 F. R. 6803)); the 1957 harvested acreage shall have the meaning and include the acreage as provided in § 725.916 (c) (tobacco marketing quota regulations for the 1958–59 marketing year (22 F. R. 5675, 8103; 23 F. R. 135)); and the 1958 harvested acreage shall include the acreage on the farm applicable to the kind of tobacco involved which is determined as provided in the following subparagraphs (2) and (3) of this paragraph to be devoted or diverted in 1958 to participation in the acreage reserve program or conservation reserve program.

(2) The tobacco acreage devoted in 1958 to the acreage reserve program shall be the smallest of (i) the acreage reserve entered on the agreement, (ii) the measured acreage reserve, or (iii) the 1958 allotment minus the actual acreage devoted in 1958 to tobacco.

(3) The acreage diverted from allotment crops in 1958 to the conservation reserve program shall be the smallest of (i) the acreage determined to be in the conservation reserve at the regular rate, (ii) the reduction in soil bank base crops from the farm's soil bank base, or (iii) the amount by which the sum of all acreage allotments for the farm for crops for which there was a reduction in the quantity of excess commodity stored pursuant to the regulations to postpone or avoid payment of penalty because the 1958 allotments were not fully planted or as to tobacco was not fully harvested exceeds the sum of the acreage actually devoted to such allotment crops and the acreage reserve, if any, credited under subparagraph (2) of this paragraph to such crops. The crops involved will share pro rata in the acreage so determined on the basis of the respective reductions made in such crops. Such respective reductions will be the amount by which the 1958 allotment exceeds the sum of the acreage actually devoted to the crop and acreage devoted to the acreage reserve.

(d) Notwithstanding the foregoing provisions of this section, no 1959 preliminary allotment or 1959 farm tobacco acreage allotment shall be determined for any farm that the county and State committee determine has been retired from agricultural production: *Provided*, That this paragraph shall not preclude the determination of a preliminary acreage allotment for an old farm returned to agricultural production, or for a farm for which an acreage allotment may be determined under the provisions of § 725.1020.

§ 725.1017 *1959 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 725.1016 shall be adjusted uniformly so that the total of such allotments for old farms plus the acreage available for adjusting acreage allotments for old farms, correction of errors, and for allotments for overlooked old farms pursuant to § 725.1018 shall not exceed the State acreage allotment: *Provided*, That in the case of burley tobacco, the farm acreage allotment shall not be less than the smallest of (a) the 1958 allotment, (b) fifty-hundredths of an acre, or (c) 10 percent of the cropland in the farm: *Provided further*, That no 1958 burley tobacco allotment of seventy-hundredths of an acre or less shall be reduced more than one-tenth of an acre, and no 1958 burley tobacco farm acreage allotment of more than seventy-hundredths of an acre will be reduced to less than six-tenths of an acre.

§ 725.1018 *Adjustment of acreage allotments for old farms, correction of errors, and allotments for overlooked old farms.* Notwithstanding the limitations contained in § 725.1016, the individual 1959 farm acreage allotment heretofore established for an old farm may be increased if the county committee justifies such increase to the satisfaction of the State committee or its representative as being necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available in the State for increasing allotments as above described under this section, correction of errors, and providing acreage allotments for overlooked farms shall not exceed one-tenth of one percent of the total acreage allotted to all tobacco farms in the State for the 1958–59 marketing year.

§ 725.1019 *Reductions of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* (a) If tobacco was marketed or was permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm for the 1958–59 or a prior marketing year which in fact was produced on a different farm, the 1959 acreage allotments established for both such farms shall be reduced, as provided in this section, except that such reduction for any such farm shall not be made if the county and State committees determine that no person connected with such farm caused, aided, or acquiesced in such marketing.

(b) The operator or any producer on the farm shall have furnished complete and accurate proof of the disposition of all tobacco produced on the farm in 1958 or a prior year and in the event of failure to furnish such proof, the 1959 acreage allotment for the farm shall be reduced as provided in this section.

(c) If any producer has filed, or aided or acquiesced in the filing of, any false report with respect to the acreage of tobacco grown on the farm in 1958 or a prior year, the 1959 acreage allotment

for the farm shall be reduced as provided in this section.

(d) If in the calendar year 1958 more than one crop of tobacco was grown from (1) the same tobacco plants, or (2) different tobacco plants, and is harvested for marketing from the same acreage of a farm, the acreage allotment next established for such farm shall be reduced by an amount equivalent to the acreage from which more than one crop of tobacco was so grown and harvested. In case the allotment is transferred through a State pool to another farm under § 725.1020 before the allotment reduction can be made effective on the farm on which the tobacco was grown, the allotment first established for the farm to which it is so transferred shall be reduced as described above in this paragraph.

(e) Any reduction made with respect to a farm's 1959 acreage allotment for any of the reasons heretofore provided in this section shall be made no later than (1) April 1, 1959, in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia or (2) May 1, 1959, in all other States; otherwise, if the reduction cannot be made by such dates, the reduction shall be made with respect to the acreage allotment next established for the farm but no later than by corresponding dates to be specified in a subsequent year: *Provided, however,* That no reduction shall be made under this section in the 1959 acreage allotment for any farm for a violation described in paragraph (a), (b), (c), or (d) of this section if the acreage allotment for such farm for any prior year was reduced on account of the same violation.

(f) The amount of reduction in the 1959 allotment for a violation described in paragraph (a), (b), or (c) of this section shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota, the amount of reduction shall be 100 percent. The quantity of tobacco determined by the county committee to have been falsely identified, or produced on acreage falsely omitted from an acreage report as filed, or for which the county committee determines that proof of disposition has not been furnished, shall be considered as the amount of tobacco involved in the violation. If the actual quantity of tobacco falsely identified, or produced on acreage falsely omitted from an acreage report, or for which proof of disposition has not been furnished is known, such quantity shall be determined by the county committee to be the amount of tobacco involved in the violation. If the actual quantity of tobacco produced on acreage falsely omitted from an acreage report or for which proof of disposition has not been furnished is not known, the county committee shall determine such quantity in the following manner, and if the actual total production of tobacco on the farm is not known, the county committee shall determine such total production and the farm marketing quota in the following manner. The yield per acre and the total production of tobacco on the farm shall be determined by taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided,* That the determination of the total production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The yield per acre and the total production of tobacco for the farm as so determined by the county committee shall be deemed to be the actual yield per acre and the actual total production of tobacco for the farm. The actual yield per acre of tobacco on the farm as so determined by the county committee multiplied by the farm acreage allotment shall be deemed to be the actual production of the acreage allotment and the farm marketing quota. Where the actual quantity of tobacco for which proof of disposition has not been furnished is not known, such quantity shall be determined by the county committee to be the quantity of tobacco remaining after deducting from the total production of tobacco on the farm determined as aforesaid, the quantity of tobacco for which proof of disposition has been furnished. Where the actual quantity of tobacco produced on acreage falsely omitted from an acreage report is not known, such quantity shall be determined by the county committee to be the quantity resulting from multiplying the yield per acre for the farm determined as aforesaid by the acreage falsely omitted from the acreage report as filed.

(g) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied as heretofore provided in this section to that portion of the allotment for which a reduction is required under paragraph (a), (b), (c), or (d) of this section.

(h) If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied as heretofore provided in this section to the allotments for the divided farms required to be reduced under paragraph (a), (b), (c), or (d) of this section.

(i) Producers of tobacco in the 1958–59 marketing year shall submit proof of disposition of tobacco and records and reports relative to the provisions of this section as set forth in § 725.952 (Marketing Quota Regulations, 1958–59 marketing year, 1026—Burley, Flue, Fire, Air and Sun—58) (23 F. R. 4143).

§ 725.1020 *Reallocation of allotments released from farms removed from agricultural production.* (a) The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided,* That such allotment shall not exceed 20 percent of the acreage of cropland on the farm (50 percent of the acreage of cropland on the farm in the case of flue-cured tobacco).

(b) The provisions of this section shall not be applicable so long as (1) there is any marketing quota penalty due and unpaid with respect to the marketing of tobacco from the farm acquired by the Federal, State, or other agency; (2) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm or due to a false acreage report.

§ 725.1021 *Farms divided or combined.* Allotments for farms reconstituted for 1959 shall be determined in accordance with Part 719 of this chapter.

§ 725.1022 *Determination of normal yields for old farms.* The county committee will determine a normal yield for each farm for which a 1959 tobacco acreage allotment was established by: first obtaining the average of the three highest yields for such farms in any three years during the period 1950–55, or if tobacco was grown in less than three years of such period the yield for one year or the average yield of two years in such period. If in any case the preliminary yield so obtained exceeds 125 percent or is less than 80 percent of the county check yield (to be ascertained as hereafter provided) such preliminary yield shall be adjusted to the applicable percentage, and any preliminary yield may be also adjusted for drought, flood, or other abnormal conditions affecting the yield, but the yield so adjusted shall not exceed 125 percent or be less than 80 percent of the county check yield. If the total production extension for all farms in the county in 1956 obtained by multiplying the 1956 acreage allotment for each farm by the preliminary yield so computed for such farm in 1956 varies more than one percent from the total production extension obtained by multiplying the county check yield by the total of all allotted tobacco acreage in the county for 1956, the preliminary yield for each farm will then be factored to the extent required to eliminate any variance. Subject to the approval of the State committee, the yields may be further factored to provide a yield for each farm in the county that is not more than 125 percent or less than 80 percent of the county check yield. The yield for the farm thus determined shall be the

normal yield for the farm: *Provided,* That if the farm has been reconstituted since 1950, the normal yield for such farm shall be determined by the county committee by appraisal taking into consideration available yield data for the land involved and yields established as heretofore provided in this section for similar farms in the community. State committees or their representatives are authorized to make changes or require changes to be made in farm preliminary normal yields per acre which are necessary to result in a normal yield that is determined in accordance with this section whether or not a producer questions or appeals the normal yield as determined for the farm to the State committee; however, such changes shall not be permitted to result in a weighted yield per acre for all farms in the county that is in excess of 102 percent of the county check yield. The county check yield shall be determined by the Deputy Administrator on the basis of the average of the three highest yields in the county in any three years during the period 1950–55 adjusted where necessary so as to conform with and, except for factoring, to not exceed 125 percent or be less than 80 percent of the State check yield; such State check yield to be determined by the Deputy Administrator on the basis of the average of the three highest yields in the State in any three years during the period 1950–55, but not to exceed 125 percent or be less than 80 percent of the average of the three high year averages of all States.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 725.1023 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 725.1020, for a new farm shall be that acreage which the county committee with the approval of the State committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided,* That the acreage allotment so determined shall not exceed 50 percent of the average of acreage allotments established for two or more but not more than five old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco crop rotation practices, and the soil and other physical factors affecting the production of tobacco: *And provided further,* That if the acreage planted to tobacco on a new tobacco farm is less than the tobacco acreage allotment otherwise established for the farm pursuant to this section, such allotment shall be automatically reduced to the acreage planted to tobacco on the farm.

(b) Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience in growing the kind of tobacco for which an allotment is requested either as a share cropper, tenant, or as a farm operator during two of the past five years: *Provided,* That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements of this subparagraph if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from the date of discharge: *And provided further,* That production of tobacco on a farm in 1955, 1956, 1957, or 1958 for which, in accordance with applicable law and regulations no 1955, 1956, 1957, or 1958 tobacco acreage allotment, respectively, was determined shall not be deemed such experience for any producer.

(2) The farm operator shall live on and obtain 50 percent or more of his livelihood from the farm covered by the application.

(3) The farm covered by the application shall be the only farm owned or operated by the farm operator for which a burley, flue-cured, fire-cured, dark air-cured, or Virginia sun-cured tobacco allotment is established for the 1959–60 marketing year.

(4) The farm shall be operated by the owner thereof.

(5) The farm or any portion thereof shall not have been a part of another farm during any of the five years 1954–58 for which an old farm tobacco acreage allotment was determined, except that this provision shall not of itself make a farm ineligible for a new farm allotment (i) if it is the same farm or a portion of the same farm for which an old farm allotment was cancelled since 1953 due to no tobacco being produced thereon for five years, or (ii) if it was a portion of an old farm during any of the years 1954–58 and at time of division of the farm contained cropland but received no part of the allotment due (*a*) to division of the allotment on a contribution basis, or (*b*) to agreement and approval of all interested parties as provided in regulations governing divisions and combinations of allotments.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One-fourth of one percent of the 1959 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quotas into State acreage allotments.

§ 725.1024 *Time for filing application.* An application for a new farm allotment shall be filed with the ASC county office prior to February 16, 1959, unless the farm operator was discharged from the armed services subsequent to December 31, 1958, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 725.1025 *Determination of normal yields for new farms.* The normal yield for a new farm shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 725.1022 for similar farms in the community.

MISCELLANEOUS

§ 725.1026 *Determination of acreage allotments and normal yield for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 725.1011 to 725.1025, the acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain, for any purpose and which is returned to agricultural production in 1959, or which was returned to agricultural production in 1958 too late for a 1958 allotment to be established, shall be determined by one of the following methods:

(1) If the land is acquired by the original owner within five years from the date of acquisition by a Federal, State or other agency having the right of eminent domain, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, or if more than five years have elapsed since the date of acquisition by a Federal, State or other agency having the right of eminent domain, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 725.1022 for similar farms in the community.

§ 725.1027 *Approval of determinations made under §§ 725.1011 to 725.1026, and notices of farm acreage allotments.* (a) All farm acreage allotments and yields shall be determined by the county committee of the county in which the farm is located and shall be reviewed by or on behalf of the State committee, and the State committee may revise or require revision of any determinations

made under §§ 725.1011 to 725.1026. All acreage allotments and yields shall be approved by or on behalf of the State committee and no official notice of acreage allotment shall be mailed to a farm operator until such allotment has been approved by or on behalf of the State committee.

(b) An official notice of the farm acreage allotment and marketing quota shall be mailed to the operator of each farm shown by the records of the county committee to be entitled to an allotment. The notice to the operator of the farm shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which the allotment is established. All such notices shall bear the actual or facsimile signature of a member of the county committee. The facsimile signature may be affixed by the county committeemen or an employee of the county office. Insofar as practical all allotment notices shall be mailed in time to be received prior to the date of any tobacco marketing quota referendum. A copy of such notice containing thereon the date of mailing, shall be maintained for not less than 30 days in a conspicuous place in the county office and shall thereafter be kept available for public inspection in the office of the county committee. A copy of such notice certified as true and correct shall be furnished without charge to any person interested in the farm in respect to which the allotment is established.

(c) If the records of the county committee indicate that the allotment established for any farm may be changed because of (1) a violation of the marketing quota regulations for a prior marketing year, (2) removal of the farm from agricultural production, (3) division of the farm, or (4) combination of the farm, no notice of such allotment shall be mailed until the proper allotment is determined for the farm by the county committee with the approval of the State committee: *Provided*, That the notice of allotment for any farm shall, insofar as practicable, be mailed no later than (i) April 1, 1959, in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia, or (ii) May 1, 1959, in all other States.

(d) If the county committee determines with the approval of the State Administrative Officer that the official written notice of the farm acreage allotment issued for any farm erroneously stated the acreage allotment to be larger than the correct allotment, and the county committee also determines that the error was not so gross as to place the operator on notice thereof, and that the operator, relying upon such notice and acting in good faith, planted an acreage of tobacco in excess of the correct farm acreage allotment, the acreage allotment shown on the erroneous notice shall be deemed to be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year, provided the acreage of tobacco harvested from the farm is not in excess of the acreage shown on the erroneous notice. In the event the acreage of tobacco harvested exceeds the farm acreage allotment shown on the erroneous notice, the acreage allotment for the farm as correctly determined and shown on a revised notice of farm acreage allotment and marketing quota shall be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year.

§ 725.1028 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application in writing with the ASC county office to have such allotment reviewed by a review committee. This procedure governing the review of farm acreage allotments and marketing quotas is contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at the ASC county office.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 9th day of July 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary.

MARKETING QUOTA REGULATIONS, 1959-60 MARKETING YEAR

GENERAL

Sec.
727.1011 Basis and purpose.
727.1012 Definitions.
727.1013 Extent of calculations and rule of fractions.
727.1014 Instructions and forms.
727.1015 Applicability of §§ 727.1011 to 727.1028.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

727.1016 Determination of 1959 preliminary acreage allotments for old farms.
727.1017 1959 old farm tobacco acreage allotments.
787.1018 Adjustment of acreage allotments for old farms, correction of errors made in acreage allotments for old farms; and allotments for overlooked old farms.
727.1019 Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.
727.1020 Reallocation of allotments released from farms removed from agricultural production.
727.1021 Farms divided or combined.
727.1022 Determination of normal yields for old farms.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

Sec.
727.1023 Determination of acreage allotments for new farms.
727.1024 Time for filing application.
727.1025 Determination of normal yields for new farms.

MISCELLANEOUS

727.1026 Determination of acreage allotments and normal yields for farms returned to agricultural production.
727.1027 Approval of determinations made under §§ 727.1011 to 727.1026 and notices of farm acreage allotments.
727.1028 Application for review.

AUTHORITY: §§ 727.1011 to 727.1028 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, as amended, 47, as amended, 63, 69 Stat. 684; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 727.1011 *Basis and purpose.* The regulations contained in §§ 727.1011 to 727.1028 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1959 farm acreage allotments and normal yields for Maryland tobacco. The purpose of the regulations in §§ 727.1011 to 727.1028 is to provide the procedure for allocating on an acreage basis, the national marketing quota for Maryland tobacco for the 1959–60 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 727.1011 to 727.1028, public notice (23 F. R. 2429) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 727.1011 to 727.1028, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 727.1012 *Definitions.* As used in §§ 727.1011 to 727.1028 and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) The definitions of the following terms as set forth in Part 719 of this chapter shall apply in §§ 727.1011 to 727.1028: "combination", "community committee", "county committee", "State committee", "county", "county office manager", "cropland", "Department", "Deputy Administrator", "division", "farm", "operator", "person", "producer", "reconstitution", "Secretary", "Soil Bank Contract", "State administrative officer", and "subdivision".

(b) "Director" means the Director, or Acting Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture.

(c) "New farm" means a farm on which tobacco will be harvested in 1959 for the first time since 1953. If, in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco har-

vested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is a new farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in paragraph (c) of § 727.1016.

(d) "Old farm" means a farm on which tobacco was harvested in one or more of the five years 1954 through 1958. If in accordance with applicable law and regulations, no 1955, 1956, 1957, or 1958 tobacco acreage allotment was determined for the farm, any acreage of tobacco harvested in 1955, 1956, 1957, or 1958, respectively, shall not be considered as harvested acreage in determining whether the farm is an old farm. The term "harvested" as used in this paragraph shall include acreage preserved as provided by section 377 of the Agricultural Adjustment Act of 1938, as amended, and acreage within the meaning of "harvested acreage" as provided in paragraph (c) of § 727.1016.

(e) "Community cropland factor" means that percentage determined by dividing the total cropland for all old farms in the community in 1958 into the total of the 1958 tobacco acreage allotment for such old farms: *Provided*, That (1) if it is determined that the cropland factors for all communities in the county are substantially the same, the county committee, with the approval of the State committee, may consider the entire county as one community, and (2) if there is only one farm in the county on which tobacco is grown, the community cropland factors of the nearest community in which tobacco is grown shall be used in determining the acreage indicated by cropland.

(f) "Acreage indicated by cropland" means that acreage determined by multiplying the number of acres of cropland in the farm by the community cropland factor.

(g) "Tobacco" means Maryland tobacco, type 32, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths, shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco.

§ 727.1013 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-hundredth acre. The rule of fractions will be to round upward fractions of more than five-thousandths and to round downward fractions of five-thousandths or less (i. e., 0.0050 would be 0.00 and 0.0051 would be 0.01).

§ 727.1014 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions for internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator for Production Adjustment of the Commodity Stabilization Service.

§ 727.1015 *Applicability of §§ 727.1011 to 727.1028.* Sections 727.1011 to 727.1028 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1959. However, the applicability of §§ 727.1011 to 727.1028 is contingent upon the proclamation of a national marketing quota for Maryland tobacco for the three marketing years beginning October 1, 1959, by the Secretary of Agriculture and approval thereof by growers voting in a referendum pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 727.1016 *Determination of 1959 preliminary acreage allotments for old farms.* (a) The 1959 preliminary acreage allotment for an old tobacco farm shall be the 1958 farm acreage allotment established for such farm, except that where a quantity of tobacco produced on a farm prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty has been reduced because the 1958 acreage allotment for such farm was not fully harvested, and the allotments for such farm for the three years 1956–58 were underharvested to the extent provided in paragraph (c) of this section, the 1959 preliminary acreage allotment for such farm shall be determined subject to the provisions of paragraph (c) of this section, if applicable.

(b) For the purpose of determining, under the provisions of paragraph (a) of this section, a 1959 preliminary acreage allotment for an old farm equal to the 1958 farm acreage allotment for such farm, the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment determined for such farm prior to reduction, if any, because of a violation of the tobacco marketing quota regulations for a prior marketing year; and for the purpose of determining a 1959 preliminary acreage allotment for an old farm under the provisions of paragraph (c) of this section, the 1958 farm acreage allotment shall mean the 1958 farm acreage allotment established for such farm after any such reduction.

(c) The provisions of this paragraph shall be applied, if applicable, in the case of an old farm, only where a quantity of tobacco produced thereon prior to 1958 and stored under bond pursuant to regulations to postpone or avoid payment of penalty was reduced because the 1958 allotment was not fully harvested, and acreage allotments were underharvested as provided in this paragraph. If the harvested acreage (as that term is explained in subparagraphs (1), (2) and (3) of this paragraph) of Maryland tobacco on such old farm in each of the three years 1956–58 was less than 75 percent of the farm acreage allotment for each of such respective years, the 1959 preliminary allotment for such farm shall be the larger of the largest acreage of tobacco harvested on the farm in any one of such three years, or the average acreage of tobacco harvested on the farm in the five years 1954–58: *Provided*, That any such 1959 preliminary allotment shall not exceed the 1958 farm acreage allotment or be less than 0.01 acre.

(1) For the purposes of this paragraph, the 1956 harvested acreage shall have the meaning and include the acreage as provided in § 727.816 (b) (tobacco marketing quota regulations for the 1957–58 marketing year (21 F. R. 6882)), the 1957 harvested acreage shall have the meaning and include the acreage as provided in § 727.916 (c) (tobacco marketing quota regulations for the 1957–58 marketing year (22 F. R. 4355, 4912; 23 F. R. 136)); and the 1958 harvested acreage shall include the acreage on the farm applicable to the kind of tobacco involved which is determined as provided in the following subparagraphs (2) and (3) of this paragraph to be devoted or diverted in 1958 to participation in the acreage reserve program or conservation reserve program.

(2) The tobacco acreage devoted in 1958 to the acreage reserve program shall be the smallest of (i) the acreage reserve entered on the agreement, (ii) the measured acreage reserve, or (iii) the 1958 allotment minus the actual acreage devoted in 1958 to tobacco.

(3) The acreage diverted from allotment crops in 1958 to the conservation reserve program shall be the smallest of (i) the acreage determined to be in the conservation reserve at the regular rate, (ii) the reduction in soil bank base crops from the farm's soil bank base, or (iii) the amount by which the sum of all acreage allotments for the farm for crops for which there was a reduction in the quantity of excess commodity stored pursuant to the regulations to postpone or avoid payment of penalty because the 1958 allotments were not fully planted or as to tobacco was not fully harvested exceeds the sum of the acreage actually devoted to such allotment crops and the acreage reserve, if any, credited under subparagraph (2) of this section to such crops. The crops involved will share pro rata in the acreage so determined on the basis of the respective reductions made in such crops. Such respective reductions will be the amount by which the 1958 allotment exceeds the sum of the acreage actually devoted to the crop and the acreage devoted to the acreage reserve.

(d) Notwithstanding the foregoing provisions of this section, no 1959 preliminary allotment or 1959 farm tobacco acreage allotment shall be determined for any farm that the county and State committee determine has been retired from agricultural production: *Provided*, That this paragraph shall not preclude the determination of a preliminary acreage allotment for an old farm returned to agricultural production, or for a farm for which an acreage allotment may be determined under the provisions of § 727.1020.

§ 727.1017 *1959 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 727.1016 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms, correction of errors made in old farm allotments, and allotments for overlooked old farms pursuant to § 727.1018 shall not exceed the State acreage allotment.

§ 727.1018 *Adjustment of acreage allotments for old farms, correction of errors made in old farm allotments, and allotments for overlooked old farms.* Notwithstanding the limitations contained in § 727.1016, the farm acreage allotment for an old farm may be increased if the community and county committees find (with the approval of the State committee) that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section, correction of errors made in old farm allotments, and allotments for overlooked old farms shall not exceed three-fourths of one percent of the total acreage allotted to all tobacco farms in the State for the 1958–59 marketing year.

§ 727.1019 *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* (a) If tobacco was marketed or was permitted to be marketed in any marketing year as having been produced on the acreage allotment for any farm for the 1958–59 or a prior marketing year which in fact was produced on a different farm, the 1959 acreage allotments established for both such farms shall be reduced, as provided in this section, except that such reduction for any such farm shall not be made if the county and State committee determine that no person connected with such farm caused, aided, or acquiesced in such marketing.

(b) The operator or any producer on the farm shall have furnished complete and accurate proof of the disposition of all tobacco produced on the farm in 1958 or a prior year and in the event of failure to furnish such proof, the 1959 acreage allotment for the farm shall be reduced as provided in this section.

(c) If any producer has filed, or aided or acquiesced in the filing of, any false report with respect to the acreage of tobacco grown on the farm in 1958 or a prior year, the 1959 acreage allotment for the farm shall be reduced as provided in this section.

(d) If in the calendar year 1958 more than one crop of tobacco was grown from (1) the same tobacco plants, or (2) different tobacco plants, and is harvested for marketing from the same acreage of a farm, the acreage allotment next established for such farm shall be reduced by an amount equivalent to the acreage from which more than one crop of tobacco was so grown and harvested. In case the allotment is transferred through a State pool to another farm under § 727.1020 before the allotment reduction can be made effective on the farm on which the tobacco was grown, the allotment first established for the farm to which it is so transferred shall be reduced as described above in this paragraph.

(e) Any reduction made with respect to a farm's 1959 acreage allotment for any of the reasons heretofore provided in this section shall be made no later than May 1, 1959. If the reduction cannot be made by such dates, the reduction shall be made with respect to the acreage allotment next established for the farm but no later than by a corresponding date to be specified in a subsequent year: *Provided, however,* That no reduction shall be made under this section in the 1959 acreage allotment for any farm for a violation described in paragraph (a), (b), (c), or (d) of this section if the acreage allotment for such farm for any prior year was reduced on account of the same violation.

(f) The amount of reduction in the 1959 allotment for a violation described in paragraph (a), (b) or (c) of this section shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota, the amount of reduction shall be 100 percent. The quantity of tobacco determined by the county committee to have been falsely identified, or produced on acreage falsely omitted from an acreage report as filed, or for which the county committee determines that proof of disposition has not been furnished, shall be considered as the amount of tobacco involved in the violation. If the actual quantity of tobacco falsely identified, or produced on acreage falsely omitted from an acreage report, or for which proof of disposition has not been furnished is known, such quantity shall be determined by the county committee to be the amount of tobacco involved in the violation. If the actual quantity of tobacco produced on acreage falsely omitted from an acreage report or for which proof of disposition has not been furnished is not known, the county committee shall determine such quantity in the following manner, and if the actual total production of tobacco on the farm is not known, the county committee shall determine such total production and the farm marketing quota in the following manner. The yield per acre and the total production of tobacco on the farm shall be determined by taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided,* That the determination of the total production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The yield per acre and the total production of tobacco for the farm as so determined by the county committee shall be deemed to be the actual yield per acre and the actual total production of tobacco for the farm. The actual yield per acre of tobacco on the farm as so determined by the county committee multiplied by the farm acreage allotment shall be deemed to be the actual production of the acreage allotment and the farm marketing quota. Where the actual quantity of tobacco for which proof of disposition has not been furnished is not known, such quantity shall be determined by the county committee to be the quantity of tobacco remaining after deducting from the total production of tobacco on the farm determined as aforesaid, the quantity of tobacco for which proof of disposition has been furnished. Where the actual quantity of tobacco produced on acreage falsely omitted from an acreage report is not known, such quantity shall be determined by the county committee to be the quantity resulting from multiplying the yield per acre for the farm determined as aforesaid by the acreage falsely omitted from the acreage report as filed.

(g) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied as heretofore provided in this section to that portion of the allotment for which a reduction is required under paragraph (a), (b), (c), or (d) of this section.

(h) If the farm involved in the violation has been divided prior to the reductions, the reduction shall be applied as heretofore provided in this section to the allotments for the divided farms required to be reduced under paragraph (a), (b), (c), or (d) of this section.

(i) Producers of tobacco in the 1958–59 marketing year shall submit proof of disposition of tobacco and records and reports relative to the provisions of this section as set forth in § 727.952 of this part (Marketing Quota Regulations, 1958–59 Marketing Year, 1026—Maryland—58).

§ 727.1020 *Reallocation of allotments released from farms removed from agricultural production.* (a) The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm

owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided,* That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

(b) The provisions of this section shall not be applicable so long as (1) there is any marketing quota penalty due and unpaid with respect to the marketing of tobacco from the farm acquired by the Federal, State, or other agency; (2) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper indentification of tobacco produced on or marketed from such farm or due to a false acreage report.

§ 727.1021 *Farms divided or combined.* Allotments for farms reconstituted for 1959 shall be determined in accordance with Part 719 of this chapter.

§ 727.1022 *Determination of normal yields for old farms.* The county committee will determine by appraisal a normal yield for each farm for which a 1959 tobacco acreage allotment was established on the basis of the best yield information available for the years 1950–55. The preliminary yield so appraised shall not exceed 125 percent or be less than 80 percent of the county check yield (to be ascertained as hereafter provided). Any preliminary yield may be also adjusted for drought, flood or other abnormal conditions affecting the yield, but the preliminary yield so adjusted shall not exceed 125 percent or be less than 80 percent of the county check yield. If the total production extension for all farms in the county in 1956 obtained by multiplying the 1956 acreage allotment for each farm by the preliminary yield so computed for such farm varies more than one percent from the total production extension obtained by multiplying the county check yield by the total of all allotted tobacco acreage in the county for 1956, the yield for each farm will then be factored to the extent required to eliminate any variance. Subject to the approval of the State committee, the yields may be further factored to provide a yield for each farm in the county that is not more than 125 percent or less than 80 percent of the county yield. The yield for the farm thus determined shall be the normal yield for the farm. State committees or their representatives are authorized to make changes or require changes to be made in farm preliminary normal yields per acre which are necessary to result in a normal yield that is determined in accordance with this section whether or not a producer questions or appeals the normal yield as determined for the farm to the State committee; however, such changes shall not be permitted to result in a weighted yield per acre for all farms in the county that is in excess of 102 percent for the county check yield. The county check yield shall be determined by the Deputy Administrator on the basis of the average of the three highest yields in the county in any three years during the period 1950–55 adjusted where necessary so as to conform with and, except for factoring, to not exceed 125 percent or be less than 80 percent of the State check yields; such State check yield to be determined by the Deputy Administrator on the basis of the average of the three highest yields in the State in any three years during the period 1950–55, but not to exceed 125 percent or be less than 80 percent of the average of the three high year averages in all States.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 727.1023 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 727.1020, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator, the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided,* That the acreage allotment so determined shall not exceed 50 percent of the average of the acreage allotments established for two or more, but not more than five, old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco: *And provided further,* That if the acreage planted to tobacco on a new tobacco farm is less than the tobacco acreage allotment otherwise established for the farm pursuant to this section, such allotment shall be automatically reduced to the acreage planted to tobacco on the farm.

(b) Notwithstanding any other provisions of this section, a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience during two of the past five years in Maryland tobacco and such experience shall have been for the entire crop year beginning with the preparation of the plant bed and extending through preparation of the tobacco for market: *Provided,* That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements of this subparagraph if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from date of discharge: *And provided further,* That production of tobacco on a farm in 1955, 1956, 1957, or 1958 for which in accordance with applicable law and regulations no 1955, 1956, 1957, or 1958 tobacco acreage allotment, respectively, was determined shall not be deemed such experience for any producer.

(2) The farm operator shall live on and receive 50 percent or more of his livelihood from the farm covered by the application.

(3) The farm shall not have a 1959 allotment for any kind of tobacco other than that for which application is made under this part.

(4) The farm covered by the application shall be the only farm owned or operated by the farm operator for which a Maryland tobacco acreage allotment is established for the 1959–60 marketing year.

(5) The farm shall be operated by the owner thereof.

(6) The farm or any portion thereof shall not have been a part of another farm during any of the five years 1954–58 for which an old farm tobacco acreage allotment was determined, except that this provision shall not of itself make a farm ineligible for a new farm allotment (i) if it is the same farm or a portion of the same farm for which an old farm allotment was cancelled since 1953 due to no tobacco being produced thereon for five years, or (ii) if it was a portion of an old farm during any of the years 1954–58 and at time of division of the farm contained cropland but received no part of the allotment due (*a*) to division of the allotment on a contribution basis, or (*b*) to agreement and approval of all interested parties as provided in regulations governing divisions and combinations of allotments.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One-eighth of one percent of the 1959 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 727.1024 *Time for filing application.* An application for a new farm allotment shall be filed with the ASC county office no later than February 15, 1959, unless the farm operator was discharged from the armed services subsequent to December 31, 1958, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 727.1025 *Determination of normal yields for new farms.* The normal yield for a new farm shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 727.1022 for similar farms in the community.

MISCELLANEOUS

§ 727.1026 *Determination of acreage allotments and normal yields for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 727.1011 to 727.1025, the acreage allotments for any farm which was

acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production in 1959 or which was returned to agricultural production in 1958 too late for the 1958 allotment to be established shall be determined by one of the following methods:

(1) If the land is acquired by the original owner within five years from the date of acquisition by a Federal, State or other agency having the right of eminent domain, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established as the 1959 allotment for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, or if more than five years have elapsed since the date of acquisition by a Federal, State or other agency having the right of eminent domain, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines by appraisal, taking into consideration available yield data for the land involved and yields established as provided in § 727.1022 for similar farms in the community.

§ 727.1027 *Approval of determinations made under §§ 727.1011 to 727.1026, and notices of farm acreage allotments.* (a) All farm acreage allotments and yields shall be determined by the county committee of the county in which the farm is located and shall be reviewed by or on behalf of the State committee, and the State committee may revise or require revision of any determinations made under §§ 727.1011 to 727.1026. All acreage allotments and yields shall be approved by or on behalf of the State committee, and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by or on behalf of the State committee.

(b) An official notice of the farm acreage allotment and marketing quota shall be mailed to the operator of each farm shown by the records of the county committee to be entitled to an allotment. The notice to the operator of the farm shall constitute notice to all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which the allotment is established. All such notices shall bear the actual or facsimile signature of a member of the county committee. The facsimile signature may be affixed by the county committeemen or an employee of the county office. Insofar as practicable all allotment notices shall be mailed in time to be received prior to the date of any tobacco marketing quota referendum. A copy of such notice, containing thereon the date of mailing, shall be maintained for not less than 30 days in a conspicuous place in the county office and shall thereafter be kept available for public inspection in the office of the county committee. A copy of such notice certified as true and correct shall be furnished without charge to any person interested in the farm in respect to which the allotment is established.

(c) If the records of the county committee indicate that the allotment established for any farm may be changed because of (1) a violation of the marketing quota regulations for a prior marketing year, (2) removal of the farm from agricultural production, (3) division of the farm, or (4) combination of the farm, no notice of such allotment shall be mailed until the proper allotment is determined for the farm by the county committee with the approval of the State committee: *Provided*, That the notice of allotment for any farm shall, insofar as practicable, be mailed no later than May 1, 1959.

(d) If the county committee determines with the approval of the State administrative officer that the official written notice of the farm acreage allotment issued for any farm erroneously stated the acreage allotment to be larger than the correct allotment, and the county committee also determines that the error was not so gross as to place the operator on notice thereof, and that the operator, relying upon such notice and acting in good faith, planted an acreage of tobacco in excess of the correct farm acreage allotment, the acreage allotment shown on the erroneous notice shall be deemed to be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year, provided the acreage of tobacco harvested from the farm is not in excess of the acreage shown on the erroneous notice. In the event the acreage of tobacco harvested exceeds the farm acreage allotment shown on the erroneous notice, the acreage allotment for the farm as correctly determined and shown on a revised notice of farm acreage allotment and marketing quota shall be the tobacco acreage allotment for the farm for all purposes in connection with the tobacco marketing quota program for the 1959–60 marketing year.

§ 727.1028 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may within fifteen days after mailing of the official notice of farm acreage allotment and marketing quota, file application in writing with the ASC county office to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at the ASC county office.

NOTE: The record keeping and reporting requirements of these regulations have been approved by and subsequent reporting requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Done at Washington, D. C., this 9th day of July 1958. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.76, as Amended, Supp. 2]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

COLORADO PROPORTIONATE SHARE AREA AND FARM PROPORTIONATE SHARES FOR THE 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9577; 23 F. R. 4325), the Agricultural Stabilization and Conservation Colorado State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm proportionate shares from the allocation of 143,101 acres established for Colorado by the determination. Copies of these bases and procedures are available for public inspection at the office of such Committee at the New Custom House, Denver, Colorado, and at the Offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Colorado. These bases and procedures incorporate the following:

§ 850.79 *Colorado*—(a) *Proportionate share areas.* Colorado shall be divided into three proportionate share areas comprising the parts of the State included in the factory districts of the Great Western Sugar Company, the Rock Ford-Sugar City-Swink factory districts, and the Delta factory district. These areas shall be designated Northern Area, Southern Area, and Western Area, respectively. Acreage allotments for these areas shall be computed by applying a weighting of 50 percent to the seven-year 1950–56 average accredited acreage for each area as a measure of "past production", and a weighting of 50 percent to the average of the two highest years' accredited acreage during the period 1950–56, as a measure of ability to produce, with pro rata adjustments to the State allocation of 143,101 acres. This results in the following area allocations: Northern Area—116,996 acres; Southern Area—20,660 acres; and Western Area—5,445 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows: Northern Area—1,170 acres for new producers, 1,170 acres for appeals, and 6,492 acres for adjustments in initial shares; Southern Area—207 acres for new producers, 207 acres for appeals, and 2,907 acres for adjustments in initial shares; and Western Area—54 acres for new producers, 54 acres for appeals, and 1,384 acres for adjustments in initial shares.

(c) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County Office on Form SU–100, Request for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76. If a preliminary request for a tentative farm proportionate share is filed, a fully-completed form SU–100 shall be filed by April 1, 1958. However, requests for proportionate shares may be accepted after such dates and shares may be established if the county committee determines that in any such case the farm operator was prevented from filing a completed form SU–100 by such dates because of absence, illness or other reasons beyond his control.

(d) *Establishment of individual proportionate shares for old-producer farms*—(1) *Farm bases.* For each old-producer farm having an accredited acreage record for at least one of the years 1955–57, a farm base shall be determined by applying a formula to accredited acreage record of sugar beets on the farm during a base period.

(i) *Northern Area.* The base period shall be 1954–56 and the formula shall be the three-year average accredited acreage (1954–56).

(ii) *Southern Area.* The base period shall be 1954–56 and the formula shall be 75 percent of the three-year (1954–56) accredited acreage plus 25 percent of the highest accredited acreage during the base period.

(iii) *Western Area.* The base period shall be 1952–56 and the formula shall be 75 percent of the five-year (1952–56) average accredited acreage plus 25 percent of the two-year (1955–56) average.

(2) *Initial proportionate shares.* For each proportionate share area, the total of individual farm bases for old-producer farms, as established pursuant to this paragraph, is less than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial porportionate shares shall be established from the farm bases in each proportionate share area as follows: For farms for which respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with requested acreage; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases, the area allotment less the prescribed set-asides and the total of the initial shares established in accordance with the preceding part of this subparagraph.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments, and from acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments shall be made in initial farm proportionate shares for old producers so as to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the area by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new-producer farms.* Within the acreage set aside for new producers in each proportionate share area, proportionate shares shall be established in an equitable manner for farms to be operated during the 1958-crop year by new producers (as defined in § 850.76) by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator. In establishing proportionate shares for new producers, consideration shall be given to the minimum acreage below which it would not be considered economically feasible to plant sugar beets on each farm. The State Committee has determined that under usual circumstances, this minimum level should be twelve acres.

(f) *Adjustment under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.76, applicable to appeals.

(g) *Adjustments because of unused acreage.* To the extent of acreage available within the allotment for each proportionate share area from underplanting and failure to plant, and unused acreage from set-asides and other sources, adjustments shall be made in farm proportionate shares during the 1958-crop season. However, any acreage released by producers prior to March 5 shall be used to increase small proportionate shares (less than 50 percent of the average for the area) so as to promote the more efficient operation of farms. In increasing such small-producer shares, the State Committee shall take into consideration the size of beet operations for small farms in the area, the type of operations in the area, and other pertinent factors relating to efficient sugar beet production.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU–103, Notice of Farm Proportionate Share—1958 Sugar Beet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted proportionate share on a form SU–103–A or other similar written notice. For each tentative proportionate share which is established, the person filing the request for such share shall be notified on a form SU–103–B specifying that such tentative share does not constitute a farm proportionate share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets for the bases and procedures established by the Agricultural Stabilization and Conservation Colorado State Committee for determining farm proportionate shares in Colorado in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

Colorado is again divided into the same three areas. Advisory committees, including grower and processor representatives, are utilized. In establishing proportionate shares for old producers, the factors of "past production" and "ability to produce" sugar beets are measured by applying formulas to the accredited acreages for the crop years 1954–56 in the Northern and Southern Areas and for the crop years 1952–56 in the Western Area.

The procedure for establishing farm shares for new producers meets the related requirements of § 850.76. The acreage set aside for such producers is sufficient to establish shares for farms at the prescribed minimum levels for those having the required qualifications. Twelve-acre shares are determined to be minimum economic units for new farms.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals, are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugar beets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U. S. C. 1131, 1132)

Dated: June 12, 1958.

[Sugar Determination 850.76, as Amended, Supp. 4]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

ILLINOIS FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877) the Agricultural Stabilization and Conservation Illinois State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 1,972 acres established for Illinois by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at Room 232, U. S. Post Office and Court House, Springfield, Illinois, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Illinois. These bases and procedures incorporate the following:

§ 850.80 *Illinois*—(a) *Request for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC county office on form SU–100, Requests for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76.

(b) *Establishment of individual farm proportionate shares.* For each farm in Illinois for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 1,972 acres so as to coincide with the acreage of 1958-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be furnished a notice informing him that his proportionate share will coincide with his planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Illinois State Committee for determining farm proportionate shares in Illinois in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

The acreage of sugar beets actually planted within the State is smaller than the State allocation. This situation makes unnecessary the carrying out of detailed procedure which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to producers or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930 as amended; 7 U. S. C. 1131, 1132)

Dated: June 12, 1958.

[SEAL] LEE C. THOMPSON,
Chairman Agricultural Stabilization and Conservation Illinois State Committee.

Approved: July 3, 1958.

LAWRENCE MYERS,
Director, Sugar Division, Commodity Stabilization Service.

[Sugar Determination 850.76, as Amended, Supp. 7]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

INDIANA FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877) the Agricultural Stabilization and Conservation Indiana State Committee has issued the bases and procedures for establishing individual farm proportionate shares from the allocation of 41 acres established for Indiana by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at Room 516, Park Building, 611 N. Park Avenue, Indianapolis, Indiana, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Indiana. These bases and procedures incorporate the following:

§ 850.83 *Indiana*—(a) *Requests for, proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC county office on form SU–100, Requests for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76.

(b) *Establishment of individual farm proportionate shares.* For each farm in Indiana for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 41 acres so as to coincide with the acreage of 1958–crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be furnished a notice informing him that his proportionate share will coincide with his planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Indiana State Committee for determining farm proportionate shares in Indiana in accordance with the determination of proportionate shares for the 1958 crop of sugar beets as issued by the Secretary of Agriculture.

The acreage of sugar beets actually planted within the State is smaller than the State allocation. This situation makes unnecessary the carrying out of detailed procedure which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U. S. C. 1131, 1132)

Dated: June 10, 1958.

[SEAL] M. K. DERRICK,
Chairman, Agricultural Stabilization and Conservation Indiana State Committee.

Approved: July 3, 1958.

LAWRENCE MYERS,
Director, Sugar Division, Commodity Stabilization Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

Subchapter A—Marketing Orders

[Lemon Reg. 746, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.853 (Lemon Regulation 746; 23 F. R. 5117) are hereby amended to read as follows:

(ii) District 2: 441,750 cartons.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58–5392; Filed, July 14, 1958; 8:53 a. m.]

Subchapter B—Prohibitions of Imported Commodities

PART 1069—LIMES

LIME REGULATION NO. 2

Pursuant to the provisions of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), paragraphs (a) and (c), respectively, of § 1069.2 (Lime Regulation No. 2; 23 F. R. 1654) are hereby amended to read as follows:

§ 1069.2 *Lime Regulation No. 2.* (a) On and after the effective time of this section, the importation into the United States of any lot of limes which in the aggregate exceeds 250 pounds, net weight, is prohibited unless:

(1) Such limes of the group known as true limes (also known as Mexican, West Indian, and Key limes and by other synonyms) meet the requirements of at least the U. S. No. 2 grade for Persian (Tahiti) limes, except as to color;

(2) Such limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) meet the requirements of at least the U. S. Combination, Turning grade;

(3) Such limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) are of a size not smaller than 1⅝ inches in diameter: *Provided*, That not to exceed 5 percent, by count, of the limes in any container may fail to meet this requirement;

(4) Such limes of the group known as large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which are smaller than 1⅞ inches in diameter have an average juice content of at least 48 percent, by volume: *Provided*, That such juice requirement shall not apply to containers of such limes containing not in excess of 5 percent of limes smaller than 1⅞ inches in diameter; and

(5) Each such importation is made in conformance with the general regulations (Part 1060 of this subchapter) applicable to the importation of listed commodities and the requirements of this section: *Provided*, That the provisions of § 1060.4 (e) of this subchapter shall not apply.

* * * * *

(c) Terms relating to grade and diameter shall, when used herein, have the same meaning as is given to the respective term in the United States Standards for Persian (Tahiti) Limes (§§ 51.1000 to 51.1016 of this title; 23 F. R. 4446), and all other terms shall have the same meaning as is given to the respective term in the general regulations. Copies of the aforesaid standards may be obtained upon request to any office of the Federal or Federal-State Inspection Service of this Department.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to postpone the effective time of this amendment beyond that hereinafter specified (5 U. S. C. 1001 et seq.) in that (i) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), which makes such regulation necessary; (ii) such regulation imposes the same restrictions on imports of limes as the grade, size, and quality restrictions being made applicable to the shipment of limes grown in Florida under Amendment 1 to Lime Order 6 (§ 1001.306), issued simultaneously herewith to become effective July 14, 1958; (iii) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; (iv) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this amended import regulation; (v) such notice is hereby determined, under the circumstances, to be reasonable.

(Sec. 401, 68 Stat. 907, as amended; 7 U. S. C. 608e–1)

Dated: July 10, 1958, to become effective at 12:01 a. m., e. s. t., July 20, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP–1959, Supp. 1]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1959

STATE FUNDS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture and Farm Credit Administration Appropriation Act, 1959, the 1959 National Agricultural Conservation Program, approved July 3, 1958 (23 F. R. 5247), is hereby amended as follows:

Section 1101.1002 is amended to read as follows:

§ 1101.1002 *State funds.* (a) Funds available for conservation practices will be distributed among States on the basis of conservation needs, but the proportion allocated for use in any State shall not be reduced more than 15 percent from its proportionate 1958 distribution. The allocation of funds among the States is as follows:

Alabama	96,100,000
Alaska	50,000
Arizona	1,587,000
Arkansas	4,945,000
California	5,875,000
Colorado	3,225,000
Connecticut	499,000
Delaware	336,000
Florida	2,760,000
Georgia	7,389,000
Hawaii	186,000
Idaho	1,332,000
Illinois	8,833,000
Indiana	5,709,000
Iowa	9,683,000
Kansas	6,533,000
Kentucky	7,134,000
Louisiana	4,345,000
Maine	981,000
Maryland	1,309,000
Massachusetts	562,000
Michigan	5,149,000
Minnesota	6,235,000
Mississippi	6,622,000
Missouri	9,122,000
Montana	3,885,000
Nebraska	6,456,000
Nevada	388,000
New Hampshire	539,000
New Jersey	728,000
New Mexico	1,943,000
New York	4,746,000
North Carolina	6,595,000
North Dakota	4,566,000
Ohio	6,087,000
Oklahoma	7,401,000
Oregon	2,299,000
Pennsylvania	5,039,000
Puerto Rico	869,000
Rhode Island	83,000
South Carolina	3,642,000
South Dakota	4,756,000
Tennessee	5,290,000
Texas	20,250,000
Utah	1,378,000
Vermont	1,116,000
Virgin Islands	13,000
Virginia	4,572,000
Washington	2,457,000
West Virginia	1,567,000
Wisconsin	5,603,000
Wyoming	2,745,000
Total	211,700,000

(b) The apportionment shown in paragraph (a) of this section does not include the amount set aside for administrative expenses, the amount required for increases in small Federal cost-shares in § 1101.1030, and the amount set aside for the Naval Stores Conservation Program.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended, 72 Stat. 192; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 7th day of July 1958.

[SEAL] E. L. PETERSON,
Assistant Secretary.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter F—Animal Breeds

PART 151—RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PUREBRED ANIMALS

HORSES

On June 18, 1958, a notice of rule making was published in the FEDERAL REGISTER (23 F. R. 4383) regarding the proposed recognition by the Secretary of Agriculture of the book of record of purebred horses entitled "Holsteinisches Gestübuch", and the amendment of § 151.9 (a) of the regulations governing the recognition of breeds and books of record of purebred animals in countries other than Canada (9 CFR, 1957 Supp., 151.9 (a), as amended), to provide for such recognition and to provide that no horse registered in the said book of record will be certified by the Animal Inspection and Quarantine Division of the Agricultural Research Service, United States Department of Agriculture, as purebred unless a pedigree certificate showing three complete generations of known and recorded purebred ancestry of the Holstein breed is submitted for such animal.

After due consideration of all relevant material presented in connection with the notice, the Secretary of Agriculture, pursuant to the authority vested in him by section 201, Paragraph 1606 of the Tariff Act of 1930, as amended (19 U. S. C. and Supp., sec. 1201, par. 1606), hereby amends said § 151.9 (a) as follows:

1. There is added to the table of said section relating to horses the following book of record:

HORSES

Name of breed	Book of record	By whom published
Holstein.....	Holsteinisches Gestutbuch.	Verband der Zuchter des Holsteiner Pferdes e. V., Elmshorn, Germany, Herr H Horstmann, Secretary.

2. The introductory of § 151.9 (a) is amended to read as follows:

§ 151.9 *Recognized breeds and books of record.* • • •

(a) *Breeds and books of record in countries other than Canada.* Books of the registry associations listed below are recognized for the following breeds: *Provided,* That no Belted Galloway cattle, horse of Criolla, Fjordhest (formerly known as Westland), Holstein, Shetland Pony or Welsh Pony and Cob breed, dog or cat registered in any of the books named shall be certified under the act as purebred unless a pedigree certificate showing three complete generations of known and recorded purebred ancestry of the particular breed involved, issued by the appropriate association listed below, is submitted for such animal.

• • • • •

(Par. 1606, 46 Stat. 673; 19 U. S. C. 1201, par. 1606)

The foregoing amendment shall become effective on the 15th day of July 1958.

Done at Washington, D. C., this 9th day of July 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 58-5361; Filed, July 14, 1958; 8:48 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 104—BRISTOL BAY AREA

NAKNEK-KVICHAK DISTRICT; REDUCED FISHING TIME

JULY 14, 1958.

Basis and purpose: Field observations of escapements as well as pack figures indicate a sharp decline in the runs of the four major districts in Bristol Bay, particularly in the Naknek-Kvichak district, and it has been determined that fishing time in the Naknek-Kvichak district must be reduced in the week from July 13 to July 19, 1958, from that specified in the gear timetable of § 104.9.

1. In accordance with the requirements of § 104.9, announcement is made that the number of units of gear registered for the week July 13 to July 19, 1958, is as follows:

	Units
Naknek-Kvichak	324
Nushagak	260
Egegik	160
Ugashik	70

2. Notwithstanding the provisions of paragraphs (a) and (b) of § 104.9, fishing is hereby restricted in he Naknek-Kvichak district to the periods from 9 a. m. July 14 to 9 p. m. July 14 and from 9 a. m. July 17 to 9 p. m. July 17, 1958.

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

Since immediate action is necessary if minimal escapements are to be realized, notice and public procedure on these amendments are impracticable and contrary to the public interest. Therefore, these amendments shall become effective immediately upon publication in the FEDERAL REGISTER. (60 Stat. 237; 5 U. S. C. 1001 et seq.)

A. W. ANDERSON,
Acting Director,
Bureau of Commercial Fisheries.

PROPOSED RULE MAKING

POST OFFICE DEPARTMENT

[39 CFR Parts 22, 111]

REVISION OF INTERNATIONAL POSTAGE RATES ON SECOND CLASS MATTER

NOTICE OF PROPOSED RULE MAKING

The Department proposes, effective January 1, 1959, to adopt the following regulations respecting rates on publications acceptable as second class matter in the United States domestic service when addressed for delivery in other countries.

The proposed amendments relate to proprietary and foreign affairs functions of the Government and are therefore exempt from the rule making requirements of 5 U. S. C. 1003. However, consideration will be given to written views presented with respect to the proposed rates. Patrons desiring to submit written views or comments may send the same to Dr. I. I. Raines, Director, Postal Rates Division, Bureau of Finance, Post Office Department, Washington 25, D. C., at any time prior to August 15, 1958.

PART 22—SECOND CLASS

In § 22.1 *Second-class rates* amend paragraph (d) to read as follows:

(d) *Second-class rates to other countries*—(1) *Canada.* The following domestic rates apply:

(i) Nonadvertising portion, 2.1 cents per pound. Effective January 1, 1960, 2.3 cents per pound. Effective January 1, 1961, 2.5 cents per pound.

(ii) Advertising portion, 11 cents per pound. Effective January 1, 1960, 12.5 cents per pound. Effective January 1, 1961, 14 cents per pound.

(iii) Minimum per copy, ¼ cent. Effective January 1, 1960, ⅜ cent. Effective January 1, 1961, ½ cent.

(iv) Special rate publications: 1½ cents per pound. Minimum per copy ⅛ cent.

(2) *PUAS countries.* (i) The rates set forth in § 111.2 (d) (1) (i) (b), apply, except for special rate publications as described in paragraph (b) (2) of this section.

(ii) Special rate publications: 3 cents per pound. Minimum per copy, ¼ cent.

(3) *Other countries.* The rates set forth in § 111.2 (d) (1) (i) (c) apply.

NOTE: The corresponding Postal Manual section is 132.14.

(R. S. 161, 396, as amended, 398, as amended; 5 U. S. C. 22, 369, 372)

PART III—POSTAL UNION MAIL

In § 111.2 *Specific categories* amend subdivision (i) of paragraph (d) (1) to read as follows:

(i) Second-class matter mailed by the publishers or by registered news agents:

(*a*) To Canada: See § 22.1 (d) (1).

(*b*) To PUAS countries except Canada.

(*1*) Second-class matter other than special rate publications, as described in § 22.1 (b) (2) of this chapter, 3 cents for the first 2 ounces and 1½ cents for each additional 2 ounces or fraction. Minimum per copy, 3 cents.

(*2*) Special rate publications, see § 22.1 (d) (2) (ii) of this chapter.

(*c*) Other countries: 4 cents for the first 2 ounces and 2 cents for each additional 2 ounces. Minimum per copy, 4 cents.

NOTE: The corresponding Postal Manual section is 221.241a.

(R. S. 161, 396, as amended, 398, as amended; 5 U. S. C. 22, 369, 372)

[SEAL] LEO G. KNOLL,
Acting General Counsel.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 987]

[Docket No. AO-252-A5]

MILK IN CENTRAL MISSISSIPPI MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Jackson, Mississippi, on December 9–10, 1957, pursuant to notice thereof issued on November 22, 1957 (22 F. R. 9482).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on May 29, 1958 (23 F. R. 3870) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues on the record of the hearing relate to:

1. The level of Class I and Class II prices and the months when the lower Class I differential, and the higher Class I differential should apply.

2. A review of the rules qualifying distributing and supply plants as pool plants and clarification of the order language with respect to diverted milk.

3. The pricing and pooling of a handler's own farm production.

4. Changing the rate of compensatory payment on other source milk.

5. Clarification of the order language with respect to the classification of milk.

6. The proration of allowable shrinkage between distributing and supply plants.

7. Revision of order provisions with respect to the pricing of fluid milk products in inventory.

8. Revision of the transfer provisions with respect to milk, skim milk and cream moved to nonpool plants.

9. A revision of the base plan rules.

10. A provision for the determination of equivalent price quotations.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Class prices.* The present Class I differentials above the basic formula price should be extended through February 29, 1960. The month of July should be added to the months when the Class I differential above the basic formula price is $1.85 and the Class II differential is 10 cents above the average of the four local dairy manufacturing plants. The Class I differential for the other seven months of the year should be $2.30.

Producers requested that class prices be continued at present levels because they handle 85 to 90 percent of the supply classified as Class II. They stated the relationship of receipts from producers to Class I needs is no more than adequate. They further contended that the present differentials, above the basic formula price for Class I, were first established in the fall of 1954 to encourage a supply for a deficit market. The present supply is no more than adequate and since a lower basic formula price is anticipated the cooperative association contends that Class I price differentials should not be lowered.

Handlers generally supported the cooperative association in the retention of the present level of the Class I price. One handler, however, proposed Class I differentials of $1.65 for the months of March through July and $2.05 for all other months, contending that the supply of producer milk is more than adequate.

Marketing data for three full years are now available. The first seventeen months are a period when returns to producers were pooled on an individual-handler basis. Since April 1, 1956, producer returns have been pooled market-wide. Receipts of producer milk were 117 percent of total Class I utilization for the first twelve months (November 1954–October 1955) of the order; 140 percent, the second year, and 135 percent during the 1956–57 period. An analysis of the available data substantiates the fact that supplies are little more than adequate for the Class I needs of the market plus a reasonable reserve supply. For example, a comparison of receipts of milk to gross Class I utilization during the short production season reveals the following: During the August-November 1956 period receipts were 121 percent of gross Class I utilization. For the same period of 1957 the relationship decreased to 118 percent. The data cited above do not demonstrate that the proposal to reduce the annual level of the Class I price 20 cents per hundredweight at this time is justified.

Official notice is taken of the fact that the Secretary has been requested to consider the need of regulating the handling of milk in areas to the north and south contiguous to this marketing area.

Production is still relatively high in July, the relation of production to Class I utilization is closely related to the March–June period and producers are paid a base and excess price for milk for the months of March through July. The base-excess plan for the payments to producers is designed to encourage the production of milk according to the needs of the market. Therefore, the period when the lower seasonal Class I differential applies should coincide in this marketing area with the period when producers are paid base and excess prices. Total receipts of producer milk and the relationship of production to Class I utilization for the month of July are very similar to those for the months of March and April.

Under the current marketing conditions, the level of the Class I differentials should be maintained at the current annual average of $2.11. Changing the seasonal pricing pattern to include five months, instead of four, at the lower differential value of $1.85 would decrease the Class I price level about three cents per hundredweight. A Class I differential of $2.30 for the seven months of August through February will maintain the annual average at its present level.

The Class II price should not be changed.

Handlers proposed the Class II price be reduced 10 cents per hundredweight, March through June, and 20 cents all other months. The stated reason for this view was that a Class II price too high creates a market surplus. But present prices have not done so. The utilization of producer milk in Class II during the March-June period of 1956 averaged 35.6 percent compared to 34.4 percent for the same period of 1957.

The Mississippi Milk Producers Association handles 85 to 90 percent of the producer milk utilized as Class II. Prices received by the cooperative association for producer milk used to produce Class II products were on the average higher than order prices. It testified that it is willing and able to handle the producer milk in excess of the Class I needs of the Central Mississippt marketing area, and it excepted to the recommended decision to lower the July Class II price differential from $0.20 to $0.10. It is concluded, therefore, that no change is necessary in the Class II pricing.

2. The definition of producer should be revised with respect to milk diverted for the account of a cooperative association. The month of December should be excluded from the months when diversion privileges are limited.

Producers proposed that the order be revised to clarify the language with respect to the responsible person and point of receipt of producer milk diverted from a pool plant for the account of a cooperative association. The intent of the present order provision is to provide that milk diverted for the account of a cooperative association be deemed to be received by the cooperative association at the location of the pool plant from which diverted. Milk diverted for the account of a cooperative association is accounted for by the cooperative association in its monthly report to the market administrator. The definition of producer milk is revised to state clearly the responsible person and point of receipt of producer milk diverted from a pool plant for the account of a cooperative association. This definition should be further revised

to provide that limited diversion apply only in the months of September, October, and November, instead of during the period of September through December. Excess milk supplies during the three months of September, October, and November, normally occur only on weekends or holidays. Provision for diversion of a producer's milk on not more than 10 days during any of these three months should provide adequate opportunity for disposal of excess milk in this period. During the month of December, however, schools are closed nearly half of the period and the trade during the year and holiday season is such that the 10-day limitation on diversion may not provide adequate opportunity for disposal of excess milk. Therefore, the month of December should not be included in the group of months of limited diversion.

Handlers proposed a reduction in the requirement that a distributing plant to maintain pool status dispose of more than 50 percent of its receipts from producers and pool plants on routes as Class I. This proposal, in conjunction with the proposal of handlers to reduce the Class II price, could have the effect of encouraging the development, by some plants, of a supply of Grade A milk for Class II operations at the expense of the marketwide pool and a consequent reduction of returns to producers. The application of a Class I utilization percentage is to distinguish plants primarily engaged in producing fluid milk products from plants more engaged in the production of manufactured dairy products. It was on this basis that the present 50 percent rule was determined. The evidence does not justify a change at this time. The proposal is denied.

Handlers further proposed that the month of December be removed from the August through January period during which supply plants are required to ship each month to distributing plants 50 percent or more of their receipts from producers in order to qualify as pool plants. The receipts of producer milk to Class I sales, for the six-month period August through January, was 123 percent in 1956 and 119 percent in 1957. During the month of December 1956, the relation of receipts to sales was 119 percent and in December 1957, 122 percent. During the last two years the utilization in December was little different from the average of the six-month period of lower production. Therefore, on the basis of the facts in this record no change should be made in the requirements which determine whether a supply plant is associated with this market. The requirement that a supply plant should ship 50 percent or more of its receipts from dairy farmers to a distributing plant each month, August through January, should be continued.

3. No change should be made with respect to the pricing and pooling of a handler's own production.

The proponent contended that the pricing and pooling of a handler's own production is unfair, unjust and inequitable. The proponent further questioned the intent of Congress, with respect to this matter, in the provisions of the Agricultural Marketing Agreement Act of 1937.

The evidence fails to show that marketing conditions in this area have changed since the Secretary issued his decision of March 25, 1957 (22 F. R. 2049). In that decision it was concluded that a handler distributing only fluid milk products from his own production should be exempt from the pricing and pooling provisions of this order. The decision, however, required the pricing and pooling of a handler's own production whenever such a handler purchases milk from producers, other handlers, and other sources.

It is therefore concluded that, on the basis of this record, no change should be made in the definitions of handler and producer-handler or in other provisions that would alter the pricing and pooling of a handler's own production as presently provided by the order.

4. The application of compensatory payments with respect to (1) unpriced milk allocated to Class I in a pool plant, and (2) fluid milk products distributed in the marketing area from a nonpool plant, should be revised.

The order presently provides for the months of March through August, a rate of compensatory payment on all other source milk, at the difference between the class prices. For the months of September through February, the rate is the difference between the Class I price and the uniform price.

It was proposed by producers that the rates of compensatory payment remain the same as in the order at this time, but that the application of rates be determined by the relationship between the receipts of producer milk and gross Class I utilization each month rather than seasonally by months as presently provided in the order. The proposal would require compensatory payments when receipts of producer milk at all pool plants are 112 percent or more of the total gross Class I utilization. The rate of payment would be the difference between the class prices. A lesser rate of the difference between the Class I price and the uniform price would apply when producer receipts are less than 112 percent of gross Class I use.

At the time the order was amended to include compensatory payments on unpriced milk, the supply of producer milk in the Central Mississippi marketing area was not sufficient to meet, on a year-around basis, the Class I needs of the market, plus a reasonable reserve supply. Producer receipts for November and December 1954 were only 88.4 percent and 103 percent, respectively, of gross Class I utilization. The receipts of producer milk during the September-December 1955 period ranged from 102 percent to 109 percent of total Class I use. During the September-December periods in 1956 and 1957, however, receipts of producer milk averaged 119 and 117 percent, respectively, of the total Class I use of the market. The lowest percentage during any of these eight months was nearly 111.

The production of producer milk in 1956 and 1957 was approximately 20 percent higher in the two flush months than during the two months of least production. Class I sales varied seasonally also during these same two years and were approximately 35 percent greater in the two months of highest sales each year than in the two months of least sales.

Handlers have reported receipts of other source milk each month since the order became effective and substantial quantities of such milk have been allocated each month to Class I in the pool plants of handlers except for the months of May, June, and July 1956 when no other source milk was received. It is a trade practice in this area to reconstitute and use on a year-around basis, substantial amounts of manufactured dairy products, such as nonfat dry milk, for distribution as fluid milk products. The record does not show the amounts, if any, of other source milk that may be received in the form of bulk fluid milk.

The cost and opportunity to purchase such nationally manufactured dairy products on the part of regulated handlers is relatively stable throughout the year. Therefore, any compensatory payment applied to such other source milk allocated to Class I should be at a single rate regardless of the time of year—to do otherwise would weaken the classified pricing system and undermine Class I prices. The Class II price under the order is a fair and economic measure of the cost of such other source milk used for Class I products in this market; for handlers pay this price for any producer milk used to produce such manufactured products.

In light of the data accumulated during the past three years, and under existing marketing conditions, no compensatory payment should be required on unpriced milk allocated to Class I in the pool plant of a handler when the supply of producer milk is such that a handler may need to depend on a supply of other source milk in the form of fresh fluid milk to meet his Class I needs. A reasonable criterion by which to determine when compensatory payments should apply is the relationship of the receipts of producer milk to total Class I use. Although the procurement and distribution of milk involves rather extensive geographical areas, the principal cooperative in this marketing area has demonstrated its ability and willingness to move the supply of producer milk to pool plants that need such milk for Class I use. Thus, under the present marketing conditions a minimum reserve of producer milk approximately ten percent above Class I needs of the area may be considered fair and reasonable to assure handlers a supply of producer milk at all times for their Class I needs.

When handlers are assured an adequate supply, plus a reasonable reserve, of producer milk for their Class I needs compensatory payments should apply on any other source milk allocated to Class I in the pool plant(s) of such handlers. The rate already established in the order, in months when supplies are normally in excess of needs, should apply. This rate is the difference between the two

class prices. Compensatory payments, under the provisions recommended herein, would apply any month regardless of the time of year when the supply of producer milk is in excess of 110 percent of the total Class I utilization. Likewise in times of short supply, regardless of the month, compensatory payments would not apply.

In the case of a handler whose plant fails to qualify as a distributing plant but who has sales of fluid milk products on routes in the marketing area, such handler also should under certain conditions be required to make payments to the producer-settlement fund. The amount of these payments would be the lesser of (1) the difference between the Class I and Class II price multiplied by the amount of Class I milk sold in the marketing area, or (2) the amount by which total payments to dairy farmers are less than the total amount of the plant's obligation to producers if such obligation is computed as if such plant were a pool plant.

If the handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If the handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this last option to nonpool plants from which some Class I milk is distributed in the marketing area will adequately protect the classified pricing and marketwide equalization plan in this particular market. The number and size of handlers in a position to use this option are relatively small. Actual or potential operations of handlers in a position to use this option to obtain an advantage over fully regulated handlers in the procurement of milk supplies are not of sufficient magnitude to defeat the purposes of marketwide equalization or otherwise preclude maintenance of orderly marketing conditions in this market. Handlers in a position to use this option do not exist to an extent permitting any significant diversion of the revenue derived from Class I sales in the marketing area to farmers only incidentally associated with the market, thus dissipating the return to pool producers of milk for which minimum class prices are established under the order and who are relied upon to produce an adequate and dependable supply of approved milk for the marketing area.

It is expected also that in this market the differences between Class I and uniform prices will be relatively small resulting from anticipated relatively high Class I utilization of pool milk. Accordingly, it is expected that there will be relatively small differences between the price which these partially regulated handlers will be required under the option to pay to their farmers and the minimum uniform price payable to producers by fully regulated handlers. Consequently, the exercise of this option could not have a disruptive influence on the handling of milk in this area. For these reasons, it is not necessary, in order to maintain the integrity of the regulatory plan in this particular market, to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their producers at least the total amount of money which they would be required to pay if they were fully regulated.

The nonpool handler should also pay his pro rata share of the costs of administration of the order. Complete verification of receipts, utilization and payments is required if such a handler is to be given credit for payments as related to the classified use value of skim milk and butterfat received. Accordingly, administrative expense should be determined on the same basis as for fully regulated plants. Should a handler operating a nonpool distributing plant elect when filing his report to make payments to the pool at the difference between the Class I and Class II prices with respect to sales in the marketing area, the expenses of administration will be assessed only with respect to such sales, since need for verification will then be confined to only that volume.

Compensatory payments should not apply to milk entering the marketing area from a plant regulated under another order since its proper classification and pricing will be determined pursuant to the other order.

5. The order language with respect to the classification of milk should be clarified.

A handler proposed that the classification provisions should be clarified by specifically excluding ice milk mixes, frozen ice milk, and frozen desserts from Class I. The adoption of this proposal would make no changes in the classification of milk under the order but would merely constitute a clarification by naming the related products covered by the Mississippi dairy laws and regulations with respect to ice cream, ice cream mixes, frozen desserts, and ice milk. The proposal should be adopted.

6. The method of determining allowable shrinkage should be changed.

The order presently provides for the assignment of shrinkage at the pool plant where the producer milk is received directly from producers. The maximum shrinkage allowed is 2 percent of all receipts. It was proposed that the allowable shrinkage should be prorated at the rate of 0.5 percent to the supply plant and 1.5 percent to the distributing plant when milk is moved in bulk from a supply plant to a distributing plant. This proposal would not change, as compared to present order provisions, the total percent of allowable shrinkage.

Proration of shrinkage as proposed provides a reasonable and equitable treatment of the shrinkage allowance. Handlers and producers supported this proposal to prorate shrinkage between distributing and supply plants. The proposal should be adopted.

7. The order provisions with respect to the pricing of fluid milk products in inventory should not be changed.

It was proposed by a handler that fluid milk products in inventory should be separately classified and priced at $4.00 per hundredweight. The stated reason for the proposal was to provide for the pricing of skim milk and butterfat in fluid milk products, held in inventory, during the month of actual utilization.

The order presently requires the reporting of fluid milk products in inventory as Class I. It is further provided in the determination of the uniform price that for the month of July an amount should be added by multiplying by 40 cents the hundredweight by which the inventory classified for the preceding month exceeds any inventory so classified for the preceding February.

The net effect of the present order provisions is to classify fluid milk products in inventory at the Class I price adjusted each July by any excess in such inventory between the end of February and June. March through June is the period when the seasonal Class I differential above the basic formula price is 40 cents less than other months. This adjustment provides an equitable means of handling any increase in inventory of fluid milk products from the beginning to the end of the lower seasonal pricing period.

Inasmuch as the Class I percentage of utilization of producer milk in this market is very high, fluid milk products held in inventory will be utilized mostly as Class I. The present provisions of the order for the classification and pricing of fluid milk products in inventory are adequate and equitable. It is concluded, therefore, that the only revision necessary in these provisions is to change July to August in § 987.70 (f). Such a modification will conform with the changes, recommended herein, with respect to Class I prices.

8. Provisions for the classification of milk, skim milk, and cream moved to nonpool plants should be revised.

A nonpool plant located at Brookhaven, Mississippi, receives milk from plants regulated by this order and by Order No. 42 regulating the handling of milk in the New Orleans marketing area. Milk transferred to such a nonpool plant should be classified in an equitable manner under each of the orders involved. There is need for uniformity in order provisions with respect to the classification of milk at a nonpool plant receiving milk from plants regulated by different Federal orders. This can be accomplished by providing the same provisions in each of the orders involved. Order No. 42, regulating the New Orleans marketing area, was amended effective December 1, 1957, to meet this specific situation. Under this amendment, any milk, skim milk, or cream received at a nonpool plant that is classified as Class I is shared pro rata by the pool plants under this order and by any plant(s) at which milk is priced under another order(s).

No opposition was offered to this method of classification. The amendment will facilitate the movement of milk in excess of market needs in the usual channels available to the market. The amendment provided herein will provide

for the proration, between pool plants of this and other orders, of any skim milk or butterfat classified as Class I at a nonpool plant receiving producer milk from pool plants under this and another Federal order(s).

9. The base plan rules should be revised.

One proposal would provide that bases should be assigned to dairy farmers who become producers under the order as a result of a plant becoming a pool plant by meeting the required distributing or supply plant qualifications or by the extension of the marketing area.

A distributing plant must sell 50 percent or more of its receipts from producers and other pool plants on routes as fluid milk products and 20 percent or more of such receipts on routes in the marketing area to qualify as a pool plant. Any supply plant failing to qualify as a pool plant during the required period must ship 50 percent or more of its receipts from dairy farmers to a pool distributing plant each month to again qualify as a pool plant. A plant that meets the pool plant requirements during the February through July period, is sufficiently associated with this market to justify the assignment of bases to producers delivering to such plant. To fail to do so would be discriminatory. This provision will permit these producers to share equally with all other producers in the returns for milk.

The rules governing the transfer of bases from one producer to another should be clarified.

Under certain conditions, bases may be transferred from one producer to another. Without an administrative determination it would be possible through the manipulation of ownership during the base-forming period to increase the combined bases of such producers in excess of the base which would be earned by their combined milk production during the base-forming period. The intent of the order is to provide a means of determining a base for each producer in accordance with the actual receipts of milk at pool plants during the base-forming period. To accomplish this intent under conditions where bases are transferred, the total base should be determined by adding together the milk deliveries of the transferee and transferor during the base-forming period and dividing this total by the number of days from the first day milk was received from either producer during the base-forming period to the last day of such period but not less than 120. This proposed revision of the base rules conforms with the practices followed in this market.

10. A provision for the determination of equivalent price quotations should be included in the order.

Such a provision is designed to meet an emergency situation in which a price quotation necessary in the determination of class prices, or for any other purposes, may not be available. In such event, the Secretary would determine a price equivalent to the price quotation normally available. The provision proposed will remove uncertainty as to the procedure to be followed in the absence of any price quotation provided for in the order and thereby will prevent unnecessary interruption in the administration of the order.

The entire order is redrafted to incorporate conforming provisions in the order to accommodate the recommended changes made herein.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Central Mississippi Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Central Mississippi Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of April 1958, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order regulating the handling of milk in the Central Mississippi marketing area, is approved or favored by producers, as defined under the terms of the order as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Issued at Washington, D. C., this 9th day of July 1958.

[SEAL] DON PAARLBERG,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the Central Mississippi Marketing Area

§ 987.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Central Mississippi marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the

[1] This order shall not become effective unless and until the requirements of § 900.14 of this chapter governing proceedings to formulate marketing agreements and marketing orders have been met.

act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Central Mississippi marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

DEFINITIONS

Sec.
987.1 Act.
987.2 Secretary.
987.3 Department of Agriculture.
987.4 Person.
987.5 Cooperative association.
987.6 Central Mississippi marketing area.
987.7 Distributing plant.
987.8 Supply plant.
987.9 Pool plant.
987.10 Nonpool plant.
987.11 Approved plant.
987.12 Handler.
987.13 Producer.
987.14 Producer milk.
987.15 Other source milk.
987.16 Producer-handler.
987.17 Chicago butter price.
987.18 Fluid milk product.

MARKET ADMINISTRATOR

987.20 Designation.
987.21 Powers.
987.22 Duties.

REPORTS, RECORDS, AND FACILITIES

987.30 Reports of receipts and utilization.
987.31 Other reports.
987.32 Records and facilities.
987.33 Retention of records.

CLASSIFICATION

987.40 Skim milk and butterfat to be classified.
987.41 Classes of utilization.
987.42 Assignment of shrinkage.
987.43 Responsibility of handlers and reclassification of milk.
987.44 Transfers.
987.45 Computation of the skim milk and butterfat in each class.
987.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

987.50 Basic formula price.
987.51 Class prices.
987.52 Butterfat differentials to handlers.
987.53 Location differential to handlers.
987.54 Rate of compensatory payment on unpriced milk.

APPLICATION OF PROVISIONS

987.60 Producer-handlers.
987.61 Plants subject to other Federal orders.
987.62 Handlers operating nonpool plants.

DETERMINATION OF UNIFORM PRICE

987.70 Computation of value of producer milk.
987.71 Computation of the uniform price.
987.72 Computation of uniform prices for base and excess milk.

BASE RATING

987.80 Determination of daily base.
987.81 Computation of base.
987.82 Base rules.
987.83 Announcement of established bases.

PAYMENTS

987.90 Payments to producers.
987.91 Butterfat differential to producers.
987.92 Location differential to producers.
987.93 Adjustment of accounts.
987.94 Marketing services.
987.95 Expense of administration.
987.96 Producer-settlement fund.
987.97 Payments to the producer-settlement fund.
987.98 Payments out of the producer-settlement fund.
987.99 Termination of obligations.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

987.100 Effective time.
987.101 Suspension or termination.
987.102 Continuing obligations.
987.103 Liquidation.

MISCELLANEOUS PROVISIONS

987.110 Agents.
987.111 Separability of provisions.

DEFINITIONS

§ 987.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 987.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 987.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 987.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 987.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 987.6 *Central Mississippi marketing area.* "Central Mississippi marketing area" hereinafter called the "marketing area" means all the territory within the following counties: Adams, Claiborne, Clarke, Copiah, Covington, Forrest, Franklin, Hinds, Jasper, Jefferson, Jefferson Davis, Jones, Lamar (except Beat 2 thereof), Lauderdale, Lawrence, Lincoln, Madison, Marion, Neshoba, Newton, Perry, Rankin, Scott, Simpson, Smith, Walthall, Warren and Wayne, all in the State of Mississippi.

§ 987.7 *Distributing plant.* "Distributing plant" means an approved plant from which Class I milk equal to not less than 50 percent of its receipts of producer milk and fluid milk products from other pool plants is disposed of during the month, on routes or through plant stores, to wholesale or retail outlets (except pool plants) and from which not less than 20 percent of such Class I milk is disposed of during the month on routes or through plant stores, to wholesale or retail outlets (except pool plants) located in the marketing area.

§ 987.8 *Supply plant.* "Supply plant" means an approved plant from which during the month an amount equal to 50 percent or more of receipts of its producer milk is shipped to and received at distributing plants. Any supply plant that was a pool plant during each of the months of August through January immediately preceding shall be a pool plant each of the months of February through July unless written notice to the market administrator is received before the first day of the month of its intention to withdraw, in which case such plant shall thereafter be a nonpool plant, unless it again qualifies as a supply plant by shipping 50 percent or more of its receipts from dairy farmers to a plant described in § 987.7.

§ 987.9 *Pool plant.* "Pool plant" means either a distributing plant or a supply plant, except a plant operated by a producer-handler.

§ 987.10 *Nonpool plant.* "Nonpool plant" means any milk manufacturing or processing plant other than a pool plant.

§ 987.11 *Approved plant.* "Approved plant" means all of the buildings, premises and facilities of a plant(s) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) to wholesale or retail outlets (except milk distributing or processing plants) located in the marketing area, or (b) from which milk or skim milk eligible for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant.

§ 987.12 *Handler.* "Handler" means:

(a) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 987.13; or

(b) Any person in his capacity as the operator of one or more approved plants.

§ 987.13 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received during the month at a pool plant or is diverted from a pool plant to a nonpool plant, except plants under another order, for the account of a handler operating a pool plant or a cooperative association but for not more than 10 days production during the months of September,

October, and November. Milk diverted for the account of the operator of a pool plant shall be deemed to have been received at the plant from which diverted, and milk diverted for the account of a cooperative association shall be deemed to have been received by the cooperative association at the location of the pool plant from which it was diverted.

§ 987.14 *Producer milk.* "Producer milk" means only the skim milk or butterfat contained in milk (a) received at a pool plant(s) directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 987.13.

§ 987.15 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in: (a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, and (2) producer milk; and (b) products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 987.16 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant which, during the month, received no other source milk (except own production), producer milk, or milk from a pool plant.

§ 987.17 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 987.18 *Fluid milk product.* "Fluid milk product" means all skim milk (including concentrated and reconstituted skim milk) and butterfat in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks (including eggnog), yogurt, cream (other than frozen storage cream), cultured sour cream, and any mixture of cream and milk or skim milk (other than ice cream, ice cream mixes, frozen ice milk, ice milk mixes, frozen desserts and mixes, and sterilized products contained in hermetically sealed containers).

MARKET ADMINISTRATOR

§ 987.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 987.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary, complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 987.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon, satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 987.95, the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 987.94, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 987.30 and 987.31, or payments pursuant to § 987.90, and §§ 987.93 to 987.98;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing:

(1) On or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 987.51 (a) and the Class I butterfat differential computed pursuant to § 987.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 987.51 (b) and the Class II butterfat differential computed pursuant to § 987.52 (b), both for the previous month;

(2) On or before the 10th day after the end of each of the months of August through February, the uniform price computed pursuant to § 987.71, and the butterfat differential computed pursuant to § 987.91; and

(3) On or before the 10th day after the end of each of the months of March through July, the uniform prices for base milk and for excess milk computed pursuant to § 987.72, and the butterfat differential computed pursuant to § 987.91;

(j) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association, which was used in each class by each handler receiving such milk. For the purpose of this report, the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by each handler; and

(k) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 987.30 *Reports of receipts and utilization.* On or before the 6th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants for such month as follows:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk; and for the months of March through July, the total quantity of base milk received;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of fluid milk products on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 987.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his fluid milk plants, his producer payroll for such month, which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including for the months of March through July, the total pounds of base and excess milk, (iii) the number of days on which milk was received from such producer if less than a full calendar month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk, fluid skim milk, or cream at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such milk;

(3) On or before the day prior to diverting producer milk pursuant to § 987.13, his intention to divert such milk, the date(s) of such diversion and the nonpool plant to which such milk is to be diverted; and

(4) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

(c) Each handler who receives producer milk for which payment is to be made to a cooperative association pursuant to § 987.90 (e) shall report to such cooperative association with respect to each such producer, as follows:

(1) On or before the 20th day of each month, the total pounds of milk received during the first 15 days of the month,

(2) On or before the 10th day after the end of each month:

(i) The daily and total pounds of milk received during the month with separate totals for base and excess milk for the months of March through July, and the average butterfat test thereof; and

(ii) The amount or rate and nature of any deductions.

§ 987.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 987.33 *Retention of records.* All books and records required under this part to be made available to the market administrator, shall be retained by the handler for a period of three years to begin at the end of the calendar month, to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 987.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month at pool plants and which is required to be reported pursuant to § 987.30 shall be classified by the market administrator pursuant to the provisions of §§ 987.41 to 987.46.

§ 987.41 *Classes of utilization.* Subject to the conditions set forth in §§ 987.43 and 987.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat:

(1) Disposed of in fluid milk products;

(2) Contained in inventory of milk and milk products designated as Class I milk pursuant to subparagraph (1) of this paragraph on hand at the end of the month; and

(3) Not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section;

(2) Disposed of and used for livestock feed;

(3) Contained in skim milk dumped, provided the market administrator is notified in advance and given opportunity to verify such dumping; and

(4) In shrinkage, but in an amount not to exceed one-half percent of the total pounds of skim milk and butterfat received directly from producers plus 1½ percent of the total pounds of skim milk and butterfat in bulk milk, skim milk, and cream in fluid form received at a pool plant from all sources less that disposed of in bulk to a pool plant of another handler.

§ 987.42 *Assignment of shrinkage.* The market administrator shall assign shrinkage at the pool plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat classified as Class II milk; and

(b) Assign the resulting amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in (1) producer milk and milk received from other pool plants, and (2) other source milk.

§ 987.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 987.44 *Transfers.* Skim milk or butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk if transferred in the form of fluid milk products to the pool plant of another handler unless utilization as Class II milk is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 987.30, subject in any event to the conditions set forth in subparagraph (1) of this paragraph:

(1) (i) In no event shall the skim milk or butterfat assigned to Class II milk exceed the amount thereof remaining in Class II milk in the plant(s) of the transferee handlers after subtraction of other source milk pursuant to § 987.46, and any additional amounts of such skim milk or butterfat shall be classified as Class I milk; and

(ii) If either or both handlers have other source milk during the month, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to producer milk of both handlers; and

(b) As Class I milk if transferred or diverted in the form of bulk milk, skim milk or cream to a nonpool plant unless:

(1) The transferring handler claims Class II use on his report for the month;

(2) The operator of the nonpool plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for verification of such Class II use; and

(3) The skim milk and butterfat, respectively, received at the nonpool plant during the month from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to the act does not exceed the skim milk and butterfat, respectively, resulting from the following computation:

(i) Determine the skim milk and butterfat, respectively, used to produce any items of Class II milk (as defined pursuant to § 987.41 (b)) at such nonpool plant during the month;

(ii) Add the skim milk and butterfat respectively, in fluid bulk cream transferred from such nonpool plant to a plant at which milk is priced pursuant to this or another order issued pursuant to the act and such cream is allocated to other than Class I milk (under the applicable order definitions at the transferee plant).

(iii) Add the skim milk and butterfat, respectively, in fluid bulk cream transferred from such nonpool plant to a second nonpool plant which is not in excess of the items of Class II milk processed in such second nonpool plant plus the bulk fluid cream shipped from such second nonpool plant to other nonpool plants which do not dispose of milk or cream for consumption in fluid form: *Provided*, That the second nonpool plant meets the conditions of subparagraph (2) of this paragraph; and

(iv) Subtract the skim milk and butterfat, respectively, received at such nonpool plant from any source(s) other than that which has been approved by a governmental agency as a source(s) of fluid Grade A milk products.

In the event that the remaining skim milk and butterfat, respectively, computed pursuant to subdivision (iv) of this subparagraph is less than the skim milk and butterfat, respectively, received at such nonpool plant from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to act, the difference shall be assigned pro rata, to each pool plant (in accordance with receipts of skim milk and butterfat, respectively, from all plants regulated pursuant to the act), and shall be classified as Class I milk.

§ 987.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat dry milk contained in such product, plus all of the water originally associated with such solids.

§ 987.46 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month, with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 987.42 (b);

(2) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk in other source milk, except that to be subtracted pursuant to subparagraph (3) of this paragraph: *Provided*, That if the pounds of skim milk in other source milk exceed the remaining pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the pounds of skim milk remaining in Class II milk, the pounds of skim milk in fluid milk products received from plants regulated pursuant to other orders issued pursuant to the act, less any equivalent amounts of skim milk in other source milk allocated to Class I milk at each of such plants, respectively: *Provided*, That if the pounds of skim milk to be subtracted exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the remaining pounds of skim milk in Class I milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(5) Subtract from the remaining pounds of skim milk in each class the skim milk contained in fluid milk products received from the pool plants of other handlers, according to the classification of such skim milk as determined pursuant to § 987.44 (a);

(6) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(7) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Determine the weighted average butterfat content of the Class I and Class II milk allocated to producer milk.

MINIMUM PRICES

§ 987.50 *Basic formula price.* The highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section, rounded to the nearest whole cent, shall be known as the basic formula price:

(a) Divide the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture, by 3.5 and multiply by 4.0.

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price computed by adding together any plus values computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.8; and

(2) Deduct five cents from the simple average as computed by the market administrator, of the weighted averages of carlot prices per pound of nonfat dry milk, spray and roller process, respectively for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month, by the Department of Agriculture, and multiply by 7.5; and

(c) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Kraft Cheese Co., Newton, Miss.
Borden Co., Starksville, Miss.
Carnation Co., Tupelo, Miss.
Pet Milk Co., Kosciusko, Miss.

§ 987.51 *Class prices.* Subject to the provisions of §§ 987.52 and 987.53, the minimum prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* Through February 29, 1960, the minimum price per hundredweight shall be the basic formula price for the preceding month, plus $1.85 during the months of March through July and plus $2.30 during all other months;

(b) *Class II milk price.* The price per hundredweight for Class II milk shall be the price determined pursuant to § 987.50 (c) plus 10 cents during each of the months of March through June and plus 20 cents during all other months.

§ 987.52 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices calculated pursuant to § 987.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.12; and

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.11.

§ 987.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance as determined by the market administrator, and which is transferred in the form of fluid milk products to another pool plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 987.51 (a) shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Miss. (miles):	*Rates per hundredweight (cents)*
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof, an additional	1.5

Provided, That, for the purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 987.46 (a) (1), (2), and (3), and the comparable steps in § 987.46 (b) for such plant, and after deducting from such remainder an amount equal to 0.05 times the skim milk and butterfat contained in the producer milk received at the transferee-plant, such assignment to transferor-plants to be made first to plants which the location differential is applicable.

§ 987.54 *Rate of compensatory payments.* In any month in which total deliveries of producer milk exceed 110 percent of the total amount classified as

Class I (excluding duplications) at all pool plants, the rate of compensatory payment per hundredweight shall be calculated as follows:

(a) Subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price adjusted by the Class I butterfat differential and adjust such difference by the location differential rate set forth in § 987.52 for the location of the plant at which the milk was received from farmers.

§ 987.55 *Use of equivalent prices.* If, for any reason, a price specified in this part for use in computing class prices or for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

APPLICATION OF PROVISIONS

§ 987.60 *Producer-handlers.* Sections 987.40 to 987.46, 987.50 to 987.54, 987.61, 987.62, and 987.70 to 987.72, 987.80 to 987.83, and 987.90 to 987.98 shall not apply to a producer-handler.

§ 987.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a plant specified in paragraph (a) or (b) of this section except as follows: The operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) Any distributing plant which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless a greater volume of Class I milk is disposed of during the month from such plant to retail or wholesale outlets (except pool plants) in the Central Mississippi marketing area than in the marketing area regulated pursuant to such other order: *Provided*, That, if such distributing plant disposed of Class I milk during the month in the marketing areas of more than one other Federal order, the marketing area in which the most Class I milk is disposed shall determine the Federal order under the provisions of which such plant shall be regulated; and

(b) Any supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant qualified as a pool plant pursuant to § 987.8.

§ 987.62 *Obligations of a handler operating a nonpool distributing plant.* Each handler who operates during the month a nonpool distributing plant shall pay to the market administrator for deposit in the producer settlement fund and the administrative assessment fund, as the case may be, as follows:

(a) If such handler so elects in writing at the time of reporting pursuant to § 987.30, the amounts computed as follows:

(1) On or before the 15th day after the end of the month, for the producer settlement fund, an amount equal to the difference between the value of the Class I milk disposed of during the month on routes in the marketing area at the applicable Class I price for the month and the value of such milk at the Class II price; and

(2) On or before the 15th day after the end of the month, as his pro rata share of expense of administration, the rate specified in § 987.95 with respect to Class I milk disposed of on routes in the marketing area; and

(b) Except as the handler's obligation may be computed pursuant to paragraph (a) of this section, he shall pay the amounts as follows:

(1) On or before the 25th day after the end of the month, for the producer settlement fund, the amount specified in paragraph (a) (1) of this section, or any plus amount resulting from the following computation, whichever is less:

(i) Determine the value for milk received from dairy farmers at such plant for such month pursuant to § 987.70 as if such plant has been a pool plant; and

(ii) Deduct the gross payments made by the handler to dairy farmers for milk received at such plant for such month. Such gross payments shall be limited to cash payments made to the dairy farmer or his assignee on or before the date for filing reports required pursuant to § 987.31 (b), plus the value of any supplies or services furnished by the handler on prior written authorization or as evidenced by a delivery ticket signed by the dairy farmer; and

(2) On or before the 15th day after the end of the month, as his pro rata share of the expense of administration, an amount equal to that which would have been computed pursuant to § 987.95 had such plant been a pool plant.

§ 987.70 *Computation of value of producer milk.* The value of producer milk received during the month by each handler at his pool plant(s) shall be computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable class price;

(b) Add together the resulting amounts.

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price;

(d) Add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(e) In the case of a handler operating a pool plant which was not a pool plant under this order during each of the preceding five months, add an amount calculated by multiplying the difference between the Class I and the Class II prices adjusted by the appropriate butterfat differentials by any figure determined as follows: Any amount by which the hundredweight of skim milk or butterfat in inventory for such month, pursuant to § 987.41 (a) (2), is less than the least hundredweight of skim milk or butterfat, respectively, deducted pursuant to § 987.46 (a) (4) and (b) for such handler for any month since such plant was not a pool plant;

(f) Add for each month of August an amount calculated by multiplying by 40 cents the hundredweight by which the inventory classified pursuant to § 987.41 (a) (2) for the preceding month exceeds any inventory so classified for the preceding February; and

(g) Add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk, pursuant to § 987.46 (a) (2) and (b), by the rate of compensatory payment as determined pursuant to § 987.54, for the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products.

§ 987.71 *Computation of the uniform price.* For each of the months of August through February, the market administrator shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, for plants within the marketing area as follows:

(a) Combine into one total the values computed pursuant to § 987.70 for the producer milk of all handlers who submit reports prescribed in § 987.30 and who have made payments for the previous month pursuant to § 987.90 or § 987.97;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the variation in the average butterfat content of such milk from 4.0 percent by the butterfat differential computed pursuant to § 987.91, and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 987.90 (c) (1);

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 987.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, for plants within the marketing area, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 987.30, and who have made payments for the previous month pursuant to § 987.90 or § 987.97, as follows: (1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price; (2) multiply any additional hundredweight of such milk by the Class I milk price;

and (3) add together the resulting amounts;

(b) Divide the aggregate value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent and subtract 4 cents. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(c) Subtract an amount determined by multiplying the uniform price obtained in paragraph (b) of this section, plus 4 cents, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 987.71 (a) to (d);

(d) Divide the result obtained pursuant to paragraph (c) of this section by the total hundredweight of base milk of handlers included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content for plants within the marketing area.

BASE RATING

§ 987.80 *Determination of daily base.* The daily base of each producer shall be calculated by the market administrator as follows: Divide the total pounds of milk received by all handlers from such producer during the months of September through January by the number of days from the first day milk is received from such producer during said months to the last day of January, inclusive, but not less than 120 days.

§ 987.81 *Computation of base.* The base of each producer to be applied during the months of March through July shall be a quantity of milk calculated by the market administrator in the following manner: Multiply the daily base of such producer by the number of days production delivered by such producer to handlers during the month.

§ 987.82 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall be assigned to the producer for whose account milk is received at a pool plant during the months of September through January and to each person for whose account milk was delivered to a plant that did not qualify as a pool plant during each month of the base forming period, but which qualifies as a pool plant during any of the months of March through July, bases shall be assigned on deliveries at such plant in the same manner as if such plant had been a pool plant during each month of the base forming period; and

(b) An entire base shall be transferred by the market administrator to another person upon receipt of an application form, approved by the market administrator, and signed by the base-holder(s), or his heirs, and by the person to whom such base is transferred subject to the following condition:

(1) If a base is transferred to a producer already holding a base, a new base shall be computed by adding together the producer milk deliveries of the transferee and transferor during the base forming period and dividing the total by the number of days from the first day of delivery by either the transferee or transferor during the base forming period to the last day of January inclusive but not less than 120 days.

§ 987.83 *Announcement of established bases.* On or before March 1 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

PAYMENTS

§ 987.90 *Payments to producers.* Except as provided in paragraph (e) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(a) On or before the last day of each month, for milk received during the first 15 days of the month, at not less than the price per hundredweight for Class II milk for the preceding month;

(b) On or before the 15th day after the end of each of the months of August through February for milk received during such month at not less than the uniform price per hundredweight, computed for such handler pursuant to § 987.71, subject to the butterfat differential computed pursuant to § 987.91 and the location differential computed pursuant to § 987.92, less proper deductions authorized in writing by such producer and less payment made pursuant to paragraph (a) of this section, and deductions made pursuant to § 987.94;

(c) On or before the 15th day after the end of each of the months of March through July, after allowance for the amount of payment made pursuant to paragraph (a) of this section for deductions made pursuant to § 987.94, and for other proper deductions authorized in writing by such producer, as follows:

(1) At not less than the uniform price per hundredweight for base milk computed pursuant to § 987.72 for the quantity of base milk received from such producer during the month, subject to the butterfat differential computed pursuant to § 987.91 and the location differential computed pursuant to § 987.92; and

(2) At not less than the uniform price per hundredweight for excess milk computed pursuant to § 987.72 for the quantity of excess milk received from such producer during the month, subject to the butterfat differential computed pursuant to § 987.91 and the location differential computed pursuant to § 987.92;

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show for each month:

(1) The month and the identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

(e) In lieu of payments pursuant to paragraphs (a), (b) and (c) of this section, each handler shall make payment to a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines that such cooperative association is authorized to collect payment, as follows:

(1) On or before the 26th day of each month, an amount equal to not less than the Class II price for the preceding month, multiplied by the hundredweight of milk received during the first 15 days of the month from such producers; and

(2) On or before the 13th day after the end of each month an amount equal to not less than the applicable uniform price(s) pursuant to §§ 987.71 and 987.72, multiplied by the hundredweight of milk received from such producers to which each such price is applicable, subject to the butterfat differential computed pursuant to § 987.91 and the location differential computed pursuant to § 987.92, less payment made such cooperative association pursuant to subparagraph (1) of this paragraph, and proper deductions authorized in writing by such producers or such cooperative associations; and

(f) On or before the 13th day after the end of the month, each handler shall pay to each cooperative association which is also a handler, for milk received from it not less than the value of such milk as classified pursuant to § 987.44 (a) at the applicable respective class prices, including differentials prescribed by the order.

§ 987.91 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer pursuant to § 987.90 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to Class I and Class II milk pursuant to § 987.46 (b) by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat and rounding the resultant figure to the nearest half cent.

§ 987.92 *Location differentials to producers.* In making payment to producers pursuant to § 987.90, the applicable uniform prices to be paid for producer milk received at a pool plant located 50 miles or more from the city limits of Hattiesburg, Jackson, Meadville, or Meridian, Mississippi, whichever is closest by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced at the rate set forth in the following schedule:

Distance from the city limits of Hattiesburg, Jackson, Meadville or Meridian, Miss. (miles):	Rates per hundredweight (cents)
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof, an additional	1.5

§ 987.93 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or verification of weights and butterfat tests of milk or milk products discloses errors resulting in money due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth under which such error occured.

§ 987.94 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 987.90, shall deduct 7 cents per hundredweight, or such amount not exceeding 7 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association; and

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month, and pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount and average butterfat test of milk received from each such producer. In lieu of such statement, a handler may authorize the market administrator to furnish such cooperative association the information reported for such producers pursuant to § 987.90 (d).

§ 987.95 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the month, for such month, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe, with respect to all (a) receipts of producer milk, including such handler's own production; (b) other source milk allocated to Class I milk pursuant to § 987.56 (a) (2) and (b); and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the Act.

§ 987.96 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 987.62, 987.93 and 987.97, and out of which he shall make all payments pursuant to §§ 987.93 and 987.98: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 987.97 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay, except as provided in § 987.62, to the market administrator any amount by which the value of his producer milk as computed pursuant to § 987.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 987.98 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 987.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials. If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 987.99 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay any handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 987.100 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 987.101.

§ 987.101 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 987.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 987.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary,

liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 987.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his Agent or Representative in connection with any of the provisions of this part.

§ 987.111 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[F. R. Doc. 58-5359; Filed, July 14, 1958; 8:47 a. m.]

Agricultural Research Service

[7 CFR Part 319]

FOREIGN QUARANTINE NOTICES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Agricultural Research Service, pursuant to sections 1, 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 154, 159, 160, 162), is considering the amendment of §§ 319.37-4 (b) and 319.37-8 of the regulations supplemental to the quarantine relating to the importation of nursery stock, plants, and seeds (7 CFR 319.37-4 (b), 319.37-8) in the following respects:

a. Add at the end of § 319.37-4 (b) the following sentence: "In the case of seeds of such fruits as are approved for importation without treatment under the provisions of §§ 319.56, 319.56-1 et seq., the requirements as to freedom from pulp shall not apply when such seeds are imported, under the requirements of this section, for propagation."

b. Add at the end of § 319.37-8 the following two sentences: "Furthermore, all plants and cuttings of genera that are not prohibited entry into the United States but are known to be hosts of the citrus blackfly or may hereafter be determined as such, from all foreign countries (except Canada, countries in Europe and Asia Minor; and those in Africa bordering the Mediterranean Sea), must be defoliated before shipment from the country of origin if they are to be imported through any port other than the Ports of New York and Seattle. The Director of the Plant Quarantine Division shall issue adminstrative instructions listing the genera of plants that are not prohibited entry into the United States but are known to be hosts of the citrus blackfly or that may hereafter be determined as such."

c. Add a new section to be designated as § 319.37-8a, consisting of administrative instructions issued under the authority of the above proposed amendment, to read as follows:

§ 319.37-8a *Administrative instructions designating genera known to be hosts of the citrus blackfly.* (a) The Director of the Division, upon the basis of evidence satisfactory to him, has determined that the following genera of plants, that are not prohibited entry into the United States, are known hosts of the citrus blackfly (Aleurocanthus woglumi Ashby):

Achras.	Jatropha.
Anacardium.	Lagerstroemia.
Annona.	Lucuma.
Ardisia.	Magnolia.
Bouvardia.	Mammea.
Bumelia.	Mangifera.
Bursera.	Melia.
Buxus.	Myroxylon.
Calocarpum.	Myrtus.
Capsicum.	Parmentiera.
Cardiospermum.	Persea.
Cedrela.	Plumeria.
Cestrum.	Populus.
Cnidoscolus.	Psidium.
Coffea.	Punica.
Crataegus.	Pyrus.
Cydonia.	Sapindus.
Diospyros.	Solandra.
Duranta.	Spondias.
Eugenia.	Strelitzia.
Fraxinus.	Tabebuia.
Hibiscus.	Vitis.
Hura.	Zingiber.
Ixora.	

(b) Such additional admissible plants as may later be determined as hosts of the citrus blackfly shall have the same status as those listed herein.

(c) Blackfly host plants of genera that are prohibited entry into the United States are not included in the list in paragraph (a) of this section.

The first of these proposed amendments, if adopted, would have the effect of making inapplicable, in respect to the seeds of fruits that may now be imported without treatment in accordance with the provisions of §§ 319.56, 319.56-1 et seq., the requirements of § 319.37-4 (b), as to freedom from pulp. That is, if the entire fruit is eligible for importation without treatment, seeds from such fruit may be imported although accompanied by moist and fleshy pulp.

The second proposal would require that plants and plant cuttings of genera that are known to be hosts of the citrus blackfly from countries where this species occurs must be defoliated in the country of origin if they are to be imported through any port other than the Ports of New York and Seattle. It also authorizes the Director of the Plant Quarantine Division to issue administrative instructions listing such genera. The final proposed amendment consists of administrative instructions listing the genera of plants that are not otherwise prohibited entry into the United States and are known hosts of the citrus blackfly.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Director of the Plant Quarantine Division, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 1, 5, 7, 9, 37 Stat. 315, 316, 317, 318, as amended; 7 U. S. C. 154, 159, 160, 162)

Done at Washington, D. C., this 10th day of July 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[F. R. Doc. 58-5393; Filed, July 14, 1958; 8:54 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

SOAP AND RELATED PRODUCTS INDUSTRY

NOTICE OF TENTATIVE DECISION IN DETERMINATION OF PREVAILING MINIMUM WAGES

A complete record of proceedings held under Sections 1 and 10 of the Walsh-Healey Public Contracts Act (41 U. S. C. 35 and 43a) to determine the prevailing minimum wages for persons employed in the soap and related products industry has been certified by the Hearing Examiner. The record, having been fully considered, the rules of practice, 41 CFR 203.21 (b), next require issuance of a tentative decision in the matter, including a statement of findings and conclusions, as well as the reasons and basis therefor, and the appropriate wage determination.

For reasons hereinafter stated, no change is proposed from present regulations in either the substantive definition of the industry or in the geographical area to which the wage determination applies. Revision of the existing wage rate, however, is proposed to conform to the minimum wage which prevails as evidenced by the data of record, and to eliminate from the present regulations special provision for beginners and learners. There is no need to invoke special provision for apprentices or handicapped workers as special rates for them are governed by general regulations (41 CFR Part 201).

Definition. The record discloses that aside from an objection by one employer representative who urged the exclusion from the definition of products containing less than twenty percent soap or detergent, all other parties participating in the hearing approved of the definition. A spokesman for the American Soap and Glycerin Association stated that "the association believes that it is a fairly accurate definition." Similarly approving, were the comments on the definition made by the representative authorized to present the views of the International Chemical Workers Union, concurred in by the Oil, Chemical, and Atomic Workers International Union and by the AFL-CIO.

No product content limitation by percentages is justified by the evidence. Moreover, I take official notice of the fact that there is no percentage limitation on ingredients of soaps or synthetic organic detergent products as classified by either the Bureau of Census or the Bureau of Budget in their respective publications—the Census of Manufacturers and the Standard Industrial Classification. In substance the proposed definition has been in effect since 1950 and I find that it is appropriate for this industry.

LOCALITY

Among the subjects and issues presented in the notice of hearing was whether a single industry-wide determination or separate geographically described regional determinations should be made. Several views on this question were expressed at the hearing and there are also in the record, relevant economic data.

In brief, the labor organizations urged a single industry-wide determination, arguing from the premise that "the major part of this industry's products are sold nationally, usually according to brand names, and without regard to location of production." The industry trade association appearing at the hearing offered no objection to such a single determination. A representative of a single establishment urged that a wage differential be established for the industry in the South.

This last argument appears to rely more on lower wage rates paid in the South generally than on an insular position in terms of competition. Even with respect to the wage structure however, I note that the spokesman for the employer association expressed the view that while there is a difference between the rates paid in the South and elsewhere, the difference is "not as marked today as heretofore * * * We do not believe probably that the South demonstrates a sufficient proportion of this type of business to make a separate rate for areas, say, than any other area." In any event, the controlling purposes of the Walsh-Healey Act preclude use of such as basis for determining a separate regional minimum wage. As the Supreme Court has pointed out, the purpose of the act is "* * * to obviate the possibility that any part of our tremendous national expenditures would go to forces tending to depress wages and purchasing power * * *", Perkins v. Lukens Steel Company, 310 U. S. 113, 128.

The record contains uncontroverted evidence introduced by the Wage and Hour and Public Contracts Divisions on marketing and competitive factors showing substantial interregional shipments throughout the country. Government Exhibit No. 7 entitled "Government Awards Subject to the Public Contracts Act for the Soap and Related Products Industry Showing the Origin or Place of Manufacture and Destination by Regions, of Bids and Shipments Made Pursuant to Federal Agency Invitations-to-bid for the Calendar Year 1956", conclusively supports a single determination of the prevailing minimum wage in all the area in which the industry operates. From the information contained in this Exhibit it is seen that 63.5 percent of all bids and 42 percent of all shipments were inter-regional with every region bidding for contracts in and shipping soap to every other region. I therefore find that the area of competition for Government contracts subject to the Walsh-Healey Act in the products of this industry is co-extensive with all of that area in which the industry has its plants, and that it may not be defined more narrowly. This conclusion is in accordance with findings in the previous wage determinations issued for this industry.

Under all the evidence, therefore, I find that the locality in which the products of the soap and related products industry are to be manufactured or furnished under contracts subject to the Act includes all that area in which the industry has its establishments.

WAGE DATA

The wage data introduced at the hearing consist primarily of data compiled and prepared from a survey of the industry conducted by the Bureau of Labor Statistics. The survey included all establishments with eight or more employees. Two hundred and sixteen establishments with 15,443 covered employees were found to be within the scope of the survey as the industry was defined in these proceedings. Wage data were actually obtained and studied from 206 of the 216 establishments. That the data more nearly represent the whole industry the remaining ten establishments were included in accordance with well established statistical procedures by ascribing to them the same wages found in plants actually studied which had similar characteristics of size, location and the like.

A representative of the Association of American Soap and Glycerin producers representing the majority of the establishments in the soap and related products industry while appearing and testifying at the hearing made no specific recommendation as to a prevailing minimum wage rate. This representative, however, sought to project certain undesirable effects which he urged to be avoided in determining the prevailing minimum wage. His principal concern was that the rate determined not "price out" the smaller establishments in the industry employing 50 or less employees with a possibility of curtailed employment and competitive disadvantage on bidding for Government contracts in the products of the industry. On the basis of the evidence in the record of the hearing, it is evident that neither the majority nor even any substantial part of the smaller establishments employing the smaller number of employees are wholly confined to the lower half of minimum wages paid in the industry. The smaller establishments employing 50 or less employees are found throughout the whole range of the minimum wage frequency distribution tables. A considerable number of these smaller plants are shown to pay the prevailing minimum wage hereinafter determined. It necessarily follows that some portion of the establishments in a particular industry pay less than the prevailing minimum wage. It is the intent and purpose of the statute that such lower wage segment of the industry not have access to Government business unless its minimum wages are brought up to the prevailing industry standard. It is precisely to foreclose unfair competitive advantage by such lower-paying establishments that the act requires the payment of not less than the prevailing minimum wage in the industry.

The unions' evaluation of the minimum wages paid in this industry as reflected in the Bureau of Labor Statistics tabulations concludes that $1.50 per hour is appropriate for determination as the prevailing minimum wage in this industry.

To this rate the unions would add six cents to compensate for wage increases between September 1956 and the date of the hearing, in the plants in the industry having contracts with them. This increase is based upon the pattern established by both unions in bargaining with employers, and BLS data on average hourly earnings which it is urged show an increase of not less than six cents per hour from September 1956 to March 1957.

With regard to increases in minimum wage rates in this industry between the BLS wage survey of September 1956 and the time of the hearing, the union presentation relates first to collective agreements which they have negotiated for 22 plants in the industry. These plants compose just over 10 percent of the establishments reported by the Bureau of Labor Statistics and employ 4741 workers, or approximately 30 percent of the workers in the industry reported by the Bureau. Negotiated increases in minimum wages were indicated for 15 of the 22 establishments having a total employment of 4327 workers or approximately 28 percent of the industry total. The unions' presentation states that these increases average slightly above 7 cents an hour, and concludes that this data taken in conjunction with increases in the average hourly earnings of workers in this industry as published by the Bureau of Labor Statistics in the Monthly Labor Review spell out "a pattern of wage increases in this industry of no less than six cents since last September [1956]". I take official notice that the Bureau's published finding shows an increase in the applicable adjusted average hourly earnings of 15 cents from September 1956 to June 1957.

The data with respect to the increases negotiated by the unions standing alone are not complete or comprehensive enough, viewing the industry as a whole, to conclude with necessary support of substantial evidence what if any increase in minimum wages has occurred since September 1956 for purposes of determining the prevailing minimum wages in this industry. To follow the unions' suggestion would require determination without equivalent data as to post-survey increases in minimum wages, if any, in 90 percent of the establishments employing approximately 70 percent of the employees in the industry. No satisfactory or plausible basis for so concluding is advanced.

Similarly, no method is proposed or suggested by the unions to translate increases in the cited average hourly earnings into increases in the minimum wages paid in the industry. For these reasons the proposal of the unions for a post-survey increase of 6 cents an hour in the prevailing minimum wage in this industry must be denied.

An evaluation of the BLS wage data introduced at the hearing shows that in the Soap and Related Products Industry 52.7 percent of the establishments paid no covered worker a minimum wage of less than $1.35 per hour. On the other hand, 51.3 percent of all covered workers were employed in plants which paid no worker a minimum wage of less than $1.65 per hour.

Thus, the evidence presents two extremes, in relation to the data, normally in closer approximation and usually adverted to for a finding as to the minimum wage which prevails. As to industries where the employment is better diffused among the various plants in the industry, relating establishment minimum wages separately to total employment units or to total covered employment in such units has yielded minimum wages which are in relative proximity so that either could be characterized as prevailing in the particular industry. The exercise of statutory discretion in such cases has favored choice of one of these two minimum wages which under all the facts of record most accurately measures the prevailing minimum wages in the industry, considered as a whole. Such process of determination, however, is precluded here by the evidence which shows a substantial spread between the minimum wage suggested by each of the two approaches. Any choice between them in appraising the minimum wages of the industry as a whole, would depend upon whether the various sizes of plants as to employment should be disregarded and all should be treated as equals in their contribution to the prevailing minimum wage standard of the industry, or whether they should be accorded force and influence in accordance with their size.

In this industry, no single minimum hourly wage is found among the several plants with such frequency that it fairly may be said to be "prevailing" in the industry, in the sense that it will serve to distinguish the plants which pay "not less than • • • the prevailing minimum wages for persons employed in • • • the particular" industry. In this context, the minimum wage practices of the larger plants contributing most to employment in the industry inherently have greater, but not necessarily exclusive weight in influencing the practice which is prevalent in the industry as a whole, than the practices of its least substantial employing and productive units. However, each productive unit regardless of size offers some measurable contribution to the minimum wage practices of the industry viewed as a whole, requiring evaluation and weighting.

These several considerations are satisfied by the $1.50 rate proposed by the unions, which is so situated within the range between the rates of $1.35 and $1.65, as to avoid their disabilities as wholly accurate measures of the prevailing minimum wage practice of the industry. Table 3 of Government's Exhibit No. 5 shows that this rate has substantial representation as a minimum wage in the various sizes of plants surveyed from the largest to the smallest. While it recognizes the impact of the minimum wages paid by the larger plants, it also gives due weight to the minimum wage practices of the smaller sized plants, about 30 percent of which pay $1.50 or more as their minimum wage. The wage survey data on payment of this minimum rate show that 67.6 percent of all covered workers in the industry are employed in establishments which pay plant minimum wages of not less than $1.50 an hour.

It is evident from this analysis that the $1.50 rate is the most appropriate and accurate measure of the prevalent minimum wage practice in this industry.

There remains for consideration the contention of a single employer who urged that a lower wage rate be determined for the South in that the wage rates in the South are lower than in other regions and such differential is necessary for the southern plants to remain competitive. The data disclose that 25 percent of the establishments in the South employing 83.3 percent of the 1,106 covered workers paid no worker minimum wages at less than $1.50, and only 185 workers were employed in southern plants paying wages of less than $1.50. The evidence of record obviously fails to support and conclusively refutes the proposal of this employer, and it is rejected.

On the basis of the evidence contained in the record, I find, therefore, that the prevailing minimum wage in the Soap and Related Products Industry is $1.50 per hour.

Learners or beginners. Separate wage data for learners were not obtained in the BLS survey, as it appears that the industry does not employ learners as this term is usually applied. Both the labor unions and the industry representatives at the hearing expressed the opinion that the use of beginners or learners in the industry was of such a minor character that authorization of a subminimum rate for such classification would be without substantial basis and unwarranted. A view was expressed for one employer located in the South that a subminimum rate should be authorized for learners or beginners if the prevailing minimum wage were determined to be $1.10 per hour. Since no basis is presented for a learner or beginner subminimum wage tolerance, none is necessary or will be provided.

Accordingly, upon the findings and conclusions stated herein, and pursuant to authority under the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. S. C. 35 et seq.) and in accordance with the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 237), notice is hereby given that I propose to amend Title 41 of the Code of Federal Regulations, Part 202, as follows:

§ 202.31 *Soap and related products industry*—(a) *Definition.* The soap and related products industry is defined as the manufacture of soap in bars, chips and flakes, and in granulated, sprayed, powdered, paste, and liquid forms; synthetic organic detergents for household or institutional use; glycerin (except synthetic glycerin); and products when they contain soap and/or synthetic organic detergents: Cleansing, scouring powders, shaving soaps and creams, shampoos, washing compounds, and other cleaning agents and compounds.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the soap and related products industry under contracts subject to the Walsh-Healey Public Contracts Act shall not be less than $1.50 per hour arrived at either on a time or piece rate basis.

(c) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

Within thirty days from the date of the publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed action above described. Exceptions should be directed to the Secretary of Labor and filed with the Chief Hearing Examiner, Room 4414, United States Department of Labor, Washington 25, D. C.

Signed at Washington, D. C., this 8th day of July 1958.

JAMES P. MITCHELL,
Secretary of Labor.

[F. R. Doc. 58-5370; Filed, July 14, 1958; 8:50 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41]

[Draft Release 58-13]

SCHEDULED INTERSTATE AIR CARRIER OPERATIONS AND SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

REQUIREMENTS FOR PILOT ROUTE QUALIFICATION

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety, notice is hereby given that the Bureau will propose to the Board amendments to Parts 40 and 41 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by Aug. 26, 1958. Copies of such communications will be available after Aug. 28, 1958, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Section 40.303 of the Civil Air Regulations requires, in part, that each pilot in command in qualifying over a route shall make an entry into each regular, provisional, and refueling airport into which he is scheduled to fly. Section 41.50 of the Civil Air Regulations provides, in part, that a pilot in qualifying over a route shall make at least one round trip or two one-way trips over the route, including a familiarization flight at each regular, provisional, or refueling airport, with one of the air carrier's check pilots. Sections 40.304 and 41.51 governing the maintenance and re-establishment of route qualifications require under certain circumstances that the provisions of §§ 40.303 and 41.50 be complied with by the pilot in command.

On January 20, 1955, the Bureau of Safety published Civil Air Regulations Draft Release No. 55-3 (20 F. R. 550). This draft release dealt with the over-all problem of pilot airport and route qualification and considerable emphasis was placed on recent developments of motion picture panoramic views of airports and their environs which showed excellent promise of providing an effective means for insuring pilot airport qualification. The Bureau expressed the view that the regulations should be amended in a manner that would encourage further research and development of the visual training aids programs by various commercial sources and at the same time provide more acceptable airport qualification rules for use in the meantime. Furthermore, the Bureau stated that it would seem appropriate to permit methods of airport qualification other than physical entry, provided that such alternative methods had the approval of the Administrator.

Following publication of Draft Release 55-3, the Board promulgated a series of Special Civil Air Regulations (SR-413, SR-414, SR-418, and SR-418A) as a vehicle for permitting the controlled introduction of new techniques in airport and route qualification. These included the use of pictorial means within the training program which enable pilots to qualify at specified airports by using color motion pictures or slides showing clear daylight views of the complete physical layouts of the airports, surrounding terrain, obstructions, approaches to all runways, restricted areas, and conspicuous reference points that are of value to pilots. Under these special regulations air carriers were also authorized to conduct operations at an airport in close proximity to an airport into which pilots were qualified when the Administrator found that such pilots were adequately qualified at the new airport. In making such findings the Administrator took into consideration such things as the familiarity of the pilots with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport. In addition, under SR-418 and SR-418A, a pilot was expressly permitted to accomplish initial qualification into an airport without being accompanied by a pilot qualified at that airport if such initial entry were made under VFR weather conditions at the particular airport involved.

One of the principal purposes of these special regulations has been to provide sufficient opportunity for evaluation of pictorial means of airport and route qualification by industry and Government alike in order to guide the Board in its final action in amending the Civil Air Regulations. Experience gained under these special regulations up to the time of the adoption of SR-418A indicated that the various procedures provided therein for airport and route qualification, including pictorial means, had been successful. Therefore, the Board stated in the preamble to SR-418A that prior to the termination of that regulation, a proposal to incorporate its substance into Parts 40 and 41 would be circulated for comment. Inasmuch as SR-418A terminates on September 23, 1958, the Board is interested in obtaining comments as to the continued effectiveness and extent of use of the privileges of SR-418A and any other recommendations with respect to incorporation of the provisions of that regulation in Parts 40 and 41 of the Civil Air Regulations.

The provisions of SR-418A are being proposed for incorporation in Parts 40 and 41 with a slight revision of the requirement concerning route qualification on those routes on which navigation must be accomplished by pilotage and on which the flight is to be conducted at or below the level of adjacent terrain. These changes are being made in the interest of clarity.

In view of the foregoing, notice is hereby given that the Bureau proposes to recommend to the Board that Parts 40 and 41 of the Civil Air Regulations be amended as follows:

1. By amending §§ 40.303 and 41.50 to read as follows:

Pilot route and airport qualification requirements. (a) An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve in accordance with the provisions of this section and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to each route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be accomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and letdown procedures approved for use by the air carrier:

(1) Weather characteristics,
(2) Navigational facilities.
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the route.

(c) Each such pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Such entry shall include a landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment and he shall be accompanied by a pilot who is qualified at the airport.

(d) Such pilot shall not be required to meet the entry requirements of paragraph (c) of this section when:

(1) The initial entry is made under VFR weather conditions at the particular airport involved; or

(2) The air carrier shows that the pilot airport qualification can be accomplished by an approved pictorial means; or

(3) The air carrier notifies the Administrator that it intends to conduct operations at an airport in close proximity to an airport into which the pilot involved is presently qualified by entry, and the Administrator finds that such pilot is adequately qualified at the new airport. The Administrator, in making such finding, shall take into consideration at least the familiarity of the pilot with the layout, surrounding terrain, location of obstacles, and instrument approach and traffic control procedures at the new airport.

(e) On routes or route segments on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route or route segments by not less than two one-way trips on the flight deck over the route or route segments under VFR weather conditions to permit the qualifying pilot to observe terrain along the route.

2. By amending § 40.304 (a) by changing the reference "§ 40.303 (d)" to read "§ 40.303 (e)".

3. By amending § 41.51 to read as follows:

§ 41.51 *Maintenance and re-establishment of pilot route and airport qualification for particular trips.* (a) To maintain pilot route and airport qualification, each pilot being utilized as pilot in command, within the preceding 12-month period, shall have made at least one trip as pilot or other member of the flight crew between terminals into which he is scheduled to fly and shall have complied with the provisions of § 41.50 (e), if applicable.

(b) In order to re-establish pilot route and airport qualifications after absence from a route for a period in excess of 12 months, a pilot shall comply with the appropriate provisions of § 41.50.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may by changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, 49 U. S. C. 551–560)

Dated at Washington, D. C., July 8, 1958.

By the Bureau of Safety.

[SEAL] OSCAR BAKKE, *Director.*

[F. R. Doc. 58-5397; Filed, July 14, 1958; 8:55 a. m.]

[14 CFR Part 241]

[Economic Regs. Draft Release 96]

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

CERTIFICATION OF FORM REPORTS

JULY 10, 1958.

Notice is hereby given that the Civil Aeronautics Board has under consideration amendment of the reporting requirements of Part 241 of the Economic Regulations (14 CFR Part 241). This proposed rule would require the carriers at the time of filing a Form 41 report to identify and explain any differences between the accounting methods and methods of computing and reporting traffic statistics used in such report and those methods used in prior reports. The present certification of the Form 41 report would be modified accordingly.

The principal features of this proposed amendment are explained in the explanatory statement below and the proposed amendment is set forth below.

This regulation is proposed under authority of sections 205 (a) and 407 of the Civil Aeronautics Act, as amended (52 Stat. 984, 1000; 49 U. S. C. 425, 487).

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate and addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before August 13, 1958 will be considered by the Board before taking final action thereon. Copies of such communications will be available on or after August 15, 1958 for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] JOHN B. RUSSELL, *Acting Secretary.*

Explanatory statement. All data included in the Form 41 reports, to fully serve the public interest, must either be prepared and reported on a basis consistent with similar data included in prior reports or adequate notice must be given concerning changes and deviations. While air carriers are required by § 241.2–16 of the "Uniform System of Accounts and Reports for Air Carriers" to set forth as footnotes to the financial statements all matters which are not clearly identified in the body of the financial statement but which can have a significant impact upon reported results, the carriers have failed to identify or explain in their Form 41 reports changes in reporting practices utilized in preparing such reports. Furthermore, the carriers are not presently required to certify that the data in a particular report was prepared and reported on a basis consistent with prior reports.

Accordingly, this proposal would require that an additional statement be included in the certification to a Form 41 report certifying that the methods and procedures used are consistent with those used in prior reports except as specifically indicated by appropriate notations or explanations accompanying the schedules.

Such notations or explanations should be attached to the first report affected by the change in methods or procedure and, except for changes resulting from an overall substitution in the regulations, would cover all changes in accounting methods having an impact upon financial data including, but not limited to, changes in methods of or basis for reserve accruals, depreciation, allocations between operating divisions or to nontransport activities, etc., and all changes in methods of computing and reporting traffic and capacity statistics having an impact upon such statistics.

The proposal would necessitate the reprinting of Schedule A of Form 41. Carriers would, therefore, be requested for an interim period to type the additional certification on the currently effective Schedule A for reporting purposes, until a supply of the modified schedule becomes available.

It is proposed to amend Part 241 of the Economic Regulations (14 CFR Part 241) in the following respects:

1. By adding a new paragraph (i) to § 241.22 to read as follows:

(i) All changes in accounting methods having an impact upon financial data (except for those resulting from an over-all substitution in regulations), including but not limited to changes in methods of or basis for reserve accruals, depreciation, allocations between operating divisions or nontransport activities, and all changes in methods of computing and reporting traffic and capacity statistics having an impact upon such statistics, shall be adequately explained and identified in the report first reflecting such changes. Such explanations relating to financial position or financial results, shall be made on Schedules P-1 and P-2, Notes to Balance Sheet, and Notes to Income Statement, respectively. Changes in methods for computing or reporting traffic and capacity statistics shall be identified and explained on a separate sheet attached to the first report affected. (See section 2, item 14.) The requirements herein shall not be construed, in any sense, as relieving the air carrier of the responsibility for conforming its procedures to those otherwise prescribed in this system of accounts and reports.

2. By amending the title to § 241.2 to read "Certification and Balance Sheet Elements" and by inserting immediately thereafter the subtitle "Schedule A—Certification" followed by a statement concerning the form and contents of the certification to read as follows: The certification of the Form 41 reports, embodied in Schedule A thereof, shall read as follows:

I, the undersigned ----------
---------- of the
(Title of officer in charge of accounts)

(Full name of the reporting company)
do certify that this report and all schedules and supporting documents which are submitted herewith or have been submitted heretofore as parts of this report filed for the above indicated period have been prepared under my direction; that I have carefully examined them and declare that they correctly reflect the accounts and records of the company, and to the best of my knowledge and belief are a complete and accurate statement, after adjustments to reflect full accruals, of the operating revenues and expenses, income items, assets, liabilities, capital, surplus, and operating statistics for the periods reported in the several schedules; that the various items herein reported were determined in accordance with the Uniform System of Accounts for Air Carriers prescribed by the Civil Aeronautics Board; and that the data contained herein is reported on a basis consistent with prior reports except as specifically noted in explanations accompanying the financial and statistical statements.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 7, 1958.

The Bureau of Reclamation has filed an application, Serial No. Idaho 09271, for the withdrawal of the lands described below, from all forms of appropriation under the first form of withdrawal, as provided by section 3 of the act of June 17, 1902 (32 Stat. 388). The applicant desires the land for development of the Burns Creek Dam and Reservoir on the Snake River.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will

[1] Section 241.2–16.

sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 3 N., R. 42 E.,
Sec. 4, Lots 5, 7, 8, and NW¼SW¼;
Sec. 5, Lots 6, 7, 8, 9, 10, and the portions of Lots 5 and 11 not included in Homestead Entry Survey 555;
Sec. 9, Lots 4, 5, 8, 9, 10, and NW¼SW¼ NW¼NE¼, SW¼SE¼NW¼NE¼.

This area includes approximately 245.75 acres, and is located on the Snake River about 15 miles east of Ririe, Bonneville County, Idaho.

DONALD I. BAILEY,
Acting State Supervisor.

ATOMIC ENERGY COMMISSION

[Docket No. 50-18]

GENERAL ELECTRIC CO.

NOTICE OF ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission has issued the following Amendment (No. 5) to License DPR-1 authorizing General Electric Company to conduct tests in its Vallecitos Boiling Water Reactor with two types of fuel elements designated by the applicant as the "Geneva Conference fuel" type and the "APPR fuel" type. The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the conduct of the proposed tests does not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the Vallecitos Boiling Water Reactor.

In accordance with the Commission's rules of practice (10 CFR Part 2) the Commission will direct the holding of a formal hearing on the matter of the issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within thirty days after the issuance of the license amendment. For further details, see (1) the application for amendment submitted by General Electric Company and (2) a hazards analysis of the proposed tests prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 8th day of July 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director, Division of Licensing and Regulation.

[Docket No. 50-18]

[License No. DPR-1, Amdt. 5]

GENERAL ELECTRIC COMPANY

AMENDMENT OF UTILIZATION FACILITY LICENSE

In addition to activities previously authorized by the Commission under License No. DPR-1, as amended, the General Electric Company (hereinafter referred to as the "licensee") is authorized to perform the tests described in application amendments No. 25 and 27 dated May 28, 1958, and June 24, 1958, respectively, in accordance with the procedures and subject to the limitations stated therein.

In performing these tests, the licensee shall comply with the conditions and requirements contained or incorporated in paragraph 4 of License No. DPR-1 as amended.

This amendment is effective as of the date of issuance.

Date of issuance: July 8, 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Licensing and Regulation.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 12315, 12316; FCC 58M-732]

SHEFFIELD BROADCASTING CO. AND J. B. FALT, JR.

ORDER CONTINUING HEARING CONFERENCE

In re applications of Iralee W. Benns, tr/as Sheffield Broadcasting Co., Sheffield, Alabama, Docket No. 12315, File No. BP-11130; J. B. Falt, Jr., Sheffield, Alabama, Docket No. 12316, File No. BP-11559; for construction permits.

The Chief Hearing Examiner having under consideration the motion of Iralee W. Benns, tr/as Sheffield Broadcasting Co., filed July 7, 1958, that the date for exchange of exhibits constituting the direct cases of the parties herein be extended from July 8 to August 25, 1958, and that the prehearing conference heretofore scheduled for July 23, 1958, be continued to September 9, 1958;

It appearing, that counsel for the moving party had been occupied in other hearing matters almost continuously since May 26, 1958, and that additional time is required by him to prepare adequately for the hearing in this proceeding;

It appearing further, that the Commission's Broadcast Bureau, and all other parties of record in the matter, consent to the granting of the instant motion and to a waiver of the provisions of § 1.43 of the rules to permit immediate consideration thereof;

It is ordered, This 8th day of July 1958, that the motion is granted and that the final date for exchange of exhibits constituting the direct cases of the parties to the above-entitled proceeding is extended from July 8, 1958, to August 25, 1958; and that the prehearing conference herein, which is presently scheduled for July 23, 1958, is continued to September 9, 1958.

Released: July 9, 1958.

[Docket Nos. G-12059 etc.]

TRANSCONTINENTAL GAS PIPELINE CORP. AND ATLANTIC SEABOARD CORP.

ORDER FIXING DATE FOR ORAL ARGUMENT

JULY 8, 1958.

In the matters of Transcontinental Gas Pipeline Corporation, Docket Nos. G-12059, G-13357 and G-13560; Atlantic Seaboard Corporation, Docket No. G-13707.

On May 29, 1958, the Presiding Examiner issued his decision in the above designated proceeding. Thereafter, on June 17, 1958, exceptions to that decision were filed by Atlantic Seaboard Corporation, National Coal Association et al., and Baltimore Gas & Electric Company. Together with their respective exceptions, each of the above-named parties filed a motion or request for opportunity to present oral argument before the Commission in opposition to the aforementioned decision.

The Commission finds: It is necessary and appropriate in carrying out the provisions of the Natural Gas Act that the respective motions and request for oral argument before the Commission be granted as herein ordered and provided.

The Commission orders:

(A) Oral argument shall be had before the Commission on July 31, 1958 at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the exceptions to the Presiding Examiner's decision.

(B) Those parties to this proceeding who intend to participate in the oral argument shall notify the Secretary of this Commission on or before July 18, 1958, of such intention and the time required for presentation of their argument.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-5351; Filed, July 14, 1958; 8:46 a. m.]

[Docket No. E-6832]

SOUTHERN NEVADA POWER CO.

ORDER PROVIDING FOR HEARING AND SUSPENDING PROPOSED RATE SCHEDULES

JULY 9, 1958.

Southern Nevada Power Company (Southern Nevada), incorporated under the laws of the State of Nevada, with its principal place of business in Las Vegas, Nevada, on June 9, 1958, tendered two proposed rate schedules for filing, pursuant to section 205 of the Federal Power Act, with the request that they be permitted to be effective April 1, 1958. The proffered filings have been tentatively designated in the Commission's files as Supplement Nos. 1 to Southern Nevada's Rate Schedules FPC Nos. 1 and 2.

Substantively, the proposed supplemental rate schedules would effect increases in the rates and charges embodied in Southern Nevada's currently effective rate schedules for wholesale electric service to: (1) The Colorado River Commission of Nevada (Southern Nevada's Rate Schedule FPC No. 1); (2) California-Pacific Utilities Company (Southern Nevada's Rate Schedule FPC No. 2). The Colorado River Commission of Nevada, an instrumentality of the State of Nevada, in turn resells the power and energy purchased from Southern Nevada to the California-Pacific Utilities Company for resale by the latter through its Needles, California, electric system. California-Pacific Utilities Company's other purchase of electric power and energy from Southern Nevada is used by the former to meet the electric requirements of its Henderson, Nevada, electric system.

Based upon data submitted by Southern Nevada, the proposed rate increase to the Colorado River Commission of Nevada would amount to $22,523 ([illegible] percent) for the twelve-month period ending March 1958, and the proposed increase to California-Pacific Utilities Company would amount to $3,620 ([illegible] percent) for the same twelve-month period. In each instance, the proposed increase would be accomplished by a [illegible] mill per kwh increase in each step of the energy charge portion of Southern Nevada's currently filed demand-energy type rate and a contraction of the first step of that charge from 180,000 kwh to 100,000 kwh per month. That demand-energy rate is Southern Nevada's LGS rate, a standard rate of the Company available to industrial and resale purchasers. As such, it is attached to the agreement between Southern Nevada and the Colorado River Commission of Nevada, dated June 24, 1955, embodied in Southern Nevada's Rate Schedule FPC No. 1, and the agreement between Southern Nevada and California-Pacific Utilities Company, dated June 1, 1955, embodied in Southern Nevada's Rate Schedule FPC No. 2. The former agreement is for an initial 10-year term from January 1, 1956, and successive 10-year periods thereafter, and the last mentioned agreement is for an initial term of 10 years from June 1, 1955, and for successive 10-year periods thereafter.

In support of the proposed rate increases, Southern Nevada submitted data, showing a rate base derived by an apparent averaging of replacement cost and book cost, less depreciation reserve and customer advances; a return of [illegible] percent; and a normalization of Southern Nevada's federal income tax liability by reason of certain practices of the Company in the computation of income taxes.

The proposed changes in Southern Nevada's currently filed rate schedules have not been shown to be justified; may result in excessive rates or charges; may place an undue burden upon ultimate consumers; and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful within the meaning of the Federal Power Act. And unless suspended by order of the Commission, the proposed supplemental rate schedules will become effective July 10, 1958, pursuant to the provisions of

the Federal Power Act and the Commission's Regulations thereunder.

The Commission finds: In view of the foregoing, it is necessary and appropriate for the purposes of the Federal Power Act that the Commission, pursuant to the authority of that Act, enter upon a hearing concerning the lawfulness of Southern Nevada's Rate Schedules FPC Nos. 1 and 2 as proposed to be changed by Supplements Nos. 1 thereto and that the operation of such proposed supplemental rate schedules be suspended and the use thereof deferred as hereinafter provided.

The Commission orders:

(A) A public hearing be held concerning the lawfulness of Southern Nevada's Rate Schedules FPC Nos. 1 and 2 as proposed to be changed by Supplements Nos. 1 thereto at a time and place and in the manner all to be fixed by further order of the Commission.

(B) Pending such hearing and decision thereon, the operation of each of the proposed supplemental rate schedules referred to in Paragraph (A) above hereby is suspended and the use thereof deferred until December 11, 1958. On that date the proposed supplemental rate schedules shall take effect in the manner prescribed by the Act, subject to further order of the Commission.

(C) During the period of suspension Southern Nevada's Rate Schedules FPC Nos. 1 and 2, now on file with the Commission, shall remain and continue in effect.

(D) Interested State Commissions may participate in this proceeding as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5380; Filed, July 14, 1958; 8:52 a. m.]

[Docket No. G-15410]

MAGNOLIA PETROLEUM CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 9, 1958.

Magnolia Petroleum Company (Operator) et al. (Magnolia), on June 9, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change which constitutes an increased rate and charge, is contained in the following designated filings:

Description: (1) Supplemental Agreement,[1] dated May 29, 1958. (2) Notice of Change, undated.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: (1) Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 24. (2) Supplement No. 2 to Magnolia's FPC Gas Rate Schedule No. 24.

[1] Parties renegotiate a base rate increase from 8.997 cents to 18.5 cents per Mcf.

Effective date: July 10, 1958 (the stated effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed renegotiated rate increase, Magnolia states that the sale of natural gas is a commodity sale and not a service, as is the transportation of gas, and the determination of a just and reasonable rate should be by a "supply and demand formula" method. In addition, Magnolia states the increase is necessary because its revenue requirements have increased with the rise in cost of doing business and the additional revenue is further made necessary to encourage further exploration and development.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or perferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement Nos. 1 and 2 to Magnolia's FPC Gas Rate Schedule No. 24 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement Nos. 1 and 2 to Magnolia's FPC Gas Rate Schedule No. 24.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by § 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5381; Filed, July 14, 1958; 8:52 a. m.]

[Docket No. G-15417]

CONTINENTAL OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 9, 1958.

Continental Oil Company (Operator) et al. (Continental), on June 9, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, undated.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 10 to Continental's FPC Gas Rate Schedule No. 85; Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 92.

Effective date: July 10, 1958 (the stated effective date is the effective date proposed by Continental).

In support of the proposed favored-nation rate increases, Continental submits copies of letters dated November 1, 1957, from El Paso Natural Gas Company (El Paso) notifying Continental that effective January 1, 1958, El Paso was increasing by 1 cent per Mcf the price it was paying for purchased gas. In addition, Continental states that the pricing provisions of the contracts were arrived at from good faith arm's-length bargaining and are an integral part of the consideration and to deny the proposed increases is a denial of Continental's constitutional rights.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 10 to Continental's FPC Gas Rate Schedule No. 85, and Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 92 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 10 to Continental's FPC Gas Rate Schedule No. 85, and Supplement No. 7 to Continental's FPC Gas Rate Schedule No. 92.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(c) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of

practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5382; Filed, July 14, 1958; 8:52 a. m.]

[Docket No. G-15418]

TEXAS CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 9, 1958.

The Texas Company (Texas) on June 9, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, undated.
Purchaser: Texas Eastern Transmission Corporation.
Rate schedule designation: Supplement No. 10 to Texas' FPC Gas Rate Schedule No. 88; Supplement No. 12 to Texas' FPC Gas Rate Schedule No. 89; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 90; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 96; Supplement No. 13 to Texas' FPC Gas Rate Schedule No. 97.
Effective date: July 10, 1958 (the stated effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed favored-nation rate increases, Texas submits copies of letters from Texas Eastern Transmission Corporation (Texas Eastern) stating that Texas Eastern has agreed with other producers in South Central Texas to a redetermined price of 13.8733 cents per Mcf, including reimbursement for existing taxes, for the five-year period commencing February 5, 1958. Texas states that the increase comprises a part of the overall consideration to partially compensate it for continuously increasing development, operation and maintenance costs and the further increases in exploratory expenditures due to deeper drilling and the diminishing frequency of successful discoveries. Texas further states that United Gas Pipe Line Company (United Gas) has contracted for gas in Bee County at 17 cents per Mcf; that intrastate gas is being purchased in Refugio County by Houston Pipe Line Company and United Gas for 14.5 cents per Mcf, and that Texas Eastern is importing Mexican gas 120 miles to the south for 14.4 cents per Mcf.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 10 to Texas' FPC Gas Rate Schedule No. 88; Supplement No. 12 to Texas' FPC Gas Rate Schedule No. 89; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 90; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 96, and Supplement No. 13 to Texas' FPC Gas Rate Schedule No. 97, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 10 to Texas' FPC Gas Rate Schedule No. 88; Supplement No. 12 to Texas' FPC Gas Rate Schedule No. 89; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 90; Supplement No. 9 to Texas' FPC Gas Rate Schedule No. 96, and Supplement No. 13 to Texas' FPC Gas Rate Schedule No. 97.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket Nos. G-13189, G-13374]

SANTA ROSA GAS CO. AND EL PASO NATURAL GAS CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JULY 9, 1958.

Take notice that on October 7, 1957, El Paso Natural Gas Company (El Paso) filed in Docket No. G-13374 an application pursuant to section 7 (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain field facilities for the purpose of purchasing and receiving natural gas from Santa Rosa Gas Company (Santa Rosa) from the latter's holdings in the Fort Stockton Field, Pecos County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The facilities for which authorization is sought by El Paso are:

(1) Approximately 21.4 miles of 16-inch O. D. lateral supply pipeline to extend from the existing processing plant owned and operated by the Pecos Company (Pecos) in Pecos County, to a proposed compressor station to be known as the Fort Stockton Compressor Station to be installed in the Fort Stockton Field by Santa Rosa;

(2) Approximately 18.4 miles of 8⅝-inch O. D. pipeline looping a portion of El Paso's existing 8⅝-inch O. D. line which extends from its existing Sealy Smith Plant to the aforesaid Pecos Plant (the portion to be looped extends from a point in Ward County, Texas, to the Pecos Plant);

(3) Additional metering facilities to be installed at the aforesaid Pecos Plant.

The estimated total initial cost of the above facilities is $946,000, which cost will be financed from current working funds.

On August 29, 1957, Santa Rosa filed in Docket No. G-13189 an application pursuant to section 7 (c) for a certificate of public convenience and necessity covering the above sale of gas to be made pursuant to a 20-year residue gas purchase contract executed by and between El Paso and Santa Rosa. The seller is a partnership consisting of Chas. J. Brown II, James Doughty, B. F. Harrison, Pierre M. Aubuchon and Chester L. Whelan, all of whom are signatory seller parties to the contract for Santa Rosa.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on August 12, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before July 30, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[No. 32405]

FRESH MEATS; WESTERN TRUNK LINE, SOUTHWESTERN AND CENTRAL TERRITORIES TO EASTERN TRUNK LINE AND NEW ENGLAND TERRITORIES

NOTICE OF INVESTIGATION AND HEARING WITH RESPECT TO TRANSPORTATION RATES, CHARGES, RULES, REGULATIONS AND PRACTICES

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 24th day of June A. D. 1958.

It appearing that certain motor carrier rates from origins in Central and Southwestern Territories to destinations in Trunk Line and New England Territories are under investigation in I. & S. Docket No. M-11010 and that certain rail rates from certain origins in Central Territory to destinations in Trunk Line and New England Territories are under investigation in Docket No. 32356;

It further appearing that upon consideration of the petition dated April 11, 1958, of Eastern Meat Packers Association, National Live Stock Producers Association, American National Cattlemen's Association and National Wool Growers Association for an investigation by the Commission into the lawfulness of the rates, charges, rules, regulations and practices governing the transportation of fresh meats, in truckloads, by motor carriers, from origins in Arkansas, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, North Dakota, South Dakota, and Texas to destinations in Delaware, District of Columbia, Maryland, Massachusetts, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia; joint replies of certain eastern railroads, and of John Morrell & Company, The Rath Packing Company, Geo. A. Hormel & Company and Oscar Mayer & Company;

And it further appearing that this proceeding should embrace schedules setting forth rates on fresh meats, in truckloads, and the rules and regulations and practices relating thereto, of motor common and contract carriers operating from and to the points defined below; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of the rates, charges, rules, regulations and practices contained in schedules of all common and contract motor carriers, other than the respondents named in I. & S. Docket No. M-11010, Fresh Meats—Central and Southwest to East from origins described in the schedules suspended by order dated March 19, 1958, and supplemental orders thereto, in the aforesaid numbered docket, to destinations in the States named in the second paragraph above as more particularly described in the aforesaid schedules; and including the rates, charges, rules, regulations and practices of all motor common and contract carriers from origins named in Docket No. 32356, Fresh Meats—Midwest to East, not included in No. M-11010;

It is further ordered, That the investigation in this proceeding shall also include the lawfulness of the rates, charges, rules, regulations and practices contained in schedules of rail carriers from origins of Amarillo, Dallas, and Fort Worth, Texas; Oklahoma City, Oklahoma; Kansas City, and Wichita, Kansas; St. Joseph and St. Louis, Missouri; Alton and East St. Louis, Illinois; Davenport, Iowa; Louisville, Kentucky; and Cincinnati, Ohio, to destinations set forth in the first ordering paragraph which are published either as joint through rates on combination rates over the Mississippi River crossings;

And it is further ordered, That the carriers parties to the said schedules set forth in the first two ordering paragraphs be, and they are hereby, made respondents to this proceeding, and that a copy of this order be forthwith served upon the said respondents; and that notice of this proceeding be given the public by posting a copy of this order in the Office of the Secretary of the Commission and by filing a copy with the Director, Division of Federal Register;

And it is further ordered, That these proceedings be assigned for hearing on the 28th day of July A. D. 1958, at 8:30 o'clock a. m., United States standard time (9:30 o'clock a. m., District of Columbia daylight saving time), at the offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Walter D. McCloud.

By the Commission, Division 2.

[SEAL] HAROLD D. McCOY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24 NY-4416]

THE AMISH CO.

ORDER VACATING ORDER OF SUSPENSION

JULY 8, 1958.

In the matter of Michael Laurence and Stephen Richards as "The Amish Company," File No. 24 NY-4416.

Michael Lawrence and Stephen Richards as "The Amish Company", 41 West 86th Street, New York, New York, filed with the Commission on December 7, 1956 a notification on Form 1-A and offering circular relating to an offering of $96,000 aggregate amount of pre-formation limited partnership interests for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A, promulgated thereunder;

The Commission on June 9, 1958 ordered, pursuant to Rule 261 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the conditional exemption under Regulation A sought for the offering be temporarily suspended on the ground that the terms and conditions of Regulation A had not been complied with in that Form 2-A reports of sales, as required by Rule 260, had not been filed.

Subsequent to the Commission's action temporarily suspending the exemption, a Form 2-A report was filed reflecting that an aggregate of $11,200 interests had been sold as of November 15, 1957, and the unsold portion was withdrawn from the offering.

It appearing to the Commission that a hearing is not necessary or appropriate in the public interest or for the protection of investors;

It is ordered, Pursuant to Rule 261 (b) of the general rules and regulations under the Securities Act of 1933, as amended, that said temporary order of suspension be, and it hereby is, vacated.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[File No. 70-3713]

UTAH POWER AND LIGHT CO.

NOTICE OF PROPOSED ISSUE AND SALE AT COMPETITIVE BIDDING OF FIRST MORTGAGE BONDS

JULY 8, 1958.

Notice is hereby given that Utah Power & Light Company ("Utah"), a Maine Corporation and a registered holding company which is also a public-utility operating company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a) and 7 of the act and Rule 50 thereunder as applicable to the proposed transaction, which is summarized as follows:

Utah proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the act, $20,000,000 principal amount of First Mortgage Bonds, ... percent Series, due 1988, to be dated August 1, 1958, and to mature August 1, 1988.

The interest rate on the Bonds (a multiple of ⅛ of 1 percent) and the price (exclusive of accrued interest) to be paid for the Bonds (not less than 100 percent nor more than 102¾ of the principal amount) will be determined by competitive bidding. The Bonds will be issued under Utah's Mortgage and Deed of Trust to Guaranty Trust Company of New York et al., dated as of December 1, 1943, as heretofore supplemented and as further supplemented by a Twelfth Supplemental Indenture to be dated as of August 1, 1958. Such bonds will also be entitled to the benefit of the Indenture dated as of December 1, 1943, between Utah's subsidiary, The Western Colorado Power Company, and said trustees.

Utah states that part of the net proceeds from the sale of said Bonds will be used to redeem $15,000,000 principal amount of 1988 series bonds, 5¼ percent Series, due 1987, at 107.54 percent of their principal amount plus accrued interest; to pay bank loans aggregating $4,000,000; and that the remainder of such proceeds will be applied toward Utah's construction program. The filing states that the construction program of it and its two subsidiaries for the three year period 1958 through 1960 calls for the expenditure of an aggregate of $43,000,000, of which $39,800,000 applies to Utah.

Utah estimates that its expenses in connection with the issue and sale of said Bonds will be as follows:

Federal stamp taxes	$22,000
Filing fees, this Commission	2,040
Trustee's fees	7,800
Auditors' fees (Haskins & Sells)	3,000
Fees of Company counsel (Reid & Priest)	10,000
Printing and engraving	22,500
Charges of Ebasco Services Incorporated	6,000
Miscellaneous	2,660
Total	76,000

The fees of Beekman & Bogue, counsel to the underwriters, estimated at $8,500, will be paid by the successful bidders.

Utah has filed applications for the approval of the issuance and sale of said Bonds with the Public Service Commission of Wyoming and the Idaho Public Utilities Commission, which, in the opinion of Utah's counsel, are the only state regulatory commissions having jurisdiction in the premises.

Notice is further given that any interested person may, not later than July 23, 1958, at 5:30 p. m., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the declaration, as filed or as amended, may be permitted to become effective as provided in Rule 23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from said rules as provided in rules 20 (a) and 100 under the act, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 191]

OKLAHOMA

DECLARATION OF DISASTER AREA

Whereas, it has been reported that during the month of June, 1958, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas in the State of Oklahoma;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the Offices below indicated from persons or firms whose property situated in the following County (including any areas adjacent to said County) suffered damage or other destruction as a result of the catastrophe hereinafter referred to:

County: Butler (Tornado occurring on or about June 10, 1958).

Offices: Small Business Administration Regional Office, Home Savings Building, Fifth Floor, 1006 Grand Avenue, Kansas City 6, Mo. Small Business Administration Branch Office, 301 Bitting Building, 107 North Market Street, Wichita 2, Kansas.

2. No special field offices will be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to December 31, 1958.

Dated: June 11, 1958.

Subchapter C—Export Programs

PART 483—WHEAT AND FLOUR

SUBPART—WHEAT EXPORT PROGRAM—PAYMENT IN KIND (GR-345) TERMS AND CONDITIONS

The Terms and Conditions of the Wheat Export Program—Payment in Kind (GR-345) (21 F. R. 6627), as amended (22 F. R. 653) and (22 F. R. 4945), are reissued as Revision I, as follows:

GENERAL

Sec.
483.101 General statement.

ELIGIBILITY FOR PAYMENT BY CCC

483.105 General conditions of eligibility.
483.106 Countries and buyers to which wheat may be exported.
483.107 Date of exportation.
483.108 Excess quantities loaded.
483.109 Wheat exported prior to sale.

PROVISIONS APPLICABLE EXCLUSIVELY TO IWA SALES

483.120 Program period—IWA.
483.121 Recording in the Wheat Council's records.
483.122 IWA maximum and minimum prices.
483.123 Status of IWA quotas.

EXPORT PAYMENT RATES AND ANNOUNCEMENTS

483.130 Announcement of rates
483.131 Determination of rates.

REGISTRATION OF SALES

483.135 Notice of Sale.
483.136 Notice of Registration.
483.137 Declaration of sale and evidence of sale.

OBLIGATION AND DEFAULT

483.140 Exporter's agreement with CCC.
483.141 Cancellation of sale or failure to export.

WHEAT EXPORT PAYMENT CERTIFICATES

483.145 Application for Wheat Export Payment.
483.146 Description of certificate.
483.147 Documents required as evidence of exportation.

REDEMPTION OF WHEAT EXPORT PAYMENT CERTIFICATE

483.155 Submission of offers.
483.156 Creation of contracts.
483.157 Price.
483.158 Payment terms and financial arrangements.
483.159 Delivery.
483.160 Specifications.
483.161 Export requirements.
483.162 Evidence of export.
483.163 Adjusted sales price.
483.164 Inability to perform.
483.165 Covenant against contingent fees.

MISCELLANEOUS PROVISIONS

483.174 Performance guarantee.
483.175 Good faith.
483.176 Assignments.
483.177 Records and accounts.

to encourage the exportation through normal trade channels of wheat held in private inventories and in CCC stocks in order (a) to maintain and expand the market in friendly countries for United States produced wheat, (b) to obtain the benefits and fulfill the obligations of the United States under the International Wheat Agreement, (c) to aid the price support program by strengthening the domestic market price to producers, (d) to reduce the quantity of wheat which would otherwise be taken into CCC's stocks under its price support program, and (e) to promote the orderly liquidation of CCC stocks. The program will be administered by Commodity Stabilization Service, United States Department of Agriculture, and information pertaining to the program may be obtained from any CSS Commodity Office listed in § 483.180.

ELIGIBILITY FOR PAYMENT BY CCC

§ 483.105 *General conditions of eligibility.* (a) Payment under this program will be made to an exporter in connection with the net quantity of wheat exported from the United States to a designated country and the net quantity of wheat in customs bond in Canada exported in like manner from Canadian ports, excluding West Coast Canadian ports, pursuant to a sale to a foreign buyer for which the exporter receives a Notice of Registration from a designated Contracting Officer of CCC, in accordance with § 483.136, subject to the terms and conditions set forth in this subpart. Payment also will be made to an exporter for wheat which was exported prior to sale and for which the exporter has received a Notice of Registration from a designated Contracting Officer of CCC, subject to the terms and conditions of this subpart particularly § 483.109.

(b) Sales to foreign buyers under the International Wheat Agreement, and outside the Wheat Agreement, may be made pursuant to this program. Countries designated as IWA and non-IWA are defined in § 483.184. A sale under the IWA differs from a non-IWA sale only in that the former is recorded under the Wheat Agreement against quotas of the buying country and of the United States, normally pursuant to request of the buyer; and that a sale under the Wheat Agreement is subject to open quota balances and other requirements as set forth in this subpart. Final determination of recordability under the Wheat Agreement is under the jurisdiction of the Wheat Council (see § 483.121), but an exporter's rights under this subpart are not altered by any action of the Wheat Council.

(c) A sale which involves wheat produced outside the United States, or a mixture of wheat which is partly derived from wheat produced outside the United States is not eligible for registration under the program. However, in the event the Director determines that such a mixture is exported unintentionally, payment may be made but only on that portion which it is established to his satisfaction was produced in the United States.

(d) To be eligible for payment under this program, the xporter shall furnish documentary evidence of export, as required in § 483.147, which has not been used, or will not subsequently be used as evidence of export in connection with any other application for wheat export payment under this program or in connection with any other export program under which CCC has made or has agreed to make an export allowance, or in connection with any other export program which involves the sale of wheat for export at prices which reflect any export allowance. Nothing herein shall be construed as precluding exportations of wheat under this program from fulfilling sales under Purchase Authorizations pursuant to Public Law 480, 83d Congress. Documentary evidence of export submitted under § 483.162 in connection with purchases of wheat from CCC may also be submitted to CCC as evidence of export in connection with Applications for Wheat Export Payments.

(e) Sales may be made pursuant to this program to a foreign buyer for shipment to any designated country specified in § 483.184, whether or not such buyer is located in the country of destination. A sale to be eligible for payment must be a bona fide sales transaction with the foreign buyer named in the Declaration of Sale. Brokers or agents of either the seller or the foreign buyer shall not be named as the buyer in the Declaration of Sale.

(f) The foreign buyer may be an affiliate of the U. S. exporter, in which case the sales registered for export payment must be a bona fide sales transaction in which the affiliate is acting in its own behalf as an independent buyer and not on behalf of the exporter. The foreign sale shall not be a "wash sale" or any other type of inter company transaction which does not result in an actual exportation of wheat against the specific sale on which the export payment rate was based.

(g) Where a sale is made by an exporter to a foreign buyer who simultaneously resells to another foreign buyer, the latter may be the buyer named in the Notice of Sale and Declaration of Sale. In such a case, for purposes of determining the rate applicable to the sale under § 483.131, the initial buyer shall be considered as an intermediary and the sale shall be considered as being between the exporter and the buyer named in the Declaration of Sale.

§ 483.106 *Countries and buyers to which wheat may be exported.* With the following exceptions, exports under this program shall be made only to the designated country and to the buyer named in the Declaration of Sale:

(a) With respect to Non-IWA sales, shipment may be made to a consignee or notify party other than the buyer named in the Notice of Sale and Declaration of Sale, provided the exporter furnishes a certification to the Director that such shipment is at the request of the buyer named in the Declaration of Sale, such shipment constitutes delivery against the exporter's sale to the foreign buyer on which the export payment is based pursuant to § 483.131 and is not in connection with a different sale, and that the exporter knows of no circumstances with respect to such shipment which would impair the integrity of such sale.

(b) With respect to IWA sales, shipment shall be made only to the buyer named in the Notice of Sale and Declaration of Sale, unless the exporter (1) obtains the written approval of the Director for shipment to some other consignee, and (2) furnishes the Director a certification as required in paragraph (a) of this section.

(c) With respect to both IWA and Non-IWA sales, shipment shall be made only to the country named in the Declaration of Sale, unless the exporter (1) obtains the written approval of the Director for shipment to a designated country other than the country named in the Declaration of Sale and (2) furnishes the Director a certification as required in paragraph (a) of this section.

§ 483.107 *Date of exportation.* (a) Wheat sold for export in a specified export rate period announced by CCC, must be exported before the end of that period in order for the exporter to obtain the export payment rate applicable to that sale, unless an extension is obtained in writing from CCC changing the export date to a later period. In the event that export takes place after the specified rate period and the exporter has not obtained an extension to change the export date to a later period, payment will be made at that rate which was in effect at time of sale, or time of giving Notice of Sale, whichever is lower, for the period in which actual export takes place. It will be the general policy to grant an extension if it can be shown that exportation under the contract has been delayed by circumstances beyond the exporter's or importer's control and is not due to intentional violation of the contract.

(b) With respect to sales under the Wheat Agreement, notwithstanding any other provision of this subpart except paragraph (a) of this section, wheat sold for recording against quotas of any IWA crop year must be exported not later than July 31 of such crop year unless later exportation is authorized (1) by announcement issued in connection with a rate announcement (see § 483.130), or

(2) in specific cases by prior written approval of the Director.

§ 483.108 *Excess quantities loaded.* Payment will not be made on quantities loaded on vessels, cars, or trucks which are in excess of the quantity shown on the Declaration of Sale plus either of the following tolerances as applicable: (a) A loading tolerance not to exceed 10 percent as shown on the Declaration of Sale, or (b) a 1 percent tolerance if no loading tolerance is shown on the Declaration of Sale. A new Declaration of Sale and a new Notice of Registration are required for any additional quantity loaded.

§ 483.109 *Wheat exported prior to sale.* (a) In connection with any quantity of wheat exported prior to sale, payments will be made only on that portion thereof which has been reported in accordance with paragraph (b) of this section and only on sales made by the actual exporter of such wheat, and not to any other party who buys such wheat and resells it to a designated country.

(b) In order to receive export payment on wheat exported prior to sale the exporter must have reported the exportation of such wheat to the Director within seven days after the date of such exportation as defined in § 483.188, unless additional time for reporting is granted in writing by the Director. This report must include the following information:

(1) Date of exportation.

(2) Port of exportation.

(3) Country and port of original destination of wheat.

(4) Name of ocean vessel upon which loaded.

(5) Quantity in bushels.

(6) Class and grade.

(7) The report shall also contain a statement that the vessel contains other wheat sold by the exporter filing the report, as provided in paragraph (c) of this section.

(c) Unless otherwise approved in writing by the Director either before or after loading, only unsold wheat which is loaded on a vessel which also carries wheat sold by the same exporter, and registered under this program, shall be reported under paragraph (b) of this section, and shall be eligible for export payment when sold. In the case of full cargo shipments the unsold portion shall not exceed one-third of the total cargo. In the case of part cargo lots the unsold portion shall not exceed 2,000 metric tons. The exporter should obtain separate bill or bills of lading for both the unsold and sold quantities of wheat exported.

(d) At such time as the wheat is sold, the exporter shall report the sale to the Director as provided in § 483.135, and shall submit all other reports and documents as required by this subpart. In reporting the sale the exporter must state that the wheat sold was reported to the Director, as provided in paragraph (b) of this section. This may be done by the use of the code word "Abroad".

(e) The export rate applicable to such sale shall be that rate in effect at time of sale, or time of giving Notice of Sale, whichever is the lower, for the export rate period current at that time which applies (1) to the port from which the wheat was exported, and (2) to the country shown in the Declaration of Sale.

(f) All other conditions of this subpart, except as modified by this section are applicable to sales described in this section.

PROVISIONS APPLICABLE EXCLUSIVELY TO IWA SALES

§ 483.120 *Program period—IWA.* With respect to sales under the Wheat Agreement, notwithstanding any other provisions of this subpart, sales transactions for recording against quotas of any IWA crop year must be entered into not later than July 31, of such crop year.

§ 483.121 *Recording in the Wheat Council's records.* The Wheat Agreement provides that a transaction or part of a transaction in wheat-grain between participating exporting and importing countries is eligible for entry in the Wheat Council's records against guaranteed quantities of those countries for a crop year:

(a) Provided (1) it is at a price not higher than the maximum nor lower than the minimum (i. e., the equivalents of the basic maximum and minimum prices) in effect during the crop year in which the loading periods specified in the transaction falls and (2) the exporting and importing countries have not agreed that it shall not be entered against their guaranteed quantities, and

(b) To the extent that (1) both the importing and exporting countries concerned have unfilled quantities for the crop year, and (2) the loading period specified in the transaction falls within that crop year.

§ 483.122 *IWA maximum and minimum prices.* Maximum and/or minimum price equivalents under the Wheat Agreement will be announced from time to time by CCC. The Wheat Agreement provides that to such maximum prices may be added such marketing costs and carrying charges as may be agreed between buyer and seller, and that such carrying charges may accrue for the buyer's account only after an agreed date specified in the contract under which the wheat is sold. (See § 483.135 (b) (5).)

§ 483.123 *Status of IWA quotas.* There will be issued not less often than weekly, a statement as to the status of quotas of importing and exporting countries. Any exporter upon request, addressed to the office indicated in § 483.178 will be furnished with all information that is available as to the status of the fulfillment of quotas under the Wheat Agreement.

EXPORT PAYMENT RATES AND ANNOUNCEMENTS

§ 483.130 *Announcement of rates.* Export payment rates will be announced from Washington, D. C., daily or at intervals of up to 7 days. Rates will be released at approximately 3:31 p. m., e. s. t. (see § 483.194), and will remain in effect through 3:30 p. m., e. s. t., on the expiration date stated in the announcement at which time a new announcement will be made. No rates will be announced on Saturday, and rates effective at 3:31 p. m., e. s. t., on Friday will be in effect through 3:30 p. m., e. s. t., of the market day succeeding Saturday unless the announcement specifically provides otherwise. Announcements will be available through a press release, ticker service, and through Commodity Stabilization Service Offices at Portland (Oregon), Minneapolis, Kansas City (Missouri), Dallas, Evanston, and New Orleans. Different rates of payment for separate coasts or ports, various classes of wheat, destinations, periods of exportation, etc., may be announced simultaneously.

§ 483.131 *Determination of rates.* The rate in effect at the time of sale to the foreign buyer, or the time of giving Notice of Sale as required by § 483.135 (a), whichever rate is the lower, shall be the rate applicable to the sale. The supporting evidence of sale submitted by the exporter in form prescribed in § 483.137 (d), will be the basis for determining the time of sale. The factors which may be determinative of the time of sale, are:

(a) Time of the exporter's filing a cablegram or mailing a written acceptance of a definite offer to purchase received from the foreign buyer.

(b) Time of receipt by the exporter of a cablegram or other written acceptance from the foreign buyer of a definite offer by the exporter to sell or the time of receipt by the exporter of a cablegram or other written notification from his agent that the foreign buyer has accepted a definite offer by the exporter to sell.

(c) Time of filing by the exporter of a cablegram or time of mailing of a written confirmation of the booking of a shipment or shipments to be made pursuant to an open offer of the exporter to sell or a standing order of the buyer to purchase. It must be clear from the evidence, however, that the exporter is empowered by the terms of the open offer or standing order to firm the contract by issuing a confirmation. For example, if he is authorized to confirm the sale at a price which may be established at his option, the evidence must show that such is the understanding between buyer and seller, otherwise it will be necessary for the buyer also to confirm the price, and receipt of the buyer's confirmation will establish the time of sale.

(d) A sale shall not be considered as entered into until the purchase price has been established, and time of sale shall be the earliest time the exporter has knowledge that a firm contract exists with the foreign buyer on which a firm dollar and cent price has been established pursuant to paragraphs (a), (b) and (c) of this section: *Provided, however,* That if a sale is made through an intermediary (See § 483.105 (g)), for purposes of determination of the applicable export payment rate, no substantially greater lapse of time for concluding the sales transaction may be recognized than would have elapsed had the exporter been dealing directly with the foreign buyer.

(e) If export is wholly by truck or rail and the time of sale cannot be determined on the basis of the factors set

forth in paragraph (a), (b) or (c) of this section, or by any other means, the sale will be deemed to have been made at the time of issuance of inland bill of lading, or if none is issued, at the time of clearance through United States Customs. If export is by ocean carrier and time of sale cannot be determined as outlined above, the sale will be deemed to have been made at the time of issuance of ocean carrier bill of lading, or if none is issued, at the time the wheat is loaded on board ocean carrier.

(f) If the time of day at which the sale was entered into is not established and two payment rates are in effect on the day the sale was entered into, the time of sale will be deemed to occur at the time the lower of the two rates was in effect.

REGISTRATION OF SALES

§ 483.135 *Notice of Sale*—(a) *Time.* (1) The exporter shall file a Notice of Sale as soon as possible after entering into the sales agreement. (See § 483.178.) (In the case of IWA sales, in order to comply with the terms of the Wheat Agreement, the report of transactions must reach the Wheat Council in London not later than 10 days after the date the exporter entered into the sales agreement).

(2) Notices of Sale should normally be filed by telegraph, although telephone may be used. Telephoned notices should be confirmed immediately by telegraph.

(3) In order for the exporter to be assured of the curent rate of payment, the telegram reporting the sale must be filed by 3:30 p. m., e. s. t. (or the telephone call must be made by that time), on the expiration date for such rate as shown in the rate announcement.

(b) *Information required.* In giving Notice of Sale the exporter must report the following information:

(1) Date of sale.

(2) Whether the sale is IWA or Non-IWA.

(3) If PL–480, the Authorization Number.

(4) Contract quantity in bushels and the contract loading tolerance, if any, in percentage, but not in excess of 10 percent.

(5) The sale price must be shown on a f. o. b. vessel bulk basis, except that on exports from West Coast ports the price may be given on an instore basis. In the case of IWA transactions, if, because of marketing costs and carrying charges as provided for in § 483.122, the sales price exceeds the maximum price, the Notice of Sale must show the total price and the amount thereof included for marketing costs and carrying charges, each shown separately. The f. o. b. or the instore price shown should include all charges and commissions necessary to the sale and moving of the wheat to the f. o. b. or the instore position. For example, a selling agent's commission would be included, whereas guaranteed out-turn insurance would not be included.

(6) The coast of export.

(7) Country of destination.

(8) Name of purchaser. (Where the sale involves more than one purchaser, the Notice of Sale should contain the name of one purchaser and the word "others".)

(9) The number of the import license, buying permit, or similar authorization applicable to the sale, for those countries where such is required for IWA transactions, unless otherwise authorized by the Director. (Where the sale involves more than one purchaser, the Notice of Sale should contain one license number and the word "others".)

(10) Delivery period specified in contract.

(11) Class and grade of wheat, and protein content when protein is specified in contract.

(12) If under subparagraph (6) of this paragraph, more than one coast of export is shown, indicate the CSS Commodity Office (Evanston, Dallas or Portland), to which the exporter will submit Application for Wheat Export Payment.

(13) The word "Abroad" for wheat exported prior to sale. (See § 483.109 (d).)

(14) Such additional information in individual cases as may be requested by the Director.

§ 483.136 *Notice of Registration.* (a) Upon receipt of the Notice of Sale, a designated Contracting Officer of CCC will issue a Notice of Registration by telegram unless he determines that to do so would not be in the best interests of the program. A Notice of Registration is a condition precedent to the exporter receiving payment under this subpart. Accordingly, before concluding a transaction it may be to the exporter's advantage in instances involving sales of an unusual nature to ascertain from the office indicated in § 483.178, whether the sale may be registered, or to condition his sales upon his receiving a Notice of Registration under this subpart.

(b) In the telegram of registration, the Contracting Officer may utilize the code letters "PIK" to indicate "Registered for Payment in Kind".

(c) Each Notice of Registration will include a registration number which shall be shown on the Declaration of Sale (See § 483.137), and on the Application for Wheat Export Payment, CCC Form 357, and in all correspondence with reference to the transaction.

§ 483.137 *Declaration of Sale and evidence of sale*—(a) *Time of submission and required copies.* (1) The exporter shall prepare a Declaration of Sale, (CCC Form No. 359), and mail or deliver it normally within two days after receipt of CCC's Notice of Registration. (See § 483.178.)

(2) The Declaration of Sale must be submitted in an original and three copies all of which shall be signed in an original signature by the exporter or his authorized representative. One copy of the Declaration of Sale will be acknowledged and returned to the exporter.

(3) Only one Declaration of Sale normally should be submitted by the exporter for each sale identified by a Registration Number assigned in the Notice of Registration (see § 483.136 (c)), although this is not mandatory. If more than one Declaration of Sale is submitted, the letters A, B, C, etc., shall be added to Registration Numbers on the respective declarations.

(b) *Information required.* The information to be entered on the Declaration of Sale, is as follows:

(1) The Registration Number.

(2) Whether sale is IWA or Non-IWA.

(3) If PL–480, the Authorization Number.

(4) Date and time of sale and of filing Notice of Sale.

(5) Name of purchaser, or purchasers.

(6) The number of each import license, buying permit, or similar authorization applicable to the sale for those countries where such are required. All applicable numbers shall be so entered even though such numbers were reported in the Notice of Sale.

(7) Contract quantity in bushels, and if the contract provides for a loading tolerance, the amount of such tolerance but not to exceed ten percent.

(8) Country of destination.

(9) Delivery period specified in the contract.

(10) Class and grade of wheat, and protein content when specified in the contract.

(11) The sales price in the case of bulk wheat must be given on an f. o. b. vessel, bulk basis, on exports from Gulf and East Coast ports and on an instore, or f. o. b. vessel, bulk basis, on exports from the West Coast ports. In the case of IWA transactions, if, because of marketing costs and carrying charges as provided for in § 483.122, the sale price of wheat exceeds the IWA maximum price, the declaration shall show the total price and amount thereof included for marketing costs and carrying charges, each shown separately. The f. o. b. or the instore price shown should include all charges and commissions necessary to the sale and the moving of the wheat to the f. o. b. or the instore position. For example, a selling agent's commission would be included, whereas guaranteed outturn insurance would not be included.

(12) Export rate per bushel of wheat in effect as determined by § 483.131.

(13) Coastal area from which it is anticipated exportation will be made.

(14) CSS Commodity Office to which Application for Wheat Export Payment will be submitted.

(15) Where the exporter intends to ship, transship, or cause wheat to be shipped or transshipped to one or more of the countries or areas identified in § 483.184 (b) (1), (2) and (3), the license issued by the Bureau of Foreign Commerce, U. S. Department of Commerce, for such movement, shall be identified. With respect to any such movement to Hong Kong not requiring a specific license, the exporter shall state that a specific license is not required.

(16) Such additional information in individual cases as may be requested by the Director.

(c) *Name in which filed.* The Declaration of Sale may be filed under a trade name provided the name of the actual exporter and the relationship between the two is clearly established by an appropriate signature on the Decla-

ration and all related documents, such as:

American Grain Company
(Trade name)
U. S. Grain Company
/s/ John Smith, Secretary

(d) *Evidence of sale.* Supporting evidence of sale, in one copy only, must be filed with each Declaration of Sale. Such evidence may be in the form of certified true copies of offer and acceptance or other documentary evidence of sale including contracts between exporter and buyer. In transactions involving an intermediate party (see §§ 483.105 (g) and 483.131 (d)) the evidence required is certified true copies of all documents evidencing the sales which are exchanged between the exporter, the intermediate party and the buyer shown in the Declaration of Sale, provided such evidence includes all information required under paragraph (b) of this section, and unless additional documentation is specifically requested by the Director.

OBLIGATION AND DEFAULT

§ 483.140 *Exporter's agreement with CCC.* The Notice of Sale and the Declaration of Sale by the exporter and the Notice of Registration shall constitute an agreement by the exporter to export the quantity of wheat within the prescribed period stated in the Notice of Sale, in consideration of the undertaking of CCC to make an export payment, subject to the Terms and Conditions of this subpart.

§ 483.141 *Cancellation of sale or failure to export.* (a) The exporter shall notify the Director promptly in every case where, after giving Notice of Sale as required in § 483.135, a sale is cancelled by the exporter or by the importer, and he must state the reason for such cancellation. The exporter also shall notify the Director promptly when, for any reason, it becomes apparent to him that he will not be able to fulfill his obligation under § 483.140 by making shipment within the prescribed period.

(b) If the Vice President after affording an exporter the opportunity to present evidence determines that the exporter has cancelled the sale, or failed to export, or failed to discharged fully any other obligation assumed by him under the program, the exporter shall pay to CCC on demand any damages resulting from his failure to discharge his obligation to CCC, and the exporter may be denied the right to continue participating in this program for such period as the Vice President may determine and until the exporter has complied with such terms and conditions as the Vice President may prescribe, unless the exporter establishes to the satisfaction of CCC that his failure to discharge his obligations under the program resulted from causes beyond his control and without his fault or negligence.

(c) If any quantity of wheat exported pursuant to the exporter's contract with CCC is reentered into the United States, including Alaska, Hawaii, or Puerto Rico, whether or not such reentry is caused by the exporter, or if any wheat is transshipped or caused to be transshipped by the exporter to any country that is not a designated country, the exporter shall be in default, shall refund any payment made by CCC, and shall comply with any demand of CCC made pursuant to the requirement of paragraph (b) of this section. The exporter shall not be required to refund the payment made by CCC if he establishes to the satisfaction of CCC with respect to any reentry that (1) the reentry resulted from causes beyond his control and without his fault or negligence and promptly after he received notice of reentry he exported the wheat required to be exported under his contract with CCC to a designated country, or (2) the wheat reentered was lost, damaged or destroyed and the physical condition is such that its reentry into the United States will not impair CCC's price support program.

WHEAT EXPORT PAYMENT CERTIFICATE

§ 483.145 *Application for Wheat Export Payment.* An original and two (2) copies of Application for Wheat Export Payment, CCC Form 357, must be prepared and submitted together with the evidence of exportation, as provided in § 483.147, to the CSS Commodity Office shown on the acknowledged copy of the Declaration of Sale which is returned to the exporter. Exporter should submit application as soon as possible after exportation as the face value of the certificate is subject to discount as provided in § 483.146 (b). Supplies of CCC Form 357 and detailed instructions regarding the preparation and submission of the form may be obtained from the CSS Commodity Offices in Evanston, Dallas, and Portland (Oregon).

§ 483.146 *Description of certificate.* Upon receipt of an Application for Wheat Export Payment (CCC Form 357) the CSS Commodity Office will determine the amount of payment due and issue to the exporter a Wheat Export Payment Certificate (CCC Form 358) for the amount due. Such certificate is described in this section and will be subject to the provisions embodied in the Certificate and the applicable provisions in this subpart.

(a) *Payee.* Except as provided in § 483.176, the Certificate will be issued only to the exporter who has filed a Declaration of Sale and has obtained the Registration Number which shall be shown in the space provided in the Certificate.

(b) *Face value.* The amount shown in the space provided for the face value of the Certificate will be the amount obtained by multiplying the number of net bushels of wheat exported by the applicable export payment rate. Certificates will be accepted at face value if applied to the purchase of wheat under contracts with CCC which specify a date of sale not more than 60 days after the date of export shown on the certificate. If a certificate is applied to the purchase of wheat under a contract with CCC which specifies a date of sale more than 60 days after the date of export shown on the certificate, the value at which the certificate will be accepted will be the face value reduced by 1/50 of one percent for each day beginning on the 61st day after such date of export and ending with the date of sale specified in the CCC contract to which it is applied.

(c) *Date of export.* The date of export shown on the Certificate will be the date of export as defined in § 483.131 which shall be deemed to be the date on which the export payment was earned.

(d) *General provisions.* The Wheat Export Payment Certificate will be redeemable in wheat which Commodity Credit Corporation makes available from its stocks for sale under this program. The certificate may be presented to the Evanston, Dallas, or Portland offices of Commodity Stabilization Service, as provided in § 483.155, for wheat handled by the office to which submitted. The certificate may be transferred by endorsement subject to all terms, conditions, and restrictions contained in this section and in §§ 483.155 to 483.165, applicable to the person or firm to whom it was originally issued.

§ 483.147 *Documents required as evidence of exportation.* (a) Each application for Wheat Export Payment (CCC Form 357) must be supported by the following documents as applicable unless otherwise approved by the Director.

(1) If the exportation is by water, a non-negotiable copy of the applicable on-board ship ocean bill of lading signed by an agent of the ocean carrier, which shows the weight of the wheat, the name of the vessel, and that the wheat is destined for the foreign buyer(s) and the country of destination identified in the Declaration of Sale or to a different consignee or designated country determined pursuant to § 483.106. In the case of bagged wheat, an ocean bill of lading showing the gross weight of the wheat and the number of bags may be furnished, provided the ocean bill of lading also shows the weight of the bags or the exporter furnishes an acceptable certification as to the weight of the bags. Where loss, destruction or damage to the wheat occurs subsequent to loading aboard the ocean carrier but prior to issuance of on-board ship bill of lading, one copy of a loading tally sheet or acceptable similar document may be substituted for the ocean bill of lading. If the country of destination shown on the ocean bill of lading differs from that shown on the Declaration of Sale or the country of destination approved by the Director pursuant to § 483.106, the exporter shall also furnish one copy of the Shipper's Export Declaration, authenticated by the appropriate United States Custom official, showing that the country of destination is, in fact, the country to which the wheat is required to be exported.

(2) If export is by rail or truck, and not under Public Law 480, 83d Congress, one copy of Shipper's Export Declaration, authenticated by the appropriate United States Customs official, which identified the shipment(s), the date of clearance into the foreign country and the weight of the wheat, or if bagged, the weight of the wheat less the weight of the bags and which provides the other applicable information referred to in subparagraph (1) of this paragraph. If export is under Public Law 480, 83d Congress, one authenticated copy of Shipper's Export Declaration (or photostat of an unauthenticated copy) which shall bear a statement certified by the exporter that "The authenticated copy of the Shipper's Export Declaration was forwarded to (name of banking institution) with my draft for financing of this shipment under P. A. No. ——."

(3) One copy of an Export Grain Inspection Certificate issued by an inspector licensed under the United States Grain Standards Act. If the Inspection Certificate shows mixed wheat, it will be necessary for the grade designation to show the approximate percentage of each class of wheat which constitutes more than 10 percent of the mixture.

(4) On bulk wheat, a copy of the official loading weight certificate.

(5) Where shipment is exported from a Canadian port;

(i) One signed or certified true copy of the bill of lading or other document covering the movement of the wheat from the United States to Canada, and

(ii) One signed or certified true copy of the document evidencing the holding of the wheat in customs bond in Canada.

(b) If the shipper or consignor named in the on-board bill(s) of lading or the Shipper's Export Declaration(s), is other than the exporter named in the Declaration of Sale, waiver by such shipper or consignor of any interest in the application for payment in favor of such exporter is required. Such waiver must clearly identify the on-board bill(s) of lading or Shipper's Export Declaration(s) submitted to evidence exportation.

DISPOSITION OF WHEAT EXPORT CERTIFICATE

§ 483.155 *Submission of offers.* (a) Offers to purchase CCC wheat with certificates may be submitted by letter, telegram, or orally to the CSS Commodity Office serving the coastal area in which the offerer desires delivery. The offerer must specify the class, grade, quality and quantity desired, and the desired point of delivery. CCC reserves the right to determine the classes, grades, qualities and quantities and point of delivery for which offers will be considered, and to reject any offer.

(b) If the wheat purchased hereunder is to be exported under Title I, Public Law 480, 83d Congress, the exporter shall advise CCC of that fact and of the number of the P. L. 480 Purchase Authorization in the offer if it is known at that time. If the number is not known at the time of the offer, it shall be furnished as soon as it becomes known to the purchaser. If there is any change in the information that has been submitted in reference to a P. L. 480 Purchase Authorization pursuant to this section, the purchaser shall immediately notify CCC.

§ 483.156 *Creation of contracts.* Preliminary negotiations for purchase of wheat under this subpart shall be confirmed by written Confirmation of Sale which shall be issued by the CSS Commodity Office in duplicate. One copy shall be signed and returned by the exporter whose offer to purchase wheat is accepted by CCC. Such exporter is hereinafter called "the purchaser". Confirmation of Sale, together with the terms and conditions of this subpart, and any amendments in effect on the date of sale, shall constitute the sales contract. Any provision of prior negotiations not contained in the Confirmation of Sale shall be of no effect. The term "date of sale," as used in this subpart, shall mean the date that the parties concluded their preliminary negotiations, and such date will be specified in the Confirmation of Sale.

§ 483.157 *Price.* The price shall be basis f. o. b. vessel, instore, or track at port or other point of export (without export allowance) as determined by CCC and shall be specified in the Confirmation of Sale.

§ 483.158 *Payment terms and financial arrangements.* (a) The amount due CCC for wheat purchased hereunder shall be paid by the purchaser by surrender to CCC of properly endorsed certificate(s). If certificates having a value in excess of the purchase price are surrendered by the purchaser to CCC, the certificates having the earliest dates of export shall be applied first to the purchase and any certificates not applied shall be returned to the purchaser. If the value of certificates applied to the purchase exceeds the purchase price, such excess will be adjusted by issuance and delivery to the purchaser of a balance certificate which may be used on a subsequent purchase from CCC. The date of export shown on the balance certificate will be the date shown on the original certificate, or if more than one certificate is applied to the purchase the date of export shown on the balance certificate will be the latest date of export shown on a certificate applied to the purchase. The face value of the balance certificate will be determined by deducting from the face value of certificates surrendered to CCC, the purchase price of the wheat and any discount applicable to the portion of the certificates being applied to the purchase as provided in § 483.146 (b).

(b) Financial arrangements covering the purchase price specified in the Confirmation of Sale of any wheat purchased from CCC hereunder shall be made prior to delivery of the wheat by CCC in one of the following ways:

(1) Surrender to the appropriate CSS Commodity Office of certificate(s) sufficient to pay for the wheat.

(2) If a purchaser desires delivery prior to receipt by CCC of certificates he shall make payment in cash, certified check, or cashier's check for the wheat to be delivered. To the extent that certificates are received by CCC within 90 days after delivery of the wheat to the purchaser, CCC shall promptly make refund to the purchaser of cash received. Any such refund shall be in an amount equivalent to the value of certificates determined acceptable by CCC.

(c) The amount of the upward adjustment in price which is provided in § 483.163 for failure to submit certificates within 90 days after delivery shall be computed as of the date of sale, and shall be specified in the Confirmation of Sale. Financial arrangements for such price adjustment shall be made in one of the following ways:

(1) Payment in cash, certified check, or cashier's check, or

(2) Establishment of an irrevocable commercial letter of credit acceptable to CCC which shall have an effective period of at least 150 days from the date for delivery specified in the Confirmation of Sale and upon which CCC will draw drafts for the amount of the upward adjustment in price resulting from such failure to submit certificates within 90 days after delivery, supported by a statement signed by the Chief or Acting Chief of the Fiscal Division of the CSS Commodity Offices, specifying the amount due CCC. Promptly after CCC receives acceptable certificates in payment of the wheat purchased as provided in paragraph (b) (2) of this section, CCC shall notify the bank which issued or confirmed the letter of credit that CCC consents to a reduction of such letter of credit, unless otherwise requested by the purchaser, or shall make refund to the purchaser of cash received. Any such reduction or refund shall be in an amount equivalent to the purchaser's financial coverage under this subsection related to the quantity for which payment has been received in the form of acceptable certificates by CCC.

(d) The financial arrangements provided in paragraphs (b) and (c) of this section shall be made:

(1) Prior to delivery of the wheat by CCC on purchases which provide for delivery within 5 days following the date of the sale, and,

(2) On all other purchases, not less than 5 days prior to delivery of the wheat by CCC, unless CCC consents in writing to a different period.

(e) If the purchaser fails to make a financial arrangement acceptable to CCC in accordance with paragraph (d) of this section CCC shall have the right to deem the purchaser in default and may avail itself of any remedy available to an unpaid seller. The purchaser shall be liable to CCC for any loss or damages resulting from such default.

§ 483.159 *Delivery.* (a) The method, time, and place of delivery will be as specified in the Confirmation of Sale.

(b) If the wheat is to be delivered instore, delivery shall be accomplished by delivery to the purchaser of endorsed warehouse receipts, or other evidence of title. Delivery may be made by posting warehouse receipts in the mail. In the case of instore delivery the terms of continued storage thereafter shall be for determination between the purchaser and warehouseman. All warehouse charges accruing after delivery and loading out charges shall be for the account of the purchaser.

(c) If the wheat is to be delivered other than instore, the details thereof shall be specified in the Confirmation of Sale.

(d) Title and risk of loss and damage shall pass to the purchaser upon delivery. All charges thereafter accruing shall be for the account of the purchaser: *Provided*, That if delivery is not made within 30 days after the date of sale, the purchaser shall make cash settlement

with CCC for warehouse charges on the wheat not delivered, at the rate specified in the Confirmation of Sale for the period beginning on the 31st day to and including the final date for delivery specified in the Confirmation of Sale or any written extension thereof: *Provided further*, That the purchaser shall not be responsible for such charges accruing after such 30-day period as a result of delay on the part of CCC in making delivery which is not attributable to the fault of the purchaser.

(e) If on deliveries other than instore the purchaser fails to take delivery of the wheat within the delivery period specified in the Confirmation of Sale, or any written extension thereof, CCC may at its option deliver the wheat instore in a warehouse of its choice by delivery of endorsed warehouse receipts, or CCC shall have the right to deem the purchaser in default and the purchaser shall be liable to CCC for any loss or damages resulting from such default.

§ 483.160 *Specifications.* (a) If the wheat is to be delivered instore, CCC shall deliver warehouse receipts, or other evidence of title, representing the kind of wheat and the quantity, class, grade and/or quality stated in the Confirmation of Sale, and CCC shall have no responsibility in the event of failure of the warehouseman to deliver in accordance with the warehouse receipts or other evidence of title.

(b) If the wheat is to be delivered other than instore, the kind of wheat and the quantity, class, grade and/or quality delivered shall be that stated in the Confirmation of Sale. Determinations as to the class, grade, and/or quality of the wheat delivered shall be made on the basis of official inspection at point of delivery, unless otherwise specified in the Confirmation of Sale. The method of determining the quantity delivered shall be as stated in the Confirmation of Sale. If the wheat delivered is within the quality tolerance, if any, specified in the Confirmation of Sale, such delivery shall be accepted by the purchaser. If the wheat delivered is not within the quality tolerance, if any, specified in the Confirmation of Sale, the wheat may be rejected by the purchaser at the time of delivery or accepted subject to an adjustment in price for grade and quality difference in accordance with current market premiums and discounts, as determined by CCC. In case of rejection, CCC shall, upon request of the purchaser, replace such rejected quantity. The purchaser may reject any over deliveries in quantity. Over deliveries in quantity accepted by the purchaser shall be settled for at the contract price unless a different price has been agreed to between CCC and the purchaser. In case of under deliveries a balance certificate shall be issued by CCC or if other financial arrangements were furnished the value of certificates the purchaser is required to surrender will be reduced. In the case of over deliveries the purchaser shall tender cash or certificates to CCC. If the value of wheat delivered exceeds the value of certificates surrendered by $3.00 or less, no adjustment will be necessary. If the value of certificates surrendered exceeds the value of wheat delivered by $3.00 or less, a balance certificate will not be issued unless requested.

§ 483.161 *Export requirements.* (a) The purchaser shall, within 60 days after delivery of the wheat to him or within such extension of that period as may for good cause be authorized by CCC in writing before or after expiration of such 60-day period, cause exportation to a designated country of wheat equal in quantity and of the same class and from the same coast in the United States as the wheat delivered by CCC. The requirement that wheat of the same class be exported may be satisfied by exporting a quantity of mixed wheat which contains, as evidenced by the Export Grain Inspection Certificate, wheat at least equal in quantity and of the same class as that delivered by CCC.

(b) The purchaser shall, within 30 days after exportation, furnish to the CSS Commodity Office evidence of such exportation, as required in § 483.162. Failure of the purchaser to furnish CCC proof of exportation within 90 days after delivery of the wheat to him, or, in the case of extension of the time for export, within 30 days from the last date specified for exportation under such extension, shall constitute prima facie evidence of failure to export. Documents supporting an Application for Wheat Export Payment on the wheat exported will be accepted as proof of export of wheat purchased from CCC if they satisfy the requirements specified in § 483.162, and the Application for Wheat Export Payment is accompanied by a letter in duplicate specifying the documents which are submitted as proof of export and the CCC sales contract number to which they relate.

§ 483.162 *Evidence of export.* (a) Evidence of export shall be furnished within the period specified in § 483.161 and shall consist of:

(1) If the export is by water, a nonnegotiable copy, certified by the purchaser as true and correct, of the applicable on-board ship ocean bill of lading, signed by an agent of the ocean carrier, which shows the weight of the wheat, the name of the vessel, that the wheat is destined to a designated country and the CCC sales contract number. In the case of bagged wheat, an ocean bill of lading showing the gross weight of the wheat and number of bags may be furnished, provided the ocean bill of lading also shows the weight of the bags or the purchaser furnishes an acceptable certification as to the weight of the bags. Where loss, destruction, or damage to the wheat occurs subsequent to loading aboard the ocean carrier but prior to issuance of on-board ship bill of lading, one copy of a loading tally sheet or acceptable similar document may be substituted for the ocean bill of lading.

(2) If export is by rail or truck, one unauthenticated copy of Shipper's Export Declaration (or photostat copy of an unauthenticated copy) which identifies the shipment(s), the date of clearance into the foreign country, the weight of the wheat, or, if bagged, the gross weight of the bagged wheat less weight of the bags and the CCC contract number. The unauthenticated copy, or photostat copy thereof, shall bear one of the following statements certified by the purchaser: "The authenticated copy of this Shipper's Export Declaration was forwarded to (name of banking institution) with my draft for financing under P. A. No. ___," or "The authenticated copy of this Shipper's Export Declaration was forwarded to (name of the CSS Commodity Office) with my application for wheat Export Payment Certificate under Registration No. ___."

(3) A copy of an official Export Grain Inspection Certificate issued by an inspector licensed under the U. S. Grain Standards Act.

(4) On bulk wheat a copy of the official loading weight certificate.

(5) Where shipment is exported from a Canadian port,

(i) One signed or certified true copy of the bill of lading or other document covering the movement of the wheat from the United States to Canada, and

(ii) One signed or certified true copy of the document evidencing the bonding of the wheat in customs bond in Canada.

(6) Such additional proof of export as may be required by CCC.

(b) Where exportation of the wheat has been made by anyone or transshipment made or caused by the purchaser to one or more of the countries or areas identified in § 483.184 (b) (1), (2) or (3), the bills of lading or other pertinent documentary evidence required to be furnished to CCC shall identify the license by number issued by the Bureau of Foreign Commerce, U. S. Department of Commerce, for such movement. With respect to any such movement to Hong Kong not requiring a specified license, the required documentary evidence shall contain a statement by the purchaser that a specific license was not required.

§ 483.163 *Adjusted sales price.* Sales of wheat under this Announcement are made at prices below the statutory minimum required under section 407 of the Agricultural Act of 1949, as amended, for sales for unrestricted use upon condition that payment in certificates is made as provided in § 483.158 and upon the further condition that all provisions of §§ 483.161 and 483.162 are complied with. In the event of failure to comply with such conditions, the sales price with respect to the quantity of wheat for which certificates have not been received, or the quantity which is not exported, or which is reentered into the United States, including Alaska, Hawaii and Puerto Rico, or which is transshipped or caused to be transshipped by the purchaser to a country or an area identified in § 483.184 (b) (1), (2) or (3) shall be the highest of the following prices in effect on the date of purchase or the date of default as determined by CCC:

(1) CCC's statutory minimum sales price for unrestricted use for the same kind, class, grade and quality of the wheat as determined by CCC, or

(2) The sales price, announced by CCC for sale for unrestricted use of the same kind, class, grade and quality of the wheat, or

(3) If no such sales price has been announced, the highest domestic market price at the point where CCC delivered the wheat as determined by CCC. The total amount of any upward adjustment in sales price arising under this section shall be paid in cash by the purchaser to CCC promptly upon demand. Any such upward adjustment in sales price will be waived to the extent that the Vice President, CCC, or his designated representative, determines (i) that the wheat has not been exported or has been reentered or transshipped for causes beyond the control, and without the fault or negligence, of the purchaser and that the quantity of wheat involved in default (other than wheat transshipped to a country excluded by § 483.184) is, pursuant to written approval of CCC, subsequently exported to a designated country within the period specified by CCC, or (ii) with respect to any wheat reentered as the result of its loss, damage, destruction or deterioration, the physical condition thereof is such that its entry into domestic market channels will not impair CCC's price support operations.

§ 483.164 *Inability to perform.* CCC shall not be responsible for damages for any failure to deliver, or delay in delivery of, the wheat due to any cause beyond the control of and without the fault or negligence of CCC, including, but not restricted to, failure of warehousemen to meet delivery instructions. In case of delay in delivery due to any such causes, CCC shall make delivery to the purchaser as soon as practicable.

§ 483.165 *Covenant against contingent fees.* The purchaser warrants that no person or selling agency has been employed or retained to solicit or secure the contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies. For breach or violation of this warranty CCC shall have the right to annul the contract without liability or in its discretion to require the purchaser to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

MISCELLANEOUS PROVISIONS

§ 483.174 *Performance guarantee.* In addition to the performance guarantee required under § 483.158 (c), CCC reserves the right to require the exporter to furnish a cash deposit, performance bond, or performance type letter of credit, acceptable to CCC, to guarantee performance of any of his obligations under this subpart.

§ 483.175 *Good faith.* If the Vice President after affording the exporter an opportunity to present evidence determines that such exporter has not acted in good faith in connection with any transaction under this subpart such exporter may be denied the right to continue participating in this program or the right to receive payment under this subpart in connection with any sales previously made under this program, or both. Any such action shall not affect any other right of the Department of Agriculture or the Government by way of the premises.

§ 483.176 *Assignments.* No exporter shall, without the written consent of the Director, assign any right to an export payment under this subpart, except that certificates received by him may be transferred by endorsement as provided in § 483.146 (d).

§ 483.177 *Records and accounts.* Each exporter shall maintain accurate records showing sales and deliveries of wheat exported or to be exported in connection with this program. Such records, accounts, and other documents relating to any transaction in connection with this program shall be available during regular business hours for inspection and audit by authorized employees of the United States Department of Agriculture, and shall be preserved for two years after date of export.

§ 483.178 *Submission of reports.* The Notice of Sale, Declaration of Sales, and related reports required under this subpart to be submitted to the Director should be addressed as follows:

Chief, Commercial Export Branch, Grain Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C.

Delivery to the above office of telegraphic Notices of Sale will be expedited if addressed as follows:

Com. Ex Branch, USDA (MK), Washington, D. C.

The telephone number of this office is REpublic 7-4142, Extensions 3261, 3262, 3927 and 3928.

§ 483.179 *Additional reports.* The exporter shall file such additional reports as may be required from time to time by the Director, subject to the approval of the Bureau of the Budget.

§ 483.180 *CSS Commodity Offices.* Information concerning this program may be obtained from CSS Commodity Offices listed below:

Director, Commodity Stabilization Service Office, U. S. Department of Agriculture, 2201 Howard Street, Evanston, Illinois.

Director, Commodity Stabilization Service Office, U. S. Department of Agriculture, 500 South Ervay Street, Dallas 1, Texas.

Director, Commodity Stabilization Service Office, U. S. Department of Agriculture, 560 Westport Road, Kansas City 41, Missouri.

Director, Commodity Stabilization Service Office, U. S. Department of Agriculture, 1008 West Lake Street, Minneapolis 8, Minnesota.

Director, Commodity Stabilization Service Office, U. S. Department of Agriculture, 1218 Southwest Washington Street, Portland 5, Oregon.

§ 483.181 *Officials not to benefit.* No member or delegate to Congress, or resident commissioner, shall be admitted to any benefit that may arise from any provision of this program but this provision shall not be construed to extend to a payment made to a corporation for its general benefit.

§ 483.182 *Amendment and termination.* This offer may be amended or terminated by filing of such amendment or termination with the Federal Register Division for publication. Any such amendment or termination shall not be applicable to sales for export which otherwise comply with the terms and conditions of this offer made before the effective time and date of such amendment or termination.

DEFINITIONS

§ 483.184 *Designated countries.* (a) With respect to sales made for recording under the Wheat Agreement, a designated country shall be any country or territory which has been designated in a rate announcement (see § 483.130) as having a quota open for IWA sales.

(b) With respect to sales not specifically made for recording under the Wheat Agreement, a designated country shall be a destination outside the continental limits of the United States, excluding Alaska, Hawaii or Puerto Rico, and also excluding

(1) Any country or area listed as Sub-Group A of Group R of the Comprehensive Export Schedule issued by the Bureau of Foreign Commerce, U. S. Department of Commerce, unless a license for such shipment or transhipment thereto has been obtained from such Bureau;

(2) Macao unless specific license for shipment or transhipment thereto has been obtained from the Bureau of Foreign Commerce, U. S. Department of Commerce; or

(3) Hong Kong in the case of any commodity for which a specific license is required by regulations of the U. S. Department of Commerce under the Export Control Act of 1949, unless such specific license for shipment or transhipment thereto has been obtained from the Bureau of Foreign Commerce, U. S. Department of Commerce.

§ 483.185 *Vice President.* "Vice President" means the Executive Vice President of the Commodity Credit Corporation or his designee.

§ 483.186 *Director.* "Director" means the Director of the Grain Division, Commodity Stabilization Service, Washington, D. C.

§ 483.187 *Wheat.* "Wheat" means wheat grown in the United States and as defined in the official Grain Standards of the United States. The quantity of wheat exported which is eligible for export payment and which satisfies the exportation requirements of this subpart, shall be determined by deducting from the weight of the wheat (which shall not include the weight of any bags) any dockage indicated on the inspection certificate issued at the time of loading for export.

§ 483.188 *Export and exportation.* "Export" and "exportation" mean, except as hereinafter provided, a shipment from the continental United States destined to a designated country, or a shipment from Canada destined to a designated country of wheat which has been moved from the United States into Canada under customs bond. The wheat so shipped shall be deemed to have been exported on the date which appears on the applicable on-board export bill of lading, or if shipment to the designated country is by truck or rail, the date the

shipment clears the United States Customs. If wheat is lost, destroyed or damaged after loading on board an export vessel, exportation shall be deemed to have been made as of the date of the on-board vessel bill of lading or the latest date appearing on the loading tally sheet or similar documents if the loss, destruction or damage occurs subsequent to loading aboard vessel but prior to issuance of the on-board bill of lading.

NOTE TO EXPORTER: Since the export payment on any given quantity of wheat is conditioned upon the exportation thereof to a designated country, exporters may find it desirable to carry insurance on the full domestic value of wheat against any loss which may occur prior to the wheat leaving this country by rail or truck or prior to loading on the export vessel.

§ 483.189 *Exporter.* "Exporter" means an individual, corporation, partnership, association or other business entity, which is regularly engaged in the business of buying and selling wheat for export and for this purpose maintains a bona fide business office in the continental United States, and therein has a person, principal, or resident agent upon whom service of process may be had.

§ 483.190 *Ocean carrier.* "Ocean carrier" means the vessel on which shipment from the United States or Canada, other than shipments between such countries, is exported pursuant to a sale registered under this program.

§ 483.191 *United States.* "United States" unless otherwise qualified means the continental United States.

§ 483.192 *Wheat Agreement.* "Wheat Agreement" or IWA, means the 1956 International Wheat Agreement, ratified by the United States on July 16, 1956.

§ 483.193 *Wheat Council.* "Wheat Council" means the International Wheat Council established by Article XIII of the Wheat Agreement.

§ 483.194 *3:31 e. s. t.* "3:31 e. s. t.," as used in this subpart means 3:31 eastern standard time, except that when Washington, D. C. is on daylight saving time 3:31 e. s. t. means 3:31 eastern daylight saving time (2:31 eastern standard time).

§ 483.195 *Day.* "Day" means calendar day.

NOTE: The record keeping and reporting requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 10th day of July 1958.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President,
Commodity Credit Corporation.

APPENDIX—NOTICE TO EXPORTERS

The Department of Commerce, Bureau of Foreign Commerce (BFC), pursuant to regulations under the Export Control Act of 1949, prohibits the exportation or re-exportation by anyone of any commodities to Macao, the Soviet Bloc, or Communist-controlled areas of the Far East including Communist China, North Korea, and Communist-controlled areas of Vietnam and Laos, except under validated license issued by the U. S. Department of Commerce, Bureau of Foreign Commerce. A validated license is also required for shipment to Hong Kong unless the commodity is included on the general license GHK list.

These regulations further require that exporters, in or in connection with their contracts with foreign purchasers, where the contract involves $10,000 or more and exportation is to be made to a Group R country, obtain from the foreign purchaser a written acknowledgment of his understanding of (1) U. S. Commerce Department prohibitions (Comprehensive Export Schedule, 15 CFR 371.4 and 371.8) against sales or resale for reexport of said commodities, or any part thereof, without prior Commerce Department authorization, to Macao, Hong Kong, the Soviet Bloc, a Communist-controlled area in the Far East including Communist China, North Korea and Communist-controlled areas of Vietnam and Laos, and (2) the sanction of denial of future U. S. export privileges that may be imposed for violation of the Commerce Department regulations. Exporters who have a continuing and regular relationship with a foreign purchaser may obtain a blanket acknowledgment from such purchaser covering all transactions involving surplus agricultural commodities and manufactures thereof purchased from CCC or subsidized for export by that agency. Where commodities are to be exported by a party other than the original purchaser of the commodities from the CCC the original purchaser should inform the exporter in writing of the requirement for obtaining the signed acknowledgment from the foreign purchaser. For all exportations, one of the destination control statements specified in BFC Regulation (Comprehensive Export Schedule 15 CFR 379.10 (c)) is required to be placed on all copies of the shipper's export declaration, all copies of the bill of lading, and all copies of the commercial invoices. For additional information as to which destination control statement to use, the exporter should communicate with the Bureau of Foreign Commerce or one of the Field Offices of the Department of Commerce.

[F. R. Doc. 58-5417; Filed, July 15, 1958; 8:50 a. m.]

TITLE 7—AGRICULTURE

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 850.76, Supp. 2]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

WASHINGTON PROPORTIONATE SHARE AREAS AND FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877), the Agricultural Stabilization and Conservation Washington State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm proportionate shares from the allocation of 33,473 acres established for Washington by the determination. Copies of these bases and procedures are available for public inspection at the office of such Committee at the Hutton Building (Room 310), South 9, Washington Street, Spokane, Washington, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Wash... These bases and procedures incorp... the following:

§ 850.78 *Washington*—(a) *Pro... tionate share areas.* Washington ... be divided into three proportionate ... areas as served by beet sugar compan... These areas shall be designated as fo... lows: Utah-Idaho, Amalgamated ... American Crystal. Acreage allotm... for these areas shall be computed by ap... plying to the planted sugar beet acrea... record for each area a weighting of ... percent to the average acreage for t... crops of 1952 through 1954, as a measu... of "past production", and a weighting ... 25 percent to the largest acreage of ... of the crops of 1952 through 1954, as ... measure of "ability to produce" with ... ceiling of 100 percent of the 1954 acr... age, a floor of 88.7 percent of the ... acreage and pro rata adjustments to ... total of 33,473 acres. Acreage allotm... computed as aforestated are establish... as follows: Utah-Idaho Area—31,... acres, Amalgamated Area—1,838 acres, and American Crystal Area—101 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from area allotments as follows: Utah-Idaho Area—... acres for small producers, 164.0 acres for new producers, 315.0 acres for appeals, and 0 acres for adjustments in initial shares; Amalgamated Area—9.5 acres for new producers, 30 acres for appeals and 26 acres for adjustments in initial shares; and American Crystal Area—1 acre for new producers, 1 acre for appeals, and 0 acres for adjustments in initial shares.

(c) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC county office on form SU-100, Request for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, provided in § 850.76. If a preliminary request for a tentative farm proportionate share is filed, a fully-completed form SU-100 shall be filed by February 11, 1958. However, requests for proportionate shares may be accepted after such dates and shares may be established if the county committee determines that in any such case the farm operator was prevented from filing a completed form SU-100 by such dates because of absence, illness or other reasons beyond his control.

(d) *Establishment of individual proportionate shares for old producer farms*—(1) *Farm bases.* For each farm whose operator is a tenant with a personal accredited acreage record during at least one of the crop years 1955-57, the 1958 base shall be determined by applying weightings to his personal accredited acreage record, or to the accredited acreage record of the farm he will operate in 1958, whichever is more favorable. In each case of applicable accredited acreage for all of the crop years 1955–57, such weightings shall be 25 percent to the average for the years 1955 and 1956, as a measure of past production, and 75 percent to 1957, as a measure of ability to produce. In each case of applicable accredited acreage for only one or two of the crop years 1955-57, such weightings shall be 20 percent

and 30 percent to 1956, as measure of past production, and 50 percent to 1957, as a measure of ability to produce. If the operator is the owner of the farm, or is a tenant without a personal accredited acreage record in at least one of the years 1955–57, and the farm has an accredited acreage record during at least one of such years, the 1958 base for such farm shall be determined by applying the above-specified weightings to the accredited acreage record of the farm; except, that when the accredited acreage record for the farm is used as the personal production record of a tenant in determining the base for another farm for 1958, the above weightings shall be applied only to that part of the accredited acreage record corresponding to the farm owner's shares of the sugar beet crops produced on such farm in the base period. The tenant will receive 100 percent of the personal history credit unless the owner of the land requests a proportionate share, in which case it will be limited to the tenant's share of the sugar beets for the years he operated the land. The 1958 farm base for a farm operated by a tenant having a personal accredited acreage record as a new producer in 1955, 1956, or 1957 shall equal his most recent year's accredited acreage, but not to exceed the most recent established share.

(2) *Initial proportionate shares.* For each proportionate share area, the total of individual farm bases for old-producer farms, as established pursuant to paragraph (d) of this section, is less than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial proportionate shares shall be established from the farm bases in each proportionate share area as follows: For farms for which the respective requested acreages are equal to or less than their farm bases, the initial shares shall coincide with the requested acreages; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases, the area allotment less the prescribed set-asides and the total of the initial shares established in accordance with the preceding part of this subparagraph.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments, and from acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments shall be made in initial farm proportionate shares for old producers so as to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the area by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new producers.* Within the acreage set aside for new producers in each proportionate share area, proportionate shares shall be established in an equitable manner for farms to be operated during the 1958-crop year by new producers (as defined in § 850.76) by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator.

(f) *Adjustments under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.76 applicable to appeals.

(g) *Adjustments because of unused acreage.* To the extent of acreage available within the allotment for each proportionate share area from underplanting and failure to plant, and unused acreage from set-asides and other sources, adjustments shall be made in farm proportionate shares during the 1958-crop season. However, any acreage released by producers prior to February 15, 1958, shall be used to increase shares of small producers (less than 8 acres). In increasing such small producers shares, the State Committee shall take into consideration the size of beet operations for small farms in the area, the type of operations in the area, and other pertinent factors relating to efficient sugar beet production.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on form SU–103, Notice of Farm Proportionate Share—1958 Sugar Beet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted proportionate share on a form SU–103–A or other similar written notice. For each tentative proportionate share which is established, the person filing the request for such share shall be notified on a form SU–103–B specifying that such tentative share does not constitute a farm proportionate share for the purpose of payment under the Sugar Act of 1948, as amended.

(i) *Redetermination of share.* If the Agricultural Stabilization and Conservation County Committee determines that the proportionate share for any farm was established with consideration for the personal history of a person who had no interest or did not acquire any interest in such farm as a tenant, or who was not the operator of the farm at the time of planting sugar beets on the farm, the State Committee shall be notified of the circumstances and the actual operator of the farm shall be given an opportunity to file a request for a share for such farm. Pursuant to such a request, the proportionate share for the farm shall be redetermined on the basis of the personal history of such actual operator, the farm history, or new producer procedure, whichever is applicable, even though a downward adjustment to zero acres may be required. The actual farm operator shall be furnished a form SU–103–A setting forth the redetermined share for the farm and he shall also be furnished a statement explaining the reasons for the adjustment. A copy of such statement shall be furnished the person to whom the original Form SU–103 was issued.

(j) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Washington State Committee for determining farm proportionate shares in Washington in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

Washington is again divided into the same three areas. Advisory committees, including grower and processor representatives, are utilized. In establishing proportionate shares for old producers, the factors of "past production" and "ability to produce" sugar beets are measured by applying formulas to the accredited acreages for the crop years 1955–57.

The procedure for establishing farm shares for new producers meets the related requirements of § 850.76.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals, are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugar beets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930 as amended; 7 U. S. C. 1131, 1132)

Dated: June 11, 1958.

[SEAL] RAY SYRE,
Chairman, Agricultural Stabilization and Conservation Washington State Committee.

Approved: July 8, 1958.

TOM O. MURPHY,
Acting Director, Sugar Division, Commodity Stabilization Service.

[Sugar Determination 850.76, Supp. 5]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

IOWA FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877), the Agricultural Stabilization and Conservation Iowa State Committee has issued the bases and procedures for establishing individual farm proportionate shares

from the allocation of 1,342 acres established for Iowa by the determination. Copies of these bases and procedures are available for public inspection at the office of such committee at the Iowa Building, 505 Sixth Avenue, Des Moines, Iowa, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Iowa. These bases and procedures incorporate the following:

§ 850.81 *Iowa*—(a) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC county office on form SU–100, Requests for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, as provided in § 850.76.

(b) *Establishment of individual farm proportionate shares.* For each farm in Iowa for which a request for proportionate share is filed, the proportionate share shall be established from the State allocation of 1,342 acres so as to coincide with the acreage of 1958-crop sugar beets planted on such farm.

(c) *Notification of farm operators.* The farm operator shall be furnished a notice informing him that his proportionate share will coincide with his planted acreage.

(d) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Iowa State Committee for determining farm proportionate shares in Iowa in accordance with the determination of proportionate shares for the 1958 crop of sugar beets as issued by the Secretary of Agriculture.

The acreage of sugar beets actually planted within the State is smaller than the State allocation. This situation makes unnecessary the carrying out of detailed procedure which would otherwise be required. It is unnecessary to apply a specific formula in computing farm shares, to make set-asides of acreage for new producers and appeals, and to make adjustments in farm shares to reflect ability to produce or to distribute unused acreage. Accordingly, this supplement provides for a distribution of acreage within the State allocation by specifying that individual farm proportionate shares shall equal the acreages planted on the various farms.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U. S. C. 1131, 1132)

Dated: June 13, 1958.

[SEAL] JOSEPH F. CARBER,
Chairman, Agricultural Stabilization and Conservation Iowa State Committee.

Approved: July 8, 1958.

TOM O. MURPHY,
Acting Director, Sugar Division, Commodity Stabilization Service.

[Sugar Determination 850.76, as Amended, Supp. 13]

PART 850—DOMESTIC BEET SUGAR PRODUCING AREA

NEBRASKA PROPORTIONATE SHARE AREAS AND FARM PROPORTIONATE SHARES FOR 1958 CROP

Pursuant to the provisions of the Determination of Proportionate Shares for Farms in the Domestic Beet Sugar Area, 1958 Crop (22 F. R. 8107, 8175, 9877; 23 F. R. 4325), the Agricultural Stabilization and Conservation Nebraska State Committee has issued the bases and procedures for dividing the State into proportionate share areas and establishing individual farm proportionate shares from the allocation of 63,892 acres established for Nebraska by the determination. Copies of these bases and procedures are available for public inspection at the office of such Committee at Room 407, U. S. Post Office and Court House Building, Lincoln, Nebraska, and at the offices of the Agricultural Stabilization and Conservation Committees in the sugar beet producing counties of Nebraska. These bases and procedures incorporate the following:

§ 850.89 *Nebraska*—(a) *Proportionate share areas.* Nebraska shall be divided into four proportionate share areas as served by beet sugar companies. These areas shall be designated "American Crystal", "Great Western", "Holly", and "Utah-Idaho", respectively. Acreage allotments for these areas shall be computed by applying to the planted sugar beet acreage record for each area, a weighting of 75 percent to the average acreage for the crops of 1950 through 1954 as a measure of "past production" and a weighting of 25 percent to the largest acreage of any of the crops of 1950 through 1954, as a measure of "ability to produce", with pro rata adjustments to a total of 63,892 acres. Acreage allotments computed as aforestated are established as follows: American Crystal Area—6,162 acres; Great Western Area—53,825 acres; Holly Area—484 acres; and Utah-Idaho Area—3,421 acres.

(b) *Set-asides of acreage.* Set-asides of acreage shall be made from each area allotment for new producers as follows: American Crystal Area—62 acres; Great Western Area—538 acres; Holly Area—5 acres; and Utah-Idaho Area—68 acres. Set-asides for appeals shall be as follows: American Crystal Area—62 acres; Great Western Area—538 acres; Holly Area—5 acres; and Utah-Idaho Area—34 acres. Set-asides for adjustments in initial shares shall be as follows: American Crystal Area—611 acres; Great Western Area—0 acres; Holly Area—0 acres; and Utah-Idaho Area—94 acres.

(c) *Requests for proportionate shares.* A request for each farm proportionate share shall be filed at the local ASC County Office on Form SU–100, Request for Sugar Beet Proportionate Share, under the conditions, and on or before the closing date for such filing, provided in § 850.76. If a preliminary request for a tentative farm proportionate share is filed, a fully-completed Form SU–100 shall be filed by April 2, 1958. However, requests for proportionate shares may be accepted after such dates and shares may be established if the County Committee determines that in any such case the farm operator was prevented from filing a complete Form SU–100 by such date because of absence, illness or other reasons beyond his control.

(d) *Establishment of individual proportionate shares for old-producer farms*—(1) *Farm bases.* In each proportionate share area, the 1958 farm base for each old-producer farm shall equal the most recent of the 1957, 1956, or 1955 crop shares established for the farm, including adjustments made under appeals but excluding any other upward adjustment made because the shares of other farms were not fully planted and excluding any downward adjustment made because the acreage planted on the farm was less than the share originally established for the farm.

(2) *Initial proportionate shares.* For each of the American Crystal, Great Western and Holly proportionate share areas, the total of individual farm bases for old-producer farms, as established pursuant to paragraph (d) of this section, is more than the area allotment minus the set-asides of acreage established under paragraph (b) of this section. Accordingly, initial proportionate shares shall be established from the farm bases in each of these proportionate share areas by prorating to such farms in accordance with their respective bases the area allotment less the prescribed set-asides. For the Utah-Idaho Area the total of individual farm bases for old-producer farms is equal to the area allotment minus the set-aside of acreage. Accordingly, initial proportionate shares shall be established from the farm bases as follows: For farms for which requested acreages are equal to or less than the farm bases, the initial shares shall coincide with the requested acreages; and for all other farms, initial shares shall be computed by prorating to such farms in accordance with their respective bases the area allotment less the prescribed set-asides and total of the initial shares established in accordance with the preceding part of this subparagraph.

(3) *Adjustments in initial shares.* Within the acreage available from the set-aside for adjustments, and from acreage of initial shares in excess of requested acreages in each proportionate share area, adjustments shall be made in initial farm proportionate shares for old producers so as to establish a proportionate share for each farm which is fair and equitable as compared with proportionate shares for all other farms in the area by taking into consideration availability and suitability of land, area of available fields, availability of irrigation water, adequacy of drainage, availability of production and marketing facilities, and the production experience of the operator.

(e) *Establishment of individual proportionate shares for new producers.* Within the acreage set aside for new producers in each proportionate share area, proportionate shares shall be established in an equitable manner for farms to be operated during the 1958-crop year by new producers (as defined in § 850.76) by taking into consideration the availability and suitability of land, area of available fields, availability of irrigation

water, adequacy of drainage, availability of production and marketing facilities and the production experience of the operator.

(f) *Adjustments under appeals.* Within the acreage set aside for making adjustments under appeals and any other acreage remaining unused in each proportionate share area, adjustments shall be made in proportionate shares under appeals to establish fair and equitable farm shares in accordance with the provisions of § 850.76 applicable to appeals.

(g) *Adjustments because of unused acreage.* To the extent of acreage available within the allotment of each proportionate share area from underplanting and failure to plant, and unused acreage from set-asides and other sources, adjustments shall be made in farm proportionate shares during the 1958-crop season. However, any acreage released by producers prior to April 1, 1958, shall be used to increase shares of small producers (smaller than average for the area). In increasing such small producers' shares, the State Committee shall take into consideration the size of beet operations for small farms in the area, the type of operations in the area, and other pertinent factors relating to efficient sugar beet production.

(h) *Notification of farm operators.* The farm operator shall be notified concerning the proportionate share established for his farm on Form SU–103, Notice of Farm Proportionate Share—1958 Sugar Beet Crop, even if the acreage established is "none". In each case of approved adjustment, whether resulting from the release of acreage, the redistribution of unused acreage, appeals, or the reconstitution of the farm, the farm operator shall be notified regarding the adjusted proportionate share on a Form SU–103–A or other similar written notice. For each tentative proportionate share which is established, the person filing the request for such share shall be notified on a Form SU–103–B specifying that such tentative share does not constitute a farm proportionate share for the purpose of payment under the Sugar Act of 1958, as amended.

(i) *Redetermination of share.* If the Agricultural Stabilization and Conservation County Committee determines that the proportionate share for any farm was established with consideration for the personal history of a person who had no interest or did not acquire any interest in such farm as a tenant, or who was not the operator of the farm at the time of planting sugar beets on the farm, the State Committee shall be notified of the circumstances and the actual operator of the farm shall be given an opportunity to file a request for a share for such farm. Pursuant to such a request, the proportionate share for the farm shall be redetermined on the basis of the personal history of such operator, the farm history, or new-producer procedure, whichever is applicable, even though a downward adjustment to zero acres may be required. The actual farm operator shall be furnished a Form SU–103–A setting forth the redetermined share for the farm and he shall also be furnished a statement explaining the reasons for the adjustment. A copy of such statement shall be furnished the person to whom the original Form SU–103 is issued.

(j) *Determination provisions prevail.* The bases and procedures set forth in this section are issued in accordance with and subject to the provisions of § 850.76.

STATEMENT OF BASES AND CONSIDERATIONS

This supplement sets forth the bases and procedures established by the Agricultural Stabilization and Conservation Nebraska State Committee for determining farm proportionate shares in Nebraska in accordance with the determination of proportionate shares for the 1958 crop of sugar beets, as issued by the Secretary of Agriculture.

Nebraska is again divided into four areas and advisory committees are utilized. Farm proportionate shares of old producers are established so as to recognize "past production" and "ability to produce" sugar beets. The procedure for establishing farm shares for new producers meets the related requirements of § 850.76.

The bases and procedures for making adjustments in initial proportionate shares and for adjusting shares subsequently because of unused acreage and appeals are designed to provide a fair and equitable proportionate share for each farm of the total acreage of sugar beets required to enable the domestic beet sugar area to meet its quota and provide a normal carryover inventory.

(Sec. 403, 61 Stat. 921; 7 U. S. C. 1153. Interprets or applies secs. 301, 302, 61 Stat. 929, 930, as amended; 7 U. S. C. 1131, 1132)

Dated: June 27, 1958.

[SEAL] WILFRED R. NELSON,
Chairman, Agricultural Stabilization and Conservation Nebraska State Committee.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 1022—SWEET CHERRIES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

DETERMINATION RELATIVE TO ESTABLISHMENT OF RESERVE FUND

Notice was published in the June 28, 1958, daily issue of the FEDERAL REGISTER (23 F. R. 4812) that consideration was being given to proposals regarding the establishment of a reserve fund to provide for the maintenance and functioning of the Washington Cherry Marketing Committee in accordance with the provisions of the marketing agreement and Order No. 122 (7 CFR Part 1022; 22 F. R. 3835) regulating the handling of sweet cherries grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Washington Cherry Marketing Committee (established pursuant to the said marketing agreement and order), it is hereby determined that:

§ 1022.202 *Reserve fund.* The establishment of a reserve fund in the amount of $10,000.00 is appropriate and necessary to the maintenance and functioning of the Washington Cherry Marketing Committee. Such amount approximates one fiscal period's expenses. The committee is hereby authorized to carry forward in the aforesaid reserve excess assessment funds from the fiscal period ended March 31, 1958, and subsequent fiscal periods, not to exceed the foregoing amount. Such reserve shall be used to provide for the maintenance and functioning of the committee in accordance with the provisions of the marketing agreement and Order No. 122.

It is hereby found that good cause exists for not postponing the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) the establishment of the reserve fund as herein provided does not require any increase in assessment rate or special preparation by handlers which cannot be completed by said effective time; (2) § 1022.42 provides that excess assessments remaining at the end of a fiscal year may be carried over into following periods as a reserve, as prescribed by the Secretary, for the maintenance and functioning of the committee; (3) the rate of assessment for the present fiscal year has not yet been fixed and current operating expenses of the committee must be met; (4) it is essential, under the circumstances, that specification of the reserve fund be made effective immediately for the maintenance and functioning of the committee; and (5) no useful purpose would be served by delaying the effective time beyond that hereinafter set forth.

Terms used in said marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. SR-422A]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

TURBINE-POWERED TRANSPORT CATEGORY AIRPLANES OF CURRENT DESIGN; SPECIAL CIVIL AIR REGULATIONS

Correction

In F. R. Document 58-5193, appearing in the issue for Tuesday, July 8, 1958, at page 5158, make the following change: In 4T.122 (a), line 4, the word "trust" should read "thrust".

Subchapter A—Civil Air Regulations

[Supp. 10]

PART 18—MAINTENANCE, REPAIR, AND ALTERATION OF AIRFRAMES, POWERPLANTS, PROPELLERS, AND APPLIANCES

CHANGES TO PERMIT REMOVAL AND INSTALLATION OF WINGS AND TAIL SURFACES FOR TRANSPORTATION ON TRAILERS

This supplement permits the removal and installation of certain glider wings and tail surfaces by a pilot who does not have the specialized training or practical experience of an aircraft mechanic.

1. Section 18.1-6 is amended by adding the following:

§ 18.1-6 *Preventive maintenance (CAA interpretations which apply to § 18.1).* The following are considered to be typical preventive maintenance operations: * * *

The removal and installation of glider wings and tail surfaces which are specifically designed for quick removal and installation when such removal and installation can be accomplished by the pilot.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 555)

This supplement shall become effective August 15, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator,
of Civil Aeronautics.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 15]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS PARTS, PROCESSES, AND APPLIANCES

TSO-C51, AIRCRAFT FLIGHT RECORDER

Minimum performance standards for aircraft flight recorders which are to be used in civil aircraft of the United States are defined in the new § 514.50 (TSO-C51).

Section 514.50 appeared as a notice of proposed rule making in 23 F. R. 2843 on April 29, 1958. All interested persons have been afforded an opportunity to submit written views, data, or argument. Based on these comments, the CAA-CAB Standard has been revised to incorporate the few changes considered applicable. These are minor and relaxatory in nature. Since the CAA-CAB Standard did not appear in the FEDERAL REGISTER but is incorporated in the TSO by reference, no useful purpose should be served by republication for further comments.

Section 514.50 is added under Subpart B of this part to read as follows:

§ 514.50 *Aircraft flight recorder—TSO-C51*—(a) *Applicability*—(1) *Minimum performance standards.* Minimum performance standards are hereby established for aircraft flight recorders which specifically are required to be approved for use in civil aircraft of the United States. Aircraft flight recorders eligible for installation in civil aircraft shall meet the standards set forth in CAA-CAB Standard, "Aircraft Flight Recorder", dated June 12, 1958.[1]

(b) *Marking.* In addition to the markings in § 514.3, the rating (nominal voltage and wattage) shall also be marked on the recorder.

(c) *Data requirements.* One copy each of the manufacturer's operating instructions, schematic diagrams, and installation procedures shall be furnished the Chief, Aircraft Engineering Division, Civil Aeronautics Administration, Washington 25, D. C., with the statement of conformance.

(d) *Effective date.* August 1, 1958.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

[SEAL] WILLIAM B. DAVIS,
Acting Administrator
of Civil Aeronautics.

JULY 9, 1958.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7056]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ADELL CHEMICAL CO., INC.

Subpart—*Advertising falsely or misleadingly:* § 13.195 *Safety.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1890 *Safety.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Adell Chemical Company, Inc., Holyoke, Mass., Docket 7056, June 11, 1958]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a concern in Holyoke, Mass., with selling its household detergent "Lestoil" without warning purchasers that it was a combustible mixture and should not be used near an open flame or extreme heat, and with representing in television broadcasts that it could be used safety in such situations.

After acceptance of an agreement providing for entry of a consent order, the hearing examiner made his initial decision and order to cease and desist which became on June 11 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Adell Chemical Company, Inc., a corporation, and its officers, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any detergent having the same composition or possessing substantially similar properties as the detergent now designated as "Lestoil", do forthwith cease and desist from:

1. Offering for sale, selling or distributing such product unless an adequate warning notice is clearly and conspicuously displayed on such product disclosing that such product is a combustible mixture and that purchasers thereof should avoid using it near an open flame or extreme heat.

2. Representing pictorially or by any other means, directly or indirectly, that such product is not a combustible mixture or that such product is safe to use near an open flame or extreme heat.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: June 11, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 58-5410; Filed, July 15, 1958; 8:47 a. m.]

[Docket 6472]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WYBRANT SYSTEM PRODUCTS CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1895 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721, 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Wybrant System Products Corporation et al., New York, N. Y., Docket 6472, May 29, 1958]

---

[1] Copies may be obtained from the CAA Aircraft Engineering Division (W-241), Washington 25, D. C.

In the Matter of Wybrant System Products Corporation, a Corporation, and Abel Wybrants, William W. Wybrants, and Wade M. Wybrants, Individually and as Officers of Said Corporation, and as Copartners, Trading and Doing Business as The Wybrant System

This proceeding was heard by a hearing examiner on the complaint of the Commission charging operators in New York City of "The Wybrant System" with advertising falsely that by use of their preparations and treatment baldness and excessive hair loss would be prevented and new hair would be grown on bald areas in the majority of cases, and with failing to reveal that the vast majority of cases of excessive hair loss and baldness were male-pattern baldness and that in such cases use of their preparations would be of no value.

From the hearing examiner's initial decision and order to cease and desist made upon the record of the trial proceedings, counsel for both parties filed cross-appeals. Upon review, the Commission denied respondents' appeal, granted in part and denied in part the appeal of complaint counsel, modified the initial decision to conform with its written opinion, and on May 29 adopted the initial decision as thus modified as the decision of the Commission.

The order to cease and desist, as modified, is as follows:

It is ordered, That respondents Wybrant System Products Corporation, a corporation, and Abel Wybrants, William W. Wybrants, and Wade M. Wybrants, individually and as officers of said corporation, and as copartners trading as The Wybrant System, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their Lotion No. 2, also known as the Wybrant formula, or their shampoos, the compositions of which are set out in the findings herein, for use in the treatment of conditions of the hair and scalp, or any preparation of substantially similar composition, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication, that the use of any such preparations, alone or in conjunction with any method or treatment, will prevent or overcome excessive hair fall or baldness or cause new hair to grow, unless any such representation be expressly limited to cases other than those arising by reason of male pattern baldness, and unless the advertisement clearly and conspicuously reveals the fact that the great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and that in such cases said preparations will be of no value in preventing or overcoming excessive hair fall or baldness or in causing new hair to grow.

2. Disseminating or causing to be disseminated by any means any advertisement for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase of any such preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any representation prohibited in Paragraph 1 above, or which fails to comply with the affirmative requirements of Paragraph 1 above.

By "Final Order", report of compliance was required as follows:

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

It is further ordered, That the initial decision of the hearing examiner, as modified by the Commission, be, and it hereby is, adopted as the decision of the Commission.

Issued: May 29, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

INFORMAL STATEMENTS RE VARIOUS FOOD AND DRUG MATTERS

Under the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055; 21 U. S. C. 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045), and pursuant to the provisions of the Administrative Procedure Act (sec. 3, 60 Stat. 237, 238; 5 U. S. C. 1002), Part 3 of this chapter is amended by adding to Subpart B the following new sections:

§ 3.507 *Location of expiration date in drug labeling.* Drugs which require an expiration date should show the expiration date on the immediate container. When the immediate container is packaged in an individual carton, the expiration date should also be placed on the carton. When single-dose containers are packed in individual cartons, the expiration date may properly appear on the carton only.

(Secs. 505, 506, 507, 52 Stat. 1052, as amended, 55 Stat. 851, 59 Stat. 463, 61 Stat. 12, 63 Stat. 409; 21 U. S. C. 355, 356, 357)

§ 3.508 *Significance of control numbers on drug labeling.* The lot number on the label of a drug should be capable of yielding the complete manufacturing history of the package. An incorrect lot number may be regarded as causing the article to be misbranded.

(Sec. 502, 52 Stat. 1050; 21 U. S. C. 352)

§ 3.509 *Labeling of drug preparations containing salicylates.* (a) The label of any oral drug preparation intended for sale without prescription and which contains any salicylate ingredient (including aspirin, salicylamide, other salicylates and combinations) must bear a conspicuous warning statement such as: "Warning: Keep out of the reach of children," or "Warning: Keep this and all medications out of the reach of children." Such a warning statement is required for compliance with section 502 (f) (2) of the Federal Food, Drug, and Cosmetic Act and is intended to guard against accidental poisonings. Safety closures that prevent access to the drug by young children are also recommended to guard against accidental poisonings.

(b) Effervescent preparations and preparations containing para-aminosalicylate as the only salicylate ingredient are exempted from this labeling requirement.

(c) Aspirin tablets sold as such and containing no other active ingredients, except enteric-coated tablets which cannot be subdivided to a child's dose, should always bear dosage directions for each age group down to 3 years of age, with a statement such as, "For children under 3 years of age consult your physician." It is recommended that aspirin tablets specially made for pediatric use be produced only in 1¼-grain size to reduce the hazard of errors in dosage.

(d) Salicylate preparations other than aspirin tablets sold as such may, at the option of the distributor, be labeled for use by adults only, if their labeling and advertising clearly offer them for administration to adults only.

(e) (1) It is the obligation of the distributor who labels a salicylate preparation for administration to children to make certain that the article is suitable for such use and labeled with adequate directions for use in the age group for which it is offered, but in no case should such an article bear directions for use in children under 3 years of age. If the directions provide for administration to children as young as 3 years of age, the label should bear the statement, "For children under 3 years of age consult your physician." However, if the directions provide for administration to children only of an age greater than 3 years (for example, the dosage instructions provide for administration of the article to children only down to age 6), the label should bear a statement such as, "For younger children consult your physician."

(2) A statement such as, "For children under 3 years of age consult your physician" or "For younger children consult your physician," is not required on the label of an article clearly offered for administration to adults only.

(f) If the labeling or advertising of a salicylate preparation offers it for use in arthritis or rheumatism, the label and labeling should clearly state that the beneficial effects claimed are limited to:

"For the temporary relief of minor aches and pains of arthritis and rheumatism." The qualifying phrase "for the temporary relief of minor aches and pains" should appear with the same degree of prominence and conspicuousness as the phrase "arthritis and rheumatism." The label and labeling should bear in juxtaposition with such directions for use conspicuous warning statements to the effect: "Caution: If pain persists for more than 10 days, or redness is present, or in conditions affecting children under 12 years of age, consult a physician immediately." The salicylate dosage should not exceed 60 grains in a 24-hour period or 10 grains in a 4-hour period. If the article contains other analgesics, the salicylate dosage should be appropriately reduced.

(g) (1) The label of any drug containing more than 5 percent methyl salicylate (wintergreen oil) should bear a conspicuous warning such as: "Warning: Do not use otherwise than as directed. Keep out of the reach of children to avoid accidental poisoning."

(2) If the preparation is a counter-irritant or rubefacient, it should also bear a caution such as, "Caution: Discontinue use if excessive irritation of the skin develops. Avoid getting into the eyes or on mucous membranes." (See also § 3.35.)

(Sec. 502, 52 Stat. 1051; 21 U. S. C. 352)

§ 3.510 *Over-the-counter drugs for minor sore throats; suggested warning.* The Food and Drug Administration has studied the problem of the labeling of lozenges or troches containing antibiotics and a local anesthetic, chewing gum containing aspirin, various mouth washes and gargles and other articles sold over the counter for the relief of minor irritations of the mouth or throat. It will not object to the labeling of suitable articles of this type "For the temporary relief of minor sore throats," provided this is immediately followed in the labeling with a warning statement in prominent type essentially as follows: "Warning—Do not use in the presence of fever, headache, nausea, or vomiting. These usually indicate a severe infection. Do not use more than 2 days unless directed by physician. If irritation persists or increases, discontinue use and consult physician. Do not administer to children under 6 years of age unless directed by a physician."

(Sec. 502, 52 Stat. 1051; 21 U. S. C. 352)

§ 3.651 *Shampoo preparations containing egg as one of the ingredients.* The present views of the Food and Drug Administration concerning the status of shampoo preparations containing egg as one of the ingredients are as follows:

(a) An article designated as "egg shampoo" should contain one egg (or the equivalent amount of dried whole egg) in that quantity of the article which would be used in one shampooing of the hair.

(b) An article that contains less than one egg per "shampoo" should not be referred to as an "egg shampoo," and the word "egg" should not be used as part of the name of the article. At the present time, the Administration is not raising objection to the marketing of an article containing less than one egg per "shampoo," provided the word "egg" does not appear in the name of the article, the reference to the egg ingredient, such as "plus egg," appears in a subordinate position on the label and is in type which is substantially reduced in size in comparison with the title of the article, and the reference to the presence of egg reveals the amount of the egg ingredient.

(c) In the case of an article containing less than 2 percent egg, the amount of egg is so small as to be insignificant, and it is therefore considered that it would be misleading for the labeling to make any mention of the presence of egg in such a product.

(Sec. 602, 52 Stat. 1054; 21 U. S. C. 362)

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371)

Dated: July 9, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter B—Personnel

[Dept. Reg. 108.368]

PART 11—EXAMINATIONS FOR THE APPOINTMENT OF FOREIGN SERVICE OFFICERS

WHEN AND WHERE GIVEN

1. Section 11.2 *When and where given* is amended to read:

§ 11.2 *When and where given.* The written examination will be given annually or semi-annually, if required, in designated cities in the United States and at Foreign Service posts abroad on dates established by the Board of Examiners for the Foreign Service. The oral examination will be given at Washington, D. C., throughout the year and periodically in selected cities throughout the United States and at selected Foreign Service posts abroad. The physical examination will be given as indicated in § 11.8.

2. Section 11.8 *The physical examination*, paragraph (b), is amended to read:

(b) The physical examinations will be conducted by medical officers of the Armed Services, the Public Health Service, the Department of State, or accredited colleges and universities, or, in exceptional circumstances, by private physicians designated by the Board of Examiners.

(Sec. 212, 60 Stat. 1001; 22 U. S. C. 827)

For the Secretary of State.

W. K. SCOTT,
Assistant Secretary for Administration.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter B—Property Improvement Loans

PART 201—CLASS 1 AND CLASS 2 PROPERTY IMPROVEMENT LOANS

REFINANCING

In § 201.9 (b), subparagraphs (1) and (4) are amended to read as follows:

§ 201.9 *Refinancing.* • • •

(b) *Maximum maturity.* (1) A Class 1 (a) loan or a Class 2 (a) loan which had an original principal amount, exclusive of financing charges, of $600 or less may be refinanced for an additional period not in excess of 3 years and 32 days from the date of the refinancing, but not to exceed 5 years from the date of the original note. A Class 1 (a) loan or a Class 2 (a) loan which had an original principal amount, exclusive of financing charges, of more than $600 may be refinanced for an additional period not in excess of 5 years and 32 days from the date of the refinancing, but not to exceed 7 years from the date of the original note.

• • • • •

(4) When a Class 1 loan or a Class 2 loan is made or refinanced and consolidated with another Class 1 loan or Class 2 loan, the new note evidencing the consolidated obligation shall not be for a longer term than that which the component loan having the shortest permissible maturity could have if made or refinanced alone: *Provided*, That consolidated Class 1 (a) or Class 2 (a) loans may be refinanced for an additional period of 5 years and 32 days, but not to exceed 7 years from the date of the earliest component loan, if the consolidated obligation, exclusive of financing charges, exceeds $600 or if any of the component loans had an original principal amount, exclusive of financing charges, of more than $600.

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. 1703)

Issued at Washington, D. C., July 10, 1958.

NORMAN P. MASON,
Federal Housing Commissioner.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 910]

VEGETABLES GROWN IN CERTAIN DESIGNATED COUNTIES IN COLORADO

NOTICE OF PROPOSED EXPENSES AND RATE OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the expenses and rate of assessment hereinafter set forth, which were recommended by the San Luis Valley Vegetable Committee, established pursuant to Marketing Agreement No. 67, as amended, and Order No. 10, as amended (7 CFR Part 910), regulating the handling of vegetables grown in certain designated counties in Colorado, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 910.212 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the San Luis Valley Vegetable Committee, established pursuant to Marketing Agreement No. 67, as amended, and Order No. 10, as amended, to enable such committee to perform its functions pursuant to the provisions of aforesaid amended marketing agreement and order, during the fiscal period ending May 31, 1959, will amount to $900.00.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 67, as amended, and Order No. 10, as amended, shall be six-tenths of one cent ($0.006) per bushel of peas or crate of cauliflower or respective equivalent quantities thereof, handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 67, as amended, and Order No. 10, as amended (7 CFR Part 910).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 10, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-5416; Filed, July 15, 1958; 8:49 a. m.]

[7 CFR Part 937]

NECTARINES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR INITIAL FISCAL YEAR

Consideration is being given to the following proposals submitted by the Nectarine Administrative Committee established under the marketing agreement and Order No. 37 (7 CFR Part 937; 23 F. R. 4616) regulating the handling of nectarines grown in California, effective June 25, 1958, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $19,460.00 will be necessarily incurred by said committee during the initial fiscal period (June 25, 1958, through February 28, 1959) for its maintenance and functioning under the aforesaid marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles nectarines shall pay during the initial fiscal period in accordance with the applicable provisions of said marketing agreement and order, the rate of assessment of $0.01 per standard lug box, or equivalent quantity of nectarines in other containers or in bulk so handled by such handler during such fiscal period.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2077, South Building, Washington 25, D. C., not later than the 10th day after the publication of this notice in the FEDERAL REGISTER.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order, and "standard lug box" shall mean the No. 26 standard lug box set forth in section 828.4 of the Agricultural Code of California.

Dated: July 10, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-5415; Filed, July 15, 1958; 8:49 a. m.]

[7 CFR Part 963]

[Docket No. AO-306]

HANDLING OF APPLES GROWN IN DESIGNATED PART OF WASHINGTON

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of apples grown in designated part of the State of Washington, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "act." Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., not later than the close of business of the fifteenth day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing, on the record of which the proposed marketing agreement and order (hereinafter referred to collectively as the "order") were formulated, was held at Chelan, Washington, on May 6, 1958, and continued at Yakima, Washington, on May 12, 1958, pursuant to a notice thereof which was published April 3, 1958, in the FEDERAL REGISTER (23 F. R. 2201). Such notice set forth a proposed marketing agreement and order which had been presented to the Department of Agriculture by the Washington State Horticultural Association, with a petition for a hearing thereon.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise Federal jurisdiction in this instance;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(3) The definition of the commodity and determination of the production area to be affected by the order;

(4) The identity of the persons and transactions to be regulated; and

(5) The specific terms and provisions of the order including:

(a) Definition of terms used therein which are necessary and incidental to attain the declared objectives of the act, and including all those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions;

(b) The establishment, maintenance, composition, powers, duties, and operation of a committee which shall be the administrative agency for assisting the Secretary in administration of the program;

(c) The incurring of expenses and the levying of assessments;

(d) The method for regulating shipments of apples grown in the production area;

(e) The provision of exemptions and the establishment of special regulations for apples handled in certain types of shipments or for certain specified purposes;

(f) The requirement for inspection and certification of apples handled;

(g) The establishment of reporting requirements for handlers;

(h) The requirement of compliance with all provisions of the order and with regulations issued pursuant thereto; and

(i) Additional terms and conditions as set forth in §§ 963.62 to 963.71 and published in FEDERAL REGISTER (23 F. R. 2201) on April 3, 1958, which are common to marketing agreements and orders, and certain other terms and conditions as set forth in §§ 963.72 to 963.74, and also published in the said issue of the FEDERAL REGISTER, which are common to marketing agreements only.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence adduced at the hearing and the record thereof, are as follows:

(1) Apples are produced commercially in 35 states. Since 1934, the production of apples in Washington has ranged between 17.2 (1951) percent to 39.8 (1945) percent of the total commercial production in the United States. In 1957, Washington's production of 32,600,000 bushels of apples amounted to 27.8 percent of the total production in the United States. Washington markets the major portion of its apples in fresh fruit channels. Washington apples, since 1934, have ranged from 22.5 percent in 1937 to 48.9 percent in 1945 of the fresh sales of apples produced in the United States.

Washington apples are distributed widely in the United States, Canada, and many other foreign countries. The State of Washington is an important market for Washington apples. The evidence of record indicates that during the period September through June of 1955–56 and 1956–57 season, the Seattle market handled a larger volume of Washington apples than any of the following markets—San Francisco, Oakland, St. Louis, Pittsburgh, Philadelphia, Detroit, Cleveland, Cincinnati, Boston, and Atlanta.

Any handling of Washington apples in fresh market channels exerts an influence on all other handling of such apples in fresh form. Sellers of apples, as of other commodities, endeavor to conduct their businesses so as to secure maximum returns for the apples they have for sale. The seller of apples continually surveys all accessible markets so that he may take advantage of the best possible opportunity to market the fruit. Markets within the State of Washington provide opportunities to dispose of apples the same as markets within other states, or for export; and the sale of a quantity of apples in a market within Washington exerts a similar influence on all other sales of apples as a like quantity sold in another market within any other state.

If shipments of apples to markets outside Washington were regulated, while those within the State were unregulated, growers and handlers would attempt to market within the State the lower quality apples which could not be shipped under regulation. This would depress the price of apples in Washington markets to a level below that prevailing in markets outside the State. The existence of a lower price level for apples marketed within Washington would tend to depress the prices for apples sold in interstate markets, particularly in immediately adjacent markets. Buyers generally have ready access to market information; and knowledge of lower prices in one market is used in bargaining for apples to be shipped into other markets, including markets outside the State of Washington. Moreover, it appears obvious that with substantial quantities of poor quality apples burdening markets in the State of Washington, there would be less opportunity to sell in such markets apples meeting the requirements of the regulations established. The larger quantity of apples, which would be required to be sold in interstate markets under such circumstances, would likewise tend to lower the level of prices in the interstate markets.

Apples are usually either prepared for market as quickly as possible after they are delivered to the packing facility, or they are stored loose, ungraded, and prepared for market as orders are received by the sales force. Often, apples which are graded, packaged, and sold are stored in storages within the production area for shipment to the market later in the season. Buyers for some chain stores purchase large quantities of apples, some of which are destined for markets within the State and some of which will be sent to markets outside the State. Shipments originally destined for Seattle, Spokane, or Vancouver are often diverted to markets outside the State. In many of these situations, neither the packer, seller, nor buyer know the final destination of the apples at time of purchase. Moreover, it was testified at the hearing that were the sale of apples to intrastate markets unregulated, some shippers may change their method of doing business in that they would first ship to intrastate destinations and later divert the same shipment to interstate markets. These situations would make it difficult to affect compliance with interstate shipments if shipments to markets within the State were unregulated. Because of the foregoing, it is concluded that the movement and sale of Washington apples, whether to a market within the State of Washington or outside thereof, affect prices of all apples grown in the production area. Therefore, it is hereby found that all handling of apples grown in the production area is either in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce. Hence, except as hereinafter otherwise provided, all handling of apples grown in the production area should be subject to the authority of the act and of the order.

(2) The hearing record indicates that the trend of apple production in Washington is sharply upward. The total annual production of apples in that State fluctuated rather sharply during the past few years. The annual production for the past 7 years is as follows: 1951, 19,100,000 bushels; 1952, 22,800,000 bushels; 1953, 24,400,000 bushels; 1954, 23,200,000 bushels; 1955, 26,100,000 bushels; 1956, 17,700,000 bushels; and 1957, 32,600,000 bushels. Crops as large and often larger than in 1957 can be expected in the future because of the large numbers of young trees that will soon be coming into production. Increased plantings have been due in part to the making available of additional land through the Federal Bureau of Reclamation, the development of better pumps which makes land at higher elevations available for planting, and the market popularity of the Red Strains, primarily of the Delicious variety. Since 1949, the rate of planting has been considerably over and above the amount of planting needed to maintain normal production. The 1954 Census lists 1,134,114 trees of nonbearing age and 2,436,108 trees of bearing age. At the present time, Washington Delicious accounts for more than 50 percent of the total Delicious production in the United States. A large percentage of the trees of nonbearing age and young trees just beginning to bear are of the Red Sport strains of the Delicious variety.

Prices received by growers for Washington apples sold in fresh fruit channels were relatively favorable for the 1951 through the 1956 crops. Washington production during those years was generally light to moderate. Prices received were unfavorable in 1949 and 1950 when the crops were large. Returns to growers were unfavorable for the 1957 crop. In both 1950 and 1957 shipments of off-condition apples were an important factor in depressing prices. "Condition" includes not only such factors as storage scab, decay, scald, internal breakdown, and watercore but also those which may be described in terms indicating the varying degree of firmness, depending upon stage of the ripening process such as Hard, Firm, Firm Ripe, Ripe, and Overripe. Many shipments of off-condition apples were made in 1957 which did not return to the grower the costs of picking, packing, storing, and transporting to the markets. This resulted not only in a loss of at least production costs to the growers of these apples but also resulted in a further lowering of returns to growers in that the sale of such apples depressed the prices at which apples in better condition could be sold.

Condition appears to be a more important factor from the standpoint of consumer acceptance than grade. This is understandable since consumers purchasing apples which are mealy and overripe will be dissatisfied and reduce or entirely discontinue apple purchases. However, the better grade apples in the same condition generally command better prices than poorer grade apples.

The Washington apple industry has long recognized the demoralizing effect of cull apples on prices to growers and the shipment of such apples for fresh market uses is prohibited under State law unless such apples are ringfaced in lidded bushel baskets and labeled "culls." Such apples are used for processing both within and outside of the State of Washington. It was alleged that in some instances these cull apples shipped to destinations outside the State of Washington for processing are actually sold in fresh fruit channels. This lessens the demand for better apples in such channels and lowers the price at which they can be sold.

The Washington apple industry spends substantial sums of money in advertising Washington apples. Witnesses contended that the shipment of fruit in poor condition and of unsatisfactory quality was, in part, nullifying these efforts. Sums spent in advertising would be more effective if only apples which would provide consumer satisfaction were marketed.

The term maturity as used by the industry refers to the stage of ripeness of the apple, ranging from immature to

and mealy. Prices for apples are generally high at the beginning of the season, and growers and handlers are anxious to start shipping in order to take advantage of such prices. However, the shipment of immature apples early in the season to take advantage of the high prices is not such a common occurrence although testimony indicated that with increased plantings of Red strain varieties which develop a red color at an earlier stage of maturity, growers may well attempt to ship more immature apples in future years. Another factor which tends to lessen or prevent the shipment of immature apples is the industry appointed maturity committee. This committee sets the date after which the Delicious variety may be shipped. Also, each of the grades established in the State of Washington Standards for apples and each of the grades, except U. S. No. 1 Early, established in the United States Standards for apples require the apples to be mature.

Color is an important grade factor and red color is a desirable attribute of all the major varieties of Washington apples, except varieties such as Golden Delicious and Yellow Newtown. The climate in the production area, warm days and cool nights, is conducive to the development of a highly colored apple. This high color is an important factor in determining the grade of a particular variety of apples. Different varieties often have different color requirements for the same grade. Adverse weather just before or during the period at which the fruit should be picked can seriously affect the outcome of the crop. Hot weather during this period can dull or cloud the color already present or slow down the formation of red color. This lack of color often results in the apple being graded at least one grade lower than would be the case if color was not a major factor. The attempt on the part of some growers and handlers to obtain a higher degree of color on each apple has sometimes resulted in leaving the apples on the trees beyond the date which is the most optimum time to harvest from the standpoint of condition. Leaving the apple on the tree after the optimum harvest date results in harvested fruit which has advanced in maturity beyond the stage at which the apples can be harvested and marketed in a satisfactory condition through the normal commercial channels of trade. This poses a problem for growers in trying to decide whether to harvest apples in optimum condition or to leave them on the trees to obtain better color. The decision of some growers has often been to place more emphasis on color than on condition. This has resulted in off-condition apples being marketed in some instances. The marketing of such off-condition fruit depresses the price for apples and contributes to disorderly marketing conditions.

Several witnesses contended that the proposed order should not be adopted. Most of these witnesses agreed that the Washington apple industry faced a problem especially in the marketing of off-condition apples. A few of these opposition witnesses believed nothing should be done in attempting to solve it on an industrywide basis and that the solution should be left to each individual. Most of the opposition witnesses, however, agreed that some industry program should be formulated to attempt to solve the problems. These witnesses contended either (1) that the proposed program would not help in solving the problem or (2) that it should be undertaken under the authority of existing or new State laws rather than through a Marketing Committee under the authority of the Federal Agricultural Marketing Agreement Act of 1937, as amended.

Testimony shows that a better job can be done in growing, harvesting, and marketing apples. If growers and shippers knew that apples must meet certain requirements of condition in order to be shipped in fresh fruit channels not only would growers redouble their efforts to produce and harvest fruit in the required condition, but shippers also would use greater care in planning the shipment of the various lots of apples while they were still in satisfactory condition. The establishment of regulations with respect to condition, maturity, and grade such as are contemplated under the order would provide a method whereby orderly marketing could be promoted.

Therefore, it is concluded that the establishment of the order, providing for the regulation of condition, maturity, and grade, is necessary to effectuate the declared policy of the act. Also, the establishment and maintenance in effect of minimum standards of condition, maturity, and grade, when prices are above the parity level, will effectuate such orderly marketing of Washington apples as will be in the public interest. The objective under such order is to make available to buyers only those apples that are of desirable condition, maturity, and grade. Such regulations should contribute to the establishment of more orderly marketing conditions and tend to increase the demand for Washington apples.

(3) The term "apples" should be defined in the order to identify the commodity to be regulated thereunder. Such term, as used in the order, refers to all varieties of the fruit classified botanically as Malus sylvestris which is grown in the production area. Such fruit is commonly called apples, and the term has a specific meaning to all growers, handlers, and others who produce and market the commodity.

The term "variety" should be defined in the order, as hereinafter set forth, since it is proposed, for reasons hereinafter discussed, to provide authority for different regulations for different varieties of apples. There are comparatively few varieties of apples grown in the production area which are of major commercial importance. However, additional varieties and red strains of existing varieties are being propagated. Each of the varieties has characteristics which serve to distinguish it. From a market standpoint, however, they are competitive one with the other. It is necessary, therefore, that all varieties of apples, including those that may be developed in the future, be subject to regulations under the order.

A definition of "production area" should be set forth in the order to delineate the area in which the apples to be regulated are grown. Apples are produced in all counties within the State of Washington. However, most commercial production is confined to the Yakima and Wenatchee-Okanogan areas of central Washington, commonly referred to as the Wenatchee Valley and the Yakima Valley. Smaller commercial areas are located in Spokane, Skamania, Klickitat and Walla Walla counties. The Census report shows a considerable number of trees in some of the counties, and a few trees in each of the other counties, west of the summit of the Cascade range. However, most of these trees consist of backyard plantings, and many of them are early varieties which do not compete with the Washington commercial apple crop. Since there is very little likelihood of commercial orchards being developed in this area in the near future, the area west of the summit of the Cascade range should be excluded from the production area at this time. The area lying generally east of Wenatchee Valley and Yakima Valley contains districts having soil, water conditions, and general weather pattern of such nature to be potential producing areas. This is further evidenced by the increased rate of tree planting in certain parts of this area. Also, it would not be practicable to exclude areas not producing apples which surround or are adjacent to all of the production area. Moreover, apples from the area generally east of the Wenatchee Valley and Yakima Valley move into one or both Valleys at times for preparation for market or for storage prior to shipment to market. A modification was proposed which would exclude the counties of Skamania and Klickitat from the production area. This area is commonly referred to as the White Salmon-Underwood area and is considered to be a commercial producing district. The two counties should not be excluded within the production area for the following reasons: (1) The Delicious variety which ranks first in volume of production within Washington, is produced in this area in considerable volume; (2) apples from this area are prepared for market in the same way and packed in the same type containers as are apples from other areas within the State; (3) apples from this area are sometimes transported to packing facilities in the Yakima area for preparation for market; and (4) apples from Yakima are sometimes stored in the White Salmon-Underwood area. There was considerable testimony given that no commercial producing district within the State of Washington should be excluded from the production area. It is concluded, therefore, that the production area as hereinafter defined is the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act.

(4) The term "handler" should be defined in the order to identify the persons who are subject to regulation under the program. Since it is the handling of

apples that is regulated, the term "handler" should apply to all persons who place apples in commerce by performing any of the activities within the scope of the term "handle," as hereinafter described. In other words, any person who is responsible for the sale, delivery, consignment, or transportation of apples, or who in any other way places apples in commerce, should be a handler under the order and be required to carry out such activities in accordance with the order provisions. However, the transportation by a common or contract carrier of apples owned by another person should not be considered as making such carrier a "handler" as, in such instances, the carrier is performing services for hire and is not responsible for the grade, maturity or condition of the commodity. Of course, if the carrier is the owner of the apples being transported, such carrier would be the handler the same as any other person who may primarily be engaged in another business—such as producer or retailer—but at times is also a handler of apples.

The term "handle" should be defined to identify those activities that it is necessary to regulate in order to effectuate the declared policy of the act. Such activities include all phases of selling and transporting which place apples in the channels of commerce within the production area or from the production area to any point outside thereof. The handling of apples begins at the time the fruit is picked from the tree and includes each of the successive selling and transporting activities until the fruit reaches its final destination. The performance of any one or more of these activities, such as selling, consigning, delivering, or transporting by any person, either directly or through others, should constitute handling. In order to effectuate the declared policy of the act, each such person should be required, except as hereinafter indicated, to limit such handling of apples to fruit which conforms to the applicable regulations under the order.

In most years few apples are sold on-the-tree. There are some sales on the basis of delivered at roadside or at warehouse door. After picking, nearly all the apples are sorted, graded, packed, or otherwise prepared for market. Such preparation for market is generally done at the packinghouse. The grower, in such instances, properly relies on the person preparing the apples for market to see that the fruit which is later shipped meets all applicable requirements for marketing. Moreover, such activities are, of necessity, preliminary to placing the apples in marketing channels. It would not be practical and would unnecessarily complicate the administration of the order to endeavor to require persons engaged in the preparation of apples for market to meet the requirements of regulations under the program until after such preparation. Therefore, such activities should be excluded from the definition of "handle." Apples may be sold at the orchard where grown or at a packinghouse, before or after packing, to truckers and others who transport the apples from such points to markets within and without the State. The sale or delivery of apples to such persons and the subsequent movement to market are handling transactions. Any person who engages in any such transaction, whether grower, packinghouse operator, trucker, or others, would therefore be a handler under the order by virtue of such transaction. Each such person should have the responsibility of assuring himself that the apples he handles meet all applicable regulations in effect at the time of handling. Compliance with the regulations which are authorized by the order can readily be determined by the person who is responsible for grading and otherwise preparing the apples for market. The primary responsibility for determining whether a particular lot of apples conforms to the applicable regulations should rest with the person who places such lot, or causes it to be placed, in the current of commerce. In most cases, such person will be the one who was responsible for grading and preparing the apples for market. However, all subsequent handlers also should be responsible for seeing that any regulations applicable to the apples are met at the time such persons handle the apples. This can readily be ascertained by determining that the apples have been inspected and certified as meeting such regulations or by having them inspected. As all handling of apples is in interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce, it is concluded that, except as indicated herein and as specifically exempted by the act and order, all sales, consignment, delivery, or transportation of apples within the production area or between the production area and any point outside thereof should be subject to the order and any regulations issued pursuant thereto.

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the order. These terms should be defined for the purpose of designating specifically their applicability and establishing appropriate limitations on their respective meanings wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, the official charged by law with the responsibility for programs of this nature, but also, in order to recognize the fact that it is physically impossible for him to perform personally all functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to act in his stead.

The definition of "act" provides the correct legal citations for the statute, pursuant to which the proposed regulatory program is to be operative and avoids the need for referring to these citations.

The definition of "person" follows the definition of that term as set forth in the act, and will insure that it will have the same meaning as it has in the act.

The term "fiscal period" should be defined to set forth the period with respect to which financial records of the [illegible] Quality Control Committee—the [illegible] which will administer the program [illegible] cally—are to be maintained. At [illegible] present time, it is desirable to [illegible] a 12-month period ending the last [illegible] of July of each year as a fiscal [illegible] Such a period would fix the end of [illegible] fiscal period and the beginning of [illegible] next at a time of least activity in [illegible] marketing of apples. This would facilitate fixing the term of office of members and alternates to coincide with such period as it would allow sufficient time prior to the time shipments begin for the committee to organize and develop information necessary to its functioning during the ensuing year, and would also insure that a minimum of expense would be incurred during a fiscal period prior to the time assessment income is available to defray such expenses. However, it may develop that for convenience of management, or for other good and sufficient reasons not now apparent, that it would be desirable to establish a fiscal period other than one ending the last day of July; hence, authority should be included in the order to provide for such establishment subject to approval of the Secretary pursuant to recommendations of the committee. Therefore, it is concluded that such term should be defined as hereinafter set forth to provide this flexibility.

A definition of "committee" should be incorporated in the order to identify the administrative agency established under the provisions of the program. Such committee is authorized by the act and the definition thereof, as hereinafter set forth, is merely to avoid the necessity of repeating its full name each time it is referred to.

Definitions of "grade" and "condition" should be incorporated in the order to provide a basis for expressing grade and condition limitations thereunder, and thus to enable persons affected thereby to ascertain the extent and application of grade and condition limitations. "Grade" should be defined as any one of the officially established grades of apples as defined and set forth in: (1) Sections 51.300 to 51.327 of the United States Standards for Apples (21 F. R. 5084), or (2) Standards for Apples issued by the State of Washington, effective September 1957, or (3) amendments to any grade set forth in either of such standards, or modifications thereof, or variations based thereon. "Condition" should be defined to mean any of the officially established standards relative to condition factors of apples as defined and set forth in: (1) Section 51.317 of the United States Standards for Apples (21 F. R. 5084), or (2) Condition Standards for Apples issued by the State of Washington, effective September 1957, or (3) amendments to either such condition standards, or modifications thereof, or variations based thereon. Such definitions provide the flexibility necessary to cope with the possible variations in apples due to detrimental effects of weather or other possible hazards affecting the crop. each of which contain condition standards, have been used by the apple industry in the State of Washington for a number of years and therefore provide appropriate bases for describing grade and condition limitations.

The term "grower" should be synonymous with "producer" and should be defined to include any person who is engaged, within the production area, in the production of apples for market and who has a proprietary interest therein. There are several types of shippers or handlers who operate within the production area. One such type shipper is commonly known as a grower-shipper. The Agricultural Marketing Agreement Act of 1937, as amended, has for one of its purposes the establishment and maintenance of such orderly marketing conditions as will establish to farmers parity prices. It is thought that a person deriving most of his income from a producing enterprise would have more complete understanding of the producer problems and would be better able to represent the producers. To insure appropriate producer representation on the committee, it was testified at the hearing that a grower-shipper who handles apples other than his own production should not participate as a grower in the election of nominees for committee membership, nor should he be eligible to serve as a grower member of the committee, if the apples of his own production constituted less than 51 percent of the total apples handled by such person during the previous fiscal year. Since provision is made for handler representation on the committee, it was testified the grower representation should be limited to persons who are primarily growers. This is not intended in any way to eliminate any grower-shipper from nominating, voting for, or serving as a committee member or alternate member, but merely provides that if he is primarily a shipper, he shall fall into the shipper category as far as voting for committee members or serving on the committee is concerned. The term "grower" should, therefore, be defined as hereinafter set forth.

"District" should be defined as set forth in the order to provide a basis for the nomination and selection of committee members. The districts (i. e., the geographical divisions of the production area as established and as set forth in the order) represent the best basis which could be devised at this time for providing a fair, adequate, and equitable representation on the committee. The provision for redistricting is desirable because it allows the committee and the Secretary to consider, from time to time, whether the basis for representation on the committee should be changed.

(b) It is desirable to establish an agency to administer the order locally under and pursuant to the act, as an aid to the Secretary in carrying out the declared policy of the act. The term "Apple Quality Control Committee" is a proper identification of the agency and reflects the character thereof. A committee of 17 members, with a like number of alternates, should provide adequate industry representation on the committee to recommend marketing regulations and to perform other administrative responsibilities. In order to insure a committee that will represent the apple industry within the production area, 12 of the members should be producers and 5 should be handlers. Although it is primarily a grower's program, the restrictions are placed at the handler level so it is only right that the handlers have representation on the committee. The division of 12 grower and 5 handler members provides a majority membership to the producers. Handlers are usually closer to the marketing situation, and 5 members on the committee should provide ample advice and counsel to the grower members of the committee. Alternate members should have the same qualifications as the member for whom he is an alternate, as he will be acting in the place and stead of the member. Growers who are also shippers should vote for or serve on the committee as grower member or handler member on the basis hereinbefore outlined. Some growers and handlers of apples are corporations. These corporations have employees who are in charge of the growing, harvesting, packing, and marketing operations. Such employees would be qualified from the standpoint of knowledge and experience for service on the committee, and it would not be in the best interest of the industry to deny them the opportunity to be nominated for and serve on the committee as grower member or handler member, respectively.

Some opponents to the proposed program wanted to modify the committee membership to consist of a total of 16 members, 8 of which would be grower members and 8 would be handler members. It was testified that the restriction encompassed by means of the program would be at the handler level. Also, even though off-condition is often the result of decisions made on the part of the grower, the ultimate decision as to the disposition of the fruit sometimes rests with the handler.

Testimony shows that a substantial portion of the total volume of apples sold in fresh fruit channels are either sold through cooperative pools or the individual grower sells his own production. In such cases the grower or a board of directors composed of growers or a group of growers making up the pool has the final say as to whether or not to sell the fruit. The individual grower who also sells is commonly known as a grower-shipper. Such grower-shipper may limit his sales to apples of his own production or he may also market some apples produced by others. In either event, this type marketer, as a group, markets a considerable volume of the total production of Washington apples. Such grower-shipper is, when his production is 51 percent or more of the total volume of apples he marketed during the previous fiscal year, eligible to vote for and serve on the committee as grower member or alternate grower member. Also, a considerable number of people are employed in a sales capacity, as, for example, sales manager of a cooperative, who are also growers. These individuals would be eligible to vote for and serve in a grower capacity on the committee. Because of the marketing methods used, it appears very likely that a number of the grower members of the committee would also be handlers and have marketing experience.

Therefore, it is concluded that the committee should consist of 17 members, of which 12 shall be grower members and 5 shall be handler members. Two grower members and one handler member and their respective alternates shall represent District 1. Four grower members and two handler members and their respective alternates shall represent District 2. Five grower members and two handler members and their respective alternates shall represent District 3. One grower member and his alternate shall represent District 4. Such representation recognizes to the extent practicable the relative volume of production in the various districts. Also, such division follows the established division into horticultural districts. Provision to reapportion membership on the committee among districts should be provided so that, if it becomes apparent that through shifts in production, reestablishment of districts, or other reasons, such representation is inappropriate, the Secretary may, upon recommendation of the committee, make such reapportionment as he finds necessary.

Each member of the committee and his alternate should be a grower, or an officer, or employee of a corporate grower, or a handler, or officer, or employee of a handler of apples in the district for which selected. Persons with such qualifications should be intimately acquainted with the problems of producing or marketing apples grown in such district and may be expected to present accurately the problems incident to the production and handling of apples grown in that district.

The term of office of committee members and alternates under the proposed program should be for 2 years beginning August 1 and ending July 31, or such other beginning and ending dates as may be prescribed so that the term of office shall remain constant with the fiscal period as hereinafter set forth in § 963.7. However, the term of office for 6 of the initial grower members and alternates and 2 of the initial handler members and alternates shall end on July 31, 1959. This provision is necessary to set up the rotation process whereby about one-half of the committee will be elected each year. This rotation procedure will also provide a committee, half of which will be familiar with the workings of the order and will be able to acquaint the new members of the committee with the operations of the program. The term of office, starting August 1, will begin sufficiently in advance of the time shipment of apples commences each season to allow adequate time for the committee to organize and start operating. Since it is possible that the new committee members may not be appointed immediately upon expiration of the term of existing members, or that some may fail to qualify immediately, provision should be made for members to continue to serve

on the committee until their successors are selected and have qualified. This is necessary to insure continuity of committee operations.

A procedure for the election of nominees for membership on the committee should be prescribed in the order to assist the Secretary in his selection of members and alternate members of the committee. It is recognized that the Secretary is vested with authority under the act to select the committee members; and the nomination of prospective members and alternate members by mail balloting, or at meetings of the growers or handlers is a practical method of providing the Secretary with names of the persons which the industry desires to serve on the committee. While the use of mail balloting is not used to the same extent as nomination meetings in securing nominees under marketing agreements and orders, it is used to some extent, and it was testified that such method had proved successful in the election of nominees for appointment to other Washington apple industry bodies. It was also testified that extenuating circumstances might make it impossible for a certain group or groups to attend a nomination meeting. For example, it probably would be very difficult to hold a nomination meeting in District 4 because of its very large size and the scattered distribution of the apple producing areas in such district. Therefore, the committee may find it desirable to use the mail balloting method of securing the names of nominees exclusively in District 4. The manner of designating nominees in each district, whether by mail balloting or by nomination meetings, or a combination of both, should be at the option of the committee. The committee should, with approval of the Secretary, establish procedural rules and regulations as necessary to govern the conduct of mail balloting and nomination meetings.

As the administrative committee will not be in a position to act until after the selection by the Secretary of its initial members, the order should provide a procedure for the selection of the initial members. The Secretary may appropriately select the initial committee members and alternates from nominations which may be made by growers or handlers or appropriate groups thereof, or from other eligible persons; and the order should so provide. In order that the initial membership of the committee may be selected as soon as possible after the approval of the program, it should be required that such nominations be submitted not later than the effective date thereof.

Elections for the purpose of designating nominees for successor members of the committee and their alternates should be held each year by the committee. Currently such elections should be held in sufficient time for names of nominees to be submitted to the Secretary no later than June 1 of each year, so that the committee can be appointed and functioning by the beginning of the fiscal period, August 1. However, since provision is made for changing the fiscal period, authority should be included for the committee, with approval of the Secretary, to adjust the date by which nominations shall be submitted in keeping with any change in the fiscal period.

Only growers, including duly authorized officers or employees of corporate growers should be eligible to participate in the nomination and election of grower members and their alternates because it is proper that growers nominate the persons who are to represent them. Each grower should be permitted only one vote for each nominee to be elected in the district in which he produces apples as this is a democratic method of voting. To prevent growers who produce apples in more than one district from having a bigger voice in nominating representatives than do growers who produce apples in only one district, no grower should be permitted to participate in the election of nominees in more than one district in any one fiscal year. For the same reason, if a person is both a grower and handler of apples, such person should be permitted to vote either as a grower or as a handler but not as both. A person who produces and handles apples should be permitted to vote for and be nominated to serve as a grower member or alternate only if not less then 51 percent of the apples handled by him during the previous season were of his own production for the reasons outlined hereinbefore under the discussion of the term grower.

Only handlers, including duly authorized officers or employees of handlers, should be permitted to participate in the nomination and election of nominees for handler members and their alternates. Each handler should be eligible to cast only one vote for each nominee to be elected in the district in which he handles apples. No handler should be permitted to participate in the election of nominees in more than one district in any one fiscal year.

If election is by meetings of growers and handlers, the committee should, insofar as possible, schedule such nomination meetings at such times and places and make such public announcement thereof as will tend to result in maximum grower and handler participation. The committee may call upon other organizations or agencies, such as the Extension Service, the field office of the Fruit and Vegetable Division, U. S. D. A., grower and shipper associations, et cetera, to assist in conducting such nomination meetings. If the committee wishes to hold nomination meetings in connection with other meetings that are conducted on apples in any or all districts, authority should be provided that such nomination meetings may be so held. If, on the other hand, the committee wishes to hold separate nomination meetings, this is a matter of judgment and responsibility which should properly fall within the authority of the committee.

At each meeting held for the purpose of designating persons as nominees for successor members or alternate members of the committee, a chairman and a secretary should be selected by the growers or handlers eligible to participate therein. Only growers or handlers present at the meeting should be [illegible] to participate in the election of [illegible] nominees to be designated at such [illegible]ing, except that an officer or [illegible] of a corporate grower, or an officer [illegible] employee of a handler who is [illegible] may cast the vote of such grower [illegible] handler, if specifically authorized to [illegible] so. The chairman shall preside over [illegible] meeting, accept nominations, and conduct the voting in a democratic manner. The secretary selected at the meeting shall record the voting so that the number of votes cast for each person can be announced and the results submitted promptly to the committee. Minutes of the nomination meetings provide a written record in the event of any question that may later arise as to the authority for a particular member's nomination. A record of the person receiving the next highest number of votes may be necessary also to refer to in case of disqualification of the first choice nominee, or in the event of death, illness, or for some other reason.

If designation of nominees is by mail balloting, the committee should publicly announce the period within which names of candidates shall be filed with the committee and the number of endorsements necessary for the name of the candidate to be placed on the ballot. If the names of candidates are to be secured at meetings of growers and handlers, the committee should so announce in order that growers and handlers may plan accordingly. The period of balloting should be publicized, and ballots made available by mail or at designated places within the particular district. The ballot should include, in addition to the names of candidates, explicit directions for marking and mailing. At the conclusion of election, whether by meeting or meetings or by mail balloting, the committee shall promptly submit a report thereof to the Secretary.

In order that there will be an administrative agency in existence at all times to administer the order, the Secretary should be authorized to select committee members and alternates without regard to nomination if, for any reason, nominations are not submitted to him in conformance with the procedure prescribed herein. Such selection should, of course, be on the basis of the representation provided in the order so that the composition of the committee will at all times continue as prescribed in the order.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary a written acceptance of his willingness and intention to serve in such capacity. This requirement is necessary so that the Secretary will know whether or not the position has been filled. Such acceptance should be filed promptly after the notification of appointment so that the composition of the committee will not be delayed unduly.

Provision should be made as set forth in the order for the filling of any vacancies on the committee, including selection by the Secretary without regard to nominations where such nominations are not made as prescribed, in order to

...for maintaining a full membership on the committee.

The order should provide that an alternate member shall be selected for each member of the committee in order to help insure that each district will have representation at meetings. If any committee member is sick, or otherwise unable to attend a meeting, or at the request of the member for whom he is an alternate, the alternate member should represent the district at such meeting. Each alternate who is selected should have the same qualifications for membership as the members of the committee and should be able to perform such duties as are assigned to him by the committee. The alternate should be able to take over the duties of the member for the district represented should the member die, be removed from office, or be disqualified. The alternate should serve in place of the member until a successor to such member has been appointed and has qualified. So that as complete a representation as possible will be present at meetings, the order should provide that in the event neither member nor his alternate is able to attend a meeting, such member or the committee may designate any other alternate member from the same district and group (handler or grower) who is not acting as a member to serve in such member's place and stead.

The committee should be given those specific powers which are set forth in section 8c (7) (C) of the act. Such powers are necessary to enable an administrative agency of this character to function.

The committee's duties, as set forth in the order, are necessary for the discharge of its responsibilities. These duties are generally similar to those specified for administrative agencies under other programs of this character. It is intended that any activities undertaken by the members of the committee will be confined to those which reasonably are necessary for the committee to carry out its responsibilities as prescribed in the program. It should be recognized that these specified duties are not necessarily all inclusive, and that it may develop that there are other duties which the committee may need to perform.

With respect to the provision set forth in § 963.31 (m) providing for redistricting and reapportionment of membership on the committee, such provision is necessary to enable the committee and the Secretary to consider from time to time whether the basis for representation has changed or could be improved and how such improvement should be made. The division of the production area into the districts as set forth in the order is a logical one at the present time from the standpoint of geographical considerations and relative volume of production. However, shifts or other changes which may take place in the future due to increased or decreased production cannot be foreseen. Additional plantings of apples are continuing to be made within the production area. As more land is made available by the Federal Bureau of Reclamation, plantings may be extended to new locations within such area. Decreased acreage may result from the pulling out of trees of undesirable varieties. Therefore it is desirable to provide flexibility of operation so that if it should be in the best interests of the administration of the order to change the boundaries of districts, or reapportion the representation on the committee among districts, the committee may so recommend; and the Secretary may take such action.

A modification to the proposal as set forth in the notice of hearing was offered which would require the committee to hold a majority of its meetings and locate its headquarters in Wenatchee, Washington. However, the committee would best be able to perform its functions and duties if it were left to the discretion of the committee to determine the location of committee headquarters and the place at which each meeting of the committee would be held.

At least 14 members of the committee, or alternates acting for members, should be present at any meeting of the committee, and any committee action shall require concurring votes of at least 11 of those present. Any action taken by the committee is of such importance that more than just a bare majority should be required to constitute a quorum or to take any action. Eleven concurring votes is approximately a two-thirds (65 percent) majority of entire 17 member committee and approximately a four-fifths (79 percent) majority if only the minimum of 14 were present. It is very desirable to require a high percentage of the committee to agree to any action in order to obtain the necessary support by the industry.

The committee should be authorized to hold simultaneous meetings of groups of its members assembled in two or more places. Such procedure would expedite meetings during busy seasons. Such meetings should be subject to the establishment of proper communications, that is, all persons should be able to hear and all should be able to participate in the discussion and other action the same as at an assembled meeting at one place. Any and all such meetings shall be considered as an assembled meeting.

In addition to meetings held where the committee is assembled in one place, or when simultaneous meetings are held at two or more designated places, the committee should be authorized to vote by telephone, telegraph, or other means of communication when a matter to be considered is so routine that it would be unreasonable to call an assembled meeting or when rapid action is necessary because of an emergency. Any votes cast in this fashion should be confirmed promptly in writing to provide a written record of the votes so cast. In case of an assembled meeting, however, all votes should be cast in person.

It is appropriate that the members and alternates of the committee may receive compensation for the time spent in attending committee meetings. The order should authorize a maximum of $10.00 per day for this purpose, since the time so spent is usually at financial sacrifice to their personal businesses. While the payment of an amount not to exceed $10.00 per day will by no means fully compensate such members and alternates for the time spent away from their personal businesses, there are people within the industry in the production area who are willing to represent the industry by serving on the committee even though they do so at some personal sacrifice. The order also should provide for reimbursement of actual out-of-pocket reasonable expenses incurred by members and alternates on committee business, since it would be unfair to require them to bear such expenses incurred in the interest of all apple growers and handlers in the production area.

In order for an alternate to adequately represent his district at any committee meeting in place of an absent member, it may be desirable that he should have attended previous meetings along with the member, so as to have a full understanding of all background discussions leading up to action that may be taken at the meeting. Also, an alternate may, in future years, be selected as a member on the committee; and to this extent, attendance at meetings by alternate members could be helpful. Although only committee members, and alternates acting as members, have authority to vote on actions taken by the committee, it is often important for the committee to obtain as wide a representation as practical of producer and handler attitudes toward a proposed regulation or other matter. Therefore, the order should provide that the committee, at its discretion, may request the attendance of alternate members at any or all meetings, notwithstanding the expected or actual presence of the respective members, when a situation so warrants. The same compensation and reimbursement of expenses that are available to members should be made available also to alternate members when they are so requested and attend such meetings as alternates.

Provision should be made in the order whereby the committee will prepare an annual report, as soon as possible, after the close of each fiscal period. Such report should contain a complete review of the regulatory operations during the fiscal period and any recommendations for changes in the program. Such reports would provide the committee, the industry, and the Secretary with valuable reference information and would aid in promoting better understanding of the program by handlers and growers.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it for its maintenance and functioning and to enable it to exercise its power and perform its duties pursuant to the order. The funds to cover the expenses of the committee should be obtained through the levying of assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of expenses by the administrative agency established under an order and requires that each order of this nature contain provisions requiring handlers to pay, pro rata, the necessary expenses.

As his pro rata share of such expenses, each handler who first handles apples during a fiscal period should pay assessments to the committee, at a rate fixed

by the Secretary, on all apples so handled. In this way, each handler's total payments of assessments during a fiscal period would be proportionate to the quantity of apples handled by each such handler and assessments would be levied on the same apples only once.

It was proposed at the hearing to limit the rate of assessment for any one fiscal year to one-fourth cent ($0.0025) per bushel, or equivalent quantity, of apples. Testimony shows that with normal production an assessment rate of one-fourth cent per bushel would provide ample funds to carry on the program without restrictions. It was further testified that with increased plantings of new acreage, production should increase considerably, thereby increasing revenue for the program. In the case of short crop year, the ones which would provide the smallest amount of income, the minimum amount of regulations probably would be imposed. Thus, expenses would be at a minimum during the years of least income.

The committee should be required to prepare a budget at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of the income and expenditures necessary for the administration of the order during such period. Each such budget should be submitted to the Secretary with an analysis of its components. Such budget and report should also recommend to the Secretary the rate of assessment believed necessary to secure the income required for that period. The committee, because of its knowledge of the prospective crop, will be in a good position to ascertain the necessary assessment rate and make recommendations in this regard.

The rate of assessment to be applicable during a fiscal year should be fixed by the Secretary on the basis of the recommendation of the committee, or from other available information, so as to assure the imposition of such assessments as are consistent with the act. Such rate should be fixed on a fair and equitable unit basis and in an amount not in excess of one-fourth cent per bushel, as may be necessary to secure sufficient funds to cover the expenses which may be incurred during the fiscal period and to accumulate and maintain an operating reserve.

The accumulation and maintenance of an operating reserve are important and accepted functions of any business. Such a reserve is especially necessary to the continued effective and economical operation of the order over a period of years. In most years, shipments of apples will not be made in any substantial volume until after September 15, or more than one month after the beginning of the fiscal year. The period prior to the shipping season will be the period of greatest activity as the committee will be surveying the prospective crop and market conditions and developing a marketing policy for the marketing of the crop. In all probability, a large percentage of the committee's expenses for the fiscal period generally will be incurred before current assessment income is equal to current expenses. While the committee should be authorized to accept advance payments of assessments from handlers, as one means of financing its early operation, it usually would be necessary unless an operating reserve is established to borrow the funds to operate during the portion of each fiscal period until assessment income is sufficient to meet expenditures. The cost of such borrowing is, of course, an expense of operation and, as such, is borne by handlers. Over the years, therefore, handlers would have to pay expenses under the order which would equal or exceed the cost of establishing and maintaining an operating reserve.

A further saving would accrue to the industry through such a reserve by reason of the manner in which apples are marketed. The record of the hearing shows that a substantial portion of the total volume of apples sold in fresh fruit channels are either sold through cooperative pools or the individual grower sells his own production. Therefore, while the assessments are collected from handlers, the apple growers are the ones who actually pay them. If provisions were not made for a reserve, it would be necessary to return to handlers any excess of assessment income over actual expenses during each fiscal period. The cost of determining each handler's pro rata share of such excess and the refunding of such shares to handlers would be an expense chargeable to such fiscal period. In addition, handlers upon receipt of such refunds would have the obligation of returning to each of their growers his pro rata share of the refund. Where the excess of assessment over expenses during a fiscal period is not large, the costs to handlers of returning to growers their proportionate shares of such excess well may exceed the total refund involved.

There are further advantages that would accrue to the industry through the existence of such an operating reserve. Funds would be available to pay a deficit during any season when, either by overestimation of apple shipments or an unexpected reduction in the crop by weather hazards, assessment income did not equal expenses. Without the reserve, it would be necessary for handlers to cover the deficit. Also, it would constitute an extra burden on the industry to increase the assessment rate after some disaster had reduced the crop.

The reserve fund would be available for use in connection with the liquidation of the program in the event the order is terminated, as well as to cover operation costs, such as salaries and other necessary expenses, during any period when the order, or any of its provisions, is inoperative or suspended. It is possible, of course, that the program may be terminated at the end of a fiscal period, or during a year when the production of apples is relatively light. In such circumstances, it would be burdensome to handlers to require payment of an assessment to cover the liquidation costs. All handlers receive benefits from the program's operation; and even if a handler ceases handling apples before the full time of its operation has expired, it would be appropriate and equitable for such handler to share in the expense of liquidation. Should the order provisions be suspended, it is such suspension would occur during period when apple production has seriously curtailed. It would seem reasonable and proper, therefore, to use reserve funds to defray the costs of liquidation or any necessary expenses during a period when particular provisions of the order are inoperative. It is anticipated, of course, that the committee will endeavor to minimize costs in this regard as far as reasonably practicable consistent with the efficient performance of its responsibilities.

Evidence presented at the hearing was to the effect that the handlers of apples have been a relatively stable group with few changes in personnel from year to year and that it would be equitable, and far less burdensome, to contribute to the establishment of such an operating reserve during years of normal production rather than to have a high rate of assessment during a season when the crop is materially reduced. Moreover, the growers of apples do not change frequently as production of tree crops cannot be shifted rapidly to other commodities. In other words, those who would be making the slightly higher payment that might be required in the years when the reserve fund was being established would benefit when the assessments would be correspondingly reduced.

The proposed reserve fund should be built up slowly over a number of years, probably over a 5-year period, to avoid imposing a high assessment for this purpose. It was indicated that it would be appropriate, and in keeping with the desires of the industry, to include in the annual budget a specific amount for the reserve fund as well as to use any other excess funds at the end of a fiscal period for this purpose. In order that such reserve funds not be accumulated beyond a reasonable amount, it was proposed that a limit of approximately one fiscal period's expenses be provided. After the reserve is built up to that amount, the assessment rate for following fiscal periods should be fixed so that a deficit may be incurred. Any such deficits should be paid from the reserve until it reaches a level considered too low for the purpose for which it was established, as heretofore described, after which replenishment of the reserve should be undertaken. In this manner, the industry would receive full benefits of the economy of operation which will result from the committee not being in the position of having to incur the costs of borrowing money to finance operations during the pre-harvesting period, when assessment income would not cover expenses, or of having to make refunds of excess assessments at the end of a fiscal year. Such handling of the assessments and reserve funds is believed to be equitable, in the circumstances, and would effect desirable economies in the administration of the program.

Upon termination of the order, any funds in the reserve which are not used to defray the necessary expenses of liquidation should, to the extent practicable, be returned to the handlers from whom such funds were collected. How-

...r, should the order be terminated ...r many years of operation, and there ...ve been several withdrawals and re-deposits in the reserve, the precise equities of handlers may be difficult to ascertain and any requirement that there be a precise accounting of the remaining funds could involve such costs as to nearly equal the monies to be distributed. Therefore, it would be desirable and necessary to permit the unexpended reserve funds to be disposed of in any manner that the Secretary may determine to be appropriate in such circumstances. In view of the foregoing, it is, therefore, concluded that authority should be provided, as hereinafter set forth, to permit the establishment and use of a reserve fund in the manner hereinbefore described.

Should it develop that assessment income during a fiscal period, plus any funds in reserve, would not, at the previously fixed rate, provide sufficient income to meet expenses, the funds to cover such expenses should be obtained by means of increasing the rate of assessment. Since the act requires that the administrative expenses shall be paid by handlers, this is the only source of income to meet such expenses. The increased assessment rate should be applied to all apples handled during the particular fiscal period so that the total payments by each handler during each fiscal period will be proportionate to the total volume of apples handled during that period.

Should the provisions of the order be suspended, during any portion or all of a fiscal period, it will be necessary to secure funds to cover expenses during such period unless funds in the reserve are sufficient for such purpose. The committee will incur expenses each fiscal period even though the order may be inoperative during a particular period. To cease incurring any expenses when operations under the order were suspended for short periods would tend to increase rather than decrease total expenses as complete liquidation of the committee's affairs would be necessary to eliminate the payment of any salaries, rent, or utilities. Thereafter, when operations were resumed, it would be necessary to hire and train new personnel and new quarters would have to be obtained and outfitted. Such costs probably would exceed the expenses of maintaining an office and a minimum staff during a period of suspension. Moreover, the committee should be in a position to resume its functions at any time conditions are such that a period of suspension of operations should be terminated. Since expenses will not cease when the order is inoperative for a period, authorization should be provided to require the payment of assessments during such periods.

Funds received by the committee pursuant to the levying of assessments should be used solely for the purposes of the order. The committee should be required, as a matter of good business practice, to maintain books and records clearly reflecting the true, up-to-date operation of its affairs so that its administration could be subject to inspection at any time by the Secretary. The committee should provide the Secretary with periodic reports at appropriate times, such as at the end of each fiscal year or at such other times as may be necessary, to enable him to maintain appropriate supervision and control over the committee's activities and operations. Each member and each alternate, as well as employees, agents, or other persons working for or on behalf of the committee, should be required to account for all receipts and disbursements, funds, property, and records for which they are responsible, should the Secretary at any time ask for such an accounting. Also, whenever any person ceases to be a member or alternate of the committee, he should similarly be required to account for all funds, property, and other committee assets for which he is responsible and to deliver such funds, property, and other assets to the committee. Such person should also be required to execute assignments and such other instruments which may be appropriate to vest in the committee the right to all such funds and property and all claims vested in such person. This is a matter of good business practice.

(d) The declared policy of the act is to establish and maintain such orderly marketing conditions for apples, among other commodities, as will tend to establish parity prices therefor, and to establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will be in the public interest. The regulation of apple shipments by condition, maturity, or grade, or any combination thereof, as authorized in the order, provides a means of carrying out such policy.

The proposal as set forth in the notice of hearing provided for the establishment of standards of quality, condition, maturity, and grade on any or all varieties of apples during any period or periods. It also provided for the regulation of shipments of apples by establishing minimum standards of quality, condition, maturity, and grade during any period when season average prices are expected to exceed the parity levels. On the basis of the testimony adduced at the hearing, quality, to the producers and handlers, has a very broad significance and meaning. It covers such factors as color and defects, which are factors of grade. It also covers condition factors, such as decay, internal breakdown, scald, and bitter pit. It also includes factors for which satisfactory specifications have not yet been developed, such as flavor, palatability, and culinary qualities. The record of the hearing indicates that only condition, maturity, and grade regulations are desired and needed at this time. All three of these are factors of quality. Factors affecting condition, maturity, and grade are well known to the growers and handlers throughout the production area and to inspection personnel, dealers and others throughout the industry. In most, if not in all, instances, satisfactory methods of determining each such factor and generally the extent it affects the apple have been developed and are in general use. Condition is a factor of quality, as aforesaid. However, after apples have been in storage or in transit, condition is not a factor of grade in apples. Hence, the regulation of grade alone would not necessarily insure the shipment of apples of desirable quality. It may be desirable, according to testimony, to regulate condition in many instances in a manner separate and distinct from grade and perhaps in some instances to recommend condition regulations without grade regulations. Furthermore, regulation of quality after apples have been in storage or transit probably should primarily be on the basis of condition rather than grade.

The U. S. Standards for apples and the State of Washington Standards for apples require that apples be mature. Immature apples, except in U. S. No. 1 Early, are considered as defects and are scored against grade. Such apples are classified "Culls." The U. S. Standards for apples require that apples be not overripe. Overripe is a stage of maturity. The four stages of firmness of mature apples are: Hard, Firm, Firm ripe, and Ripe. The next stage of maturity is overripe. Although the wording in the Washington Standards for apples is somewhat different from that in the U. S. Standards, the interpretation is practically the same. Mature and overmature apples are often referred to in terms of condition as well as in terms of maturity. Maturity is a factor of condition or grade, depending upon the stage of maturity. For example, overripe may be either a factor of grade or condition depending upon whether the determination is made at the time of packing or after the apples have been stored. Since the proposed marketing agreement and order program proposes to regulate only a portion of the factors which affect quality, namely, condition, maturity, and grade, it is hereby concluded that authority to regulate as hereinafter specified is within the broad authority contained in the act and will tend to effectuate the declared policy of the act.

In order to facilitate the operation of the program, the committee should each year, and prior to recommending regulation of apple shipments, prepare and adopt a marketing policy for the ensuing marketing season. A report on such policy should be submitted to the Secretary and made available to growers and handlers of apples, to the extent practicable, on or before September 1 of each year. Such policy would serve to inform the Secretary and persons in the industry, in advance of the marketing of the crop, of the committee's plans for regulation and the basis therefor. Handlers and growers could plan their operations in accordance therewith. The policy also would be useful to the committee and the Secretary when specific regulatory actions are being considered, since it would provide basic information necessary to the evaluation of such regulation.

In preparing its marketing policy, the committee should give consideration to the supply and demand factors, hereinafter set forth in the order, affecting marketing conditions for apples since consideration of such factors is essential

to the development of an economically sound and practical marketing policy.

The committee should be permitted to revise its marketing policy so as to give appropriate recognition to the latest market developments when changes in supply and demand factors are sufficiently marked to warrant modification of such policy. Such action is necessary if the marketing policy is to appropriately reflect the probable regulatory proposals of the committee and be of maximum benefit to all persons concerned. A report of each revised marketing policy should be submitted to the Secretary and made available to growers and handlers, together with the data considered by the committee in making the revision.

The committee should, as the local administrative agency under the order, be authorized to recommend such condition, maturity, and grade regulations, as well as any other regulations and amendments thereto authorized by the order, as will tend to effectuate the declared policy of the act. It is the key to successful operation of the order that the committee should have such responsibility. The Secretary should look to the committee, as the agency reflecting the thinking of the industry, for its views and recommendations for promoting more orderly marketing conditions to the end that favorable returns would be received by growers for apples. The committee should, therefore, have authority to recommend such regulations as are authorized by the order whenever such regulations will, in the judgment of the committee, tend to promote more orderly marketing conditions and effectuate the declared policy of the act.

When the supply and demand situation changes so that the then current regulations do not appear to the committee to be carrying out the declared policy of the act, the committee should have the authority to recommend the amendment, modification, suspension, or termination of such regulations, as the situation warrants.

The proposal as set forth in the notice of hearing contained no specific date by which time the committee should make recommendations for regulations to the Secretary. A modification was offered which would require the committee, whenever the committee deems it advisable to regulate the handling of any variety or varieties of apples, to recommend such regulations to the Secretary on or before September 1 of each year. The harvesting of apples in the production area usually starts during the first half of September. In order for the growers and handlers to plan their harvesting and marketing operations in the most efficient manner, it is very necessary that they have the maximum amount of time for making such plans. Any regulations that the committee may recommend will have a direct and important bearing on the harvesting and marketing operations of all growers and handlers. Therefore, it will be of great assistance to them to know as early as possible what regulations are likely to be in effect. Since harvesting operations usually begin about the first or second week in September, September 1 generally should be a satisfactory date. By this time, the committee should have sufficient information to be reasonably able to predict the marketing policy for the season. The requirement that the committee recommend such regulations to the Secretary on or before September 1 of each year is not intended to and shall not preclude the committee from making recommendations to the Secretary relative to revised regulations whenever the committee feels that a revision of the regulations is justified. Moreover, it is impossible to foresee all the factors that might develop which the committee should consider in making recommendations for regulations. Therefore, the September 1 date is not to be considered a mandatory date if the committee has good and sufficient reasons to warrant its making recommendations a few days after September 1.

The order should authorize the Secretary, on the basis of committee recommendations or other available information, to issue various condition, maturity, and grade regulations which tend to help growers to obtain favorable returns through establishment of more orderly marketing conditions for apples. The Secretary should not be precluded from using such information as he may have, and which may or may not be available to the committee for consideration, in issuing such regulations, or amendments, or modifications thereof, as may be necessary to effectuate the declared policy of the act. Also, when he determines that any regulation does not tend to effectuate such policy, he should have authority to suspend or terminate the regulation, in accordance with the requirements of the act.

The condition, maturity, and grade of apples which are shipped at any particular time have a direct effect on returns to growers. It is a fact that poorer grades and off-condition lots of apples marketed return lower prices than do better grades and better condition fruit. A restriction, under the order, of the shipment of apples of low grade should result in more favorable returns for the better grades marketed by eliminating the price depressing effect of poor quality apples.

Handlers have shipped in fresh fruit channels apples of less desirable grades and lots containing off-condition fruit. Such apples may be sold only at discounts. The returns from such sales often do not cover the cash costs of harvesting and marketing. The sale of this type of fruit tends to depress the prices for the entire crop, for the particular year, below the level which otherwise would exist if only fruit of suitable condition, maturity, and grade, considering the supply and demand conditions for such fruit, is available in the markets.

The demand for particular grades and qualities of apples varies depending upon the supplies available, the grade and quality composition of such supplies, the availability of competing commodities, and other factors such as the trend and level of consumer income. The supply and demand situation for apples is subject to changes from time to time during a particular season, depending upon the varietal composition of the apples available at any given time as well as the overall volume and quality of the crop.

The grade and quality of apple crops and the available supply for the season as a whole and for any particular period during the season are important factors which must be considered in establishing regulations. As the volume of apples increases or remains large, there doubtless will be a sufficient volume of apples harvested in the production area so that the shipment of only the more desirable grades, maturities, and condition of any or all varieties could fill market demands. In view of the anticipated large increase in the volume of production, it is important that consumers be presented with apples which are of desirable condition, maturity, and grade. Therefore, the order should provide for the establishment by the Secretary of regulations by condition, maturity, and grade, based upon limitations recommended by the committee or other available information; and such regulations shall cover such period or periods as it is determined are warranted. In making its recommendations for such regulations, the committee should consider the hereinafter enumerated supply and demand factors. The committee, because of the knowledge and experience of its members, will be qualified to evaluate such factors and to develop economically sound and practical recommendations for regulations and to advise the Secretary with respect to the supply and demand conditions under which the apple crop will be marketed.

As heretofore stated, there are comparatively few varieties of apples of commercial importance now grown in the production area. Each variety has certain characteristics which serve to distinguish it from other varieties. The differences in characteristics, such as shape, color, or maturing characteristics, may make it desirable to apply different regulations to different varieties. For example, the requirements as to color for common Delicious may be less restrictive than those for Red Delicious as high color is a characteristic of the latter variety. Therefore, the order should provide authority for issuance of different regulations for different varieties.

It is not in the public interest to continue regulation when the season average price of apples exceeds parity. The committee should be authorized to recommend, and the Secretary to establish, such minimum standards of condition, maturity, and grade for any or all varieties of apples, and such grading and inspection requirements, during any and all periods when the season average price for apples may be above parity, as will effectuate such orderly marketing of apples as will be in the public interest. Some apples do not give consumer satisfaction regardless of the price level. Off-condition apples, such as are evidenced by decay, internal breakdown, or mealy, pithy, and rather dry flesh, as in an overripe apple, and sometimes low grades of certain varieties of apples are examples of the type of fruit that is wasteful and does not represent a value to the consumer and should not be shipped.

The shipment of apples lacking in the quality necessary to assure delivery in satisfactory condition would cause an adverse buyer reaction and would tend to demoralize the market for later shipments of any fruit. Such undesirable fruit has been marketed in the past and undoubtedly would again be marketed in the absence of regulation when the season average price is above parity. Hence, the discontinuance of regulations during seasons when the average price exceeds parity could adversely affect consumers and also result in dissipation of all benefits from the prior operation of the program.

Adverse growing conditions and weather factors may cause some fruit to develop abnormally, or so affect the quality that it would not be in the public interest to permit its shipment. The possible development depends upon the conditions in the particular season. It is necessary, therefore, that the provisions of the order contain the flexibility needed to reflect such conditions. Hence, the specific minimum standards of condition, maturity, and grade that may be made applicable during a particular year should be established by the Secretary upon the basis of the recommendations of the committee, made after review of the existing conditions that year, or other available information.

(e) The order should provide for the exemption from its provisions such handling of apples which is not necessary to regulate in order to effectuate the declared purposes of the act. Insofar as practicable, such exempted handling should be stated explicitly in the order so that handlers will have knowledge of such handling not subject to the provisions of the program.

Apples which are handled for consumption by charitable institutions, for distribution by relief agencies, or for commercial processing into products have little influence on the level of prices for apples sold for fresh consumption in the domestic and export markets.

A modification of the proposal contained in the notice of hearing was offered during the hearing. The modification proposed to regulate the handling of apples for processing to the full extent permitted under the act. The act specifically exempts apples for canning and freezing. Apples grown in the State of Washington which were used for all methods of processing during the seasons 1951 to 1956, inclusive, ranged from 9.9 percent to 12.5 percent of the total production. Evidence further shows that approximately 30 percent of the apples for processing is used for canning or freezing and is thus exempt from the provisions of the act. The remaining approximate 70 percent of the apples for processing is used for dehydration. Some of the evidence supporting this modification was persuasive. However, dehydrators compete with canners and if apples for dehydration were regulated and apples for canning were free of regulation the regulation would probably be ineffective and the present competitive position of the dryers and canners would be altered. The evidence does not show sufficient justification to warrant the regulation of apples for processing.

All apples for canning, freezing, dehydration, juice, or other methods, however, should be subject to rules, regulations, and safeguards issued by the committee, with the approval of the Secretary, which will prevent such apples from entering unauthorized channels of trade. Rules designed to assure that apples shipped for processing both within and outside of the State of Washington are actually processed could be formulated and issued. This would prevent the marketing of cull apples in fresh fruit channels which have been shipped for processing.

A modification was offered which would exempt individual gift packages as a special purpose shipment from the provisions of the order, except as hereinafter provided. Such gift packages may comprise a special package consisting of one layer of 12 to 18 apples, a half box, a box, or a specially designed chest. Each such package may contain one variety or a mixture of varieties of apples or a mixture of one or more varieties of apples and one or more varieties of pears. Gift packages may be sent out individually or they may be consolidated and may consist of an entire carload. Such consolidation is for the purpose of obtaining a lower freight rate. Gift packages in such shipments retain their individual identity the same as though each was shipped individually. Because of the high quality fruit which comprises such shipments, the extra burden that may be encountered if inspection and certification were required, and the possible expense and difficulty of collecting assessment fees, it may be desirable to exempt such shipments from any or all provisions of the order. However, the order upon which the hearing was held contains authority to do this and no further modification of it is necessary for that purpose.

It was also testified at the hearing that some apples from Hood River, and the Dalles, Oregon, and from points in Idaho and perhaps from Utah are brought into the production area for preparation for market. After such apples are prepared for market, they are either shipped to market or stored for later shipment. Such apples are normally kept separate and distinct from the apples which are grown in the production area and which are also prepared for market using the same facility as is used for the out-of-state apples. The Washington Apple Commission requires that such out-of-state apples be kept separate in order that a correct assessment may be made on all apples produced within the State of Washington. The definition of apples, as hereinafter set forth, specifies all varieties of apples grown in the production area, thus apples grown outside the production area do not come under the provisions of the order. However, the committee should have authority to issue such rules and regulations governing the handling of apples grown outside the production area as is necessary to prevent such apples from losing their identity after they are brought into the production area. If any handler fails to comply with such rules and regulations or for other reasons any such apples cannot be distinguished from those grown in the production area because of commingling or failure to keep them separate, such fruit must then meet any regulations in effect in the production area at the time of shipment.

It was testified at the hearing that the cold storage facilities throughout the production area are generally not adequate for the storage of the percentage of the crop which it is often thought desirable to store. In general, it was testified there is proportionately more storage space within District 3 than within Districts 1 or 2. Some varieties, sizes, and maturities are more suitable than others for extended periods of storage. Handlers in District 3 might be and often are handlers in Districts 1 and/or 2. There are also some purchases of apples within the production area, as for example, buying brokers, who purchase apples for sale later in the season. For these and other reasons, there has been established, over a period of years, the practice of moving apples from one district to another for storage. Such storage lots may include apples loose in packages and apples packed for market. During the time such apples are stored within the production area, they are not considered by the industry as having been placed in channels of trade. A modification was offered which would permit apples moving into and during periods of storage within the production area to be exempt from any or all regulations of the order. Under this modification, such stored apples would be subject to all the applicable provisions of the order when such apples are placed in trade channels. The order should, therefore, provide authority for the committee, with the approval of the Secretary, to issue rules and regulations to permit such movement of apples and to prevent such apples, upon release from such storages, from being handled except in conformity with the provisions of this part.

In addition, provision should be made to authorize the committee, with the approval of the Secretary, to exempt the handling of apples, in such specified small quantities, or types of shipments, or shipments made for such specified purposes as it is not necessary to regulate in order to effectuate the declared purposes of the act. Such authorization is necessary to enable the exemption of such handling which is found not feasible administratively to regulate and which does not materially affect marketing conditions in commercial channels. It would be impractical to set forth these exemptions in detail in the order, because to do so would destroy the flexibility which is necessary to reflect conditions affecting the handling of apples in the production area. Therefore, it should be discretionary with the committee, subject to the approval of the Secretary, whether small quantities or types of shipments, or shipments made for specified purposes, should be exempted from regulation, inspection, and assessments and the period

during which such exemptions should be in effect.

The allowance of any exemptions may be found to result in avenues of escape from regulation which, if they are found to exist, should be closed. Hence, the committee should be authorized to prescribe, with the approval of the Secretary, such rules, regulations, and safeguards as are necessary to prevent apples handled for any of the exempted purposes from entering into regulated channels of trade and thereby tend to defeat the objective of the program. For example, should it be found that a portion of the apples moving to commercial processors was being diverted to fresh fruit markets, it may be necessary for the committee to establish procedures to govern the movement of fruit for processing even though such apples do not have to comply with condition, maturity, and grade requirements. These procedures might include such requirements as filing applications for authorization to move apples in exempted channels and certification by the receiver that such apples would be used only for the purposes indicated, if it is found that such requirements are necessary to the effective enforcement of the program regulations.

(f) Provision should be made in the order requiring all apples handled, whenever regulations are effective, to be inspected by the Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation. Inspection and certification of all apples subject to regulation are essential to provide evidence of compliance with the regulations in effect. As the handler of a lot of apples is responsible for compliance with the regulations and is the only person with prior knowledge that the apples are to be handled, it is reasonable and necessary to require handlers to submit each lot of apples handled for inspection and certification. Handlers are familiar with the Federal-State Inspection Service and with the procedures for inspection and certification of fruits in the production area. The evidence of record indicates that only such service is in a position to perform the required inspection and certification.

It was testified at the hearing that such service is currently inspecting approximately 80 percent to 85 percent of the apples which are grown in the production area and marketed in fresh fruit channels of trade. Some expansion of the inspection service will be necessary to provide adequate inspection under the order. This service can be expanded sufficiently to accomplish this. The efficiency of the service should not be impaired because of the increased volume. Currently, new personnel are being hired, trained, supervised, and interwoven into the service each season. This is effectively done by conducting training classes at the start of the season, and then assigning each trainee to work with an experienced inspector to get additional on-the-job experience.

Inspection fees are the chief source of income for the Federal-State Inspection Service. For that reason, it is generally not the policy to maintain a year-round staff of the size required for peak load periods. Consequently, a slight delay may be encountered for some inspections of apples which are not intended to be shipped until some future date. The policy now in effect, and which will be continued, specifies that the inspection of lots going to cold storage shall be deferred whenever necessary in order to inspect lots being shipped.

Responsibility for having each lot of apples inspected should fall on each person who handles apples. In this way, not only will the handler who first ships or handles apples be responsible for meeting this requirement but also no subsequent handler may handle such apples unless a properly issued inspection certificate, valid pursuant to the terms of the order and the applicable regulations thereunder applies to the shipment. Each handler must bear responsibility for determining that each of his shipments of apples conforms to all requirements of the order if the regulations are to be of maximum benefit.

After the apples have been inspected and certified they are sometimes regraded, resorted, repackaged or otherwise further prepared for market. Such action causes such lots of apples to lose their identity as related to the inspection certificate which has previously been issued. Therefore, a new inspection and certification is necessary to establish the maturity, grade, and/or condition of such reconditioned lot of apples.

After the first handler of a lot of apples has had such lot inspected and certified as meeting all applicable regulations, subsequent handlers should, under ordinary circumstances, be permitted to handle such fruit without incurring the expense of another inspection. To facilitate the identification of lots that have been inspected prior to movement to transshipment points, all apples inspected at shipping points should be appropriately marked to so indicate unless such apples are being loaded for direct shipment to destinations outside the production area.

Some apples are packed prior to storage in refrigerated warehouses and other apples are stored and packed later. Very few apples are shipped at harvest time and most apples are stored before shipping. The marketing season for apples grown in the production area is long and large quantities are stored for several months. These storages are generally well managed and efficiently operated. However, apples tend to deteriorate when stored, especially for long periods of time.

An inspection certificate issued at the time apples are placed in storage or at other times might not represent the true condition of the apples at a later date. Hence, authority should be provided to establish a period of time prior to shipment during which the required inspection must be performed. This would mean that, even though a particular lot of apples has been inspected, if such inspection was performed prior to the period specified, an additional inspection would be required. Such a provision is necessary to prevent the handling of fruit which has been stored too long and deteriorated.

(g) The committee should have authority, with the approval of the Secretary, to require that handlers submit to the committee such reports and information as may be needed to perform such agency's functions under the order. Handlers have such necessary information in their possession, and the requirement that they furnish such information to the committee in the form of reports would not constitute an undue burden. Moreover, since handlers are the only persons subject to regulation under the program, they are the only persons who could be required to furnish such information. It is anticipated that most of the information needed by the committee in order to carry out its functions can be obtained from copies of the inspection certificates. However, it is difficult to anticipate every type of report or kind of information which the committee may find necessary in the conduct of its operations under the order. Therefore, the committee should have the authority to request, with approval of the Secretary, reports and information, as needed, of the type set forth in the order and at such times and in such manner as may be necessary.

The Secretary should retain the right to approve, change, or rescind any requests by the committee for information in order to protect handlers from unreasonable requests for reports. Any reports and records submitted for committee use by handlers should remain under protective classification and be disclosed to none other than the Secretary and persons authorized by the Secretary. Under certain circumstances, the release of information with respect to apple shipments may be helpful to the committee and the industry generally in planning for operations under the order during the marketing season. However, such reported information may not be released other than on a composite basis, and such release of information should disclose neither the identity of handlers nor their individual operations. This is necessary to prevent the disclosure of information which may affect detrimentally the trade or financial position, or the business operations of individual handlers.

Since it is possible that a question could arise with respect to compliance, handlers should be required to maintain for each fiscal period complete records on their receipts, handling, and dispositions of apples. Such records should be retained for not less than two succeeding years.

(h) Except as provided in the order, no handler should be permitted to handle apples, the handling of which is prohibited pursuant to the order; and no handler should be permitted to handle apples except in conformity with the order. If the program is to operate effectively, compliance therewith is essential; and, hence, no handler should be permitted to evade any of its provisions. Any such evasion on the part of even one handler could be demoralizing to the handlers who are in compliance and would tend, thereby, to impair the effective operation of the program.

(1) The provisions of §§ 963.62 to 963.71, as hereinafter set forth, are similar to those which are included in other marketing agreements and orders now operating. The provisions of §§ 963.72 to 963.74, as hereinafter set forth, also are included in other marketing agreements now operating. All such provisions are incidental to, and not inconsistent with, the act and are necessary to effectuate the other provisions of the recommended marketing agreement and order and to effectuate the declared policy of the act. Testimony at the hearing supports the inclusion of each such provision.

Those provisions which are applicable to both the proposed marketing agreement and the proposed order, identified by section number and heading, are as follows: § 963.62 *Right of the Secretary;* § 963.63 *Effective time;* § 963.64 *Termination;* § 963.65 *Proceedings after termination;* § 963.66 *Effect of termination or amendment;* § 963.67 *Duration of immunities;* § 963.68 *Agents;* § 963.69 *Derogation;* § 963.70 *Personal liability;* and § 963.71 *Separability.*

Those provisions which are applicable to the proposed marketing agreement only, identified by section number and heading, are as follows: § 963.72 *Counterparts;* § 963.73 *Additional parties;* and § 963.74 *Order with marketing agreement.*

Rulings on proposed findings and conclusions. June 2, 1958, was set by the Presiding Officer at the hearing as the latest date by which briefs would have to be filed by interested parties with respect to facts presented in evidence at the hearing and the conclusions which should be drawn therefrom. No such brief was filed.

General findings. Upon the basis of the evidence introduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said marketing agreement and order regulate the handling of apples grown in the production area in same manner as, and are applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of apples grown in the production area which make necessary different terms and provisions applicable to different parts of such area;

(5) All handling of apples grown in the production area as defined in said marketing agreement and order is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended marketing agreement and order. The following marketing agreement and order [1] are recommended as the detailed means by which the foregoing conclusions may be carried out:

DEFINITIONS

§ 963.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 963.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 963.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 963.4 *Production area.* "Production area" shall include in the State of Washington the counties of Okanogan, Chelan, Kittitas, Yakima, and Skamania and all the counties east thereof.

§ 963.5 *Apples.* "Apples" means all varieties of apples grown in the production area, classified botanically as Malus sylvestris.

§ 963.6 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Malus sylvestris.

§ 963.7 *Fiscal period.* "Fiscal period" is synonymous with fiscal year and means the 12-month period ending on July 31 of each year or such other period that may be approved by the Secretary pursuant to recommendations by the committee.

§ 963.8 *Committee.* "Committee" means the Apple Quality Control Committee established pursuant to § 963.20.

§ 963.9 *Grade.* "Grade" means any one of the officially established grades of apples as defined and set forth in:

(a) Sections 51.300 to 51.327 of this title (21 F. R. 5084), or amendments thereto, or modifications thereof, or variations based thereon;

(b) Standards for Apples issued by the State of Washington or amendments thereto, or modifications thereof, or variations based thereon.

§ 963.10 *Condition.* "Condition" means any of the officially established standards relative to condition factors of apples as defined and set forth in:

(a) Section 51.317 of this title (21 F. R. 5084), or amendments thereto, or modifications thereof, or variations based thereon;

(b) Condition Standards for Apples issued by the State of Washington or amendments thereto, or modifications thereof, or variations based thereon.

[1] The provisions identified with asterisks (***) apply only to the proposed marketing agreement and not to the proposed order.

§ 963.11 *Grower.* "Grower" is synonymous with producer and means any person who produces apples for market and who has a proprietary interest therein: *Provided,* That, the term grower, as used in §§ 963.20, 963.22, and 963.23, shall not include any person who is a handler unless such person produced at least 51 percent of the apples he handled during the previous fiscal period.

§ 963.12 *Handler.* "Handler" is synonymous with shipper and means any person (except a common or contract carrier transporting apples owned by another person) who handles apples.

§ 963.13 *Handle.* "Handle" and "ship" are synonymous and mean to sell, consign, deliver, or transport apples or cause the sale, consignment, delivery, or transportation of apples within the production area or from any point within the production area to any point outside thereof: *Provided,* That the term "Handle" shall not include the transportation within the production area of apples from the orchard where grown to a packing facility located within such area for preparation for market, or the delivery or sale of such apples to such packing facility for such preparation.

§ 963.14 *District.* "District" means the applicable one of the following described subdivisions of the production area, or such other subdivisions as may be prescribed pursuant to § 963.31 (m):

(a) "District 1" shall include the County of Okanogan and that part of Douglas County included within Horticultural District No. 11, Washington State Department of Agriculture.

(b) "District 2" shall include the counties of Chelan, Grant, and that part of Douglas County included within Horticultural District No. 4, Washington State Department of Agriculture.

(c) "District 3" shall include the Counties of Yakima, Kittitas, Skemania, Klickitat, and Benton.

(d) "District 4" shall include all other counties in the production area not included in Districts 1, 2, or 3.

ADMINISTRATIVE BODY

§ 963.20 *Establishment and membership.* There is hereby established an Apple Quality Control Committee consisting of 17 members, each of whom shall have an alternate who shall have the same qualifications as the member for whom he is an alternate. Twelve of the members and their respective alternates shall be growers or officers or employees of corporate growers. Five of the members and their respective alternates shall be handlers, or officers or employees of handlers. Two of the grower members and their respective alternates shall be producers of apples in District 1, four of the grower members and their respective alternates shall be producers of apples in District 2, five of the grower members and their respective alternates shall be producers of apples in District 3, and one of the grower members and his respective alternate shall be a producer of apples in District 4. One of the handler members and his respective alternate shall be a handler of apples in District 1, two of the handler members and their

respective alternates shall be handlers of apples in District 2, and two of the handler members and their respective alternates shall be handlers of apples in District 3.

§ 963.21 *Term of office.* The term of office of each member and alternate member of the committee shall be for two years, beginning August 1 and ending July 31; or such other dates that may be approved by the Secretary pursuant to recommendations by the committee: *Provided,* That the term of office of six of the initial grower members and alternates and two of the initial handler members and alternates shall end on July 31, 1959. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified.

§ 963.22 *Nomination.*—(a) *Initial members.* Nominations for each of the twelve initial grower members and five initial handler members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by growers and handlers. Such nominations may be made by means of group meetings of the growers and handlers concerned in each district. Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in § 963.20.

(b) *Successor members.* (1) The names of nominees for successor members and alternates of the committee shall be submitted to the Secretary by the committee no later than June 1 of each year, or by such other date as may be established by the committee and approved by the Secretary. The committee shall conduct elections for the purpose of designating nominees. Such elections may be either by meetings of the growers and handlers or by mail balloting or a combination of both. The committee may establish rules and regulations as necessary to govern the conduct of nomination meetings and mail balloting. The committee shall determine and announce the method of election to be followed in each district.

(2) In the designation of nominees, only growers, including duly authorized officers or employees of corporate growers, may participate in the election of nominees for grower member and grower alternate positions. Only handlers, including duly authorized officers or employees of handlers, may participate in the election of nominees for handler member and handler alternate positions. Each grower shall be entitled to cast but one vote for each grower nominee and one vote for each grower alternate nominee to be designated from the district in which he is a producer. Each handler shall be entitled to cast but one vote for each handler nominee and one vote for each handler alternate nominee to be designated from the district in which he is a handler. No grower or handler, as the case may be, may vote in more than one district in any one fiscal year. If a person is qualified both as grower and as a handler, he may vote as either a grower or as a handler but not as both.

(3) If nomination meetings are held, the committee shall publicly announce the time and place of each such meeting. At each such meeting a chairman and a secretary shall be selected by the growers or handlers eligible to participate therein. Only growers and handlers present at such meetings shall be eligible to participate in the election of the nominees to be designated at such meeting. The chairman shall announce at the meeting the number of votes cast for each person for member or alternate and shall promptly submit to the committee a complete report concerning such meeting.

(4) If nominees are designated by mail balloting, the committee shall publicly announce the period within which the names of candidates shall be filed with the committee and the number of endorsements necessary for the name of a candidate to be placed on the ballot. At the option of the committee, candidates may be also designated at meetings of growers and handlers. The committee shall publicly announce the period of balloting. Ballots shall be made available to growers and handlers either by mail or at designated places within the district. The ballot shall include, in addition to the names of the candidates, explicit directions for marking and mailing.

(5) At the conclusion of the voting, whether at a meeting or meetings or by mail balloting, the committee shall promptly submit a report thereof to the Secretary.

§ 963.23 *Selection.* From the nominations made pursuant to § 963.22, or from other qualified persons, the Secretary shall select the twelve grower members of the committee, the five handler members of the committee, and an alternate for each such member.

§ 963.24 *Failure to nominate.* If nominations are not made within the time and in the manner prescribed in § 963.22, the Secretary may, without regard to nominations, select the members and alternate members of the committee on the basis of the representation provided for in § 963.20.

§ 963.25 *Acceptance.* Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary promptly after being notified of such selection.

§ 963.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any member or alternate member of the committee, a successor for the unexpired term of such member or alternate member of the committee shall be nominated and selected in the manner specified in §§ 963.22 and 963.23. If the names of nominees to fill any such vacancy are not made available to the Secretary within a reasonable time after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of representation provided for in § 963.20.

§ 963.27 *Alternate members.* An alternate member of the committee, during the absence or at the request of the member for whom he is an alternate, shall act in the place and stead of such member and perform such other duties as assigned. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for such member is selected and has qualified. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or the committee may designate any other alternate member from the same district and group (handler or grower) to serve in such member's place and stead.

§ 963.30 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 963.31 *Duties.* The committee shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the compensation and to define the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such fiscal period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a competent accountant at least once each fiscal year and at such times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to apples;

(i) To submit to the Secretary such available information as he may request;

(j) To notify producers and handlers of all meetings of the committee to consider recommendations for regulations;

(k) To give the Secretary the same notice of meetings of the committee as is given to its members;

(l) To investigate compliance with the provisions of this part;

(m) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee; *Provided:* That any such changes shall reflect, insofar as practicable, shifts in apple production within the districts and the production area;

(n) To select such persons as may be necessary to serve as advisers or counselors to the committee, including, but not limited to, representatives from the Washington State Department of Agriculture, Washington State College Extension Service, and the Washington State Apple Commission.

§ 963.32 *Procedure.* (a) Fourteen members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring votes of at least eleven members. At any assembled meeting, all votes shall be cast in person.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: *Provided,* That such meetings shall be subject to the establishment of communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.

(c) The committee may vote by telephone, telegraph, or other means of communication, and any votes so cast shall be confirmed promptly in writing.

§ 963.33 *Expenses and compensation.* The members of the committee, and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10.00 per day or portion thereof spent in performing such duties: *Provided,* That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 963.34 *Annual report.* The committee shall, as soon as practicable after the close of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; and (b) any recommendations for changes in the program.

EXPENSES AND ASSESSMENT

§ 963.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in § 963.41.

§ 963.41 *Assessments.* (a) As his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, each person who first handles apples during such period shall pay to the committee, upon demand, assessments on all apples so handled. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during the fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expense. Such rate of assessment shall not exceed one-fourth cent ($0.0025) per bushel in any fiscal year. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all apples handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance and may also borrow money for such purpose.

§ 963.42 *Accounting.* (a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in subparagraph (2) of this section, it shall be refunded proportionately to the persons from whom it was collected: *Provided,* That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: *Provided,* That funds already in the reserve do not equal approximately one fiscal period's expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal year when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: *Provided,* That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

REGULATIONS

§ 963.50 *Marketing policy.* (a) Each season prior to making any recommendations pursuant to § 963.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

(1) The estimated total production of apples within the production area;

(2) The expected general quality and size of apples in the production area and in other areas;

(3) The expected demand conditions for apples in different market outlets;

(4) The expected shipments of apples produced in the production area and in areas outside the production area;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) Other factors having a bearing on the marketing of apples; and

(8) The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for apples, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each market-

ing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 963.51 *Recommendations for regulation.* (a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of apples in the manner provided in § 963.52, the committee shall recommend such regulations to the Secretary. To the extent practicable, such recommendations shall be made on or before September 1 of each year.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for apples during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 963.52 *Issuance of regulations.* (a) The Secretary shall regulate, in the manner specified in this section, the handling of apples whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Establish standards of condition, maturity, and grade for any or all varieties of apples during any period or periods and may prohibit shipment of such lots of apples which fail to meet such standards: *Provided*, That nothing in this section shall be construed to authorize the establishment of shipping quotas, embargoes, or any other limitation on the shipment of any lots of apples meeting such condition, maturity, or grade standards;

(2) Regulate the shipment of apples by establishing minimum standards of condition, maturity, and grade for any or all varieties of apples during any period or periods when season average prices are expected to exceed the parity level.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 963.53 *Modification, suspension, or termination of regulations.* (a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 963.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of apples in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 963.54 *Special purpose shipments.* (a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 963.41, 963.52, 963.53, and 963.55, and the regulations issued thereunder, handle apples (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) (1) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§ 963.41, 963.52, 963.53, or 963.55, the handling of apples in such minimum quantities, or types of shipments (including individual gift packages), or for such specified purposes as may be prescribed.

(2) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent apples handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle apples pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the apples will not be used for any purpose not authorized by this section.

(d) The committee may, with the approval of the Secretary, designate storage warehouses within the production area, and exempt, from any or all restrictions under this part, the handling of apples to such storages: *Provided*, That the committee, with the approval of the Secretary, shall adopt such rules and regulations as may be necessary to prevent any apples so stored from being handled, upon removal from storage, except in conformity with the provisions of this part.

§ 963.55 *Inspection and certification.* (a) Whenever the handling of any variety of apples is regulated pursuant to § 963.52 or § 963.53, each handler who handles apples shall, prior thereto, cause such apples to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: *Provided*, That, except as otherwise provided in this section, this requirement shall not be applicable to apples that have previously been inspected and certified.

(b) Inspection and certification shall be required for apples which previously have been so inspected and certified if such apples have been regraded, resorted, repackaged, or in any other way further prepared for market.

(c) The commitee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.

(d) Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such apples.

REPORTS

§ 963.60 *Reports.* (a) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties and functions under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of apples received by such handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such apples; and (4) the destination of each shipment of such apples.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler's identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the apples received, and of apples disposed of, by such handler as may be necessary to verify reports pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 963.61 *Compliance.* Except as provided in this part, no person shall handle apples, the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle apples except in conformity with the provisions of this part.

§ 963.62 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 963.63 *Effective time.* The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare above his signature and shall continue in force until terminated in one of the ways specified in § 963.64.

§ 963.64 *Termination.* (a) The Secretary may at any time terminate the provisions of this part by giving at least one day's notice by means of a press release or in any other manner in which he may determine.

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production of apples for market: *Provided*, That such majority has produced for market during such period more than 50 percent of the volume of apples produced for market.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 963.65 *Proceedings after termination.* (a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 963.66 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any right or remedies of the Secretary or of any other person with respect to any such violation.

§ 963.67 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon the termination of this part, except with respect to acts done under and during the existence of this part.

§ 963.68 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 963.69 *Derogation.* Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 963.70 *Personal liability.* No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other act, either of commission, or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 963.71 *Separability.* If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or things shall not be affected thereby.

§ 963.72 *Counterparts.* This agreement may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original. • • •

§ 963.73 *Additional parties.* After the effective date hereof, any handler may become a party to this agreement if a counterpart is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party. • • •

§ 963.74 *Order with marketing agreement.* Each signatory handler hereby requests the Secretary to issue, pursuant to the act, an order providing for the regulating of the handling of apples in the same manner as is provided for in this agreement. • • •

Dated: July 11, 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Service.

2.253 Commitment of insane Indians.

PART 1—GENERAL

SEC. 1.1 *Appeals.* Any action taken by any Superintendent or officer in charge pursuant to this order shall be subject to the right of appeal. An appeal may be taken from the decision of such Superintendent or officer in charge to the Commissioner of Indian Affairs, pursuant to section 1 of Order 551, as amended, of the Bureau of Indian Affairs. Any action taken by the Com-

missioner of Indian Affairs pursuant to this order shall be subject to the right of appeal to the Secretary of the Interior pursuant to section 1 (a) of Order No. 2508, as amended, of the Secretary of the Interior.

PART 2—AUTHORITY OF SUPERINTENDENT OR OFFICER IN CHARGE OF CHEROKEE AGENCY

Subject to the provisions of Part 1, the Superintendent or officer in charge of the Cherokee Agency may, under the direction and supervision of the Commissioner of Indian Affairs, exercise the authority of the Commissioner of Indian Affairs as indicated in this part.

FUNCTIONS RELATING TO LANDS AND MINERALS

SEC. 2.12 *Leases and permits.* The approval of leases and permits, pursuant to the provisions of 25 CFR Part 131, of (1) tribal lands and restricted lands owned by individual Indians and associations of Indians; and (2) lands acquired by the United States for Indian school or other administrative purposes or transferred to or placed under the administration of the Bureau of Indian Affairs. This authority does not extend to the waiver of requirements for advertising of leases or permits or to the waiver of acreage limitations on farm and farm pasture lands.

SEC. 2.14 *Tribal fees.* The approval of fees fixed by tribes when performing clerical or ministerial work in connection with the grants of leases and permits pursuant to 25 CFR Part 131.

SEC. 2.16 *Mineral leases and permits.* (a) The approval of coal, sand, gravel, pumice, and building stone leases and permits of tribal and trust or restricted individually owned lands.

(b) The authority delegated in this section does not include:

(1) Approval of leases on lands purchased or reserved for agency or school purposes.

(2) Approval of instruments providing for the payment of overriding royalty.

(3) Assignments of separate horizons or strata of the subsurfaces.

SEC. 2.18 *Releases of mortgages.* The approval of releases of mortgages given as security for loans made from the restricted funds of individual Indians, upon proof of payment of the loan.

SEC. 2.19 *Rights-of-way.* The approval of rights-of-way for oil and gas pipelines, telephone and telegraph lines, and public highways, pursuant to the provisions of 25 CFR Part 161. This authority extends to and includes the issuance of advance authority for preliminary surveys and permission for beginning construction prior to the official approval of the right-of-way.

SEC. 2.20 *Archaeological permits.* The approval of permits for the excavation of ruins and archaeological sites and the gathering of objects of antiquity on Indian reservations pursuant to 25 CFR Part 132.

FUNCTIONS RELATING TO TRADING WITH INDIANS

SEC. 2.170 *Traders' licenses.* The issuance of licenses to traders with the Indian tribes and the renewal and revocation of licenses pursuant to the provisions of 25 CFR Part 251.

FUNCTIONS RELATING TO WELFARE MATTERS

SEC. 2.253 *Commitment of insane Indians.* The commitment of insane Indians to State hospitals or institutions, pursuant to the provisions of 25 CFR Part 253.

PART 3—AUTHORITY OF SUPERINTENDENT OR OFFICER IN CHARGE OF SEMINOLE AGENCY

Subject to the provisions of Part 1, the Superintendent or officer in charge of the Seminole Agency may, under the direction and supervision of the Commissioner of Indian Affairs, exercise the authority of the Commissioner of Indian Affairs as indicated in this part.

FUNCTIONS RELATING TO LANDS AND MINERALS

SEC. 2.12 *Leases and permits.* The approval of leases and permits of tribal and individually owned trust or restricted lands for farming, farm pasture, or business purposes, pursuant to the provisions of 25 CFR Part 131. This authority does not extend to the waiver of requirements for advertising of leases or permits or to the waiver of acreage limitations of farm and farm pasture lands.

SEC. 2.14 *Tribal fees.* The approval of fees fixed by tribes when performing clerical or ministeral work in connection with the grants of leases and permits pursuant to 25 CFR Part 131.

SEC. 2.16 *Mineral leases and permits.* (a) The approval of coal, sand, gravel, pumice, and building stone leases and permits of tribal and trust or restricted individually owned lands.

(b) The authority delegated in this section does not include:

(1) Approval of leases on lands purchased or reserved for agency or school purposes.

(2) Approval of instruments providing for the payment of overriding royalty.

(3) Assignments of separate horizons or strata of the subsurface.

SEC. 2.19 *Rights-of-way.* The approval of rights-of-way for oil and gas pipelines, telephone and telegraph lines, and public highways, pursuant to the provisions of 25 CFR Part 161. This authority extends to and includes the issuance of advance authority for preliminary surveys and permission for beginning construction prior to the official approval of the right-of-way.

SEC. 2.24 *Archaeological permits.* The approval of permits for the excavation of ruins and archaeological sites and the gathering of objects of antiquity on Indian reservations pursuant to 25 CFR Part 132.

FUNCTIONS RELATING TO WELFARE MATTERS

SEC. 2.253 *Commitment of insane Indians.* The commitment of insane Indians to State hospitals or institutions pursuant to the provisions of 25 CFR Part 253.

Bureau of Land Management

[Misc. 78296; Alabama]

ALABAMA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JULY 10, 1958.

Pursuant to a determination of the Federal Power Commission issued April 18, 1958 as modified by a determination issued May 5, 1958, Docket No. DA-11—Alabama and in accordance with Order No. 541, section 1.5 (d) Part I and 2.9 (a) Part II of the Director of the Bureau of Land Management, approved April 21, 1954, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn or reserved for power purposes in Power Site Reserve Project No. 82, of November 3, 1920, are hereby restored to disposition under the public land laws, subject to the provisions of section 24, of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and subject to the condition that in the event the said tract is required for additional power development, any improvement or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development at no cost to the United States, its permittee or licensees; and subject to the proviso that such disposition shall be subject to the

prior right of the Alabama Power Company, licensee for Project No. 82, its successors and assigns, to use the lands for project purposes as provided by the license for Project No. 82:

ST. STEPHENS MERIDIAN, ALABAMA

T. 22 N., R. 16 E.,
Sec. 5, Lots 1, 2, 3, 4 and 5;
Sec. 8, Lot 1.
Being those portions of said tract lying below the 360-foot contour.

The areas described embraces 19.37 acres of public land.

The lots comprise 5 small islands in the Coosa River, Coosa County, situated some 10 miles upstream from Mitchell Dam and a little more than 3 miles below Lay Dam, both of which are licensed projects of the Alabama Power Company. Lots 1, 2 and 5 Sec. 5 and Lot 1 Sec. 8 were originally one complete island, being separated into three small islands after construction of the Mitchell Dam, and now known as Foshee Islands. The average elevation of the islands ranges from 12 to 14 feet above the water level of the river. They are rocky in character with a shallow gravel clay soil. The islands support a good growth of pine, oak, hickory, elm and sweet gum trees, largely merchantable in character.

No applications for the land will be allowed under any of the nonmineral public land laws unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

The land above-described will be subject to application by the State of Alabama for a period of 90 days from the date of publication of this order, for right-of-way for public highways or as a source of material for construction and maintenance of such highways, in accordance with and subject to the provisions of section 24 of the Federal Power Act, as amended (16 U. S. C. 1946 ed., Supp. IV, 818).

Subject to any existing rights and the requirements of applicable law, the land described is hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager, mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraph:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the application and claims mentioned in this paragraph.

(2) All valid applications under the Homestead and Small Tract laws by qualified veterans of World War II or the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, presented prior to 10:00 a. m., on August 15, 1958, will be considered as simultaneously filed at that hour. Rights under such preference rights applications filed after that hour and before 10:00 a. m., on November 14, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2), above, presented prior to 10:00 a. m., on November 14, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, according to the provisions of the act of August 11, 1955 (69 Stat. 688).

Persons claiming veterans' preference rights under paragraph a (2), above, must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries regarding the lands shall be addressed to the Manager, Eastern States Land Office, Bureau of Land Management, Washington 25, D. C.

H. K. SCHOLL,
Manager.

NEVADA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 8, 1958.

The Bureau of Sport Fisheries and Wildlife has filed an application, Serial No. Nevada 045695, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining but not the mineral leasing laws. The applicant desires the land as an addition to the Ruby Lake National Wildlife Refuge, established by Executive Order 7923 of July 2, 1938, and Proclamation 2416 of July 25, 1940.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 1551, Reno, Nevada.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN, NEVADA

T. 27 N., R. 57 E.,
Sec. 25, E½SE¼, unsurveyed.

The area contains 80 acres more or less.

W. REED ROBERTS,
Acting State Supervisor.

[F. R. Doc. 58-5407; Filed, July 15, 1958; 8:46 a. m.]

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 8, 1958.

The Civil Aeronautics Administration has filed an application, Serial No. Idaho 09315, for the withdrawal of the lands described below, from all forms of appropriation under the Public Land Laws, General Mining Laws, and Mineral Leasing Laws. Grazing outside of the fenced area will be permitted. The applicant desires the land for a VHF Remote Transmitter-Receiver Site.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 14 S., R. 34 E.,
Sec. 14, SW¼SE¼SW¼.

This area includes 10 acres east of Holbrook, Oneida County, Idaho.

DONALD I. BAILEY,
Acting State Supervisor.

[F. R. Doc. 58-5408; Filed, July 15, 1958; 8:47 a. m.]

Office of the Secretary

VOLUNTARY OIL IMPORT PROGRAM

UNFINISHED GASOLINE AND OTHER UNFINISHED OILS

SECTION 1. *Recommendations of President's Special Committee.* On June 4, 1958, the President approved the recommendations made by the Special Committee to Investigate Crude Oil Imports in its Report on Imports of Petro-

leum Products. The President's Special Committee concluded "that if commercial imports of unfinished gasoline and other unfinished oils increase beyond the currently prevailing level, such imports may constitute a threat to the voluntary program" and recommended "that importing companies voluntarily limit their imports of such unfinished gasoline and other unfinished oils to this level during the remainder of the calendar year 1958." The Administrator, Voluntary Oil Import Program, was instructed to "promulgate administrative procedures as required, governing the importation of such unfinished gasoline and other unfinished oils."

SEC. 2. *Request to importing companies.* (a) For the purposes of this aspect of the Voluntary Oil Import Program, the quantities of unfinished gasoline and other unfinished oils, expressed in average barrels per day, which were imported during the months of May and June, 1958, are established as the currently prevailing level.

(b) Except as provided in paragraph (c) of this section, each importing company is requested to limit its imports of unfinished gasoline and other unfinished oils during the second half of the calendar year 1958 to the company's currently prevailing level as established in paragraph (a) of this section.

(c) No request is made of an importing company to limit its imports of asphaltic residuum during the period prior to September 16, 1958, to the company's currently prevailing level as established in paragraph (a) of this section. However, each importing company is requested to limit its imports of asphaltic residuum after September 15, 1958, to the company's prevailing level as established in paragraph (a) of this section.

SEC. 3. *Definitions.* For the purposes of this aspect of the Voluntary Oil Import Program:

(a) *Imports.* The word "imports" refers to importation into, or withdrawal from bond for use in, the continental United States.

(b) *Unfinished gasoline and other unfinished oils.*[1] All gasoline and other petroleum oils, other than crude oil, which are further distilled or processed, including but not limited to cracking, reforming, or treating, for the production of finished petroleum products are unfinished gasoline and other unfinished oils. Petroleum oils, except crude oil, mechanically blended are considered finished oils.

(c) *Asphaltic residuum.*[1] Asphaltic residuum means those petroleum residues of the following characteristics:

(i) Gravity API—not lighter than 14.9°.

(ii) Asphalt content—not less than 65 percent of asphalt having a penetration at 25° C. (77° F.) under a load of 100 grams applied for 5 seconds of not more than 100.

Nothing shall be considered as asphaltic residuum which is processed in a manner which subjects it to destructive distillation, cracking, vis breaking, or hydrogenation. To be considered asphaltic residuum the asphalt derived from the asphaltic residuum must have been or will be sold as paving asphalt, binders, coatings, or waterproofing.

SEC. 4. *Reports by importing companies.* Each company which imported unfinished gasoline and other unfinished oils during the months of May or June 1958 is requested to file reports on form Budget Bureau No. 42–R1307.1 with the Administrator, Voluntary Oil Import Program, Department of the Interior, Washington 25, D. C. Copies of the form will be mailed upon application to the Administrator.[2]

M. V. CARSON, JR.,
Administrator,
Voluntary Oil Import Program.

JULY 14, 1958.

[F. R. Doc. 58-5466; Filed, July 14, 1958; 2:19 p. m.]

[1] These definitions are not those used in Schedule A—Statistical Classification of Commodities Imported Into the United States, Bureau of the Census.

[2] The reporting requirements of section 4 have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

[Case No. 249]

KASTENHUBER & LEHRFELD, INC. ET AL.

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of Kastenhuber & Lehrfeld, Inc., 21 West 46th Street, New York, New York; John Woodward, 21 West 46th Street, New York, New York; Oversea Trading Co., (H. K.) Ltd., 806 Bank of East Asia Building, Hong Kong; C. S. Tsong (Tsong Chen Sang), Managing Director, 806 Bank of East Asia Building, Hong Kong; respondents; Case No. 249.

Kastenhuber & Lehrfeld, Inc. and John Woodward, its employee in charge of exports, both of 21 West 46th Street, New York City, and Oversea Trading Co. (H. K.) Ltd. and C. S. Tsong (Tsong Chen Sang), its managing director, both of 806 Bank of East Asia Building, Hong Kong, were charged by the Agent-in-Charge, Investigation Staff, Bureau of Foreign Commerce, U. S. Department of Commerce, with having violated the Export Control Act of 1949, as amended, in that, as alleged, Kastenhuber & Lehrfeld, Inc. by John Woodward, with knowledge that Oversea Trading Co. (H. K.) Ltd., whose business was being conducted by C. S. Tsong, intended to transship to Communist China ball point pen materials exported from the United States, shipped such materials to Oversea, which materials Oversea and Tsong thereafter transshipped to Communist China in violation of the export licenses under which they had been exported from the United States.

All parties were duly served with the charging letter and Oversea and Tsong answered the same, denying knowledge of United States export regulations, claiming that their intentions with respect to materials exported to them were known to Kastenhuber & Lehrfeld, Inc., and that they had sold these materials to manufacturers in Hong Kong. Kastenhuber & Lehrfeld, Inc. and John Woodward at first answered the charging letter but thereafter undertook negotiations for the submission of a consent proposal in accordance with § 382.10 of the regulations and, a consent disposition ultimately having been agreed upon, the same was submitted to the Compliance Commissioner with the agreement of the Acting Director, Investigation Staff. In due course, after examining into the facts, the Compliance Commissioner recommended that the consent proposal be accepted. The Compliance Commissioner's recommendation that the proposal be approved is hereby accepted.

The case against Oversea and Tsong was referred to the Compliance Commissioner, who has reviewed the evidence and the answer of said respondents and has submitted to the undersigned his report and recommendation, which, upon the facts as hereinafter found, appears to be fair and just and is therefore adopted.

Now after considering the entire record, including the report and recommendations of the Compliance Commissioner, I hereby make the following findings of fact:

1. At all times hereinafter mentioned respondent Kastenhuber & Lehrfeld, Inc. was engaged in the business of smelting and refining precious metals in the City of New York and, in connection with said business, was engaged also in the exportation of metals and ball pen point materials. Its exportations were under the supervision of and were conducted by respondent John Woodward. Wherever the name Kastenhuber is hereinafter used such use will include both Kastenhuber & Lehrfeld, Inc. and Woodward.

2. At all times hereinafter mentioned Oversea Trading Co. (H. K.) Ltd. was engaged in the import business in Hong Kong and C. S. Tsong (Tsong Chen Sang), its manager or director, conducted said business on its behalf. Wherever reference is hereinafter made to Oversea such reference will include both Oversea Trading Co. (H. K.) Ltd. and Tsong.

3. At all times hereinafter mentioned Kastenhuber well knew that ball pen point materials exported from the United States to Hong Kong were prohibited from being shipped out of Hong Kong to Communist China without express approval by the Bureau of Foreign Commerce of the United States Department of Commerce.

4. As long ago as the thirty-first day of December 1953 Oversea knew that ball pen point materials exported from the United States to Hong Kong pursuant to validated license granted by the Bureau of Foreign Commerce were prohibited from being reexported from Hong Kong to other destinations and at all times hereinafter mentioned the said respondents Oversea well knew that no goods exported from the United States to Hong Kong might be transshipped out of Hong Kong to Communist China without prior approval from the Bureau of Foreign Commerce.

5. On or about the fifth day of March 1955 the respondent Kastenhuber & Lehrfeld, Inc., and the Oversea respondents entered into an agreement under and pursuant to which Oversea became the sole selling agent for Kastenhuber in Hong Kong and Macao and said agreement provided further that at such time as restrictions imposed by the United States against trade with Communist China would be removed said agreement would be extended to and include that country.

6. At the time of the making of said agreement all the respondents knew that it was the intention of Oversea, if and when it obtained ball pen point materials from Kastenhuber, to transship some or all of said materials to purchasers in Communist China.

7. Having such knowledge, and for the purpose of supplying Kastenhuber with documentation to support applications it was required to make for validated export licenses to export ball pen point materials to Hong Kong, Oversea executed a series of purchase notes or orders for ball pen point materials. In each of said notes or orders it represented that the ball pen point materials ordered were "For resale to pen manufacturers in Hong Kong for use in manufacturing of fountain pens, none of this material will be reexported. We will promptly notify you of any change of our intentions." In addition, at the same time that it supplied Kastenhuber with such purchase notes or orders, it supplied Kastenhuber with an import license issued by the Hong Kong Government, in which import license it was represented by Oversea that the goods which were the subject matter of the particular order which it accompanied were for "Local Consumption" (in Hong Kong) or were "for manufacturing purposes in Hong Kong."

8. Kastenhuber thereupon submitted to the Bureau of Foreign Commerce applications for validated export licenses to export ball pen point materials to Oversea in Hong Kong, one such application being submitted for each of the aforementioned purchase notes, and in each of the said applications Kastenhuber did represent and state to the Bureau of Foreign Commerce that Oversea was the intermediate and ultimate consignee and the purchaser and that Hong Kong was the country of ultimate destination, and it further stated and represented that the said materials were for resale in Hong Kong to manufacturers of fountain pens. Attached to each of the said applications by Kastenhuber, and in support thereof, were the purchase notes and import licenses received by it from Oversea.

9. In reliance on the said applications, the statements and representations therein contained, and the supporting documents, the Bureau of Foreign Commerce issued seven validated export licenses authorizing the exportation by Kastenhuber to Oversea of 1,300 ounces of ball pen point materials having an aggregate value of $143,580. (One of these licenses was cancelled subsequent to the commencement of the investigation herein.)

10. Kastenhuber, from time to time, during 1955 and 1956, following receipt of said validated licenses, exported to Oversea an aggregate of 1,200 ounces of ball pen point materials having a value of $128,580. In connection with each exportation so made, it utilized the validated license applicable thereto and executed or caused to be executed with respect to each such exportation one or more air waybills and one or more export declarations in which it certified and represented, or caused to be certified and represented, that Oversea was the ultimate purchaser and consignee and that the ultimate destination of the goods so being exported was Hong Kong.

11. With respect to each of the shipments so made by Kastenhuber, in addition to the air waybills issued in connection therewith, Kastenhuber issued bills or commercial invoices for the materials so being shipped and on none of said bills or commercial invoices or air waybills did Kastenhuber set forth the destination control notice which it was required to endorse thereon by § 379.10 (c) of the Export Regulations.

12. Following receipt of the ball pen point materials so exported from the United States by Kastenhuber to Oversea and with the knowledge as aforesaid that such materials were prohibited from being reexported or transshipped from Hong Kong to Communist China, Oversea, without disclosing its intention to the Bureau of Foreign Commerce, reexported and transshipped to Communist China at least 550 ounces thereof.

13. In about January 1956 and again in March 1956, first during the course of an end-use check to verify the representations made in the applications for export licenses and next during the investigation of this case, an American Consul in Hong Kong, acting on behalf of the Bureau of Foreign Commerce, interrogated Tsong concerning the disposition of the ball pen point materials received by Oversea from Kastenhuber and whether it had made any exportation thereof to China and he, in response to questions propounded to him, stated that it had made no exportation to China and that such sales as it had made had been made to wholesalers in Hong Kong.

14. Prior to the times that Tsong made such statements to the American Consul, Oversea had exported quantities of the ball pen point materials which had been received by it from Kastenhuber, which materials were the subject matter of the inquiries directed to him.

And, from the foregoing, the following are my conclusions:

A. Kastenhuber & Lehrfeld, Inc. and John Woodward knowingly caused exportations to be made in violation of the export control law and regulations; used validated export licenses and shipper's export declarations for the purpose of and in connection with facilitating and effecting exportations contrary to the terms, provisions, and conditions thereof; and issued and prepared or caused to be issued and prepared commercial invoices and air waybills in connection with such exportations without endorsing on the face thereof the required destination control notices, all in violation of §§ 381.5, 381.8, 379.10 (c) (2), and 379.10 (c) (3) of the Export Regulations.

B. The respondents Oversea Trading Co. (H. K.) Ltd. and C. S. Tsong (Tsong Chen Sang) knowingly bought, financed, and then received goods exported from the United States with knowledge that, with respect to such exportations, violations of the Export Control Act and the regulations had occurred, were about to occur, and were intended to occur; made false statements and concealed material facts from an official of the United States representing the Bureau of Foreign Commerce during the course of an investigation under the authority of the Export Control Act of 1949, as amended; and diverted and transshipped commodities exported from the United States to destinations not permitted under the licenses pursuant to which they had been exported from the United States and contrary to prior representations made by them for the purpose of obtaining the issuance of such export licenses in violation of §§ 381.4, 381.5 (b) (1), and 381.6 of the Export Regulations.

When making his recommendation, the Compliance Commissioner, in his report, said:

> We are unable to determine what portion of [the exportations] were transshipped but it is reasonable to assume that the greater proportion thereof was. Considering that in the first four months of 1958 [Kastenhuber & Lehrfeld, Inc.] shipped less than $7,000 worth of ball point pen materials (and these to countries other than Hong Kong), [its] claimed voluntary withdrawal from the cross-Pacific trade, the fact that (as represented) $85,000 worth of business has been declined, the fact that [it] will be denied the privilege of supplying its long established Cuban customers with raw metals previously averaging about $25,000 a year in exports and the most important fact that both [Kastenhuber & Lehrfeld, Inc. and Woodward] seem to be fully rehabilitated, a six month denial of export privileges, which will include the balance of 1958, seems to result in a complete adjustment for the illicit exportations. For these reasons I do hereby approve the consent proposal * * * and recommend that it be accepted.
>
> The remedial action to be taken against the Oversea respondents presents a different picture. They diligently sought the illegal business, deliberately and with knowledge and intent made the false representations and reexportations, and thereafter failed to cooperate in the investigation and made false statements to our agent in Hong Kong. They are not subject to our policing and inspection and there is no way to be assured that they will not violate again if given the opportunity. For these reasons I recommend that they be denied export privileges so long as export controls are in effect.

Having concluded that the recommended action is fair, just, and necessary to achieve effective enforcement of the law: *It is hereby ordered*:

I. All outstanding validated export licenses in which any one of the respondents herein appears or participates as vendor, exporter, purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

II. A. Henceforth, and for the duration of export controls, the respondents, Oversea Trading Co. (H. K.) Ltd. and C. S. Tsong (Tsong Chen Sang), be and

they hereby are suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in any past, present, or future exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by the respondent, directly or indirectly, in any manner or capacity, (a) as party or as representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control document, (c) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

B. For six months following the date hereof, the respondents, Kastenhuber & Lehrfeld, Inc., and John Woodward, be and they hereby are suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in any past, present, or future exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by the respondent, directly or indirectly, in any manner or capacity, (a) as party or as representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control document, (c) in the receiving, ordering, buying, selling, delivering, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

III. Such denial of export privileges, insofar as it shall apply to any respondent, shall extend not only to such respondent, his or its successors or assigns, directors, officers, agents, and employees, but also to any person, firm, corporation, or business organization with which he or it may be related, now or hereafter, by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

IV. No person, firm, corporation, or other business organization, whether in the United States or elsewhere, shall, on behalf of or in any association with any respondent or any related party, during such time as any such respondent is subject to the terms of this order, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any export license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, sell, deliver, use, dispose of, finance, transport, forward, or otherwise service or participate in any exportation from the United States. Nor shall any such person, firm, corporation, or other business organization do any of the foregoing acts with respect to any exportation in which such respondent or any related party may have any interest or obtain any benefit of any kind or nature, direct or indirect.

Dated: July 10, 1958.

JOHN C. BORTON,
Director,
Office of Export Supply.

Federal Maritime Board

ISTHMIAN LINES, INC.

NOTICE OF TERMINATION OF BAREBOAT CHARTER

Notice of annual review of bareboat charter covering the vessel "Wellesley Victory" (Isthmian Lines, Inc., charterer) appeared in the FEDERAL REGISTER issue of June 27, 1958 (23 F. R. 4765).

The Federal Maritime Board has found that conditions do not exist justifying the continuance of the charter beyond a year's period of operation of said vessel.

Dated: July 11, 1958.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[P. & S. Docket No. 308]

MARKET AGENCIES AT SIOUX CITY STOCK YARDS, SIOUX CITY, IOWA

NOTICE OF PETITION FOR MODIFICATION OF RATE ORDER

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), an order was issued on August 1, 1956 (15 A. D. 898), authorizing the respondents to modify their temporary schedule of rates and charges in certain respects and to assess the modified schedule to and including July 31, 1958, unless changed by further order before the latter date.

By petition filed on July 3, 1958, respondents requested authority to modify the current temporary schedule of rates and charges in certain respects and to continue assessing such schedule, as so modified, to and including July 31, 1960, unless extended or modified by further order prior to that date. The modifications requested are as follows:

SELLING AND RESELLING CHARGES

Commission shall be charged on all livestock consigned to, and offered for sale by a commission firm, except livestock that is returned to point of origin, or shipped to another Central Public Market.

SECTION A

	Rates per head	
	Present	Proposed
Cattle:		
Consignments of 1 head and 1 head only	$1.55	$1.65
Consignments of more than one head:		
First 5 head in each consignment	1.25	1.35
Next 10 head in each consignment	1.20	1.30
Each head over 15 in each consignment	1.05	1.15
Calves:		
Consignments of 1 head and 1 head only	.90	1.00
Consignments of more than one head:		
First 5 head in each consignment	.80	.90
Next 10 head in each consignment	.75	.85
Each head over 15 in each consignment	.65	.75
Bulls, irrespective of manner of arrival	1.80	1.90
T. B. Reactors, Bangs reactors, cripples, suspects or subjects, or condemned	1.80	1.90

SECTION B

Hogs, irrespective of manner of arrival:		
Consignments of 1 head and 1 head only	$0.68	$0.73
Consignments of more than 1 head:		
First 10 head in each consignment	.46	.50
Next 15 head in each consignment	.41	.45
Each head over 25 in each consignment	.36	.40
Boars, cripples or subjects	.85	.90

The proposed rates and charges, if authorized, will produce additional revenue for the respondent market agencies and increase the cost of marketing livestock. It appears, therefore, that this public notice of the filing of the petition and its contents should be given in order that all interested persons may have an opportunity to indicate a desire to be heard in the matter.

All interested persons who desire to be heard in the matter shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of publication of this notice.

Done at Washington, D. C., this 11th day of July 1958.

[SEAL] JOHN C. PIERCE, Jr.,
Acting Director, Livestock Division, Agricultural Marketing Service.

Office of the Secretary

INDIANA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2

(a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in Adams County, Indiana, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named county after June 30, 1959, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 10th day of July 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-6]

BATTELLE MEMORIAL INSTITUTE

NOTICE OF ISSUANCE OF AMENDED UTILIZATION FACILITY LICENSE

Please take notice that the Atomic Energy Commission has issued the following amended License R–4 authorizing Battelle Memorial Institute to make modifications in the Institute's research reactor at West Jefferson, Ohio, and to observe a new operating restriction when operating the reactor. The amended License R–4 also allocates special nuclear material for use in connection with operation of the reactor. The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the modifications do not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the facility.

The amended license (1) requires Battelle Memorial Institute, when operating the research reactor, to observe a new operating restriction which limits the amount of excess reactivity above cold clean critical which may be loaded in the reactor to a maximum 4.6 percent k/k; (2) authorizes the licensee (a) to use boron-carbide safety rods rather than cadmium safety rods, (b) to remove radiation monitors from "scram" circuits and install the excess radiation detectors in the "alarm" circuit, (c) to close air intakes and exhausts manually rather than automatically, (d) to leave most of the fuel elements and control rods in the core grid plate on scheduled shut-down days, (e) to change the plan for sounding the alarm in the event of detection of excess radiation, (f) to use a new reactor start-up procedure, (g) to substitute a fuel element fabricated by the "roll-swage" method for a standard fuel element in the fuel load inserted in the reactor; (3) increases the allocation of special nuclear material to Battelle Memorial Institute; and (4) increases the Battelle Memorial Institute's authorization to possess and use special nuclear material.

In accordance with the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing on the matter of the issuance of the amended license upon receipt of a request therefor from the licensee or an intervener within 30 days after issuance of the amended license. For further details see (1) the application submitted by Battelle Memorial Institute, and amendments thereto, and (2) a hazards analysis of the modifications prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 9th day of July 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director, Division of Licensing and Regulation.

[Docket No. 50-6]

BATTELLE MEMORIAL INSTITUTE

[License No. R–4, as amended]

1. The Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

a. The utilization facility authorized for construction by Construction Permit dated August 5, 1955 (later designated CPRR–4), issued to Battelle Memorial Institute, has been constructed and will operate in conformity with the application as amended and in conformity with the Atomic Energy Act of 1954, as amended, (hereinafter referred to as "the Act") and the rules and regulations of the Commission;

b. There is reasonable assurance that the facility can be operated without endangering the health and safety of the public;

c. Battelle Memorial Institute is technically and financially qualified to operate the facility, and to possess and use special nuclear material;

d. Issuance of a license to possess and operate the facility will not be inimical to the common defense and security or to the health and safety of the public;

e. Battelle Memorial Institute has submitted proof of financial protection which satisfies the requirements of Commission regulations currently in effect.

2. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses Battelle Memorial Institute:

a. Pursuant to section 104c of the act and Title 10, CFR, Chapter 1, Part 50, "Licensing of Production and Utilization Facilities", to possess and operate as a utilization facility the research reactor (herein referred to as "the facility") designated below in accordance with the procedures described in the application.

b. Pursuant to the act and Title 10, CFR, Chapter 1, Part 70, "Special Nuclear Material", to receive, possess and use:

(1) 11.302 kilograms of contained uranium 235 in fuel element assemblies as fuel for operation of the facility;

(2) 1.68 grams of contained uranium 235 in neutron measuring instruments incorporated in the facility.

c. Pursuant to the act and Title 10, CFR, Chapter 1, Part 30, "Licensing of Byproduct Material", to possess, but not to separate, such byproduct material as may be produced from operation of the facility.

3. This license applies to the facility which is owned by Battelle Memorial Institute and located at West Jefferson, Ohio, and described in Battelle Memorial Institute's application dated May 4, 1955, and amendments thereto dated April 5, 1956, June 5, 1956, March 19, 1957, April 10, 1957, May 10, 1957, May 20, 1957, June 3, 1957, June 13, 1957, July 3, 1957, October 9, 1957, and January 10, 1958 (herein referred to as "the application").

4. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70; is subject to all applicable provisions of the act and rules, regulations and orders of the Commission now or hereafter in effect, and is subject to the additional conditions specified below:

a. The maximum amount of excess reactivity above cold clean critical which may be loaded in the Battelle Research Reactor shall not exceed 4.6 percent in either the open pool or the stall position. In the stall position, the excess reactivity shall be determined with the beam tubes filled with air.

b. Battelle Memorial Institute shall not operate the reactor at power levels in excess of 1,000 kilowatts without previous authorization from the Commission.

c. The reactor shall be operated in such a manner that all positive reactivity additions by the shim-safety rods are made by manual manipulation only.

d. In addition to those otherwise required under this license and applicable regulations, the Institute shall keep the following records:

(1) Facility operating records, including power levels.

(2) Record of in-pile irradiations.

(3) Records showing radioactivity released or discharged into the air or water beyond the effective control of Battelle Memorial Institute as measured at the point of such release or discharge.

(4) Records of emergency scrams, including reasons for emergency shutdowns.

d. Battelle Memorial Institute shall immediately report to the Commission any indication or occurrence of a possible unsafe condition relating to the operation of the facility.

5. Pursuant to § 50.60 of the regulations in Title 10, Chapter 1, CFR, Part 50, the Commission has allocated to Battelle Memorial Institute for use in the operation of the reactor, 11.302 kilograms of uranium 235 contained in uranium in the isotopic ratio specified in Battelle Memorial Institute's application. Estimated schedules of special nuclear material transfers to Battelle Memorial Institute and returns to the Commission are contained in Appendix "A" which is attached hereto. Shipments by the Commission to Battelle Memorial Institute in accordance with column 2 in Appendix "A" will be conditioned upon Battelle Memorial Institute's return to the Commission of material substantially in accordance with column 3 of Appendix "A".

6. This license shall expire at midnight, August 5, 1965, unless sooner terminated.

Date of issuance: July 9, 1958.

For the Atomic Energy Commission.

H. L. PRICE,
Director,
Division of Licensing and Regulation.

In re applications of Victor D. Lindeman, Jr., and Robert Z. Morrison, d/b as Clarion Broadcasting Company, Clarion, Pennsylvania, Docket No. 12518, File No. BP-11332; W. E. Sheridan, Thomas Culbertson, Harriet Hearst, W. C. Hearst, W. J. McKnight III and Punxsutawney Broadcasting Company, d/b as County Broadcasting Company, Clarion, Pennsylvania, Docket No. 12519, File No. BP-11843; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of July 1958;

The Commission having under consideration the above-captioned applications of Victor D. Lindeman, Jr., and Robert Z. Morrison d/b as Clarion Broadcasting Company, and of W. E. Sheridan, Thomas Culbertson, Harriet Hearst, W. C. Hearst, W. J. McKnight III and Punxsutawney Broadcasting Company d/b as County Broadcasting Company, each for a construction permit for a new standard broadcast station to operate on 1300 kilocycles with a power of one kilowatt, daytime only, at Clarion, Pennsylvania; and

It appearing that except as indicated by the issues specified below, both applicants are legally, technically, financially and otherwise qualified to operate the proposed stations but that the operation of the proposed stations would result in mutually destructive interference and that the proposed operations would cause interference to Station WERE, Cleveland, Ohio (1300 kc, 5 kw, DA-1, U); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applicants were advised by letter dated May 14, 1958, of the aforementioned interference and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing that a timely reply to the Commissioner's letter was filed by each applicant; and

It further appearing that by letter dated June 5, 1958, the licensee of Station WERE expressed an intention of participating in a hearing on the applications; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operations and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operations would cause interference to Station WERE, Cleveland, Ohio, or any other standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

4. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That Cleveland Broadcasting Incorporated, licensee of Station WERE, is made a party to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: July 11, 1958.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 58-5438; Filed, July 15, 1958; 8:55 a. m.]

[Docket Nos. 12520 etc.; FCC 58-655]

LEAVENWORTH BROADCASTING CO. (KCLO) ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of George Basil Anderson and Florence L. Anderson d/b as Leavenworth Broadcasting Company (KCLO), Leavenworth, Kansas, Docket No. 12520, File No. BP-11195; Wichita Beacon Broadcasting Company, Inc. (KWBB), Wichita, Kansas, Docket No. 12521, File No. BP-11207; Willie Ray Harlowe and Carroll C. Lee d/b as Bowie-Nocona Broadcasting Company, Bowie, Texas, Docket No. 12522, File No. BP-11241; Bert F. Dimock, Jr., and Elmer Covey d/b as Montague County Broadcasting Company, Bowie, Texas, Docket No. 12523, File No. BP-11890; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of July 1958;

The Commission having under consideration the above-captioned applications requesting the following standard broadcast facilities:

BP-11195; KCLO, Leavenworth, Kans.; George Basil Anderson and Florence L. Anderson d/b as Leavenworth Broadcasting Company. Has: 1410 kc, 500 w, Day. Req: 1410 kc, 5 kw, DA, Day.

BP-11207; KWBB, Wichita, Kans.; Wichita Beacon Broadcasting Company, Inc. Has: 1410 kc, 1 kw, DA-2, Unl. Req: 1410 kc, 1 kw, 5 kw-LS, DA-2, Unl.

BP-11241; NEW, Bowie, Tex.; Willie Ray Harlowe and Carroll C. Lee d/b as Bowie-Nocona Broadcasting Company. Req: 1410 kc, 500 w, DA, Day.

BP-11890; NEW, Bowie, Tex.; Bert F. Dimock, Jr., and Elmer Covey d/b as Montague County Broadcasting Company. Req: 1410 kc, 500 w, Day.

It appearing that except as indicated by the issues specified below, all the applicants are legally, technically, financially and otherwise qualified to operate their proposed stations but that the operation of Station KCLO as proposed would cause interference to the proposed operation of Station KWBB; that the proposed operations of Station KWBB and the Bowie-Nocona Broadcasting Company would result in mutual interference; that the proposed operation of Station KWBB would cause interference to the proposed operation of the Montague County Broadcasting Company; that the applications of the Bowie-Nocona Broadcasting Company and the Montague County Broadcasting Company are mutually exclusive; that the proposed operation of the Bowie-Nocona Broadcasting Company may not be in compliance with § 3.28 (c) in that the interference which would be received from the proposed operation of Station KWBB may affect more than ten percent of the population within the proposed normally protected primary service area; that the population in the normally protected primary service area of the Montague County Broadcasting Company which would be affected by interference received from the KWBB proposal and from the existing operation of Station KBUD, Athens, Texas (1410 kc, 250 w, Day) would exceed the ten percent permitted under the provisions of § 3.28 (c) of the Commission's rules; and that the proposed operation of the Montague County Broadcasting Company would cause interference to Station KBUD and to Station KFYN, Bonham, Texas (1420 kc, 250 w, DA), both Class IV stations operating on regional channels, but that § 3.29 of the Commission's rules provides that Class I stations will not be protected against interference from a Class III station, which the Montague County Broadcasting Company proposes; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the instant applicants were advised by letter dated May 1, 1958, of the aforementioned interference and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing that all of the applicants filed timely replies to the Commission's letter; and

It further appearing that in an amendment filed June 12, 1958, the Wichita Beacon Broadcasting Company, Inc., indicated that it would accept the interference which would be caused to the proposed operation of Station KWBB by the proposed operation of KCLO, provided both proposals are granted simultaneously; and

It further appearing that by amendment filed May 27, 1958, the Bowie-Nocona Broadcasting Company indicated that the interference which would be received by the proposed operation from the proposed operation of Station KWBB and the existing operation of Station KBUD would affect more than ten percent of the population within the proposed normally protected primary service area; therefore, the proposed operation would not be in compliance with § 3.28 (c) of the Commission's rules; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Stations KCLO and KWBB as proposed and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which would receive primary service from the proposed operations of the Bowie-Nocona Broadcasting Company and the Montague County Broadcasting Company and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and all existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether, because of interference received, the proposed operations of the Bowie-Nocona Broadcasting Company and the Montague County Broadcasting Company would comply with § 3.28 (c) of the Commission's rules; and if compliance with § 3.28 (c) is not achieved, whether circumstances exist which would warrant a waiver of said section of the rules.

5. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the proposals herein would best provide a fair, efficient and equitable distribution of radio service.

6. To determine on a comparative basis, in the event that pursuant to the foregoing issue, Bowie, Texas, is considered to have the greater need for either the operation proposed by the Bowie-Nocona Broadcasting Company or the Montague County Broadcasting Company, which of said two proposals would better serve the public interest, convenience and necessity in the light of the evidence adduced under the issues herein and the record made with respect to the significant differences between the two applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate the proposed standard broadcast station.

(b) The proposal of each with respect to the management and operation of the proposed station.

(c) The programming services proposed in each of said applications.

7. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which of the instant applications should be granted.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.140 of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the issues in this proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: July 11, 1958.

FEDERAL POWER COMMISSION

[Project No. 1975]

IDAHO POWER CO.

NOTICE OF LAND WITHDRAWAL, IDAHO

By letters to the Bureau of Land Management of March 18, 1948, April 13, 1950, and withdrawal notice of July 26, 1956, this Commission gave notice of the reservation of approximately 702 acres of land of the United States pursuant to the filing of applications for license both original and amendatory, by the Idaho Power Company for Project No. 1975.

On August 17, 1956, the licensee filed an application for further amendment of license to cover, among other things, the installation of a new transmission line from the Bliss plant, of this project to the King Substation.

Conformable to the provisions of section 24 of the act of June 10, 1920, as amended, notice is hereby given that the hereinafter described lands, insofar as title thereto remains in the United States are included in the aforesaid power project. Under said section 24 of these lands are, from said date of filing of application for amendment of license, reserved from entry, location or other disposal under the laws of the United States until otherwise directed by this Commission or by Congress.

BOISE MERIDIAN, IDAHO

All portions of the following described subdivisions lying within 75 feet of the center line survey of the transmission line right-of-way location, as delimited on map Exhibit "J-2" and "K-2" (consolidated) entitled "Bliss H. E. Development Transmission Line," and filed in this Commission on August 17, 1956.

T. 6 S., R. 12 E.,
Sec. 8: Lot 8;
Sec. 17: N½NW¼, SE¼NW¼, S½NE¼, NE¼SE¼;
Sec. 21: N½NE¼;
Sec. 22: NW¼NW¼, S½NW¼, NE¼SW¼, N½SE¼, SE¼SE¼;
Sec. 23: S½SW¼;
Sec. 25: SW¼NW¼, N½SW¼, SE¼SW¼, NW¼SE¼, S½SE¼;
Sec. 26: NW¼NE¼, NE¼NW¼, S½NE¼,
T. 6 S., R. 13 E.,
Sec. 31: Lot 1, E½NW¼, SW¼NE¼, N½SE¼;
Sec. 32: W½SW¼, SE¼SW¼, SW¼SE¼;
T. 7 S., R. 13 E.,
Sec. 3: N½SW¼, N½SE¼, SE¼SE¼;
Sec. 4: Lots 1, 2, 3, NE¼SE¼;
Sec. 10: Lot 1.

The general determination made by the Commission at its meeting of April 17, 1922, with respect to lands reserved for power transmission line purposes only, is applicable to these lands. The area reserved by the filing of this application is approximately 156 acres.

A copy of map Exhibit "J-2" and "K-2", consolidated, (F. P. C. No. 1975-36) has been transmitted to the Bureau of Land Management and Geological Survey.

Secretary.

[F. R. Doc. 58-5409; Filed, July 15, 1958; 8:47 a. m.]

[Docket No. G-15411]

MAGNOLIA PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDED PROPOSED CHANGE IN RATES

JULY 9, 1958.

Magnolia Petroleum Company (Magnolia) on June 9, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filings:

Description: (1) Supplemental Agreement,[1] dated May 29, 1958. (2) Notice of Change, undated.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: (1) Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 69. (2) Supplement No. 10 to Magnolia's FPC Gas Rate Schedule No. 69.

Effective date: July 10, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed renegotiated rate increase, Magnolia states that the sale of natural gas is a commodity sale and not a service, as is the transportation of gas, and the determination of a just and reasonable rate should be by a "supply and demand formula" method. In addition, Magnolia states the increase is necessary because its revenue requirements have increased with the rise in cost of doing business and the additional revenue is further made necessary to encourage further exploration and development.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement Nos. 9 and 10 to Magnolia's FPC Gas Rate Schedule No. 69 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement Nos. 9 and 10 to Magnolia's FPC Gas Rate Schedule No. 69.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 10, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-15412]

ATLANTIC REFINING CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 10, 1958.

The Atlantic Refining Company (Atlantic) on June 13, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 10, 1958.

Purchaser: Texas Eastern Transmission Corporation.

Rate schedule designation: Supplement No. 22 to Atlantic's FPC Gas Rate Schedule No. 34.

Effective date: July 14, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed redetermined rate increase, Atlantic submits a copy of a letter from Texas Eastern Transmission Corporation (Texas Eastern) in which Texas Eastern agrees to the redetermined price for five years commencing February 5, 1958. In addition, Atlantic states that the contract was negotiated at arm's-length.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 22 to Atlantic's FPC Gas Rate Schedule No. 34 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 22 to Atlantic's FPC Gas Rate Schedule No. 34.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 14, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[Docket No. G-15413]

AZTEC OIL & GAS CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 10, 1958.

Aztec Oil & Gas Company (Aztec) on June 16, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 4 to Aztec's FPC Gas Rate Schedule No. 6.

Effective date: July 17, 1958 (effective date is the effective date proposed by Aztec).

In support of the proposed favored-nation rate increase, Aztec submits a copy of a letter from El Paso Natural Gas Company notifying of the 1 cent per Mcf increase. Aztec states that the contract resulted from good faith arm's-length bargaining and denial of the increase would cause Aztec to suffer a loss.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Aztec's FPC Gas Rate Schedule No. 6 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Aztec's FPC Gas Rate Schedule No. 6.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 17, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-15414]

BRITISH AMERICAN OIL PRODUCING CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 10, 1958.

The British American Oil Producing Company (British American) on June 16, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 4, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 6 to British American's FPC Gas Rate Schedule No. 6.

Effective date: July 17, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed favored-nation rate increase, British-American submits a copy of a letter from El Paso Natural Gas Company notifying of the increase and agreeing to pay the higher price subject to Commission action. In addition, British American states that the entire pricing provisions represent the consideration of the contract; that the pricing arrangement is common in many long-term contracts in order to permit initial delivery at a price lower than the average price and that such an arrangement is economically desirable to all parties.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 6 to British American's FPC Gas Rate Schedule No. 6 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 6 to British American's FPC Gas Rate Schedule No. 6.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred as hereinafter ordered.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-5431; Filed, July 15, 1958; 8:53 a. m.]

[1] Parties renegotiate a base rate increase from 10 cents at 16.7 psia to 18.5 cents per Mcf at 15.025 psia.

[Docket No. G-15415]

ROY L. JENNINGS ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 10, 1958.

Roy L. Jennings and Maurice Clogg, d/b/a Jennings & Clogg, (Operator), et al., (Jennings & Clogg), on June 18, 1958, tendered for filing a proposal change in their presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 13, 1958.

Purchaser: Cities Service Gas Company.

Rate schedule designation: Supplement No. 1 to Jennings & Clogg's FPC Gas Rate Schedule No. 1.

Effective date: July 19, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, Jennings & Clogg state that the pricing provisions are a matter of contractual obligation; that the contract resulted from bona fide arm's length bargaining in a competitive market; that the prices constitute a single indivisible rate, and that it would be unfair and unjust for the Commission not to approve the proposed price.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Jennings & Clogg's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Jennings & Clogg's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until December 19, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-5432; Filed, July 15, 1958; 8:54 a. m.]

[Docket No. G-15419]

SUNRAY MID-CONTINENT OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 10, 1958.

Sunray Mid-Continent Oil Company (Sunray) on June 11, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated January 3, 1958.

Purchaser: Texas Eastern Transmission Corporation.

Rate schedule designation: Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 8. Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 27. Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 29.

Effective date: July 12, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed redetermined rate increases, Sunray submits copies of letters signed by Texas Eastern Transmission Corporation and Sunray agreeing that for the five-year period commencing February 5, 1958, the price under the contracts had been redetermined to be 13.8733 cents per Mcf, including reimbursement for existing taxes. Sunray states that the contract as an entity was entered into at arm's length, that the consideration to Sunray was the entire price schedule to insure the receipt of the full market value of the gas, that without such a provision Sunray would not have agreed to a long-term contract, that the effect is the same as if an average contract price had been agreed upon, that the proposed price is just and reasonable and in line with other area prices for gas for resale and that denial of the increase would be unjust and discriminatory.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 8; Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 27, and Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 29, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 8; Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 27, and Supplement No. 14 to Sunray's FPC Gas Rate Schedule No. 29.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until July 13, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[Docket No. G-15420]

SUNRAY MID-CONTINENT OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 10, 1958.

Sunray Mid-Continent Oil Company (Operator) et al. (Sunray), on June 11, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated January 3, 1958.

Purchaser: Texas Eastern Transmission Corporation.

Rate schedule designation: Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 10. Supplement No. 12 to Sunray's FPC Gas Rate Schedule No. 31. Supplement No. 18 to Sunray's FPC Gas Rate Schedule No. 33. Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 32.

Effective date: July 12, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed redetermined rate increases, Sunray submits copies of letters signed by Texas Eastern Transmission Corporation and Sunray agreeing that for the five-year period commencing February 5, 1958, the price under the contracts had been redetermined to be 13.8733 cents per Mcf, including reimbursement for existing taxes. Sunray states that the contract as an entity was entered into at arm's length, that the consideration to Sunray was the entire price schedule to insure the receipt of the full market value of the gas, that without such a provision Sunray would not have agreed to a long-term contract, that the effect is the same as if an average contract price had been agreed upon, that the proposed price is just and reasonable and in line with other area prices for gas for resale and that denial of the increase would be unjust and discriminatory.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 10; Supplement No. 12 to Sunray's FPC Gas Rate Schedule No. 31; Supplement No. 18 to Sunray's FPC Gas Rate Schedule No. 33, and Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 32, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 10; Supplement No. 12 to Sunray's FPC Gas Rate Schedule No. 31; Supplement No. 18 to Sunray's FPC Gas Rate Schedule No. 33, and Supplement No. 11 to Sunray's FPC Gas Rate Schedule No. 32.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until July 13, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-15421]

RUTTER AND WILBANKS BROTHERS ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 10, 1958.

Rutter and Wilbanks Brothers (Operator) et al. (Rutter and Wilbanks), on June 10, 1958, proposed changes in its presently effective rate schedules for the sale of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated June 6, 1958.

Rate schedule designation: Supplement No. 10 to Rutter and Wilbanks FPC Gas Rate Schedule No. 1. Supplement No. 9 to Rutter and Wilbanks FPC Gas Rate Schedule No. 3.

Purchaser: El Paso Natural Gas Company.

Effective date: July 11, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increases, Rutter and Wilbanks refer to the contract price provisions and state that the prices were arrived at by arm's-length negotiations and the increased prices are fair and reasonable and necessary to compensate seller for increased costs of exploration and provide an adequate return on investment.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 19 to Rutter and Wilbanks Brothers (Operator), et al., FPC Gas Rate Schedule No. 1 and Supplement No. 9 to Rutter and Wilbanks Brothers (Operator), et al., FPC Gas Rate Schedule No. 3 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges, contained in Supplement No. 19 to Rutter and Wilbanks Brothers (Operator), et al., FPC Gas Rate Schedule No. 1 and Supplement No. 9 to Rutter and Wilbanks Brothers (Operator), et al., FPC Gas Rate Schedule No. 3.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until December 11, 1958, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Kline dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

FEDERAL RESERVE SYSTEM

FIRST NEW YORK CORP. ET AL.

ORDER DENYING ACTION TO BECOME BANK HOLDING COMPANIES

First New York Corporation, The First National City Bank of New York, and International Banking Corporation; order denying action to become bank holding companies.

In the matter of the applications of First New York Corporation, The First National City Bank of New York, and International Banking Corporation for prior approval of action to become bank holding companies under section 3 of the Bank Holding Company Act of 1956 (Docket No. BHC 1-3).

There having come before the Board of Governors, pursuant to section 3 (a) (1) of the Bank Holding Company Act of 1956 (12 U. S. C. 1842) and section 4 (a) (1) of the Board's Regulation Y (12 CFR 222.4 (a) (1)), applications on behalf of First New York Corporation, a Delaware corporation with its principal office in New York City, The First National City Bank of New York, New York City, and International Banking Corporation, a Connecticut corporation with its principal office in New York City, for the Board's prior approval of action whereby each of such companies would become a bank holding company under the Act; a hearing on said applications having been held pursuant to section 7 (a) of the Board's Regulation Y (12 CFR 222.7 (a)); opportunity having been given to all parties for the filing of proposed findings and conclusions; the Hearing Examiner having filed a Report and Recommended Decision and a Supplemental Report and Recommended Decision, in each of which he recommended that said applications be denied; the Applicants and The County Trust Company, White Plains, New York (a non-applicant party to this proceeding), having filed exceptions and briefs; oral arguments having been presented to the Board; and all such steps having been taken in accordance with the Board's Rules of Practice for Formal Hearings (12 CFR 263),

It is hereby ordered, For the reasons set forth in the accompanying State-

ment[1] of the Board, that the applications of First New York Corporation, The First National City Bank of New York, and International Banking Corporation pursuant to section 3 (a) (1) of the Bank Holding Company Act of 1956, shall be, and hereby are, denied.

This 10th day of July 1958.

By order of the Board of Governors.[2]

[SEAL] S. R. CARPENTER, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice No. 225]

MOTOR CARRIER APPLICATIONS

JULY 11, 1958.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.241).

All hearings will be called at 9:30 o'clock a. m., United States standard time (or 9:30 o'clock a. m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 39230 (Sub No. 2), filed April 17, 1958, published issue June 5, 1958. Applicant: HARCOURT & COWAN, INC., Milroy, Ind. Applicant's attorney: Robert C. Smith, 512 Illinois Building, Indianapolis 4, Ind. Previous publication gave the location of the site of The Heekin Can Company plant near Newton, Ohio, whereas the location of the plant is at or near *Newtown*, Ohio.

HEARING: Remains as assigned July 23, 1958, at the U. S. Court Rooms, Indianapolis, Ind., before Joint Board No. 208, or, if the Joint Board waives its right to participate, before Examiner Frank F. Saltzman.

No. MC 59894 (Sub No. 16), filed June 16, 1958. Applicant: TEXAS-ARIZONA MOTOR FREIGHT, INC., 1700 East Second Street, El Paso, Tex. Applicant's attorney: Arthur H. Glanz, 639 South Spring Street, Los Angeles 14, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities, including Class A and B explosives*, but excluding commodities of unusual value, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Phoenix, Ariz., and Deer Valley Park, Ariz., and points within 3 miles thereof: from Phoenix over U. S. Highway 80 to junction Arizona Highway 69, and thence over Arizona Highway 69 to Deer Valley Park, and points within 3 miles thereof, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in California, Arizona, New Mexico, and Texas.

NOTE: Applicant states Deer Valley Park, Ariz. is a new, unincorporated industrial area on Arizona Highway 69 approximately 15 miles northwest of the State Capitol at Phoenix.

HEARING: September 19, 1958, at the Arizona Corporation Commission, Phoenix, Ariz., before Joint Board No. 240, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 83539 (Sub No. 34), (AMENDMENT), filed June 16, 1958, published issue of July 9, 1958. Applicant: C & H TRANSPORTATION CO., INC., 1935 West Commerce St., P. O. Box 5976, Dallas, Tex. Applicant's attorney: W. T. Brunson, Leonhardt Building, Oklahoma City 2, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Commodities*, the transportation of which, by reason of size or weight, require the use of special equipment, and (B) *Iron or steel silos*, knocked down, each silo to include one unloader, and (C) *Parts and accessories* of Items (A) and (B), above, when moving with such commodities, between Kankakee, Ill., and points in the Commercial Zone thereof, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wyoming, and the Territory of Alaska. Applicant is authorized to conduct operations in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Utah, Wisconsin, and Wyoming.

HEARING: Remains as assigned September 9, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner James I. Carr.

No. MC 92983 (Sub No. 301), filed June 30, 1958. Applicant: ELDON MILLER, INC., 330 East Washington Street, Iowa City, Iowa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Spirits*, in bulk, in tank vehicles, from Peekskill, N. Y., to Owensboro, Ky. Applicant is authorized to conduct operations in Nebraska, Wisconsin, Missouri, Illinois, Iowa, Arkansas, Ohio, Minnesota, Kansas, Indiana, Kentucky, North Carolina, South Carolina, Louisiana, Florida, Tennessee, North Dakota, South Carolina, Texas, Virginia, New York, Pennsylvania, Connecticut, Massachusetts, Mississippi, Georgia, Alabama, and Oklahoma.

HEARING: September 11, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Walter R. Lee.

No. MC 115841 (Sub No. 26), filed June 27, 1958. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P. O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grape products, fruit juices, and vegetable juices* (not including frozen product), in vehicles equipped with mechanical refrigeration capable of affording protection against heat and cold, from North East and Erie, Pa., to points in North Carolina, South Carolina, Georgia, and points in Florida on and north of a line extending from St. Augustine, Fla., through Panama City, Fla. Applicant is authorized to conduct operations in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin.

NOTE: Applicant states that no shipment shall be transported to any point in Florida except as part of a load which has been partially unloaded at some point north of Florida.

HEARING: September 11, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Frank R. Saltzman.

No. MC 117032 (Sub No. 3), filed April 28, 1958. Applicant: NELSON TRANSPORT, INC., 3917 East 14th Street, Des Moines, Polk County, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Feed, seed, fertilizer, agricultural implements, farm machinery* and *tankage* in truckloads only, between La Plata, Mo., and Pocahontas, Iowa, from La Plata over U. S. Highway 63 to junction Iowa Highway 163, thence over Iowa Highway 163 to junction Iowa Highway 60, thence over Iowa Highway 60 to junction U. S. Highway 30, thence over U. S. Highway 30 to junction U. S. Highway 169, thence over U. S. Highway 169 to junction Iowa Highway 3, thence over Iowa Highway 3 to Pocahontas, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations over regular routes in Illinois and Iowa, and over irregular routes in Iowa, Kansas, Nebraska, Oklahoma, and Iowa.

HEARING: July 31, 1958, at the Mark Twain Hotel, St. Louis, Mo., before Joint Board No. 137.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 531 (Sub No. 91), filed June 27, 1958. Applicant: YOUNGER BROTHERS, INC., P. O. Box 14287, Houston, Tex. Applicant's attorney: Ewell H.

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D. C., or to any Federal Reserve Bank.

[2] Voting for this action: Chairman Martin, Vice Chairman Balderston, and Governors Szymczak, Robertson, and Shepardson; voting against this action: Governors Vardaman and Mills.

Muse, Jr., Suite 415, Perry-Brooks Building, Austin, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty shipper-owned vehicles*, from New Orleans, La., to Houston, Tex. Applicant is authorized to conduct operations in Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, South Carolina, Tennessee, Texas, and Utah.

No. MC 1632 (Sub No. 7), filed June 26, 1958. Applicant: CHARLES C. ROSEN, INC., 930 Manchester Boulevard, Pittsburgh 12, Pa. Applicant's attorneys: John A. Vuono and Samuel P. Delisi, 1211 Berger Building, Pittsburgh 19, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel products*, and *materials* and *equipment* used in the manufacture thereof, between the site of the Pittsburgh Screw and Bolt Corporation plant, located near Mount Pleasant in East Huntington Township, Westmoreland County, Pa., on the one hand, and, on the other, points in Ohio on and north of U. S. Highway 40 and on and east of a line beginning at Zanesville, Ohio, and extending in a northerly direction to Lorain, Ohio, and that part of West Virginia on and north of a line extending east and west through Moundsville, W. Va.

No. MC 2202 (Sub No. 165), filed June 30, 1958. Applicant: ROADWAY EXPRESS, INC., 147 Park Street, Akron, Ohio. Applicant's attorney: William O. Turney, 2001 Massachusetts Avenue NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Washington, Pa., and the Pennsylvania Turnpike Interchange at Donegal, Pa., from Washington over U. S. Highway 40 to junction Pennsylvania Highway 71, thence over Pennsylvania Highway 71 to junction Pennsylvania Highway 981, thence over Pennsylvania Highway 981 to junction Pennsylvania Highway 51, thence over Pennsylvania Highway 51 to junction Pennsylvania Highway 711, thence over Pennsylvania Highway 711 to junction U. S. Highway 119, thence over U. S. Highway 119 to junction Pennsylvania Highway 982, thence over Pennsylvania Highway 982, to junction Pennsylvania Highway 31, thence over Pennsylvania Highway 31 to the Pennsylvania Turnpike Interchange at Donegal, and return over the same route, serving no intermediate points, but serving the termini for joinder purposes only. Applicant is authorized to conduct operations in Alabama, Connecticut, Georgia, Illinois, Indiana, Kansas, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE: Applicant states that the instant application is in the nature of an amendment to the alternate route between Cambridge, Ohio, and the Pennsylanvia Turnpike at New Stanton, Pa., as authorized in MC 2202 (Sub No. 152); that it proposes to retain the segment of the route between Cambridge, Ohio, and Washington, Pa., and that it proposes to substitute the route herein applied for to and from Donegal, Pa., for Pennsylvania Highway 31 and U. S. Highway 119 to and from New Stanton, Pa. Applicant further states that upon approval of this application it would be more than willing to have the present authority east of Washington, Pa., cancelled.

No. MC 10914 (Sub No. 3), filed June 27, 1958. Applicant: THE O'BRIEN & NYE CARTAGE CO., 308 Central Viaduct, Cleveland, Ohio. Applicant's attorney: Ewald E. Kundtz, 1104 Terminal Tower, Cleveland 13, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products* and *meat by-products, dairy products*, and *articles distributed by meat packing houses*, as described in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 40 M. C. C. 23, from Cleveland, Ohio, to points in Lawrence, Erie, and Mercer Counties, Pa., and *rejected, damaged and returned shipments* of the commodities specified in this application on return. Applicant is authorized to conduct operations in Ohio.

No. MC 35334 (Sub No. 44), filed July 1, 1958. Applicant: COOPER-JARRETT, INC., 2113 West 73d Street, Chicago, Ill. Applicant's attorney: Carl Steiner, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment (not including those requiring refrigeration), serving the site of the Amoco Chemicals Company plant, located approximately four miles southeast of junction U. S. Highways 6 and 66, near Joliet, Ill., as an off-route point in connection with applicant's authorized regular route operations between Kansas City, Mo., and Chicago, Ill. Applicant is authorized to conduct operations in Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Maryland, Massachusetts, Missouri, Nebraska, New Jersey, New York, Ohio, and Pennsylvania.

No. MC 41192 (Sub No. 5), filed July 2, 1958. Applicant: GRAND RAPIDS MOTOR EXPRESS, INC., 101 Grandville Avenue SW., Grand Rapids 2, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Holland, Mich., and the site of the Consumers Power Co. plant in Port Sheldon Township, Ottawa County, Mich., approximately 10 miles north of Holland, from Holland over U. S. Highway 31 north to Port Sheldon Road, thence west over Port Sheldon Road to the site of the Consumers Power Co. plant in Port Sheldon Township, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Illinois and Michigan.

No. MC 66562 (Sub No. 1435), filed June 26, 1958. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N. Y. Applicant's attorney: William H. Marx, Law Department, same address as applicant. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, including *Class A and B explosives*, moving in express service, between Charlottesville, Va., and Huntington, W. Va., as follows: From Charlottesville over U. S. Highway 250 to Staunton, Va., thence over Virginia Highway 254 to junction Virginia Highway 42, thence over Virginia Highway 42 to junction U. S. Highway 60, thence over U. S. Highway 60 to junction U. S. Highway 219, near Lewisburg, W. Va., thence over U. S. Highway 219 to junction West Virginia Highway 63, thence over West Virginia Highway 63 to junction West Virginia Highways 12 and 3, thence over West Virginia Highways 12 and 3 to junction West Virginia Highway 3, thence over West Virginia Highway 3 to junction West Virginia Highway 20, thence over West Virginia Highway 20 to junction County Road 31, thence over County Road 31 to junction U. S. Highway 19, thence over U. S. Highway 19 to junction West Virginia Highway 61, thence over West Virginia Highway 61 to junction U. S. Highway 21, thence over U. S. Highway 21 to junction U. S. Highway 60, thence over U. S. Highway 60 to junction West Virginia Highway 61, thence over West Virginia Highway 61 to junction U. S. Highway 60, thence over U. S. Highway 60 to Huntington, and return over the same route, serving the intermediate points of Waynesboro, Staunton, Clifton Forge, Covington, Va., and White Sulphur Springs, Ronceverte, Alderson, Hinton, Brooks*, Sandstone, Quinnimont, Prince, Cotton Hill, Deep Water, Mount Carbon*, Montgomery, Handley*, Pratt, Crown Hill*, Eastbank*, Coalburg*, Cabincreek, Chelyan*, Chesapeake*, Marmet, Charleston, Saint Albans, Culloden*, Milton, Ona*, and Barboursville, W. Va., and the off-route points of Ivy, Crozet, Greenwood, Afton, Fishersville, Swoope, Augusta Springs*, Craigsville, Goshen, Millsboro, Lowmoor, and Alleghany, Va., and Fort Spring, Pence Springs*, Lowell*, Talcott*, Meadow Creek*, Thayer, Thurmond, Sewell, South Fayette, Kanawha Falls*, Scott*, Teays*, and Hurricane, W. Va. RESTRICTION: The service proposed to be performed by applicant will be limited to service which is auxiliary to or supplemental of express service. Shipments proposed to be transported by applicant will be limited to those moving on a through bill of lading or express receipt covering, in addition to the motor carrier movement by applicant, an immediately prior or immediately subsequent movement by rail or air.

NOTE: Applicant states that interchange with rail and air express will be made at Charlottesville, Waynesboro, Millboro, Va., and Hinton, Charleston, and Huntington, W. Va., and that the traffic to be handled includes U. S. Mail and railroad baggage in

addition to express. Applicant further states that U. S. Mail and railroad baggage only will be transported to and from the intermediate and off-route points shown with an asterisk (*) above. Applicant is authorized to conduct operations throughout the United States.

No. MC 73675 (Sub No. 20), filed February 5, 1958. Applicant: GALLAGHER FREIGHT LINES, INC., 2424 Arapahoe Street, Denver, Colo. Applicant's attorney: Donald L. Stern, Suite 924 City Nat'l. Bank Building, Omaha 2, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk, serving the site of the Intermountain Chemical Company plant (commonly referred to as Westvaco) near Green River (Sweetwater County), Wyo., as an off-route point in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Colorado, Illinois, Montana, Nebraska, New Mexico, Utah, and Wyoming.

NOTE: Applicant requests that all duplicating authority be eliminated if it is found that it already has the requested authority.

No. MC 75872 (Sub No. 20), filed June 27, 1958. Applicant: BOSTON & MAINE TRANSPORTATION COMPANY, a Corporation, 1 Monsignor O'Brien Highway, Cambridge, Mass. Applicant's attorney: R. G. Bleakney, Jr., Law Department, Boston and Maine Railroad, North Station, Boston 14, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, without exception, in substitute motor-for-rail service which is auxiliary to or supplemental of rail service of the Boston and Maine Railroad, (1) between Orange, Mass., and Williamstown, Mass., from Orange over Massachusetts Highway 2 to Williamstown, and return over the same route, serving all intermediate points which are stations on the rail line of Boston and Maine Railroad, intermediate points of Erving, Millers Falls, Lake Pleasant, Montague, Greenfield, Shelburne Falls, Charlemont, Zoar, Hoosac Tunnel, North Adams, and Williamstown, and serving no off-route points; (2) between Springfield, Mass., and White River Junction, Vt., from Springfield over U. S. Highway 5 to White River Junction; also from junction U. S. Highway 5 and Massachusetts Highway 141 at Holyoke to Easthampton, thence via Massachusetts Highway 10 to junction U. S. Highway 5 at Northampton; also from junction U. S. Highway 5 and Massachusetts Highway 10 at Bernardston via Massachusetts Highway 10 to junction Massachusetts Highway 63, thence via Massachusetts Highway 63 to junction Massachusetts Highway 142, thence via Massachusetts and Vermont Highway 142 to junction U. S. Highway 5 at Brattleboro, Vt.; also from junction U. S. Highway 5 and Vermont Highway 12 in the vicinity of Bellows Falls, Vt., via Vermont and New Hampshire Highway 12 to Claremont, N. H., thence via New Hampshire Highway 12 to junction U. S. Highway 5 at Ascutney, Vt., and return over the same routes serving all intermediate point which are stations on the rail line of Boston and Maine Railroad, intermediate points of Chicopee, Holyoke, Northampton, Greenfield, Mount Hermon and East Northfield, Mass., Brattleboro, Putney, Westminster, Bellows Falls, and Windsor, Vt., and Charlestown and Claremont, N. H., and serving the off-route point of Claremont Junction. RESTRICTIONS: The service to be performed by carrier shall be limited to service which is auxiliary to, or supplemental of, rail service. Shipments transported by carrier shall be limited to those moving on through bills of lading or express receipts covering, in addition to a motor carrier movement, prior or subsequent movement by rail. Such further conditions as the Commission in the future may find necessary to impose in order to restrict carrier's operations to service which is auxiliary to or supplemental of rail service. The authority granted herein, to the extent that it authorizes the transportation of Class A and B explosives shall be limited, in point of time, to a period expiring five years from the date of issuance thereof. Applicant is authorized to conduct operations in New Hampshire, Massachusetts, Maine, and Vermont.

No. MC 75872 (Sub No. 21), filed June 27, 1958. Applicant: BOSTON & MAINE TRANSPORTATION COMPANY, a Corporation, 1 Monsignor O'Brien Highway, Cambridge, Mass. Applicant's attorney: R. G. Bleakney, Jr., Law Department, Boston and Maine Railroad, North Station, Boston 14, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, without exception, in substitute motor-for-rail service which is auxiliary to or supplemental of railroad service of the Boston and Maine Railroad, (1) between Littleton, N. H., and Berlin, N. H., from Littleton over New Hampshire Highway 116 to Whitefield, thence over U. S. Highway 3 to Groveton, and thence over New Hampshire Highway 110 to Berlin, and return over the same route, serving all intermediate points which are stations on the rail lines of Boston and Maine Railroad; (2) between Whitefield, N. H., and Berlin, N. H., from Whitefield over New Hampshire Highway 116 to junction U. S. Highway 2, thence over U. S. Highway 2 to junction New Hampshire Highway 16, and thence over New Hampshire Highway 16 to Berlin, and return over the same route, serving all intermediate points which are stations on the rail lines of the Boston and Maine Railroad, and the off-route point of Gorham, N. H.; (3) between Lancaster, N. H., and junction U. S. Highway 2 and New Hampshire Highway 116, in the vicinity of Jefferson, N. H., from Lancaster over U. S. Highway 2 to junction New Hampshire Highway 116, and return over the same route, serving all intermediate points which are stations on the rail lines of Boston and Maine Railroad. RESTRICTION: The operating rights authorized above are restricted against service at any point not a station on the rail lines of the Boston and Maine Railroad. The service to be performed by carrier shall be limited to service which is auxiliary to or supplemental of rail service of the Boston and Maine Railroad. Shipments transported by carrier shall be limited to those moving on through bills of lading or express receipts covering, in addition to a motor carrier movement, an immediately prior or immediately subsequent movement by rail. Such further conditions as the Commission in the future may find necessary to impose in order to restrict carrier's operations to service which is auxiliary to or supplemental of rail service. The authority granted herein, to the extent that it authorizes the transportation of Class A and B explosives shall be limited in point of time to a period expiring five years after May 21, 1958; and (4) between Intervale, N. H., and Berlin, N. H., from Intervale over New Hampshire Highway 16 to Berlin, and return over the same route, serving all intermediate points which are stations on the rail lines of Boston and Maine Railroad, and the off-route point of Gorham, N. H. RESTRICTION: The service to be performed by carrier shall be limited to service which is auxiliary to or supplemental of rail service of the Boston and Maine Railroad. Carrier shall not serve any point not a station on the rail line of Boston and Maine Railroad. Shipments transported by carrier shall be limited to those moving on through bills of lading or express receipts covering, in addition to a motor carrier movement, an immediately prior or immediately subsequent movement by rail. The authority granted herein shall not be tacked with other authority of carrier south of Dover, N. H. Such further conditions as the Commission, in the future, may find necessary to impose in order to restrict carrier's operations to service is auxiliary to or supplemental of rail service. The authority granted herein, to the extent that it authorizes the transportation of Class A and B explosives shall be limited, in point of time, to a period expiring five years after June 18, 1957. Applicant is authorized to conduct operations in New Hampshire, Massachusetts, Maine, and Vermont.

NOTE: Applicant states: Routes (1), (2), and (3) to be construed as an extension of applicant's authorized route between White River Junction, Vt., and Littleton, N. H., as reflected in its Sub No. 4 certificate and subject to restrictions applicable thereto, and set forth above, in connection with said routes; route (4) to be construed as an extension of applicant's authorized route between Milton and Intervale, N. H., as reflected in its Sub No. 15 certificate and subject to the restrictions applicable thereto, and set forth above in connection with said route.

No. MC 106603 (Sub No. 53), filed July 3, 1958. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street SW., Grand Rapids, Mich. Applicants' attorney: Wilhelmina Boersma, 2850 Penobscot Building, Detroit 26, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty pallets*, from points in Indiana south of U. S. Highway 40 to Grand Rapids, Mich., and from points in Michigan (except Detroit), on, south or west of the following highways: Michigan Highway 55 from Manistee to junction Michigan Highway

66, thence over Michigan Highway 66 to junction Michigan Highway 115, thence over Michigan Highway 115 to junction U. S. Highway 10, thence over U. S. Highway 10 to junction Michigan Highway 21, thence over Michigan Highway 21 to Port Huron, Mich., to Chicago Heights, Ill. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Ohio, West Virginia, and Wisconsin.

MOTOR CARRIERS OF PASSENGERS

No. MC 29957 (Sub No. 70), filed June 30, 1958. Applicant: CONTINENTAL SOUTHERN LINES, INC., 425 Bolton Avenue, Alexandria, La. Applicant's attorney: Alfred Crager, 315 Continental Avenue, Dallas, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *Passengers and their baggage, newspapers* and *express* in the same vehicle with passengers, between Baytown, Texas, and Houston, Texas, from Baytown, over access roads to Texas Highway 73, thence over Texas Highway 73 to Houston, and return over the same route, serving no intermediate points. Applicant is authorized to conduct operations in Texas, Louisiana, Arkansas, Mississippi, Illinois, Missouri, Alabama, Tennessee, and Kentucky.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5 (a) and 210a (b) of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F 6946 (correction) published in the July 9, 1958, issue of the FEDERAL REGISTER on page 5228. The name of WELLS FARGO, INC., should have been shown as WELLS CARGO, INC.

No. MC–F 6950. Authority sought for purchase by INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids 2, Mich., of the operating rights of CONNECTICUT MOTOR LINES, INC. (JOHN H. McKEEVER, RECEIVER), Hanover Avenue and Maxwell Street, Allentown, Pa. Applicants' attorney: Leonard D. Verdier, Jr., 300 Michigan Trust Building, Grand Rapids 2, Mich. Operating rights sought to be transferred: *General commodities* with certain exceptions including household goods and commodities in bulk as a *common carrier* over regular routes between certain points in Connecticut; (2)a) between New York, N. Y., and East Port Chester, Conn., between New Haven, Conn., and Boston, Mass., between Hartford, Conn., and Boston, Mass., and between New London, Conn., and Boston, Mass., serving certain intermediate points; between Philadelphia, Pa., and New York, N. Y., and between Philadelphia, Pa., and Morrisville, Pa., serving all intermediate and off-route points in the Philadelphia, Pa., Commercial Zone, as defined by the Commission in 17 M. C. C. 533; one alternate route for operating convenience only; *general commodities* with certain exceptions including household goods and commodities in bulk over irregular routes, between Stamford, Bridgeport, Meriden, and Clinton, Conn., and points on the regular routes at which service is authorized under (2)a) above, on the one hand, and, on the other, Freeport and Tarrytown, N. Y., New Brunswick, Paterson, Perth Amboy, Plainfield, and Waverly, N. J., Fall River, Fitchburg, Greenfield, Haverhill, Lawrence, Leominster, Lowell, Lynn, Maynard, New Bedford, Pittsfield, and Willimansett, Mass., and Newport, Valley Falls, and Woonsocket, R. I.; and between Stratford, Conn., on the one hand, and, on the other, Poughkeepsie and Schenectady, N. Y., Providence, R. I., and points in Massachusetts; *malt beverages*, from New Haven, Conn., to Amsterdam and Binghamton, N. Y., Barre, Bennington, Brattleboro, Middlebury, Montpelier, Rutland, and Swanton, Vt., and Ramsey, N. J., and from Amsterdam and Binghamton, N. Y., Barre, Bennington, Brattleboro, Middlebury, Rutland, Montpelier, and Swanton, Vt., and Ramsey, N. J., to New Haven, Conn. Vendee is authorized to operate as a *common carrier* in Ohio, Pennsylvania, Illinois, Iowa, Minnesota, Wisconsin, Missouri, Indiana, Michigan, Maryland, Kentucky, West Virginia, New York, New Jersey, Delaware, Massachusetts, and the District of Columbia. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6951. Authority sought for control and merger by PENNSYLVANIA-OHIO EXPRESS, INC., (OHIO), Oak Hill, Ohio, of the operating rights and property of PENNSYLVANIA-OHIO EXPRESS, INC., (PA.), Dunn Avenue, Washington, Pa., and for acquisition by DARRELL D. DETTY, Box 266, Oak Hill, Ohio, of control of such rights and property through the transaction. Applicants' attorney: John P. McMahon, 44 East Broad Street, Columbus, Ohio. Operating rights sought to be controlled and merged: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes, between Wheeling, W. Va., and Pittsburgh, Pa., serving all intermediate and certain off-route points; *iron and steel articles, molybdenum products, chemicals, glassware*, and *clay products*, over irregular routes, between Washington, Pa., and points in Pennsylvania within five miles of Washington, on the one hand, and, on the other, points in Ohio and West Virginia; *household goods*, as defined by the Commission, between points in Washington County, Pa., on the one hand, and, on the other, points in Ohio, West Virginia, New York, New Jersey, Maryland, and the District of Columbia; *telephone exchanges* and *line supplies and equipment*, between points in Washington County, Pa., on the one hand, and, on the other, points in Brooke, Hancock, Ohio, and Marshall Counties, W. Va.; *condensed milk*, in containers, from Greenville and Marysville, Ohio, to certain points in Pennsylvania and West Virginia; *cans and containers*, from certain points in Pennsylvania and West Virginia to Greenville and Marysville, Ohio; *powdered coffee*, in containers, from Sunbury, Ohio, to certain points in Pennsylvania and West Virginia; *condensed milk* and *powdered coffee*, both in containers, from Greenville, Marysville, and Sunbury, Ohio, to certain points in West Virginia; *caps* and *containers*, from certain points in Pennsylvania and West Virginia to Greenville, Marysville, and Sunbury, Ohio. PENNSYLVANIA-OHIO EXPRESS, INC. (OHIO) holds no authority from this Commission, however its controlling stockholder owns all the stock of GRANT TRUCKING, INC., Oak Hill, Ohio, which is authorized to operate as a *common carrier* in Ohio, Connecticut, Georgia, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, Minnesota, Missouri, Alabama, Iowa, Maine, New Hampshire, Rhode Island, Vermont, and the District of Columbia. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6952. Authority sought for purchase by C. I. WHITTEN TRANSFER COMPANY, 200 19th Street, Huntington, W. Va., of the operating rights of THOMAS L. LEISHMAN, P. O. Box 2531, Charleston, W. Va. Applicants' representative: Michael R. Prestera, Vice President, C. I. Whitten Transfer Company, 200 19th Street, Huntington, W. Va. Operating rights sought to be transferred: *Explosives*, as a *common carrier* over irregular routes, from Evansville, Ind., and Wolf Lake, Ill., to certain points in Illinois and Indiana; *explosives* and *blasting supplies*, from Evansville, Ind., and Wolf Lake, Ill., to points in Kentucky on and west of U. S. Highway 31E. Vendee is authorized to operate as a *common carrier* in Illinois, Indiana, Kentucky, Maryland, New Jersey, North Carolina, Pennsylvania, Virginia, West Virginia, Ohio, Alabama, Connecticut, Delaware, Massachusetts, Vermont, Maine, New York, Tennessee, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6953. Authority sought for control by LEONARD BROS. MOTOR EXPRESS SERVICE, INC., 124 North Washington Street, Greensburg, Pa., of PORTO TRANSPORT, INCORPORATED, 600 South Colony Road, Wallingford, Conn., and for acquisition by MARTHA J. LEONARD, WALTER E. LEONARD and GILDA LEONARD, all of Greensburg, of control of PORTO TRANSPORT, INCORPORATED, through the acquisition by LEONARD BROS. MOTOR EXPRESS SERVICE, INC. Applicant's attorneys: Jerome Solomon, 1325 Grant Building, Pittsburgh 19, Pa., and Hugh M. Joseloff, 410 Asylum Street, Hartford 3, Conn. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes, between New

Britain, Conn., and New York, N. Y., between Winsted, Conn., and New York, N. Y., and between Boston, Mass., and Newark, N. J., serving all intermediate and certain off-route points; *general commodities*, with certain exceptions including household goods and commodities in bulk, over irregular routes, between points in Connecticut, between Hartford, Middletown, Shelton, Ansonia, and Cheshire, Conn., on the one hand, and, on the other, Newark, Perth Amboy, Paterson, and Passaic, N. J., between New York, N. Y., on the one hand, and, on the other, points in Kings, Queens, Nassau and Suffolk Counties, N. Y., between certain points in New York, on the one hand, and, on the other, certain points in Connecticut and New Jersey, and between Trenton, N. J., and points in Hudson, Bergen, Passaic, Essex, Middlesex, Somerset, and Morris Counties, N. J., on the one hand, and, on the other, New York, N. Y., and points in New Jersey; *cotton webbing* and *brake lining*, from Middletown, Conn., to New York, N. Y.; *silverware* and *cutlery*, from Wallingford, Conn., to New York, N. Y.; *chemicals, valves, pyroxylin products, machinery, electrical appliances, motorcycles* and *nitro-cellulose*, in truck load lots, from Springfield, Mass., and points in Massachusetts and Connecticut within 15 miles thereof, to points in Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. LEONARD BROS. MOTOR EXPRESS SERVICE, INC., is authorized to operate as a *common carrier* in New York, Pennsylvania, Connecticut, Maryland, and New Jersey. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6954. Authority sought for purchase by UNION PACIFIC MOTOR FREIGHT COMPANY, 1416 Dodge Street, Omaha, Nebr., of a portion of the operating rights of MASKELYNE TRANSFER AND STORAGE, INC., 944 North Ninth Street, P. O. Box 957, Walla Walla, Wash., and for acquisition by UNION PACIFIC RAILROAD COMPANY, also of Omaha, of control of such rights through the purchase. Applicants' attorney: W. R. Rouse, 1416 Dodge Street, Omaha, Nebr. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes between Walla Walla, Wash., and Pomeroy, Wash., and between Walla Walla, Wash., and Pendleton, Oreg., serving certain intermediate points and the off-route point of Prescott, Wash. Vendee is authorized to operate as a *common carrier* in Wyoming, Idaho, Utah, Colorado, Iowa, Nebraska, Kansas, Missouri, Oregon, Nevada, and Washington. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

[F. R. Doc. 58–5423; Filed, July 15, 1958; 8:52 a. m.]

PETITION TO REDEFINE COMMERCIAL ZONE LIMITS

JULY 11, 1958.

The following petitions relative to the limits of the zone adjacent to and commercially a part of a municipality within the meaning of section 203 (b) (8) of the Interstate Commerce Act have been received and will be processed in the manner hereinafter indicated.

In Ex Parte No. MC–37, *Commercial Zones and Terminal Areas*, five petitions have been filed as follows: by the New Orleans Traffic and Transport Bureau, on April 21, 1958; by Cities Service Oil Company on June 16, 1958; by Shell Oil Company and Shell Chemical Corporation, on June 16, 1958; by General American Transportation Corporation, on June 16, 1958; and by The American Oil Company, on June 16, 1958, seeking redefinition of the limits of the Commercial Zone of New Orleans, La., in a manner to expand them. Petitioners' representatives are: Louis A. Schwartz, General Manager, New Orleans Traffic and Transport Bureau, 408 International Building, 611 Gravier Street, New Orleans 12, La.; George H. Blohm, Traffic Manager, Cities Service Oil Company, 60 Wall Street, New York 5, N. Y.; C. H. Wager, Traffic Manager, Shell Oil Company, 50 West 50th Street, New York 20, N. Y.; H. J. Birmingham, Traffic Manager, General American Transportation Corporation, 135 South La Salle Street, Chicago 90, Ill.; L. F. Andry, Division Traffic Manager, The American Oil Company, 1040 St. Charles Avenue, New Orleans, 13, La.

The limits of the commercial zone of New Orleans, La., are presently defined in Ex Parte No. MC–37, *Commercial Zones and Terminal Area*, (New Orleans, La., Commercial Zone) 66 M. C. C. 709 (49 CFR 170.27).

Petitioners seeks enlargement of the specifically described zone limits, particularly in the areas, east of the Mississippi River to include Mereaux, Violet, Toca, and St. Clair, La., and west of Jefferson Parrish, La., to or near the Bonnet Carre Spellway including Norco, La.

No oral hearing is contemplated with respect to the petition, but an informal investigation with respect to redefinition of the zone limits as requested, and in other respects, will be conducted. Subsequent to such investigation the Commission will either (1) enter an order denying the petition or, (2) if any change is considered, a Notice of Proposed Rule Making will be published. Persons supporting or opposed to any change in the present zone limits, who desire to participate in future proceedings on this petition or be notified of any action taken thereon, should notify the Commission and the individual petitioners of their desire on or before 30 days from the date of this publication.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Notice No. 2]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 11, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's rules § 179.2 (f), any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 61256. By order of July 9, 1958. The Transfer Board approved the transfer to C. Philips Trucking, Inc., Woonsocket, Rhode Island, of certificate in No. MC 94997, issued July 10, 1941, to Celestino Philips, Woonsocket, Rhode Island, authorizing the transportation of; macaroni, from Woonsocket, R. I., to Boston, Cambridge, and Somerville, Mass., and flour, from Boston and Cambridge, Mass., to Woonsocket, R. I., over regular routes, and newspapers, magazines, and periodicals, from Providence, R. I., to points and places in Burrillville, North Smithfield, and Woonsocket Townships, Providence County, R. I., and those in Blackstone Township, Worcester County, Mass., and household goods as defined by the Commission, between points in the Woonsocket, Burrillville, Smithfield, and North Smithfield Townships, Providence County, R. I., on the one hand, and, on the other, points in Massachusetts, over irregular routes. Gerard J. Donovan, 11 Beacon Street, Boston 8, Mass., for applicants.

No. MC–FC 61281. By order of July 8, 1958, The Transfer Board approved the transfer to Samuel Jannetta, doing business as Eastern States Transportation Co., York, Pa., of a portion of permit in No. MC 5619, issued July 21, 1943, to John S. Geiger's Sons, A Corporation, Newark, N. J., authorizing the transportation of *malt beverages, advertising materials, tavern supplies, paper and paperboard, empty containers, exhibits for display*, and all *such commodities* used in a brewery and beverage bottling plant, between Newark, N. J., and points within 30 miles thereof, and between Newark, N. J., and points within 30 miles thereof, on the one hand, and, on the other, points in New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Pennsylvania, Delaware, Maryland, Virginia, and the District of Columbia. S. Harrison Kahn, 726–34 Investment Building, Washington, D. C., for applicants.

No. MC–FC 61306. By order of July 8, 1958, The Transfer Board approved the transfer to Roy A. Kemble, Maple Hill, Kansas, of Certificate in No. MC 7342 Sub 3, issued April 29, 1957, to Vernon Adams, doing business as Flint Hills Truck Line, Maple Hill, Kansas, authorizing the transportation of: Feed, agricultural implements and parts, building materials, petroleum products in containers, empty petroleum products containers, hardware, aluminum pipe, irrigation equipment, commercial fertilizer, fence posts, twine, wire fencing, and baling wire, between Paxico, Kans., and points within 21 miles thereof, on the one hand, and, on the other, Kansas City and St. Joseph, Mo. Floyd D. Strong, 701 Jackson Street, Topeka, Kansas, for applicants.

No. MC–FC 61307. By order of July 8, 1958, The Transfer Board approved the transfer to Paul R. Kemble, Dover, Kansas, of certificate No. MC 75321, issued October 4, 1949, to Roy A. Kemble and Paul R. Kemble, a partnership, doing business as Kemble Brothers, Dover, Kansas, authorizing the transportation over irregular routes, of livestock and molasses containers, from Dover, Kans., and points within ten miles of Dover, to Kansas City, Mo., Kans., and Livestock, feed, molasses, farm machinery, and parts, binder twine, building materials, and fencing materials, from Kansas City, Mo., Kans., to Dover, Kans., and points within ten miles of Dover. Floyd D. Strong, 701 Jackson Street, Topeka, Kansas, for applicants.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF–2440]

CONDOR PETROLEUM CO., INC.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

JULY 9, 1958.

Condor Petroleum Co., Inc., a Delaware corporation, filed with the Commission on September 5, 1957, a notification and offering circular relating to a proposed offering of 100,000 shares of its 10-cent par value common stock at $3.00 per share and subsequently filed amendments thereto for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3 (b) thereof and Regulation A promulgated thereunder.

The Commission has reasonable grounds to believe that:

A. The offering circular contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made in the light of circumstances under which they are made not misleading, particularly, with respect to:

(1) The identity of the actual underwriter;

(2) The identity of the person or persons to whom commissions on sales of securities are being paid.

B. The offering is being and would be made in violation of section 17 of the act.

C. The Regulation A exemption is not available pursuant to Rule 261 (a) (6) in that the actual underwriter of the securities being offered was temporarily enjoined by the United States District Court for the Southern District of New York on January 3, 1958, from further violations of section 15 (c) (3) of the Securities Exchange Act of 1934.

It is ordered, Pursuant to Rule 261 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given to Condor Petroleum Co., Inc. and to any person having any interest in the matter that this order has been entered, that the Commission upon receipt of a written request within thirty days after the entry of this order will, within twenty days after receipt of such request, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether to vacate the temporary suspension order or to enter an order permanently suspending the exemption without prejudice, however, to the consideration and presentation of additional matters at the hearing, that if no hearing is requested and none is ordered by the Commission, the suspension order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter D—Regulations Under Soil Bank Act

[Amdt. 11]

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

The regulations governing the 1958 acreage reserve program, 22 F. R. 6397, as amended and supplemented, are hereby further amended as follows:

1. Section 485.309 (a) is amended by deleting the period at the end of the second sentence and adding the following: "except that the Administrator may, in order to prevent undue hardship, authorize the county committee to accept an agreement after such closing date if, because of misinformation or misunderstanding, the producer was under the impression that he had filed an agreement or did not realize that he had to file an agreement by the applicable closing date."

2. Section 485.309 (b) (3) is amended by adding at the end thereof the following: "Notwithstanding the foregoing provisions of this subparagraph, the Administrator may authorize the county committee to permit the owner or landlord to sign an agreement after the dates provided for above in this subparagraph if, in his judgment, such action is necessary in order to prevent undue hardship."

3. Section 485.337 is amended to read as follows:

§ 485.337 *Termination of agreements.* The Administrator, in order to prevent undue hardship, may, upon recommendation of the State committee, consent to the termination by the producer of any agreement entered into hereunder, if in his judgment, such action is in the best interests of the program.

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812)

Issued at Washington, D. C., this 14th day of July 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter IV—Foreign-Trade Zones Board

[Order 47]

PART 400—GENERAL REGULATIONS GOVERNING FOREIGN-TRADE ZONES IN THE UNITED STATES, WITH RULES OF PROCEDURE

APPLICATIONS; EXAMINERS COMMITTEE

Pursuant to the provisions of section 8 of the Foreign-Trade Zones Act of June 18, 1934 (48 Stat. 1000; 19 U. S. C. 81h), the General Regulations Governing Foreign-Trade Zones in the United States, with Rules of Procedure (15 CFR Part 400), are hereby amended as follows:

1. Amend § 400.1307 to read as follows:

§ 400.1307 *Applications.* Upon receipt of an application, the Executive Secretary of the Foreign-Trade Zones Board will designate an examiner who will investigate the application and accompanying exhibits for compliance with the provisions of §§ 400.600 to 400.608.

2. Amend § 400.1308 to read as follows:

§ 400.1308 *Examiners Committee.* If the application and accompanying exhibits are in order, the Executive Secretary of the Foreign-Trade Zones Board will appoint an Examiners Committee and designate a chairman. This committee will consist of the examiner appointed by the Executive Secretary who has examined the application as provided in § 400.1307, the Collector of Customs and the District Engineer in whose districts the proposed zone is to be located. The committee will then make a thorough investigation of the application and report its findings to the Board.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary in connection with the issuance of this order, because its application is restricted to the administrative functions of the Foreign-Trade Zones Board, and is of a nature that it imposes no burden on the parties of interest. The effective date of this order

Correction

In F. R. Document 58-5232, appearing in the issue for Wednesday, July 9, 1958, at page 5183, make the following change: In § 723.938 (d), lines 24 and 25, "acre penalty" should read "zero penalty".

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter C—Determination of Proportionate Shares

[Sugar Determination 855.6]

PART 855—MAINLAND CANE SUGAR AREA

PROPORTIONATE SHARES FOR FARMS; 1959 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (hereinafter referred to as "act"), the following determination is hereby issued:

§ 855.6 *Proportionate shares for sugarcane farms in the Mainland Cane Sugar Area for the 1959 crop*—(a) *Definitions.* "Acreage" or "acres" as used in this section means the area of sugarcane within the farm proportionate share on which sugarcane is grown and marketed (or processed) for the extraction of sugar or liquid sugar, or which is harvested for seed or abandoned and classified as bona fide abandonment under procedure issued by the Commodity Stabilization Service. The term "operator" as used in this section means the person who as producer controls and directs the operations on the farm. The term "Secretary" as used in this section means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture to whom authority has been delegated, or to whom authority may hereafter be delegated to act in his stead.

(b) *Farm proportionate share.* A 1959-crop proportionate share for each sugarcane farm in the Mainland Cane Sugar Area, as constituted at the beginning of harvest of the 1959 crop on such farm, shall be established as hereinafter provided in terms of acres by the Agricultural Stabilization and Conservation County Committee (hereinafter referred to as "county committee") for the county in which the farm headquarters is located.

(1) *Farms for which 1958 farm proportionate shares were established.* (i) The 1959 proportionate share for any farm for which a proportionate share was established pursuant to § 855.5 (22 F. R. 8112) shall be the larger of (*a*) ten acres or (*b*) 110 percent of the final established 1958 proportionate share for the farm, or in the case of subdivisions or combinations of 1958 farms, 110 percent of the 1958 proportionate share computed in accordance with subdivisions (ii) and (iii) of this subparagraph.

(ii) The 1958 proportionate share for any farm which is subdivided for the purposes of the 1959-crop proportionate share program shall be divided among the subdivisions for the purposes of establishing 1959-crop proportionate shares for such subdivisions pursuant to subdivision (i) of this subparagraph by one of the following methods: By multiplying the 1958 proportionate share for the farm of which such subdivisions were a part by the percentage that the cropland suitable for the production of sugarcane in each subdivision is of the total cropland suitable for the production of sugarcane in the 1958 farm; or, if the county committee determines that the use of the cropland relationship in any case results in the establishment of a proportionate share which is materially inconsistent with the acreage of sugarcane grown on any subdivision during the crop years 1956, 1957 and 1958, or is not representative of the existing sugarcane acreage growing on any subdivision, by apportioning the 1958 proportionate share for such farm to the subdivisions thereof on the basis of the total acreage of sugarcane grown within farm proportionate shares on each subdivision during the crop years 1956, 1957 and 1958, or on the basis of existing acreage of sugarcane growing on each subdivision; or if all persons concerned in the subdivision of such farm file a written request with the county committee which is approved by the county committee, by apportioning the 1958 proportionate share for such farm to the subdivisions thereof on the basis of the total acreage of sugarcane grown within farm proportionate shares on each subdivision during the crop years 1956, 1957 and 1958 or on the basis of existing acreage of sugarcane growing on each subdivision, whichever basis is requested.

(iii) If, for the purposes of the 1959-crop proportionate share program, two or more farms as constituted for the 1958-crop proportionate share program, or two or more subdivisions of any such farms are combined, or there is a combination of one or more such farms and one or more such subdivisions, the 1958 proportionate share computed for the combined farm for the purposes of subdivision (i) of this subparagraph shall be the sum determined by adding the 1958 farm proportionate shares of entire 1958 farms, if any, involved in the combination, and the 1958 proportionate shares calculated for farm subdivisions, if any, involved in the combination, as provided in subdivision (ii) of this subparagraph.

(2) *New farms.* The proportionate share for any farm for which a 1958 proportionate share was not established shall be 5.0 acres.

(3) *Transfer of farm proportionate shares.* The proportionate share established or which would have been established pursuant to subparagraph (1) of this paragraph for any land either removed from sugarcane production because of transfer by sale, lease or donation to any Federal, State or other agency or entity, having the right of eminent domain, or transferred to such an agency or entity for use primarily for the production of sugarcane for experimental purposes, shall, upon application to the appropriate Agricultural Stabilization and Conservation State Office (referred to in this section as "State Office") within five years from the date of such transfer, be added to the proportionate share, if any, established for other land within the State owned, purchased, or leased by the owner of the land so transferred.

(4) *Adjustments of proportionate shares.* Wherever the county commit-

tee determines that the proportionate share established for a farm is not large enough to provide for experimental seedings of sugarcane under the supervision of a Federal or State agency, or is not fair and equitable as compared with proportionate shares for other farms in the county or parish, considering the availability and suitability of land, adequacy of drainage, availability of production facilities, and the production experience of the operator, the county committee shall, after review of all the facts, forward the case, together with its recommendations, to the appropriate Agricultural Stabilization and Conservation State Committee (referred to in this section as "State Committee"). The State Committee shall review the county committee's recommendation, make such adjustments in the proportionate share as are determined to be necessary to establish a proportionate share for the farm which will permit the planting of such experimental acreage or one which is fair and equitable considering the foregoing factors and return the case to the county committee indicating appropriate disposition. For the purpose of making such adjustments, a maximum of 440 acres is hereby established for the State of Louisiana, and a maximum of 60 acres is established for the State of Florida.

(5) *Notification of proportionate shares.* Each operator of a farm for which a proportionate share is established pursuant to this section shall be notified in writing on behalf of the county committee of the proportionate share established for his farm and of his right to appeal under subparagraph (7) of this paragraph.

(6) *Notification of excess sugarcane acreage.* If the county committee determines that the measured acreage of sugarcane for any farm is in excess of the acreage established as the proportionate share for such farm, written notice of the acreage in excess of the proportionate share (referred to in this section as "excess acreage") and of the eligibility requirements for payment as set forth in paragraph (c) (6) of this section shall be furnished to the operator of such farm.

(7) *Appeals.* A producer of sugarcane who believes that the proportionate share established for his farm pursuant to this section is inequitable may file an appeal in writing at the local Agricultural Stabilization and Conservation County Office (referred to in this section as "county office") prior to July 1, 1959. The county committee shall make such adjustments as are necessary due to the use of any incorrect data in determining the proportionate share. In any other case, the county committee shall, after review of all the facts, forward the case, together with its recommendation, to the State Committee. The State Committee shall review the county committee's recommendation, act upon the appeal, and return the case to the county committee indicating the appropriate disposition. Upon receipt thereof, the county committee shall notify the producer in writing as soon as possible regarding the decision on his appeal. If the producer is dissatisfied with the decision, he may appeal in writing before September 1, 1959, to the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C., whose decision shall be final. In acting upon the appeal, the State Committee or the Director shall consider only such matters as under the provisions of this section are required or permitted to be considered by the county committee in the establishment of the farm proportionate share to be reviewed.

(8) *Erroneous notice of 1959 proportionate share.* If through error, a producer is officially notified of a 1959 proportionate share for his farm greater than the proportionate share properly established pursuant to this section, and it is found by the State Committee that such producer, acting solely on the information contained in the erroneous notice, marketed 1959-crop sugarcane from an acreage in excess of the proportionate share properly established, the producer will be deemed to be in compliance with the farm proportionate share unless he marketed sugarcane for sugar from an acreage in excess of the proportionate share stated in the erroneous notice or unless it is determined by the State Committee that the error was so gross as to place the producer on notice regarding the error. However, the Sugar Act payment with respect to the farm shall be limited to the amount of sugar commercially recoverable from the sugarcane marketed (or processed) from the acreage within the properly established proportionate share.

(c) *Eligibility for payment under the Act.* The eligibility of any producer of sugarcane for payment under the act shall be subject to the following conditions:

(1) That the acreage of sugarcane grown on the farm and marketed (or processed) for the production of sugar or liquid sugar shall not exceed the proportionate share determined for the farm in accordance with this section, except that any sugarcane grown on acreage in excess of such proportionate share may be marketed (or processed) for the extraction of sugar or liquid sugar for livestock feed or for the production of livestock feed, if the operator-producer on the farm furnishes to the county committee weight tickets evidencing that such sugarcane was sold by him, or was processed by or for him for the extraction of sugar or liquid sugar for livestock feed or the production of livestock feed, and if so sold, was purchased by the processor for such purpose. Notwithstanding the foregoing provisions of this subparagraph, the producer shall be deemed to have met the requirements for payment with respect to marketings (or processings) within the farm proportionate share where sugarcane was marketed (or processed) for sugar or liquid sugar from an acreage on the farm exceeding the farm proportionate share: *Provided*, That: (i) Such excess acreage is not more than the larger of two-tenths acre or one percent of the farm proportionate share but not to exceed three acres, and (ii) within one year from the date of the processing of such excess sugarcane, the producer has arranged for a quantity of sugar which was produced from sugarcane in the Mainland Cane Sugar Area, which had not been marketed to fill a quota for such area as provided in Part 816 of this chapter and which is equivalent to the quantity of sugar produced from such excess acreage, to be made subject to a bond given pursuant to the provisions of Part 816 of this chapter which provides that a condition of such bond be that the sugar shall be used for livestock feed or for the production of livestock feed. The Sugar Act payment in any such case shall be limited to the amount of sugar commercially recoverable from the sugarcane marketed (or processed) from the acreage within such share;

(2) That the number of share tenants or sharecroppers engaged in the production of sugarcane of the 1959 crop on the farm shall not be reduced below the number so engaged with respect to the previous crop, unless such reduction is approved by the State Committee. In considering such approval the State Committee shall be guided by whether the reduction was the result of a voluntary action of the share tenant or sharecropper, or whether the reduction was beyond the control of the producer;

(3) That the producer shall not have entered into any leasing or cropping agreement for the purpose of diverting to himself or any other producer any payments to which share tenants or sharecroppers would be entitled if their leasing or cropping agreements for the previous crop were in effect;

(4) That the requirements of the act with respect to child labor shall have been met, except that such requirements shall not be applicable to any sugarcane marketed (or processed) from an acreage in excess of the proportionate share for the farm for the production of sugar or liquid sugar for livestock feed if the producer furnishes proof which the county committee finds acceptable and adequate that the work performed by any child subject to such requirements was related solely to such sugarcane;

(5) That the requirements of the act and of the regulations issued pursuant thereto with respect to wage rates and, in the case of a processor-producer (a producer who is also a processor), prices paid for sugarcane shall have been met;

(6) That if the county committee determines there is excess acreage of sugarcane on a farm:

(i) Any excess acreage which the producer elects to plow-out, abandon, or harvest separately must be so disposed of before or after the harvest of sugarcane for sugar and appropriate notification must be given by the operator to permit verification by a county office representative of the action taken, except that in Florida excess acreage may be plowed-out or harvested for cattle feed during the period that sugarcane is being harvested for sugar if the county office is notified prior thereto and a representative of that office verifies that such acreage has been plowed-out or harvested for cattle feed;

(ii) Any excess acreage of sugarcane harvested for feed, the manufacture of

syrup, or sugar for livestock feed or for the production of livestock feed concurrently with acreage within the proportionate share which is being harvested for sugar or liquid sugar must be staked out or similarly and clearly identified by a representative of the county office and the staked-out acreage must be so located on the farm that it may be harvested readily without interfering with the harvest of proportionate share acreage and the identity of the sugarcane from excess acreage must be maintained separately after harvest to assure its marketing to the mill for such purposes: *Provided*, That if sugarcane is harvested from excess acreage for the manufacture of sirup concurrently with the harvest of sugarcane for the production of sugar or liquid sugar, other than sugar for livestock feed, and such acreage is not staked-out or identified as provided in this subdivision, the producer shall not market a quantity of sugarcane for the production of sugar or liquid greater than the total of the tonnages of sugarcane marketed for both sugar and sirup multiplied by the percentage that the acreage harvested for sugar on the farm is of the total acreage of sugarcane marketed for both of such purposes.

(iii) An estimate of the average tons of sugarcane per acre growing on excess acreage which has been staked-out or similarly identified and which has been designated for harvest for sirup or sugar for livestock feed must be made jointly and before harvest by a representative of the county office and by the operator of the farm, which estimate must be reduced to writing and signed by the operator and placed on record in the county office.

(iv) Any farm operator who markets sugarcane from excess acreage for sirup must furnish to the county committee weight tickets evidencing that such sugarcane was sold by him or processed by him or for him for such purpose, and in the case where excess acreage is staked-out and an estimate is made as provided in subdivision (iii) of this subparagraph, if the average tonnage of sugarcane per acre grown on such excess acreage, as computed by dividing the total tonnage of sugarcane marketed for sirup by the excess acreage, is less than 80 percent of the estimate made pursuant to subdivision (iii) of this subparagraph, no payment shall be made until the operator furnishes proof acceptable to the county committee that the sugarcane from all of the excess acreage on the farm was marketed or disposed of other than for seed or the production of sugar or liquid sugar except sugar or liquid sugar for livestock feed.

(v) The operator must maintain a record of the excess acreage in each field or parts of fields and the method and purpose of disposal of sugarcane grown on excess acreage in each such case.

(d) *Filing application for payment.* Application for payments authorized under Title III of the act with respect to sugarcane planted on a farm for harvest during the 1959-crop season shall be made on Form SU-120 by a producer on the farm (as used in this section the term "producer" means any person who is the legal owner at the time of harvest or abandonment of a portion or all of the crop of sugarcane grown on the farm for the extraction of sugar or liquid sugar) or his legal representative or heirs who must sign and file the form in the county office for the county where the farm or major portion thereof is located or with a representative of such office no later than June 30, 1961.

(e) *Determination of eligibility and basis for payment and appeals for review thereof.* Except as otherwise provided in regulations relating to conditional payments, compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment, and the amount thereof shall be determined by the county committee. Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider such determination. The county committee shall notify the producer of its decision in writing. If the producer is dissatisfied with the decision of the county committee, he may, within 15 days after the date of mailing of the decision to him, appeal in writing to the State Committee. The State Committee shall, after giving the producers an opportunity to appear before the Committee, if so requested, notify the producer of its decision in writing within 30 days after the submission of the appeal. If the producer is dissatisfied with the decision of the State Committee, he may, within 15 days after the date of mailing of the decision to him, request the Secretary to review the decision of the State Committee. The decision of the Secretary shall be final. Determinations by the County and State Committees and reviews thereof shall be made and decided in accordance with the applicable provisions of the act and regulations issued by the Secretary thereunder and on the basis of the facts in the individual case.

(f) *Obtaining information regarding eligibility for payment.* Where it is necessary to obtain information to assist the county committee in determining compliance with the conditions prescribed by the act and regulations for any payment authorized under Title III of the act, the facts constituting the basis for any such payment or the amount thereof, or to assist the State Committee or the Secretary in reviewing, upon appeal, any such determination by the county committee, any such information with respect to acreage or compliance shall be obtained as provided in the applicable provisions of Part 718 of this title, as amended. If the operator or his representative, of any farm with respect to which application is made for any payment authorized under Title III of the act prevents the obtaining of the information necessary to determine compliance with the conditions for any such payment, the facts constituting the basis of any such payment or the amount thereof, as provided in this paragraph, the conditions prescribed by the act and regulations for any such payment shall be deemed not to have been met until such farm operator or his representative permits such information to be obtained.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar Act requirements. Section 301 (b) of the act provides as a condition for payment to producers that there shall not have been marketed (or processed), except for livestock feed, an amount of sugarcane grown on the farm and used for the production of sugar or liquid sugar in excess of the proportionate share for the farm as determined by the Secretary pursuant to section 302 of the act. For the Mainland Cane Sugar Area, the term "proportionate share" means the individual farm's share of the total acreage of sugarcane required to enable the area to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary, for the calendar year during which the larger part of the sugar from such crop normally would be marketed.

Section 302 (a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm.

Section 302 (b) provides that in determining the proportionate share for a farm, the Secretary may take into consideration the past production on the farm of sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugarcane, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or sharecroppers and of producers in any local producing area whose past production has been adversely, seriously, and generally affected by drought, storm, freeze, flood, disease, insects, or other similar abnormal and uncontrollable conditions.

General. Pursuant to the foregoing provisions of the act, proportionate shares for sugarcane farms are established for each crop since the marketing of sugarcane within such shares by producers constitutes one of the conditions for payment. Restrictive proportionate shares are required in any area when the indicated production will be greater than the quantities needed to fill the quota and provide a normal carryover inventory for such area.

Situation indicated for 1959. Information available at the time the 1958-crop determination was issued (October 8, 1957) indicated that the effective inventory of sugar on January 1, 1958 (i. e., sugar on hand, plus sugar processed after January 1, from sugarcane of the previous year's designation) would equal or exceed the January 1, 1957, inventory of about 347,000 tons. Because of extremely unfavorable weather conditions during the harvest season, 1957-crop production was limited to 532,000 tons. With 1957 marketings of 635,700 tons, the effective inventory on January 1, 1958, actually amounted to 243,000 tons, down

by more than 100,000 tons from a year earlier. Information received from the industry indicates that the same adverse weather conditions in the fall of 1957 also affected the 1958 crop of sugarcane to some degree and that sugar production therefrom may not be significantly higher than 600,000 tons. Assuming this production level and the present quota of 685,441 tons, the effective inventory on January 1, 1959, will be about 160,000 tons of sugar. While this is lower than any beginning-of-the-year inventory since 1952, it is reasonable to assume that if the 1959 crop were unrestricted and if yields of sugar per acre resume the upward trend shown for the period prior to 1957, excessive stocks would accumulate. Accordingly it is deemed that restrictions on the 1959 crop are needed.

Public hearing. An informal public hearing was held in New Orleans, Louisiana, on May 20, 1958, to receive information and recommendations for establishing farm proportionate shares in the Mainland Sugarcane Area for the 1959 crop. In a press release of May 6, 1958, the Department asked for comments, suggestions and discussion at the hearing regarding the type of program desired by the producers concerned. The industry also was asked for views regarding the total acreage which should be allotted for sugarcane production for the 1959 crop and for recommendations as to what a normal carryover of sugar should be. The hearing was attended by a large number of interested persons from Louisiana and Florida, and testimony was presented by persons representing essentially all producers of sugarcane in the area.

A recommendation was made by an industry representative, which was concurred in by other industry representatives, that the basic pattern of the 1958 program be extended for the 1959 crop. Recommendations by industry representatives for changes from the 1958-crop determination, included the following: (1) That the 1959 proportionate share for each old farm be the larger of ten acres or 110 percent of the 1958 farm share.

(2) That the special provisions of the 1958 determination applicable to Avoyelles, Rapides and St. Landry Parishes in Louisiana be omitted from the 1959 determination.

(3) That the adjustment provisions be amended to permit an increase in the proportionate share acreage for a farm to enable an experiment station to expand its acreage of seedling sugarcane.

Those who testified recommended unanimously that the 1959 acreage level for the area be increased by 10 percent over the 1958-crop level. They also agreed that the industry would be willing to carry any increased sugar inventories that might possibly result from the proposed increase in the acreage level.

Determination. This determination provides for the establishment of total 1959-crop proportionate shares, as recommended by the industry, at 110 percent of the 1958 acreage level. In establishing this acreage level, consideration has been given to the prospective sugar supply and inventory situation, the probable sugar marketing opportunities for the area in 1958 and 1959, factors such as variations in yield and the possibilities of freeze damage which may affect production, and the testimony presented at the hearing. Production of sugar from the acreage level provided for in this determination should enable the area to fill its quota and maintain a normal carryover inventory.

For 1959 farms which are identical with 1958 farms, 1959 proportionate shares will equal 110 percent of the 1958 proportionate shares, except that the minimum share for any such farm will be ten acres rather than five acres as was the case for 1958. This will permit a somewhat more economical level of operation for many small farms. Special provisions included in the 1957 and 1958 determinations for the Northern Louisiana Area have been eliminated from this determination, since the proportionate shares established pursuant to the determination should provide sufficient acreage to permit an economic operation of the one mill located in that area.

The provisions of this determination with respect to (1) proportionate shares for new farms, (2) proportionate shares for farms removed from sugarcane production because of transfer to any agency or entity having the right of eminent domain or for use primarily for the production of sugarcane for experimental purposes, (3) the division or combining of acreage records where farms are subdivided or combined, and (4) other general provisions are substantially the same as those included in the 1958-crop determination. The recommendations of the industry have been adopted generally. The acreages made available for adjustments in proportionate shares (440 in Louisiana and 60 in Florida) are identical to those effective for 1958. Based upon experience during the past four years, such acreages will be sufficient to make equitable adjustments in farm proportionate shares and in addition enable the adjusting of proportionate shares to provide for acreages of seedling sugarcane grown by experiment stations of Federal and State agencies.

As in 1958, this determination provides for a written notice to any farm operator for whose farm it is determined that the growing sugarcane acreage is in excess of the proportionate share and provides further that such farm operator shall be notified of the requirements that must be met with respect to such excess acreage in order to be eligible for payment. To make it more practicable for county committees to determine compliance with proportionate shares, farm operators of farms having excess acreage are again required to dispose of such acreage at certain times and under certain conditions and to furnish proof that the sugarcane from the excess acreage was used for purposes other than the production of quota sugar.

It is believed that this determination provides an equitable basis for establishing proportionate shares for the 1958 Mainland Sugarcane Crop.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the act.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153; interprets or applies secs. 301, 302, 61 Stat. 929, as amended; 7 U. S. C. 1132)

Issued this 14th day of July 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 944—MILK IN QUAD CITIES MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. et seq.), and of the order regulating the handling of milk in the Quad Cities marketing area (7 CFR Part 944), it is hereby found and determined that:

(a) The following provisions of § 944.10 (b) will not tend to effectuate the declared policy of the act for the months of July and August 1958: "From which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year."

(b) Notice of proposed rule making, public procedure thereon, and 30 days' notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) The information upon which this action is based did not become available in time sufficient for such compliance.

(2) A substantial majority of the producers and handlers of milk for the market have requested this action.

(3) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(4) This suspension order does not require of persons affected substantial or extensive preparation.

Therefore, good cause exists for making this order effective July 1, 1958.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended effective July 1, 1958, for the period July through August 1958.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 11th day of July 1958.

[SEAL] DON PAARLBERG,
Assistant Secretary.

MARKET ADMINISTRATOR

1000.25 Designation.
1000.26 Powers.
1000.27 Duties.

REPORTS, RECORDS AND FACILITIES

1000.30 Reports of sources and utilization.
1000.31 Other reports.
1000.32 Records and facilities.
1000.33 Retention of records.

CLASSIFICATION OF MILK

1000.40 Skim milk and butterfat to be classified.
1000.41 Classes of utilization.
1000.42 Responsibility of handlers.
1000.43 Transfers.
1000.44 Computation of skim milk and butterfat in each class.
1000.45 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

1000.50 Basic formula price.
1000.51 Class prices.
1000.52 Butterfat differentials to handlers.
1000.53 Location differentials to handlers.
1000.54 Rate of compensatory payments.
1000.55 Use of equivalent prices.

APPLICATION OF PROVISIONS

1000.60 Producer-handlers.
1000.61 Plants subject to other Federal orders.
1000.62 Operators of nonpool plants.

DETERMINATION OF PRICES TO PRODUCERS

1000.70 Computation of the value of producer milk for each handler.
1000.71 Computation of the uniform price.
1000.72 Computation of uniform prices for base milk and excess milk.
1000.73 Butterfat differential to producers.
1000.74 Location differential to producers.
1000.75 Notification of handlers.

PAYMENTS

1000.80 Time and method of payment for producer milk.
1000.81 Producer-settlement fund.
1000.82 Payments to the producer-settlement fund.
1000.83 Payments out of the producer-settlement fund.
1000.84 Adjustment of errors in payment.
1000.85 Marketing services.
1000.86 Expenses of administration.
1000.87 Termination of obligations.

DETERMINATION OF BASE

1000.90 Computation of daily average base for each producer.
1000.91 Base rules.
1000.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

1000.100 Effective time.
1000.101 Suspension or termination.
1000.102 Continuing obligations.
1000.103 Liquidation.

MISCELLANEOUS PROVISIONS

1000.110 Agents.
1000.111 Separability of provisions.

AUTHORITY: §§ 1000.0 to 1000.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 1000.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Chattanooga, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such amount not to exceed 4 cents per hundredweight as the Secretary may prescribe with respect to all butterfat and skim milk contained in (i) producer milk, (ii) other source milk allocated to Class I milk pursuant to § 1000.45 (a) (3) and (4) and (b), and (iii) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1000.62.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than August 1, 1958.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued May 21, 1958, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued June 19, 1958. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective August 1, 1958, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c (9) of the act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Chattanooga, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

DEFINITIONS

§ 1000.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 1000.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 1000.3 *Chattanooga, Tennessee, marketing area.* "Chattanooga, Tennessee, marketing area", called the "marketing area" in this part, means all of the territory included within the boundaries of Hamilton, McMinn and Bradley counties, all in the State of Tennessee.

§ 1000.4 *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

§ 1000.5 *Approved dairy farmer.* "Approved dairy farmer" means any person who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority.

§ 1000.6 *Producer.* "Producer" means any approved dairy farmer who produces milk which is received during the month at a pool plant: *Provided*, That if such milk is diverted from a pool plant by a handler to a nonpool plant for his account any day during the months of March through July or on not more than 10 days during any other month, the milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which diverted.

§ 1000.7 *Pool plant.* "Pool plant" means any:

(a) Milk distributing plant approved or recognized by any health authority having jurisdiction in the marketing area for the receiving or processing of Grade A milk and from which Class I milk equal to not less than 50 percent of its receipts of milk from other pool plants and from approved dairy farmers is disposed of during the month on a route(s) and from which Class I milk equal to not less than 20 percent of its total Class I disposition is disposed of during the month on a route(s) in the marketing area.

(b) Milk supply plant which, during the month, ships fluid milk products approved by any health authority having jurisdiction in the marketing area as eligible for distribution under a Grade A label in a volume equal to not less than 50 percent of its receipts of milk from approved dairy farmers to a plant specified in paragraph (a) of this section: *Provided*, That any plant which qualifies as a pool plant pursuant to this paragraph in each of the months of August through February shall be designated as a pool plant for the following months of March through July: *And provided further*, That any such plant may withdraw from pool plant status for any month in the March–July period if the operator of such plant files with the market administrator prior to the first day of such month a written request for such withdrawal.

§ 1000.8 *Nonpool plant.* "Nonpool plant" means any milk plant other than a pool plant.

§ 1000.9 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of one or more pool plants; or (b) a cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 1000.6.

§ 1000.10 *Producer-handler.* "Producer-handler" means any approved dairy farmer who operates a distributing plant in which he processes milk from his own production, and distributes all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from other dairy farmers or from nonpool plants.

§ 1000.11 *Producer milk.* "Producer milk" means only that skim milk and butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 1000.6.

§ 1000.12 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk and skim milk drinks, yogurt, cream (sweet or sour) or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, eggnog, ice cream and ice milk mix and aerated cream).

§ 1000.13 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 1000.14 *Route.* "Route" means any delivery (including delivery by a vendor or a sale from a plant or plant store) of milk or any milk product classified as Class I milk pursuant to § 1000.41 (a) other than a delivery to any milk processing plant.

§ 1000.15 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have and to be exercising full authority in the sale of milk of its members.

§ 1000.16 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

§ 1000.17 *Base milk.* "Base milk" means milk received at pool plants from a producer during any of the months of March through July which is not in excess of such producer's daily average base computed pursuant to § 1000.90, multiplied by the number of days in such month.

§ 1000.18 *Excess milk.* "Excess milk" means milk received at pool plants from a producer during any of the months of March through July which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 1000.90.

§ 1000.19 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency that may be authorized by act of Congress or by executive order to perform the price reporting functions of the United States Department of Agriculture.

MARKET ADMINISTRATOR

§ 1000.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 1000.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 1000.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 1000.86: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 1000.85 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this section, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, unless

otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any handler who, after the date on which he is required to perform such acts has not made reports pursuant to §§ 1000.30 and 1000.31 or payments pursuant to §§ 1000.80 through 1000.86;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

(i) Verify all reports and payments of each handler by audit if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this order which do not reveal confidential information; and

(k) On or before the date specified publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and mail to each handler at his last known address a notice of, the following:

(1) The 10th day of each month, the Class I milk price and the Class I butterfat differential, both for the current month; and the Class II milk price, and the Class II butterfat differential, both for the preceding month, and

(2) The 10th day of each month, the uniform prices, computed pursuant to §§ 1000.71 and 1000.72, and the producer butterfat differential, both for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 1000.30 *Reports of sources and utilization.* On or before the 6th day after the end of each month each handler, except a producer-handler, shall report for each of his pool plants for such month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Other source milk;

(4) Inventories of fluid milk products on hand at the beginning of the month; and

(5) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, including separate statements as to the disposition of Class I milk outside the marketing area, and inventories of fluid milk products on hand at the end of the month.

§ 1000.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler, except a producer-handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator:

(1) On or before the 6th day of each of the months of April through August, the aggregate quantity of base milk received at his pool plant(s) for the preceding month,

(2) On or before the 20th day after the end of the month, for each of his pool plants, his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including for the months of March through July, the pounds of base milk, (iii) the days for which milk was received from such producer if less than the entire month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment to the producer; together with the price paid and the amount and nature of any deductions,

(3) On or before the day prior to diverting producer milk pursuant to § 1000.6, his intention to divert such milk, the date or dates of such diversion and the nonpool plant to which such milk is to be diverted, and

(4) Such other information with respect to his sources and utilization of butterfat and skim milk as the market administrator may prescribe.

(c) Upon request by the market administrator, operators of nonpool plants distributing milk in the marketing area or selling milk to pool plants as defined in § 1000.7 shall file a report containing such information with respect to receipts and utilization of butterfat and skim milk as the market administrator may prescribe.

§ 1000.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers and disbursement of money so deducted.

§ 1000.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 1000.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 1000.30 (a) shall be classified each month pursuant to the provisions of §§ 1000.41 through 1000.45.

§ 1000.41 *Classes of utilization.* Subject to the conditions set forth in §§ 1000.42 through 1000.45, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and (2) not specifically accounted for as Class II milk; and

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) contained in inventories of fluid milk products on hand at the end of the month; (3) skim milk disposed of and used for livestock feed or skim milk dumped subject to prior notification to and inspection (at his discretion) by the market administrator; and (4) in shrinkage not to exceed 2 percent, respectively, of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 1000.6) and other source milk: *Provided*, That if shrinkage of skim milk or butterfat is less than such 2 percent it shall be assigned pro rata to the skim milk or butterfat contained in producer milk (except that diverted pursuant to § 1000.6) and other source milk respectively.

§ 1000.42 *Responsibility of handlers.* All skim milk and butterfat to be classified pursuant to this order shall be classified Class I milk, unless the handler who first receives such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified as Class II milk.

§ 1000.43 *Transfers.* (a) Skim milk and butterfat transferred to a pool plant of another handler (except a producer-handler) in the form of fluid milk products shall, to the extent required, be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified Class I milk, unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 1000.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk

for any month shall be limited to the respective amounts thereof remaining in Class II milk for such month at the pool plant(s) of the receiving handler after the subtraction of other source milk pursuant to § 1000.45;

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified Class I milk;

(c) Skim milk and butterfat transferred or diverted in bulk form as milk or skim milk to a nonpool milk plant shall be classified Class I milk unless, (1) the transferee-plant is located less than 250 miles from the City Hall in Chattanooga, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, (2) the transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1000.30 for the month within which such transaction occurred, (3) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (4) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk; and

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant shall be classified Class I milk unless, (1) the transferring handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 1000.30, (2) the handler attaches tags or labels to each container of such cream bearing the words "for manufacturing uses only" and the shipment is so invoiced, (3) the handler gives the market administrator sufficient notice to allow him to verify such shipment, (4) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (5) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk.

§ 1000.44 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors, the reports submitted by each handler pursuant to § 1000.30 and compute the total pounds of skim milk and butterfat respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided*, That the skim milk contained in any product utilized, produced, or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 1000.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month:

(1) Subtract from the pounds of skim milk in Class I milk disposed of as cream (sweet or sour), skim milk, flavored milk, flavored milk and skim milk drinks, and buttermilk, all in consumer-packaged form on routes, the pounds of such skim milk received during the month in the same product and same packages from a plant fully regulated pursuant to Order No. 88 (Part 988 of this chapter) regulating the handling of milk in the Knoxville marketing area: *Provided*, That this subparagraph shall not apply to any item received if the same product is processed and packaged in the pool plant.

(2) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified as Class II milk pursuant to § 1000.41 (b),

(3) Subtract from the pounds of skim milk remaining in Class II milk the skim milk received as other source milk not in the form of fluid milk products: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(4) Subtract from the pounds of skim milk remaining in Class II milk the skim milk in other source milk received in the form of fluid milk products and not subject to the Class I pricing provisions of another order issued pursuant to the act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(5) Subtract from the pounds of skim milk remaining in Class II milk the skim milk in other source milk which was not subtracted pursuant to subparagraph (1) of this paragraph and which is subject to the Class I pricing provisions of another order issued pursuant to the act; *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk,

(6) Subtract from the pounds of skim milk remaining in Class II milk the skim milk contained in inventories of fluid milk products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk the balance shall be subtracted from the pounds of skim milk remaining in Class I milk,

(7) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 1000.44 (a),

(8) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (2) of this paragraph,

(9) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk. Any amount so subtracted shall be known as "overage";

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk; and

(c) Add the pounds of skim milk and the pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 1000.50 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest cent) to be used in determining the price for Class I milk pursuant to § 1000.51 (a) shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraph (a), (b), or (c) of this section, or § 1000.51 (b) (1).

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the month:

Company and Location
Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopervilie, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

and an amount computed by multiplying the butterfat differential computed pursuant to § 1000.73, by 5.

(b) The price per hundredweight computed as follows:

(1) Multiply the Chicago butter price by 6;

(2) Add an amount equal to 2.4 times the arithmetical average of the weekly prevailing price per pound of "Twins" during the month on the Wisconsin Cheese Exchange: *Provided*, That if the price of "Twins" is not quoted on such exchange, the weekly prevailing price per pound of "Cheddars" shall be used; and

(3) Divide by 7, add 30 percent thereof, and then multiply by 4.

(c) The price per hundredweight computed as follows: Multiply the Chicago butter price by 4.0, add 20 percent thereof, and add to such sum 3¾ cents for each full one-half cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. Chicago area manufacturing plants, for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture, is above 5 cents.

§ 1000.51 *Class prices.* Subject to the provisions of §§ 1000.52 and 1000.53, the minimum prices per hundredweight of milk containing 4 percent butterfat, to be paid by each handler for milk received at his pool plant from producers, during the month, shall be as follows:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.75;

(2) Add if the utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than, the standard utilization range, an amount determined by multiplying the net utilization percentage calculated pursuant to subparagraph (4) of this paragraph by 2 cents: *Provided*, That any addition or subtraction shall be limited to 50 cents per hundredweight;

(3) Calculate a utilization percentage for each month by dividing the net hundredweight of Class I milk (excluding that Class I milk subtracted pursuant to § 1000.45 (a) (1) and (b)), disposed of from all pool plants for the first and second preceding months into the total hundredweight of producer milk for the same months, multiplying by 100, and rounding the resultant figure to the nearest whole number;

(4) Calculate a net utilization percentage by determining the amount by which the utilization percentage calculated pursuant to subparagraph (3) of this paragraph exceeds the higher figure or is less than the lower figure of the standard utilization range in the following table:

Month for which price applies	Months for which utilization is computed	Standard utilization range	
		Minimum	Maximum
January	November–December	117	121
February	December–January	117	121
March	January–February	117	121
April	February–March	119	123
May	March–April	124	128
June	April–May	134	138
July	May–June	134	138
August	June–July	128	132
September	July–August	115	119
October	August–September	110	114
November	September–October	114	118
December	October–November	114	118

(b) *Class II milk price.* For the months of February through August, the Class II milk price shall be the price computed pursuant to subparagraph (1) of this paragraph, rounded to the nearest cent. For all other months, it shall be the price computed pursuant to subparagraph (1) of this paragraph, or the price computed pursuant to § 1000.50 (c), whichever is higher.

(1) The average of the basic or field prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from dairy farmers during the month at the following plants or places, for which prices have been reported to the market administrator or to the Department on or before the 6th day after the end of the month:

Company and Location
Kraft Foods Co., Fayetteville, Tenn.
Pet Milk Co., Greensville, Tenn.
Carnation Co., Murfreesboro, Tenn.
Borden Co., Lewisburg, Tenn.

§ 1000.52 *Butterfat differentials to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices calculated pursuant to § 1000.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I milk price.* Multiply the Chicago butter price for the preceding month by 0.13; and

(b) *Class II milk price.* Multiply the Chicago butter price for the month by 0.115: *Provided*, That such butterfat differential shall not exceed the result obtained by dividing the Class II price, pursuant to § 1000.51 (b), by 40.

§ 1000.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 65 miles or more from the City Hall of Chattanooga, Tennessee, by shortest hard-surfaced highway distance, as determined by the market administrator, and which is assigned to Class I milk pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 1000.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the City Hall of Chattanooga, Tenn. (miles):	*Rate per hundredweight (cents)*
65 but not more than 75	15.0
For each additional 10 miles or fraction thereof an additional	1.5

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculations prescribed in § 1000.45 (a) (1) through (6), and the comparable steps in § 1000.45 (b) for such plant, such assignment to the transferring plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 1000.54 *Rate of compensatory payments.* The rate of compensatory payment per hundredweight shall be calculated as follows:

(a) For the months of March through July, subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price, adjusted by the Class I butterfat differential, and in the case of fluid milk products, adjusted by the Class I location differential of the plant at which the milk was received from farmers.

(b) For the months of August through February, subtract the uniform price to producers from the Class I price.

§ 1000.55 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 1000.60 *Producer-handlers.* Sections 1000.40 through 1000.45, 1000.50 through 1000.53, 1000.61 and 1000.62, 1000.70 through 1000.75, and 1000.80 through 1000.87 shall not apply to a producer-handler.

§ 1000.61 *Plants subject to other Federal orders.* Upon application to the market administrator and a subsequent determination by the Secretary, a plant specified in paragraph (a) or (b) of this section shall be treated as a nonpool plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Chattanooga, Tennessee, marketing area than in the marketing area regulated pursuant to such order; and

(b) Any supply plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless such plant qualified as a pool plant for each of the preceding months of August through February.

§ 1000.62 *Operators of nonpool plants.* An operator of a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the act, shall, on or before the 12th day after the end of the month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of in the form of fluid milk products from such nonpool plant to retail or wholesale outlets (including deliveries by vendors and sales through plant stores) in the marketing

area during the month by the rate of compensatory payment calculated pursuant to § 1000.54.

DETERMINATION OF PRICES TO PRODUCERS

§ 1000.70 *Computation of the value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 1000.45 by the applicable class price, total the resulting amounts, and add any amount necessary to reflect adjustments in location differential allowance required pursuant to the proviso of § 1000.53;

(b) Add the amounts computed in subparagraphs (1), (2) and (3) of this paragraph;

(1) Multiply the rate of compensatory payment determined pursuant to § 1000.54 by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1000.45 (a) (3) and (b),

(2) Multiply the rate of compensatory payment determined pursuant to § 1000.54 at the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1000.45 (a) (4) and (b),

(3) Multiply the rate of compensatory payment determined pursuant to § 1000.54 at the nearest plant(s) from which an equivalent amount of other source milk was received by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1000.45 (a) (6) and (b), which is in excess of the sum of: (i) The quantity for which a payment must be computed pursuant to paragraph (d) of this section, and (ii) the quantity subtracted from Class II milk pursuant to § 1000.45 (a) (5) and (b) in the preceding month;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 1000.45 (a) (9) and (b) by the applicable class price; and

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I milk price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 1000.45 (a) (7) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 1000.45 (a) (6) and (b) for the current month, whichever is less, respectively.

§ 1000.71 *Computation of the uniform price.* For each of the months of August through February, the market administrator, shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 1000.70 for the producer milk of all handlers who submit reports prescribed in § 1000.30 and who are not in default of payments pursuant to § 1000.80 or § 1000.82;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 1000.73, and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 1000.80 (a) (2);

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Add the total amount of payment due pursuant to § 1000.62;

(f) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(g) Subtract not less than 4 cents nor more than 5 cents.

§ 1000.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of March through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 1000.30, and who are not in default of payments pursuant to § 1000.80 or § 1000.82 as follows: (1) Multiply the hundredweight quantity of such milk which does not exceed the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price, (2) multiply the remaining hundredweight quantity of excess milk by the Class I milk price, and (3) add together the resulting amounts;

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent and subtract 4 cents. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(c) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section, plus 4 cents, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 1000.71 (a) through (e);

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content f. o. b. market.

§ 1000.73 *Butterfat differential to producers.* The applicable uniform price to be paid each producer shall be increased or decreased for each ten-tenth of one percent which the average butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differentials for such class as determined by § 1000.52, dividing by the total butterfat in producer milk, and rounding to the nearest fifth of a cent.

§ 1000.74 *Location differential to producers.* The applicable uniform price to be paid for producer milk received at a pool plant located 65 miles or more from the City Hall of Chattanooga, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the rates set forth in § 1000.53.

§ 1000.75 *Notification of handler.* On or before the 10th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 1000.30, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of March through July the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 1000.71 and 1000.72 and the butterfat differential computed pursuant to § 1000.73; and

(d) The amounts to be paid by such handler pursuant to §§ 1000.82, 1000.85 and 1000.86, or § 1000.62 and the amount due such handler pursuant to § 1000.82.

PAYMENTS

§ 1000.80 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 25th day of the month, an amount equal to not less than the Class II price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this paragraph,

(2) On or before the 15th day of the following month, an amount equal to not less than the appropriate uniform price(s) adjusted by the butterfat and location differentials to producers multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to subparagraph (1) of this paragraph, (ii) less marketing service deductions made pursuant to § 1000.85, (iii) plus or minus adjustments for errors made in previous payments made to such producers, and (iv) less proper deductions authorized in writing by such producer: *Provided*, That if by such date such handler has not received full payment from the market administrator pursuant to § 1000.83 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) In the case of a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and which has so requested any handler in writing, such handler shall on or before the 2d day prior to the date on which payments are due individual producers pay the cooperative association for milk received during the month from the producer members of such association as determined by the market administrator an amount equal to not less than the amount due such producer members as determined pursuant to paragraph (a) of this section; and

(c) Each handler who receives milk during the month from producers for which payment is to be made to a cooperative association pursuant to paragraph (b) of this section shall report to such cooperative association or to the market administrator for transmittal to such cooperative association for each such producer as follows:

(1) On or before the 25th day of the month, the total pounds of milk received during the first 15 days of such month, and

(2) On or before the 7th day of the following month (i) the pounds of milk received each day and the total for the month, together with the butterfat content of such milk, (ii) for the months of March through July the total pounds of base milk received, (iii) the amount or rate and nature of any deductions to be made from payments, and (iv) the amount and nature of payments due pursuant to § 1000.84.

§ 1000.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1000.62, 1000.82 and 1000.84, and out of which he shall make all payments pursuant to §§ 1000.83 and 1000.84: *Provided*, That any payments due to any handler shall be offset by any payments due from such handler.

§ 1000.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 1000.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 1000.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 1000.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1000.84 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 1000.82, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 1000.83, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 1000.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 1000.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 1000.80, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

§ 1000.86 *Expenses of administration.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator for each of his pool plants, 4 cents or such lesser amount as the Secretary may prescribe, for each hundredweight of butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 1000.45 (a) (3) and (4) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 1000.62.

§ 1000.87 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation,

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled, and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid;

(b) If a handler fails or refuses, with respect to any obligation under this order, to make available to the market administrator or his representative all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative;

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed; and

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims

to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 1000.90 *Computation of daily average base for each producer.* Subject to the rules set forth in § 1000.91, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of September through January immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of January, inclusive, or by 120, whichever is more: *Provided*, That any producer who, during the preceding months of September through January, delivered his milk to a nonpool plant which became a pool plant after the beginning of such period shall be assigned a base in the same manner as if he had been a producer during such period, calculated from his deliveries during such September–January period to such plant.

§ 1000.91 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base calculated pursuant to § 1000.90 to each person for whose account producer milk was delivered to pool plants during the months of September through January;

(b) A base which is assigned pursuant to the proviso of § 1000.90 shall be nontransferable. An entire base which is otherwise assigned shall be transferred from a person holding such base to any other person effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided*, That if a base is held jointly, the entire base shall be transferable only upon the receipt of such application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred; and

(c) A base which has been established by two or more persons operating a dairy farm as a partnership may be divided between the partners on any basis agreed to in writing by the partners provided written notification of the agreed division of base signed by each partner is received by the market administrator prior to the first day of the month on which such division is to be effective.

§ 1000.92 *Announcement of established bases.* On or before March 1 of each year, the market administrator shall notify each producer, and the handler receiving milk from such producer, of the daily average base established by such producer, and shall notify a cooperative association of which such producer is a member of such daily average base if the cooperative association so requests.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 1000.100 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 1000.101 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 1000.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1000.103 *Liquidation.* Upon the suspension or termination of any or all provisions of this part, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1000.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 1000.111 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 11th day of July, 1958, to be effective on and after the 1st day of August, 1958.

[SEAL] DON PAARLBERG, *Assistant Secretary.*

[F. R. Doc. 58-5471; Filed, July 16, 1958; 8:51 a. m.]

PART 1004—MILK IN CENTRAL ARIZONA MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISION

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 1004), regulating the handling of milk in the Central Arizona marketing area, hereinafter referred to as the "order", it is hereby found that:

(a) The following provisions: (1) The phrase, "Subject to the provisions of paragraph (b) of this section," in § 1004.91 (a), and (2) § 1004.91 (b) in its entirety no longer tend to effectuate the declared policy of the act;

(b) Notice of proposed rule making, public procedure thereon, and 30-days' prior notice to the effective date hereof are found to be impracticable, unnecessary, and contrary to the public interest in that (1) this suspension order is necessary to correct a situation which has threatened to disrupt the orderly marketing of milk, whereby producers through abuse of the base transfer provisions have been able to inflate their earned bases quite substantially. A hearing on proposed amendments providing for extensive revision of the order (No. 104), as amended, including a revision of the base rules was conducted at Phoenix, Arizona, on June 11 and 12, 1958, (23 F. R. 3881). The time required for a thorough analysis of the record evidence, and the performance of the several procedural steps which must be followed before an amendment can be issued, preclude the possibility of making an amendment to the order (No. 104), as amended, effective before August 1, 1958; (2) since the base-forming period begins on August 1, it is necessary to give producers ample notice before that date, that base-inflating transfers will not be permitted; (3) this suspension order does not require of persons affected substantial or extensive preparation prior to its effective date; and (4) the time intervening between the date of this suspension order and its effective date affords persons affected a reasonable time to prepare for its effective date.

It is therefore ordered, That the following provisions be and hereby are suspended effective July 17, 1958:

1. In § 1004.91 (a) the phrase, "Subject to the provisions of paragraph (b) of this section".

2. Section 1004.91 (b).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 11th day of July 1958.

[SEAL] DON PAARLBERG, *Assistant Secretary.*

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 206]

PART 154—RATES SCHEDULES AND TARIFFS

ORDER MODIFYING RULES AND REGULATIONS WITH RESPECT TO SUPPLEMENTS REFLECTING ADDITION TO LOUISIANA STATE GAS GATHERING TAX

JULY 11, 1958.

In the matter of The Louisiana State Gas Gathering Tax (Act No. 8, Louisiana Law of 1958, Amending Title 47 of the Louisiana Revised Statutes of 1950) [House Bill No. 303].

Pursuant to Act No. 8 of 1958 (House Bill No. 303), of the State of Louisiana, as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950, an additional "excise, license or privilege tax for the privilege of engaging" in the "business" of "gathering gas produced" in Louisiana is levied "at the rate of one cent (1¢) per thousand (1,000) cubic feet (corrected to a base pressure of 15.025 pounds per square inch, absolute pressure)" of gas gathered within the State of Louisiana, for a period of two years beginning August 1, 1958 and continuing through July 31, 1960 (unless made non-operative sooner as provided in the subject law).

The incidence of such tax may result in increases in the rates paid by the purchasers under all rate schedules governing sales of natural gas produced in Louisiana, subject to the jurisdiction of the Commission, which contain provisions whereby the buyer is to reimburse the seller for any portion of such additional tax. The Natural Gas Act and § 154.94 of the Commission's regulations thereunder make it mandatory that any such proposed increased rates be timely and properly filed with the Commission.

To simplify the proposed required changes in rates, the Commission deems it expedient and in the public interest to waive the 30-day notice requirement under section 4 (d) of the act and § 154.94 of the Commission's regulations and to eliminate, to the extent feasible, the data and information thereby required to be submitted in support of any proposed changes in rate based upon said Act No. 8, to be effective August 1, 1958.

Accordingly, a natural-gas company, in submitting a supplement to any of its effective rate schedules on file with the Commission to reflect as of August 1, 1958, the statutory addition of one cent (1¢) per Mcf to the present gathering tax may, notwithstanding other provisions of the Commission's Rules and Regulations, make such filings as hereinafter provided.

A number of affected natural-gas companies have advised the Commission that litigation is to be instituted challenging the constitutionality of the aforesaid Act No. 8 of 1958 of the State of Louisiana. In view of this fact, and to assure appropriate refund, in the event said Act No. 8 of 1958 should be declared unconstitutional by final judicial decision, of payments made pursuant to rate schedule changes proposed as a result of such legislation, the Commission proposes to suspend for one day beyond the date they would otherwise become effective any such rate schedule changes.

The Commission finds: It is appropriate and in the public interst in the administration of the Natural Gas Act (a) to waive the 30-day notice requirement set forth in section 4 (d) of the Natural Gas Act and § 154.94 of the Commission's regulations with respect to the filing of any appropriate supplement reflecting the addition of one cent (1¢) to the Louisiana gathering tax, effective August 1, 1958, providing such filing is made on or before August 1, 1958; and (b) with respect to the filing, whether before or after August 1, 1958, of any appropriate supplement reflecting the additional Louisiana gathering tax to submit 3 copies of the data in the form set forth below, in lieu of the data required by § 154.94 (e) of the Commission's regulations.

1. This filing is submitted pursuant to Commission Order No. -- to reflect -- percent reimbursement of the additional Louisiana gas gathering tax of one cent (1¢) per Mcf effective August 1, 1958 levied by Act No. 8 of 1958 of the State of Louisiana (House Bill No. 303).

2. Such reimbursement is provided by section -- of the contract dated ---------- between ---------- and ---------- on file with the Commission and designated ---------- FPC Gas Rate Schedule No. --.

3. A copy of this filing was served on the buyer as required by the Commission's regulations on ----------.

4. Comparison of rates prior to and subsequent to such change in rate (cents per Mcf) at 15.025 psia:

Date	Base price per Mcf	Tax reimbursement per Mcf	Total price per Mcf
July 31, 1958			
Aug. 1, 1958			

Sales for 12 months ended April 30, 1958---------- Mcf

The Commission orders: Rate schedule changes reflecting the incidence of the additional one cent (1¢) per Mcf gathering tax of the State of Louisiana as of August 1, 1958, if filed on or before August 1, 1958 may be filed on less than the 30 days' notice required by section 4 (d) of the Natural Gas Act and in accordance with the findings of this order.

(Sec. 16, 52 Stat. 830; 15 U. S. C. 717o)

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54639]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

REDUCED RATE OF DUTY FOR CERTAIN WOOLEN TEXTILES

Presidential Proclamation No. 3160 of September 28, 1956, as amended by Presidential Proclamation No. 3225, dated March 7, 1958, provides that after the annual quota on certain woolen fabrics classifiable under paragraphs 1108 and 1109 (a), Tariff Act of 1930, has been filled, the ad valorem part of the duty on serges, weighing not over 6 ounces per square yard, and nuns' veilings and other woven fabrics, weighing not over 4 ounces per square yard: All the foregoing wholly or in chief value of wool of the sheep, valued at over $4 per pound, in solid colors, imported to be used in the manufacture of apparel for members of religious orders, shall be at the rate of 30 percent rather than at the rate of 45 percent. To prescribe regulations governing the entry of these woolen textiles at this reduced rate the Customs Regulations are amended as follows:

Part 10 is amended by adding at the end thereof the following new centerhead and section:

WOOLEN TEXTILES

§ 10.111 *Woolen textiles imported to be used in the manufacture of apparel for members of religious orders.* (a) Serges, weighing not over 6 ounces per square yard, and nun's veiling and other woven fabrics, weighing not over 4 ounces per square yard; all the foregoing wholly or in chief value of wool of the sheep, valued at over $4 per pound, in solid colors, imported to be used in the manufacture of apparel for members of religious orders, entered, or withdrawn from warehouse, for consumption after the annual quota on certain wool fabrics classifiable under paragraphs 1108 and 1109 (a), Tariff Act of 1930, has been filled may be released on deposit of estimated duties at the rate the ad valorem part of which is 30 percent, as provided for in the President's Proclamation No. 3160 of September 28, 1956 (3 CFR, 1956 Supp., Ch. 1; TD 54212), as amended by the President's Proclamation No. 3225 of March 7, 1958 (23 F. R. 1687; TD 54550), if there is filed with the entry or the withdrawal a declaration of a person having knowledge of the facts that the fabrics were imported to be used in the manufacture of apparel for members of religious orders. Liquidation of the entry covering the fabrics shall be suspended until the proof of use provided for in paragraph (b) of this section is furnished or the time allowed for the production thereof has expired.

(b) Within 1 year from the date of the entry (in case of warehouse entries as well as consumption entries) or any extension of that period as hereinafter provided for, the importer shall furnish

proof of use satisfactory to the collector that the imported fabrics have been used in the manufacture of apparel for members of religious orders. The collector may, upon written application of the importer before the expiration of the initial or any extended period, extend the period for further periods of 1 year each, but not to exceed 5 years from the date of entry.

(c) When proof of use is not furnished within the 1 year period or any extension thereof provided for in paragraph (b) of this section, the entry shall be liquidated at the rate the ad valorem part of which is 45 percent, as provided for in the President's Proclamation No. 3160 of September 28, 1956, as amended.

(Sec. 1 (pars. 1108, 1109) 46 Stat. 648; 19 U. S. C. 1001 (pars. 1108, 1109))

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: July 10, 1958.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

[F. R. Doc. 58-5455; Filed, July 16, 1958; 8:47 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

Subchapter C—Drugs

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

ANIMAL FEED CONTAINING ANTIBIOTIC DRUGS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045), the general regulations for the certification of antibiotic and antibiotic-containing drugs (21 CFR, 1957 Supp., 146.26 (23 F. R. 1620)) are amended as indicated below:

In § 146.26 *Animal feed containing penicillin;* * * * paragraph (b) (37) is amended by changing the words "0.004 percent" to read "0.006 percent".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it relaxes existing requirements, and since it would be against public interest to delay providing for the amendment herein set forth.

I further find that animal feed containing antibiotic drugs and conforming with the conditions prescribed in the regulations need not comply with the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act in order to ensure their safety and efficacy.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies secs. 502, 507, 52 Stat. 1051, 59 Stat. 463 as amended; 21 U. S. C. 352, 357)

Dated: July 10, 1958.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F. R. Doc. 58-5447; Filed, July 16, 1958; 8:45 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 221—OPERATION AND MAINTENANCE CHARGES

FLATHEAD INDIAN IRRIGATION PROJECT ST. IGNATIUS, MONTANA

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Pub. Law 404, 79th Cong., 60 Stat. 238) and authority contained in the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928 (38 Stat. 583; 25 U. S. C. 385; 39 Stat. 142; and 45 Stat. 210; 25 U. S. C. 387) and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs to the Area Director (Bureau Order No. 551 Amendment No. 1; 16 F. R. 5454-7), notice was given of the intention to modify §§ 221.24, 221.26, and 221.28 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Flathead Indian Irrigation Project, Montana, that are subject to the jurisdiction of the several irrigation districts, as follows:

Charges applicable to all irrigable lands of the Flathead Indian Irrigation Project that are included in the Irrigation District Organization and are subject to the jurisdiction of the three irrigation districts.

Interested persons were thereby given opportunity to participate in preparing the modification by submitting data or written arguments within 30 days from the publication of the notice. No objections were submitted. Accordingly, §§ 221.24, 221.26, and 221.28 are modified as follows:

§ 221.24 *Charges.* Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented and amended by later contracts dated February 27, 1929; March 28, 1934; August 26, 1936, and April 5, 1950, there is hereby fixed for the season of 1959 an assessment of $240,744 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Flathead Irrigation District. This assessment involves an area of approximately 74,262.5 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.26 *Charges.* Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation Project, Montana, on March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented and amended by later contracts dated June 2, 1934, June 6, 1936, and May 16, 1951, there is hereby fixed, for the season of 1959 an assessment of $45,776 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Mission Irrigation District. This assessment involves an area of approximately 13,779.1 acres; does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.28 *Charges.* Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation Project, Montana, on November 13, 1934, approved by the Secretary of the Interior on February 26, 1935, as supplemented and amended by later contracts dated August 26, 1936, and April 18, 1950, there is hereby fixed, for the season of 1959 an assessment of $17,240 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Jocko Valley Irrigation District. This assessment involves an area of approximately 6,135.4 acres; does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

(Secs. 1, 3, 36 Stat. 270, 272, as amended; 25 U. S. C. 385)

M. A. JOHNSON,
Acting Area Director.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 21—PUBLIC LANDS; MILITARY AND NAVAL RESERVATIONS

FORT GULICK ARMY RESERVATION, CANAL ZONE

CROSS REFERENCE: For amendment to the tabulation in § 21.3, insofar as it relates to Fort Gulick Army Reservation, see Canal Zone Order 49 in Appendix to this chapter, *infra.*

Appendix—Canal Zone Orders

[Canal Zone Order 49]

FORT GULICK ARMY RESERVATION, CANAL ZONE

By virtue of the authority vested in the President of the United States by section 5 of Title 2 of the Canal Zone Code, as amended by section 1 of the Act of September 26, 1950, 64 Stat. 1038, and delegated to me by Executive Order No. 9746 of July 1, 1946, as amended by Executive Order No. 10595 of February 7, 1955, it is ordered as follows:

SECTION 1. *Setting apart of reservation; boundaries.* The following-described area of land in the Canal Zone is hereby reserved and set apart as, and assigned to the uses and purposes of an Army reservation, which shall be known as Fort Gulick Army Reservation, and which shall be under the control and jurisdiction of the Secretary of the Army, subject to the provisions of section 2 of this order:

The area comprising this reservation is situated southeasterly of Mount Hope on the western shore of the Quebrada Ancha Arm of Gatun Lake, and includes Banana Island and the Egronal Islands which are situated in Gatun Lake, and the boundary is more particularly described as follows:

Beginning at monument No. 1, which is a 1½-inch galvanized iron pipe set in concrete, located on the continuous 92-foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the geographic position of which monument, referred to the Canal Zone triangulation system is in latitude 9°18' N. plus 2,418.6 feet and longitude 79°52' W., plus 1,990.0 feet from Greenwich.

Thence from said initial point by metes and bounds:

N. 23°08'00" W., 359.9 feet, to monument No. 1A, which is a 1½-inch galvanized iron pipe;

N. 23°12'30" W., 297.4 feet, through monument No. 1B, which is a 1½-inch galvanized iron pipe, to monument No. 2, which is a 2½-inch galvanized iron pipe, the distances being 202.7 feet and 94.7 feet, successively, from beginning of the course;

N. 73°07'30" W., 369.8 feet, to monument No. 3, which is a 1½-inch galvanized iron pipe;

N. 72°56'30" W., 996.8 feet, through monuments Nos. 4, NF14 and 5 (monument No. 4 is a 2½-inch galvanized iron pipe; monument No. NF14 is a concrete post 8 inches square; monument No. 5 is a 1½-inch galvanized iron pipe) to monument No. 6, which is a concrete post 8 inches square, the distances being 204.8 feet, 453.6 feet, 114.1 feet and 146.3 feet, successively, from beginning of the course;

N. 45°58'00" W., 118.2 feet, to monument No. 7, which is a 1½-inch galvanized iron pipe;

N. 46°13'30" W., 315.5 feet to monument No. 8, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 456.1 feet, to monument No. 9, which is a 2½-inch galvanized iron pipe;

N. 46°02'00" W., 400.0 feet, to monument No. 10, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 463.0 feet, to monument No. 11, which is a 2½-inch galvanized iron pipe;

N. 46°01'30" W., 205.1 feet, to monument No. 12, which is a 2½-inch galvanized iron pipe;

N. 46°01'00" W., 1,141.6 feet, through monuments Nos. 13 and 14, which are 2½-inch galvanized iron pipes, to monument No. 15, which is a concrete post, 8 inches square, the distances being 389.8 feet; 394.9 feet and 356.9 feet, successively, from beginning of the course;

(From monument NF-14 to monument No. 15, the above described line follows the northeasterly boundary of the Gatun Tank Farm Naval Reservation);

N. 00°01'00" W., 2515.4 feet, through monuments Nos. 16 to 21 inclusive, which are 2½-inch galvanized iron pipes, to monument No. 22, which is a 1½-inch galvanized iron pipe, the distances being 249.8 feet, 193.4 feet, 470.0 feet, 525.0 feet, 520.6 feet, 406.0 feet and 150.6 feet, successively, from beginning of the course;

N. 54°57'00" W., 470.7 feet, to monument No. 23, which is a 1½-inch galvanized iron pipe;

N. 53°41'30" E., 52.9 feet, to monument No. 23-A, which is a 2-inch galvanized iron pipe, located 50 feet southwesterly from the centerline of the Fort Gulick Road;

N. 54°56'00" W., 175.6 feet, to monument No. 23-X, which is a 2-inch galvanized iron pipe, located 50 feet southwesterly from the centerline of the Fort Gulick Road;

N. 35°04'00" E., 100.0 feet, through monument No. 23-Y, which is a ½-inch brass plug located on the centerline of the Fort Gulick Road, to monument No. 23-D, which is a 1½-inch galvanized iron pipe, the distances being 49.9 feet and 50.1 feet, successively, from beginning of the course;

N. 89°06'30" E., 342.2 feet, through monument No. 23-E, which is a 2-inch galvanized iron pipe, to monument No. 24, which is a 1½-inch galvanized iron pipe, the distances being 186.1 feet and 156.1 feet, successively, from beginning of the course;

N. 10°13'30" W., 75.6 feet, to monument No. 24-A which is a 1½-inch galvanized iron pipe;

N. 10°16'30" W., 715.2 feet, to monument No. 24-B, which is a 1½-inch galvanized iron pipe;

N. 10°18'00" W., 431.3 feet, to monument No. 24-C, which is a 1½-inch galvanized iron pipe;

N. 10°12'00" W., 236.0 feet, to monument No. 24-D, which is a 1½-inch galvanized iron pipe;

N. 10°15'30" W., 192.8 feet, to monument No. 24-E, which is a concrete post 8 inches square;

Due East, 239.4 feet, to monument No. 24-F, which is a 1½-inch galvanized iron pipe;

N. 89°59'30" E., 140.8 feet, to monument No. 25, which is a 2½-inch galvanized iron pipe;

N. 00°01'00" W., 370.0 feet, to monument No. 26, which is a concrete post 8 inches square;

S. 50°31'00" E., 1522.2 feet, through monuments Nos. 27 and 28, which are 2½-inch galvanized iron pipes, to monument No. 29, which is a concrete post 8 inches square, the distances being 501.6 feet, 563.0 feet and 457.6 feet, successively, from beginning of the course;

N. 85°14'00" E., 432.9 feet, through monuments Nos. 30 and 31, which are 2½-inch galvanized iron pipes, to monument No. 32, which is a 1½-inch galvanized iron pipe, the distances being 160.6 feet, 62.4 feet and 189.9 feet, successively, from beginning of the course;

N. 43°47'30" E., 1037.4 feet, parallel to and 50 feet southeasterly of the centerline of the Fort Gulick-France Field Road, to monument No. 33, which is a 1½-inch galvanized iron pipe;

On a curve to the left, with a radius of 1011.3 feet, 422.3 feet to monument No. 34, which is a 1½-inch galvanized iron pipe (the direct bearing and distance between monuments Nos. 33 and 34 is N. 31°49'30" E., 419.4 feet);

N. 19°50'00" E., 1345.0 feet, parallel to and 50 feet easterly of the centerline of the Fort Gulick-France Field Road, to monument No. 35, which is a 1½-inch galvanized iron pipe;

S. 24°59'30" E., 626.4 feet, to monument No. 36, which is a 1½-inch galvanized iron pipe;

Due East, 9122.1 feet, through monuments Nos. 37 to 43 inclusive, which are 1½-inch galvanized iron pipes, and 47 to 74 inclusive, which are 2½-inch galvanized iron pipes, to monument No. 75, which is a concrete post 8 inches square, located on the continuous 100-foot contour of the west shore of the Quebrada Ancha Arm of Gatun Lake, the distances being 374.3 feet, 125.1 feet, 254.1 feet, 335.2 feet, 254.4 feet, 224.3 feet, 335.1 feet, 156.6 feet, 325.0 feet, 161.0 feet, 400.0 feet, 400.0 feet, 300.0 feet, 227.0 feet, 173.0 feet, 264.0 feet, 517.4 feet, 307.0 feet, 134.0 feet, 340.4 feet, 137.2 feet, 203.0 feet, 300.0 feet, 332.0 feet, 92.0 feet, 342.0 feet, 180.0 feet, 73.0 feet, 262.0 feet, 440.8 feet, 113.0 feet, 347.0 feet, 334.0 feet, 126.0 feet, 125.0 feet and 107.2 feet, successively, from beginning of the course;

Due East, 100 feet, more or less, to an unmarked point on the continuous 87-foot contour of the shore line of Gatun Lake;

In a general southwesterly direction, along the 87-foot contour of the shore line of Gatun Lake, as it meanders, to an unmarked point, from which the bearing and distance to the above mentioned monument No. 1, is N. 23°08'00" W., 15 feet, more or less;

N. 23°08'00" W., 15 feet, more or less, to the point of beginning.

In addition to the above described area, there shall be included within the reservation all land above the 87-foot contour, consisting of islands known as the Egronal Islands and Banana Island, located in Gatun Lake within the boundaries described as follows:

Beginning at an unmarked point called "A" on the drawing, located on the shore of the Quebrada Ancha Arm of Gatun Lake where longitude 79°51' plus 4,975.0 feet intersects the 87-foot contour;

Thence from said initial point by metes and bounds:

Due South 4,300 feet, more or less, to an intersection with latitude 9°17' plus 4,200 feet, to an unmarked point called "B" on the drawing;

Due West, 2,000 feet, to an unmarked point called "C" on the drawing;

Northwesterly, 3,550 feet, more or less, to an unmarked point called "D" on the drawing, located at a point on the shore of Gatun Lake where longitude 79°52' plus 2,200 feet intersects the 87-foot contour on the shore of Quebrada Ancha Arm of Gatun Lake;

In a general northeasterly and southeasterly direction, following the 87-foot contour of the shore of Gatun Lake, to unmarked point called "A" on the drawing, the point of beginning.

The directions of the lines refer to the true meridian. All geographic positions are referred to the Panama-Colon datum of the Canal Zone triangulation system.

The boundary of the reservation, from monument No. 1 to monument No. 23-A inclusive, and from monument No. 23-D to monument No. 75 inclusive, was surveyed by the Surveys Branch, The Panama Canal, in January and February 1940 and December 1946, and the boundary from monument No. 23-A to monument No. 23-D was surveyed by said Surveys Branch in April 1950.

The reservation contains an area of 1,841.1 acres, more or less, (Main land 1,755.8 acres and islands 85.3 acres) and is as shown on Panama Canal Company drawing No. M-6118-44, entitled "Map Showing Boundary of Fort Gulick Army Reservation", scale 1:10,000, dated January 20, 1958, on file in the Office of the Governor of the Canal Zone, Balboa Heights, Canal Zone.

SEC. 2. *Conditions and limitations.* The reservation established by section 1 of this order shall be subject to the following conditions and limitations:

(a) The areas comprising this reservation shall continue to be subject to the civil jurisdiction of the Canal Zone Government in conformity with the provisions of the Canal Zone Code as amended and supplemented.

(b) The Canal Zone Government and the Panama Canal Company, their agents, employees, contractors, licensees, and permittees shall enjoy access to the reserved area in carrying out the operations of such agencies, subject, however, to necessary security measures.

(c) No sanitary sewage originating within the developed sections of the reservation shall be permitted to discharge into the drainage basin of Gatun Lake.

SEC. 3. *Orders superseded.* This order supersedes Canal Zone Order No. 2 of December 1, 1946, and Canal Zone Order No. 20 of June 29, 1950. Any lands included within Gatun Lake Military Reservation or Fort Gulick Military Reservation as set out by said previous orders and not included within the area included in this order are hereby released and returned to the jurisdiction and control of the Canal Zone Government.

WILBER M. BRUCKER,
Secretary of the Army.

JULY 8, 1958.

[F. R. Doc. 58-5456; Filed, July 16, 1958; 8:47 a.m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 96—AIR CARRIERS

INTERNATIONAL AIR TRANSPORTATION

Section 96.7 *International airmail regulations* is amended to read as follows:

§ 96.7 *International air transportation*—(a) *Authority*—(1) *Applicability.* The rules and regulations in this part apply to all international and overseas air carriers assigned FAM numbered routes by the Post Office Department and to foreign air carriers to the extent noted in this section, and supplement the provisions of the Convention of the Universal Postal Union.

(2) *Air transportation defined.* (i) "Air Carrier" means any individual or company of the United States engaging in air transportation.

(ii) "Foreign Air Carrier" means any individual or company not of the United States engaging in foreign air transportation.

(iii) "Carrier" means both a U. S. flag and foreign flag air carrier.

(iv) "Air Transportation" means the transportation of mail by aircraft.

(v) "Interstate, Overseas and Foreign Air Transportation" means transportation of persons, property or mail by an air cafrier for hire.

(vi) "Mail" means United States mail and foreign mail.

(3) *Authority to engage in air transportation*—(i) *American Flag air carriers.* Air carriers shall not engage in air transportation unless a certificate has been issued by the Civil Aeronautics Board authorizing them to do so. Each such certificate states the terminal points and intermediate points, if any, between which the air carrier is authorized to engage in air transportation.

(ii) *Foreign Flag air carriers.* Foreign air carriers shall not engage in air transportation from U. S. soil without a permit issued by the Civil Aeronautics Board authorizing such transportation.

(4) *Rules and policy.* The Department will make such rules and regulations as may be necessary for the safe and expeditious transportation of mail by aircraft. The Assistant Postmaster General, Bureau of Transportation, will establish the policy for transportation of mail and for exchange of airmail between postal employees and carriers.

(5) *Agreements.* The Department may enter into agreements with postal administrations of other countries with respect to airmail transportation. The Department may also make arrangements with foreign air carriers for the transportation of mail if they have been issued permits by the Civil Aeronautics Board.

(6) *Transportation of foreign origin mail.* Air carriers transporting mail of foreign countries are subject to control and regulation of the United States.

(b) *Carrier operations*—(1) *Filing of schedules.* Carriers authorized to engage in air transportation shall transport mail only after filing their schedules of operation with the Department. The Department will designate the flights required for the transportation of mail and inform the carriers accordingly. No carrier shall transport mail in accordance with any schedule other than one designated or ordered to be established by the Department for the transportation of mail.

(2) *Schedule revisions.* Changes to existing schedules must be filed with the Department not less than ten days before their effective dates. Three copies should be filed with the Director, International Service, Bureau of Transportation, Post Office Department, Washington 25, D. C., one with the distribution and traffic manager, Post Office Department, in each region concerned, and three with the claim for the mail transportation.

(3) *Flight movement.* Carriers should operate designated flights as nearly as practicable at the times indicated in published schedules. Whenever earlier or later departures are required, sufficient advance notice should be given the local postal representatives in order that appropriate adjustments may be made in the dispatch schedules.

(4) *Extra sections.* Extra sections of a designated scheduled flight may be used for the transportation of mail.

(5) *Emergency flights.* Emergency flights operated by a carrier may be used for the transportation of mail. However, carriers should not accept mail for any country served by the emergency flight if they are not authorized to serve that country regularly.

(6) *Omission of service.* If a scheduled stop is to be omitted on a designated flight, the carrier must immediately notify the local postal representatives concerned. If the service is to be suspended for one week or more, the carrier must notify the Director, International Service, Post Office Department, Washington 25, D. C., and the local postal representative at the point involved. The same officials should be notified when the service is resumed.

(7) *Cancelled flights.* When a flight is cancelled at the initial terminal or any point en route, the carrier should promptly notify the local postal representatives concerned.

(8) *Delayed departures.* If a flight is delayed after accepting mail and the delay is estimated to be six hours or less beyond the scheduled departure, the mail will be retained aboard the flight. If the flight is delayed over six hours, the dispatching postal unit should be informed of the delay and the probable time of departure. In such cases, the postal representative will determine whether the mail should be returned to the postal unit.

(9) *Accidents.* Carriers will immediately inform the Post Office Department, Washington, D. C., of any accident resulting in possible damage to or loss of United States mail. When an accident occurs in the United States, the distribution and traffic manager, Post Office Department, in the region concerned should also be notified. Accidents occurring outside the United States must be reported to the postal administration of the country to which the carrier belongs and to the postal administration of the country in which the accident occurs. (See paragraph (c) (6) of this section.)

(c) *Transportation of mail*—(1) *Tender of mail.* When authorized to transport mail, carriers shall provide necessary and adequate facilities and service for its transportation and will be held strictly accountable for the proper care of mail and postal equipment while in their custody.

(2) *Priority of mail and allocations*—(i) *Priority.* Air carriers shall transport all mail available for each flight designated by the Department. If the mail available for dispatch exceeds the weight allocation or normal load, the excess shall have priority of transportation over all unconfirmed and non-revenue traffic. (See § 96.1 (a) for normal mail load.)

(ii) *Allocations and estimates.* Weight allocations are for planning purposes to assist the postal service as well as air carriers to fully realize the maximum payload on each flight. Postal units will give air carriers an advance estimate of the mail anticipated for the flight, which may be above or below the weight allocation already agreed upon. If the estimate is in excess of the allocation, the air carrier may refuse the excess if confirmed traffic prevents its acceptance. If the air carrier refuses mail, Form 2750, Report of Irregular Handling of Air Mail, should be prepared for the difference between the amount accepted and the allocation or normal load. (See paragraph (d) of this section.)

(iii) *Backlog.* Carriers will be expected to provide sufficient lift to accommodate any backlog of mail which has accumulated due to irregular operations or cancellations.

(iv) *Removal or refusal.* When it becomes necessary to reduce the load of an aircraft due to weather or other cause, the following order of removal or refusal shall prevail:

(*a*) Company material.
(*b*) Express and cargo.
(*c*) All categories of mail other than letters and cards (LC).
(*d*) Diplomatic pouches not carried as first class mail.
(*e*) Company mail.
(*f*) LC mail after removal of all other traffic except revenue passengers with space confirmed prior to knowledge that the load must be reduced.

(3) *Delivery of mail to carriers*—(i) *Documentation.* The postal unit delivering mail must prepare the AV–7s, Mail Waybills, listing the origin, destination, weight of the mail, and dispatch and routing instructions. One set of AV–7s must be prepared for each stop point on the flight where mail is available for transportation.

(ii) *Verification by carriers.* The carriers shall verify all mail tendered for transportation against the entries appearing on the AV–7s. If an irregularity in the condition of the mail is observed at the time of acceptance, it should be brought to the attention of the postal unit before signing the AV–7s.

(4) *Delivery of mail to carriers on delayed flights and extra sections*—(i) *Delayed flights.* After flight documents have been completed for imminent departure and a delay occurs, additional mail should not be accepted by carriers unless it can be done without detriment and cause no further delay in departure of the flight. Additional mail will be tendered if space is available and it will not cause removal of passengers or cargo already manifested on the aircraft documents.

(ii) *Extra sections.* Mail may be conveyed on extra sections of a designated flight. Mail carried on extra sections shall be considered as having been conveyed on the regular scheduled flight for purposes of arriving at the base weight for the flight.

(5) *Transfer between flights.* Each carrier must transfer mail between its own flights whenever the transfer is shown on the AV–7s. It must transfer mail at points in the United States, its territories or possessions with domestic air carriers as directed by the Department. It must transport Form 2733, Interline Airmail Record, from the point of dispatch to the point of transfer, delivering the forms to the receiving air carrier with the mail. The receiving air carrier must accept and receipt for all mail listed on Form 2733. If the mail does not agree with the listing on the form, the delivering air carrier must prepare Form 2734, Airmail Exception Record. Actual mail transferred must be listed by on-line destination. In case of failure to connect the trip prescribed in Form 2733, air carrier should deliver the mail, together with the forms, to the local postal unit.

(6) *Retaining mail in foreign countries.* In a foreign country, carriers may retain custody of United States civilian mail aboard a flight when the departure is delayed up to 24 hours. On delays over 24 hours, or upon cancellation, civilian mail must be delivered to the local post office for disposition. The original documents, properly endorsed, must accompany the mail. Military airmail must be held in the custody of the air carrier, and the Post Office Department, Washington, D. C., should be promptly requested by wire to furnish instructions for disposition. Under no circumstances should military airmail be turned over to a foreign post office or to a foreign air carrier.

(7) *Delivery of mail by carriers to postal representatives.* Upon arrival of a flight, the carrier must unload the mail and make delivery as soon as possible to the authorized postal representative at such point as may be designated.

(i) *AV–7s.* One copy of each set of AV–7s and additional copies which are required for receipt to the carrier must be delivered with the mail. Any irregularities must be noted on all copies of the AV–7.

(ii) *No documents in the United States.* Carriers delivering mail to United States postal installations without AV–7s will obtain receipt on Form 2753, Receipt to Airline, for all mail delivered to the postal unit. The receipt will show only the total number of pieces being delivered. If a postal unit is not located at the airport, Form 2753 must be prepared by the carrier for signature by the postal service motor vehicle driver.

(iii) *No documents in foreign countries.* Carriers delivering mail to foreign postal installations without AV–7s will obtain receipt on such form as may be prescribed in that country.

(iv) *Delivery of all mail aboard an aircraft.* At terminal points of flights, all mail on board the aircraft will be delivered to the postal unit unless there is an agreement to the contrary between carriers and the governments concerned.

(v) *Irregular stops.* Carriers making irregular landings in the United States due to weather or other causes may retain the mail for six hours while holding for clearance to proceed to the designated terminal point. If the flight cannot proceed within the six hours, the mail on board, together with the mail documents, shall be delivered to the local postal unit.

(8) *Irregularities*—(i) *Labels lost in transit.* When a dispatch has lost its label in transit, the carrier may transport the dispatch to its off-loading point if it can be identified from the mail documents. Otherwise, the dispatch should be delivered to a postal unit for identification and re-labeling. Receipt should be obtained by the carrier from the accepting postal unit.

(ii) *Damaged mail dispatches.* When mail is discovered in a damaged condition, it should be off-loaded at the first stop or at the destination of the dispatch whichever occurs first. The damaged mail should be tendered to the local post office for handling and a receipt obtained therefor.

(iii) *Mail depredations.* All sealed mail containers that have been tampered with while in a carrier's custody should be surrendered immediately to the local post office with a statement of facts for any action deemed appropriate according to the laws of the country where the depredations or tampering of the mail occurred.

(9) *Refusals and removals of mail.* Refusals and removals of mail by a carrier may result in diversion of the mail to another carrier and in the imposition of fines.

(d) *Mail transportation irregularities*—(1) *Deductions and fines.* Carriers transporting mail will observe all applicable rules and regulations issued by the Department. The Department may impose a penalty against air carriers for failure to comply.

(2) *Reporting of irregularities.* It is the responsibility of postal personnel at international exchange offices to report all instances of irregularities that come to their attention. These reports should be made on Form 2759; the original and first copy of which will be sent to the distribution and traffic manager having jurisdiction over that unit; the second copy to the local station manager of the carrier concerned; and the third copy retained at the office preparing the report. Reports of irregularities not chargeable to a carrier should be forwarded to the distribution and traffic manager; with the usual copy being retained for files of the reporting unit.

(3) *Processing Form 2759.* If it is determined that a penalty is in order, the 2759 will be sent to the fining region with recommendation by the 20th of the month following that in which the irregularity occurred.

(4) *Notification to the carrier.* The copy of Form 2759 sent to the air carrier serves as notice of the irregularity. It is not contemplated that there will be a letter of acceptance of responsibility by the carrier. Failure to inform the distribution and traffic manager in whose region the 2759 was prepared by the 10th of the following month will be considered as an acceptance of the facts as stated in the report.

(5) *Assessing penalties.* All irregularities occurring during a month will be processed as a unit and cleared by the end of the following month. It is not intended that a penalty be imposed if the irregularity is the result of weather conditions or other circumstances beyond the control of the carrier. The following schedule shall be used to determine the amount of each penalty.

(i) *Refusal and removal.* Air carriers using pre-determined weight allocations need not submit Form 2760, Refusal or Removal Report. In such cases, an explanation should be furnished the distribution and traffic manager within fifteen days after the irregularity occurs but no later than the 10th of the following month, including such facts as the weight of company material and cargo carried on the flight. Failure to accept the allocation or advance estimate, if any is given, will be analyzed to determine whether a penalty should be imposed. The basis for such penalty shall be $1.00 for each kilogram or fraction.

(ii) *Failure to notify postal authorities.* Failure to notify postal authorities of non-operation, late departure, additional sections, additional stops, omission of scheduled stops, etc., will be subject to a penalty if in the opinion of the distribution and traffic manager there is significant failure to cooperate. Such penalties should be in multiples of $25.00 for each offense.

(iii) *Delayed delivery to postal unit.* Air carriers delivering mail to the postal unit at the airport in excess of the prescribed time limit shall be assessed a penalty of $7.00 for each piece unless appropriate explanation is furnished.

(iv) *Non-receipt of mail documents.* Air carriers delivering mail without

AV–7s or mail manifest will be penalized on the basis of $10.00 for each such occurrence unless a satisfactory explanation is given.

(v) *Serious infractions.* In the event of a serious infraction which requires punitive action not specifically mentioned herein, the distribution and traffic manager will communicate such facts to the Director, International Service, for decision.

(6) *Computing penalties.* After computing penalties for a month and the total penalties amount to $50.00 or less, the cases shall be filed and no penalty imposed for that month.

(7) *Appeal by carrier.* If a carrier should appeal the amount of the penalty on any particular irregularity, all papers should be forwarded to the Director, International Service, for review.

(8) *Notification to the office settling the accounts.* The distribution and traffic manager will advise the office settling the accounts as indicated below, the total deduction to be made from mail pay due the carrier. A copy of such advice should also be sent to the Director, International Service. Also, a copy should be sent to the carrier concerned, together with a copy of Form 2759 on which penalties have been assessed.

Name of carrier	Route No.	Region assessing fines	Office settling accounts
American Airlines, Inc.	FAM 26	Fort Worth	Reg. Controller, Wichita.
Braniff Airways, Inc.	FAM 34	do	(1).

[1] International Accounts Section, Bureau of Finance, Post Office Department, Washington 25, D. C.

(e) *Records and reports*—(1) *Form 2759, Report of Irregular Handling of Air Mail.* Postal employees must prepare Form 2759 promptly to report all irregularities in the handling of mail, including refusals by carriers. The form serves as a basis for assessing penalties against air carriers whenever the circumstances warrant.

(2) *Form 2753, Receipt to Airline.* Form 2753 is a receipt prepared by postal personnel and given carriers delivering mail without AV–7s. The receipt is prepared in duplicate and will show only the total number of pieces and flight data.

(3) *Form 2734, Airmail Exception Record.* Form 2734 will be prepared by air carriers due to effect transfer of airmail to a United States domestic air carrier when circumstances prevent following the original routing, loss of papers, etc.

(f) *Rates of compensation*—(1) *Rates for air carriers; United States mail.* Rates of compensation due air carriers for the transportation of mail are fixed by the Civil Aeronautics Board and amounts due them are paid by the Department from appropriations for the transportation of mail by aircraft.

(2) *Rates for air carriers; foreign mail.* The Department will fix from time to time the rates of compensation that are charged foreign countries for the conveyance of their mail by air carriers.

(3) *Rates for foreign air carriers; United States mail.* The Department will not pay to a foreign air carrier or his national government, a rate for transporting mail between the United States and such country, higher than that paid to air carriers by foreign governments for transporting their mail between such foreign countries and the United States.

(g) *Payment for transportation of mail*—(1) *Air carrier accounts; payment for foreign mail.* All revenue received from foreign governments for the transportation of their mail by air carriers is for their account. Collections of amounts due from foreign countries may be effected from such foreign countries direct by air carriers (with prior approval of the Department) or by the Department.

(2) *Air carrier accounts; payment for United States mail.* Air carriers will submit their claims, prepared and supported according to instructions furnished by the Department, to the offices named below:

Carrier	FAM Route No.	Office settling accounts
American Airlines, Inc.	FAM 26	Reg. Controller, POD, Wichita.
Eastern Air Lines, Inc.	FAMs 33 and 35	Reg. Controller, POD, Richmond.
National Airlines, Inc.	FAM 32	Reg. Controller, POD, Richmond.
United Air Lines, Inc.	FAM 30	Reg. Controller, POD, Denver.
Western Airlines, Inc.	FAM 36	Reg. Controller, POD, San Francisco.
Braniff Airways, Inc.	FAM 34	International Accounts Section, Bureau of Finance, Post Office Department, Washington 25, D. C.
Delta Air Lines, Inc.	FAM 31	
Northwest Airlines, Inc.	FAM 28	
Pan American World Airways, Inc.:		
(Latin American Division)	FAM 5	
(Pacific Division)	FAM 14	
(Atlantic Division)	FAM 18	
Pan American Grace Airways, Inc.	FAM 9	
Trans World Airlines, Inc.	FAM 27	

(3) *Foreign air carrier accounts; payment for mail loaded in the United States.* Foreign flag air carriers authorized by their governments to collect direct from the United States Post Office Department will submit their claims prepared and supported according to instructions furnished by the Post Office Department, Washington 25, D. C. Transportation charges for mail enplaned in the United States will be claimed from the United States Post Office Department irrespective of actual origin of the mail transported from the United States by foreign air carriers.

(h) *International air handbook.* Exchange offices will be governed by instructions contained in Transportation Handbook, Series T–1, Instructions for Handling and Reporting of International Airmail at Exchange Offices, together with such special instructions as may be issued from time to time.

NOTE: The corresponding Postal Manual Part is Part 542.

(R. S. 161, 396, as amended; sec. 405, 52 stat. 994, as amended; 5 U. S. C. 22, 369, 49 U. S. C. 485)

[SEAL] LEO G. KNOLL,
Acting General Counsel.

[F. R. Doc. 58–5457; Filed, July 16, 1958; 8:48 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter L—Mineral Lands

[Circular 2007]

PART 185—GENERAL MINING REGULATIONS

SUBPART I—MINING, DEVELOPMENT AND UTILIZATION OF THE MINERAL RESOURCES OF PUBLIC LANDS WITHDRAWN OR RESERVED FOR POWER DEVELOPMENT

On pages 8946 to 8948, inclusive, of the FEDERAL REGISTER for November 16, 1956, there was published a notice of proposed regulations to implement the act of August 11, 1955 (69 Stat. 681; 30 U. S. C. secs. 621–625). Interested persons were allowed 30 days in which to submit written comments, suggestions or objections with respect to the proposed regulations. As a result of certain comments received, the following changes in the proposed regulations are made:

1. The title is changed by adding Subpart I thereto, which was omitted from the proposed regulations.

2. The sections were renumbered to be chronologically in agreement with the subpart designation and to allow for possible expansion of regulations previously written and printed in Circular No. 1941.

3. That part of § 185.174 (b) reading "every notice of location made must contain a statement that it is made subject to the act and" is deleted. This suggested change was adopted because it is believed that such a statement, as written, was not authorized by the law.

4. Section 185.177 was redrafted to detail more completely the subject of hearings which may be required relative to placer mining locations.

5. That part of § 185.178 reading "State Supervisor" was changed to "Examiner" in conformance with the Administrative Procedures Act.

6. Section 185.183 (b) (3) was redrafted to read "The location was made prior to August 11, 1955 on lands restored to location from a power site reserve or withdrawal subject to section 24 of the Federal Power Act" for clarification only.

7. The following was added to § 185.183 (c) as an alternative for the deletion in § 185.174 (b): "For identification purposes only, the copy of the location notice or certificate, filed in the Land Office under this subsection, should contain a notation that it was filed under the Act of August 11, 1955."

8. The word "must" where it appears in § 185.183 (c) and (d), has been changed to "shall" to agree with the act.

9. The word "must" where it appears in § 185.184 (b), has been changed to "shall" to meet the objections of the American Mining Congress.

Subpart I of Part 185, as published and revised, is set forth below.

HATFIELD CHILSON,
Acting Secretary of the Interior.

JULY 10, 1958.

SUBPART I—MINING, DEVELOPMENT, AND UTILIZATION OF THE MINERAL RESOURCES OF PUBLIC LANDS WITHDRAWN OR RESERVED FOR POWER DEVELOPMENT

Sec.
185.172 Purpose and authority.
185.173 Powersite lands opened to mineral location and development exception.
185.174 Power rights retained in United States.
185.175 O. & C. R. R. and Coos Bay Wagon lands subject to act of April 8, 1948.
185.176 Placer locator to conduct no mining operation for 60 days.
185.177 Hearing, time and place; fees and costs.
185.178 Bond or deposit required.
185.179 Restoration of surface condition.
185.180 Act ineffective as to other withdrawals.
185.181 Prospecting and development at financial risk of party or parties doing work.
185.182 United States not liable except for negligence.
185.183 Owner of claim to file notice of location and assessment work.
185.184 No limitation or restriction of rights under valid claims located prior to withdrawal.
185.185 No limitation of rights where claimant in diligent prosecution of work when future withdrawal made.
185.186 Mining claim and mill site use; limitation.

AUTHORITY: §§ 185.172 to 185.186 issued under R. S. 2478, as amended, sec. 2, 69 Stat. 682; 43 U. S. C. 1201, 30 U. S. C. 621.

§ 185.172 *Purpose and authority.* The act of August 11, 1955 (69 Stat. 681) was enacted "To permit the mining, development, and utilization of the mineral resources of all public lands withdrawn or reserved for power development, and for other purposes". The regulations in this part are intended to implement those parts of the act which require action by the Department of the Interior. The expression "act" shall mean the act of August 11, 1955 (69 Stat. 681), cited in the act as the "Mining Claims Rights Restoration Act of 1955".

§ 185.173 *Power site lands opened to mineral location and development; exception.* The act in section 2 provides in part as follows:

All public lands belonging to the United States heretofore, now or hereafter withdrawn or reserved for power development or power sites shall be open to entry for location and patent of mining claims and for mining, development, beneficiation, removal, and utilization of the mineral resources of such lands under applicable Federal statutes; * * * that nothing contained herein shall be construed to open for the purposes described in this section any lands (1) which are included in any project operating or being constructed under a license or permit issued under the Federal Power Act or other act of Congress, or (2) which are under examination and survey by a prospective licensee of the Federal Power Commission, if such prospective licensee holds an uncanceled preliminary permit issued under the Federal Power Act authorizing him to conduct such examination and survey with respect to such lands and such permit has not been renewed in the case of such prospective licensee more than once.

§ 185.174 *Power rights retained in the United States.* (a) The act in the first proviso provides as follows:

That all power rights to such lands shall be retained by the United States.

(b) Under this proviso every patent issued for such a location must contain a reservation unto the United States, its permittees or licensees of the right to enter upon, occupy and use, any part of the lands for power purposes without any claim or right to compensation accruing to the locator or successor in interest from the occupation or use of any of the lands within the location, for such purposes. Furthermore, the patent will contain a provision that the United States, its permittees and licensees shall not be responsible or held liable or incur any liability for the damage, destruction, or loss of any mining claim, mill site, facility installed or erected, income, or other property or investments resulting from the actual use of such lands or portions thereof for power development at any time where such power development is made by or under the authority of the United States, except where such damage, destruction, or loss results from the negligence of the United States, its permittees and licensees.

§ 185.175 *O. & C. R. R. and Coos Bay Wagon lands subject to the act of April 8, 1948.* The act in the second proviso thereof provides

that locations made under the act within the revested Oregon and California Railroad and reconveyed Coos Bay Wagon grant lands shall also be subject to the provisions of the Act of April 8, 1948 (62 Stat. 162).

See §§ 185.37a–185.37e.

§ 185.176 *Placer locator to conduct no mining operations for 60 days.* (a) The act in section 2 (b) provides in part as follows:

The locator of a placer claim under this Act, however, shall conduct no mining operations for a period of sixty days after the filing of a notice of location pursuant to section 4 of this Act. If the Secretary of the Interior, within sixty days from the filing of the notice of location, notifies the locator by registered mail of the Secretary's intention to hold a public hearing to determine whether placer mining operations would substantially interfere with other uses of the land included within the placer claim, mining operations on that claim shall be further suspended until the Secretary has held the hearing and has issued an appropriate order. The order issued by the Secretary of the Interior shall provide for one of the following: (1) a complete prohibition of placer mining; (2) a permission to engage in placer mining upon the condition that the locator shall, following placer operations, restore the surface of the claim to the condition in which it was immediately prior to those operations; or (3) a general permission to engage in placer mining. No order by the Secretary with respect to such operations shall be valid unless a certified copy is filed in the same State or county office in which the locator's notice of location has been filed, in compliance with the United States mining laws.

(b) Upon receipt of a notice of location of a placer claim filed in accordance with § 185.183 for land subject to location under the act, a determination will be made by the authorized officer of the Bureau of Land Management as to whether placer mining operations on the land may substantially interfere with other uses thereof. If it is determined that placer operations may substantially interfere with other uses, a notice of intention to hold a hearing will be sent to each of the locators by registered mail within 60 days from date of filing of the location notice.

§ 185.177 *Hearing, time, and place; notice by parties desiring to protest; fees and costs.* (a) If a hearing is to be held, notice of the hearing will be delivered personally or by registered mail to the locator of the placer claim. The notice will indicate the time and place of hearing. The procedures with respect to service of notice of hearing and conduct thereof shall follow the rules of practice of the Department of the Interior (Part 221 of this title) in effect at the time the hearing is held. No publication of the notice will be required but a copy thereof shall be posted in the proper land office of the Bureau of Land Management for a period of not less than 30 days prior to the date set for the hearing. The manager shall give such publicity to the hearing as may be done without expense to the Government.

(b) Any party, other than a Federal agency, desiring to appear and testify at a hearing in protest to placer mining operations must file a written notice of protest in the land office wherein the notice of hearing is posted. Such notice, accompanied by a $10 filing fee, must contain the party's name and address and a statement showing the nature of the party's interest in the use of the lands embraced within the mining

claim. Each notice of protest must be filed within the period of time specified in the notice of hearing. The manager shall forward a copy of each such notice that is filed to the mining locator prior to the hearing. Each party appearing at the hearing shall pay the reporter's fee covering the testimony of the party and of his witnesses and his cross-examination of any other party or witnesses.

(c) Following the hearing, the examiner will render a decision, subject to the right of appeal by any person admitted as a party to the hearing in accordance with the rules of practice of the Department of the Interior (Part 221 of this title). Each decision by an examiner, or upon appeal, shall provide for the issuance of an appropriate order as provided in section 2 (b) of the act; but no such order shall issue until the decision, upon which it is based, becomes final. A certified copy of any order issued shall be filed in the same State or county office in which the location notice has been filed. Any such order permitting mining operations shall be filed at the expense of the mining locator.

§ 185.178 *Bond or deposit required.* Should a limited order be issued under section 2 (b) (2) of the act, the locator is required to furnish a bond in a sum determined by the Examiner. The bond must be either a corporate surety bond or a personal bond accompanied by cash or negotiable Federal securities equal at their par value to the amount of the penal sum of the bond, together with power-of-attorney to the Secretary of the Interior or his delegate.

§ 185.179 *Restoration of surface condition.* If the locator fails or refuses to restore the surface, appropriate action will be taken against him and his surety, including the appropriation of any money deposited on personal bonds, to be used for the purpose of restoring the surface of the claim involved. Any moneys on deposit or received from surety in excess of the amount needed for the restoration of the surface of the particular claim shall be refunded.

§ 185.180 *Act ineffective as to other withdrawals.* (a) The act in section 2 (c) provides as follows:

> Nothing in this act shall affect the validity of withdrawals or reservations for purposes other than power development.

(b) If the power site lands are also affected by any other type of withdrawal which prevents mining location in whole or in part, the provisions of the act apply only to the extent that the lands are otherwise open to location.

§ 185.181 *Prospecting and development at financial risk of party or parties doing work.* The act in section 3 provides in part as follows:

> Prospecting and exploration for and the development and utilization of mineral resources authorized in this act shall be entered into or continued at the financial risk of the individual party or parties undertaking such work.

§ 185.182 *United States not liable except for negligence.* The act in section 3 provides in part as follows:

> *Provided*, That the United States, its permittees and licensees shall not be responsible or held liable or incur any liability for the damage, destruction, or loss of any mining claim, mill site, facility installed or erected, income, or other property or investments resulting from the actual use of such lands or portions thereof for power development at any time where such power development is made by or under the authority of the United States, except where such damage, destruction, or loss results from the negligence of the United States, its permittees and licensees.

§ 185.183 *Owner of claim to file notice of location and assessment work.* (a) The act in section 4 provides as follows:

> The owner of any unpatented mining claim located on land described in section 2 of this act shall file for record in the United States district land office of the land district in which the claim is situated (1) within one year after the effective date of this act, as to any or all locations heretofore made, or within sixty days of location as to locations hereafter made, a copy of the notice of location of the claim; (2) within sixty days after the expiration of any annual assessment year, a statement as to any work done or improvements made during the previous assessment year.

(b) Neither section 4 nor any other provision of the act validates any mining location made prior to the act, which is invalid because made on lands after they were withdrawn or reserved for power purposes and before a favorable determination by the Federal Power Commission under section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063; 1075), as amended (16 U. S. C. 792; 818) and the opening or restoration of the lands to location. Section 4 applies to unpatented locations for lands referred to in § 185.173 only if:

(1) The location was made on or after August 11, 1955, or

(2) The location was made prior to August 11, 1955 and prior to the withdrawal or reservation of the lands for power purposes, or

(3) The location was made prior to August 11, 1955 on lands restored to location from a powersite reserve or withdrawal subject to section 24 of the Federal Power Act.

(c) The owner of an unpatented location coming under paragraph (b) (1) of this section, within sixty days from the date of location shall file in the United States land office for the district in which the lands lie,[1] a copy of the notice or certificate of location and within sixty days after the expiration of each assessment year, a statement as to the assessment work done or improvements made during that assessment year.[2]

(d) The owner of an unpatented location coming under either paragraph (b) (2) or (3) of this section, before August 11, 1956 shall have filed in the United States land office for the district in which the lands lie[1] a copy of the notice or certificate of location and within 60 days from the date of expiration of the assessment year which ended noon July 1, 1956 and within 60 days from the date of expiration of each succeeding assessment year, shall file a statement as to the assessment work done or improvements made during the previous assessment year.

§ 185.184 *No limitation or restriction of rights under valid claims located prior to withdrawal.* (a) The act in section 5 provides:

> Nothing in this act contained shall be construed to limit or restrict the rights of the owner or owners of any valid mining claim located prior to the date of withdrawal or reservation: *Provided*, That nothing in this act shall be construed to limit or restrict the rights of the owner or owners of any mining claim who are diligently working to make a discovery of valuable minerals at the time any future withdrawal or reservation for power development is made.

(b) Although the act does not limit or restrict the rights of owners of locations to which section 5 refers, such owners shall comply with section 4 by making the filings required either by paragraph (c) or paragraph (d) of § 185.183, whichever is applicable.

§ 185.185 *No limitation of rights where claimant in diligent prosecution of work when future withdrawals made.* (a) Under section 5 of the act quoted in § 185.114 the rights to a location made prior to any future withdrawal or reservation for power development or one on which the locator was diligently working to make a discovery of valuable minerals are not limited or restricted.

§ 185.186 *Mining claim and mill site use; limitation.* (a) The act in section 6 provides as follows:

> Notwithstanding any other provisions of this act, all mining claims and mill sites or mineral rights located under the terms of this act or otherwise contained on the public lands as described in section 2 shall be used only for the purposes specified in section 2 and no facility or activity shall be erected or conducted thereon for other purposes.

(b) Under this section, a mining claim or mill site may not be used for purposes other than for legitimate mining and milling. The claimant, therefore, may not erect on the mining claim any facility or activity such as filling stations, curio shops, cafes, tourist or hunting and fishing lodges, or conduct such businesses thereon.

[F. R. Doc. 58-5449; Filed, July 16, 1958; 8:46 a. m.]

[1] In this connection, the land office for North Dakota and South Dakota is located at Billings, Montana; that for Nebraska at Cheyenne, Wyoming; and that for Arkansas, Florida, Louisiana and Mississippi, at Washington, D. C.

[2] For identification purposes only, the copy of the location notice or certificate, filed in the land office under this subsection, should contain a notation that it was filed under the Act of August 11, 1955.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 107—CHIGNIK AREA

CURTAILMENT OF FISHING

Basis and purpose: Field observations show that the catch of red salmon in the Chignik Bay district has arisen to a total of 200,000 as compared to an escapement through the weir of 156,000 and it is, therefore, necessary to curtail fishing to achieve greater escapements.

Section 107.9 is amended in paragraph (b) by adding the following proviso: "*Provided*, That fishing is further prohibited from 6 a. m. July 16 to 6 a. m. July 21, 1958."

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

Immediate action is necessary if required escapements are to be achieved. Therefore, notice and public procedure on this amendment are not practical nor in the public interest and it shall become effective immediately upon publication in the FEDERAL REGISTER. (60 Stat. 237; 5 U. S. C. 1001 et seq.)

RALPH C. BAKER,
Acting Director,
Bureau of Commercial Fisheries.

JULY 15, 1958.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 1]

RULES OF THE BUREAU OF INDIAN AFFAIRS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given of intention to add a new Part 1, to Title 25 of the Code of Federal Regulations, to read as set forth below. The purpose of this addition is to establish a procedure permitting interested persons to petition for the issuance, amendment, or repeal of rules in Title 25.

All interested persons are hereby given the opportunity to submit in writing views, data, and arguments concerning the proposed addition, to the Commissioner of Indian Affairs, Department of the Interior, Washington 25, D. C., within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

ROGER ERNST,
Assistant Secretary of the Interior.

JULY 10, 1958.

PART 1—RULES OF THE BUREAU OF INDIAN AFFAIRS

Sec.
1.1 Scope.
1.2 Petitions respecting regulations.

AUTHORITY: §§ 1.1 and 1.2 issued under 25 U. S. C. 2 and 5 U. S. C. 22.

§ 1.1 *Scope.* Chapters I and II of this title contain the bulk of the regulations of the Department of the Interior of general application relating to Indian affairs. Subtitle B, Chapter I, Title 43 of the Code of Federal Regulations contains rules relating to the relationship of Indians to public lands and townsites. Subtitle A of Title 43 of the Code of Federal Regulations has application to certain aspects of Indian affairs and, among other things, governs practice before the Department of the Interior, of which the Bureau of Indian Affairs is a part. Indian health matters are covered in 42 CFR Part 36. Title 30 of the Code of Federal Regulations contains regulations on oil and gas and other mining operations which, under certain circumstances, may be applicable to Indian resources.

§ 1.2 *Petitions respecting regulations.* Any interested persons may petition for issuance, amendment, or repeal of any regulation in Chapters I and II of this title. Such petition shall show the text of the proposed regulation or amendment or identify the regulations the repeal or modification of which is desired, and set forth the reasons in support of the petition. The petition may be filed, by mail or by delivery in person, with the office of the Secretary of the Interior, Washington, D. C. (5 U. S. C. 1003d.)

[F. R. Doc. 58-5454; Filed, July 16, 1958; 8:47 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 967]

[Docket No. AO-170-A11]

HANDLING OF MILK IN SOUTH BEND-LA PORTE-ELKHART, INDIANA, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at South Bend, Indiana, on March 18-20, 1958, pursuant to notice thereof issued on February 6, 1958 (23 F. R. 876) and notice of postponement of hearing issued February 25, 1958 (23 F. R. 1257).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on June 6, 1958 (23 F. R. 4087) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues on the record of the hearing relate to:

(1) Expansion of the marketing area to cover several counties,

(2) Adoption of delivery performance requirements for plants participating in the marketwide pool; inclusion of a definition of "reload point",

(3) Introduction of compensatory payments on certain milk partially regulated,

(4) Modification of the base and excess plan to permit the computation of bases for new producers entering the regulated market as the result of any marketing area expansion,

(5) Revision of the price formulas for Class I milk and Class II milk; and introduction of price adjustments for location,

(6) Adoption of provisions by which announced class prices would be expressed in terms of prices per hundredweight of milk of 3.5 percent butterfat content, plus or minus a butterfat differential for butterfat test variation in each class, in lieu of separately computed class prices for skim milk and butterfat,

(7) Revision of the administrative assessment provision, and

(8) Certain order revisions for administrative purposes.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

(1) The marketing area should be enlarged to include all territory geographically located within the perimeter boundaries of the counties of La Porte, St. Joseph, and Elkhart, Indiana, together with all incorporated communities therein. The name of the marketing area should be changed to "South Bend-La Porte-Elkhart, Indiana, marketing area".

The South Bend-La Porte, Indiana, marketing area as defined at the present time includes the cities of Michigan City and La Porte, in La Porte County, and the cities of South Bend and Mishawaka, in St. Joseph County, all in the State of Indiana. Territory outside the corporate limits of such cities but located within the respective counties named is not a part of the marketing area.

Producers proposed the expansion of the marketing area to cover such named counties in their entirety, including all incorporated communities lying therein and also the entire county of Elkhart, together with its incorporated places.

One handler proposed the inclusion of the same areas suggested in the producers' proposal plus the Indiana counties of Starke, Marshall, Kosciusko, Fulton, and Pulaski in their entirety. This proposal was abandoned by proponent during the course of the hearing and in view of the lack of evidence as to the need for regulation of the latter five counties, it is concluded that such counties should not be made a part of the defined marketing area.

Extension of regulation to La Porte, St. Joseph, and Elkhart counties, however, will correct unstable marketing conditions caused by lack of uniformity in the buying prices for milk in these counties. It will provide also a framework for orderly marketing and insure an adequate supply of Grade A milk for consumers. Basically, an order provides for:

(a) A regular and dependable method for determining prices to producers at levels contemplated under the Agricultural Marketing Agreement Act, as amended;

(b) The establishment of uniform pricing to handlers for milk received from producers according to a classified price plan based upon the utilization made of the milk;

(c) An impartial audit of handlers' records of receipts and utilization further to insure uniform prices for milk purchased;

(d) A means for insuring accurate weights and tests of milk;

(e) Uniform returns to producers supplying the market and an equitable sharing by all producers of the lower returns from the sale of reserve milk; and

(f) Marketwide information on receipts, sales, and other data relating to milk marketing in the area.

In this instance the order also would establish for producers supplying the annexed area, as well as maintain for the producers currently affected by the order, uniform rules for the operation of a base and excess plan to encourage more even production of milk seasonally.

The suburban communities in St. Joseph County, adjacent to the city of South Bend, represent a regular outlet for a substantial proportion of the total Class I milk business of South Bend (regulated) handlers. A very large percentage of the fluid milk sold in St. Joseph County is processed in plants under the South Bend-La Porte order and thus is subject to order pricing. Some fluid milk sold in the county in competition with order-priced milk is distributed by persons not under price regulation of any kind and for a long period such distribution has presented difficult competitive problems for regulated handlers as the result of price advantage in the purchase of milk from dairy farmers. Since the adoption in July 1957 of statewide regulations in Indiana requiring the sale of Grade A milk only for fluid consumption, all milk distributed in St. Joseph County from milk plants located in that county or in other counties has been required to meet quality standards substantially the same as those applicable to milk sold in the city of South Bend. Such milk thus may reasonably be priced on a basis equivalent to South Bend approved milk. The elimination of differences in the pricing of milk purchased from dairy farmers for sale in the county will tend to promote orderly marketing.

At the present time there are no unregulated plants distributing milk in La Porte County. Although the county has not issued a formal health ordinance as have St. Joseph and Elkhart Counties, all milk distributed in the county meets the State quality requirements for milk to be sold for fluid consumption as Grade A milk through inspection by the health authorities of the city of La Porte and Michigan City. Since regulated plants service this county with its complete milk requirements at the present time and the county is a part of the regular distribution area for a substantial proportion of the Grade A milk processed in such plants, its inclusion in the marketing area is practicable and desirable to avoid repetition of the pricing disadvantages which have been experienced by regulated handlers operating in St. Joseph County. La Porte County should be included in the marketing area.

South Bend handlers distribute milk in Elkhart County in competition with milk distributors at Elkhart and with milk distributors from locations outside either county. Also farms of dairy farmers delivering milk to Elkhart distributors are interspersed with those of producers whose milk is shipped to South Bend and currently priced by the order. Farm prices for milk in the South Bend and Elkhart milksheds have fluctuated widely, with consequent supply problems for the South Bend market. The Elkhart market has been subject to recurring resale price disturbances with detrimental effect on farm prices for milk. At other times, when milk prices in the Cleveland market (at Goshen, Indiana) have been relatively attractive, Elkhart prices to farmers have been sufficiently high to attract milk from South Bend plants, without regard to the adequacy of supplies for such plants.

The adoption of price regulation for the Elkhart market will promote greater stability of supplies for both markets and, with the prices recommended herein, will provide more assurance for consumers that adequate supplies will be available in both markets which have had periodic difficulties in maintaining sufficient supplies. Further, competitive difficulties resulting from differences in the cost of purchasing milk from farmers will be avoided as between South Bend and Elkhart dealers and between Elkhart dealers and distributors more distantly located who have established outlets in Elkhart County. It is concluded that Elkhart County should be included in the marketing area.

In view of the addition of the City of Elkhart, a principal community, to the marketing area, it is concluded that henceforth the marketing area should be referred to as the "South Bend-La Porte-Elkhart, Indiana, marketing area".

(2) Performance requirements for plants to participate in the marketwide pool and a definition of "reload point" should be provided.

The major producers' association proposed that delivery performance standards be established for plants to participate in the marketwide pool. Proponents submitted that a "pool plant" should be defined as either (a) a plant which is approved by a health authority having jurisdiction in the marketing area for the processing and distribution of milk in fluid form and from which (i) at least 10 percent of the plant's volume of Class I and Class II milk is disposed of on routes lying entirely or partially within the marketing area, and (ii) either 50 percent of its receipts of producer milk is disposed of as Class I milk, or 65 percent of such receipts is disposed of in Class I and Class II milk combined; or (b) a plant or reload point from which not less than 50 percent of the receipts of milk or butterfat is disposed of to a plant as defined in (a) above. Proponents, in a separate proposal, also suggested an increase in the level of the Class II price, and conditioned their support of the use of Class II milk utilization as a basis of pool plant qualification on the adoption of a Class II price increase.

Several handlers joined in a separate, but similar, proposal to establish delivery performance standards as a basis for pool plant qualification. However, as noted elsewhere in this decision, handlers proposed to discontinue the use of a separate classification and price for milk used in the manufacture of cottage cheese, and to price milk in this use at the current Class III price level.

Under the present order all milk eligible for distribution as fluid milk which is received at an "approved plant" from which Class I milk is disposed of in the marketing area is fully regulated and pooled. A plant may become fully regulated during any month of the year by making only token sales of Class I milk in the marketing area. While the present provisions have functioned to serve their intended purposes of pricing and pooling only that milk customarily associated with the market, recent changes in procurement practices, i. e., the procurement of milk from greater distances, and the proposed expansion of the marketing area, make advisable more precise standards for determining the milk to be eligible for pooling. Such standards are necessary to specify adequately, for regulatory purposes, that milk which may be said to be identified primarily with this market.

The order provides for the distribution of producer returns by means of a marketwide pool. Since the marketwide pool results in payments to all producers on an average utilization for the market, individual handlers are relieved, in large measure, of responsibility for maintaining a high Class I utilization in order to support their pay rates to producers. Whatever utilization of milk a handler may have, his minimum rate of pay to producers will be the same as that of other handlers in the market because handlers whose proportion of utilization in Class I is greater than the market average make payments into the producer-settlement fund and those whose proportion of utilization in Class I is less than the average for the market receive payment from the fund, in order that all producers may receive uniform prices. Thus, under certain circumstances, the operators of plants engaged principally in the manufacture of milk into manufactured dairy products, or in supplying other fluid markets, have an incentive to place their plants under the regulation for the sole purpose of obtaining payment from the producer-settlement fund. If a distributor loses some portion of fluid sales in another marketing area temporarily, he may seek to join the South Bend-La Porte-Elkhart market pool in order to continue to pay farmers a blended price on such milk, even though it is used in lower-priced manufacturing uses. If unregulated operators are entirely free to decide when they will or will not share in the market pool, their decisions normally will be made to join the pool when they will draw payments from the equalization fund. Thus, status of a plant with respect to the pool may be the determining factor in guiding the operations of

the plant operator. The South Bend-La Porte-Elkhart market, however, would gain no advantage from the payment of equalization on such supplies. Such a distribution of equalization payments, in fact, would reduce the blended price to dairy farmers regularly supplying the market, thereby having an adverse effect on returns to those producers furnishing milk supplies upon which this market depends. The scope of pooling and the plan for distributing returns for Class I sales under the order, therefore, must be such that the Class I use values will serve the purpose for which they are intended, i. e., to insure a sufficient and dependable supply of milk for the market.

A major problem in establishing or maintaining a marketwide pool is to fix standards which will accommodate the sharing of Class I sales among only those producers who are an essential and regular part of the milk supply for the marketing area. In order not to extend regulation beyond the point necessary to accomplish the objectives of the statute, standards adopted should be flexible enough to include in the pool only those plants having significant association with this market and to permit intermittent shipments and casual sales of milk, without pooling, by plants the primary function of which is the supplying of milk for other markets, but which are found to be distributing milk in the area on the basis of a small, perhaps accidental, shipment.

It is concluded that delivery performance should be the measure of whether a plant is sufficiently identified with the market to be fully subject to the pricing, pooling and payment provisions of the order. A 50-percent requirement on Class I disposition will identify those distributing plants which, in the first place, are primarily employed in a fluid milk business as contrasted to a milk manufacturing operation. The requirement that at least 10 percent of the distributing plant's Class I sales be made within the marketing area on routes is designed to include in the pool only those plants which have more than an incidental association with this market.

The requirement that 50 percent of the monthly receipts of milk from dairy farmers at a supply-type plant be moved to a distributing-type plant which is qualified as a pool plant, in order that the supply plant may participate in the pool, will identify those supply plants with the primary function of supplying such milk as is needed over and above the quantities delivered from farms of individual producers directly to the marketing area. At the present time there is only one plant (actually a reload point) of this type at which the total volume of Grade A milk received is an integral part of the supply for the marketing area. A supply-type plant with less than 50 percent of its receipts supplied to the marketing area in any month should be considered a source primarily for some other market. It is expected that such limitation on pool participation, in practice, will affect only plants which have no previous record of service to the marketing area but for which area outlets may be sought in the future. Any plant or reload point, however, which has served the market as a supply source for each of any five consecutive months in the period from August to March, inclusive, in accordance with the 50 percent delivery requirements for such months, will be permitted automatic pool plant status for the immediately following four months of April through July.

Milk from sources other than those meeting Grade A requirements may be utilized for cottage cheese to be sold in parts of the marketing area. If performance standards for pooling were based on Class II milk utilization as well as Class I milk, it would be possible for a plant the major function of which is the manufacture and sale of such product to qualify for pooling, and dairy farmers producing milk not meeting Grade A quality standards would receive the marketwide blended price. The pricing and pooling provisions are designed to return to producers a blended price which will bring forth an adequate supply of Grade A milk for the market's fluid needs. Since it is not required uniformly that Grade A milk be used in cottage cheese, it would be inappropriate for a plant to qualify for pooling on the basis of Class II sales. It is concluded, therefore, that Class II utilization should not be used as a basis for pool qualification.

There is no provision in the current order for the pricing of milk at reload points. It was proposed, however, that a definition of "reload point" be incorporated into the order so that all producers would be equitably treated in the distribution of returns for their milk on the basis of the location to which their milk is delivered.

The conversion from can handling to bulk tank handling of milk presents additional problems in the handling and pricing of milk. When milk comes to the market in cans from great distances the milk of individual producers is dumped, weighed, tested and assembled in storage tanks in the country supply plant and cooled for shipment by over-the-road tanks to the processing plant. Upon receipt at such plant the handler becomes responsible for accounting for the milk and the plant is also the point of pricing.

When milk is collected from distant farms by the bulk tank method, it may be measured in the farm bulk tank, sampled for butterfat, pumped into a bulk tank truck, and delivered either to a supply plant or to a reloading point where, in turn, the tank loads of milk hauled from the farms are pumped directly into large over-the-road tank trucks and delivered to a distributing plant. In the case of the one reload point being used in this market individual records of each farmer's deliveries are kept as well as facilities maintained for washing and sanitizing the tank trucks and for the testing of butterfat samples.

One Order 67 handler currently reloads milk from individual farm pick-up tanks into over-the-road tankers and delivers the milk to his distributing plant. Since a reload point under the bulk handling method serves a function similar to that of a supply plant under the can handling method, it should be treated in the same manner insofar as pricing, location differentials to handlers, and performance requirements for pool status are concerned. It is concluded that a definition of reload point and its application to pricing, location differentials, and performance requirements will facilitate the pricing and orderly marketing of milk under Order 67. The term "reload point" should be defined to mean any location at which milk moved from the farm in a tank truck is commingled with other milk before entering a plant, except that reloading operations on the premises of a plant shall be considered as a part of the plant's operations.

(3) The order should be amended to provide compensatory payments on other source milk (except that priced under another order) disposed of as Class I milk in the marketing area.

Producers and handlers made similar proposals which would provide for compensatory payments on milk which is not priced by the order but is disposed of in the marketing area in Class I milk or Class II milk. Proponents suggested that such compensatory payments should be at the respective rate of the difference between the Class I or Class II price, depending on the class in which disposition was made, and the Class III price.

Since the order will provide for the identification of that milk which is subject to total regulation under the order, the possibility remains that some milk (i. e. other source milk) will be disposed of in the marketing area as Class I milk which will not be subject to total regulation.

It should be required that on all other source milk classified as Class I milk, a payment shall be made into the equalization fund at a rate equal to the difference between the Class I price and the Class III price. Payments at this rate are necessary to maintain the integrity of the pricing and pooling provisions of the order.

Essentially all other source milk which might be utilized as Class I milk in the marketing area would be produced as part of a supply intended primarily to meet the demand for milk for fluid consumption (or the equivalent of Class I milk uses under the order) in some area other than the area regulated by this order but not used for such purposes in the area for which it was produced. It could be only milk in excess of the amount needed for fluid disposition in the area for which it was produced. This is particularly so in view of the statewide Grade A milk law in Indiana. If the plant operator with such milk could not find a Class I sale for such milk within the Order 67 marketing area, it would be necessary for him to convert the milk into a manufactured milk product. The most likely surplus disposition of this other source milk would be as butter and nonfat dry milk, or as cheese. Its value, therefore, to the plant operator would be a surplus milk value. The Class III price for milk under the South Bend-La Porte-Elkhart order is based on the value of milk converted into butter and nonfat dry milk, and this is the price which regu-

lated handlers are required to pay for milk when they convert it into these products in their own plants or dispose of reserve supplies to manufacturing plants. The Class III price, therefore, is an accurate and fair representation of the value to the receiving plant operator of surplus milk from an unregulated plant which is disposed of for Class I purposes in the marketing area.

If unregulated plant operators were allowed to dispose of surplus milk for Class I purposes in the regulated marketing area without some compensating, or neutralizing, provision of the order, it is clear that the disposition of such milk, because of its price advantage relative to fully regulated milk, would displace the fully regulated milk in Class I uses in the marketing area. The plan of Congress, as contemplated under the Agricultural Marketing Agreement Act of 1937, as amended, of returning a reasonable level of prices to the producers for the regulated marketing area, would be defeated. Moreover, inefficiencies in the marketing of milk would be encouraged, since there would be incentive for the regulated handlers to obtain milk for Class I uses not from the regular and normal sources of supply for the market but from other sources of supply generated solely as a result of the price advantage created for unregulated milk by the regulation itself. Providing for some method of compensating for, or neutralizing the effect of, the advantage created for unregulated milk is, therefore, an essential and necessary provision of this order.

Because the value for Class I milk in the regulated market is established by the level of the Class I price provided for in the order and the true value of other source milk when disposed of in the marketing area is the Class III value, a payment computed as the difference between the Class III price and the Class I price will remove the advantage which other source milk otherwise would have. Although from the standpoint of health standards, ungraded milk is not to be used for Class I purposes, the possibility remains that this grade of milk may find its way at times into such uses. When this occurs, the same rate of payment should apply to such milk, normally used in manufactured milk products, since its value is established by a lack of eligibility, on a Grade A standard, for regular use as Class I milk.

On the other hand, such payments should not apply to milk entering this marketing area from a plant regulated under another order since its proper classification and price will be determined pursuant to the other order, and if used in Class I milk as defined in this order will be priced equivalently (with due allowance for the transportation cost between markets) under the other order.

There may be other situations in which plant operators may find it economical or desirable to make shipments of small quantities of milk to the marketing area and yet it would be neither necessary nor desirable in terms of effective regulation to bring the plants fully under regulation. For instance, a plant which is associated with another market may find it advantageous to ship milk to a plant regulated by the order in order to have such milk converted into manufactured milk products. It would be quite possible, through misunderstanding or error, for such milk, which was intended for utilization in Class III products, to be assigned a Class I classification. In such circumstances it would not be practical or desirable to place the plant under full regulation. The application of compensatory payments as prescribed will accommodate such situations.

If milk is distributed as Class I milk within the marketing area or routes from a nonpool plant, it is necessary to require payments to be made into the producer-settlement fund on such milk, also, in order to maintain reasonable uniformity of cost of milk and equity among all handlers. Accordingly, there is included in the amended order a provision that each handler operating routes in the area from a nonpool plant shall make payment at the difference between the Class I and Class III price per hundredweight on that volume of "other source milk" distributed as Class I milk in the marketing area. As previously stated, all milk produced for consumption in fluid form in the State of Indiana must meet minimum Grade A requirements and is subject to statewide sanitary standards. As a consequence of this code of sanitary requirements and reciprocal arrangements existing with other state and local health authorities, any milk wherever produced which has approval by the health authorities for fluid consumption is eligible from a sanitation standpoint for sale in the South Bend-LaPorte-Elkhart marketing area. Because of this, small quantities of milk may be disposed of in the regulated marketing area as Class I milk from plants which are not normal or regular sources of supply for the marketing area. If any small, incidental, or accidental shipment of milk into the marketing area were to bring under total regulation all the milk at the plant from which such shipment was made, undue hardship might result for the operator of such plant and for the farmers delivering the milk involved.

Under the definition of "pool plant" any plant, no matter where located, which becomes an integral part of the South Bend-La Porte-Elkhart market may be brought under regulation by delivery performance in the manner required, and any such plant may be removed from full regulation when it no longer operates in a way that brings it within the scope of the pool plant qualification section of the order. In each case the decision as to whether a plant will be fully regulated under the order, or will not be subject to total regulation, may be determined by the decision of the plant operator.

In view of the competitive circumstances in this market relating to the production and sale of cottage cheese as discussed elsewhere in this decision, no compensatory payment should apply on milk disposed of as Class II milk.

(4) The "base and excess plan" of distributing among producers the proceeds from the sale of milk should not be revised.

Producers proposed that the base and excess plan be revised to permit the computation of bases for those producers brought onto the market through marketing area expansion by the same method as is used for computing the bases of regular producers now on the market. Such revision would eliminate from the category of "new producers", for base-allotment purposes, any producers brought onto the market by such means. The proposed method of calculation was intended to apply in 1958 only and therefore would not have significance unless the amended order were to become effective prior to August 1, 1958. If the marketing area were to be expanded, effective July 1, 1958, for example, the revised base computation provisions would apply to the month of July only since beginning August 1 a uniform (weighted average) price for all milk delivered is payable to all producers for several months following and a new base effective on deliveries in the April–July 1959 period is computed for each producer on his deliveries in the fall months of 1958.

On the basis that the marketing area expansion cannot take place prior to August 1, 1958, it is concluded that this proposal should not be adopted.

(5) (a) The supply-demand adjustment relative to the Class I price should be modified to provide closer Class I price alignment between the South Bend-La Porte-Elkhart market and other major markets.

The order presently provides for a Class I price determined from a basic formula price of midwest condensery prices or Chicago butter-nonfat dry milk prices, whichever provides the higher level, plus price differentials which average $1.10 annually, increased or decreased by a supply-demand adjustment identical to that computed under Order 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area.

Producers proposed that the supply-demand adjustment as computed under Order 41 and applied to Order 67 milk be eliminated and that a supply-demand adjustment based on supply and sales conditions in the local market be incorporated. A proponent witness testified that, at current prices, South Bend-La Porte-Elkhart producers have been attracted to the Cleveland market and to unregulated markets even though local supplies were inadequate at all times to meet handlers' needs for fluid milk.

Experience with the supply-demand adjustment as computed under Order 41 and applied to milk priced under Order 67 discloses that such adjustment factor does not fully reflect supply and demand conditions in the Order 67 marketing area at all times. With the expansion of the marketing area herein proposed, the use of the current supply-demand formula would be even less effective in reflecting local conditions.

Among the factors influencing the supply-demand situation in the South Bend-La Porte-Elkhart market which indicate the propriety of a modification of the supply-demand formula at this time are:

1. Competition for supplies from nearby fluid milk markets.

2. Costs involved in procuring additional supplies from locations beyond the immediate milkshed.

3. Recently effective uniform Grade A requirements on all fluid milk distributed within the marketing area.

4. The inadequacy of current milk supplies.

Cleveland (Order 75), Fort Wayne (Order 32), and Order 67 handlers, and unregulated dealers, all compete for supplies in the various parts of the Order 67 milkshed. The proposed extension of the marketing area to include Elkhart County will intensify competition for milk supplies between Order 67 handlers and the Cleveland market. In 1957 the Order 67 minimum Class I price, on a 3.5 percent butterfat basis, averaged $4.06 while in the same period the minimum Cleveland Class I price f. o. b. Goshen, Indiana (located in Elkhart County), averaged $4.34. If the 1957 Order 67 Class I price had not been decreased by the supply-demand adjustment in effect, the Cleveland Class I price f. o. b. Goshen would have exceeded the Order 67 price by only 10 cents instead of 28 cents per hundredweight. Class I utilization of milk for these markets averaged 71 and 73 percent, respectively, for the year. The 1957 Cleveland order minimum uniform price f. o. b. Goshen, Indiana, averaged $3.99 and the comparable Order 67 uniform price was $3.83. The minimum Class I price for 3.5 percent milk under the Fort Wayne, Indiana, order for 1957, official notice of which is taken, averaged $4.34 per hundredweight.

Prices for fluid milk reported paid to dairy farmers by unregulated dealers in nearby communities have been at times in excess of Order 67 Class I prices. One Michigan dealer who competes for supplies with Order 67 handlers paid prices for fluid milk for bottling as high as $4.70 per hundredweight on a 4 percent butterfat basis during recent winter months (or about $4.40 on a 3.5 percent butterfat basis). Several of the farmers from whom such dealer purchased milk formerly delivered their milk to Order 67 handlers.

Order 41 handlers distribute milk in the South Bend-La Porte marketing area from Chicago regulated plants and also offer local handlers competition for farm supplies of milk. Thus, it is recognized that the Class I price level under Order 67 must be reasonably related to Class I prices under Order 41 as well as to price levels in other nearby markets. However, Order 41 Class I prices announced for the 55–70 mile zone do not reveal entirely the prevailing price relationships between the two markets. The basic formula price under Order 41 is, for all practical purposes, the same as that of Order 67. The respective Class I price differentials, on an annual average basis, under the two orders are $0.90 and $1.10 per hundredweight. The Chicago Class I price is announced for a zone 55–70 miles from the City Hall in Chicago while the South Bend-La Porte Class I price is announced f. o. b. the marketing area. Although not computed f. o. b. market under the order, as in the case of the South Bend-La Porte market, the return for Class I milk delivered to market in Chicago, after the addition of an inner zone payment (4 cents per hundredweight) and consideration of that portion of the farm-to-plant hauling cost (14.5 cents per hundredweight on the average) borne by handlers, is appreciably higher than that for the 55–70 mile zone location from which the various zone Class I price differentials for the milkshed are computed. A reasonable price level for the South Bend-La Porte market must take such factors into account since they affect the South Bend handlers' ability to procure milk supplies in competition with this neighboring market.

Another important factor which has had recent impact on milk supplies available to Order 67 handlers is the Indiana Grade A law. This statute which became effective July 1, 1957, requires that all milk sold for fluid distribution anywhere in the State be produced on inspected farms and labeled as Grade A milk. Ungraded milk supplies in northern Indiana have decreased substantially in recent years, leaving relatively small quantities of Grade B milk available in this area for conversion to Grade A outlets. Inasmuch as the South Bend-La Porte-Elkhart milkshed area overlaps the procurement areas of numerous unregulated dealers serving such markets, who formerly were not required to purchase milk meeting the Grade A standard, such dealers now compete with Order 67 handlers for supplies of the higher quality.

One Order 67 handler has arranged for a regular supply of milk from Schullsburg, Wisconsin. This handler, who operates in the Chicago market from other plants, purchases the milk directly from producers who have converted to bulk farm tanks, reloads the milk into over-the-road tankers and transports it to his Order 67 bottling plant in Indiana. On the assumption that milk may be procured from Wisconsin farms at the Chicago Class I price for the zone in which the plant or reload point is located plus transportation to South Bend, the cost per hundredweight of such milk to the Order 67 handler, delivered to the market, would be greater than the current Order 67 Class I price. With decreasing supplies of Grade A milk available in the direct-delivery area in relation to overall fluid milk requirements, and taking account of the prices being paid at competing outlets, Order 67 handlers have the choice of obtaining their milk requirements from locations beyond Chicago or of paying prices sufficient to maintain production from direct-delivery producers. Therefore, it is reasonable to compute the Class I price under Order 67 on a basis that takes into account the costs of procuring more distant supplies.

On an annual average, handlers under Order 67 have maintained a reserve supply of milk above Class I milk requirements of approximately 26 percent. Such reserve, which may be regarded as appropriate to a reasonably balanced supply for this market, varies from about 18 percent in November, the month of lowest production, to approximately 34 percent in May, the month of highest production. Class I uses in January and February 1958 were 77.9 and 74.7 percent, respectively, of total producer receipts as compared with approximately 74.3 and 69.6 percent, respectively, for the same months last year. Normal percentages of Class I milk to producer receipts in these months in a balanced supply situation would approximate 76 and 75 percent, respectively. Although the market supply is becoming tighter with a lesser proportion of the total receipts being locally produced, the present supply-demand adjustment is having the effect of reducing Class I prices below the level needed to provide adequate supplies.

In view of the above, a price adjustment based on local supply-demand relationships is appropriate. The supply-demand adjustment should be designed to increase the Class I price when Class I utilization is relatively high in relation to supply and to decrease the Class I price when Class I utilization is relatively low. An appropriate price adjustment for each month may be made on the basis of utilization data for the second and third preceding months. The use of figures for the second and third preceding months will provide a reasonable indication of current market conditions and will be the latest figures available in advance of the month for which the price is being computed. The following table sets forth monthly utilization percentages considered as standard, or normal, for a balanced supply situation, and the month in which the price would be affected thereby:

Month for which price applies	Months used in computing current supply-demand ratio	Standard utilization percentage
January	October–November	80
February	November–December	79
March	December–January	77
April	January–February	76
May	February–March	75
June	March–April	73
July	April–May	69
August	May–June	67
September	June–July	70
October	July–August	74
November	August–September	75
December	September–October	76

The rate of adjustment should be 2 cents for each percentage point that the Class I utilization is above or below the standard utilization percentage. The total amount of the adjustment should be limited, however. Supply-demand adjustments applicable under Chicago Order No. 41 and Cleveland Order No. 75 are limited to plus or minus 24 and 25 cents per hundredweight, respectively. A limitation under this order of plus or minus adjustments of 24 cents per hundredweight with a floor of the Chicago minimum Class I price for the 55–70 mile zone will provide greater assurance of a reasonable price relationship with adjacent markets at all times.

Also, to accomplish the above purposes, the Class I price differentials for the months of December and July should be modified by decreasing the differential 20 cents (from $1.30 to $1.10) in December and increasing the differential 20 cents (from $0.90 to $1.10) in July. This seasonal modification of the Class I price differentials will provide for each month stated Class I price differentials 20 cents

higher than the stated differentials for the 55–70 mile zone under the Chicago order. At the present time monthly differences in the differentials under the two orders vary from 0 to 40 cents per hundredweight with an average of 20 cents per hundredweight.

(b) A schedule of location adjustments applicable to the pricing of milk received at pool plants should be established in relation to the distance the plant is located from South Bend. The rate should be 10 cents per hundredweight for milk received at plants located not less than 55 miles but not more than 60 miles from the St. Joseph County Courthouse in Sound Bend, plus 1.6 cents for each 10 miles (or fraction thereof) in excess of 60 miles therefrom.

The present order does not provide for location differentials. Class and uniform prices for milk at regulated plants (or at reload points) located at various distances from the marketing area are the same as are applicable to milk received from farms at plants located within the marketing area.

Historically, there have been no outlying plants supplying milk in bulk to distributing plants in the South Bend-La Porte marketing area. For the most part handlers have purchased their milk from direct-delivery producers. In periods of short supply, handlers have purchased needed additional supplies from plants regulated under other Federal orders, particularly the Chicago order. As stated above, one Order 67 handler, in addition to purchasing milk from producers whose farms are located in the vicinity of his distributing plant location, began in recent months the purchase of milk from producers with farms located in southwest Wisconsin, approximately 255 miles from South Bend. The net uniform price for such milk, after hauling deductions, paid to the Wisconsin producers has been closely aligned with the uniform price computed under the Chicago order for the same location.

Producer proponents testified that although no particular problems had arisen, it might be possible in the absence of location differentials for inequities of cost among handlers and in the distribution of returns among producers to result.

Milk produced on farms or received at plants has a progressively lower value in relation to a given market as such farms or plants are located farther from the market. The difference in value is related to the cost of transporting milk to the market from the respective locations. It is economically sound and necessary to recognize such differences in value at pool plants to promote a uniform basis of determining milk costs for handlers and in distributing the returns for milk among producers. Producers are producing milk for the fluid milk market. The difference in value of producer milk for fluid purposes received at a country point as compared with a city distributing plant is the additional cost to the handler in getting the milk to the city plant. Returns to producers located near the market should reflect their location advantage. This may be done by establishing a schedule of location adjustments to apply at distant plants, and at reload points, in accordance with their respective distances from the markting area.

At this time only one handler regularly purchases milk at a considerable distance from the marketing area. As referred to, this milk is purchased in southwest Wisconsin and is reloaded at that location before being shipped in large tankers to his distributing plant. Such reload point is located approximately 255 miles from South Bend and 278 miles from the handler's plant. The hauling rate for the delivery of milk from that location to South Bend approximates 42 cents per hundredweight.

Proponents suggested that no location differential should apply within 70 miles from the County Court House in St. Joseph County. It was testified that custom and the basing point for pricing under Order No. 41 for Chicago are the basis for this proposal. As previously stated, Order 67 provides that prices shall be announced f. o. b. marketing area, whereas under Order No. 41 the Class I price is announced for the 55–70 mile zone and is supplemented by customary "inner zone" pricing arrangements. In comparing returns to direct-delivery producers under Chicago Order 41 with returns to direct-delivery producers under Order 67 consideration must be given to the previously mentioned customary and prevailing subsidies for hauling paid by Order 41 handlers and to the additional 4 cents per hundredweight required to be paid by Chicago handlers to all producers delivering milk to plants located in the marketing area, which payments are not reflected in the announced price for the 55–70 mile zone. The application of location differentials, as herein adopted, beginning at a 55-mile distance from South Bend will provide not only close alignment of farm returns for Class I milk at Order 41 plants in the Calumet area, which are the closest Order 41 plants to the South Bend-La Porte-Elkhart marketing area, and at Order 67 distributing plants, but also a close alignment at all points beyond the 55-mile zone. No adjustments for location are appropriate for points less than 55 miles from South Bend since country plants or reload points would not serve an economic purpose within this distance insofar as the maintenance of market supplies are concerned or provide a marketing function for producers. Also, within the 55-mile distance competing markets offer alternative outlets for milk at prices equivalent to or higher than the delivered-to-market price at South Bend.

Milk can be hauled in large quantities from distant points to plants in South Bend for approximately 1.6 cents per hundredweight for each 10 miles of distance. Even though no location differential should be provided within the 55-mile zone, the differential should apply on the basis of the total distance that the supply plant, or reload point, is located from South Bend.

The location differential allowed to handlers should apply only to that portion thereof which is actually needed for utilization as Class I milk at the distributing plant. In determining the quantity so utilized in Class I, allocation of Class I milk, for pricing purposes, should first be made to direct receipts from producers at the distributing plant. Any residual Class I milk should be allocated to the more distant plants, or reload points, in sequence beginning with the plant or reload point having the smallest location differential. This will assure that producers as a whole do not absorb excessive hauling costs for milk.

It is concluded that a schedule of location differentials shoud be adopted to apply in determining handler costs of Class I milk and producer payments applicable at various locations in the milkshed.

(c) The price differential (over basic formula price) for Class II milk should not be increased; the classification of milk used for cottage cheese (Class II milk) should not be changed.

Milk used to produce cottage cheese is classified as Class II milk and priced at the basic formula price plus 70 cents per hundredweight for August through February, and plus 45 cents per hundredweight for March through July.

Producers proposed to increase the Class II price 15 cents per hundredweight above the current level for each month. It is contended that current order Class II prices do not reflect the costs involved in producing Grade A milk for use in cottage cheese and that the return for such milk tends to reduce the uniform price. It is anticipated by proponents that even though, in the past, the use of milk from uninspected sources has been permitted for cottage cheese manufacture in portions of the enlarged marketing area, county health regulations will require, in the near future, the use of inspected milk for this product.

The separate classification and pricing for milk used to produce cottage cheese under Order 67 became effective March 1, 1957. Although the new Indiana Grade A milk law requires milk for fluid distribution to be derived from inspected sources, it does not require milk for cottage cheese to be derived from similar sources. While local health ordinances for portions of the marketing area indicate the necessity of using inspected milk for this product, the standards applicable throughout the marketing area are not uniform at this time and substantial quantities of cottage cheese produced from ungraded milk are sold in parts of the area.

In view of the lack of uniformity in the enforcement of requirements on milk used in the manufacture of cottage cheese, provision for higher pricing might well intensify the use of ungraded milk for this purpose, causing a net loss in returns to producers if equivalent quantities of producer milk were forced into the lower-priced Class III uses. Considering the prices of skim milk and butterfat from alternative sources for cottage cheese manufacture, and the availability of outside sources of cottage cheese in finished form, the Class II price level provided is designed to insure

the maximum return to producers without a loss of market for inspected milk in this product.

Handlers proposed that milk for cottage cheese be classified with other manufactured dairy products and that, as a corollary change, the Class III classification be designated as Class II milk. The redesignated Class II milk would be priced, however, at the current Class III price level. They testified that at a previous hearing when the classification and pricing of cottage cheese was considered, it was anticipated that enforcement of regulations requiring inspected milk for cottage cheese would be uniform throughout the marketing area and that since it has not been, the lower pricing of milk so used is appropriate.

The extra value of producer (inspected) milk for making cottage cheese is recognized by handlers in practice and present pricing has not caused a reduction in cottage cheese sales. It is concluded that producers should receive the higher return provided by the Class II price for the quality of milk furnished for this product. Therefore, no change in classification should be made at this time.

(6) The order should be amended to provide that class prices be announced in terms of a hundredweight of milk containing 3.5 percent butterfat, with class butterfat differentials for butterfat test variations above or below 3.5 percent.

Class prices under the present order are set forth in terms of separate prices for the butterfat and skim milk contained in a hundredweight of milk used in each class. However, the market administrator calculates and publishes for informational purposes a price per hundredweight for each class on a 3.5 percent butterfat basis.

Revision of the order to provide for the announcement of class prices for a hundredweight of milk on a 3.5 percent butterfat basis with appropriate class price differentials for butterfat test variations above or below the basic test is desirable to provide for simplicity of calculations, better understanding of price levels, and statistical comparisons of prices under Order 67 with prices of other markets. Expression of prices in these terms will not, of itself, materially alter handlers' costs or producers' returns on an annual basis. Such changes as may affect the levels of class prices are discussed in connection with issue numbered 5 in this decision. This change was supported by the major cooperative in the market and no objections thereto were offered at the hearing. It is concluded that the revised method of computing and announcing class prices should be adopted.

Class price differentials for each point of butterfat test variation to provide class prices for butterfat similar to those in the current order could be calculated as follows:

Classes I and II. Multiply by 0.13 the average of the daily wholesale prices per pound of 93-score butter at Chicago during the month, as reported by the United States Department of Agriculture, and round to the nearest tenth of a cent.

Class III. Multiply by 0.12 the average of the daily wholesale prices per pound of 92-score butter at Chicago, similarly reported, and round to the nearest tenth of a cent. These differentials were suggested by the major cooperative in the market.

In the case of the Class I butterfat differential the amount resulting from the above computation represents a reasonable value of butterfat in Class I uses and is adopted. However, in view of somewhat different competitive circumstances involved in the marketing of cottage cheese, including the availability of butterfat from lower-priced sources for use in such product in some portions of the marketing area, a differential computed by multiplying Chicago 93-score butter by 0.125 is more appropriately related to the lower value of milk utilized in Class II milk, and therefore, is adopted. This modification will place a slightly increased value on the skim milk and a lesser value on the total amount of butterfat so utilized. However, such change does not alter the Class II price level on a 3.5 percent butterfat basis.

Manufactured products in Class III must compete on a national basis with products made from ungraded milk. Therefore, the present basis for computing the price of Class III butterfat should be continued through the medium of the Class III butterfat differential.

In setting up a new system for calculating class prices per hundredweight of milk it is desirable for administrative reasons to round such prices to the nearest cent. This revision is also adopted. For convenience in computing handlers' costs the use of separate class prices for skim milk and butterfat, reflecting the levels established by the prices per hundredweight of 3.5 percent milk, will be continued.

(7) The application of the assessment for expense of administration should be modified.

It was proposed that the assessment (not to exceed 4 cents per hundredweight of milk) for expense of administration of the order be limited, insofar as "other source milk" is concerned, to those portions classified as Class I milk and Class II milk. At the present time the assessment applies to all other source milk, except such milk subject to another Federal order, even though some or all the milk may be used strictly for the manufacture of milk products of the types covered by Class III milk.

At least one milk distributor who would be regulated upon expansion of the marketing area maintains a substantial business in products produced from ungraded (Grade B) milk as well as a fluid milk business utilizing Grade A milk. The application of the administrative assessment to milk of Grade B quality utilized in manufactured milk products would present an expense to him not ordinarily associated with the processing of ungraded milk.

Funds to cover the necessary auditing of reserves of producer milk which from time to time may be commingled with ungraded milk for disposition as manufactured milk products will be derived from the application of the assessment to the producer milk so utilized. It is possible, however, that at times some other source milk may be utilized as Class I milk or Class II milk. It is the duty of the market administrator to verify for each month the receipts and disposition of milk from all sources in order that the integrity of the classified-price plan for producers' milk (Grade A milk priced by the order) may be maintained. Equity in sharing the cost of administration of the order among all handlers will be achieved, therefore, by applying the administrative assessment to all producer milk (including such handler's own production) and to such other source milk as may be allocated to Class I milk. In view of the fact that cottage cheese is not required to be produced from Grade A milk in all parts of the marketing area it is not practicable to apply the assessment to other source milk so used by pool handlers.

(8) Certain revisions of the order should be made for administrative purposes.

(a) The order should be amended to set forth clearly the conditions under which milk subject to this order may be made exempt therefrom when such milk is also subject to the class price provisions of another marketing agreement or order.

The present order provides that skim milk and butterfat disposed of as Class I milk in the marking area on a route shall not be subject to the provisions of this order if "(a) such milk is priced under another marketing agreement or order issued pursuant to the act, and (b) the person making such disposition of milk in the marketing area is subject to regulation under such other marketing agreement or order," provided that the handler making such disposition of milk in the marketing area shall make reports to the market administrator, at such time and in such manner as the latter may require, which shall be subject to verification. In general, interested parties at the hearing supported revision of the provisions of the order to the extent necessary relative to plants regulated under other orders, and to producer milk which might qualify for pooling under two orders, to provide clarity in the application of this order to such milk.

Some milk in packaged form is distributed in the market by handlers regulated under Order 41. In light of the expanded marketing area, it is possible that even larger quantities of Class I milk may be distributed in the area from plants regulated by other orders. Milk may be disposed of from plants under this order into other Federally-regulated markets.

Order 41 contains a provision which exempts from regulation thereunder a plant from which a greater percentage of its receipts is disposed of as Class I milk in another Federal marketing area. It is consistent with the pooling requirements that a plant be regulated under the South Bend-La Porte-Elkhart order if the Class I disposition in the marketing area is greater than in another marketing area. The provision that a distributing plant shall be regulated under the order for the market in which the

greater disposition is made will provide clarity, avoid duplication of regulation and will coordinate orders affecting adjacent marketing areas as to milk involved under more than one order.

The pooling standards for supply-type plants in adjacent Federal order markets provide for automatic pool status during certain months based on performance requirements in other months. It is possible under such conditions that a supply plant for such other market which has automatic pool status during certain months could dispose of a major portion of its receipts to a distributing plant in this market in such months. In this circumstance, such a plant should not be regulated under this order so long as it continues to be regulated under the order in which it already has met pooling requirements and from which it has not become exempt through withdrawal or otherwise according to the terms of such other order. The provisions of the attached order so provide.

Although exemption of other Federal order distributing plants would depend on a determination by the Secretary that the conditions prescribed in the order apply to the plant(s) in question, the operator of such a plant, otherwise exempt from order provisions, must be required to make reports to the market administrator as to receipts and utilization, so that the exact status of the plant can be determined. A similar requirement is necessary also with respect to supply-type plants involved with more than one order.

(b) The conversion from can handling to bulk tank handling of milk by producers creates problems as to the pool treatment of milk under the order which has been diverted from a plant regulated under another order. In view of the proximity of Order 67 plants to plants regulated under other orders, it is entirely possible that producer milk may be diverted to an Order 67 plant from a plant regulated under another order without having been received first at the latter plant. Since the present order does not provide a specific method of determining which order would apply to such milk, it is quite possible that the milk would be subject to the two orders. Any inclusion of milk under this order which would cause duplication of regulation could prove unduly burdensome to the handlers involved. Therefore, it is concluded that the South Bend-La Porte-Elkhart order should provide for a determination by the Secretary as to the extent to which such order shall apply when the milk is also subject to another order. The provisions of the attached order so provide.

(c) An equivalent price provision should be incorporated in the order. It has been found that from time to time various price quotations specified in an order become unavailable with little if any advance notice. The use of an equivalent price would remove uncertainty as to the procedure to be followed in the absence of price quotations specified in the order and thus would prevent unnecessary interruption in the operation of the order. The proposal should be adopted.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the South Bend-La Porte-Elkhart, Indiana, Marketing Area", and "Order Regulating the Handling of Milk in the South Bend-La Porte-Elkhart, Indiana, Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Referendum Order; Determination of Representative Period; and Designation of Referendum Agent

It is hereby directed that a referendum be conducted to determine whether the issuance of the attached order regulating the handling of milk in the South Bend-La Porte-Elkhart, Indiana, marketing area, is approved or favored by the producers, as defined under the terms of the order, as hereby proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of April 1958 is hereby determined to be the representative period for the conduct of such referendum.

Richard J. Connolly is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders, as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this decision is issued.

Issued at Washington, D. C., this 11th day of July 1958.

[SEAL] DON PAARLBERG,
Assistant Secretary.

Order[1] Regulating the Handling of Milk in the South Bend-La Porte-Elkhart, Indiana, Marketing Area

Sec.
967.0 Findings and determinations.

DEFINITIONS

967.1 Act.
967.2 Secretary.
967.3 Department.
967.4 Person.
967.5 Market administrator.
967.6 South Bend-La Porte-Elkhart, Indiana, marketing area.
967.7 Route.
967.8 Plant.
967.9 Reload point.
967.10 Pool plant.
967.11 Nonpool plant.
967.12 Producer.
967.13 Cooperative association.
967.14 Producer milk.
967.15 Handler.
967.16 Producer-handler.
967.17 Other source milk.
967.18 Base, base milk and excess milk.

MARKET ADMINISTRATOR

967.20 Designation.
967.21 Powers.
967.22 Duties.

REPORTS, RECORDS AND FACILITIES

967.30 Monthly reports of receipts and utilization.
967.31 Other reports.
967.32 Records and facilities.
967.33 Retention of records.

CLASSIFICATION

967.40 Skim milk and butterfat to be classified.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met. This order amends the order (No. 67) regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area.

Sec.
967.41 Classes of utilization.
967.42 Shrinkage.
967.43 Responsibility of handlers and reclassification of milk.
967.44 Transfers.
967.45 Computation of skim milk and butterfat in each class.
967.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

967.50 Class prices.
967.51 Basic formula price.
967.52 Supply and demand adjustment.
967.53 Class I price.
967.54 Class II price.
967.55 Class III price.
967.56 Location differential credits to handlers on Class I milk.
967.57 Class butterfat differentials.
967.58 Computation of prices of skim milk and butterfat.
967.59 Use of equivalent prices.

APPLICATION OF PROVISIONS

967.60 Exempt milk.
967.61 Producer-handlers.
967.62 Computation of base.
967.63 Base rules.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

967.70 Computation of the value of milk.
967.71 Computation of uniform price.
967.72 Computation of uniform prices for base milk and excess milk.

PAYMENTS

967.80 Time and method of payment.
967.81 Producer butterfat and location differentials.
967.82 Producer-settlement fund.
967.83 Payments to the producer-settlement fund.
967.84 Payments out of the producer-settlement fund.
967.85 Expense of administration.
967.86 Marketing services.
967.87 Adjustments of accounts.
967.88 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

967.90 Effective time.
967.91 Suspension or termination.
967.92 Continuing obligations.
967.93 Liquidation.

MISCELLANEOUS PROVISIONS

967.100 Agents.
967.101 Separability of provisions.

AUTHORITY: §§ 967.0 to 967.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 967.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of Order No. 67 and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (Part 900 of this chapter), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof; it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk, as determined pursuant to section 2 of the act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight, or such amount not to exceed 4 cents per hundredweight as the Secretary may prescribe, with respect to skim milk and butterfat received within the month in producer milk (including such handler's own production), and in other source milk either allocated to Class I milk or disposed of within the marketing area as Class I milk on routes, which is not priced under another Federal marketing agreement or order issued pursuant to the act.

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the South Bend-La Porte-Elkhart, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

DEFINITIONS

§ 967.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 967.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 967.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal Agency authorized to perform the price reporting functions of the United States Department of Agriculture specified in this part.

§ 967.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 967.5 *Market administrator.* "Market administrator" means the person designated pursuant to § 967.20 as the agency for the administration of this part.

§ 967.6 *South Bend-La Porte-Elkhart, Indiana, marketing area.* "South Bend-La Porte-Elkhart, Indiana, marketing area", hereinafter called the "marketing area", means all the territory geographically located within the perimeter boundaries of La Porte, St. Joseph and Elkhart Counties, including all incorporated and unincorporated cities, towns, and villages, Federal military reservations, facilities and installations, and State institutions lying wholly or partially within such counties; all in the State of Indiana.

§ 967.7 *Route.* "Route" means any delivery either inside or outside the marketing area (including disposition by a vendor or from a plant store or from vending machines) of any item of Class I milk to a wholesale or retail stop other than a plant (§ 967.8), but excluding any disposition of skim milk or butterfat in the marketing area from a nonpool plant to any other plant or to a commercial processor of foods.

§ 967.8 *Plant.* "Plant" means the entire land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, maintained and operated at the same location primarily for the receiving, processing or other handling of milk or milk products. This definition shall not include any building, premises, facilities, or equipment used primarily to hold or store bottled milk or milk products in finished form in transit for wholesale or retail distribution on a route(s).

§ 967.9 *Reload point.* "Reload point" means any location at which milk moved from the farm in a tank truck is commingled with other milk before entering a plant, except that reloading operations on the premises of a plant shall be considered a part of the plant's operations.

§ 967.10 *Pool plant.* "Pool plant" means any plant meeting the conditions of paragraph (a) of this section, or any plant or reload point meeting the conditions of paragraph (b) of this section, but not any plant exempt pursuant to § 967.60, or the plant of a person defined in § 967.16:

(a) A plant in which milk is processed or packaged and from which not less than 10 percent of its total disposition of Class I milk during the month either by the operator of such plant or by another person is made within the marketing area on a route(s): *Provided,* That the total quantity of Class I milk disposed of from such plant during the month either inside or outside the marketing area is not less than 50 percent of such plant's total receipts of milk eligible for sale in fluid form as Grade A milk within the marketing area; or

(b) Any plant or reload point from which during any month 50 percent or more of its total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered to a plant(s) which has qualified pursuant to paragraph (a) of this section: *Provided*, That if during each of any five consecutive months during the period August through March, inclusive, a plant meets the delivery requirements set forth in this paragraph, such plant shall be a pool plant for the immediately following months of April, May, June and July, unless the plant is withdrawn from such status upon request of the handler, which withdrawal would become effective on the first day of the month following in which the market administrator is notified of the request for withdrawal. Any plant so withdrawn from pool plant status may not regain status prior to the following August.

§ 967.11 *Nonpool plant.* "Nonpool plant" means any plant other than a pool plant.

§ 967.12 *Producer.* "Producer" means any person, except a person as defined in § 967.16, who produces milk eligible for sale in fluid form as Grade A milk within the marketing area which is either (a) received from the farm at a pool plant(s), or (b) caused to be temporarily diverted by handler for his account from a pool plant to a nonpool plant: *Provided*, That such diverted milk shall be deemed to be received by such handler at the location of the pool plant from which it was diverted.

§ 967.13 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association, to be qualified pursuant to the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

§ 967.14 *Producer milk.* Except as provided in § 967.60, "producer milk" or "milk received from producers" means milk produced by one or more dairy farmers who are producers (as defined in § 967.12).

§ 967.15 *Handler.* "Handler" means (a) any person in his capacity as the operator of a pool plant(s), (b) any cooperative association with respect to producer milk caused to be delivered for the account of such association from the farms of producers to the pool plant(s) of another handler(s) and milk customarily received as producer milk at a pool plant which is diverted by such association for its account to a nonpool plant; or (c) any person in his capacity as the operator of any nonpool plant from which milk is disposed of as Class I milk within the marketing area on a route(s).

§ 967.16 *Producer-handler.* "Producer-handler" means any handler who produces milk eligible for sale in fluid form as Grade A milk within the marketing area but receives no milk directly from other dairy farmers: *Provided*, That the maintenance, care and management of the dairy animals and other resources necessary to produce such milk and the processing, or distribution of such milk are his personal enterprise and at his personal risk.

§ 967.17 *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form, except in a nonfluid milk product disposed of in the same form as received, from sources other than producer milk and a pool plant(s).

§ 967.18 *Base, base milk and excess milk.* (a) "Base" means a quantity of milk expressed in pounds per day computed pursuant to § 967.62.

(b) "Base milk" means a quantity of producer milk received by a handler during each of the months of April, May, June, and July which is not in excess of such producer's base multiplied by the number of days on which such milk was produced.

(c) "Excess milk" means producer milk received by a handler during each of the months of April, May, June, and July which is in excess of the base milk received from such producer.

MARKET ADMINISTRATOR

§ 967.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 967.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 967.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain in an amount and with surety thereon satisfactory to the Secretary a bond covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 967.85:

(1) The cost of his bond and of the bonds of his employees;

(2) His own compensation; and

(3) All other expenses, except those incurred under § 967.86, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 10 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 967.30 and 967.31 or (2) payments pursuant to §§ 967.80 to 967.87;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) Verify all reports and payments of each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends;

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each month as follows:

(1) On or before the 7th day after the end of such month, the minimum class prices for milk (rounded to the nearest cent) and the butterfat differentials computed pursuant to §§ 967.53, 967.54, 967.55, and 967.57;

(2) On or before the 14th day after the end of such month, the uniform price computed pursuant to § 967.71 and the butterfat and location differentials computed pursuant to § 967.81;

(j) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information; and

(k) On or before April 1 each year notify each producer of the amount of his base, and notify each handler of the amount of the base of each producer delivering milk to any of the handler's plants.

REPORTS, RECORDS AND FACILITIES

§ 967.30 *Monthly reports of receipts and utilization.* (a) On or before the 9th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to § 967.15 (a) or (b) shall report to the market administrator for the preceding month with respect to all milk and milk products, except any milk product defined as Class III milk which is disposed of in the form in which received without further processing or packaging by the handler, received at each pool plant, the following:

(1) The quantities of skim milk and the quantities of butterfat contained in milk received from producers (including such handler's own production) producer-handlers, and other handlers.

(2) The quantities of skim milk and quantities of butterfat contained in other source milk, with the sources thereof;

(3) The utilization of all skim milk and butterfat required to be reported pursuant to this paragraph, including the quantities of skim milk and butterfat on hand at the beginning and end of each month as milk and milk products;

(4) The aggregate quantities of base milk and excess milk received (for April through July); and

(5) Such other information with respect to all receipts and utilization as the market administrator may prescribe.

(b) Except as provided in § 967.31 (a), each handler who operates a nonpool plant as referred to in § 967.15 (c) shall report to the market administrator, on or before the 9th day after the end of each month, his total receipts, his total utilization of milk and milk products, his total disposition of Class I milk, including as a separate figure the quantity of Class I milk disposed of within the marketing area on routes, and such other information with respect to all receipts and utilization for such month as the market administrator may prescribe.

§ 967.31 *Other reports.* (a) Each producer-handler who handles during the month only milk of his own production shall make reports to the market administrator at such times and in such manner as the market administrator shall prescribe.

(b) On or before the 25th day of each month, each handler shall submit to the market administrator such handler's producer payroll for the preceding month which shall show for each producer and cooperative association (1) the total pounds of milk delivered with the average butterfat test thereof, (2) the net amount of the payment to each producer and to each cooperative association, together with the prices, deductions and charges involved, (3) for the months of September through December, the number of days on which milk was received from each producer, and (4) for the months of April through July, the number of days on which milk was received from each producer and the amount of his base and excess milk.

§ 967.32 *Records and facilities.* Each handler shall permit the market administrator to make such examination of his operations, equipment and facilities as the market administrator deems necessary and shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of operations and such facilities as the market administrator deems necessary to verify or to establish the correct data with respect to (a) the receipts and utilization in whatever form of all skim milk and butterfat received, including nonfluid milk products disposed of in the form in which received without further processing or packaging; (b) the weights, and tests for butterfat and for other content, of all other skim milk or butterfat handled; (c) payments to producers and cooperative associations; and (d) the pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and each milk product on hand at the beginning and at the end of each month.

§ 967.33 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such three-year period the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records or specified books and records until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 967.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat, in any form, received within the month by a handler, in producer milk, in other source milk and from another handler shall be classified by the market administrator pursuant to the provisions of §§ 967.41 to 967.46, inclusive.

§ 967.41 *Classes of utilization.* Subject to the conditions set forth in §§ 967.43 and 967.44, the skim milk and butterfat described in § 967.40 shall be classified by the market administrator on the basis of the following classes:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of (except as provided in paragraph (c) (1) of this section) in the form of milk, skim milk, flavored milk, flavored milk drink, and buttermilk; (2) disposed of as cream (sweet or sour) and any fluid mixture of cream and milk (or skim milk) containing not less than 6 percent butterfat (but not including ice cream or other frozen dessert mixes disposed of to a commercial processor, or any mixture disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product); (3) disposed of in fluid or frozen form as concentrated milk, flavored milk, flavored milk drink not sterilized and not otherwise specified under paragraph (c) of this section, and as eggnog; (4) in shrinkage of receipts of producer milk computed pursuant to § 967.42 which is in excess of 2 percent of such receipts; and (5) not specifically accounted for as any item named in this paragraph or as Class II milk or Class III milk.

(b) Class II milk shall be all skim milk and butterfat used to produce cottage cheese.

(c) Class III milk shall be all skim milk and butterfat (1) disposed of in bulk in the form of milk, skim milk, buttermilk, and cream to any manufacturer of candy, soup or bakery products and used in such products; (2) in condensed milk or skim milk (sweetened or unsweetened) disposed of to commercial food processors; (3) disposed of (or used to produce, in the case of ice cream and frozen desserts and mixes (liquid or powdered) for such products, and aerated cream products) as sweetened condensed milk in hermetically sealed cans, evaporated milk, ice cream, ice cream mix, other frozen desserts and mixes, storage cream, butter, cheese and nonfat dry milk; (4) dumped or disposed of for livestock feed as skim milk (including that in whole milk dumped), flavored milk, flavored milk drink and buttermilk; (5) disposed of as a milk product other than any of those specified in paragraph (a) (1), (2) and (3) in paragraph (b), and in paragraphs (c) (1), (2), (3) and (4) of this section; (6) contained in monthly inventory variations; (7) in actual shrinkage of receipts of producer milk computed pursuant to § 967.42 but not in excess of 2 percent of such receipts; and (8) in actual shrinkage of other source milk computed pursuant to § 967.42.

§ 967.42 *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section between that in producer milk and in other source milk.

§ 967.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified (except that transferred to a producer-handler) in one class shall be reclassified if used or reused by such handler or by another handler in another class.

§ 967.44 *Transfers.* Skim milk or butterfat disposed of by a handler in the form of any item named in § 967.41 (a) (1), (2), or (3) shall be classified:

(a) As Class I milk if transferred from the pool plant of a handler to the pool plant of another handler (except a producer-handler), unless utilization in another class is mutually indicated in writing to the market administrator by both handlers on or before the 9th day after the end of the month within which such transaction occurred: *Provided*, That skim milk or butterfat so assigned to a particular class shall be limited to the amount thereof remaining in such class at the plant of the transferee-handler after the subtraction of other source milk pursuant to § 967.46, and any excess of such skim milk or butterfat, respectively, shall be assigned to Class I milk;

(b) On the basis of ratable apportionment to each class according to the use of skim milk and butterfat in the pool plant of the transferee-handler if caused

to be delivered to such plant by a cooperative association in the manner described in § 967.15 (b);

(c) As Class I milk if transferred or diverted to the plant of a producer-handler;

(d) As Class I milk if transferred or diverted to a nonpool plant, unless (1) the transferor-handler claims use in another class on the basis of utilization in the nonpool plant in his report submitted to the market administrator pursuant to § 967.30 for the month within which such transaction occurred, (2) the receiver maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the purpose of verification, and (3) in such receiver's plant there actually had been used during such month in the use indicated in such report, not less than an equivalent amount of skim milk and butterfat derived by him from milk or cream: *Provided*, That if upon inspection of such receiver's records of such plant, there had not been used in such indicated use an equivalent amount of skim milk and butterfat so derived, the remaining pounds shall be classified as Class I milk.

§ 967.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively in each class for such handler.

§ 967.46 *Allocation of skim milk and butterfat classified.* The pounds of skim milk and butterfat, respectively, remaining in each class after the following computations shall be the pounds in each class allocated to producer milk;

(a) Subtract, respectively, from the pounds of skim milk and butterfat in Class I milk (to the extent Class I milk is available) the pounds of skim milk and butterfat in other source milk which is (1) received in consumer packages as any item specified in § 967.41 (a) (1), (2) or (3) from a plant where milk is subject to the class price provisions of a Federal marketing agreement or order issued pursuant to the act for another fluid milk marketing area, and (2) disposed of without repackaging;

(b) Subtract, respectively, from the remaining pounds of skim milk and butterfat in each class (other than the pounds in inventory variations and plant shrinkage of skim milk and butterfat pursuant to § 967.41 (c) (7)), in series beginning with Class III milk, the pounds of skim milk and butterfat in other source milk excluding that subtracted pursuant to paragraph (a) of this section.

(c) Subtract, respectively, from the remaining pounds of skim milk and butterfat in each class the pounds of skim milk and butterfat received from other handlers and assigned to such class pursuant to § 967.44; and

(d) Subtract, respectively, from the remaining pounds of skim milk and butterfat in each class in series beginning with Class III milk, the pounds by which such pounds of skim milk and butterfat in all classes exceed, respectively, the total pounds of skim milk and butterfat received in milk from producers.

MINIMUM PRICES

§ 967.50 *Class prices.* Each handler shall pay, at the time and in the manner set forth in §§ 967.80 to 967.84, not less than the prices per hundredweight computed pursuant to §§ 967.51 to 967.59 for all milk received during each month from producers and cooperatives associations: *Provided*, That with respect to skim milk and butterfat transferred from the pool plant of, or caused to be delivered as producer milk by, a cooperative association which is a handler to the pool plant of another handler, the applicable class price shall be that for the location of the latter plant.

§ 967.51 *Basic formula price.* The basic formula price to be used in determining the prices of Class I milk and Class II milk shall be the higher of the prices computed by the market administrator for the month immediately preceding from the formulas set forth in paragraphs (a) and (b) of this section.

(a) The arithmetical average of the basic (or field) prices reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received during the month at the following plants or places for which prices are reported to the market administrator by the listed companies or by the Department:

Companies and Locations

Borden Company, Mount Pleasant, Mich.
Borden Company, Orfordville, Wis.
Borden Company, New London, Wis.
Carnation Company, Sparta, Mich.
Carnation Company, Richland Center, Wis.
Carnation Company, Oconomowoc, Wis.
Pet Milk Company, Wayland, Mich.
Pet Milk Company, Coopersville, Mich.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) Compute a price per hundredweight by adding together the amounts resulting pursuant to subparagraphs (1) and (2) of this paragraph;

(1) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department and from the result thus obtained deduct 64.2 cents;

(2) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the Grade A (92-score) butter prices for that day shall be used in lieu of the price for Grade AA (93-score) butter, and from the result thus obtained deduct 11 cents.

§ 967.52 *Supply and demand adjustment.* On or before the 7th working day of each month the market administrator shall make the following computations based upon information obtained from handlers' reports of receipts and utilization:

(a) Determine the sum of the receipts of milk from all producers (including receipts from own farm production) during the second and third preceding months;

(b) Determine the sum of the pounds of milk and milk products disposed of from pool plants as Class I (excluding shrinkage and unaccounted for milk) during the same preceding months, and

(c) Divide the amount obtained in paragraph (b) of this section by the amount obtained in paragraph (a) of this section and adjust to the nearest full percentage point. The resulting percentage shall be known as the "current supply-demand ratio."

§ 967.53 *Class I price.* Except as provided in § 967.56, the price for Class I milk of 3.5 percent butterfat content shall be the basic formula price computed pursuant to § 967.51, plus $1.30 for the months of August through November; plus $1.10 for December, January, February and July; and plus $0.90 for all other months: *Provided*, That whenever the current supply-demand ratio varies from that set forth in the table below for the applicable month, the Class I price shall be increased or decreased to a maximum amount of 30 cents at the rate of 2.0 cents for each full percentage point that the current supply-demand ratio is above or below that set forth in the table for such month, but such price, after adjustment, shall not be less than the minimum price per hundredweight for Class I milk for the same month as computed for the 55–70 mile zone under Order No. 41 for the Chicago, Illinois, marketing area.

Month to which applicable	Standard percentages	Months used in computing current supply-demand ratio
January	80	October-November.
February	79	November-December.
March	77	December-January.
April	76	January-February.
May	75	February-March.
June	73	March-April.
July	69	April-May.
August	67	May-June.
September	70	June-July.
October	74	July-August.
November	75	August-September.
December	76	September-October.

§ 967.54 *Class II price.* The price for Class II milk of 3.5 percent butterfat content shall be the basic formula price plus $0.70 for the months of August through February; and plus $0.45 for all other months.

§ 967.55 *Class III price.* The price for Class III milk of 3.5 percent butterfat content shall be that computed under § 967.51 (a).

§ 967.56 *Location differential credits to handlers on Class I milk.* In computing the value of each handler's milk pursuant to § 967.70, the following location differentials shall be credited with respect to each hundredweight of producer milk received at a pool plant or reload

point located more than 55 miles from the St. Joseph County Courthouse, South Bend, Indiana, and classified as Class I milk: 10 cents for distances at least 55 miles but not more than 60 miles, and an additional 1.6 cents for each 10 miles, or major fraction thereof, in excess of 60 miles, in all instances by the shortest hard-surfaced highway distance, as determined by the market administrator, from such pool plant or reload point to the St. Joseph County Courthouse, South Bend, Indiana: *Provided*, That for the purpose of computing the credits applicable pursuant to this section, the amount of milk transferred in bulk form from a pool plant(s) pursuant to § 967.10 (b) to a pool plant(s) pursuant to § 967.10 (a) and classified as Class I milk, shall not exceed the total amount of Class I milk disposed of from the latter plant less the total amount of any producer milk received at such plant from producers' farms and shall be assigned to pool plants under § 967.10 (b) in sequence beginning with the plant having the smallest allowable credit.

§ 967.57 *Class butterfat differentials*—(a) *Class I milk.* Multiply by 0.13 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at Chicago, as reported by the Department for the month, and round to the nearest one-tenth of a cent: *Provided*, That if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(b) *Class II milk.* Multiply by .125 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter at Chicago, as reported by the Department for the month, and round to the nearest tenth of a cent: *Provided*, That if no price is reported for Grade AA (93-score) butter the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter.

(c) *Class III milk.* Multiply by .12 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade AA (92-score) bulk creamery butter at Chicago, as reported by the Department for the month, and round to the nearest tenth of a cent.

§ 967.58 *Computation of prices of skim milk and butterfat.* The prices per hundredweight of skim milk and butterfat to be paid by each handler for milk in each class shall be computed as follows: For each class, respectively, the price per hundredweight of skim milk shall be the applicable class price for the month (§§ 967.53, 967.54 and 967.55) less the result of multiplying the applicable class butterfat differential for the month (§ 967.57) by 35. For each class, respectively, the price per hundredweight of butterfat shall be the applicable class price for the month plus the result of multiplying the applicable class butterfat differential for the month by 965.

§ 967.59 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 967.60 *Exempt milk.* (a) Milk received at a plant qualified as a pool plant under § 967.10 (a) shall be exempt from the provisions of this part if the conditions of subparagraphs (1) and (2) of this section are met: *Provided*, That the handler of such milk shall make reports to the market administrator with respect to his total receipts and utilization of skim milk and butterfat at such times and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with § 967.32:

(1) The Secretary determines that a greater quantity of milk is disposed of in fluid form from such plant to another regulated area as defined in another marketing agreement or order issued pursuant to the act either on a route(s) or through a plant(s) regulated by such other marketing agreement or order than is disposed of from such plant in the South Bend-La Porte-Elkhart marketing area either on a route(s) or through another pool plant(s); and

(2) Such milk would be subject to the class price and producer payment provisions of the other marketing agreement or order upon being made exempt from this part.

(b) Milk received at a plant qualified as a pool plant under § 967.10 (b) shall be exempt from the provisions of this part as producer milk if such milk is subject to class prices at a plant regulated under another marketing agreement or order issued pursuant to the act: *Provided*, That the proviso set forth in paragraph (a) of this section shall apply.

(c) In the case of producer milk received directly from a farm at a pool plant which milk (1) has been diverted (without being physically received therein) from a plant at which farm receipts of milk are subject to the class price provisions of another marketing agreement or order issued pursuant to the act, (2) is reflected on the producer-payroll of the plant from which diverted, and (3) is not specifically exempt from class pricing by the terms of such other marketing agreement or order, the Secretary shall make a determination as to the extent to which the terms of this part shall apply to such milk.

§ 967.61 *Producer-handlers.* Sections 967.40 to 967.46, 967.50 to 967.58, 967.70 to 967.72, 967.80 to 967.84 and 967.86 to 967.88 shall not apply to a producer-handler.

§ 967.62 *Computation of base.* Subject to the conditions set forth in § 967.63, the market administrator shall compute for each of the months of April, May, June and July a base for each producer, as follows:

(a) Divide the total pounds of milk received by a handler from each producer during the months of September, October, November and December immediately preceding, by the number of days such milk was produced (not to be less than 90 days): *Provided*, That any producer for whom a base has been computed may, upon written notice to the market administrator postmarked not later than February 15 preceding, relinquish his base and be allotted a base computed pursuant to paragraph (b) of this section.

(b) Any producer who has not established a base or who elects to relinquish his base pursuant to the provisions of paragraph (a) of this section shall be assigned a base for each of the months of April, May, June and July computed as follows:

(1) From the total quantity of producer milk received by handlers during the same month of the previous year, subtract the total receipts from producers who did not establish bases or who had relinquished their bases.

(2) Determine the percentage that base milk was of the remaining pounds, and subtract 10.

(3) Multiply the resulting percentage by the total pounds of milk received by a handler from the producer during the applicable month and divide the result by the number of days such milk was produced.

§ 967.63 *Base rules.* Any base computed pursuant to § 967.62 (a) shall be subject to the following rules:

(a) A base shall be held in the name of the producer and may be transferred only at his option.

(b) The milk to which the transferred base shall apply must be produced on the same farm on which such base was earned, and the transferor must notify the market administrator in writing on or before the last day of the month that such base is to be transferred indicating the name of the transferee, the amount of base transferred, and the effective date of the transfer; and in the event of a producer's death his base may be so transferred upon written notice to the market administrator from any member of the producer's immediate family.

(c) If a producer operates more than one farm he must establish a base with respect to the milk from each farm, and in the event such producer chooses to relinquish the base earned for one farm he must do so for all farms.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 967.70 *Computation of the value of milk.* (a) For each month the total value of milk received by each handler from producers or associations of producers (including any such milk caused to be delivered to such handler from the farms of producers for the account of a cooperative association) during such month shall be a sum of money computed by the market administrator by multiplying the pounds of skim milk and butterfat in each class by the applicable class prices pursuant to § 967.58, adding together the resulting amounts, adding any amounts computed for such handler

pursuant to subparagraphs (1) and (2) of this paragraph, and subtracting the total amount of any location differential credits computed pursuant to § 967.56.

(1) Add, with respect to other source milk (except other source milk classified and priced under the class price provisions of another marketing agreement or order issued pursuant to the act) received in fluid form as milk, skim milk or cream at each pool plant of such handler in excess of the total volume of his Class II milk and Class III milk at such plant, an amount computed by multiplying the hundredweight of skim milk and butterfat in such other source milk by the difference between the Class I milk and Class III prices for skim milk and butterfat, respectively, pursuant to § 967.58: *Provided*, That if the plant supplying such milk is located outside the marketing area and more than 55 miles from the St. Joseph County Courthouse, South Bend, Indiana, the payment per hundredweight of milk otherwise required by this subparagraph shall be reduced by the applicable location adjustment provided in § 967.56 for the distance such plant is located from the St. Joseph County Courthouse, but not to exceed an amount equal to the difference between the Class I and Class III prices.

(2) Multiply the pounds of skim milk and butterfat subtracted pursuant to § 967.46 (d) by the respective applicable class prices.

(b) For each month the total obligation to the producer-settlement fund for each handler who, during such month, disposed of Class I milk (except other source milk classified and priced under the class price provisions of another marketing agreement or order issued pursuant to the act) within the marketing area on routes from a nonpool plant shall be a sum of money computed by the market administrator by multiplying the hundredweight of skim milk and butterfat in other source milk so disposed of by the difference between the Class I and Class III prices for skim milk and butterfat, respectively, adjusted for the location of the plant at the rates applicable for pool plants pursuant to § 967.56: *Provided*, That a producer-handler shall not be obligated for payments under this paragraph with respect to that portion of other source milk represented by his own farm production.

§ 967.71 *Computation of uniform price.* For each of the months of August through March the market administrator shall compute a uniform price per hundredweight of producer milk as follows:

(a) Combine into one total the values computed pursuant to § 967.70 for all handlers who filed reports pursuant to § 967.30 and were not in violation of § 967.83 for the preceding month;

(b) Subtract, if the average butterfat content of milk included in these computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to § 967.81 (a), and multiplying the resulting amount by the total hundredweight of milk included in these computations;

(c) Add an amount equal to the total value of the location differentials computed pursuant to § 967.81 (b);

(d) Add not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting sum by the total hundredweight of milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight, for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports or payments or delinquencies in payments by handlers. The result shall be known as the "uniform price" per hundredweight for milk of 3.5 percent butterfat content.

§ 967.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through July the market administrator shall compute separate prices per hundredweight for base milk and excess milk of producers as follows:

(a) Make the same computations as required pursuant to § 967.71 (a), (b), (c), and (d);

(b) Compute the total value, on a 3.5 percent butterfat basis, of that portion of milk, included in the computations pursuant to paragraph (a) of this section, which is excess milk by: multiplying the quantity of such excess milk (but not more than an amount equal to the total quantity of Class III milk included in these computations) by the price for Class III milk of 3.5 percent butterfat content, and multiplying any quantity of such excess milk greater than such Class III milk, in series, by the prices for Class II milk and Class I milk of 3.5 percent butterfat content, respectively, and adding together the resulting amounts;

(c) Divide the total value of excess milk obtained in paragraph (b) of this section by the total hundredweight of such milk, and adjust to the nearest cent (the result shall be known as the "uniform price for excess milk" of 3.5 percent butterfat content);

(d) Subtract the value computed pursuant to paragraph (b) of this section from the total value of milk included in these computations, and divide the result by the total hundredweight of base milk represented; and

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight, for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports of payments or delinquencies in payments by handlers. The result shall be known as the "uniform price for base milk" of 3.5 percent butterfat content.

PAYMENTS

§ 967.80 *Time and method of payment.* Each handler shall make payments as follows:

(a) On or before the 18th day after the end of each month, to each producer, except producers for whom payment is made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price for the months of August through March and the uniform prices for base milk and excess milk for the months of April through July, adjusted by the producer butterfat and location differentials pursuant to § 967.81, for all milk received from such producer during such month and less payment to such producer made pursuant to paragraph (c) of this section: *Provided*, That if by such date such handler has not received full payment for such month pursuant to § 967.84, he may reduce such payments uniformly per hundredweight for all producers by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *And provided further*, That such handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(b) On or before the 15th day after the end of each month, to a cooperative association with respect to milk caused to be delivered from producers' farms to such handler by such association for its account during such month, not less than the value of skim milk and butterfat in such milk computed at the minimum class prices, less payments to such association made pursuant to paragraph (c) of this section. For the purpose of determining the classification of skim milk and butterfat in such milk, such skim milk and butterfat shall be ratably apportioned among the quantities of skim milk and butterfat in such handler's Class I milk, Class II milk and Class III milk allocated to producer milk pursuant to § 967.46.

(c) On or before the 4th day after the end of such month each handler shall pay to each producer, or to a cooperative association authorized to collect payment, not less than the amount per hundredweight provided in the schedule set forth in this paragraph, for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such month: *Provided*, That in the event any producer or cooperative association discontinues shipping to such handler during any month, such partial payments shall not be made and full payment for all milk received from such producer or cooperative association during such month shall be made on or before the 18th day after the end of such month pursuant to paragraphs (a) and (b) of this section:

When the uniform price or base price for the preceding month is—	*The amount of the partial payment shall be—*
Under $1.00	$0.00
$1.00 to $1.99	1.00
$2.00 to $2.99	2.00
$3.00 to $3.99	3.00
$4.00 to $4.99	4.00
$5.00 to $5.99	5.00
$6.00 to $6.99	6.00
$7.00 and over	7.00

§ 967.81 *Producer butterfat and location differentials.* (a) In making payments pursuant to § 967.80 (a), there shall be added to, or subtracted from, the uniform price, for each one-tenth of

one percent of butterfat content in such producer milk above or below 3.5 percent, an amount computed by multiplying the average of the daily wholesale prices per pound of 92-score butter at Chicago during the month, as reported by the Department, by 0.12 and rounding to the nearest tenth of a cent.

(b) In making payments to producers pursuant to § 967.80 for milk received at a pool plant at which a location adjustment is applicable pursuant to § 967.56, the uniform price per hundredweight for the months of August through March, and the uniform price per hundredweight for base milk for the months of April through July, shall be reduced by the zone rate per hundredweight for such plant prior to the proviso in § 967.56.

§ 967.82 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit payments made by handlers pursuant to § 967.83 and payments related thereto pursuant to § 967.87 and out of which he shall make all payments to handlers pursuant to § 967.84 and payments related thereto pursuant to § 967.87.

§ 967.83 *Payments to the producer-settlement fund.* (a) On or before the 16th day after the end of each month, each handler whose obligation is computed pursuant to § 967.70 (a) shall pay to the market administrator the amount by which the value of such handler's milk as determined pursuant to § 967.70 (a), minus the amount to be paid to a cooperative association pursuant to § 967.80 (b) is greater than the amount to be paid producers pursuant to § 967.80 (a): *Provided*, That with respect to milk for which a cooperative association receives payment from a handler pursuant to § 967.80 (b), such cooperative association shall pay to the market administrator, on or before the 16th day after the end of each month, the amount by which the utilization value of such milk is greater than the value computed at the uniform price pursuant to § 967.71 adjusted by the producer butterfat and location differentials pursuant to § 967.81.

(b) On or before the 16th day after the end of each month, each handler (including any handler who may also have an obligation pursuant to paragraph (a) of this section) who, during such month, disposed of milk as described in § 967.70 (b) shall pay the amount computed for him pursuant to such paragraph.

§ 967.84 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of each month, the market administrator shall pay to each handler the amount by which the value of producer milk received by such handler during such month pursuant to § 967.70 minus the amount to be paid to a cooperative association pursuant to § 967.80 (b) is less than the amount to be paid producers pursuant to § 967.80 (a), less any unpaid obligation of such handler to the market administrator pursuant to §§ 967.83, 967.85, 967.86, and 967.87: *Provided*, That with respect to milk for which a cooperative association receives payment from a handler pursuant to § 967.80 (b) the market administrator shall pay to such cooperative association, on or before the 17th day after the end of such month, the amount by which the utilization value of such milk is less than the value computed at the uniform price pursuant to § 967.71 adjusted by the producer butterfat and location differentials pursuant to § 967.81: *And provided further*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the necessary funds are available.

§ 967.85 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 967.22 (d), each handler (except a producer-handler) as defined in § 967.15 (a) or (b) shall pay the market administrator, on or before the 16th day after the end of each month, 4 cents per hundredweight, or such lesser amount as the Secretary from time to time may prescribe, with respect to skim milk and butterfat received within the month in producer milk (including such handler's own production) and in other source milk allocated to Class I milk; and each handler as defined in § 967.15 (c), including a producer-handler, shall make payment at the same rate per hundredweight with respect to other source milk disposed of as Class I milk within the marketing area on routes: *Provided*, That milk which is subject to administrative expense assessment under another marketing agreement or order issued pursuant to the act shall be exempt from payment under this section.

§ 967.86 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 967.80 (a) shall make a deduction of 4 cents per hundredweight of milk, or such lesser deduction as the Secretary from time to time may prescribe, with respect to the following:

(1) All milk received from producers (except milk of such handler's own production) at a plant not operated by a cooperative association; and

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association. Such deductions shall be paid by the handler to the market administrator on or before the 16th day after the end of each month. Such moneys shall be expended by the market administrator for verification of weights, samples and tests of milk received from such producers and in providing market information to such producers, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer, except a producer for whom payments are collected by a cooperative association pursuant to § 967.80 (b), (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefor, to a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the Secretary determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a) of this section, from the payments made pursuant to § 967.80 (a) the amount per hundredweight on milk authorized by such producer and shall pay over, on or before the 16th day after the end of such month, such deduction to the association entitled to receive it under this paragraph.

§ 967.87 *Adjustments of accounts.* (a) Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (1) the market administrator from such handler, (2) such handler from the market administrator, or (3) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due; and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred following the 5th day after such notice.

(b) An unpaid obligation of a handler or of the market administrator shall bear interest at the rate of one-half of one percent per month, such interest to accrue on the 1st day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

§ 967.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this

section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 967.90 *Effective time.* The provisions of this part or of any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 967.91 *Suspension or termination.* The Secretary shall, whenever he finds that this part or any provision thereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision thereof.

§ 967.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 967.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so desired by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 967.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 967.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[7 CFR Part 1003]

[Docket No. AO-269-A1]

HANDLING OF DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT OF MARKETING AGREEMENT AND ORDER

Pursuant to the rules of practice and procedure governing procedures to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed amendment of Marketing Agreement No. 127, and Order No. 103 (7 CFR Part 1003), regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. The marketing agreement and order (hereinafter referred to as the "order") are effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), (hereinafter referred to as the "act"), and any amendment which may result from this proceeding also will be effective pursuant to said act. Interested persons may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., not later than the close of business on the twelfth day after publication of this document in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed amendment of the order is formulated, was held in Coachella, California, on April 10 and 11, 1958, pursuant to notice thereof which was published in the FEDERAL REGISTER (23 F. R. 1960) on March 25, 1958. The notice of hearing contained proposals received from the Date Administrative Committee (hereinafter referred to as the "committee"), established pursuant to the order, as the agency to administer the terms and provisions thereof.

Material issues. The material issues presented on the record of the hearing were concerned with amending the order to:

1. Redefine the term "area of production" so as to expand the area to include certain additional date packing and storage facilities.

2. Redefine the term "handle" so as to exclude from handling the movement of dates by a handler to storage for his account within the area of production.

3. Redefine the term "trade demand" so as to relate it to the aggregate quantity of whole dates and pitted dates, rather than to the quantity of marketable dates, for the crop year.

4. Redefine the term "marketable dates" so as to prescribe more specifically and in conformity with other proposals the minimum grade and size standards which whole or pitted dates must meet in order to qualify as "marketable dates."

5. Define the term "substandard dates" to mean those dates which are better than cull dates but which are not "marketable dates," and define the term "cull dates."

6. Define the term "graded dates" by specifying the requirements which dates must meet in order to qualify as graded dates.

7. Revise the provisions relating to the Date Administrative Committee with respect to establishment, membership representation, term of office, nominations and procedure.

8. Revise the provisions of § 1003.39 so as to provide minimum standards of quality for dates for further processing and clarify the giving of notice thereof to handlers.

9. Revise the provisions of § 1003.40 to provide for the establishment of size as well as grade regulations and for such regulations to govern dates eligible for restricted obligation as well as dates that may be handled.

10. Revise the provisions of § 1003.41 (a) so that inspection would cover size as well as grade and that dates be certified for handling at the time of the inspection.

11. Revise the provisions of § 1003.41 (b) to prescribe more specifically the requirements which dates for further processing shall meet, provide that interhandler transfers of graded dates as well as field-run dates shall not be subject to the requirements with respect to inspection and certification, and provide that dates be certified for further processing at the time of the inspection.

12. Revise the provisions of § 1003.45 (a) and (c) so as to clarify handlers' obligations with respect to withholding restricted dates and paying assessments.

13. Add provisions to § 1003.45 to permit handlers (a) to meet their obligations to withhold restricted dates by the setting aside, or by making disposition in cull outlets of, appropriate quantities of field-run dates and (b) to defer meeting such obligations by setting aside graded dates.

14. Authorize container regulations.

15. Revise the provisions of § 1003.51 in connection with interhandler transfers of dates.

16. Revise the provisions of §§ 1003.55 and 1003.56, including a provision for the use or disposition, in conformity with such sections, of any dates which have not been certified for handling or for further processing, and authorize the committee to approve manufacturers for diversion of such dates.

17. Revise the provisions of § 1003.57 with respect to the terminal dates for the disposition or diversion of dates which have not been certified for handling or further processing.

18. Revise the provisions of § 1003.61 to bring handlers' reports of carryover in line with the requirements of order administration.

19. Revise the provisions of § 1003.64 to eliminate unnecessary reports with respect to the disposition of restricted dates and provide for disposition reports for other marketable, substandard, and cull dates.

20. Delete from § 1003.72 the sentence establishing the assessment rate for the initial crop year (1955-56).

21. Revise the provisions of § 1003.74 to provide a more appropriate formula for determining handlers' shares of excess assessment funds.

22. Add a general provision with respect to compliance.

23. Make such other changes in the marketing agreement and order as are necessary to make the entire marketing agreement and order conform with any amendment which may result from these proceedings.

Findings and conclusions. The findings and conclusions on the material issues, based upon the evidence adduced at the hearing and the record thereof, are as follows:

1. Section 1003.4 of the order now defines "area of production" as consisting of Los Angeles and Riverside Counties located within the State of California. According to the decision (20 F. R. 4301) issued with respect to the promulgation of the order, while practically all California dates are produced in Riverside County, large volumes of such dates are moved to nearby Los Angeles County where they are processed and packed, and sold through handlers located there. There is no commercial date production in Los Angeles County. Los Angeles County was included in the "area of production" so as to cover the processing facilities located there and utilized in preparing the dates for market. In this connection, §§ 1003.9, 1003.41 (b) and 1003.51 of the date order, and as such sections are proposed to be amended, contain provisions which distinguish between the movement of dates within the "area of production" and the shipment of dates from the area to points outside. Under marketing order programs of this type, regulation is usually such as to permit the commodity to move within the production area from growers to handlers, and among handlers, with a minimum of restriction, primarily prior to and for the purpose of, its preparation for market. Such relative freedom from regulation is necessary because the more significant regulations are designed to be applicable to the commodity after it is prepared for market. Ascertaining compliance with these regulations could become unduly burdensome, if not impossible, if the commodity were allowed to move for such purposes to points outside the production area entirely free from the regulation.

As shown by the record of the hearing on the proposed amendment of the order, one date handler has packing (processing) facilities in Orange County, which adjoins the present "area of production"; and some of the handlers who have packing plants in the "area of production" have date storage facilities located in that part of San Bernardino County west of 116 degrees W. longitude, which also adjoins the area. Dates are not produced commercially in Orange County or the part of San Bernardino County that is west of 116 degrees W. longitude. The movement of dates within the entire area to or from these plants or facilities is not different from the movement within the present "area of production" to or from similar facilities. There appears to be no reason why the program requirements and regulations should not apply to dates received at the former facilities in the same manner as the dates processed or packed, or stored, in the present area of production.

Another compliance problem, that could be minimized by enlarging the present area of production, results from the fact that the two Counties (Riverside and Los Angeles) comprising the present area of production are not contiguous, i. e., they are separated by small portions of Orange County and the indicated part of San Bernardino County. In order to unite the area, and have the same regulations apply to the dates received at the packing (processing) or storage facilities located immediately outside of the present area of production in the same manner as those dates received at the facilities within the present area, § 1003.4 should be amended by adding to the present area of production all of Orange County and that part of San Bernardino County lying west of 116 degrees W. longitude. Such enlargement would result in an undivided area to which the order as proposed to be amended could be applied more effectively and with less burden on handlers in carrying out the declared policy of the act. The new area thus would become the smallest regional production area which is practicable consistently with carrying out the declared policy of the act. Since essentially no new date production or methods of marketing would be involved, the terms applicable to the present area would also be applicable to the enlarged area.

The counties comprising the area of production are specified in present § 1003.17 relating to the terms "part" and "subpart." Such section should be revised to conform to the proposed revision of § 1003.4.

2. Section 1003.9 should be amended to clearly exclude from the definition of "handle" the movement of dates by a handler to storage for his account when such storage is within the area of production. It is common practice for date handlers in California to store large quantities of dates for their account within the area of production as now defined, and the immediately adjacent area which is proposed to be included in the area of production (issue 1). In some instances the facilities for storing the dates may be separated by varying distances from the handler's plant. In other instances handlers have storage facilities which are connected with or adjacent to the packing plant. In the latter instance, the movement of dates to such storage would not be considered an act of handling. It is unnecessary to differentiate between the movement of dates to storage by handlers in either instance provided such movement is for the handler's account and the storage is within the area of production. If any such movement of dates is considered as handling, assessments would have to be paid and grade, size, and volume regulations, including "withholding" would have to be observed prior to such movement. This would be an unnecessary burden on handlers. Therefore, the movement of dates to such storage should be excluded from the definition of "handle".

3. In the present provisions of § 1003.11, the term "trade demand" is defined in terms of the quantity of marketable dates which the trade will acquire from all handlers during the crop year. Under the current interpretation of the provisions of § 1003.12, and as such provisions are proposed to be amended, the definition of the term "marketable dates" is such that the minimum requirements for marketable dates may be below those of the dates which the trade will acquire. Hence, it would be incorrect to construe trade demand in terms of marketable dates. In recommending the free and restricted percentages for any crop year, the committee bases such percentages on the aggregate quantity of whole dates and pitted dates which can be disposed of in the free market. Regulations under the marketing program should be designed to provide the trade with the required quantity of dates of acceptable quality. Therefore, § 1003.11 should be amended so as to define the term "trade demand" in terms of the aggregate quantity of whole dates and pitted dates which will be acquired by the trade.

4. Section 1003.12, which defines marketable dates, is now interpreted to mean that marketable dates are those whole or pitted dates meeting the requirements of § 1003.39, namely, those which are certified as equal to or higher than U. S. Grade C of the effective United States Standards for Grades of Processed Dates. As hereinafter indicated, it is intended and proposed (issue 8) that dates for further processing (i. e., those meeting U. S. Grade C (Dry) as defined in such United States Standards) be covered in § 1003.39 and be included in marketable dates. It is provided in § 1003.45 that only marketable dates may become restricted dates so that the minimum requirements for marketable dates and restricted dates are the same.

Under § 1003.40 as proposed to be amended, size regulations, as well as grade regulations in addition to those contained in § 1003.39, could be established for any variety of restricted dates. Therefore, in order to establish the meaning of marketable dates more specifically and in conformity with other proposals, § 1003.12 should be amended to redefine the term "marketable dates" to mean those whole or pitted dates which are certified as equal to or higher than the applicable minimum grade then in effect pursuant to § 1003.39 and any additional, applicable requirements, pursuant to § 1003.40, which may then be in effect for restricted dates.

5. In the notice of hearing it was proposed that a new § 1003.15 be added which would define substandard dates as those dates which are not marketable dates. Section 1003.56 as proposed to be amended would limit the disposition of substandard and cull dates to products not destined for human consumption as food except that, in years when no additional requirements have been established for restricted dates pursuant to § 1003.40, substandard dates, but not cull dates, may be disposed of in such products destined for human consumption as food as may be approved by the Secretary upon recommendation of the committee. Hence, it is necessary that substandard dates be distinguished from cull dates which would never be used in products for human consumption. Therefore, substandard dates should be defined as dates which fail to meet the requirements for marketable dates but are not cull dates.

The term "cull dates" should be defined to permit a clear definition of substandard dates. The date industry in California generally considers as culls those dates which fail to meet the requirements, with respect to freedom from defects, prescribed in § 798 of the Agricultural Code of California. Such requirements as so prescribed are applicable to dates for use in products or by-products other than alcohol, brandy, and products not intended for human consumption. Thus, dates which fail to meet such requirements may be used only in alcohol, brandy, and products which are not intended for human consumption. Therefore, the term "cull dates" should be so defined.

6. Since the term "graded dates" is used in the order and in proposals included in the notice of hearing, it was proposed at the hearing that the term be defined. It is a common practice for handlers to have dates cleaned, and sorted (graded) and then later, which may be at the time of handling or disposition, have them inspected and certified. Handlers usually are aware, prior to the inspection, that these dates would meet the requirements under the program for marketable dates (which include dry dates for further processing) or perhaps the requirements for dates that may be handled if any needed moisture were added. As the term "graded dates" is used in the proposed order, it is sufficient that graded dates refer to dates which are eligible for certification as marketable dates. Therefore, the order should be amended by adding a provision so to define the term "graded dates."

7. The provisions of § 1003.21 of the order relating to the establishment of the Date Administrative Committee should be amended to require that the committee shall be composed of seven members with an alternate for each such member, provided that the number of members and alternates may be changed consistent with findings made pursuant to § 1003.22.

Under the current provisions of the order, the Date Administrative Committee consists of seven members with an alternate for each member. Members and alternates are selected by the Secretary as follows:

(a) One to represent handlers each of whom produced not less than 40 percent of the volume he handled.

(b) One to represent cooperative handlers.

(c) Two to represent handlers not included in (a) or (b) above.

(d) One to represent producers who are members of a cooperative marketing association.

(e) Two to represent producers who are not members of a cooperative marketing association. The foregoing representation was based on each handler member representing approximately 25 percent of the tonnage handled and each producer member representing approximately one-third of the total number of commercial producers. Provision is made for the Secretary to realign the representation whenever he finds that changes in tonnage handled or producer membership in cooperatives are such as to warrant a realignment.

Since the effective date of the order in 1955, the tonnages of dates handled by the respective groups have changed substantially so that for the 1957–58 season the handlers in group (a) had handled well under 25 percent of the total, and handlers in group (b) had handled slightly more than those in group (c). A problem arose as to whether group (b) should be given another representative on the committee and if so, from which other handler group should the representative be taken. Since group (a) has only one member, to take a representative from it would leave that group with none. The difference in tonnage handled between groups (b) and (c) was not sufficient to indicate clearly that a representative should be taken from group (c) and given to group (b). To resolve this situation and provide each segment of the date industry having common interest, with representation in proportion to tonnage produced or handled, § 1003.22 should be amended to provide that members and alternate members shall, until such time as a realignment of the committee membership is effected, be selected by the Secretary from each of the following groups and on the following basis:

(a) One member from handlers, each of whom produced during the then current crop year to February 28 at least 51 percent of all of the dates handled by him during such period, and producers, each of whom delivered during the then current crop year to February 28 at least 50 percent of his deliveries to such handlers;

(b) Three members from cooperative marketing associations of whom one shall be an employee and serve as a handler member of the committee, and two shall be from among the producer members of such associations; and

(c) Three members from all other handlers and producers, of whom two shall be handler members selected from among such other handlers and one shall be a producer member selected from among such other producers.

The producer-handlers in proposed group (a) and the cooperative marketing associations in proposed group (b) have interests both as handlers and as producers. The handler and the producer representations, therefore, should properly be grouped together in each case. The remaining handlers and the remaining producers in proposed group (c) have some interests in common in that the former handle the dates of the latter and, therefore, these handlers and producers should be grouped together for purposes of overall representation.

In order to be included in proposed group (a), a handler should produce at least 51 percent of all of the dates he handles to insure that his interest is primarily that of a producer, and thus provide a definite line of demarcation between such handlers and those in proposed group (c).

To insure that the committee is fully aware of the problems of producers and handlers at all times, producers themselves and handlers themselves should actually serve as members of the committee rather than people who might be hired to so serve. However, in the case of handlers, their employees who are engaged, in the business of the handler, in handling dates should be eligible to serve. In the case of producers who are not actual persons, such as corporations, their employees who have responsible positions in the production of dates should be eligible to serve.

It should be set forth in § 1003.22 that the proposed representation is based on each member representing approximately 14.28 percent of the tonnage handled. The basic percentage of 14.28 percent for a member results from a seven member committee and represents one-seventh of the total tonnage handled. Also, provisions should be included for the Secretary to change the number of representatives for a group whenever he finds that any change in tonnage handled in any group is equivalent to more than one-half (i. e., 7.14 percent) of the basic percentage (i. e., 14.28 percent) for a member. In this way, a procedure would be provided for maintaining the same proportional representation when significant changes warrant realignment of committee membership and representation.

Applying the foregoing procedure, any group which has handled an amount which exceeds 21.42 percent (i. e., 7.14 percent plus the basic percentage for one member) of the total quantity of dates handled would be entitled to two members. When such amount exceeds 35.70 percent (i. e., 7.14 percent plus the basic percentage for two members) of the total, the group would be entitled to representation by three members. Likewise, if any group exceeds 49.98 percent of the total, it would be entitled to representation by four members. Similarly, if the quantity of dates handled by any group should decrease, the number of members to which it is entitled would be determined correspondingly but in an inverse manner. However, each group should be entitled to at least one member and one alternate even if the quantity handled should fall below one-half of the basic percentage of 14.28 percent of the total quantity handled. This is necessary to prevent a group from being without representation.

Any increase or decrease in the representation of a particular group should not be dependent upon a change in membership representation of any other group. This follows from the operation of the formula.

In order to have a fixed formula, and retain the same basic relation, the 14.28 percent as a guide for making changes should continue to be applicable, even though the committee membership may be changed from the initial seven members from which the 14.28 percent results.

In order that representation and any changes in representation reflect current relationships, data with respect to production, deliveries, and handlings should be for the then current crop year through February 28. The quantity certified for handling or further processing should be the basis for any realignment of the membership representation.

As stated above, the committee as proposed would consist initially of three producer representatives, three handler representatives, and one representative for producer-handlers and those producers delivering to such handlers. Such balance between producers and handlers is essentially the same as under current provisions of the order and has worked out well during the years the order has been in effect. Except for group (a), any change in the nomination and selection of members for any group should be made so as to keep producer members and handler members in balance insofar as possible.

Under the current provisions of § 1003.23, members and alternates serve for two-year terms. The terms of approximately one-half of the members and alternates expire each year. Since the representation for any group may be changed from year to year, the Secretary could be faced with the problem of having to determine, in case of a decrease, which of the positions of two members, one having a year to serve, and one whose term was expiring that particular year, should be abolished. Therefore, in order to prevent this problem from arising, the provisions of § 1003.23 should be amended to provide that the term of office for members and alternate members shall be one year ending on May 14 but each such member and alternate shall continue to serve until his successor has been selected and has qualified. By having the term of office commence on May 15, instead of April 15 as at present, the nomination meetings may be held later and ample time allowed for compiling the necessary current data.

The provisions with respect to the nomination of initial members in § 1003.24 should be deleted since they are no longer applicable.

In order to permit ample time for the compilation of the required data which would cover the then current crop year through February 28, the provisions of § 1003.23 should be amended to provide for nomination meetings to be held on or before April 15, rather than on or before March 15.

Since it is proposed to joint producer-handlers with producers delivering dates to them in the nomination of a member and alternate in proposed group (a) there would be no satisfactory common denominator for weighting the vote of any such person. Therefore, each such producer-handler and each such producer should be entitled to one vote for each position to be filled, and no one's vote should be weighted by the tonnage of dates handled or produced. However, in the nomination meetings the vote of each cooperative marketing association in proposed group (b) and each handler in proposed group (c) should be weighted by the tonnage of dates acquired by each from producers and certified, for handling or further processing, through February 28 of the then current crop year. There are only two such cooperatives and if the votes are not weighted, it is possible that no nominations would result from a meeting. Such weighting of the votes of the handlers in proposed group (c) is the same as at present for such handlers.

It was proposed at the hearing that the vote of each producer in proposed group (c) be weighted by his production. These are independent producers and they would vote in separate meetings from the handlers in the same group. However, it is not the practice under marketing orders to weight producers' votes in nomination meetings. The proposal, therefore, is denied. It is concluded that each such producer shall be entitled to one vote for each position to be filled.

The terms "cooperative handlers" and "cooperative marketing association" are used in the current provisions of the order in connection with the committee. The former term, reflecting the handler aspect of the association, is presently defined in § 1003.16 as meaning any handler which is a cooperative marketing association of growers organized under the laws of the State of California. The latter term has been used with reference to the producer aspect of the association. As the order is proposed to be amended, the term "cooperative handler" would be deleted while the term "cooperative marketing association" would remain in the order but reflect both the handler and producer aspects of the association. As previously stated, three members of the committee would be selected from cooperative marketing associations; and of these members one would be a handler member of the committee and two would be producer members of the committee. In view of the proposed changes with respect to such terms, § 1003.16 should be revised so that it defines the term "cooperative marketing association." Such term should continue to mean any cooperative marketing association of date growers organized under the laws of the State of California.

Under the current provisions of § 1003.31, at least five affirmative votes are required for all decisions of the seven member committee, and the presence of five members are required to constitute a quorum. Since it is proposed to amend § 1003.22 whereby the size of the committee may change, § 1003.31 should be amended to require that all decisions of the committee shall be by an affirmative vote of at least two-thirds of the committee, and that two-thirds of the members be present in order to constitute a quorum. The two-thirds requirement would make no change in the present requirements as long as there is a committee of seven.

8. Under the current provisions of § 1003.39, U. S. Grade C (as such grade is defined in the current United States Standards for Grades of Dates, § 52.1001 et seq. of this title) is established as the minimum standard of quality for whole dates and pitted dates handled under the program. As provided in § 1003.41 (b), dates for further processing (i. e., dry dates which have been graded and which require the addition of moisture) may be shipped if they have been inspected and certified as being equal to the minimum grade standards except for character associated with moisture. U. S. Grade C (Dry) was included in said United States Standards as a grade for dry dates for further processing subsequent to the effective date of the order in 1955. The requirements of U. S. Grade C (Dry) are the same as those of U. S. Grade C except for factors associated with moisture. Since U. S. Grade C (Dry) provides a specific minimum standard for dates for further processing, and its requirements are the same as those of the order for such dates, the provisions of § 1003.39 should be amended by specifying therein that all whole and pitted dates handled under the order, as proposed to be amended, shall meet the requirements of U. S. Grade C or, if for further processing, U. S. Grade C (Dry), of the effective United States Standards for Grades of Dates: *Provided*, That the Secretary may, upon recommendation of the committee, prescribe other minimum standards of quality. Since U. S. Grade C and U. S. Grade C (Dry) have to do with minimum quality, the prescribing of any other minimum standard of quality would, in effect, be replacing the existing minimum standards.

The provisions of § 1003.39 should be amended to make it clear that the committee's giving, or failure to give, notice to all handlers of record of the effective minimum standard regulation shall not affect or change the effective time, of such regulations or any obligations to comply with such regulations.

9. Under the current provisions of § 1003.40, the committee may recommend, and the Secretary may establish,

grade regulations to govern shipments of any variety of dates, in addition to those regulations provided by the minimum standards prescribed in § 1003.39. Known outlets for marketable dates have been and are likely to continue for some time to be insufficient to absorb all of the dates available under the minimum standards of quality. If elimination of any dates is necessary it should be of the lower grades or less desirable sizes, or both; thereby placing in trade channels or products only the higher valued dates with consequent better returns to growers.

In order to provide further assurance that, when dates are to be so eliminated from the outlets for marketable dates, only dates of the poor qualities will be diverted, the provisions of § 1003.40 should be amended to authorize (a) additional grade regulation for restricted dates, as well as for dates that may be handled, and (b) size regulation for restricted dates and for dates that may be handled. With respect to both grade regulation and size regulation, it is intended that the regulations may differ for restricted dates and for dates that may be handled.

The current United States Standards for Grades of Dates require only that the dates be uniform in size. The record of the hearing shows that, with some exceptions, the smaller the date the lower is its quality. Hence, by size regulation, dates of the poorer qualities would, in the main, be removed from the supply of available dates; thus upgrading the remainder and providing opportunity for increased growers' returns from the outlets for marketable dates. It was testified that size is more readily ascertained than some of the quality factors of grade, and that it provides a uniform yardstick for inspection purposes.

According to the record, in some years the entire date crop may be on the small side, and some of the small dates that ripen late in the season may be of good quality. Hence, in some seasons it would be desirable to permit smaller sizes of dates to be included with the marketable dates. Some of these small dates of good quality could be used in specialty outlets and under size regulations, it may be necessary to exempt them pursuant to § 1003.52. As is now the case under the order, before establishing any additional regulation, the Secretary would need to find that such regulation would tend to effectuate the declared policy of the act.

10. Inasmuch as the proposed amendment to § 1003.40 would authorize the establishment of size regulations, it is also proposed that § 1003.41 (a) be amended to require inspection of dates prior to handling to determine if they meet the then current size regulation as well as grade regulation. Therefore, § 1003.41 (a) should be amended to provide for the inspection of dates as to their size.

It was proposed at the hearing that § 1003.41 (a) should be further amended to specify that when dates packed for handling are inspected and meet the effective regulations they should at that time be certified for handling. It was testified that handlers normally have dates certified for handling at the time such dates are inspected because in most cases, shipment is made soon after the inspection. Moreover, at the time when dates are certified for handling, assessments under the order are paid and the required withholding of restricted dates under volume regulations is observed. It was also testified that the committee could foresee no problem that may arise in the future if the requirement as to certification at the time of inspection is set forth in the provisions of the order. Therefore, § 1003.41 (a) should also be amended to provide that when dates packed for handling are inspected and meet the effective regulations they shall be certified for handling.

11. The present provisions of § 1003.41 (b) provide that prior to shipment each handler shall, at his own expense, cause an inspection and certification to be made that dates handled for further processing are equal to the minimum grade standard except for character associated with moisture. Since § 1003.40 provides for the establishment of standards other than those prescribed in § 1003.39, it is not clear from the language of § 1003.41 (b) as to the minimum requirements such dates shall meet. Therefore, for clarification, § 1003.41 (b) should be amended to provide that prior to handling any dates for further processing each handler shall, at his expense, cause: (a) an inspection to be made to ascertain if such dates meet the applicable grade and size requirements effective pursuant to § 1003.39 or § 1003.40, except for character associated with moisture; and (b) a certification for further processing to be made of all such dates as meet such grade and size requirements.

Section 1003.41 (b) also provides that such inspection and certification requirements shall not apply to interhandler transfers of field-run dates within the area of production. It was testified that handlers also transfer graded dates to other handlers within the production area and that such transfers are essential to their operations. It is not necessary that either field-run or graded dates be inspected and certified when such transfer is wholly within the area of production because the receiving handler normally would obtain inspection and certification prior to the final shipment of such dates. Therefore, § 1003.41 (b) should also be amended to exempt from the inspection and certification requirements interhandler transfers, within the area of production, of graded dates as well as field-run dates.

12. The current provisions of the first sentence of § 1003.45 (a) provide that whenever volume regulation has been established for a crop year pursuant to § 1003.44, each handler, before or upon shipping dates, shall have withheld from shipment a quantity of marketable dates, or their equivalent in graded dates, having a weight equal to the restricted percentage referable to such shipment. Under the current provisions of § 1003.45 (c) dates may be certified for handling or for further processing at any time during the crop year, at which time the assessment requirements provided in § 1003.72 and such withholding obligation shall be met. Under these provisions, the practice has been for handlers to pay their assessments and meet their withholding obligations at the time of having dates so certified for handling or for further processing. As indicated in the record of the hearing, it was believed a handler's obligation under §1003.45 (a) does not become firm until shipment is made. Moreover, it was believed that a handler would be entitled to an adjustment in assessments which he had previously paid at the time of certification and in the withholding obligation he had met, in the event he had more dates certified than he actually handled. However, under order operations up to the date of the hearing, no such adjustment had been requested or made.

In order to make the provisions of the order conform with practice, § 1003.45 (a) should be revised to provide that under volume regulation each handler shall, at the time of having dates of any variety certified for handling or for further processing, withhold from shipment a quantity of marketable dates of the same variety having a weight equal to the restricted percentage referable to the quantity of dates so certified. The practice of handlers meeting their withholding and assessment obligations at the time of certification facilitates compliance because a handler's obligation can be determined as soon as the inspection is completed and the certification is available to the committee, which is shortly after inspection. If the obligations were met only at the time of shipment or other disposition, it would be necessary for handlers to file with the committee reports of shipments and other dispositions more frequently than the monthly reports they now file.

As discussed below under issue 13, it is proposed to permit handlers to defer the meeting of, but not to meet, their withholding obligation by setting aside graded dates; and therefore, the phrase "or their equivalent in graded dates" included in the current provisions of § 1003.45 (a) should be deleted therefrom.

Handlers generally do not go to the expense of preparing dates and having them certified unless they have good reason for expecting to ship them. However, it is possible that a handler may not have available markets for all of such certified dates, or certified dates could thereafter become damaged or unsuitable for shipment. To take care of eventualities with respect to any excess of certified dates, a handler who has had more dates certified for handling or further processing than he subsequently shipped or otherwise handled should be permitted upon request to the committee and with its approval to have any of the excess quantity of such dates removed from certification and his withholding and assessment obligations adjusted in conformity therewith. Section 1003.45 (c) should, therefore, be amended accordingly.

Section 1003.45 (c) should be amended also to make it clear that the certification of dates for handling or further processing means the certification of dates provided in § 1003.41.

13. (a) As set forth in the notice of hearing, it was proposed to amend § 1003.45 so that a handler may (1) pledge graded dates or field-run dates with the committee in deferment of his restricted obligation, and (2) meet his restricted obligation by disposing of field-run dates in cull outlets. A substitute proposal was presented at the hearing under which dates would not be pledged with the committee but a handler would be permitted to set aside and hold graded dates or field-run dates subject to surveillance or control by the committee as a basis for a deferment in meeting a withholding obligation. As indicated in the record of the hearing, the setting aside of a quantity of field-run or graded dates which contain the required weight of marketable dates would insure that dates were available to meet the withholding obligation. The record also discloses that whether such setting aside of dates is treated as a deferment, an exception to § 1003.45 (a), or otherwise is immaterial so long as handlers are afforded an opportunity to use graded dates or field-run dates, in connection with withholding obligations.

Complete inspection by the inspection agency of graded dates which could be set aside under the substitute proposal would not occur at the time they are set aside. Moreover, until such time as the graded dates are inspected and certified as marketable dates, the extent of the handler's satisfaction of his restricted obligation would not be known. Hence, a handler's setting aside of graded dates should properly be considered as a deferment in meeting his obligation to withhold marketable dates from handling, rather than as a means of satisfying a withholding obligation.

However, with respect to the setting aside of field-run dates, the substitute proposal contemplates inspection of the dates by the inspection agency at the time they are set aside to determine the proportion of the field-run dates which would be eligible for certification as marketable dates. The quantity of such marketable dates being set aside in field-run dates (and thus withheld from handling) could thus be determined from an appropriate inspection certificate and credited against the handler's restricted obligation at that time. Therefore, the setting aside of such inspected, field-run dates should be treated as a special procedure by which a handler may meet his obligation to withhold restricted dates. Such procedure is closely related to the proposal to permit handlers to meet their restricted obligations by disposing of field-run dates in cull outlets and the two should be considered together, as hereinafter discussed.

(b) With respect to the setting aside of graded dates, the provisions of § 1003.45 should be amended so as to enable a handler, with the approval of the committee and in accordance with any rules and regulations which the committee may prescribe with the approval of the Secretary, to defer until any date not later than July 31 of the crop year his meeting of a withholding obligation. Such deferment should be accomplished by the handler setting aside and holding such quantity of graded dates as will assure at the time of actual satisfaction of the withholding obligation a weight of marketable dates withheld from handling equal to that required to be withheld in order to meet the withholding obligation. The dates thus physically set aside would be removed from the market for free dates during the period of the deferment. Also, this mode of operation in meeting a withholding obligation would permit deferment without the handler incurring the cost of any bond; and as discussed in the next paragraph, could eliminate or reduce dual inspections.

Under the provisions of § 1003.45, dates withheld to meet the restricted obligation must be inspected. In most instances in the past when these dates were diverted or otherwise disposed of in the authorized outlets for restricted dates, another inspection and a certification, which are not required under the order, were obtained to insure that the dates were of the grade required by the outlet. Under the proposal to permit a handler to set aside graded dates in deferment of his meeting a restricted obligation, an inspection would not, as a general rule, be required at the time the dates are set aside. Thus, handlers would, in the main, be relieved of having one inspection.

It would be the responsibility of the handler who is afforded the privilege of setting aside graded dates under the deferment plan that the dates meet the requirements for marketable dates. However, in view of its responsibility in administering the program, the committee would, of course, need to assure itself that any such dates proposed to be, or which have been, set aside are, in fact, graded dates as such are proposed to be defined. Therefore, it should be provided that, if the committee has reason to believe any such dates do not meet such requirements, it shall require that the handler have an inspection of the dates at his expense as a condition to the deferment.

The period of any deferment by setting aside graded dates should not extend beyond July 31, which is the end of the crop year. Since diversions and other dispositions of restricted dates usually continue during June and July, it would be desirable that such deferments be permitted to continue through July so that disposition of such dates and termination of the deferment may coincide and one inspection serve for both.

As a condition to the committee approving the deferment, and to permit the committee to determine at any time whether the terms of the deferment are not being complied with, the handler who applies for any such deferment should be required to agree in writing that: (1) He will appropriately mark the set-aside, graded dates as such and hold them separate and apart from other dates; (2) the graded dates will not be removed from the stacks in which they are set aside without prior written permission from the committee; (3) any inspection of the dates by the committee will be permitted at any reasonable time; and (4) if the quantity, quality, or size of the set-aside dates is found by the committee at any time to be deficient, he will promptly set aside such additional or other quantity as is necessary to correct the deficiency.

(c) Under the present provisions of the order, any restricted dates which cannot be disposed of in product form would, with few exceptions, need to be disposed of in outlets prescribed for cull dates. Although the markets for date products are being expanded, it is likely in some crop years handlers will be unable to dispose of all of their restricted dates in product outlets. A handler incurs considerable expense in grading field-run dates in order that they meet the requirements for marketable dates. Moreover, during the first part of the crop year such grading competes for the handler's time and facilities with his processing and handling of free dates. Obviously, it is unnecessary that dates be graded when they are disposed of in cull outlets. Since cull outlets are noncompetitive with outlets for free dates, the disposition in cull outlets of marketable dates that are contained in field-run dates would conform with the diversion from the free market when any free and restricted percentages are established. Therefore, the provisions of § 1003.45 should be further amended so that a handler on request to the committee and with its approval may meet any of his restricted obligations by disposing of appropriate quantities of eligible (as explained in the next paragraph) field-run dates in cull outlets prescribed in § 1003.56 as proposed to be amended, or by withholding the necessary quantities of such field-run dates from handling.

According to the record of the hearing, field-run dates should contain at least 70 or 80 percent marketable dates in order to be eligible to be used by handlers in meeting their withholding obligations. Such a requirement, or a similar requirement with respect to the minimum quality of the dates, is necessary to prevent handlers from meeting their withholding obligations with field-run dates of a quality or a size such that they normally would dispose of such dates in cull outlets. If handlers used field-run dates of any quality in meeting their withholding obligations, there may be, in effect, no restriction in the quantity of dates handled, thus tending to defeat volume regulation. Therefore, the amendment should include provision for requiring that field-run dates which handlers may use in meeting their restricted obligations (by disposing of them in cull outlets or withholding them from handling) shall contain a minimum percentage of marketable dates or otherwise meet minimum standards of quality or size. Since such a minimum percentage or standards would need to be changed from time to time, depending on the general quality of the particular date crop and economic conditions, the specific minimum percentage or standards of quality or size should be specified in rules and regulations prescribed by the committee with the approval of the Secretary. Since the United States Standards for Grades of Dates are not applicable to field-run dates in all respects, the

committee would need to prescribe with the approval of the Secretary, minimum standards of quality or size for the inspection of field-run dates. Such rules and regulations and minimum standards should be prescribed and in effect before the committee grants permission to a handler to use field-run dates to meet his withholding obligation.

Upon such disposal of eligible field-run dates, or withholding such dates from handling, the handler should be credited with satisfaction of his restricted obligation to the extent of that proportion of the eligible field-run dates that meets the applicable minimum grade and size requirements for marketable dates. Prior to such disposal, or withholding from handling, the handler should, at his expense, have the field-run dates inspected; and that portion of such dates meeting the applicable minimum grade and size requirements for marketable dates should be determined pursuant to such inspection. The inspection would be the only inspection required and is necessary in order to determine the proportion of the eligible field-run dates that constitutes marketable dates. In any event, under the order all restricted dates have to be inspected in connection with handlers' meeting their withholding obligations.

In permitting the handler to so satisfy his withholding obligation, the committee should require the handler to agree in writing, as a condition for the committee's granting the permission, that: (a) Any such field-run dates set aside will be held separate and apart from other dates and appropriately marked; (b) such dates will not be removed from the stacks in which so set aside for substitution of other dates, disposition or for any other reason without prior written permission of the committee; and (c) inspection of such dates by the committee will be permitted at any reasonable time. Such an agreement is necessary so that the committee may ascertain whether the provisions of § 1003.45 (a) are being complied with. It should be specified in the order that, in order to satisfy a withholding obligation by direct disposal of field-run dates into cull outlets, the disposal shall be under the supervision of the committee and through persons on a committee approved list of feeders and manufacturers. This follows from the committee's responsibilities in the administration of the program and the requirements of the order with respect to the disposition of cull dates. It should also be specified in the order that any handler who sets aside field-run dates to meet his withholding obligation may, upon giving notice to the committee of any of the following proposed actions and obtaining its approval, (1) dispose of any such set-aside, field-run dates in the same manner as provided for direct disposal, (2) grade such dates and have the graded dates certified as marketable dates and withhold or dispose of the marketable dates as restricted dates, or (3) substitute for the set-aside, field-run dates an equivalent quantity of marketable dates which he shall withhold or dispose of as restricted dates. These actions by the handler follow from or are indicated by, the provisions of the order, as proposed to be amended, with respect to withholding restricted dates from handling.

The handler's privilege of meeting any of his restricted obligation for a particular crop year by withholding from handling, or disposing of field-run dates in cull outlets, should not extend beyond the crop year (July 31). While any grading of the set-aside, field-run dates is likely to be accomplished by March 31, there is no reason for having the privilege of setting aside, or disposal in cull outlets, of field-run dates terminate earlier than July 31. As a necessary incident to its administration of the order, the committee should prescribe rules and regulations, with the approval of the Secretary, covering operation of this phase of the program. Among other operations, the inspection, disposition, and satisfaction of a handler's restricted obligation, should be pursuant to such rules and regulations.

14. Data presented at the hearing shows that dates were packed in more than 22 different packages of varying sizes and capacities during the 1956–57 crop year. Some of the containers differ in size from the next larger containers by a few ounces, and in a few cases by less than an ounce. It was testified that from an industry standpoint, the practice of packing dates in such an array of container sizes has caused packing costs to be increased through the necessity of purchasing additional equipment and packing materials and by time lost in changing packing lines to accommodate different package sizes; also, that the existence of such an array of package sizes causes confusion in marketing with respect to pricing and, at times, misunderstanding on part of the trade. As an example of the latter, the industry as a whole might be packing and selling a 12-ounce package, which is a size of package widely used at present, and some person could offer a 11½ or 11-ounce package at a little lower price. While the person offering the lighter package might specify the weight in his offer, the lighter weight probably would not be specified when information concerning the offer is passed among buyers and sellers. Thus, the trade could be confused as to the prices at which dates are being offered and this would not promote orderly marketing. By having uniformity as to the weights of the consumer packages, proponents believe less confusion would exist in the minds both of the trade and the consumer.

The record also indicates that the consumer could be assured more acceptable dates through the use of containers or packages which provide better sanitation or cause the dates to keep better.

At this time the committee does not have all of the necessary information to make decisions as to any container regulation, but needed information may be obtained in the operation of the program. To provide authority in the order to correct problems such as those indicated in the foregoing discussion of this issue, the order should be amended to provide that whenever the committee deems it advisable to establish a container regulation for any variety of dates, it shall recommend to the Secretary the size, capacity, weight, or pack of the container or containers, which may be used in the handling or packaging of dates, or both. It should be provided that if the Secretary should find upon the basis of such recommendation or other information available to him that such container regulation would tend to effectuate the declared policy of the act, he shall establish such regulation. Notice of the container regulation and of its effective date should be sent by the committee to all handlers of record, as is the case with other regulations under the order. Such notice to handlers would usually precede the effective date of a regulation and thereby afford handlers maximum time to prepare therefor and adjust their operations accordingly. According to the record of the hearing, any such regulation should be applicable to all types of date containers, including bags, and container size should be measured by weight of the contents and not by shape or dimension of the container. With research to provide a proper basis for decisions, container regulations could result in increased returns to producers.

There was considerable testimony at the hearing also to the effect: (a) Dates are more of a specialty item than some of the fruits and vegetables which are generally presented to the consumer more or less in bulk; (b) the date industry has a difficult task in trying to sell all of the tonnage it produces, and has to do that through the designing and promoting packs that the consumer will accept; (c) there have to be changes in style, changes in weights, and changes in the type of package to creat or stimulate interest on the part of the consumer; and (d) exemptions pursuant to § 1003.52 would need to be granted for specialty packs, including, but not limited to, those for sale direct to consumers, for mail order, and to certain department stores. Witnesses testifying were almost unanimous in believing that appropriate container regulations could contribute to the solution of industry problems; and authority for establishing such regulations should be contained in the order.

15. The provisions of § 1003.51 relating to interhandler transfers of dates should be amended by removing therefrom the requirements that handlers give notice to, and obtain the permission of, the committee before transferring dates to another handler. In lieu of the deleted provisions, a reporting requirement should be included.

In past operations, the committee has found that the advance notice requirements are unnecessary for effective operation of the program and that removal of these requirements would simplify administration. However, it is necessary that the committee's records pertaining to the respective holdings of dates by handlers accurately reflect the actual holdings of each handler. This could be accomplished by simply requiring each handler who transfers any such dates to another handler to report to the committee the necessary identifying

information upon the completion of the transfer.

16. (a) Sections 1003.55 and 1003.56 presently and as proposed to be amended, prescribe outlets for the disposition of dates other than free dates. It is, of course, intended that the disposition by any person of such dates be limited to the prescribed outlets. In order to clarify the limitations on the disposition, including use, of such dates, a new section (§ 1003.54) should be added to the order which would prescribe that, except as provided in § 1003.55 and § 1003.56, dates other than free dates shall not be used or disposed of.

(b) This marketing program contemplates that a handler will dispose of all of his marketable dates (inspected and certified as such) other than free dates in specified outlets. It appears from the evidence that the present provisions of § 1003.55 do not clearly reflect this situation. A handler who has marketable dates which he does not use to meet any restricted obligation should be afforded an opportunity to dispose of such dates in the outlets prescribed for restricted dates. Since restricted dates may, pursuant to § 1003.55, be diverted or otherwise disposed of for use as human food and must be inspected and certified as meeting the requirements for marketable dates, it is consistent to require that other dates which may be disposed of the same as restricted dates also must be inspected and certified as meeting the requirements for marketable dates. This would preclude substandard and cull dates from being disposed of in such outlets. It is intended, of course, that no provisions should preclude any restricted dates or other dates inspected and certified as marketable dates from being disposed of in the prescribed outlets for substandard dates and cull dates in accordance with the requirements for such outlets.

(c) Whenever any additional grade or size regulation has been established for restricted dates pursuant to § 1003.40, as proposed to be amended (issue 9), it would be inconsistent to permit the disposition of substandard dates (as such term is proposed to be defined) in restricted outlets; and such substandard dates should be limited to feed, nontable syrup, alcohol or brandy outlets or such other outlets for non-human food products as the committee concludes are non-competitive with the outlets for free and restricted dates. Maceration is one of the outlets prescribed in § 1003.55 for restricted dates and is the only human food outlet now prescribed in § 1003.56 for substandard dates. Therefore, in order to accomplish the indicated limitation as to the outlets for substandard dates, § 1003.56 should be amended by deleting the word "macerated".

As discussed under issue 9, additional grade or size regulation for restricted dates would be established only when the quantity of restricted dates is expected to exceed the demand for dates in the outlets prescribed in § 1003.55 for such dates. The outlets for restricted dates are certain export outlets and the production of human food products. Under such additional regulations, the sale of substandard dates for maceration would tend to pull down the average price received by growers for all restricted dates sold in authorized outlets. The exclusion of substandard dates from maceration outlets would not preclude the disposition of such dates in the authorized cull outlets.

However, in crop years when supplies are such that no additional requirements pursuant to § 1003.40 are established for restricted dates producer returns may be increased by permitting the disposition of substandard dates in outlets such as that of macerated dates. The committee, should, of course, be aware of the appropriate outlets which could result in growers getting increased returns by the use of substandard dates to such outlets; and its recommendation as to the particular outlets should be furnished the Secretary for his consideration and approval. Accordingly, § 1003.56 should be further amended to provide that, in such years, substandard dates may be disposed of by use in such products destined for human consumption as may be approved by the Secretary upon recommendation of the committee. In such case, and to insure that the dates are edible and not culls, all such dates for disposition in human food products should be inspected and certified prior to disposition to assure that the dates qualify as substandard dates.

The current provisions of § 1003.56 limit the disposition of cull dates to products not destined for human consumption as food. Since the proposed deletion of "maceration" from the prescribed outlets for substandard dates would leave only products which are not destined for human consumption as food, the amendment should provide for the disposition of substandard dates and cull dates in the same outlets and without inspection, except that at any time when the disposition of substandard dates is permitted in human food outlets as indicated in the preceding paragraph, any dates for use in such outlets shall be inspected and certified as substandard or better dates.

(d) The order should be amended by adding a new § 1003.57 (and renumbering existing § 1003.57 as § 1003.58) requiring that any diversion pursuant to § 1003.55 or § 1003.56 of restricted dates, other marketable dates, substandard dates or cull dates may be accomplished only by manufacturers or feeders (which may include handlers) approved by the committee. Since some of these persons may not be handlers, such requirement is needed to provide the necessary controls to insure that the dates to be diverted are actually diverted as prescribed and do not enter unauthorized channels. The approval of such manufacturers or feeders by the committee should be in accordance with such rules, regulations and safeguards as may be prescribed by the committee pursuant to § 1003.58 of the order (to be renumbered as § 1003.59), especially since the exercise of such approval or disapproval would, in effect, be one of the safeguards against unauthorized disposition.

The new section should include a provision that, in order to become an approved manufacturer or feeder, any person shall submit an application to the committee in which he agrees, as a condition to approval, to furnish to the committee such information as it may require and to comply with all program requirements and restrictions relative to the use and disposition of such dates.

The committee needs to obtain information from approved manufacturers, concerning diversion of dates, for use in determining marketing policy and otherwise doing necessary planning in the administration of the program. Information as to the demand for date products is important in establishing free and restricted percentages. Since substantial industry effort is being made to develop new outlets for date products, it is essential that the committee be informed as to the progress that is made in all approved outlets and the quantity of dates needed in such outlets.

17. It is proposed that the present § 1003.57 be renumbered as § 1003.58 and amended to provide that by September 30 of the subsequent crop year all dates covered by § 1003.55 and § 1003.56 shall, in accordance with such section: (a) Be converted from their whole or pitted form, or otherwise disposed of; or (b) set aside and marked for disposition pursuant to the applicable requirements of such sections. In addition, the committee should prescribe with the approval of the Secretary, such rules and regulations as are needed to assure the disposition of such dates.

Present § 1003.57 provides that dates covered by §§ 1003.55 and 1003.56 shall be converted from their whole or pitted form or sold under firm contracts to manufacturers of approved products by September 30 of the subsequent crop year. According to the record of the hearing, a number of date handlers have the necessary facilities in which to manufacture approved products from the dates covered by § 1003.55 and § 1003.56. These handlers are, in fact, also manufacturers of date products, and they have avoided difficulty in complying with the provision of present § 1003.57 by selling such dates under firm contracts to their manufacturing operations. However, other date handlers who do not carry on date manufacturing operations have found it difficult to comply with the provisions of such section. Although at the present time the outlets for date products are being expanded, such outlets are not able to use all of the dates available for the manufacture of date products.

It was testified that since, in general, almost all dates covered by §§ 1003.55 and 1003.56 are converted from their whole or pitted from within a year from the time they are produced, it would be an unnecessary burden to require handlers to dispose of, or contract for the disposal of, dates covered by such sections into approved outlets by September 30. Rather, handlers should, by September 30 of the subsequent crop year, set aside and mark for disposition in the prescribed outlets any such dates then on hand. In this way, all handlers should have no difficulty in complying with the disposition requirements; and the set-aside should keep such dates out of the usual channels of trade for packed dates.

Therefore, § 1003.57 should be amended accordingly.

18. The provisions relating to "Report of handler carry-over" (§ 1003.61) should be amended by listing two new dates and deleting the May 15 date for handler carry-over reports. The three expressed dates should be January 1, June 1, and August 1.

Section 1003.61 now provides, among other things, that handler carry-over reports shall be as of January 1 and May 15 of each crop year. The purpose of the May 15 date was to provide carry-over information early enough for the committee to use such information as a basis for developing its marketing policy for the subsequent crop year. However, in practice the marketing policy meeting has never been held prior to the middle of June. Further, handlers have at times found it difficult to report actual carry-over information as of the middle of a month because records are kept on a calendar month basis. The proposed June 1 date would recognize this record keeping practice and provide ample time for the committee to correlate the carry-over data so reported to it with other information prior to the marketing policy meeting.

In past program operations, the committee obtained from handlers on a voluntary basis, their carry-over information as of August 1—the beginning of the crop year. This information has been used by the committee in determining whether its previously recommended marketing policy for such crop year should be modified and in developing the marketing policy for the subsequent crop year. The August 1 carry-over report, therefore, is of significant value for the committee and should be expressly required.

19. The provisions of § 1003.64 should be amended by deleting therefrom paragraph (a) which requires handlers to notify the committee of their intentions to dispose of restricted dates prior to making such dispositions and by revising paragraph (b) so that the reports required upon completion of disposition cover all dates for which disposition is prescribed in §§ 1003.55 and 1003.56. Such dates, include, in addition to restricted dates (for which the report is now required), other marketable dates, substandard dates and cull dates. According to the record of the hearing, requiring handlers to report their intention to dispose of restricted dates prior to making such disposition serves no useful purpose inasmuch as all such dates are disposed of only to manufacturers which are approved by the committee. The revision of paragraph (b) so as to specify all of the dates for which disposition is prescribed in §§ 1003.55 and 1003.56 is necessary to make it clear that the reports cover all dates for which outlets are prescribed pursuant to such sections.

Pursuant to other provisions of the order, handlers now submit reports of dispositions of substandard dates and cull dates on a monthly basis. By requiring handlers to report such dispositions promptly following completion of the individual disposition, the committee will be aided in determining if such dispositions were proper and actually made as reported.

20. The provisions of § 1003.72, which relates to assessments, should be amended by deleting therefrom that sentence which established the rate of accessment for the initial crop year. Inasmuch as the initial crop year was 1955–56 that sentence is no longer applicable.

21. Section 1003.74, which relates to refunds of excess assessments paid by handlers should be amended to provide that a handler's share of the excess funds shall be the amount of assessments he paid in excess of his actual pro rata share of the committee's expenses. The present provisions of § 1003.74 provide that a handler be refunded or credited with his share of such excess funds on the basis of the ratio of the total amount paid by him to the total amount paid by all handlers. Under such language it would appear that if a handler should pay only part of his total assessments, or less than his pro rata share of committee expenses, he would nevertheless be entitled to receive a refund or credit. In such an event, those handlers who had paid the full amount of their assessments would then receive smaller refunds or credits than they would have received if all handlers had been refunded or credited the respective amounts they had paid in excess of their pro rata shares of the committee's expenses. Under the proposal, the matter of refunds or credits would be clarified and each handler would receive that part of the excess to which he is entitled.

22. The various provisions of the order (as proposed to be amended) prescribe or provide for, grade, size, and volume regulations, and the use or other disposition of restricted dates and other dates which are not certified for handling or further processing. It is, of course, intended that handlers will comply with all such regulations, and use or dispose of the restricted dates and such other dates only in authorized outlets. Therefore, it would be appropriate that a new section (§ 1003.76) be added to the order reflecting this matter of compliance. Such section should provide that no handler shall handle dates (including dates for further processing) except in conformity with, and as authorized by, or pursuant to, the applicable provisions of the part, including but not limited to the regulations relating to grade, size, and volume; and no handler shall use or otherwise dispose of restricted dates or any other dates which have not been certified for handling or for further processing, except in conformity with, and as authorized by, or pursuant to, the applicable provisions of the part.

23. As proposed in the notice of hearing and testified at the hearing, changes should be made in such other provisions of the order as are necessary to make such other provisions conform with any amendment which may result from this proceeding. The making of such changes is, of course, desirable. The proposed amendment of § 1003.40 (issue 9) would provide for the establishment of size regulations. In the proposed amendment of § 1003.45 (issue 12) the word "handling" rather than "shipping" would be used, and following the words "[illegible] for handling" the words "or for further processing" would be inserted. While the changes in connection with the word "handle," or its various forms, are themselves to some extent changes to bring about conformity to existing provisions of the order, nevertheless other changes should be made in the order to conform the provisions to all of such revisions, as follows: (a) Insert in § 1003.34 (a) after the word "grades", the words "and size"; (b) insert in § 1003.34 (e) after the word "grade", the words "and size"; change the word "shipped" to "handled" wherever such word appears in §§ 1003.41 (c) and 1003.44 (b); and (d) insert "or for further processing" immediately after the words "handled or certified for handling" wherever such words appear in §§ 1003.46, 1003.50, 1003.72 and 1003.73.

Ruling on proposed findings and conclusions. The period during which interested parties might file briefs with the Hearing Clerk of the Department with respect to testimony presented at the hearing and the conclusions to be drawn therefrom expired on April 24, 1958. No briefs were filed.

General findings. (1) The marketing agreement and order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The marketing agreement and order, as hereby proposed to be amended, regulate the handling of domestic dates (produced or packed in the Counties of Riverside, Orange and Los Angeles, and that portion of San Bernardino County lying west of 116 degrees W. longitude, located within the State of California) in the same manner as, and are applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The marketing agreement and order, as hereby proposed to be amended, are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act and the issuance of several orders applicable to subdivisions of the area of production would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of dates in the area of production covered by the marketing agreement and order, as hereby proposed to be amended, which would require different terms applicable to different parts of such area; and

(5) All handling of dates produced or packed in the area of production, as hereby proposed to be amended, is either in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

Recommended amendment of the marketing agreement and order. The following amendment of the marketing agreement and order is recommended as the detailed means by which the aforesaid conclusions may be carried out:

1. Revise the provisions of § 1003.4 to read as follows:

§ 1003.4 *Area of production.* "Area of production" means the Counties of Riverside, Orange and Los Angeles, and that portion of San Bernardino County lying west of 116 degrees W. longitude, located within the State of California."

2. Insert in § 1003.9, between the words "production" and "shall", the phrase "or the movement of dates by a handler to storage for his account within the area of production".

3. Delete from § 1003.11 the words "the quantity of marketable" and insert, in lieu thereof, the words "the aggregate quantity of whole dates and pitted".

4. Delete from § 1003.12 the phrase, "minimum grade permitted to be handled by the regulations imposed by this part", and insert, in lieu thereof, the phrase, "applicable minimum grade then in effect pursuant to § 1003.39 and any additional, applicable requirements, pursuant to § 1003.40, which may then be in effect for restricted dates."

5. Add a new § 1003.15 as follows:

§ 1003.15 *Substandard dates.* "Substandard dates" means those dates which fail to meet the requirements for marketable dates but are not cull dates.

6. Add a new § 1003.16 as follows:

§ 1003.16 *Cull dates.* "Cull dates" means dates which fail to meet the requirements (with respect to freedom from defects) prescribed in section 798 of the Agricultural Code of California for dates for use in products or by-products other than alcohol, brandy, and products not intended for human consumption.

7. Add a new § 1003.17 as follows:

§ 1003.17 *Graded dates.* "Graded dates" means those dates which are eligible for certification as marketable dates.

8. Renumber present § 1003.15 as § 1003.18.

9. Renumber present § 1003.16 as § 1003.19 and revise its provisions to read as follows:

§ 1003.19 *Cooperative marketing association.* "Cooperative marketing association" means a cooperative marketing association of date growers organized under the laws of the State of California.

10. Renumber § 1003.17 as § 1003.20 and amend said section by deleting "and Riverside Counties of California", and inserting in lieu thereof, ", Riverside and Orange Counties, and that portion of San Bernardino County lying west of 116 degrees W. longitude located within the State of California".

11. Delete §§ 1003.21, 1003.22, 1003.23 and 1003.24, and insert, in lieu thereof, the following:

§ 1003.21 *Establishment of Date Administrative Committee.* A Date Administrative Committee, composed of seven members with an alternate member for each such member, is hereby established to administer the terms and conditions of this part: *Provided*, That the number of members and alternates may be changed consistent with findings made pursuant to § 1003.22 (b).

§ 1003.22 *Membership representation.* (a) Members and alternate members shall, until such time as a realignment of the committee membership is effected pursuant to paragraph (b) of this section, be selected by the Secretary from each of the following groups and on the following basis:

(1) One member from handlers, each of whom produced during the then current crop year to February 28 at least 51 percent of all of the dates handled by him during such period, and producers, each of whom delivered to such handlers during the then current crop year to February 28 at least 50 percent of his deliveries to all handlers during such period;

(2) Three members from cooperative marketing associations of whom one shall be an employee and serve as a handler member of the committee, and two shall be from among the producer members of such associations;

(3) Three members from all other handlers and producers of whom two shall be handler members selected from among such other handlers, and one shall be a producer member selected from among such other producers.

The foregoing representation is based on each member representing approximately 14.28 percent of date tonnage handled.

(b) Whenever the Secretary finds that any change in tonnage handled in any group is equivalent to more than one-half of the basic 14.28 percent for a member, he shall so notify the committee and thereafter nominations and selections of members and alternates in that group shall be in such numbers and follow such alignment as the Secretary may determine: *Provided*, That each group shall be entitled to at least one member and alternate. Any such realignment shall be based on the tonnage of dates acquired from producers and certified for handling or further processing during the then current crop year to February 28. Any increase or decrease in the number of members representing a particular group shall not be dependent upon a change in membership representation of any other group nor shall any increase or decrease in the total number of members on the committee change the basic percentage herein established for tonnage representation for members. Except for group (a), any change in the nomination and selection of members for any group shall be made so as to keep producer members and handler members in balance insofar as possible.

§ 1003.23 *Term of office.* The term of office for members and alternate members shall be one year ending on May 14 but each such member and alternate member shall continue to serve until his successor has been selected and has qualified.

§ 1003.24 *Nominations.* (a) Each group specified in § 1003.22 may nominate, at a nomination meeting or meetings held on or before April 15 of each year, members and alternates to represent the group. With respect to the group specified in § 1003.22 (c), separate meetings of handlers and of producers shall be held to nominate the handler representatives and producer representatives, respectively.

(b) At any meeting of the group specified in § 1003.22 (a), each producer and each producer-handler shall be entitled to one vote for each position to be filled. At the respective meetings of the cooperative marketing associations in the group specified in § 1003.22 (b), and of the handlers in the group specified in § 1003.22 (c), each such association and each such handler shall be entitled to vote for each position to be filled as a representative for the particular group; and each such vote shall be weighted by the tonnage of dates acquired from producers and certified, for handling or for further processing, through February 28 of the then current crop year. At any meeting of the producers in the group specified in § 1003.22 (c), each such producer shall be entitled to one vote for each position to be filled. The individual receiving the highest number of votes for a position shall be the nominee. Immediately after the completion of the meetings covered by this section, the committee shall report to the Secretary the nominees for each position together with a certificate of all necessary tonnage data and other information deemed by the committee to be pertinent or which is requested by the Secretary. The Secretary shall select, in his discretion, members and alternates from such nominees or from other qualified persons; but any such selection shall be from the groups, and on the basis, prescribed in § 1003.22. However, the Secretary shall allow a reasonable time for nominations to be received before proceeding with any selection without regard to nominations.

12. Delete from § 1003.31 the second and third sentences and insert, in lieu thereof, the following two sentences: "All decisions of the committee shall be by an affirmative vote of at least two-thirds (in case of fractional numbers, rounded to the nearest whole number) of the members of the committee. The presence of two-thirds, determined in the same way, of the members of the committee shall be required to constitute a quorum."

13. Amend § 1003.34 (a) to read as follows:

(a) Its estimate of the total date production separated as to marketable dates and dates of other grades and, when applicable, sizes, which will be produced in such crop year;

14. Amend § 1003.34 (e) by inserting the words "and size" after the word "grade".

15. Delete from § 1003.39 the first sentence and insert, in lieu thereof, the following sentence: "In order to effectuate the declared policy of the act all whole dates and pitted dates handled under this subpart shall meet the requirements of U. S. Grade C, or, if for further processing, U. S. Grade C (Dry), of the effective United States Standards for Grades of Dates: *Provided*, That the Secretary may, upon recommendation of the committee, prescribe other minimum standards of quality."

16. Delete from § 1003.39 the last sentence and insert, in lieu thereof, the fol-

lowing two sentences: "Notice of the minimum standard regulation shall be sent by the committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard."

17. Delete § 1003.40 and insert, in lieu thereof, the following:

§ 1003.40 *Additional grade or size regulations.* Whenever the committee deems it advisable to establish grade or size requirements for any variety of dates, in addition to the minimum standard provided pursuant to § 1003.39, to govern dates of such variety to be handled or to be withheld to meet restricted obligation, or both, it shall recommend to the Secretary requirements as to grade based on the effective United States Standards for Grades of Dates or any modification thereof, and such size requirements as it may deem appropriate. If the Secretary finds, upon the basis of such recommendation or other information available to him, that such additional grade or size regulation, or both such regulations, will tend to effectuate the declared policy of the act, he shall establish such regulations. Notice thereof, showing the effective date, shall be sent by the committee to all handlers of record. On and after the effective date no handler shall handle dates of such variety or withhold such dates to meet withholding obligation except in accordance with such regulations.

18. Amend § 1003.41 in the following respects: (1) Revise § 1003.41 (a) and (b) to read as follows:

§ 1003.41 *Inspection*—(a) *Packed dates.* Prior to handling any dates packed for handling each handler shall, at his own expense, cause: (1) An inspection to be made of such dates in order to ascertain if such dates meet the applicable grade and size regulations prescribed or provided for in this part; and (2) a certification for handling to be made of all such dates as meet such grade and size regulations.

(b) *Dates for further processing.* Prior to handling any dates for further processing each handler shall, at his own expense, cause: (1) An inspection to be made to ascertain if such dates meet the applicable grade and size requirements effective pursuant to § 1003.39 or § 1003.40, except for character associated with moisture; and (2) a certification for further processing to be made of all such dates as meet such grade and size requirements: *Provided,* That such inspection and certification requirements shall not apply to interhandler transfers within the area of production of field-run dates or graded dates.

(2) Change in the first sentence of § 1003.41 (a), the word "shipped" to the word "handled".

19. Change in § 1003.44 (b) the word "shipped" to "handled".

20. Delete § 1003.45 (a) and insert, in lieu thereof, the following:

(a) Whenever free and restricted percentages for any variety of dates have been established for a crop year by the Secretary in accordance with § 1003.44, each handler shall, at the time of having dates of such variety certified for handling or for further processing, withhold from handling a quantity of marketable dates of such variety having a weight equal to the restricted percentage for such variety referable to the dates so certified. The weight required to be withheld shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding percentage, rounded to the nearest one-tenth of one percent, to the weight of dates so certified. The withholding percentage, computed as aforesaid, shall be established by the Secretary. When pitted dates are certified, the weight to be withheld shall be determined by dividing the weight of the pitted dates certified for handling or further processing by 0.90 and applying the withholding percentage.

21. Delete § 1003.45 (c) and insert, in lieu thereof, the following:

(c) At any time during the crop year dates may be inspected and certified for handling or for further processing as provided in § 1003.41. Dates so certified shall, at the time of certification, be identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors. The assessment requirements in § 1003.72 as well as the withholding obligation prescribed in paragraph (a) of this section shall be met at the time of certification. However, a handler who has had more dates certified for handling or further processing than he subsequently shipped or otherwise handled may, upon request to the committee and with its approval, have any of such excess quantity of the certified dates removed from certification and his withholding and assessment obligations adjusted accordingly. A handler who has had dates certified for handling or further processing and has not had them removed from certification, may carry such certified dates over into the new crop year and need not pay the assessment nor meet the requirements of any withholding percentages established for such year.

22. Insert after § 1003.45 (d) new paragraphs (e) and (f) as follows:

(e) On request to the committee and with its approval, a handler may, in accordance with the provision of this paragraph and any applicable rules and regulations which the committee may prescribe with the approval of the Secretary, defer until any date not later than July 31 of the crop year the meeting of any portion of his obligation to withhold restricted dates by setting aside such amount of graded dates as will assure a quantity of marketable dates equal at least to the quantity needed to be withheld from handling to meet his withholding obligation. With respect to any such dates the handler may set aside in connection with such a deferment, the committee may require, if it deems it necessary, the handler to have made, at his own expense, such inspection as may be necessary for a determination as to whether such dates conform to the applicable requirements for dates that may be set aside under this paragraph. As a condition to the committee approving the deferment, the handler shall agree in writing that: (1) He will adequately mark and identify the set-aside graded dates as such and hold them separate and apart from other dates; (2) the graded dates will not be removed from the stacks in which so set aside without the prior written permission of the committee; (3) inspection of the dates by the committee will be permitted at any reasonable time; and (4) if the quantity, quality, or size of the set-aside dates is found by the committee at any time to be deficient, the handler will promptly set aside such additional or substitute quantity of graded dates as is necessary to correct the deficiency.

(f) Upon the committee prescribing, with the approval of the Secretary, minimum standards for inspection of field-run dates and appropriate administrative rules and regulations, a handler may, in accordance therewith and the provisions of this paragraph, satisfy all or any part of his obligation to withhold restricted dates by setting aside field-run dates or by disposing of field-run dates in outlets prescribed in, or pursuant to, § 1003.56. The field-run dates shall be of such quality or size as shall be prescribed in such rules and regulations. The setting aside, direct disposal, and disposal of any field-run dates set aside shall occur prior to July 31 of the crop year in which the withholding obligation occurs. Prior to the disposal or setting aside of the field-run dates, the handler shall have had them inspected to determine the weight of dates eligible to satisfy withholding obligation. Upon such disposal or setting aside of the field-run dates, the handler shall be credited with satisfaction of his restricted obligation to the extent of the eligible weight of dates. In permitting the handler to so satisfy his withholding obligation the committee shall require the handler to agree in writing that: (1) Any field-run dates set aside will be held separate and apart from other dates and appropriately marked; (2) such dates will not be removed from the stacks in which so set aside for substitution of other dates, disposition, or for any other reason without prior written permission of the committee; and (3) inspection of said dates by the committee will be permitted at any reasonable time. In order to satisfy a withholding obligation by direct disposal of field-run dates into cull outlets, the disposal shall be under the supervision of the committee and through persons on a committee approved list of feeders and manufacturers. The handler may, upon giving prior notice to the committee of any of the following proposed actions with respect to field-run dates withheld and obtaining its approval, (i) dispose of any such set-aside field-run dates in the same manner as provided for direct disposal (ii) grade such dates and have the graded dates certified as marketable dates and withhold or dispose of such marketable dates

as restricted dates, or (iii) substitute for the set-aside, field-run dates an equivalent quantity of marketable dates which he shall withhold or dispose of as restricted dates.

23. Add a new § 1003.48 as follows:

§ 1003.48 *Container regulation.* Whenever the committee deems it advisable to establish a container regulation for any variety of dates, it shall recommend to the Secretary the size, capacity, weight, or pack of the container, or containers, which may be used in the handling or packaging of dates, or both. If the Secretary finds upon the basis of such recommendation or other information available to him that such container regulation would tend to effectuate the declared policy of the act he shall establish such regulation and notice thereof showing the effective date shall be sent by the committee to all handlers of record. After the effective date of such regulation, no handler shall handle dates of such variety except in accordance with such regulation and all other applicable requirements in effect pursuant to this part.

24. Delete from § 1003.51 the first sentence and insert, in lieu thereof, the following: "Transfers of dates may be made from one handler to another, and each handler who so transfers any such dates shall immediately upon the completion of the particular transfer notify the committee of the transfer, specifying the date of the transfer, the quantity and variety of dates involved, and the name of the receiving handler."

§ 1003.54 *Disposition of other than free dates.* Dates other than free dates shall not be used or otherwise disposed of except as provided in §§ 1003.55 and 1003.56.

26. Delete §§ 1003.55, 1003.56, and 1003.57 and insert, in lieu thereof, the following:

§ 1003.55 *Outlets for restricted and other marketable dates.* Restricted dates may be disposed of only through exportation to such countries as the committee may approve or by diversion in such form as rings, chunks, pieces, butter, macerated, or paste, or any other products which the committee concludes to be appropriate and which will result in the dates moving into consumption in a form other than that of whole dates or pitted dates. Dates other than restricted dates may also be so disposed of if they are inspected and certified as meeting the requirements for marketable dates. However, the provisions of this section shall not preclude any such dates from being disposed of in the outlets for substandard dates and cull dates prescribed in § 1003.56.

§ 1003.56 *Outlets for substandard and cull dates.* Substandard dates and cull dates may be disposed of without inspection, but only in feed, non-table syrup, alcohol, or brandy outlets, or in such other outlets for non-human food products as the committee concludes are non-competitive with the outlets for free and restricted dates: *Provided*, That in crop years when no additional requirements have been established for restricted dates of a particular variety pursuant to § 1003.40, substandard dates of that variety which have been inspected and certified as such may also be disposed of by diversion into such products for human consumption as may be approved by the Secretary upon recommendation of the committee.

§ 1003.57 *Approved manufacturers or feeders for diversion of restricted, other marketable, substandard, and cull dates.* (a) Diversion, pursuant to § 1003.55 or § 1003.56, of restricted dates, other marketable dates, substandard dates, or cull dates shall be accomplished only by such persons (which may include handlers) as are approved manufacturers or feeders. Any person may become an approved manufacturer or feeder if he (1) submits an application to the committee in which he agrees, as a condition to approval of his application, to furnish to the committee such information as it may require and to comply with the requirements and restrictions relative to the use and disposition of such dates, as set forth in this part, and (2) receives from the committee written approval of his application. The application and approval shall be in accordance with such rules, regulations and safeguards as may be prescribed pursuant to § 1003.59.

§ 1003.58 *Terminal dates.* Dates covered by §§ 1003.55 and 1003.56 shall, by September 30 of the subsequent crop year (a) in accordance with the applicable requirements of such sections, be disposed of, or be converted from their whole or pitted form; or (b) be set aside and marked for disposition pursuant to the applicable requirements of such sections. The committee may prescribe, with the approval of the Secretary, such rules, regulations and safeguards, pursuant to § 1003.59, as may be necessary to prevent dates covered by §§ 1003.55 and 1003.56 from interfering with the objectives of this part.

27. Renumber existing § 1003.58 as § 1003.59.

28. Amend § 1003.61 to read as follows:

§ 1003.61 *Reports of handler carry-over.* Each handler shall file each year with the committee written reports of his carry-over of dates as of January 1, June 1, and August 1, and at such other times as the committee may prescribe. Such reports shall be filed within 15 days of the respective dates.

29. Amend § 1003.64 to read as follows:

§ 1003.64 *Reports on disposition of restricted, other marketable, substandard and cull dates.* Each handler disposing of any quantity of restricted dates or other marketable dates, substandard dates, or cull dates for which disposition is prescribed in §§ 1003.55 and 1003.56 shall promptly thereafter report such disposition to the committee in such form as the committee may prescribe.

30. Delete from § 1003.72 the fourth sentence.

31. Amend § 1003.74 to read as follows:

§ 1003.74 *Refunds.* Excess funds held by the committee at the conclusion of a crop year may be used to defray expenses for no more than the ensuing four months and thereafter, within a reasonable time, the committee shall credit or, upon demand, refund the aforesaid excess to handlers who contributed to such excess. A handler's share of the excess funds shall be the amount of assessments he paid in excess of his actual pro rata share of the expenses of the committee.

32. Add a new § 1003.76 as follows:

§ 1003.76 *Compliance.* No handler shall handle any dates (including dates for further processing) except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part, including but not being limited to the regulations relating to grade, size, and volume; and no handler shall use or otherwise dispose of restricted dates or any other dates which have not been certified for handling or for further processing except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part.

33. Insert "or for further processing" immediately after the words "handled or certified for handling" wherever such words appear in §§ 1003.46, 1003.50, 1003.72 and 1003.73.

Dated: July 11, 1958.

[7 CFR Part 1020]

HANDLING OF APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1958-59 FISCAL YEAR

Consideration is being given to the following proposals by the Washington Apricot Marketing Committee established under the marketing agreement and Order No. 120 (7 CFR Part 1020; 22 F. R. 3514) regulating the handling of apricots grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $10,306 will be necessarily incurred by said committee during the fiscal period (April 1, 1958, through March 31, 1959), for its maintenance and functioning under the aforesaid marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles apricots shall pay during such fiscal period in accordance with the aforesaid marketing agreement and order, the rate of assessment of $1.50 per ton of apricots so handled by such handler during such fiscal period.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should

file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than the 7th day after the publication of this notice in the FEDERAL REGISTER.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 11, 1958.

[SEAL] FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 1022]

HANDLING OF SWEET CHERRIES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

APPROVAL OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1958-59 FISCAL YEAR

Consideration is being given to the following proposals by the Washington Cherry Marketing Committee established under the marketing agreement and Order No. 122 (7 CFR Part 1022; 22 F. R. 3835) regulating the handling of sweet cherries grown in Designated Counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $10,340.00 will be necessarily incurred by said committee during the fiscal period (April 1, 1958, through March 31, 1959) for its maintenance and functioning under the aforesaid marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles cherries shall pay during such fiscal period in accordance with the aforesaid marketing agreement and order, the rate of assessment of $1.50 per ton of cherries so handled by such handler during such fiscal period.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than the 7th day after the publication of this notice in the FEDERAL REGISTER.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: July 11, 1958.

[SEAL] FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R-168]

GENERAL POLICY AND INTERPRETATIONS

NONACCEPTABILITY OF RATE FILINGS BASED UPON STATE-PRESCRIBED MINIMUM PRICES

ORDER FIXING DATE OF ORAL ARGUMENT

JULY 11, 1958.

By notice of proposed rulemaking issued April 28, 1958, in docket No. R-168, published in the FEDERAL REGISTER on May 2, 1958 (23 F. R. 2973), the Commission proposed to take certain actions with respect to certain rate filings based upon State-prescribed minimum prices.

Interested persons were advised that they could submit data, views, and comments in writing concerning these proposals not later than May 27. On or before that date, the Commission received such views and comments, together with several requests for opportunity to present the views orally with respect to the proposed actions.

The Commission finds: It is reasonable and appropriate for the purposes of the administration of the Natural Gas Act and for carrying out the provisions thereunder that interested persons be afforded an opportunity to present their views orally with respect to the proposals as hereinafter ordered.

The Commission orders:

(A) Oral argument in the above-entitled matter be had before the Commission on July 29, 1958, commencing at 10:00 a. m., e. d. s. t., in the Hearing Room of the Commission, 441 G Street NW., Washington, D. C., for the purpose of affording interested persons an opportunity to present their views orally with respect to the proposed action by the Commission as set forth in the notice of April 28.

(B) On or before July 25, 1958, interested persons intending to participate in the oral argument shall advise the Secretary of such intention and shall state the amount of time they wish to have allotted to them for such purpose.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 9, 1958.

The Bureau of Reclamation has filed an application, Serial No. Idaho 09230, for the withdrawal of the lands described below, from all forms of appropriation under the Public Land Laws but not from the mining and mineral leasing laws subject to prior approval of the Bureau of Reclamation. The applicant desires the land for enlarging Little Wood River Reservoir.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 1 N., R. 20 E.,
Sec. 13; NW¼SE¼.

This area includes 40 acres located north of Carey in Blaine County, Idaho.

DONALD I. BAILEY,
Acting State Supervisor.

[F. R. Doc. 58-5450; Filed, July 16, 1958; 8:46 a. m.]

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JULY 9, 1958.

The City of Sandpoint, Idaho has filed an application, Serial No. Idaho 09191, for the withdrawal of the lands described below, from all forms of appropriation under the Public Land Laws, including the general mining laws and mineral leasing laws. The applicant desires the land for preservation and protection of the city water shed and water supply.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, P. O. Box 2237, Boise, Idaho.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BOISE MERIDIAN, IDAHO

T. 57 N., R. 2 W.,
Sec. 4; Lots 1, 6, 7, SW¼NE¼, S½NW¼;
Sec. 6; Lot 8.

This area includes 300.67 acres located in Bonner County, Idaho.

DONALD I. BAILEY,
Acting State Supervisor.

[Misc. 1084; 2082358]

ALASKA

REVOCATION OF ORDERS OPENING LANDS UNDER THE FOREST HOMESTEAD ACT

JULY 11, 1958.

Upon request of the Department of Agriculture, and pursuant to the authority delegated by Departmental Order No. 2583, section 2.22 (a) of August 16, 1950, it is ordered as follows:

Subject to valid existing rights, the orders of August 10, 1948 and April 18, 1949, opening lands in the Tongass National Forest for entry under the Act of June 11, 1906 (34 Stat. 233; 16 U. S. C. 506-509) as amended, are hereby revoked so far as they affect the lands hereafter described:

a. List No. 10-11:

Land: A tract of 69.81 acres, described by metes and bounds, located on the north bank of Anchor Slough, a part of Chickamin River, approximate latitude 55°49' N., longitude 130°54'30" W.

b. List No. 10-12:

Land: A tract of 125.61 acres, described by metes and bounds, located on the north bank of Anchor Slough, a part of Chickamin River, approximate latitude 55°50'00" N., longitude 130°55'00" W.

c. List No. 10-13:

Land: A tract of 99.79 acres, described by metes and bounds, located on the south bank of Anchor Slough, and on an island between Anchor Slough and the main Chickamin River, approximate latitude 55°50' N., longitude 130°55' W.

d. List No. 10-14:

Land: A tract of 129.83 acres, described by metes and bounds, located on the shore of an unnamed island between Anchor Slough and Chickamin River, approximate latitude 55°50' N., longitude 130°55' W.

e. List No. 10-15:

Land: A tract of 126.68 acres, described by metes and bounds, located on the shore of an unnamed island between Anchor Slough and Chickamin River, approximate latitude 55°50' N., longitude 130°55' W.

f. List No. 10-16:

Land: A tract of 138.75 acres, described by metes and bounds, located on the shore of an unnamed island between Anchor Slough and Chickamin River, approximate latitude 55°50' N., longitude 130°55' W.

g. List No. 10-17:

Land: A tract of 85.94 acres, described by metes and bounds, located on the east shore of an island between Anchor Slough and Chickamin River, approximate latitude 55°50' N., longitude 130°55' W.

EARL J. THOMAS,
Acting Director, Bureau of Land Management.

[F. R. Doc. 58-5452; Filed, July 16, 1958; 8:46 a. m.]

Bureau of Reclamation

JOHN DAY PROJECT, OREGON

ORDER OF REVOCATION

By virtue of the authority vested in the Secretary of the Interior by section 3 of the Act of June 17, 1902 (32 Stat. 388; 43 U. S. C. 416), and pursuant to Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental order of March 21, 1917, insofar as said order affects the following-described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order, or affect any other order withdrawing or reserving the land hereinafter described:

WILLAMETTE MERIDIAN

T. 12 S., R. 26 E.,
Sec. 20, SW¼NE¼, SE¼NW¼ and NE¼SW¼;
Sec. 26, SE¼SW¼ and SW¼SE¼;
Sec. 30, NE¼NE¼;
Sec. 34, NE¼SE¼.
T. 13 S., R. 27 E.,
Sec. 5, S½SE¼.

The areas described aggregate 360 acres.

WILLIAM I. PALMER,
Acting Associate Commissioner.

[Oregon 06048]

JULY 11, 1958.

I concur.

The records of the Bureau of Land Management will be noted accordingly.

1. The S½SE¼ of Sec. 5, T. 13 S., R. 27 E., has been patented without a mineral reservation to the United States. The lands in Sec. 20 T. 12 S., R. 26 E., are included in Power Site Reserve No. 65, and those in Secs. 30 and 34 are withdrawn for stock driveway purposes.

2. The lands, which are located 3 to 6 miles west of Dayville, Grant County, Oregon are generally rough and covered by a stand of cheat and bunch grass.

3. No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. Subject to any valid existing rights, the provision of existing withdrawals, and the requirements of applicable law, the vacant public lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284 as amended), presented prior to 10:00 a. m. on August 16, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on November 15, 1958, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on November 15, 1958, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

5. The restored lands excepting those described in paragraphs 6 and 7 of this order, have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on November 15, 1958.

6. The lands withdrawn for power purposes have been open to location under the United States mining laws pursuant to the provisions of the act of August 11, 1955 (69 Stat. 681; 30 U. S. C. 621).

7. The lands withdrawn for stock driveway purposes have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws and the regulations in 43 CFR 185.35, at 10:00 a. m. on August 16, 1958.

8. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office,

Bureau of Land Management, Portland, Oregon.

EARL J. THOMAS,
Acting Director,
Bureau of Land Management.

ILLINOIS

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of Illinois a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

ILLINOIS

Clark.	Lawrence.
Crawford.	Wabash.
Edwards.	White.
Gallatin.	

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1959, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 11th day of July 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[Public Notice PN 12, Amdt. 1]

DELEGATIONS OF FINAL AUTHORITY RELATED TO SUBSTANTIVE PROGRAM MATTERS

The Civil Aeronautics Board hereby amends Public Notice PN 12, dated May 1, 1958,[1] as follows:

1. By amending the entire section 5, *Chief, Office of Carrier Accounts and Statistics* to read as follows:

SEC. 5. *Chief, Office of Carrier Accounts and Statistics.* The Chief, Office of Carrier Accounts and Statistics, is administering the accounting, reporting, and record-keeping requirements of Parts 241, 242, 243, 244, 248, and 249 of the Economic Regulations, is authorized to:

.01 Waive any of the accounting, reporting, and record-keeping requirements, as warranted to meet temporary or local conditions.

.02 Interpret the Board's accounting, reporting, and record-keeping requirements.

.03 Require submission by carriers of special statements necessary to an explanation of any carrier accounting and reporting practice.

.04 Establish detailed standard accounting, reporting, and record-keeping practices required to achieve conformance with policies promulgated by the Board.

.05 Grant or deny individual requests for extension of time for filing reports.

2. By amending subsection 11.01C to read as follows:

C. Chief, Office of Carrier Accounts and Statistics—The authorities recited in section 5, except subsection 5.02.

3. By adding a new section 11.02C1, as follows:

C. By the Chief, Office of Carrier Accounts and Statistics.

1. To the Chief, Regulations and Reports Division—The authority cited in subsection 5.05.

Effective: June 24, 1958.

SAMUEL JAMES ROLEY

ORDER DESIGNATING MATTER FOR HEARING ON STATED ISSUES

In the matter of Samuel James Roley, Beverly Hills, California, suspension of amateur radio operator license (W6VUP).

The Commission having under consideration the request of Samuel James Roley, Beverly Hills, California for a hearing in the above-entitled matter;

It appearing that the said Samuel James Roley, acting in accordance with the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, filed with the Commission within the time provided therefor an application requesting a hearing on the Commission's Order of June 16, 1958, which suspended his Extra Class Amateur Radio Operator License for a period of six months; and

It appearing that under the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, said licensee is entitled to a hearing in the matter and that, upon the filing of a timely written application therefor, the Commission's Suspension Order is held in abeyance until the conclusion of proceedings in the said hearing;

It is ordered, This 10th day of July 1958, under authority contained in section 303 (m) (2) of the Communications Act of 1934, as amended, and section 0.292 (f) of the Commission's rules, that the matter of the suspension of the Extra Class Amateur Radio Operator License of Samuel James Roley be designated for hearing before a Commission Examiner, at a time and place later to be specified, upon the following issues:

1. To determine whether the licensee committed the violations of the Commission's rules as set forth in the Commission's Order of Suspension;

2. If the licensee committed such violations, to determine whether the facts or circumstances in connection therewith would warrant any change in the Commission's Order of Suspension.

It is further ordered, That a copy of this order be transmitted by Certified Mail—Return Receipt Requested, to Mr. Samuel James Roley, 2840 North Beverly Drive, Beverly Hills, California.

Released: July 11, 1958.

FEDERAL POWER COMMISSION

[Docket No. G-15448]

MAGNOLIA PETROLEUM CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 11, 1958.

Magnolia Petroleum Company (Operator) et al. (Magnolia) on June 13, 1958, tendered for filing proposed changes in its present effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, undated.
Purchaser: El Paso Natural Gas Company.
Rate schedule designation: Supplement No. 10 to Magnolia's FPC Gas Rate Schedule No. 20. Supplement No. 4 to Magnolia's FPC Gas Rate Schedule No. 48.
Effective date: July 14, 1958 (effective date is the first day after expiration of the required thirty days notice).

In support of the proposed favored-nation rate increases, Magnolia submits general statements stating that the gas sales contracts resulted from arm's-length negotiations in good faith, seller would not have committed the gas for the contractual term without price adjustment, and the proposed price is just and reasonable and is not in excess of the current field price. Magnolia also cites the increasing costs of exploration, production and gathering of gas and avers that increased prices are necessary as an incentive to continue such operations.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 10 to Magnolia's FPC Gas Rate Schedule No. 20, and Supplement No. 4 to Magnolia's FPC Gas Rate Schedule No. 48, be suspended and the use thereof deferred as hereinafter ordered.

[1] Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 20 and Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 48 are in effect subject to refund in Docket No. G-12981.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 10 to Magnolia's FPC Gas Rate Schedule No. 20, and Supplement No. 4 to Magnolia's FPC Gas Rate Schedule No. 48.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until December 14, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until this proceeding has been disposed of, or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-15449]

MAGNOLIA PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

JULY 11, 1958.

Magnolia Petroleum Company (Magnolia) on June 13, 1958, proposed changes in its presently effective date schedules [1] for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, undated.
Purchaser: El Paso Natural Gas Company.
Rate schedule designation: Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 26. Supplement No. 6 to Magnolia's FPC Gas Rate Schedule No. 76. Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 101. Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 102. Supplement No. 9 to Magnolia's FPS Gas Rate Schedule No. 103. Supplement No. 3 to Magnolia's FPC Gas Rate Schedule No. 119.

[1] Supplement No. 7 to Magnolia's FPC Gas Rate Schedule No. 26; Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 101; Supplement No. 6 to Magnolia's FPC Gas Rate Schedule No. 102; Supplement No. 7 to Magnolia's FPC Gas Rate Schedule No. 103; and Supplement No. 1 to Magnolia's FPC Gas Rate Schedule No. 119 are in effect subject to refund in Docket No. G-12962 and Supplement No. 4 to Magnolia's FPC Gas Rate Schedule No. 76 is in effect subject to refund in Docket No. G-13030.

Effective date: July 14, 1958 (effective date is the first day after expiration of the required thirty days notice).

In support of the proposed favored-nation rate increases, Magnolia submits general statements stating that the gas sales contracts resulted from arm's-length negotiations in good faith; seller would not have committed the gas for the contractual term without price adjustments, and the proposed price is just and reasonable and is not in excess of the current field price. Magnolia also cites the increasing costs of exploration, production and gathering of gas and avers that the increased prices are necessary as an incentive to continue such operations.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 26; Supplement No. 6 to Magnolia's FPC Gas Rate Schedule No. 76; Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 101; Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 102; Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 103; and Supplement No. 3 to Magnolia's FPC Gas Rate Schedule No. 119, be suspended and the use thereof be deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 26; Supplement No. 6 to Magnolia's FPC Gas Rate Schedule No. 76; Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 101; Supplement No. 8 to Magnolia's FPC Gas Rate Schedule No. 102; Supplement No. 9 to Magnolia's FPC Gas Rate Schedule No. 103; and Supplement No. 3 to Magnolia's FPC Gas Rate Schedule No. 119.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until December 14, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until this proceeding has been disposed of, or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-15450]

SUN OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

JULY 11, 1958.

Sun Oil Company (Sun) on June 11, 1958, tendered for filing a proposed change in its rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filings:

Description: (1) Letter, dated October 31, 1957. (2) Contract, dated January 5, 1953. (3) Letter, dated April 27, 1955. (4) Supplemental Agreement, dated January 31, 1956. (5 Letter, dated February 13, 1958.
Purchaser: United Fuel Gas Company.
Rate schedule designation: (1) Sun's FPC Gas Rate Schedule No. 98. (2) Supplement No. 1 to Sun's FPC Gas Rate Schedule No. 98. (3) Supplement No. 2 to Sun's FPC Gas Rate Schedule No. 98. (4) Supplement No. 3 to Sun's FPC Gas Rate Schedule No. 98. (5) Supplement No. 4 to Sun's FPC Gas Rate Schedule No. 98.
Effective date: Date of initial delivery.

Sun submitted as a rate schedule an agreement adopting the terms and conditions of a contract dated January 5, 1953, between The Atlantic Refining Company (Atlantic) and United Fuel Gas Company (United Fuel) for the sale of gas to United Fuel from Sun's interest in the Midland-Estherwood Field, Acadia Parish, Louisiana. Sun states that its portion of the gas from the units not committed under other sales arrangements has heretofore been disposed of by Atlantic under the terms of a joint operation agreement. Atlantic's filed rate schedule for the sales in the subject field is its FPC Gas Rate Schedule No. 63, and the presently effective rate of 18.2 cents per Mcf is in effect subject to refund in suspension Docket No. G-13440. The rate schedule is also involved in two previous suspension proceedings, Docket Nos. G-9443 and G-11247. Sun has filed a certificate application to cover the sale in Docket No. G-15267.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Sun's FPC Gas Rate Schedule No. 98, and Supplement Nos. 1, 2, 3 and 4 thereto, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Sun's FPC Gas Rate Schedule No. 98, and Supplement Nos. 1, 2, 3 and 4 thereto.

(B) Pending such hearing and decision thereon, said rate schedule and the supplements thereto be and they are each hereby suspended and the use thereof deferred until July 13, 1958, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the rate schedule or supplements hereby suspended shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. 10396 etc.]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

ORDER FIXING DATE FOR ORAL ARGUMENT

JULY 11, 1958.

In the matters of American Louisiana Pipe Line Company, Docket No. G-10396; Gulf Refining Company, Docket No. G-10400; Panhandle Eastern Pipe Line Company, Docket No. G-11061.

Numerous exceptions have been filed to the initial decision issued June 12, 1958, by the Presiding Examiner in the above-entitled proceedings, and requests for oral argument thereon have been submitted in connection with the exceptions.

The Commission finds: It is appropriate in the public interest that oral argument be held on the exceptions filed to the Examiner's decision as hereinafter ordered.

The Commission orders:

(A) Oral argument before the Commission in this matter be held on August 4, 1958, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C.

(B) Parties desiring to participate in the oral argument shall advise the Secretary on or before July 22, 1958, and shall specify the amount of time requested for presentation of argument.

By the Commission.
